WOMAN SUFFRAGE FINALLY DEFEATED BY DELAWARE VOTE

Republicans Are Blamed for Defeat of Issue in State's Final Fight.

OLD GUARD AFRAID OF WOMAN VOTE, CHARGED

League of Nation Is Still a Live-ly Subject in Old Guard Circles.

Washington, June 2.—In a formal statement issued from suffrage headquarters here tonight, the direct charge is made that the Republican party is seeking to prevent rather than enable the women to vote in the presidential elections this fall.

The charge follows the defeat of the suffrage amendment by the Delaware legislature this afternoon when it adjourned without further action on the subject. It is an appeal to five thousand suffragists in States surrounding Chicago, to take part in a demonstration of protest at the Republican convention when it opens next Tuesday morning.

While the majority of the suffragists, as well as many friends of the movement, have all along felt that the party bosses were using their efforts to obstruct the passage of the resolution in Delaware, the suffrage organization has heretofore accorded the party the benefit of the doubt. They have been unwilling, up to this time, to bluntly charge the Republicans with scheming to prevent the women from voting in November. As has been stated in this correspondence, there has been a strong undercurrent of resentment toward the party bosses but the statement today is the first formal indication of the feeling.

The charge on Chicago will be in the nature of a picketing party and hundreds of telegrams were received here today from Western suffragists indicating their intention to be present at Chicago Tuesday. Among the slogans which they propose to exhibit at the convention hall will be the celebrated "how long must women wait for liberty" banner which was held at the gates of the White House during 1917 and 1918. Others say:

"Unfranchised women millions for freedom but not a nickel for tribute."
"Why don't the Republicans want the women to vote" and "seven million who can vote for Congress and for President are waiting your answer to them."

Some of the reasons suggested by the suffragists are because the League of Nations will be the chief issue in the campaign and because the "wets," if they try to put life back into the body of John Barleycorn will be confronted with the opposition of the women voters.

Their appeal sent out today says: "The Republican Legislature of Delaware refuses to ratify the suffrage amendment. The Republican governments of Connecticut and Vermont, where the legislatures are counted upon to ratify, refuse to allow their legislatures to meet. We are confronted by an emergency. It looks as though Republican opposition would prevent millions of women from voting this November."

"Will you join us on June 8th at the Republican convention in Chicago in a demonstration of a protest against Republican action in holding up ratification in the one State needed? The demonstration will probably take the form of a line of women in front of the convention hall with banners of protest against the opposition of the Republicans."

"If a host of women voices the disapproval they feel, the Republican party can hardly continue its present course."

PUPILS OF HIGH SCHOOL TO MEET FRIDAY MORNING

The pupils of the High School are requested to assemble at the High School Building, Friday morning at 9:30 o'clock.

ENGLAND TO BEGIN PROBE OF ALLEGED GROWTH IN TRUSTS

Investigation of Post-War Development of Monopolies Also to Occur.

PROFITEERING FACTION TO RECEIVE ATTENTION

Report Says Trade Combination Exists Among Electric Light Companies.

London, June 2.—England has started an investigation of the post-war growth of alleged trusts and monopolies.

A profiteering committee which has been looking into the activity of electric light companies and lamp bulb manufacturers, in a report recently made public, says that "a trade combination does exist among electric light manufacturers in this country and exercises a powerful influence over the conduct and development of the industry."

It is known as the Electric Light Manufacturers' Association, the report says, and has been created primarily in the interests of three firms—the British Thomson-Houston Company, the General Electric Company and Messrs. Siemens Brothers. It is reported to include from 90 to 95 per cent of the industry; to fix prices and regulate output, says the profiteering committee.

The prices fixed by association, the report says, become the standard for all lamps sold in this country, whether made by association or non-association manufacturers, or imported from abroad. Because of this standard price policy the general public reap no benefit from lamps of cheaper manufacture, the advantage going wholly to the profiteering committee.

SAYS PALMER HAD NO AUTHORITY FOR PRICE OVER SUGAR

Sugar Investigating Committee in Report Tells of Price Fixing.

Washington, June 2.—The sugar investigating committee, in a majority report presented to the House today, declared that Attorney General Palmer had used his power as chief prosecuting officer of the government "for the purpose of fixing maximum selling prices of sugar in Louisiana, and in so doing acted wholly without authority of law and in violation of his own construction of his official duty."

The report, prepared by Representative Husted, Republican, of New York, as chairman, charged that the legalistic method adopted by the attorney general was "wholly ineffective as a means of price control" and that "it gave apparent governmental sanction to extremely high sugar prices, which excited the cupidity of Cuban producers and caused an advance in the Cuban market."

Representative Whitley, of South Carolina, and Representative Summers, of Texas, Democratic members of the Judiciary sub-committee, which conducted the investigation, refused to sign the report and announced that they would file a minority report. Republican members, including Chairman Husted, who agreed in the findings, were Representatives Closson, of Wisconsin, and Boies, of Iowa.

Mr. Palmer insisted before the committee that he had not fixed sugar prices, but had merely stated the position of the department; as to prosecution for profiteering—that Louisiana planters selling at more than 17 and 18 cents wholesale would be prosecuted under the Lever law.

