## DR. CHASE MAKES FINAL ADDRESS AT TRAINING SCHOOL

Commencement Exercises Ended Today by Address of University President.

## SEVERAL YOUNG WOMEN IN GRADUATING CLASS

Inspiring Exercises at Final Commencement Exercises Exercises this Morning

The address before the graduating class of the Training School by Dr. Harry W. Chase was delivered this morning at ten-thirty o'clock. It was a great address, stimulating, thoughtful, filled with optimism.

The great central theme was an educational program that will enable America to meet the great problems she is facing today. The difficult tasks that confront the world in working out democracy are complicated and call for the highest development of the individual, and this can be done only through an educational program that will give all a chance.

He began by saying that he had a feeling of solemnity and exaltation on this occasion, solemnity because of the great confused and confusing tasks that lay ahead of such a group and exaltation that such a group is being added to those who will help in meeting these tasks. He said that when the historians of the future come to set down the place of this period in the world's history, it will be clearly seen that this is one of the great local periods of all history, for hundreds of years the lines have been converging towards this and in the future they will be seen to diverge from this. It can be seen that two great ideas have been growing out of the centuries, and have come into conflict in this age; the one idea that the government existed in order to magnify the state, and there was no thought of the individual, and all that was done for the individual was for the purpose of making him a more efficient, better trained being for the sake of the other ideal was that the State existed merely as a means, a mere device for giving men and women what they truly wanted, for the people. The one that had the State as the end is autocracy; had impersonal machine which grinds the people down; the other is democracy, where the people become the end and the government the mere means. Victory in the great conflict was with democracy. The question now is will the democracy be able to think its way through the confusing problems that now arise. Democracy is on trial now as it never has been before. Democracy is far more difficult to work than autocracy, because it is easier to rule the people to dominate them and make them go certain ways than it is to liberate them.

The task before us is to bring together harder today than it was in 1776, and will, be far more difficult in the generations coming ahead, for the problems grow bigger and vaster and broader every age.

Dr. Chase declared that he was an optimist although he could not fall to see the distress and suffering of the world. Just as it now is seen that it is necessary for the Roman Empire to fall so that humanity might advance, so it is necessary that the German empire should fall and this period of distress and turmoil follow for the advancement of humanity. He expressed the firm belief that there is promise and agency in the individual life set free and liberated by a democratic program of education.

If democracy has faith in education then it is time to make up our minds to put this faith into practice. Where is there anywhere else to turn for help except by enlightening humanity so that it can think its way through the problems? He then passed to the explanation of the reasons why the task is more difficult than ever, and calls for higher training. He compared the knowledge possessed by great scholars of the past to that possessed by even school boys and girls today, and proved that it is not that the minds of man are greater, the raw material is the same, but that the environment is different.

## CONTRACT LET FOR EARLY ERECTION OF \$75,000 BUILDING

Crouse, of Greensboro, Awarded Contract by Auto & Upholstering Co.

## NEW CORPORATION JUST ORGANIZED IN THE CITY

E. G. Flanagan Heads New Enterprise With \$125,000 Capital Stock.

The contract for erection of the three story building of the Auto Painting & Upholstering Company, a newly organized corporation of this city, was let to the J. L. Crouse Co., Greensboro contractors, the first part of this week, and it is expected that work will begin in the erection of the new structure as soon as material can be gotten on the building site next to the post office, on Evans street. The building will cost approximately \$75,000 and will be one of the most modern and up-to-date structures throughout this section of the state.

The new corporation was organized several weeks ago among prominent business interests of the city with a capital stock of \$125,000 with \$75,000 paid in. The officers appointed at the time of the organization were: E. G. Flanagan, president, J. E. Nelson, vice-president, C. F. Hardee, secretary-treasurer, J. D. Murphy, manager. It was announced at the time the officers were elected that contract for the erection of the building would be let at once, but owing to unforeseen difficulties it was impossible to get everything in definite line before the first of the present week.

The new building will be constructed (Continued on page four.)

## LABOR CONDITIONS CAUSE CONCERN IN PARTS OF ENGLAND

Situation Still Unsettled With Little Relief in View Any Time Soon.

London, June 3.—Labor conditions still are unsettled in England, not so much because of dissatisfaction with wages, hours or working conditions as to jealousy between rival trade unions and particularly between skilled and unskilled labor, says the American Chamber of Commerce here.

A crop of new wage demands from other unions is declared to have resulted from the settlement of the demands of the longshoremen by granting them a minimum wage of 16 shillings a day.

The railway men are demanding an advance of \$1 a week in disregard of an agreement they had made with the government only five days earlier which provided for an automatic adjustment of wages according to cost of living. The engineers and firemen also have presented demands for large increases.

The cotton operators who had threatened to strike on May 1 to enforce demands for a 60 percent wage increase have now accepted government arbitration. The employers offered them an advance of 22 1/2 percent which was rejected.

Gas workers have demanded wage increases, more holidays and overtime pay. These would affect 100,000 men. The miners have voted to accept the government's offer of a 10 percent increase in wages. This advance is expected to cost \$32,000,000 a year.

Mrs. B. R. Ratcliffe, and Miss Emily Reid Morrison, of Reidsville, are here to attend the graduating exercises of Miss Martha Ratcliff, at the E. C. T. S., and are the guests of Mrs. E. W. Harvey.

## TURKISH FINANCIER ASSISTS IN KILLING OVER 7000 PEOPLE

General Pasha Included First on Black List to Receive Punishment.

## ADMITS COMPLICITY IN DEATH OF 200 PERSONS

Arabian Government Enters Charges for Deaths of Many Nationalities

Switzerland, June 2.—In one of the most luxurious hotels in Lausanne is now living the Turkish millionaire named General Ahmed Djemal Pasha, former Turkish minister under the Young Turkish army in Syria.

He is the first upon the black list of the Arabian government for extradition and punishment being accused says the Tribune, De Geneve, of the deaths of 7,000 Arabian, Syrian and Armenian families whom he is alleged to have ordered to be massacred or deported into the desert where they died of hunger and thirst in the war. He has been sentenced to death after a hearing in Turkey.

