## COUNTY PRECINCTS POLL HEAVY VOTES IN STATE-PRIMARY

Dudley Re-Nominated for Sheriff of County by Majority Over Cannon.

GARDNER LEADS COUNTY FOR STATE GOVERNOR

Ward Out Numbered Small for Congress, While Horton Wins Judgeship

- TOTAL VOTE CAST.**
- State Senator—Everett 1294, Outlaw 1078, Laughinghouse 761.
  - House of Representatives—Smith 2253, Brown 2187, Satterthwaite 837, Cotten 653.
  - Sheriff—Dudley 1900, Cannon 1212.
  - County Judge—Cooper 1500, Blount 1484, Mayo 201.
  - Solicitor—Hines, 1750, Pittman, 1074, Martin, 362.
  - 6 County Commissioner—Hardee 1581, Smith 1590, White 1198, Davison 1621, Worthington, 1565, Ellis 1411, Staton 2421, Holmes 1706, Crisp 2250.
  - Governor—Gardner 1303, Morrison 806, Page 798.
  - Congress—Ward 1037, Small 1517.
  - District Judge—Horton 1760, Wooten, 1181, Green 75.

Reports from the county and state primary have been coming into the Reflector office almost minutely since an early hour Saturday night, and while definite reports were not available until a late hour Sunday night when final counts were made in Greenville township incomplete returns were furnished from time to time giving some idea as to the way things were running in practically every territory. The situation in its early stages appeared unusually out of the ordinary during the early hours Saturday night, but as late reports began coming in those who were uncertain about county candidates were gratified by definite reports from every precinct with the exception of three.

Interest in the gubernatorial contest was probably more noticeable than any other single feature connected with the state contest, probably for the reasons that supporters of Page, Gardner and Morrison were about equally divided throughout the district and that F. C. Harding, of this city, was of the two contestants for the honor of lieutenant governor of the state. There was no comparison in sentiment regarding the latter contest for Harding carried the entire county by an overwhelming majority, and would have done the same if there had been other contestants.

There was much interest in evidence regarding the congressional contest in the first district in which Congressman John H. Small and H. S. Ward, of Washington were the only participants. It was generally conceded in the earlier part of the election that Congressman Small would carry the county by a sweeping majority but as later returns were received they gave indication that Ward would receive the county nomination unless the last three precincts not heard from rallied with an overwhelming vote. This did not occur, however, as final county reports showed that Ward led the contest by a slight majority.

It is probable that greater interest was centered in the contest for sheriff in which Ernest Dudley ran for re-nomination against Biggs Cannon of Ayden. Returns from several precincts at a late hour Saturday indicated that Cannon would carry the county by a good majority, but during the night when more definite information became available Dudley's vote increased considerably and the final count Sunday evening he was running far ahead of his opponent.

No little uncertainty was in evidence regarding the contest for honors in the 5th judicial district in which Judge F. M. Wooten of Greenville, J. Lloyd Horton of Farmville and Ernest M. Green of New Bern, were contestants, for it was at first conceded that Judge

## NEW YORK CENSUS PROBABLY WILL BE AHEAD OF LONDON

Over 800 Immigrants of Polish Nation on Way to America from Danzig.

HEBREW SOCIETIES TO LOOK AFTER WELFARE

Dr. Bernstein Tells of Great Work of Society in Many Territories.

Washington, June 6.—Indications are that when the New York City census is announced it will show a total population larger than the last available figures for London. The race for largest city in the world, however, will be undecided until London's official census of 1921 is announced.

While no official intimation has been given as to the growth of New York during the last 10 years, as will be shown by the enumeration made in January, estimates of the city proper place the total population at about 6,100,000 and for the metropolitan district of New York, consisting of the city proper and the territory 10 miles from its boundaries, at about 8,200,000. These estimates are computed on the Census Bureau's method of arithmetical progression shown by experience to be nearer in accuracy in the majority of cases than any other formula. Statistics for the city proper will be the first given out; the figures for the metropolitan district will not be available until some time later.

London's population, according to the latest available statistics which are estimates for 1917, give the population for Registration London, the London for census purposes, as 4,026,901 and for Greater London, comprising the City and Metropolitan police districts and covering a radius of 15 miles from Charing Cross, as 6,270,753.