FOREIGNERS GIVEN CHANCE OF BUYING AMERICAN VESSEL

American Interests, However, Will be Given First Choice of Ships.

Washington, June 2.—While giving American shipping interests preference in the acquisition of government owned tonnage, merchant marine legislation as agreed on today by Senate and House conferees would authorize the Shipping Board to sell vessels to foreign interests should "diligent efforts" be made to dispose of the craft in this country first.

Sales to foreign concerns, however, could be made under the compromise bill on a vote of five of the seven members of the Shipping Board.

The legislation as agreed on would direct the sale of the government-owned vessels "as soon as practicable with good business methods," but no time limit for the sale is fixed. Pending sale of the ships, the board would be authorized to charter them to American concerns.

Consideration of the conference report will be taken up in the House tomorrow and following expected adoption, will be called up without delay in the senate in an effort to secure final action before the expected adjournment of Congress Saturday.

The bill further would empower the board to set aside annually for the next five years \$25,000,000 to be used as a construction fund, from which to assist American citizens in the building of new vessels for the establishment and maintenance of service on steamship lines. The senate bill fixed this amount at \$50,000,000. Owing to opposition of House conferees, provisions authorizing the board during the five-year period to construct new vessels on its own account were eliminated.

STRIKE ISSUES CAN BE LEGALLY ENDED IN NATION SERVICE

Republican Committee Report Says Strikes May be Legitimately Stopped.

QUESTIONNAIRES APPEAR TO CONFIRM STATEMENT

Division of Opinion Exists Over Rights of Public Utilities.

New York, June 3.—Strikes can be legitimately forbidden in the government service, according to the report made public tonight by a sub-committee on industrial relations of the Advisory committee on policies and platform of the Republican National committee. This situation, however, is declared to be contingent upon a provision that impartial tribunals be established to protect the rights of the employes in arbitration of their disputes with the government.

After canvassing the country generally in questionnaires, the sub-committee reported its findings which included:

"Insofar as public utilities are concerned, there appears to be a division of opinion as to whether strikes should be made illegal, and the decisions of commission or tribunals be made legally binding, or whether provision should be made for thorough inquiry by boards or commissions and the force of public opinion be relied on to enforce their decisions, strikes being forbidden until after the decisions have been rendered."

"Insofar as private employments are concerned, while many hold that there is no need for government action, the majority favor the creation of some form of tribunal or commission composed of representatives of employes, employes and the public, to whom disputes may be voluntarily referred, whose decisions, unless unanimous, would not be binding or carry weight, save insofar as they enlisted the force of public opinion."

SWANSON PRAISES HIGH STANDARD OF BIG CHAUTAUQUAS

Says Ticket for Coming Attractions is Fully Worth the Price Paid.

Supt. Swanson of the Greenville Public Schools says it is worth the price of the Chautauqua season ticket just to hear Edward Amhurst Ott, who lectures at the Chautauqua Friday night, June 11. That he has heard Mr. Ott lecture twice on the Chautauqua platform in the west, and that he is a wonderful speaker. He has also heard Alton Packard, Master Cartoonist and Humorist Extraordinary who appears the first night and that Greenville people have a treat in store.

These are but two features. In addition remember that the comic opera, "The Doll," the comedy drama, "Rebecca of Sunnybrook Farm," The Flying Parson, Lieut. Maynard; The Belgian Band, the Varsity Chorus Club are sure of the other attractions at Chautauqua week.

Be sure and get your season tickets at once. The number on sale is limited and none can be sold after Chautauqua opens.

JAPAN AND RUSSIA CONFLICT IN FIRST ACTION IN SIBERIA

Statements Say Both Governments Would Establish Buffer State in Nation.

FIRST ATTEMPTS MEET WITH HEAVY FIGHTING

Both Countries Contest Position Warmly in Effort for Control.

Nikolsk, Siberia, June 2.—The Russian provisional government of eastern Siberia was about to set up a government which would be in the nature of a buffer state between Japan and the Bolshevik government of Russia and western Siberia when the Japanese military forces seized control of Vladivostok and all the chief centers of the maritime Province in April. "It has since been announced that the Japanese were establishing a buffer state in part of the same territory."

The Japanese coup was accompanied by rather heavy fighting at Nikolsk where the Russians resisted and held the Japanese at bay while the majority of the Russian force with drew. The Russian losses at this place are estimated at 200 killed and 200 wounded; the Japanese at 42 killed, 81 wounded.

Two days before the Japanese sprung their surprise the Provincial Constituent assembly, sitting at Nikolsk, had voted to establish a separate government including all Siberia east of the Selenga river, which flows through Verkhne-Ulenk into Lake Balkhal a govern over which the Moscow soviet would have no authority except in a purely advisory capacity.

The step was taken at the instigation of Vilenki, special diplomatic commissar of the Soviets in the Far East, and was carried through with the support of the Communist-Bolshevik party.