Djemal Pasha who called himself the "Hero of Islam" admits, according to the newspaper, that he was "only directly responsible for about 200 deaths of heretics". By tyranny, it is charged, he obtained his vast wealth in Turkish gold ways refusing bank notes, once a week his wife or one of the members of his family travelled to Constantinople from Djemal's headquarters in Syria under military escort with small boxes of gold which were forwarded subsequently to Switzerland and Holland.

## SALES OF SEASON TICKETS TO BEGIN DURING TOMORROW

Chautauqua Committees to Canvass City to Place Season Tickets.

Tomorrow—Thursday is the day to buy your Chautauqua season tickets. The guarantors will make their canvass tomorrow. Tickets will also be on sale at the drug stores and the banks. The guarantors personally believe in this chautauqua and they believe in it to the extent that they are willing to work for its success personally.

They now ask you to come and enjoy chautauqua week. A week's pleasure, entertainment and enjoyment for \$2.50! Think of it! Six different musical attractions, a fine comedy-drama, an opera, four great lectures, and other attractions. Only money received for season tickets before the chautauqua opens helps the guarantors meet their guarantee and pay the local expenses. No season tickets can be sold after chautauqua opens. You can show your appreciation to your guarantors for giving Greenville this week of pleasure by buying season tickets. Do so tomorrow.

Below are the names of the guarantors who invite your co-operation:

## CLASS DAY DRAWS LARGE CROWDS TO TEACHERS SCHOOL

Interesting Features on Program of Exercises Yesterday Evening.

## SCHOOL CAMPUS SCENE OF UNUSUAL ACTIVITY

President Wright Presented With Check for Beautifying Buildings.

The class day exercises yesterday afternoon were the most beautiful ever given at the Training School, yet simple and short. The feature that marked the occasion was the rainbow effect of the class. The sixty-six young women, sixty-two graduating now and four in July, were dressed in light-colored organdies, pink, blue, green, yellow, and lavender, with hats to match, and as they marched in and on the dresses showed off to wonderful advantage.

At six o'clock a large crowd was seated on the grass on the front campus, around a roped off space. The school marched out by classes and took their places in the spaces marked by their banners. The class of 1920 filed into the space roped off in the center marching under an arch over which was suspended their class banner. At the entrance two members of their sister class, the class of 1922, handed to each couple as they passed dainty little baskets, the class flowers, a surprise gift from the "little sisters" to their graduating big sisters.

The class marched around and formed the figure "20". A mascot from the class of '22 dressed in gold and purple, the colors of the two classes combined which each person in the program stood out and placed a small stand upon which each person the program stood as she came out to take her part.

After the singing of the class song, (Continued on page four.)

## SEVENTH GRADE TO GET PROMOTION IN EXERCISES FRIDAY

Pupils of Grade to be Formally Admitted to High School in Unique Way.

A distinctly new feature to the closing exercises of the city schools will take place at 11 o'clock Friday morning when the pupils who have finished the seventh grade will be formally admitted to the high school. This exercise will take place in the high school auditorium in the presence of the present student body of the high school and the faculty of the school. Mr. E. G. Flanagan, representing the board of Education will deliver promotion certificates to the incoming freshman. The public is cordially invited to witness this exercise and see the largest group of students that have ever entered the Greenville High School at one time.

## STARR CONCEDED TO BE AMONG BEST MEN ON TEAM

The Reflector yesterday inadvertently omitted the name of R. B. Starr in its write-up of the exhibition baseball game in this city Monday, but this was due from the fact that his name was not included in the line-up and was forgotten in referring to the splendid showing made by local boys in the game. Mr. Starr is conceded to be one of the fastest players of the club, and has made an exceptionally fine showing throughout training season. He will take an active part with the other men throughout the season helping Greenville to lead the league.

## MANY ARMENIANS REUNITED THROUGH NEAR EAST RELIEF

Committee in That Territory Almost Daily Presents of Those Lost.

## SEVERAL FAMILIES ARE REUNITED ALMOST DAILY

Lists of Orphans Printed in Armenian Papers With Splendid Results.

Constantinople, April 2.—Hundreds of American families are being reunited monthly through the efforts of the members of the American Committee for relief in the Near East who are scattered through the leading cities of Asia Minor with headquarters in this city. In the deportations of the last four years Armenians have been shuttled about various military movements with the result that nearly every family is searching for news of missing members.

Levon Shamlian, a young Armenian who is now a successful merchant at Balikeshir, recently located his mother and young sister, through an advertisement printed in local paper by Miss Carrie E. Mills of Princeton, N. J. who is directing the American movement to unite Armenian families. Shamlian is preparing a home for them in Balikeshir.

The history of the Balikeshir family is typical of the experiences Armenian suffered at the hands of the Turks. They lived in Bitlis, in the far Eastern part of Asia Minor. Levon Shamlian and his father were separated from the rest of the family by the Turks and Levon was forced to go into the Turkish army and has never heard from his father. His grand mother and grand father were killed. His mother was taken as a servant by the Turks.

## OIL INTERESTS TO BEGIN DRILLING OF NEW WELLS SOON

Alaskan Oil Districts to See Great Activity Within Short Time.

San Francisco, June 2.—Drilling will be started this fall on Alaska lands recently thrown open by the government oil prospectors and developers. J. J. Finnegan, Seward, Alaska lawyer and oil man, has announced. Several new companies are shipping machinery north.

Successful operations on a small scale and oil seepages have caused government geologists to announce they believe oil lies under approximately 1,000,000 acres of Alaska lands. One local company has been producing oil near Cordova, Alaska, for several years.

All of Alaska's oil country lies in the southwestern section, stretching along the coast from Cape St. Elias, on the west, to the Aleutian Islands on the east. There are five big fields, Cold Bay, Katalla, Yakataga, Cook Inlet and the Alaska Peninsula.

## ALUMNAE BANQUET GIVEN AT TRAINING SCHOOL LAST NIGHT

Nearly Hundred of Alumnae from Other Classes Takes Part in Occasion.

