REPUBLICANS PLAN TO CONDUCT FIGHT ON SECRETARY POST

Labor Department Charged With Friendship for Rad- ical Elements.

RESOLUTION PRESENTED FOR AN INVESTIGATION

Hoch Introduces Measure After Extending Conferences With Colleagues.

Washington, April 15.—A resolution looking to the impeachment of Assistant Secretary Post, of the Labor Department, for his attitude toward the deportation of radicals, was introduced today by Representative Hoch, Republican, Kansas, after a conference with the judiciary committee to investigate charges made against Post by Chairman Johnson, of the Immigration committee, and others, and if the evidence warranted to report a resolution proposing impeachment.

The measure was referred to the House rules committee which will decide whether it should be made a special order of business before the house. There was no indication what the rules committee would act.

Mr. Hoch intended to present his resolution when the house first convened and arose to do so, but Representative Mondell, the Republican leader, told Mr. Hoch that he "would not do that now," and the Kansas member temporarily abandoned his plan. Later he conferred with Republican leaders and decided to offer the measure.

Mr. Hoch's resolution follows:

"Whereas, it has been charged on the floor of the house by the chairman of the Committee on Immigration and Naturalization and by other members of the house, that Louis F. Post, assistant Secretary of Labor, has, in the discharge of his official duties, and in the exercise of his authority, actual or assumed, flagrantly abused his power in connection with the deportation of alien enemies of the country; that he has in his official capacity pushed toward those who would destroy by force and violence the government or its institutions, a policy subversive of the welfare, the peace and the dignity of the United States, that he has in an unwarranted manner submitted to the demands of those seeking to prevent the deportation of alien enemies; that by a flagrant and unwarranted abuse of power, he has hindered, delayed and prevented the deportation of alien enemies, who by act and counsel would undermine and overthrow the government of the United States, and

"Whereas, the said offenses alleged to have been committed by the said Louis F. Post, if true, high crimes and misdemeanors against the United States,

"Therefore, be it resolved, That the committee on the Judiciary be directed to inquire into the truth of falsity of said charges against the said Louis F. Post, assistant Secretary of Labor, and if it finds that said charges are true to report its findings to the house together with a resolution providing for the impeachment of the said Louis F. Post, assistant Secretary of Labor.

TWO CASES HEARD IN SUPERIOR COURT DURING YESTERDAY

N. W. Outlaw Given Judgment in Suit for Money Invol- ed in Land Sale.

NON SUIT PROCEEDINGS AGAINST KINSTON BANK

Case of Outlaw Against Kin- ston Bank Finally Ends With Non Suit.

Only two cases received disposition in yesterday's session of the civil term of Pitt county's superior court. The first receiving attention was the case of N. W. Outlaw vs. Walter Lee. The suit was brought about over a check which Lee gave Outlaw for a piece of property. The check was for the amount of \$1150, and when Mr. Outlaw presented same at the National Bank, of Kinston, it was turned down. Judgment was rendered in favor of Outlaw.

Non suit proceedings were taken in the case of N. W. Outlaw vs. National Bank of Kinston and Walter Lee. The bank was drawn into the controversy for refusing to honor Lee's check, for the above amount, when presented by Outlaw. Some of the best legal advice in the state was employed on both sides.

WIRELESS STATION AT BEAUFORT DESTROYED BY FIRE TODAY

New Bern, N. C., April 16.—A fire of unknown origin destroyed the wireless station near Beaufort. The fire gained such a headway that it was impossible to save the building and contents. The plant was owned by the government and valued at thousands of dollars.

Messrs. E. R. Walker and H. S. Walker, of Wilson, were in the city for a short time Thursday.

LORMAN ROBINSON SHOWS ATTRACTING BIG CROWDS DAILY

Only One More Night of Carni- val After Exhibition Dur- ing Tonight.

After tonight there will be only Saturday left to enjoy the wonders of the many amusement features which are at the American Legion Festival where the Lorman-Robinson Shows have been holding forth this week to good crowds.

Saturday will be the last day of the carnival and when the last show is out and over on Saturday night, the showmen, like the Bedouins of the desert will fold their tents and vanish to pastures new.

The Lorman-Robinson shows is a Southern product with winter quarters at Jacksonville, Fla. They are working their way towards the northern territory where they will play several engagements prior to a tour of the Dominion of Canada.

There have been many carnivals organizations here in the past but there are few that have gained the reputation for cleanliness and general merit as the Lorman-Robinson shows which will always be welcome in Greenville as long as they bring us as clean a program as they have been offering this week at the show grounds near the Imperial Tobacco factory.

HERE TO ATTEND BASEBALL MEETING.

BIG FOUR LEADERS MUST GET MEN ON JOBS BY SATURDAY

Ultimatum Issued in New York Makes Specific Demands of Men.

WILL PERMIT STRIKERS TO RETURN TO PLACES

Great Improvement Reported in Several Districts Seri- ously Affected.

New York, April 15.—The railroad General Managers' Association of New York tonight delivered an ultimatum to the "Big Four" railroad brotherhoods giving them until noon Saturday "to have their men report for work."

After that time it stated the railroads "will themselves open their books for a period of 24 hours ending at noon, Sunday, for such men as register during that period and who are acceptable, who will be taken back into the service, retaining their roster rights."

"In any event," the ultimatum added, "the railroads retain the right to refuse to reinstate or re-employ certain employes who have shown during the period of trouble by violence, sedition, utterances, intimidation or other well defined means, an unfitness for further railroad service."

J. J. Mantell, spokesman for the general managers, said hundreds of offers of assistance were pouring in upon the managers' organization.

Marked improvement was reported today on traffic arteries into New York, while across the Hudson in Jersey City and Hoboken, striking railroad men debated the question of returning to their posts and voted not to form a new organization but to "stick to the brotherhoods." The question of returning to work was not put to a vote, but the brotherhood officials were optimistic of an early settlement.

At another meeting of the strikers tomorrow, it was announced a new wage scale demand would be drafted. Brotherhood leaders will be asked to (Continued on page eight.)