Many factors have entered into the growth of both New York and London since their last official counts were taken. The war officials here believe,

## CHICAGO BECOMES POLITICAL MECCA FOR REPUBLICANS

Candidates for President Vie With Each Other in Getting Public Ear.

Chicago, Ill., June 4.—Presidential booms of General Wood, Senator Johnson and Governor Lowden today held the spotlight of convention city and shadows of potential "dark horses" were reported with growing frequency.

Lowden forces were jubilant over national committee decisions in delegate contest which they claimed to add 25 delegates to the Lowden column with a like loss to General Wood's.

General Wood also gave out a statement declaring Col. William Cooper Procter and Frank H. Hitchcock, his managers, were working in complete harmony and loyalty. The General vigorously denied reports that Colonel Procter was being subordinated to Mr. Hitchcock.

From other quarters of the Republican paddock came increased talk of "dark horse" entries. It came with the arrival of more national leaders and also many delegates.

**MORNING EDITION ISSUED TODAY.**

In order to give the people of the county the returns from Saturday's primary as early as possible, today's Reflector is published as a morning edition instead of waiting until the afternoon. If later information comes during the day it will be bulletined at this office.

## GREAT TRANSPORT BRINGING POLES TO AMERICAN SHORES

Race for Largest City in the World Undecided Until Official Count.

PRESENT POPULATION SAID TO BE 6,100,000

London's Population Shows Splendid Growth Within the Past Years.

New York, June 6.—A transport bringing 800 wives and children of Polish immigrants in this country is on the way from Danzig to an American port, according to information received here by the Hebrew Sheltering and Immigrant Society. This is the first group of a total of 50,000 families to be brought to America to be reunited with husbands and fathers from whom they have been separated by war for more than six years.

The Hebrew society has undertaken to find the wives and children of Polish immigrants who have been prevented by the war from sending any aid to their families, many of whom have been driven out of their homes in the war zone and have become lost to their kind in this country.

"This is not a project of new immigration," said John L. Bernstein, the society's president. "Much harm" has been done by the statement that we were inducing Jewish people of Poland to come over. That is not the fact. We have absolutely no concern with any intended immigrants except the wives and children of men already in this country, more than 60 percent of whom are now American citizens."

Mr. Bernstein said that the work which the society was carrying on was done with the hearty consent and cooperation of the Bureau of Immigration and the State Department.

## REFLECTOR GIVES ELECTION REPORTS TO LARGE CROWDS

Crowd Thronged Office Saturday Awaiting Final Election Returns.

The Reflector kept open house Saturday night to its host of friends to give them the returns from the primary, and never before in its history has the office been such a popular place nor the paper and its service been more heartily complimented. The front office of the building was filled with chairs fronting a large blackboard on which the returns were displayed as fast as received, and the great crowd in attendance was kept at the highest point of interest, enthusiasm being expressed in accordance with the way the returns indicated the strength of their favorites in the race. The crowd commenced gathering early after the polls closed, and many remained until 3 o'clock Sunday morning when it was found no other news could be received during the night. And this was followed by hundreds visiting the office during the day Sunday to read the figures on the bulletin board.

The Reflector believes in giving its patrons the best that can be had, and in furnishing the returns of this primary had the splendid co-operation of the Western Union Telegraph office and the Home Telephone office in giving prompt service. Not only were the local friends of the paper given this service, but also from all sections of the county came numerous telephone calls for news which was promptly given. The people know that this newspaper can be depended on for reliable service, and it is always our pleasure and aim to give this to them.

## SENATE INQUIRIES TO GO ON TO FALL ELECTION PERIODS

Committee Investigations of Presidential Candidates Is Deferred

BORAH DECLARES THERE MAY BE HOUSE CLEANING

Resolution Introduced by Pomerene Passes Without Much Opposition.

Washington, June 5.—After overcoming the nagging opposition of Senator Reed Smoot, of Utah, the senate this afternoon passed the Pomerene resolution to broaden the scope of the pending investigation in campaign expenditures by varying the inquiry into the expenditures of the two National committees and the candidates for president, vice-president and the senate in the fall elections.