## UNIVERSITY PRESIDENT MAKES SHORT ADDRESS

Dr. H. W. Chase Makes Happy Impromptu Speech to Class Members.

The Alumnae banquet of East Carolina Teachers Training School was a brilliant occasion. The dining hall was a veritable fairy land with the decorations of pink roses and with the hundred and fifty young ladies in beautiful evening dresses. There were present nearly a hundred of the alumnae from other classes, and sixty-two forming the graduating class, with the faculty and officers, others connected with the school, and a number of honor guests.

Miss Elizabeth Hathaway was toast-mistress, and she presided with dignity and poise, proposing the toasts with grace and wit.

Miss Fannie Lee Speir welcomed the class 1920, in a charming manner. Miss Mildred McCotter, president of the class responded for the class of 1920, pledging the class to loyal support of the alumnae association. Miss Gladys Warren was called on to tell something of what the girls are doing for the Training School. She spoke of a fine thing one group had started and asked Miss Emma Cobb to tell of the Edgecombe county association, and its plans. Miss Cobb said that the 33 girls living in Edgecombe had formed an alumnae group, with one purpose, down class barriers and formed simply an alumnae group, with one purpose, to serve and to spread abroad that spirit throughout the county.

Miss Marion Morrison responded to the toast of "Spice in the Teachers Life." She concluded with the statement that she had found the corns and bunions were a part of a teachers life. Miss Louise Smaw, president of the Alumnae Association, responded to the toast, "The Evolution of a Teacher."

Dr. H. W. Chase, president of the University, was called on, and made a very happy impromptu speech. He began by saying there was no speech in his system and if there had been it would have been knocked out of him by the 140 miles of North Carolina roads, and he feared if he were to speak he would be inclined to make a good roads speech rather than an educational speech. He said that he always thought of the place as one with a clean-cut, definite idea; that this was one school that had put a vision into practice. When North Carolina thinks of this school it thinks of it as a place where they know what they want, they want it worthily, and they know how to go about getting what they want.

President Wright was the last one called on. After a catchy story as greeting, he told the "fellow teachers that they were worth something as she had found out. Some recent statistics say that every day a child goes to school increases his earning power \$0. He made a calculation to see how much the sixty-two young women going out from this class would add to the wealth of the state next year. Teaching nine months, thirty children to the room (a minimum number), the amount would be \$2,450,856. To this monetary estimate, should be added the spiritual and intellectual worth, and there was no estimating what they were worth. He then told them of the rewards of teaching, of the opportunity for broadening and deepening influences, the things that could not be measured by material things. He spoke with appreciation of the tribute Dr. Chase had paid the school by saying that it did one thing and knew what it was doing; the "School is eleven years old and has done only this one thing and when it is a hundred and eleven years old I trust it will be doing the same thing. He highly commended the movement among the groups of the alumnae to organize among themselves in their counties. (Continued on page four.)

**ANNOUNCEMENT.**

To the Democratic voters of the Fifth Judicial District:

I have entered the Primary for the office of Judge in this District.

I have practiced law for the past 18 years, during which time I have assisted in the prosecution of the Federal docket for about 7 years. Since entering my name for the judgeship I have resigned the office of Assistant U. S. attorney.

Before beginning the practice of the law I had fourteen years experience in business, beginning life as bank book-keeper at the age of 16 years.

I shall not make a canvass of the district for the Judgeship. My conception of the duties and responsibilities of the high office of judge is such that in my view a canvass, and the methods of the political campaign, usual and perfectly proper for other offices—purely political, tend to cheapen and lower its tone. I would rather lose the nomination and never hold the office than lower it a hair's breadth from the high plane of honor and dignity on which our fathers have played and kept it in North Carolina.

I shall appreciate the support of all democrats in the district; and if by their suffrages I should be elevated to the Superior Court bench, I assure them that its high traditions shall be upheld, and in the administration of the office justice shall be meted out to all men alike.

This April 28th, 1920.

**METHODS TO STOP STRIKES ADOPTED BY BIG CLOTHIERS**

Collective Bargaining to be Adopted by Nation Federation of Workers.

Rochester, N. Y., June 1.—Collective bargaining is the method adopted by the clothing industry in Rochester to solve its labor problems. Manufacturers declare that it has been so successful here that the National Industrial Federation of Clothing Manufacturers has been formed to deal with a national organization of the workers. In a time when strikes have been frequent in other industries there has been peace in this industry here, except in one plant which is not a party to the agreement between the employers and workers.

Shoe manufacturers of Rochester have adopted the plan and ended a strike by an agreement similar to that in the clothing trade.

Under these agreements, the strike and lockout are believed to have been eliminated and the open shop prevails. The union relinquished its claim for a closed shop. One of the labor managers, representing the employers, says that the union suffered no loss by doing so but that on the contrary the number of clothing workers organized has increased from 50 percent of the total employed to 90 or 95 percent.

As the collective bargaining plan operates here, the more general agreements between the workers and employers are made by a local joint board, composed of representatives of the clothing manufacturers and the workers. Working conditions are formulated by a labor adjustment board composed of representatives of both sides. Its decisions become the laws of the industry. Appeals can be taken to a court presided over by an impartial judge whose decisions are accepted by both sides as final.

In the shops labor managers represent the employer and shop chairman the unions.

**SWEET POTATOES THRIVE**

**ON GOOD SANDY SOIL**

Raleigh, N. C. — Sweet potatoes thrive on a moderately fertile sandy loam which does not contain an excess of organic matter. An excessive amount of organic matter will frequently produce an abundant growth of vines at the expense of roots.

As a rule, the same piece of ground should not be used for sweet potato culture two years in succession. Plant sweet potatoes in rotation with other staple farm crops—this is one of the key notes of success. They yield a fair crop on the so-called "worn out" tobacco and cotton lands and are especially valuable for use in a rotation with these crops.

The usual depth of plowing in preparing land for corn will prove satisfactory for sweet potatoes. Local conditions will determine whether the high ridge, low ridge or level surface method of culture is used. Many growers secure splendid results by using a comparatively high ridge.