DR. JAMES TURNER TO PREACH IN CITY ON COMING SUNDAY

Pastor-Elect of Immanuel Bap- tist Church to Preach Evening and Night.

Dr. James B. Turner, pastor-elect of Immanuel Baptist church comes Saturday afternoon to be present for both services Sunday. He will remain here for two weeks and personally conduct the revival services in that church during the series of simultaneous meetings which will be participated in by all the churches of Greenville beginning Sunday. Dr. Turner is the young man's man, a manly man as well as a strong preacher.

The singing will be led by Rev. Eugene Oliver, pastor of the Baptist church at Dunn. Mr. Olive had charge of the music at the Baptist Sea-side Assembly at Wrightsville last summer and is a song leader of marked ability.

The Immanuel Baptist church has held a series of cottage prayer meetings for the past two weeks in preparation for the simultaneous meetings. April 18 to 29 ought to be a season of great religious blessings to Greenville and that church can be counted on to do its full part in a forceful but unostentatious manner. They are working diligently and praying for a great revival for all Greenville.

LEAGUE OFFICIALS TO STOP GAMBLING IN BASEBALL GAME

National League Officials to Curtail Bets on Opposing Pitchers.

MOST GAMBLING DONE IN CITY POOL ROOMS

Mitchell Says Gambling Must be Stopped if Sport Re- mains Pure.

Chicago, April 16.—Gambling on baseball games will be curbed this season, according to officials of the Chicago National league baseball club, who have started a movement against the practice. It is claimed that numerous bets are made on the strength of who the opposing pitchers are to be. This year, Manager Fred Mitchell, declared he will not announce his pitcher until the time his batting order is handed to the umpire, just before the game.

Manager Mitchell, whose home is in Boston, declared he knows of numerous instances in which the wagers were placed after the pitchers had been selected. He said he also knows of a certain hotel waiter who was paid \$5 a day by a gambler, for obtaining from the visiting manager the name of the pitcher who was to perform for the visiting club that day.

"Most of the betting is done in the pool rooms downtown," said Mr. Mitchell, "and I believe if the proprietors of these places do not know who is going to pitch they will not be so keen to accept wagers. By withholding the names of the pitcher, I believe much of the gambling will stop."

"If we desire to keep the sport pure, gambling must be eradicated. The Chicago club is to do all it possibly can to stop it. President William Veeck always has taken steps to keep it out of the ball park in Chicago, and I am going to attempt to keep the men in the pool rooms from betting on the pitcher a the last moment."

"Gambling is not to creep into the game and ruin it for the future fans and players if I can help it," Mitchell continued, "and if there is the least suspicion of it on my team an investigation will be made and the man or men who are apprehended will not stay a minutes."

CHICAGO ATTEMPTS TO END EXTORTION IN BIG HOUSE RENT

Home Building Corporation Or- ganized to Provide Homes for Citizens.

PROFITEERING IN RENTS BECOMING REAL SERIOUS

Several Hundred People Living in House Boats Instead Paying Prices.

Chicago, April 16.—This city is attempting to prevent rent profiteering by regulating increased in rates and by organizing a \$100,000,000 corporation to build homes and sell them on easy payments. Meanwhile Chicago's flat dwellers have been forming unions to wage war on alleged profiteering landlords and committees in the city council have been investigating increases in rents ranging up to 100 and even 200 percent.

Several hundred families have solved their individual housing problems by making their homes in house boats moored in the branches of the Chicago river, the Calumet and lakes in south Chicago. Once in possession of a house boat, the owner only has to pay \$1 a month for the privilege of mooring his craft. If he does not like his location he can move his home boat elsewhere. Many of these boats cost \$1,000 each and have five rooms, parlor, dining room, kitchen and two bedrooms.

In some cases groups of tenants have solved the rent problem by forming co-operative companies and buying the apartment houses in which they live.

The housing corporation, which has been financed by banks and business men, has under consideration a plan to build a row of model homes in Grant Park, on the lake front. Examples of many types of standardized homes would be erected, furnished and surrounded by settings of trees and shrubbery so that a prospective purchaser of a new home could look over the styles before placing his order.

Attempts have been made to check rent profiteering by co-operation of the city council and the Cook County Real Estate board which investigated complaints and, when increases were found to be excessive, advised the landlord to withdraw his demands. In general the investigators have allowed an increase of about 30 per cent over last year's rentals.

FISH FRY IS GIVEN BY JESSE WINGATE AT DAWSON BEACH

Three Hundred Guests Delight- fully Entertained During Yesterday Evening.

Yesterday at Dawson's seine beach, near Ayden, Mr. R. Wingate and son Mr. Jesse Wingate, gave a delightful fish fry to their friends, about 300 guests enjoying their hospitality. It was one of the most elaborate spreads that has ever been given in this section of the county. They not only had a fish fry, but barbecue, ham, chicken and in fact every thing good to eat were served. The occasion will long be remembered by all present.

PRESIDENT ISSUES CALL FOR SESSION OF RAILWAY BODY

Board Has Been Confirmed and Will Meet Today at Presi- dent's Request.

EFFECTIVE AGENCY TO END RAILWAY STRIKES

Department of Justice Still Con- tinuing Drive Against Agitators.

Washington, April 16.—Nomination of members of the Railway Labor Board were confirmed today by the Senate and the board was called tonight by President Wilson to meet tomorrow and organize. Some of the members are already in the city, and provision has been made for their assembly at headquarters of the railway administration.

The President's call was issued as soon as word of the Senate's action reached him. Administration officials have felt that the board would prove an effective agency toward ending the "outlaw" strike of railway men.

The Senate apparently shared this view. While sharp criticism of some of the nominations is known to have been expressed again today, final action was taken in an unusually brief time, considering the importance of this new government agency and of the immediate task that faces it.