Smoot withdrew a point of order he made against consideration of the resolution only after Senator Borah, Republican, had declared that "if the Republican party does not do some house-cleaning between now and next Saturday, as sure as there is a spark of patriotism in this country it will be protected in another way."

In opening his fire against the threatened turn to block passage of the resolution, Senator Pomerene dared the Republican majority to "strain at the leash of parliamentary law and swallow the bait of corrupt practices."

With their long list of presidential aspirants, Sutherland, Harding, Johnson, Lowden, Wood, Poindexter, Knox, Lodge, Capper and France, the Ohio senator challenged Senator Smoot and his following to take advantage of the point of order in the closing moments of the session in order that the people of the country might be denied the knowledge of the manner in which their sovereigns elected.

"Can the party of Lincoln, of Grant and of Sumner, the party which made

## ROYAL IDEAS MEET WITH HARD DEATH THROUGHOUT GERMANY

Imperial Followers Find Ideas Hard to Forget in New State Affairs

Berlin, June 6.—Many Germans apparently still find some difficulty in realizing that the imperial and royal regime is a thing of the past. There are indeed extremists, on the other hand, who object to the eagle on the Prussian escutcheon looking towards the right instead of the left "as a republican eagle ought to," but sign boards in the Tiergarten, for instance, still bear the inscription, "Royal Forestry Department," and there are shopkeepers who display signs that they are "purveyors to H. M. the emperor and king," or "Court" photographers. It is rather pathetic nowadays to behold small boys in sailors suits wearing caps with ribbons "H. M. submarine flotilla," or "H. M. Air forces."

What to do with the marble statues of William Hohenzollern's forefathers in the Stagesallee—the famous avenue of victory in the Tiergarten—has become a public question. They were erected under the former emperor's supervision between 1898 and 1901. The haughty Joachims, Albrechts and Ottos in their armor, mailed fists grasping huge sabers, look singularly out of place under a socialistic regime. One writer suggests that they should be shipped, freight prepaid, to Wilhelm's residence in Holland.

Messrs. C. D. Culpepper and W. E. Batts, of Wilson, were in Greenville on business Friday.

## MRS. CATT SPEAKS BEFORE CONGRESS ON SUFFRAGE ISSUE

Noted Leader Address Switzerland Congress on Progress Movement.

SAYS MANY LATIN AND ORIENT NATIONS RIGHT

Many Women in Europe Who Never Hoped for Political Liberties.

Geneva, Switzerland, June 7.—At the opening here today of the congress of the International Women Suffrage Alliance, Mrs. Carrie Chapman Catt, president of the American Woman Suffrage Association, addressed the congress on the progress of the movement throughout the world. Mrs. Catt said in part:

"For the suffragists of the world a few facts stand forth with great clarity. The first and greatest is that the political liberation of women was tossed up out of the war chaos like an isolated mountain when the world was in the making. War, the undoubted original cause of the humiliating, age-old subjection of women the world around, war, the combined enemy of their emancipation, war has tendered to the women of many lands their political freedom! Strange, bewildering fact!"

"The Latin and Oriental countries still hold out but that will not be for long. Rumania, the first Latin country to extend the vote to women, has already led the way, the others will follow. I believe no country in Europe except Turkey now is without a woman suffrage association. Women will soon vote wherever men do. Yet while all these old barriers are swept aside in many lands and men and women enfranchised, the task is not yet completed in the countries where woman have labored hardest and where the principle of democracy has longest been unchallenged.

## SEVERAL UNUSUAL INCIDENTS LINKED IN MEXICAN UNREST

Escape of Obregon Leader One of Principal Features of Big Revolt.

Mexico City, June 5.—One of the exciting incidents preceding the revolt against President Carranza was the escape of General Benjamin Hill, Chief Lieutenant of General Alvaro Obregon, who fled from the Capital hidden in a pile of sacks in a milk wagon.

General Hill vanished from the capital on the same night as did General Obregon April 13. The wagon in which Hill was hidden was stopped by the police in the suburbs of the capital because it did not carry a light. While the driver was bribing the policeman to pass the lightless vehicle, General Hill dropped out of the back of the wagon and hid in the shadow of a building until the policeman was mollified. Then the General crawled back into the wagon and continued his flight.