The new government was to consist of the five members of the present provisional government (social revolutionaries or moderate liberals), and

BLUE RIDGE PLANS TO HEAR ADDRESS BY SAMUEL CAVERT

Noted Speaker to Address Conference on Christian Spirit in Industry

Atlanta, Ga., June 3.—(Special)—A special course on the Christian spirit in industrial relations, to be delivered by Rev. Samuel McCrea Cavert, of New York, is announced for inclusion in the program of the Blue Ridge Missionary Education conference to be held at Blue Ridge, N. C., from June 23 to July 5. Dr. Howard T. Cree, the conference secretary, today made the announcement.

Rev. Cavert, who is assistant secretary Federal Council of churches, is one of the leading authorities on his subject in the American churches, and has devoted many years to industrial problems. The question of industrial relationships enters so deeply into home mission work in the larger urban centers that the subject will be one of the most important to be presented at the conference, especially during this time of industrial unrest.

The entire conference program is rapidly assuming final shape. It promises to be the most significant of any yet presented by the missionary education conferences in the ten years of their existence. Outstanding men and women from all parts of America, all authorities on special subjects, have been invited to lead the studies during the ten day course.

More than half the space available for delegates has already been reserved according to Dr. Cree, with the date of the opening almost a month distant. Indications point to a record enrollment.

GARDNER DELIVERS ADDRESS TO LARGE CROWD LAST NIGHT

Candidate for Governor Tells of Record of the Democratic Party.

REFERS HUMOROUSLY TO MORRISON AND PAGE

Express Optimism at the Final Outcome of Election in His Interest.

The great record established by the Democratic party in administration of national affairs was presented in a forceful manner to many voters from surrounding sections of the country in the court house in this city last night by Hon. O. Max Gardner, candidate for the Democratic nomination for governor. The speaker devoted a greater part of his address to careful interpretation conditions throughout the state, showing in plain and convincing terms that the future is going to demand of all public servants the best they have to offer, and that this fact places greater responsibility upon the voters than ever before.

Mr. Gardner was introduced by Mr. H. A. White, of this city who referred in a pleasing way to the part which the speaker of the evening has played in the administration of the state affairs in the capacity of lieutenant governor. The courtroom was completely packed with people of the county and surrounding communities, and as Mr. Gardner rose to speak he was greeted by an attentiveness that continued with occasional applause throughout the address.

In the course of his address Mr. Gardner referred to his opponents for gubernatorial honors, Morrison and Page, saying that he admired Mr. Page's platform with the exception of one or two instances. He said that Mr. Morrison had his headlight behind, and talked of issues several years behind demands of the present state of affairs.

In the midst of the address the speaker found himself in a poetic state of mind, and expressing the optimism that has dominated his candidacy until the present time, said that "Roses are red and violets are blue, Page is beat and Morrison too." This assertion, expressed in a humorous way, provoked much mirth on all sides of the court room and stimulated interest in the discussion to a great extent.

The remainder of the address was devoted almost exclusively to state and national affairs, dealing principally with conditions of interest to people throughout every section of the state. The democratic administration was lauded repeatedly in different parts of the address, and the splendid part in national affairs by President Wilson was mentioned favorably and with great consideration with the almost superhuman task which the nation's chief executive has been up against throughout the entirety of his administration.

GRADUATES MADE DRESS WORN AT GRADUATION

The young ladies in the graduating class at the Training School made the dresses they wore both at their class day exercises and on graduation day. President Wright announced yesterday morning the cost of these dresses. The least spent for one of the colored graduates was \$4.85, the most \$8.70, and the average was \$5.78. The least spent for the graduation dresses was \$6.50, the most \$8.80, and the average \$7.30. The average for the two dresses was \$13.18. President Wright advised others to do as these young women had done to cut the high cost of living; that is, to do their own work.

The young ladies have been leaving on every train. This morning the campus was deserted. The students will begin to arrive on Monday for the summer term which opens on Tuesday.

LABOR CONDITIONS CAUSE CONCERN IN PARTS OF ENGLAND

Situation Still Unsettled With Little Relief in View Any Time Soon.

London, June 3.—Labor conditions still are unsettled in England, not so much because of dissatisfaction with wages, hours or working conditions as to jealousy between rival trade unions and particularly between skilled and unskilled labor, says the American Chamber of Commerce here.

A crop of new wage demands from other unions is declared to have resulted from the settlement of the demands of the longshoremen by granting them a minimum wage of 16 shillings a day.

The railway men are demanding an advance of \$1 a week in disregard of an agreement they had made with the government only five days earlier which provided for an automatic adjustment of wages according to cost of living. The engineers and firemen also have presented demands for large increases.

The cotton operators who had threatened to strike on May 1 to enforce demands for a 60 percent wage increase have now accepted government arbitration. The employers offered them an advance of 22 1/2 percent which was rejected.

Gas workers have demanded wage increases, more holidays and overtime pay. These would affect 100,000 men. The miners have voted to accept the government's offer of a flat increase of 20 percent in wages. This advance is expected to cost \$32,000,000 a year.

Mary Pickford's Greatest Play

"Rebecca of Sunnyside Farm"

This comedy-drama of American rural life is dear to every American in whom the spirit of childhood lives. Nearly everyone has read Kate Douglas Wiggin's charming story or seen the screen version starring Mary Pickford as Rebecca.