Attorney General Palmer said today he believed that the chaotic condition created by the walkout was improving, but he declared that the Department of Justice was no relaxing its efforts in any direction. United States district attorneys in every strike area have made local arrests of agitators and strikers, but these, it was said, were cases where specific law violations have occurred.

Mr. Palmer declared such matters were not for "headquarters consideration," reiterating that the government expected the district attorneys to act on their own initiative with respect to prosecution of violators of law.

Department officials have practically decided to canvass the lists of all strikers, and are expected to ask officials of all railroad lines affected by the strike to furnish the same information as was requested of the Pennsylvania and New York Central lines Tuesday. Assistant Attorney General Garvan said he expected these lists of names to divulge the identity of the "borers from within," in the recognized labor organizations.

The department has card indexed the records of more than 60,000 radicals, and the names of strike leaders and agitators will be traced through these records in an effort to establish connection with previous activities.

Mr. Garvan said a staff of clerks already had begun the work of eliminating the "mislead from the agitators" through the process of comparison of records. This work will go on, even though the strike collapses completely, he said.

Any Man Can Be A Capitalist

Some philosophers go to great lengths explaining why money is not the only thing to work for in life.

And their contention is a good one.

It is true that some wealthy men are miserable, but no man need be unhappy for having money. A man with money is an influence in his community. He can live well and die happy.