Mystery surrounding the fate of Roberto Cejudo, to testify in whose trial General Obregon was summoned to the capital, furnished one of the tragic high lights of the Carranza evacuation. With General Arnulfo Gonzales, captured by Carranza government agents near Nuevo Laredo on April 30, and the aged rebel General Gaudencio De la Llave, Cejudo was taken from the military prison of Santiago Tlaltepec here the night of May 6 when the Carranza adherents fired.

Whether he was taken on the Carranza trains the next day and escaped or whether he was executed, together with the two others, remains a mystery

## REPUBLICAN PARTY HUNTING SOLUTION FOR LEAGUE PLANK

Contest Over Platform Causes Momentary Lull in Presidential Fight.

FIGHT AMONG LEADERS APPEARS INEVITABLE

Plank on Industrial Relations Cause Some Discussion Among Members.

Chicago, Ill., June 5.—The contest between the various aspirants for the Republican Presidential nomination is momentarily obscured by a preliminary contest over the platform. One is the League of Nations plank and the other is the industrial relations plank. The latter is acknowledged to be loaded with dynamite and the former is so surrounded by counter claims that it has been arranged and it has not been arranged that the real truth of the situation is not apparent.

Most all the practical politicians, however, were predicting today that any coalition of party leaders which presents the successful solution for the League of Nations plank will be able to nominate their candidate for the presidency.

The League of Nations plank in the Indiana state Republican platform brought here by Senator Watson, who is the foremost candidate for chairman of the Resolutions committee, seems to be the nucleus around which the discussion is centering and it may provide the basis for the agreement. It declares in effect that the Republican party denounces the League of Nations covenant as it was brought from Versailles by President Wilson, but it does not close the door to its acceptance with reservations.

At that point the reservationists of various degrees and the irreconcilables appear as the elements to be brought into harmony.

Most of the party whips seem to be agreed that the convention cannot take any action which could be construed as a repudiation of the Republican leaders in the senate. Compromise seems to be inevitable and the predictions of the field marshals are that the compromise will develop the candidate.

On the side lines of the big fight there is a scrimmage going on between the leaders of the party in congress and the leaders of the party throughout the states. Many of the latter have come to Chicago openly expressing the feeling that Senators and representatives have had too much to say in the direction of the party's affairs and that some consideration must be given to the chiefs from the provinces. The statement of Governor Beekman, of Rhode Island, that he was not sure whether he was going to a "Republican convention or a senatorial caucus," has been construed as a notice from the governor and state leaders that they will demand to be heard.

Judging by their degree of pre-convention activity, Wood, Lowden and Johnson might properly be designated the "big three." On one proposition their managers are fully agreed. They all claim victory. They differ on how it is to be achieved, or on what ballot it is to be, but they assure all inquirers there is no doubt about it. Seventy-two hours before Senator Lodge's gavel drops in the big Collectum a composite talking machine record of the expressions of the managers would say.

MONDAY, JUNE 7, 1920.

Republican members of the Chicago convention are hunting for some solution for the league plank, but to Senator Lodge and others of the party, it's a long, long piece of timber for the size of the platform.

Bryan is now sending out stories of the significant features of the Chicago convention, so it is only natural to expect that political ambitions to be slightly "scrambled" before the meeting is over.

Senator Borah is of the opinion that the Republican party should do some house cleaning immediately, but if we see things in the right light, it looks like this might be advisable for other political factions also.

It is generally conceded that a second primary will be necessary in order to confirm the nomination of one of the three candidates for gubernatorial honors, but as yet final counts from all sections of the state have not been received, and consequently nothing definite can be decided upon. However, the second primary seems inevitable and this impression will not be dispelled until final returns have been received.

It is expected that hundreds of the people will attend the opening of the Eastern Carolina baseball association in this city Tuesday for much interest has been created by the organization and people are in the right mood for just such sport diversion as baseball affords. Greenville probably will make a good showing throughout the season, for it was solely through efforts of advocates of the city that the league has been made a certainty. People should support the club, because it will be better enabled to afford the results appreciated by every good fan. If you are not a supporter of the team, yet in first efforts at the opening game Tuesday.