For this reason it will be welcome news that the coming Chautauqua will present this play in the usual "Chautauqua style." Special scenery will be carried and an effective handling of all parts is assured when it is known that this play will be given by "The Chautauqua Players."

Playing leading parts will be seen your friends of last year, Mr. and Mrs. John A. Regan. Mr. Regan will be recalled as the "quite so" dscoun in "Polly of the Circus," and his wife as "Mandy" in the same play.

The entire cast has been chosen and rehearsed by Miss Elizabeth Oliver, instructor of Public Speaking at Swarthmore College, and herself an old friend of Chautauqua audiences when she was playing leading roles in "The Man from Home" and "The Fortune Hunter."

Keep the fifth night—"Rebecca" night—in view as one you can't afford to miss.

The Swarthmore Chautauques are especially pleased to present this comedy-drama. This is the first year it has been available outside the big metropolitan theatres, where it enjoyed immense popularity. Incidentally they are having the largest royalty for this play that they have ever said.

Moline Mower

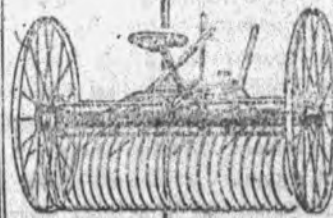

"I have about two acres of soggy land. The sweet clover on this land was as high as the horse, and with the old stalks from last year still on the land. The Moline Mower is the only mower that I was able to cut this clover with, and I have tried them all. I consider the Moline Mower the best that is built. The mower is the lightest draft machine I ever used, and contains the best purchase of a mower." — W. C. Mendenhall, Peoria, Ill.

This letter shows what service you can expect from a Moline Mower. The Moline gives such satisfaction, whether used and will give you better service than you ever obtained from a mower before.

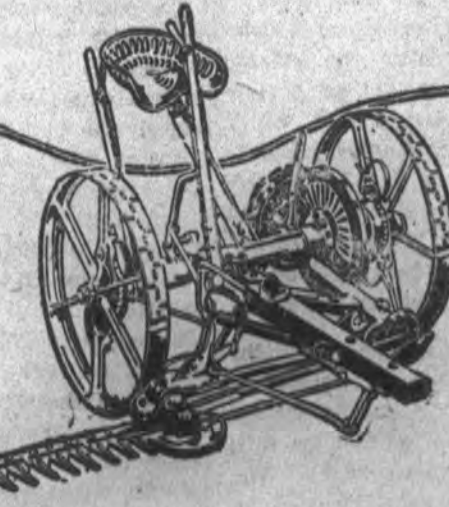

It will cut any kind of grass; it is unusually light in draft, and it will give you from 25 to 40 years of satisfactory service—many Moline Mowers have been used longer than this.

And remember, the Moline Mower is not a new mower, but has been in use in all parts of the world for the last 60 years.

Space does not permit us to tell you all about the good points of the Moline Mower. Send for Folder R. F. 22, which we will gladly send you, and you will readily see why the Moline Mower gives such splendid satisfaction, year after year, cutting all kinds of grass.

MANY ARMENIANS REUNITED THROUGH NEAR EAST RELIEF

Committee in That Territory Almost Daily Presents of Those Lost. SEVERAL FAMILIES ARE REUNITED ALMOST DAILY Lists of Orphans Printed in Armenian Papers With Splendid Results.

April 2.—Hundreds of Armenian families are being reunited through the efforts of the members of the American Committee for Relief in the Near East who are scattered through the leading cities of Asia Minor with headquarters in this city. In the deportations of the last four years Armenians have been shuttled about various military movements with the result that nearly every family is searching for news of missing members.

Levon Shamlian, a young Armenian who is now a successful merchant at Balikeshir, recently located his mother and young sister, through an advertisement printed in local paper by Miss Carrie E. Mills of Princeton, N. J. who is directing the American movement to unite Armenian families. Shamlian is preparing a home for them in Balikeshir.

The history of the Balikeshir family is typical of the experiences Armenian suffered at the hands of the Turks. They lived in Bitlis, in the far Eastern part of Asia Minor. Levon Shamlian and his father were separated from the rest of the family by the Turks and Levon was forced to go into the Turkish army and has never heard from his father. His grand mother and grand father were killed. His mother was taken as a servant by the Turks.

To the Democratic Voters of Pitt County.

I have announced my candidacy for the nomination for Judge of the County Court of Pitt County to succeed Judge Wooten. Before filing my notice of candidacy I received the approval and assurance of support of the entire local bar.

I am asking for this office on my knowledge of the law, experience, ability and fitness for the office. I feel that my request is reasonable for I have practiced law and had more experience than any of my opponents. I was licensed in February, 1913, and entered upon the practice in Greenville with Col. Harry Skinner, with whom I practiced until August, 1917, when I entered the army. I AM THE ONLY CANDIDATE FOR THIS OFFICE WHO DID SERVICE IN THE ARMY, this should entitle me to your preference. Upon my discharge I returned to Greenville and resumed the practice alone, Judge Whedbee having resigned from the bench during my absence.