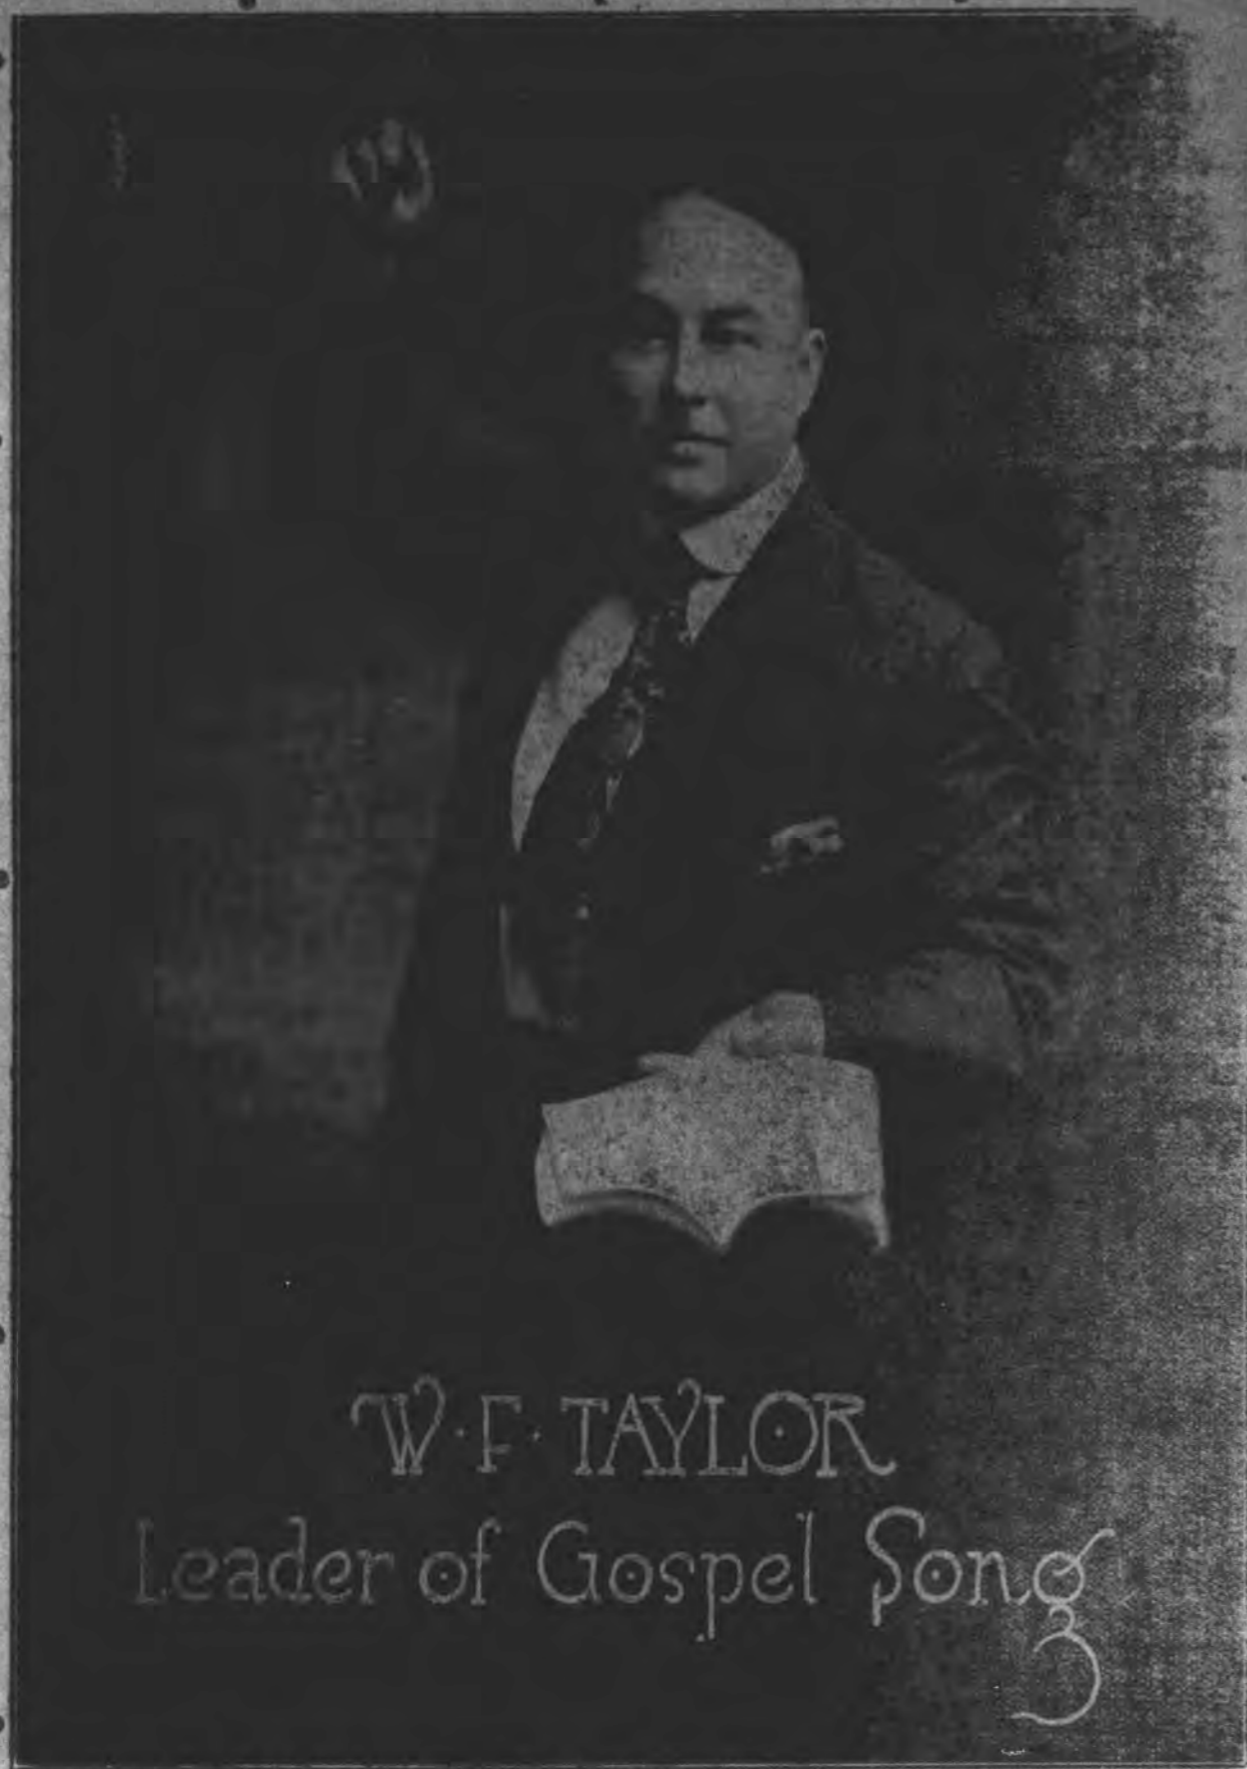

Poverty and misery go hand in hand. Choose your own fate—be a capitalist or a pauper.

FOSTER DECLARED IN RAILWAY STRIKE

Radical Leader of Steel Strike
Said to be Promoting
"Outlaw" Strike.

WILSON WILL INFORM
WORKERS OF SITUATION
Government to Await Attitude
of Workmen Before Tak-
ing in Decisive Action.

Washington, April 14.—Department of Justice investigators report that evidence in their possession proves that William Z. Foster, leader of the steel strike, is the prime mover behind the "outlaw" railroad strike.

The government let this be known tonight, feeling that when the strikers learn what influences are behind the movement they will align themselves with their recognized organizations. Action by the government in the direction of prosecution of strike leaders, therefore, will be held in abeyance, pending the expected re-action among the strikers on receipt of information showing the directing impulse of the strike agitation.

The evidence in the hands of Attorney General Palmer shows that Foster was present at union meetings which were adjourned to meet in other halls, not as organizations, but as individuals. Mr. Palmer also said that Carl Pierson and A. E. Reese, both of whom the department's investigators have placed in the category with Foster, were engaged in attempts to expand the strike and were definitely connected with planning it. Both began this work in Chicago, Mr. Palmer said.

As this phase of the situation became known, President Wilson met this cabinet for the first time since last August. The whole story of the strike crisis was related and it was understood a decision was then reached to seek a solution through the publication of the motives behind the walkout, the strikers being assured at the same time of early consideration of any wage demands they may have by the railway labor board.

This must not be construed to mean the government has adopted a policy of hands off. It was said, but rather that officials believed the time has not arrived for direct governmental action.

The senate did not confirm today the nomination to the labor board. They were considered in executive session and the President's selection brought sharp criticism in some cases, it was understood.

INCREASE IN MARKETING FACILITIES ARE ADVISED

Elimination of Unnecessary
Costs in Distribution to
Feature in Plans.

Washington, April 14.—Declaring that the costs of food distribution are too great, the federal trade commission today recommended improved marketing facilities and processes at the great consuming centers as a long step towards lowering the high cost of living. "The movement of food should be most direct from field to factory," the commission declared in a report on wholesale marketing of food, one of the series in the food price investigations ordered by the President.

Elimination of unnecessary costs and losses in food distribution, the report added, would not only "act as a counter agent in checking disparity in food prices and money incomes, but would strengthen the nation's position in its competition for world trade."

The report asserts that the rapid rise in food prices in recent years is not so significant as "that the money incomes of large numbers have fallen far short of a proportional increase."

Battery Life Depends upon INSULATION

Threaded Rubber Insulation has these
three distinct advantages over any other:

1 There's only one sure-fire preventive against aging on the shelf—that is to store the batteries in true bone-dry condition, which is possible only with the Willard Battery containing Threaded Rubber Insulation.

2 The life of the battery is largely up to the man in the car, but Threaded Rubber Insulation adds greatly to its chance of long service, because it removes one of the commonest causes of battery trouble—breaking down of the insulation.

3 Nearly every battery with ordinary insulation has to be re-insulated at least once during its lifetime. Willard Threaded Rubber Insulation never has to be replaced.

1. Threaded Rubber Insulation eliminates depreciation in the dealer's stock.

Willard Batteries with Threaded Rubber Insulation, since they have no wood insulation in any form, can be shipped and stored bone-dry—since neither plates nor insulation in the battery have ever been wet.