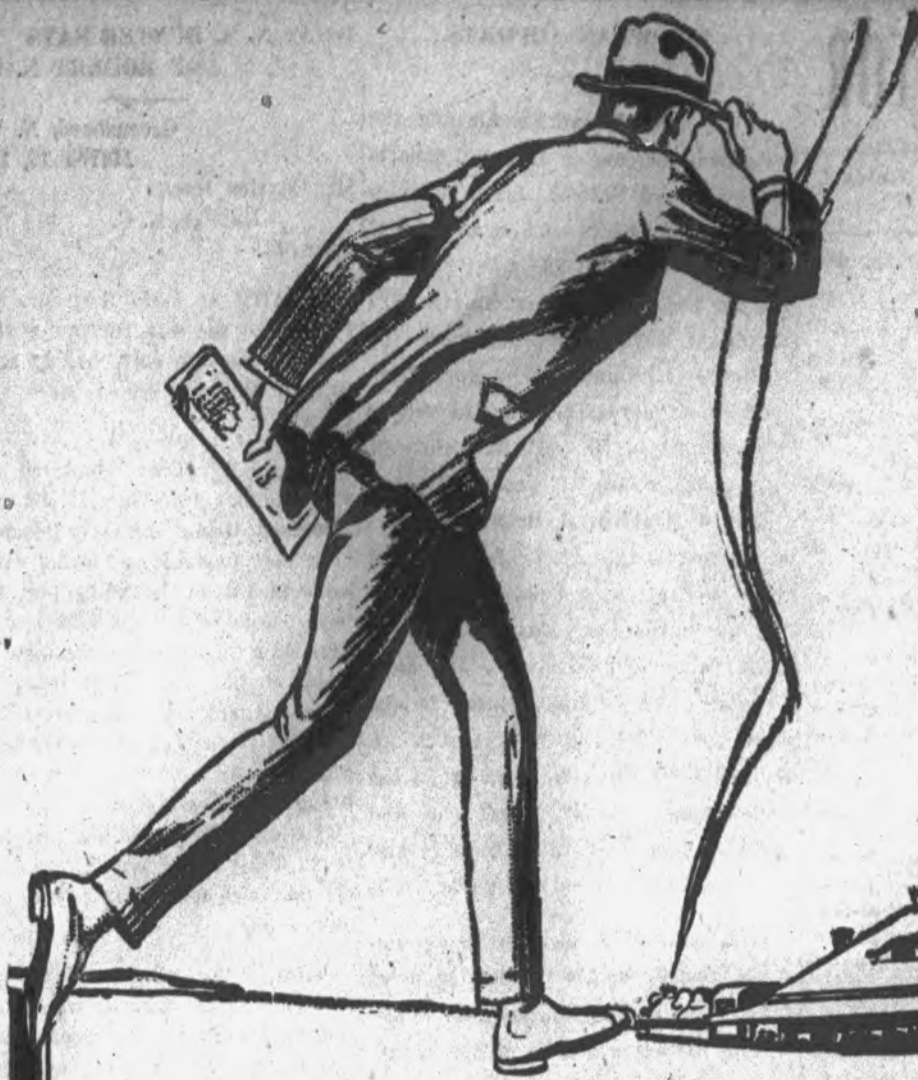

If planted on ridges, it is best to make the ridges at least ten days before planting to give the soil an opportunity to become settled. A common method of making the ridges consists in marking the rows with a middle breaker or row marker and then two furrows into the row. Certain by means of a turning plow to throw types of disk ridging attachments for riding cultivators can be used to an advantage in making the ridges.

to apply the fertilizer where the ridge. The general practice in this state is to be made with a 1-row distributor and then to make the ridge over the fertilizer. Heavy applications of fertilizer at planting time have been known to kill the plants and for this reason it is advisable to distribute the fertilizer at least ten days before planting.

A fertilizer formula cannot be recommended that will have general application. Every grower should make a study of the requirements of his soil and apply the fertilizer that will give the best results. A complete fertilizer should be used, the quantity depending entirely on local conditions.

Americans, as a rule, enjoy good health, which is one of the secrets of their universal success. And good health is often maintained simply by proper attention to details of hygiene, such as strict internal cleanliness. If the food waste is not properly eliminated, poisons are formed which break down vitality and impair your physical energy. Keep these dangerous toxins moving out of your body. Nujol will help you.

Nujol works on an entirely new principle.

Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.

Nujol thus prevents constipation because it helps Nature, maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

Nujol is absolutely harmless and pleasant to take. Try it.

Nujol is sold by all druggists in sealed bottles only, bearing Nujol Trade Mark. Write Nujol Laboratories, Standard Oil Company (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger".

WEDNESDAY, JUNE 2, 1920.

After the senate completes investi- gation of expenditures of presidential candidates it might be justified in prob- ing its own situation. There's plenty of room for good work and no need for over exertion.

Hiram Johnson appears to have Gen- eral Wood on the go, if straw votes count for anything, but then the gen- eral doesn't concede him anything and that gentleman in turn says nothing but saws wood all the time.

Those Berlin troops who have pledg- ed themselves to suppress rioting and revolts may be pretty successful in the beginning, but if they meet with much opposition they might join the revolu- tionists too.

We read almost daily of something said by prominent men regarding the reduction in the high cost of living, but it looks like the more we hear about lower prices the higher the cost of living goes. There's one thing sure, commodities can't get much higher, for if they should people can't pay the price. And there you have the whole situation in nutshell form.

Now that the senate has practically eliminated further controversy over the issuance of a second bonus to Ameri- can soldiers we may expect to hear of some other kind of wrangling just a little different from that of recent date, but along the same old line of thought. It's impossible for the members to give deserving matters consideration with- out discussion and provocation, so it's only natural to look forward to fur- ther disquisitions without direct re- sults.