I have practiced law and personally appeared in all the State courts and district Federal courts, and have had more experience than either of my opponents.

I have no influence except that I have earned myself, and I ask that you compare my qualifications with those of my opponents, and I am sure you will give me your active support which I shall greatly appreciate.

THURSDAY, JUNE 3, 1920.

FOREST FIRE PREVENTION.

Because of the very serious fire hazard created by tobacco smoking in the forests, E. T. Meredith, secretary of Agriculture, has just written to seven of the leading tobacco companies in this country asking their co-operation in enlisting smokers in a campaign against careless use of fire in all forests, both National and private. Smokers, statistics show, are annually responsible for a large number of conflagrations in timbered areas causing immense losses. The secretary's letter suggests that the tobacco companies can render an invaluable service in this movement by including in tobacco packages brief printed legends urging smokers to take every precaution to prevent the spread of fire from matches or burning tobacco. Action of this character reported to have been taken by a Canadian tobacco company is cited by Secretary Meredith.

The letter is one feature in a movement now being carried on by the Forest Service to lessen the number of fires caused by smokers and others while working or enjoying outings in the forests, whose preservation is so essential to national prosperity.

The letter of the Secretary is as follows:

"In protecting the National Forests of over 150,000,000 acres, the department of Agriculture has to fight thousands of forest fires every summer due to carelessness. Throughout the United States we needlessly burn up every year a great deal of our forest wealth and turn productive timber into wastes, largely because the public does not sufficiently realize the importance of a sense of individual responsibility in the prevention of fire.

"Smokers cause many forest fires. Some lumber companies forbid smoking in the woods, and the extension of this rule is being strongly urged. Such measures would never have been considered necessary if smokers sufficiently recognized the danger that attends the dropping of a lighted match, a pipe coal, or an unextinguished cigarette or cigar stump.

"Hunters, fishermen, and woods workers of all kinds smoke in the forests, while automobilists toss a bit of fire from their cars and speed thoughtlessly on, unaware even though they have left an incipient conflagration behind them. A single glowing cigarette end may cost the government thousands of dollars for fire fighting, to say nothing of the value of the timber destroyed, the desolation of scenic beauty, and the harm done to waterflows.

PRaises SALVATION ARMY.

Testimony concerning the work of the Salvation Army doesn't always come from high religious, social or political circles," said Brigadier A. W. Crawford, commander of the Southern department of the Salvation Army.

The brigadier had just finished reading a letter from a Salvation Army worker in Memphis, Tenn., in which he told how Kit Dalton, last survivor

of Jesse James' notorious band of outlaws who died recently in that city, had turned to the Salvation Army for help in his closing days and how, during his last illness, he paid sincere tribute to this band of faithful workers among the needy and distressed.

Dalton told the Salvation Army folk who ministered to him in Memphis that he learned the real worth of the Salvation Army when he ran a saloon in the wild days of his career and that he had then seen the fearless work done by the members of the organization and that he honored them for their courage and devotion to duty.

Although his life had been one of violence—in his trunk a revolver was found which had been given him by Jesse James and which bore seven notches—he knew he could find kindness and a square deal with a Salvation Army corps regardless of his past life.

The Salvation Army's work among the criminal class in penal institutions throughout the country has grown rapidly and it now operates in more than 630 such institutions. This prison work includes assistance to families of those incarcerated, help in many forms for the prisoners themselves and unhesitating assistance when they have been released.

A large portion of the funds derived from the second home service fund appeal May 10 to 29 will be applied to continuation of this work.

A BANKER AND LEADING CITIZEN PREDICTS MORRISON'S NOMINATION.

Rockingham, N. C.,
May 26th, 1920.
Mr. Editor:

Having recently heard Hon. Cameron Morrison at Wadesboro, I am more thoroughly convinced than ever that he will be nominated for governor. He is making great speeches. I am for him because his nomination will give us four years of the most capable political leadership. Continued Democratic ascendancy in the State affairs is worth more than all else to business interests of every sort. I have known him since boyhood, and have watched his development through struggles in which weaker men have gone down. He is a courageous, resourceful, well equipped leader of men. His conspicuous party service has been a preparation for important responsibilities. He is practical and level headed with absolutely nothing visionary in his views and methods. I know much of his forty and odd years experience, as boy and man, with the practical affairs of life, and in my opinion it has been such as to render him well qualified to grapple with all present day problems. He thinks for himself; thinks clearly, and instinctively recognizes the crucial point in any situation.

I believe he has that rare combination of energy, deliberation, horse sense and courage, which will enable him to rise adequately to any occasion and meet successfully any crisis that might come to a Governor of the State.

two delegates from each province to be elected by their respective constituent assemblies.

The conference was still in session having completed most of its work when the Russian staff received news from Vladivostok that firing had begun there and that the Japanese were taking control of the town. The Japanese staff, accusing the Russians of having fired on some of their sentinels in Vladivostok had issued telegraphic orders to all Japanese detachments in the Maritime province to disarm the Russian forces in their vicinity.