The storage battery with wood insulation in any form can not be kept in a dealer's stock without depreciation, because wood insulation must be put into the battery wet at the factory, and, once, the insulation is wet, a continuous chemical action begins; and furthermore, the insulation can not be allowed to be dried out, as it would become damaged. Hence the battery must soon be filled.

2. Threaded Rubber Insulation returns bigger dividends to the user.

Threaded Rubber Insulation is a manufactured product held to rigid uniformity, more durable and long-lived than any wood can be. The car owner is not wholly relieved of caring for his battery, but the battery will stand more abuse, and function at high efficiency for a much longer time.

3. Threaded Rubber Insulation makes re-insulation unnecessary.

When installed in the car no one can say just how soon wood insulation will begin to break down, on account of the impossibility of securing absolute uniformity in wood, since it is the product of nature, not of scientific manufacture. During this period even careful driving and faithful attention to battery care will not absolutely insure long life.

Re-insulation—at considerable expense—is almost certain to come before the ordinary battery is worn out, and the life of any battery after re-insulation is uncertain.

Threaded Rubber Insulation outlasts the plates and re-insulation is, therefore, unnecessary.

FRIDAY, APRIL 16, 1920.

Raleigh is still talking about its automobile exposition, and judging by reports, it certainly has a right to do so.

Now that the airplane scare has passed off it is possible that blockaders will come out and try the law enforcement campaign.

Some folks may think they are giving a mighty bump, when in reality, they are only giving it a stimulus by purchasing goods at exorbitant prices.

Foster certainly played a mighty slick part in the unorganized railway strike, but he is probably convinced by this time that surreptitious plans do not always carry, particularly when the public is concerned.

The hunger strike recently reported in Dublin has been materially relieved, according to late dispatches from that region, so we suppose belligerency will be resumed soon as people recover natural strength.

That man recently arrested in Los Angeles, charged with having twenty wives, probably doesn't feel like trying out matrimony again. And he won't hardly get another chance by the time courts get through with him.

Suffrage has now turned towards the south for finally ratifying the amendment to the national constitution, so it is very natural to expect that Dixie land may enjoy unusual popularity while the vote is being anticipated.

Troops of the republic of Sonora are reported to be giving the Mexican government some little trouble, and have really had their first clash with federal troops. Fortunately, Sonora is a small part of the country, and may very soon be calmed down.

THE EDUCATIONAL CONFERENCE.

A national conference of representative citizens from every part of the United States has been called by the United States Commissioner of Education to meet at Washington, May 19, 20, and 21 "to consider the pressing problem of education from the standpoint of statesmanship and the public welfare."

Commissioner Claxton's conference has the hearty approval of the new secretary of the Interior, John Barton Payne, who has sent a special invitation to the governor of every State to head the delegation of his state at the conference.

In his letter to the governors Secretary Payne says:

"The emergency in education in the United States, arising out of the present and prospective shortage of teachers, the necessity for immediate increases in funds for the support of schools of all grades, and the need for better adjustment of educational programs to the requirements of the new era are, I believe of so great importance as to justify the calling of a national conference of representative citizens to consider these pressing problems of education from the standpoint of statesmanship and the public welfare. Such a conference is being called by the commissioner of education, with my approval, to meet in Washington on May 19, 20, 21.

"It is very desirable that each state be represented in this conference by its chief executive, its chief school officer, and a good number of its most prominent and influential citizens."

In his invitation for the conference Commissioner Claxton points out that the proposed gathering is primarily a citizen's conference rather than a meeting of educators, though representative school men will be in attendance. Business men, farmers, labor leaders, members of boards of education, editors of magazines and newspapers, and individual men and women interested in education are among those who will be invited.

Senator Simmons has filed notice of his candidacy for the Democratic nomination for president of the United States, and if unopposed, the state board of elections will certify him without further consideration. Senator Simmons would make a mighty fine executive, for the way he has served North Carolina in the senate is evincence enough that he could serve the state in a very acceptable way. There is slight probability of any opposition, it is believed, but if there should be any it is hoped Mr. Simmons will still remain in the ring and play the game until the last vote has been counted.

Overall clubs are becoming recognized in many parts of the country as a direct way for reducing the high cost of living, therefore, it is hoped Greenville people will like the idea and get down behind such a movement locally. Something must be done to discourage extortion, and this, we believe, is one of the most direct ways to go about the matter, particularly with the men.

Now that President Wilson and his cabinet are down behind the unorganized strikers it is highly probable something interesting may be going on in a short time. Already the first overtures of peace have been noted, but this does not mean that peace is a permanency until the strikers become fully convinced that their efforts are without desired result.

Charlotte, after boasting of its splendid increase of population, probably feels less elated now that Winston-Salem is leading it by a good two thousand majority. However, both cities are to be congratulated upon the fine showing for it speaks in glowing terms of certain achievements which any town would be glad to claim.

Now that Greenville is assured of having league baseball this season, it is hoped that every public-spirited citizen will rally behind the boys and see to it that they are not handicapped by lack of funds. We can have a winning team, but this cannot be made a reality unless the club receives hearty support from the fans.

BEAUTY-SWEET.

Last evening at 8:30 o'clock in the auditorium of the Greenville High School, the swellest wedding of the season took place when Miss Polly Anna Sweet (C. D. Tunstall) the charming and attractive daughter of Mr. and Mrs. Obediah Sweet, (Dr. C. J. Ellen and Mr. Wiley Brown), became the blushing bride of Mr. Jerome Beauty (Edward Foley). They were hitched up by the most famous hitcher of the South, Rev. Hezekiah Gibb (B. C. Flanagan) his lecture was timely and contained good advice.