Senator Fall doesn't want to recog- nize the Mexican government until it has made provision for the protection of American life and property within its borders and for one time in his life he is right. Mexico must sooner or later learn that American cannot al- ways endure violations of international courtesies, and if this should be force- fully impressed upon the new govern- ment in its early stages probable the future will be somewhat better than the past. It is to be hoped so anyway for conditions of late have been anything but pleasing and cannot be endured al- ways.

It is reported that owners of apart- ment houses in many cities have ad- vised their rental agents to refrain from further advances in rents as such will be considered profiteering and very unfair to present occupants. Naturally this sounds rather queer and out of the ordinary in these times when people are reaching out for every penny available, but it's a mighty fine ex- ample, which, if put into practice in other cities, would prove one of the greatest advertisements of the day. Pro- fiteering in house rents is becoming evident in many sections of the coun- try and unless it is discouraged before conditions will become extremely severe to the ordinary workman. Something must be done and the sooner the better.

EUROPEAN IMPORTS.

What are the articles forming the enormous increase in Europe's exports to the United States? Luxuries from her treasure-houses and raw material from her colonies. The total value of Europe's exports to this country had dwindled, says a statement by the National City Bank of New York, from \$300,000,000 a year prior to the war to \$318,000,000, in the year in which the war ended, a drop of practically two-thirds in total values, despite the fact that prices of the articles forming that trade had at least doubled meantime. Yet the indications today are that the total value of merchandise sent from Europe to the United States in the fiscal year which ends with next month will be three times as much as in the immediately preceding fiscal year and actually greater in value than in any year in the history of our trade.

This tremendous increase in our im- ports from Europe in the current fiscal year as compared with the year imme- diately preceding occurs chiefly in lux- uries, but includes also certain products of the European colonies now reaching us by way of the mother country, in- stead of direct as during the war. Among the luxuries in which the great increase occurs are diamonds, art works, laces and embroideries, silks, high grade cotton and woolen goods, kid gloves, and olive oil, while the colonial products now reaching us by way of Europe include india-rubber, jute, wool, furs, hides and skins, and raw cotton.

In many instances the increase, espe- cially on the luxury side of the state- ment, is very large. Diamonds, for example, imported in the eight months ending with February 1920, practically all of them from Europe, amounted to \$48,100,000 in value against \$5,300,000 in the same months of last year; are works, brought chiefly from Europe, \$21,715,000 against \$2,850,000 in the same months of the preceding year; cotton laces and embroideries \$7,800,000 against \$3,200,000 in the correspond- ing months of the preceding year; silk laces and embroideries in the cur- rent year \$4,312,000 against \$1,489,000, walnuts from France and Italy \$6,050,000 against \$310,000; olive oil from France, Italy, and Spain, but especially the latter, \$10,910,000 against \$633,000 in the same months of last year; silk fabrics \$2,110,000 against \$361,000; silk wearing apparel \$2,050,000 against \$802,000; and raw silk, chiefly from Italy, \$23,007,000 against \$30,000 in the same months of the preceding year.

Voters throughout the state could not do better than to give their sup- port to Senator Harding of this city in his candidacy for the office of lieuten- ant governor of the state. He is a man of splendid ability, fully informed as to political issues of state and nation, and if he should be elected to the high of- fice it is certain he will fill the position with honor to himself and state. Mr. Harding is a recognized authority on constructive legislation, particularly that pertaining to people whom he serves, and it is an advanced fact that he would do as much for the entire state as he has done for his home ter- ritory if given an opportunity. The support of such a man means the sup- port of everything of interest to a high- er type of civilization, therefore every person voting for him may be assured they have done the right thing.

This week proves to be an important one to many young men and women of the city and from other cities attend- ing school here, for commencement is in progress and many are on the verge of graduation and preparation for life- duties. Such occasions are always im- portant to every person, for when school days are over the work of set- tling down to some definite vocation is a mighty hard proposition for the best of us and requires more than ordinary consideration. The Training School will place many young women in edu- cational circles of the state in the capac- ity of teachers, and to those the fu- ture is of vital consideration for they will have an opportunity of moulding splendid characters of many young lives coming under their supervision. A great mission in life is before such young women as dwell with their splendid training at the Training school they should prove a wonderful source of helpfulness in localities of their choice.

WHAT N. S. HUNTER SAYS OF ROBERT N. PAGE

Greensboro, N. C. March 18, 1920.

Mr. Charles Ross, Raleigh, N. C.

Dear Sir: Believing as I do that Mr. Robert N. Page is the man for our next Gov- ernor, I want to state briefly my rea- son for thinking so. I know him as a man.

When a boy, I was employed by him as a lumber inspector at his mill in Aberdeen, came in daily touch with him, went to the same church with him, knew him in his home—in fact, all the boys employed by him had a standing invitation to spend one evening in the week at his home—and being at an impressionable age, that one thing did more to strengthen our character than anything he could have done, as it brought us directly under the refining Christian influence of him and his cul- tured wife; and I can think of no bet- ter influence for my own boys, or any- body's boys.

Later, I was employed on the A. & A. Railroad, of which he was an officer, and under all circumstances "Mr. Bob" (as we called him) was the same yester- day and today—wise in counsel, ready to help, working side by side with us, and doing all he could for the help and encouragement of humanity; and his influence with the boys was al- ways for their good, because they be- lieved in him.

Sincerely, N. S. HUNTER. (Signed) Adv.

TO THE DEMOCRATIC VOTERS OF PITT COUNTY.

We take pleasure in saying that Mr. L. E. Smith, who has announced him- self as a candidate for county commis- sioner, is worthy and well qualified for the office.

He is one of the leading farmers of Pitt county, as well as a successful merchant, and having succeeded as such, and being centrally located in Swift Creek Township, which is one of the most productive in the county, and being a man possessed with pro- gressive ideas, and a man who has made a success of his own affairs, a good financier, qualifies him for public service.

Mr. Smith has never sought public positions, of his own accord, but being urged purely by his friends in the town- ship, and from the fact that Swift Creek has not had a representative since the late Jesse P. Quinley, which has been several years ago.