It is pleasing to note that the telephone company of this city is capable of affording such excellent service as rendered this paper Saturday night while election returns were being received, for it goes to show that the system is capable of handling the city business under more than ordinary pressure and is backed by a spirit of willingness of employees in prompt execution of all business on hand. Manager Jack Blanks is doing everything possible to make the Greenville exchange one of the best in the state, and the fact that he is receiving complete co-operation from long distance and local operators seems to predict greater success in future endeavors. The Reflector truly appreciates such splendid service as that rendered Saturday night, and feels indebted to the operators who served so energetically and efficiently for several hours without intermission. Such service speaks well for the management and should be appreciated by everyone depending upon the telephone for important business transactions.

Lowden appears to be leading the candidates for the Republican nomination for the presidency, but before the convention is over General Wood may bring out a few things in "firing his big guns."

### A PRETTY FAIR PRIMARY.

The result of Saturday's primary to some extent was pleasing indeed to people in many sections of the state while to others it was different. It is the same in all things of life, for people cannot always be the winner and there is bound to be someone to meet defeats. As a state affair the election probably was one of the most eventful things that transpired in many years, for the simple reason that this year the ordinary voter was faced by problem of the future compelling greater conservatism in ideas of government, and last but not least, the choosing of men capable of conducting the affairs of the state with efficiency and versatility.

It is seldom indeed that any state can bring about the election of men appreciated by everyone, for this is an impossibility. Every community appreciates the services of an official, but there may be certain incidents connected with his administration that are not agreeable to people of his community and which may be a distinct disparagement upon his activity in the future. This fact has been one of the dominant issues in the present campaign for some mighty good men have been defeated simply because the majority of people happened to get the wrong conception of his object in their interest, and consequently, not being aware of his intention, cast their vote for someone else whom they no doubt thought would be his superior.

Pitt county has been fortunate in some instances in the election just past, while in others it has lost men fully capable of carrying to a state of consummation the highest ideals which the conservative voter might have cherished. The election has produced great anxiety in many localities, and hundreds of people have been in suspense because incomplete returns predicted the defeat of their candidate and spent several hours in anxious waiting for final returns from state headquarters and county precincts.

The re-election of Sheriff Dudley probably was one of the most important features of the primary to this county, for his administration throughout the entire past term was diligent indeed when compared with other sections of the state. He has always served the people with the best interests of the county at heart and this fact has been one of the outstanding features of his administration. The section is fortunate that such a man is to uphold the principles of legislation and high standards of the better elements of people in the next two years, for it is seldom that any community is fortunate enough in making such an excellent selection.

As to the other candidates of the county there is of course some dissatisfaction in evidence among certain factions, but taking the issue as a whole it is significant that mighty good men have been chosen, with the elimination of several who have served the section faithfully and diligently in the years gone by. In the state ticket there has been much interest in prevalence, and while there are those who are disappointed and those who are glad over the outcome, it must be remembered that other elections are to come when opportunities to elect the desired candidate will be afforded. The world must go on regardless of political choices or ambitions, and if we would make the best of the situation it is advisable that present conditions be accepted as they are for there are others who live and think and have ambitions similar to ours.

# Moline Mower

"I have about two acres of soggy land. The sweet clover on this land was as high as the horse, and with the old stalks from last year still on the land. The Moline Mower is the only mower that I was able to cut this clover with, and I have tried them all. I consider the Moline Mower the best that is built. The mower is the lightest draft machine I ever hitched to a team, and certainly do recommend the Moline Mower to anyone considering the purchase of a mower." - A. C. Mansner, Payette, Idaho.

This letter shows what service you can expect from a Moline Mower. The Moline gives such satisfaction wherever used and will give you better service than you ever obtained from a mower before.

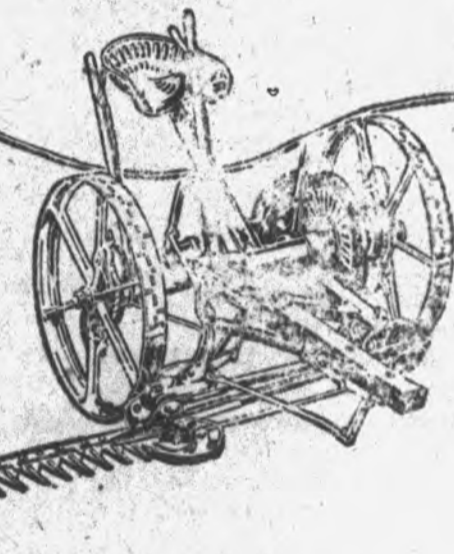

It will cut any kind of grass; it is unusually light in draft, and it will give you from 25 to 40 years of satisfactory service—many Moline Mowers have been used longer than this.