Friends from near and far attended the wedding. The friends and relatives entered in the following order: Miss Daisy Lightfoot, (Mr. Frank Rice) and Miss Isabella Stout, (Shep Morton). They wore handsome gowns of satin and silk and carried American beauty roses. The next to enter were Miss Phillipa Means, (C. H. Forbes) and Miss Celestial Switchable (Dr. Spence). They were gowned in black lace and white satin, beautiful evening slippers and carried large bouquets of pink roses. Next came the charming and graceful mother of the groom Widow Beauty (J. K. Brown). She wore a becoming gown of black and silver lace, and carried a bouquet of white roses. She entered with the mother of the bride, Mrs. Obediah Sweet, who had her gray locks beautifully arranged, and carried an armful of lovely spring flowers. Next to enter were two of the most beautiful girls who have ever visited our city, Misses Blossom Cleotoc and Susie Trills (Charlie James and Prof. Rose.) They wore beautiful creations of white and blue tulle over satin, and carried pink roses. They were followed by the bride's best girl friend, Miss Carrie Hightone (Will Lipscomb). Beautiful will not express her. She was charming in her beautiful white satin gown and silver laces, No 2 shoes and carrying a beautiful bouquet of roses. She was ushered in by Mr. Rastus Cornstalk (Olthos Joyner). Prior to the entrance of the bridal party Misses Carrie Hightone, Blossom Cleotoc and Susie Trills sweetly sang in their feminine voices, "Long, Long, Trail and "Sympathy." The bridal party entered in the following order Jimmie Rosebud (W. L. Best) and Bobby Fullbloom (J. B. Kittrell). They were followed by the bride's maids, Misses Bessie Twitchums (G. J. Woodward) and Matilda Whale (N. W. Outlaw). They wore beautiful frocks of lace and silk, and carried roses. The next groomsmen were Almos Speed (D. C. Moore) and Timothy Glad (Mayor

D. M. Clark) They were real city sports, with red neck ties, and shoe-top trousers and their mustaches had the French curl. The maid of honor, beautiful and attractive Miss Lucretia Butternut (F. J. Forbes), was next to enter. Her slim figure was becomingly gowned in a creation of mulline and silk, and she carried a bouquet of sweet peas. She was followed by Misses Nannie Barcum and Henrietta Bigelow, (William Tyson, Richard Gorman), as flower girls. Their beautiful curls, lovely dresses and blushing faces won the hearts of all the boys. Mary Jane Speight (Murray House), niece of the bride carried the ring in a red rose. She wore a beautiful dress of white embroidered batiste. The bride, escorted by her father. She wore a wedding gown of white satin, court train, veil and orange blossoms. She was met on the stage by the groom

and his best man, E. Beauty, (B. S. Warren).

The old family negro Isaac Smiles, (J. C. Gaskins) and his frail little wife, (Mandy) S. B. Underwood, were present. They were all dolled up in their best meeting clothes.

The "Womanless Wedding" was gotten up under the auspices of the Methodist Missionary Society, and was a real treat. It was enjoyed by all present, and the ladies of the society are to be congratulated upon the success of the wedding.

**CAN. MORRISON'S ANSWERS
TO QUESTIONNAIRE SENT TO
CANDIDATES FOR GOV.**

1. Would you support the adoption of a law fixing a penalty against an employer for discharging an employe for political, religious, or trade union affiliation?

Answer: I would, where there was a contract between employer and employe; but where the service was being rendered from day to day or by piece work, I could not, because the Supreme Court of the United States as I understand the law, has already decided that such a law where the service was not for a term fixed in the contract, unconstitutional. I refer you to case of *Coppage vs. Kansas*, 236 United States; *Adair vs. United States*, 208 United States 161. This decision was much criticized, but even the critics did not question the law upon the principle suggested by your question.

2. Would you support the adoption of a law fixing a penalty for false advertising in newspapers for employes, stating that no labor troubles existed at the place of employment, and to further penalize advertisers who fail to live up to their advertisements? Answer: Yes.

3. Would you support the adoption of a law to prevent rent profiteering by fixing a maximum rental of not exceeding 12 per cent annual rent upon valuation as shown by the tax books, plus same per centage on the value of improvements, this not to apply to share farming?

Answer: I will not. In my opinion, such a law would be extremely socialistic, unconstitutional, and subversive of the basic liberties of the land owners of North Carolina. I do not see any reason why there should be a demand to control the rental value of real estate in North Carolina until we are ready to establish a socialistic government, and let the government fix the price of everything else.

4. Part 1. Will you favor the submission of a constitutional amendment reducing the present constitutional limit of taxation, State, county, and towns, based upon the revaluation?

Answer: I will, as to State and county. There is no constitutional limitation on town and city taxation now. This is regulated by statute, and I would not object to further limitation in respect to town taxation by statute, but I do not believe there should be any limit fixed in our constitutional to town taxation by a vote of the people.

4. Part 2. Farmers' union asks how do you stand on repeal of revaluation act?

Answer: I am not willing to repeal the Revaluation Act in the sense that we shall utterly abrogate it as applied to this year's taxation. I believe this was an honest effort towards an improved taxation system in the State. But I am not in favor of it as a fixed policy. I favor raising all taxes for State purposes thru license, franchise, inheritance, and the other present sources of special taxation, and if necessary, by a small income tax above a reasonable exemption; and then repealing the present Revaluation Act, Revenue bill, and Machinery Act, and relegating under proper law to the counties authority to value all property in the counties for county town, and local taxation. believe the time has come when there should be no tax whatever levied upon property in North Carolina for State purposes. This policy being adopted, there would no longer be any excuse for the State authorities fixing the valuation on property. I am in favor of this policy, and shall earnestly endeavor, if I am elected governor, to have it adopted. Of course, this means that I do favor a repeal of the Revaluation Act, but it does not mean condemnation of this act by me. I believe that the revenue with which to reasonably run our State government can easily be obtained without doing injustice to anybody, and without levying either a property or an income tax for State purposes; but out of the abundance of caution, I very earnestly favor the adoption of the constitutional amendments giving the state authority to levy an income tax, so we can be certain to have sufficient power to raise the necessary revenue for state purposes without a continuation of the policy expressed in the Revaluation, revenue, and machinery acts now in force. I do not believe that equality in the valuation of property between the various counties of the state can ever be obtained through any set of officials. It is an impossible task. I believe the officers now undertaking to execute the Revaluation Act will honestly endeavor to produce equality and justice, but it cannot be done. I do not believe in throwing away all the information and benefits of the revaluation being made, but under new laws, the whole question should be sent down to the counties with authority lodged in the county officials to overhaul and change valuation where they think justice requires. I endeavored to express myself about this question with particularity in a speech made a few days ago at Chapel Hill, to which I refer you for a more particular expression