Swift Creek township is among the largest in the county, and pays a very large portion of the county's expenses, we feel like we should have a represen- tative on the board of commissioners, at this crucial period, which is admit- ted to be, a period when the finances of the county, should be well and carefully handled, and to this end, we urge and insist that you vote for Mr. L. E. Smith, on the 5th of June, for county commissioner.

METHODIST CHURCH AT SIMPSON TO BE DEDICATED.

The Methodist church, which was recently built at Simpson will on next Sunday be dedicated. The sermon will be preached by Rev. Wilson, the presid- ing elder, and a great day is expected. This church is a beautiful building and a credit to its members. Dinner will be served on the grounds and every member of the church is requested to carry a basket. The public is extended a most cordial invitation to be pres- ent.

CONTRACT LET FOR EARLY ERECTION OF \$75,000 BUILDING

(Continued from page one.) of steel and concrete and will be fire- proof, steam heated and modern in every particular. The equipment is to be of a high standard and capable of facilitating work to great advan- tage in every department, and will be ready for installation immediately fol- lowing the completion of the new structure.

It is the purpose of the construction company to have the building com- pleted by the fall of the year, so it is understood, and for that reason no time will be lost in getting material and men on the job in order to fulfill terms of the contract. The promoters are going to do everything possible to expedite construction work so there is little doubt but that the new industry will be in operation the latter part of fall if not earlier.

CLASS DAY DRAWS LARGE CROWDS TO TEACHERS SCHOOL

(Continued from page one.)

Miss Mildred McCotter, president of the class spoke a few words of welcome. Miss Mildred Martin gave the history of the class, and in this were some interesting facts and figures. This is the class that was the most seriously affected by the war so far as numbers are concerned. It was the small- est Junior class for five years. They began their Junior year the fall of 1918, before the war closed. The largest percent, however, returned for the Senior year than has ever return- ed.

Miss McCotter called out President Wright and as president of the class presented to him a check for \$915 to be used for the purpose of decorating and beautifying the buildings. Presi- dent Wright in accepting the gift com- mended the class on the fact that they realized the influence of the beautiful and appreciated the best things of life. This is the largest gift left by any class to the school. He said that it had been a real pleasure to be president of the school this year with such a group of young women in the senior class.

ALUMNAE BANQUET GIVEN AT TRAINING SCHOOL LAST NIGHT

(Continued from page one.)

Edgecombe and Pitt counties have made the start and others will follow, he said he was glad to know that they were growing up so that they were working as alumnae and not as classes, and he wanted all to say "our school, our State, and our nation, to serve."

As President Wright sat down the class of 1920 arose and sang the toast to him that they sang at their class day exercises.

The banquet was served by members of the Junior class. The Alumnae at their business meeting on Tuesday dis- cussed a number of important plans that are sure to bear fruit later. The sum of \$150 was turned over to the school to be used for some worthy pur- pose. This makes over \$400 that they have turned in to the school, and this is only the beginning. The movement to organize in community groups seem- ed to meet with universal approval. The reports from Edgecombe and Pitt about their organizations and plans were inspiring, and others are sure to catch the inspiration. Of the Pitt coun- ty Alumnae Association organized on Monday. Mrs. Luella Lancaster was made president, Mrs. Cary Warren, vice-president, and Christine Johnson, secretary-treasurer.

The ceremony of taking in the new members was very impressive. The of- ficers for the next year are as follows:

President—Miss Louise Snaaw. First Vice-President—Vera Mae Wat- ers. Second Vice-President—Eloise El- lington. Corresponding Secretary—Ruth Whit- field.

Quarterly Editor—Miss Grace Smith Corresponding Secretary and Treas- urer—Flora Barnes.

New Member of Executive Commit- tee—Mrs. Mary N. Nobles. Faculty Adviser—Miss Graham.

DR. CHASE MAKES FINAL ADDRESS AT TRAINING SCHOOL

ferent and more complex.

The task before is to bring together all the great agencies, the press, the home, the school, the pulpit, each of- fering the best it has to offer. We have been mere bunglers at the job of educa- tion. He called on his listeners to imagine what it would mean to North Carolina if the very best possible could be given unto every boy and girl in North Carolina for one generation; there would be more advance made in that one age than in any ten before. "It is not so much machinery we need as enlightenment, trained men and wom- en.

He proved that the world is looking to America, as there is no other coun- try that can contribute greatly to it, and that America is looking to the south because of the pure type of American- ism that is here. He spoke of the great material wealth that has come to this section and reminded the au- dience of the fact that North Carolina has climbed to the fourth place among the states as to its value of its farm crops. He also called attention to the fact that in the ten years just passed she has climbed from next to the bot- tom of the list to fourth from the bot- tom only in education efficiency. The time has come when we must prove her educationally at the top.

He concluded by telling the young women of the class that it was their privilege to take part in this great period ahead when and it would be theirs to help place North Carolina where she rightly belongs.

President Wright at the close of the address presented the diplomas and Bibles to each one of the sixty-two graduates, and at the same time gave them the State certificates for teaching. He announced that they also had the health certificates that are required by law of all teachers in this State.

Falkland Wants a Commissioner

For twenty-five years we have not been represent- ed on the board of County Commissioners. S. M. Crisp, one of the best men in Pitt County for this place, is our Candidate. Will not the good Demo- crats of this county help us nominate and elect him? We believe you will.

MRS. J. B. JAMES ENTERTAINS

Complimentary to Miss Ada James Who Graduates This Year.

On a recent evening at her beautiful home on Fifth street, Mrs. J. B. James delightfully entertained complimentary to Miss Ada James who is a member of the '20 class of the Greenville High School. The house was decorated with cut flowers, potted plants and presented a beautiful scene. The living room carried out the color scheme of white and pink, and was decorated with white and pink roses. The hall carried out the color scheme of red and white, being decorated with red roses and white lilies. The music room was decorated with pink roses. Upon arrival the guests were served iced tea. Tables for "500" were arranged in the living and music rooms. Miss Marguerite Manning cutting the highest was awarded a large bottle of perfume. The tables prizes, manicure sets and bottles of perfume were won by Misses Josephine Skinner, Mary Louise Langley, Lillian Joyner, Frances Whedbee and Mrs. A. J. Moore. The hostess presented the honoree with a corsage bouquet of sweet peas and a cut glass powder bowl. The guests were then invited into the dining room, which was beautifully decorated with pink and white roses, and were served an ice course which carried out the color scheme of pink and white. About twenty of Miss James' friends enjoyed the hospitality of Mrs. James.