By the next morning the Japanese garrisons in Vladivostok, Razdolnoye, Nikolsk, Spasskoe and Habarovsk (extending about 400 miles north from Vladivostok along the Ussuri railroad were in the possession of their respective towns.

The Russian forces, commonly known as Partisans, having received orders from the provisional government not to let themselves be drawn into hostilities, offered no resistance, and either surrendered, or, opportunity permitting, withdrew to the hills, Nikolsk, however was the headquarters of a Russian army corps, in process of formation, so that its garrisons numbered between 5,000 and 10,000 men.

Standard vacuum lamps, now sold to the public for three shillings, states the report, could be sold at two shillings at which price the manufacturer and distributor would still have a satisfactory working profit.

"One and a quarter million half-watt lamps," adds the report, "sold to the public in 1919 at twelve shillings and sixpence each were purchased in Holland by three associated manufacturers at about three shillings a lamp. They could have been sold at not more than eight shillings which would still have left ample margin for the importers and distributors. Importers and distributors between them made profits on these lamps of something like \$1,400,000 over and above what would appear to us reasonable."

"Since the largest of the three dominant firms," continues the report, "is under the majority control of an American electrical concern, there is some danger that the interests of the British lamp industry may be subordinated to American interests."

"There is a possibility of an international combination comprising British, Dutch and American manufacturers which would be able to control supplies and dominate prices over a considerable part of the world."

"The operation of an association which so effectively controls an important industry," concludes the report, "should be subject to public supervision and control."

BOB PAGE.

"Economy of expenditure is essential to good Government."

"In no other way is it possible, without undue burden of taxation, to attain those necessary and vital things rightly demanded by the citizenship of a progressive state."

"The necessary machinery for the conduct of the people's business, usually designated 'The State' constitutes one of, if not the most complex business concerns in the commonwealth. With ever-increasing activities this development has not always been the result of careful study, but rather along lines of least resistance, with the result that the multitudinous agencies and activities do not always function. The management of any modern business finding itself in this condition would undertake a thoroughgoing, scientific study of conditions, including the employment of the best known organization experts, to so co-operate those varying activities that the greatest possible economy of management and expenditure would result."

"If elected Governor, I shall use the leadership thereby conferred to press upon the legislature the desirability—aye, the necessity—of authorizing the employment of experts to study every agency of our State Government and report thereon, so that our people may be assured of the utmost efficiency and economy in every department of our public service. This survey should include county organizations also, for there is probably greater possibility of effecting economy through proper organization and administration here than at any other place in our system. As a business man, I shall make efficiency and economy in both State and county government a chief purpose of my administration."

A vote for Page is a vote for economy in government.

ENDORSED.

For Commissioner of Labor and Printing—"No Better Man for the Place."

The announcement of the candidacy of Hon. David P. Dellinger for Commissioner of Labor and Printing will be found in another column. Mr. Dellinger is well qualified for the position to which he aspires, and should receive a flattering vote. There is no reason for keeping a man in office for life. Let some one else have a chance.—Credence Times-News, May 5, 1920.

In another column we publish the announcement of the candidature of Mr. David P. Dellinger * * * for commissioner of Labor and Printing. He was in the legislature since 1909 and has a good record, as the office which Mr. Dellinger is seeking requires a man well versed and experienced in such matters the voters should exercise the greatest care in making their selection.—Canton Enterprise, May 14, 1920.

Mr. David P. Dellinger, a prominent business man of Cherryville, has announced himself a candidate for the office of commissioner of Labor and Printing to succeed Hon. M. L. Shipman, the incumbent. Mr. Dellinger, himself a successful business man and well known at least by reputation, to many of the Stanly voters, we think his candidacy will appeal to them. No better man can be found to the place.—Stanly News-Herald, April 30, 1920.

Like strong endorsements are made by many of the other nearly 150 papers in which his announcement is running.

Many of the leading men of the state can testify to the highly important services he has rendered in the legislature as member and clerk. Gaston's candidate for commissioner of Labor and Printing will appreciate a very large vote June 5th, and pledges a fair deal to all industrial enterprises as well as to labor.

A Vote For Page Is A Vote For Economy In Government

John Humphrey Small

An Editorial Which Appeared in Last Week's Edition of The Elizabeth City Independent.

JOHN HUMPHREY SMALL

To the voters of the First Congressional District of North Carolina this newspaper says: When a better man than John H. Small appears, send that man to Congress and retire John H. Small. A better man than John H. Small does not appear on the political horizon at this time. Even the enemies of Mr. Small must concede that he is infinitely superior to that fellow townsman of his who is opposing him for the Congressional nomination.

Let it be admitted that John H. Small is not a big man in Congress. That much is to his credit. John H. Small would be a bigger man in Congress—as men are measured by the rule of practical politics—if he played the same as others have played it and licked the boots of the bosses. The fact is that John H. Small is respected in Congress and every door in Washington is open to his courteous knock.

Let it be admitted that John H. Small has been in Congress a long time. This is no time to throw out an honest, hard-working, courteous and faithful servant and install a jester in his place. The Hon. Hallet S. Ward would make an interesting spectacle in Congress in normal times when nothing mattered much. But these are serious times, and the stuff that Mr. Ward uses in entertaining bucolic juries in the First District would not go at all on the floor of the Congress of the United States today.