of my views upon this very important question. I hesitate to express myself about this Revaluation Act in terms of condemnation, because I believe that if it is considered as a mere transition measure from the obsolete and worn out taxation system we now have to the just and scientific system finally aimed at by the Democratic party, it has great value to the state, but as a fixed and permanent policy, I am unalterably opposed to it. I am satisfied that there should be as complete restoration of local self-government in the matter of the valuation and taxation of both real and personal property in this state as can be made, and execute the constitutional mandate with reference to the public schools. I am in favor of taking care of the weak counties in the matter of the school term, but beyond this, I do not believe that the state ought to exercise any authority whatever over the funds raised in the counties by taxation upon property.

5. Would you support the adoption of a Child Labor law divorced from school, welfare, or any other law as now existing? Answer: Yes.

6. Would you support the adoption of a law fixing a penalty for "blacklisting" employes, wherein one employe discharges an employe and has an agreement with other employes not to hire? Answer: Yes.

7. Would you support the adoption of a law preventing state or state institutions letting contracts for any public work upon any basis that may be construed at what is commonly known as "cost-plus" basis? Answer: Yes.

8. Would you support the adoption of a law fixing a penalty for importing guards, whether armed or not, from outside the state during industrial disputes, and making it compulsory that only lawful officers secured from within the state be so employed? Answer: I would favor a law fixing a penalty as far as it constitutionally can be done, against importing guards, whether armed or not, under the circumstances referred to, from outside the state. As to the second part of the question, I am not sure that I understand it. If it means that only lawful officers secured from within the state can be employed to protect the peace, and that private citizens cannot, under proper regulations, be summoned to assist the officers, I cannot agree; but if it simply means that only citizens of the state, under the circumstances referred to in the question, can do police duty, I heartily agree with you. I am opposed to allowing anybody to do police duty unless they are citizens of this state, unless it happened to be a mere bystander in case of disorder, when called upon by an officer to assist him, but I could not favor making it unlawful, under proper regulations, for the officers to have the authority to summon citizens of the state to assist them in preserving peace. I believe a law could be passed which would be constitutional, against allowing men from out of the state to be brought into the state for the purpose of doing police duty of any kind, and I favor this.

9. Would you support the adoption of a law under which the people shall elect the county boards of education, and such boards shall elect county superintendents of public instruction, and these county superintendents, with state superintendent of public instruction, to constitute the state text-book commission, who shall assemble at Raleigh and adopt a set of books throughout from the first grade to and including the eleventh grade, to be used in all state-supported or partly supported graded schools. And then these books to be published by the state, if found to be practicable or more economical, under contract to the lowest bidder, after ninety days advertising of same, or by the establishment of a state printery, at which all school books and other state printing might be done, and such books to be supplied to patrons of schools at actual cost of production?

Answer: As to this question, I am open-minded. I must study the question more than I have. I am in profound sympathy with the educational funds of the State, and have great confidence in them. I would consider their advice about the matter referred to most valuable, though I would not be absolutely controlled by it. I would be truly glad to give you my opinion about the matter referred to, but I have none with which I am satisfied. I assure you that I will give the most earnest consideration to any argument addressed by your representative to me, or to the general assembly upon this question.

10. Inasmuch as it is now lawful to exempt from taxation mortgage on homes of \$3,000 or less on a five-year term basis, will you return the compliment and support a law to exempt the homesteader from taxation on the amount that is so mortgaged, thereby placing the borrower upon the same ground as the lender?

Answer: I was a member of the platform committee of the Democratic party when the mortgage exemption from taxation on homes to which you refer was endorsed. I opposed it then on the ground that it should be reversed, and that the owner of the real estate should only be taxed upon his

equity of redemption, that his interest in it was only the value in excess of the mortgage. I was voted down upon it, and although I did not carry the fight to the convention because I feared I could not win, I assure you it would give me pleasure to use any influence which I may acquire by being elected governor to have this law abrogated, and the real estate exempted from taxation to the amount of the mortgage. I am not sure but what this can be done without a constitutional amendment, and if upon investigation I find that it can be done, I promise you to exert myself to have it done.

11. Would you support the adoption of a law making it compulsory to incorporate all towns and villages with a population in excess of 1,000. Answer: Yes, with this limitation: I would not favor this unless a majority of the qualified voters within the territory proposed to be incorporated petitioned or voted for the same.

12. Would you restore the law that was in force prior to 1917, wherein counties and towns calling upon the state for soldiers in emergency, have to pay the expenses of such soldiers furnished? Answer: I cannot commit myself to the restoration of a law that was in force prior to 1917, because I have not familiarized myself with it, but in so far as it does what is suggested by your question, I am in favor of it. I have not had time to inform myself with exactness as to what this law was, but I favor the expenses being borne by the counties and towns where they call for soldiers. I do not know of anything in this law prior to 1917 to which I am opposed, but it seems to be in some confusion, and I have not had time to acquaint thoroughly with what it is, but I will favor the principle embraced in your question.

13. Will you favor the appropriation by the state, for the use of the bureau of county health work of the state board of health, of an amount sufficient to treat free of charge all defective school children? Answer: Yes, with some proper limitation as to forcing the parents where they are able, to pay the expense, or have the children treated themselves.

14. Would you favor the Australian ballot system, whereby every man entitled to vote can cast his vote free and untrammelled, and without intimidation, coercion, or espionage, thereby insuring a fair and honest election? Answer: Yes.