STEPHENSON

AS OF ROBERT N. PAGE

Bank and Trust Company, Winston-Salem, N. C., March 12, 1920.

es Ross, Raleigh, N. C.

Ross:

I congratulate you upon assumption of Mr. Page's management. I was associated with Mr. Page in 1918 in the War Savings Campaign being one of the vice-directors of the State; and during that time I formed a very high regard for his patriotism and ability, that I have liked about Mr. Page's character since he announced his candidacy is the straightforward way in which he has put his case up to the democratic voters of North Carolina. He has not dealt in glittering generalities, but has stated succinctly his platform, and has given the reasons why he stands for certain progressive steps; whether one agrees with all of Mr. Page's planks or not, he is bound to have an admiration for a man who seeks the voters into his confidence and lets them know what to expect when he is elected.

With kind regards, I am,

Sincerely yours,

(Signed)

Moline Mower

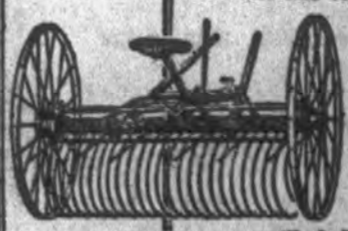

"I have about two acres of soggy land. The sweet clover on this land was as high as the horses, and with the old stalks from last year still on the land. The Moline Mower is the only mower that I was able to cut this clover with, and I have tried them all. I consider the Moline Mower the best that is built. The mower is the lightest draft machine I ever hitched a team to, and certainly do recommend the Moline Mower to any one considering the purchase of a mower." - A. C. Manning, Fayette, Ark.

This letter shows what service you can expect from a Moline Mower. The Moline gives such satisfaction wherever used and will give you better service than you ever obtained from a mower before.

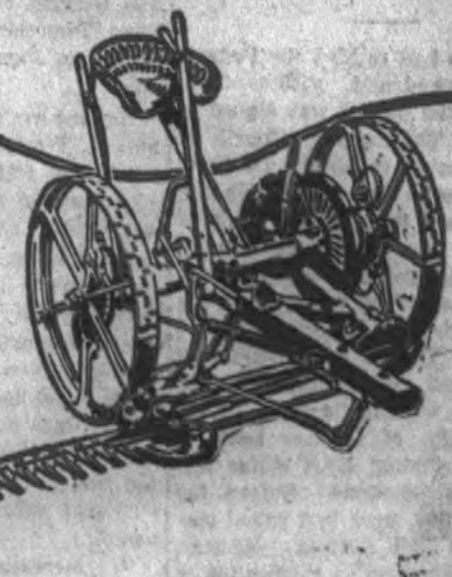

It will cut any kind of grass; it is unusually light in draft, and it will give you from 25 to 40 years of satisfactory service—many Moline Mowers have been used longer than this.

And remember, the Moline Mower is not a new mower, but has been in use in all parts of the world for the last 60 years.

Space does not permit us to tell you all about the good points of the Moline Mower. Send for Folder R. F. 22, which we will gladly send you, and you will readily see why the Moline Mower gives such splendid satisfaction, year after year, cutting all kinds of grass.

The 35 White States Have Ratified

## 17,500,000 WOMEN WILL CAST VOTE FOR PRESIDENT THIS YEAR

### REGARDLESS OF RATIFICATION

Only 4,000,000 Voted in 1916  
Women's Votes Gave Election to the Democrats in 1916.  
What About 1920?

How can a Democratic state refuse to help women to vote for President this year? asks former State Senator Frank P. Hobgood of Greensboro, N. C. In 1916 it was frequently said that it was the women voters of the west who re-elected Woodrow Wilson. At that time there were less than 4,000,000 women of voting age living in the states which had enfranchised women. Now there are 17,500,000.

Even if the Federal Suffrage Amendment to the United States Constitution is not passed by 36 states, all these women can vote for President because they have gained either complete suffrage or presidential suffrage, or, in the case of Arkansas and Texas, full primary suffrage. If one looks on the suffrage ratification map, he will see that except for two little states, Vermont and Connecticut, all the states of the north, northeast, northwest and southwest have already ratified. The only states standing out against ratification are those of the southeast.

It is the men of the south who are blocking women's freedom. And what are they doing? They cannot keep the women of Wyoming, Colorado, Idaho, Utah, Washington, California, Arizona, Kansas, Oregon, Montana, Nevada, New York, Oklahoma, Michigan, South Dakota, Illinois, North Dakota, Nebraska, Rhode Island, Indiana, Iowa, Kentucky, Maine, Minnesota, Missouri, Tennessee, Wisconsin, Ohio, Arkansas and Texas from voting for President.

They are holding back the vote from Democratic North Carolina women and letting the Republican women of Maine walk away with it. Is this good politics?

The states where women vote control 339 of the total 531 electoral votes. This means that North Carolina's twelve might be wiped out by California's 13, if the California women should this year feel that the Republican party, which has given the suffrage amendment 29 ratifications, is a better party for women than the Democratic party, which has rejected the amendment in six states.

The refusal of southern men to give a thirty-sixth ratification to the women of the country will not defeat woman suffrage; it will only defeat the loyal women of the Democratic south, and a few women in the smaller states of the north.

### MOST POPULAR AMENDMENT IN THE HISTORY OF THE AMERICAN CONSTITUTION.

Nine states had ratified the Federal Suffrage Amendment within three weeks from the date it was signed in June, 1919. That was one-fourth of the total number required. Of these nine states seven were already in session and could make quick work of ratification. After that it was a question of calling special sessions for the special purpose of ratifying, as all the other 34 legislative sessions of 1919 had closed. Yet so widespread was the sentiment for ratification that within three months, in spite of expense, in spite of summer heat, in spite of everything, eight states had called special sessions. Before the end of 1919 five more had called special sessions and ratified. January, 1920, was ushered in by ratification in two states that held regular sessions. Another state, New Jersey, took advantage of its regular session to ratify in February.