This newspaper would like to see this district represented in Congress by a red-blooded, liberal man. This newspaper would like to see this district represented by a man who would fight special privilege in season and out of season though it meant his political damnation. This newspaper would like to see this district represented in Congress by a man who would fight

for the restoration of the freedom of speech and the press and oppose every encroachment upon these rights. This newspaper would like to see this district represented in Congress by a man who would fight the monster militarism and all the evils that accompany it. This newspaper would like to see this district represented in Congress by a man who would be fearless enough to attack the Congress itself and work for those reforms in the organization of Congress itself which would make for a better and more representative government. Such a man does not appear. If Mr. Small will hesitate in being as aggressive as he should, H. S. Ward may be counted upon to be aggressive in the opposite direction. When Ward fights, he takes pains to fight something that will not fight back. When Ward raises a lot of dust it is when there isn't a street sprinkler or a stretch of lawn hose in the vicinity. H. S. Ward in Congress would fill the Congressional Record with a lot of blatant and semi-humorous speeches on Woman's Suffrage, Inland Waterways and the Holy Jumpers and the voters of the First District wouldn't even so much as get a packet of seed from him. Mr. Ward would be so busy making himself conspicuous, preening himself, airing himself and blowing himself that he wouldn't even find time to answer a letter from one of his constituents unless there was a fee in it. No one ever wrote John H. Small a letter, who did not get a reply; and no matter how unreasonable or how trivial your business may be, John Small will humbly drop whatever he has in hand and trot his legs off around Washington to get the thing done for you.

This newspaper has no idea that Mr. Ward will cut any considerable figure in the June Primary. At a time when the people are eager and anxious to hear any man who has anything

to offer them, Mr. Ward has come with a full mouth an empty head. He talks about the people being out of patience with Congress, but he doesn't explain why the people are out of patience with Congress, because he doesn't understand. He condemns Mr. Small for the years he has labored in trying to get an inland waterway through these North Carolina sounds and says we need roads worse than we need waterways. Mr. Ward does not tell us how he will give us more roads and fails to note that North Carolina is already getting more Federal money for road building today than most other states, wealth an population considered, only four other states standing ahead of us. Does Mr. Ward mean to say that he can jump into a Republican Congress in one term and get more roads built than any one else? If he means that then he is indeed a bigger fool than he appears to be—which may or may not be saying a great deal.

Some day John H. Small will be retired to private life, but not to make an office for Mr. Ward. The people of this district are not going to make that sort of trade. Most of us like H. S. Ward for his eccentricities, his abruptness, his erraticism and his mannerisms. These things are interesting in private life and help to enliven the monotony of a country court room; they have no place in the serious affairs of state. The world needs statesmen, not clowns. The times demands workers, not spouters of speeches.

For all of his conservatism and caution John H. Small will carry the large majority of Democrats in this district with him. In him are combined many qualities that are admirable. He is honest he is truthful, he is candid, he is loyal to his friends. His loyalty to his friends perhaps explains his unpopularity with certain elements in this district.

Your Servant At The Capitol

Hon. John Humphrey Small

SOME MEN ASPIRE TO BE LEADERS. IT IS DISTINGUISHINGLY CHARACTERISTIC OF MR. SMALL THAT HIS ASPIRATION HAS ALWAYS BEEN TO SERVE. HE IS A TRUE SERVANT OF THE PEOPLE, LOYAL TO HIS DISTRICT, LOYAL TO HIS PARTY AND LOYAL TO HIS FRIENDS. NO MAN IN THE CONGRESS OF THE UNITED STATES HAS WORKED HARDER FOR HIS DISTRICT, FOR HIS PARTY AND FOR HIS CONSTITUENTS THAN HAS JOHN H. SMALL. IT IS TRUE MR. SMALL HAS BEEN IN OFFICE A LONG TIME. AND FOR THAT VERY FACT HE HAS ESTABLISHED AN ACQUAINTANCE AND A PRESTIGE THAT ANOTHER MAN WOULD HAVE TO TAKE TWENTY YEARS TO BUILD UP. A VOTE FOR JOHN H. SMALL IN THE PRIMARIES ON JUNE 5TH WILL BE A VOTE FOR A SAFE, SANE POLITICAL REPRESENTATIVE AND A TIRELESS, FAITHFUL, OBLIGING, COURTEOUS SERVANT OF THE PEOPLE OF THE FIRST CONGRESSIONAL DISTRICT.

Prominent Citizens of Bethel Endorse M. K Blount for County Judge.

The friends of Mr. M. K. Blount in endorsing his name for Judge of the Pitt County Court, subject to the vote in the Democratic Primary on June 5th, feel that he is especially qualified for the office.

He is a son of Mr. M. O. Blount, of Bethel, who for thirty-five years has been a prominent farmer and merchant in Pitt county. He is a graduate of Randolph-Macon College and of the Law school of the University of North Carolina, having also studied law at Columbia University, New York. He was admitted to the bar and began the practice of law in 1916 and since that time has been located in Greenville. In conjunction with his practice of law, Mr. Blount has served as county superintendent of public Welfare for the past nine months and has been School Attendance Officer for the county.