15. Will you favor an act requiring the use of a sufficient part of the funds derived from the tax on fertilizers for the establishment of such plants as will enable the agricultural department to sell fertilizer materials in car lots to farmers at cost? Answer: I have an impression that to tax fertilizers in the state for the purpose of raising revenue with which to put the state in competition with the fertilizer dealers, would be unconstitutional, and render the entire fertilizer tax invalid. In time of peace, I do not believe this could be lawfully done. My present impression is adverse to the proposition suggested by you.

First Soak- Shave Soap- and

Boil 10 minutes- Punching Clothes with Stick

AND the average week's washing is done for a few cents. Did you ever hear of anything like that? Clean Easy is the most wonderful laundry soap ever made. It does all the work. You don't have to rub or scrub a thing. Clean Easy knocks dirt, spots, stains, germs—anything and everything unclean out of all sorts of clothes.

It won't hurt the clothes—but has the go-get-'em action that cleans overalls, work shirts and all heavy work.

Clean Easy looks different from other soaps—and it is different!

Boiling clothes is the only safe way to wash. Heat kills germs and disintegrates dirt. The Clean Easy method purifies and sterilizes clothes as well as cleans and sweetens them. You couldn't wash your clothes as clean if you scrubbed all the skin off your fingers.

Thousands of women call Clean Easy their best friend. It helps keep them young, bright and happy, for the old back aches, red hands and rheumatism caused by the scrubbing boards are forgotten.

You will be delighted with the ease, rapidity and economy with which Clean Easy cleans clothes. Ask for it today. At your grocer's.

Notice how different Clean Easy looks from other soaps—and how differently it works. There is no "just as good wash soap" made. Clean Easy is in a class by itself.

VOLUNTEERS EAGER TO PRESENT SUBSTITUTES Conditions Approaching Normal in New York and Districts of West.

New York, April 14.—The first overtures of peace on the part of striking railroad workers, who have disorganized the railroad transportation facilities of New York and northern New Jersey, came tonight when Edward McHugh, chairman of the strikers' committee, gave out a statement that "now that the railroad labor board has been appointed we desire to avail ourselves of the opportunity provided by it for a consideration of our grievances."

Restoration of passenger train service on the principal railroads into New York made headway tonight.

The rush of volunteer students and business men eager to substitute for the strikers apparently has had an impressive effect on the strikers. Their defiant attitude toward the railroads was reported to have undergone a change following optimistic reports of the movement of trains without their

assistance. Ferry boats plying the Hudson river from Manhattan to the Jersey terminals were able to handle the heavy traffic increased by the shutdown of the Hudson tubes. Extra boats have been pressed into service.

Lehigh Valley railroad officials announced tonight that through passenger service from the Pennsylvania station is being maintained without interference or delay. Word also was received today from Wilkes-barre, Azelton and Sayre, Pa., that members of the four brotherhoods in these important division points, the center of the anthracite region, had voted not to strike and to remain loyal to the company. President E. B. Loomis was informed by Lehigh University today that the student body, including members of the graduating classes in all branches of engineering work, had offered their services for any emergency.

Conditions in the Grand Central terminal late today more nearly approached normal than during any period of the strike. The only train that had to be annualled was the Springfield Express over the New York, New Haven and Hartford railroad. Recent delays

in other trains were cut from ten to fifteen minutes.

More than five thousand students at Columbia University, it was announced tonight, "are ready to act in any way the railroad managers and brotherhood chiefs might determine." A large mass meeting was held by the students to plan how best they could aid in bringing food supplies into New York. Dr. Richard Derby, son-in-law of the late Colonel Theodore Roosevelt, "freed" the Oyster Bay express into Jamaica this afternoon, having volunteered when another amateur fireman gave out.

First "Housekeepers Week" of State Brought to Splendid Conclusion.

Henderson, N. C., April 15.—Has set the pace for other places with a week devoted to the interests of the housewife, having just brought to a successful conclusion the first "Housekeepers Week" ever held in the state.

Through the efforts of the demonstration agent, Mrs. J. R. Plummer, the District Agent, Mrs. Morris,

the Henderson Chamber of Commerce, and County Agent Anthony, the importance of the business of being a housewife was officially recognized in a program of events that aroused interest among town and county folks for miles around Henderson.

In the rooms of the Chamber of Commerce, demonstrations of bread making, the manufacture of muscadine grape products, butter making, cooking meats, sewing and making hats were given. Around the sides of the room were arranged all the latest devices for making the home more convenient, from a folding ironing board to refrigerators and cooking stoves, all of which were loaned for the week by local merchants.

Speakers from out of town included Mrs. Jane S. McKinnon, State Home Demonstration Agent, and Messrs. Arce and Kimrey of the Raleigh Dairy office of the Extension Service. The morning and afternoon sessions were well attended by both town and county housewives, and several merchants sat through the demonstrations and learned how the things they sold were utilized in housekeeping. The last day of the week was given over to a demonstration of power plants for farms,

BIG FOUR LEADERS MUST GET MEN ON JOBS BY SATURDAY

(Continued from page one.)
present it to the newly created Federal railroad board at Washington it was said.

The city's food supply problem, which was aggravated by a strike of teamsters, chauffeurs, helpers and porters handling butter, eggs, and frozen poultry, took a more hopeful aspect tonight when the strikers, after being idle for 12 hours, voted to return to work tomorrow morning. The porters, who caused the strike, will receive \$35 for a 45-hour week under the new agreement, the union announced. They had been getting \$0.

The short lived teamster's strike was marked by frequent attacks on trucks and several hundred police reserves had to patrol the terminal market district.

Charm of Personality --have you?

YOU see it in some of your friends—most of them. Feel it when you meet. Remember it after you part. It's an indefinable impression that lingers. The reason why is hard to check up. But this is sure—most of it is what you see, the tout ensemble.

Your friends are like you—they remember most what they see when they meet you. And this is even truer with the strangers you meet. They think, though they may not say a word, of the things they see—your appearance.

Kuppenheimer good clothes blend perfectly with the distinctive, best points of your personality. They reflect your judgment of refinement and good taste. They cost no more—look better—serve, satisfy and last longer.