And remember, the Moline Mower is not a new mower, but has been in use in all parts of the world for the last 60 years.

Space does not permit us to tell you all about the good points of the Moline Mower. Send for Folder R. F. 22, which we will gladly send you, and you will readily see why the Moline Mower gives such splendid satisfaction, year after year, cutting all kinds of grass.

The Chautauqua begins tomorrow afternoon.

**MRS. WILLIAMS ENTERTAINS AT SHOWER.**

Complimentary to Miss Higgs, Bride-Elect.

On Saturday afternoon, Mrs. Richard Williams delightfully entertained two dozen friends complimentary to Miss Lizzie Higgs, who will be married this afternoon. The Williams home on Greene street was attractively decorated for the occasion with profusions of sweet peas and roses. Tables were placed for rook in the library and living room and were marked with satin bows and sweet peas. Little Miss Meta Moore, of New Bern, distributed attractive score cards. Miss Bessie Harding, of Washington, won the prize, a basket of roses. The bride-elect was also presented a basket of roses with a box of pretty pins concealed within. Little Miss Mary Dorcas Harding then presented the bride a lovely basket the handle of which have a miniature bride. Hidden amidst pink roses in the basket, was a beautiful shower of handkerchiefs, gifts from the guests. The hostess then served an ice course with salted nuts. Bon bons were served on the tables during the games.

**NEW YORK CENSUS PROBABLY WILL BE AHEAD OF LONDON**

(Continued from page one.) has had its effect on the growth of both cities. New York is believed to have suffered from the stoppage of the stream of immigration, a large portion portion of which in previous decades has settled there. War industries are thought to have added to New York's population and also to a greater extent to that of London where huge war plants were erected by the British government. London's losses of her men at the front were considerable and these are expected to affect her total population to some extent.

New York's Metropolitan District, as shown by returns of 22 New Jersey cities and towns whose populations already have been announced, will not show so heavy a growth as it did in the decade ending with 1910. These cities and towns, including Newark, Paterson, and Jersey City, show an increase only four fifths as large as was shown 10 years ago.

**SENATE INQUIRIES TO GO ON TO FALL ELECTION PERIODS**

Demanding that his resolution be passed and agreeing to any amendments to make it more searching than originally drawn, Senator Pomerene said that the Democratic party wanted the people to know if there is any truth in the suggestion that it has established a slush fund of ten million dollars for use in the coming campaign and is willing to "go into court."

"The distinguished charge of the Republican National committee," said the senator, "had scarcely warned his seat until the press of the country said the largest slush fund in the history of the world was to be raised, that he was going into every State, calling all the leaders together, and had bargained with every State chairman to duplicate the amount raised in the State. On this proposition it was reported that \$600,000 was raised in the State of Ohio."

**Do Your Feet Hurt?**

From our daily observations we find that there are perhaps seven or eight persons out of ten who suffer with some kind of soreness in their feet; and a great many people believe they have rheumatism, and, also, according to their ideas, they spend money for various liniments and other treatments in order to get relief. But, in our observation, as we come daily in direct contact with their foot troubles, we find that most of their troubles is in their arches or across the ball of their feet.

We could tell you right here what causes your trouble and offer you also a remedy, but since we made arrangements with a foot Specialist to come here at great expense we prefer to let him demonstrate to you the facts of your condition. It will not cost you a cent for examination. All we wish to do is to demonstrate as shoe men, our ability in this line and if you do not care to be cured, it will not cost you anything for the advice.

Perhaps your shoes have helped to bring this trouble on, but the shoes are not to blame in all cases, and this is what this specialist will tell you, why you suffer and what causes your trouble.

In justice to yourself don't forget the date next week, 9, 10, 10 and come in.