Mr. Blount is a young man of irreproachable character, unquestionable integrity and firm in standing for what he believes to be right. In our opinion, if he is elected as Judge of the Pitt County Court he will make a firm, efficient and capable officer. We hope that the voters of Pitt county will support him in the Democratic Primary to be held the fifth day of June.

FOR COUNTY COMMISSIONERS.

We the undersigned commissioners announce our candidacy for re-election to the office of county commissioners, subject to the Democratic primary.

- H. V. STATON,
- J. J. ELKS,
- R. L. WORTHINGTON,
- DR. W. W. DAWSON,
- S. T. WHITE.

ANNOUNCEMENT.

To the Democratic voters of the Fifth Judicial District:

I have entered the Primary for the office of Judge in this District.

I have practiced law for the past 18 years, during which time I have assisted in the prosecution of the Federal docket for about 7 years. Since entering my name for the judgeship I have resigned the office of Assistant U. S. attorney.

Before beginning the practice of the law I had fourteen years experience in business, beginning life as bank book-keeper at the age of 16 years.

I shall not make a canvass of the district for the judgeship. My conception of the duties and responsibilities of the high office of judge is such that in my view a canvass, and the methods of the political campaign, usual and perfectly proper for other offices—purely political, tend to cheapen and lower its tone. I would rather lose the nomination and never hold the office than lower it a hair's breadth from the high plane of honor and dignity on which our fathers have played and kept it in North Carolina.

I shall appreciate the support of all democrats in the district; and if by their suffrages I should be elevated to the Superior Court bench, I assure them that its high traditions shall be upheld, and in the administration of the office justice shall be meted out to all men alike.

This April 28th, 1920.

ERNEST M. GREEN.

NEW YORK TO SEND WOMEN DELEGATES TO BIG CONVENTION

New York, June 1.—Led by Mrs. John Sherwin Crosby, called "the Mother of New York Women Democrats," a special train carrying 54 women delegates and alternates to the National Democratic Convention in San Francisco, will depart from New York, June 10. This will be the first expedition of its kind in the United States. Many of the women will be accompanied by their husbands, children or other relatives. The party will be augmented by delegates from other states at various points en route to Chicago and, after the convention, the members will visit Pike's Peak, Colorado Springs, the Grand Canyon of the Colorado, Riverside, Hollywood and Los Angeles and the Catalina Islands. The return home will be by way of the Canadian Rockies, reaching New York on the evening of July 11.

MORRISON IS SELF-MADE, BUT WELL MADE
 Does North Carolina Reward Her Servants?
Cameron Morrison

Fought a Glorious Fight for the Cause of White Supremacy in North Carolina in 1898-1900 in Company With a number of the State's Greatest Leaders and Statesmen.
 The State has shown its gratitude by giving to a number of these conspicuous leaders the highest offices in the gift of the state.

MORRISON The Thanks of the People
 Even some of the younger group of Democratic leaders have been generously rewarded by continuance in high office.
 North Carolinians are not ungrateful, and the time has come when they will pay their debt to the statesman of 28 years valiant service to the Democratic party of the state. Public opinion is moving like a tide in support of

CAMERON MORRISON
 and for the following reasons it cannot be swept back:

- As a clear thinker on public questions, he is without a superior in North Carolina.
- As an Orator he probably has no equal since Aycock.
- As a bold champion of what he believes to be right, regardless of consequences to himself, he is unsurpassed.
- He has been one of the guiding hands in framing the policies of the Democratic party in North Carolina, which have brought us such marvelous prosperity.
- You can always tell where Morrison stands on every public question.
- For more than twenty years he has devoted himself to public affairs and to upbuilding of North Carolina, without asking for political office.
- Morrison has given more time and thought to public questions than any other man of his State.
- Morrison is a candidate for Governor in response to the demand of thousands of the solid and clear-headed farmers and business men, who realize that the times demand a strong man.
- He was originally opposed to Woman Suffrage, and his record in the White Supremacy campaign is sufficient to guarantee that he will safeguard the State against negro women voters.
- He has declared himself in favor of keeping down taxes and Constitutional Amendments to that end.
- He is in favor of a wise revision of the Revaluation Act.
- He has declared himself in favor of universal education and a better pay for teachers.
- Morrison has declared for a scientific system of good roads to connect the various parts of the State.
- Morrison is heartily in favor of local self-government for towns, cities, and counties.
- He is opposed to class legislation of all sorts.
- Morrison's record shows that he is free from all control by special interests.
- He is opposed to Socialism in all forms, and to the socialization of business by whatever name called.
- He has given years of thought to the development of country life, and one of his great aims will be the improvement of rural conditions.
- He is a wise, generous, experienced Democrat, qualified in every way for the great office of Governor.
- His friends are rallying to him by the thousands. His manager's office is besieged every day with requests for him to speak. He is growing stronger every hour. If nominated, as he will be, he will meet his Republican opponent, and no Democrat need fear the result.