But 1920 is not a "legislature year." Very few states are in regular session this year. So the main hope for a ratification came right back to the special session. Six governors in all

## WOMAN SUFFRAGE STRENGTHENS WHITE VOTE

### White Population Shows Greater Increase Than Black.

"When the men of North Carolina make the excuse of keeping the vote from white women of the south, because they fear the negro women's vote," says Dr. Della Carroll Dixon of Raleigh, N. C., "do they think what they are doing?"

"Here is some arithmetic for them."

"In the fifteen states south of the Mason and Dixon line are:

10,661,926 white women  
4,354,069 negro women  
6,307,857 more white than negro women.

10,661,926 white women  
8,643,640 total negro population

2,018,286 more white women than total negro population.

"These fifteen states are: Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Mississippi, Alabama, Tennessee, Kentucky, Arkansas, Louisiana, Texas, Missouri, West Virginia.

"In four southern states, Texas, Tennessee, Virginia and Kentucky, the number of white women exceeds the whole colored population. In Alabama, Arkansas, Georgia, North Carolina, and Louisiana, woman suffrage would tremendously increase the preponderance of white votes; in Mississippi and South Carolina, where the colored population exceeds the white, equal suffrage would double the intelligent electorate, since in both these states there are educational qualifications limiting the franchise to those who can read.

"Equal suffrage in southern states would:

- "1. Increase vastly the white vote.
- "2. Raise the educational and moral standard of the electorate.

"Not only would woman suffrage give white control in these states a more permanent footing than now, but white supremacy will continue to grow, since the increase of white population is more rapid than the increase of colored population."

## Why a Majority of the Smaller Cars Come on Goodyear Tires

Last year more cars using 30x3-, 30x3½-, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dorr, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag..... \$4.50

## PROTESTS AGAINST EARLY RECOGNITION OF MEXICAN STATE

Senator Fall Favors Deferring  
Recognition of Govern-  
ment for Awhile.

ADVISES REVISION OF  
FORMER CONSTITUTION  
Government Must Agree to Pro-  
tect American Life and  
Property Right.

Washington, May 31.—Recommendation that full recognition of the Mexican government be withheld until an agreement to revise the constitution of 1917 in the form of a treaty is entered into was made by Senator Fall to the foreign relations committee today in his report of the sub-committee which has been investigating conditions in Mexico.

Should the Mexican government refuse to accede to such a condition of recognition it was suggested that the American government renew the notice that it would hold "to a definite reckoning" those in Mexico responsible for the sufferings and losses sustained by American citizens.

Failure of the Mexican government to restore order and peace in Mexico and effectively to protect American citizens would be followed in the plan suggested by the sub-committee by the despatch of an armed force into that country "to open and maintain open every line of communication between the city of Mexico and every seaport and every border port of Mexico.

To NORTH CAROLINA DEMOCRATS:

Gentlemen:—

For nearly forty years New Hanover County and the Cape Fear Section have had no representation among our Democratic State Officials.

In presenting Senator W. B. Cooper for Lieutenant-Governor, we offer a man fully competent and qualified to fill the position, one who has always voted the Democratic ticket. We ask you to support him, and protect his interest at the polls on June 5th, especially since the good County of Pitt has furnished our very efficient Secretary of State for many years, and no opposition is offered in the present primary.

One State official from Pitt and one from New Hanover would seem reasonable.

Yours truly,

P. Q. MOORE, Mayor.

## To the Democratic Voters of Pitt County.

I have announced my candidacy for the nomination for Judge of the County Court of Pitt County to succeed Judge Wooten. Before filing my notice of candidacy I received the approval and assurance of support of the entire local bar.

I am asking for this office on my knowledge of the law, experience, ability and fitness for the office. I feel that my request is reasonable for I have practiced law and had more experience than any of my opponents. I was licensed in February, 1913, and entered upon the practice in Greenville with Col. Harry Skinner, with whom I practiced until August, 1917, when I entered the army. I AM THE ONLY CANDIDATE FOR THIS OFFICE WHO DID SERVICE IN THE ARMY, this should entitle me to your preference. Upon my discharge I returned to Greenville and resumed the practice alone, Judge Whedbee having resigned from the bench during my absence.

I have practiced law and personally appeared in all the State courts and district Federal courts, and have had more experience than either of my opponents.

I have no influence except that I have earned myself, and I ask that you compare my qualifications with those of my opponents, and I am sure you will give me your active support which I shall greatly appreciate.

## Hon. John Humphrey Small

SOME MEN ASPIRE TO BE LEADERS. IT IS DISTINGUISHINGLY CHARACTERISTIC OF MR. SMALL THAT HIS ASPIRATION HAS ALWAYS BEEN TO SERVE. HE IS A TRUE SERVANT OF THE PEOPLE, LOYAL TO HIS DISTRICT, LOYAL TO HIS PARTY AND LOYAL TO HIS FRIENDS. NO MAN IN THE CONGRESS OF THE UNITED STATES HAS WORKED HARDER FOR HIS DISTRICT, FOR HIS PARTY AND FOR HIS CONSTITUENTS THAN HAS JOHN H. SMALL. IT IS TRUE MR. SMALL HAS BEEN IN OFFICE A LONG TIME. AND FOR THAT VERY FACT HE HAS ESTABLISHED AN ACQUAINTANCE AND A PRESTIGE THAT ANOTHER MAN WOULD HAVE TO TAKE TWENTY YEARS TO BUILD UP. A VOTE FOR JOHN H. SMALL IN THE PRIMARIES ON JUNE 5TH WILL BE A VOTE FOR A SAFE, SANE POLITICAL REPRESENTATIVE AND A TIRELESS, FAITHFUL, OBLIGING, COURTEOUS SERVANT OF THE PEOPLE OF THE FIRST CONGRESSIONAL DISTRICT.
