NUMBER 37

BRYAN NAMED TO HEAD DRY FORCES FOR THIS COUNTRY

Nominated by Acclamation Despite Message Saying He Would not Accept

CONVENTION TO CONSIDER PLATFORM THIS EVENING

Miss Marie Brahm, of Los Angeles, Discussed for Vice Presidency.

Lincoln, July 22.—With the nomination of a presidential candidate completed the prohibition national convention today turned its attention to the selection of a vice-presidential candidate, adoption of platform and appointment of committees. William Jennings Bryan was nominated presidential candidate over protest of his brother, Charles Bryan. No word was received this morning from Bryan concerning his attitude toward the nomination. As a running mate Miss Marie Brahm, of Los Angeles, stood on in discussion among delegates.

Lincoln, Neb., July 21.—William Jennings Bryan was nominated by acclamation as the prohibition party's presidential nominee at the national convention a resolution "tendering" the position of standard-bearer had brought out the fact in debate that Mr. Bryan had telegraphed friends here that he "could not accept."

An attempt to table the Caldwell motion tendering Mr. Bryan the nomination was overwhelmingly defeated.

In naming Mr. Bryan the convention upset precedent as well as its program by selecting the candidate on the first day. Nominations were not scheduled until Friday.

The nomination came after a stampede of the delegates, which was started by the resolution of W. A. Calderwood of Minnesota, "tendering" Mr. Bryan the leadership and asking him to reply promptly to the convention whether he would accept.

Attempts to table this resolution only resulted in an hour's recess, during which its opponents, led by Clinton N. Howard of New York, urged Charles Bryan, brother of the nominee, to make public communications concerning Mr. Bryan's attitude.

This brought out the fact that a proposed stampede, plans for which became known yesterday, had resulted in Mr. Howard sending a telegram to Mr. Bryan asking if he would accept the nomination and that the Nebraska had replied saying he would decline. Speakers criticized Mr. Howard for not making public the correspondence sooner, when it was generally known this morning that he had heard from Mr. Bryan.

PRISONER IN NEW YORK CAUSES DUBLIN STRIKE

Dublin, July 21.—A general strike was called in Dublin today in pursuance of the movement to secure the release of James Larkin, head of the transport workers' union, who is serving a sentence in New York on conviction of criminal anarchy.

Labor here is divided on the question of the strike, even the Liberty Hall chiefs regarded as futile, it is said, such a method of applying pressure to the American government. This order to lay down tools was not generally obeyed, but the extreme wing of the labor men expressed determination to bring the workers out and were reported this morning to be forcing the withdrawal of laborers from buildings on O'Connell street.

At the city market, armed men caused the workers to cease their tasks, while vehicles were stopped and attacked in the streets.

Matt Healy, of the Marks-Arnheimer Tailoring Co., will be here Friday and Saturday with his fall line of samples. Come in and let him take your order for a suit.

PLANS TO CONNECT GREAT LAKES WITH ATLANTIC WATERS

H. C. Gardner Declares There is No Selfish Motive Involved in Issue.

PROJECTIVE WILL RELIEVE CONGESTED SEAPORTS

Many Cities Will be Relieved of Bad Situations by the Movement.

Detroit, Mich., July 22.—The proposal to link the Great Lakes with the Atlantic by making the upper St. Lawrence river navigable is not a sectional selfish movement, but one so broad and fundamental that it is a national necessity, said H. C. Gardner, of Chicago, president of the Great Lakes-St. Lawrence Tidewater association, speaking here today at the opening session of the Tidewater Congress.

After reviewing the work of the association and the efforts of the International Joint Commission, that during the past several months has held hearings in Canadian and American cities, Mr. Gardner, declared, the future work of the association rested in education of the people of the two countries to the benefits that might be derived from the proposed improvement.

SIXTEEN PERSONS GIVEN HEARING FOR RESISTING DIPPING

Belvoir Citizens Released Under Bond for Trial in Superior Court.

Sixteen persons of Belvoir township, recently indicted by federal authorities for failure to comply with the government's provisions for the dipping of cattle in this county, this morning waived examination in a preliminary hearing before Justice of Peace Corbett and were bound over to the next term of superior court under bonds of \$100 each. Two of the defendants failed to waive examination, but the charges were not denied in the preliminary hearing, all being bound over to the higher court.

The indictment charges the defendants with failure to co-operate with government agents in the eradication of cattle ticks, particularly last Wednesday when they failed to present their cattle at a dipping conducted at one of the Belvoir ruts. The authorities were fired upon by person from ambush at the time, but the indictment does not bring any charges of implication in the shooting against any of the defendants, simply asserting that laws regulating tick eradication had been disregarded.

Government agents this morning notified the defendants that another dipping would be conducted in their community next Wednesday, and that they would be expected to be ready for their coming. Those included in the indictment were: Arthur James, R. E. Clark, C. C. Little, J. L. Lewis, J. S. Clark, M. D. Lewis, Jesse Stancill, David Hathaway, Mrs. L. A. Hathaway, Tom Thomas, N. W. Stancill, Garland Stancill, Raymond Stancill and W. L. Smith.

Matt Healy, of the Marks-Arnheimer Tailoring Co., will be here Friday and Saturday with his fall line of samples. Come in and let him take your order for a suit.

RAINS ARE SWELLING THE RIVER.

It is hoped the rains will not keep up until there comes another flood like the one in July of last year. The water is already getting well up in the river and it is a difficult thing to keep the ferry running.

Typical Natives of Livonia

Though more a land of tears than cheers, these happy natives may be seen gayly waving a greeting to the camera man in the newly formed republic of Livonia. This new nation is fighting actively against the bolshevik. Thousands of destitute Russians are being cared for by the American committee for Russian relief.

BOATS GETTING IN READINESS FOR BIG RACES TOMORROW

Shamrock and Defender at Mooring Preparing for Next Great Dash.

Sandy Hook, July 22.—The Shamrock is in the dry dock today getting its hull cleaned. The Resolute is at its moorings having rigging inspected. The race tomorrow will be over a triangular course, ten miles to each leg.

Sandy Hook, N. J., July 21.—Resolute defender of the America's yachting cup, came back today after two straight defeats, and magnificently won over the British challenger, Shamrock IV.

Shamrock finished a scant half boat length ahead, with a lead of 19 seconds, but as she had gained precisely that advantage at the start, the race was miraculously in yachting events—a deadheat over the 30-mile course. Resolute won by the amount of her handicap seven minutes and one second. The fourth race will be started Friday.

Veteran yachtsmen who followed the trim craft through the four hours, three minutes and six seconds of racing time thought back over many years of racing without being able to conjure up a picture that could compare with today's spectacle. It was a real yacht race from the start, and it proved a finish rivaling in closeness that of a neck and neck horse race.

TAR RIVER FERRY TO BE CLOSED FOR INDEFINITE PERIOD

Operation to be Discontinued at Noon Today, Account of High Water.

The temporary ferry used in handling traffic across the river while the county bridge is being improved will be discontinued indefinitely this afternoon on account of an expected rise of Tar river, which will probably reach a 15 foot crest by Sunday. Members of the county road commission yesterday received a telegram from the weather bureau, stating that the river would begin rising slowly today, faster tomorrow, probably reaching its crest either Sunday or Monday.

The high water will make it absolutely impossible to operate the ferry, but service will be continued as long as possible. The water had risen to such an extent this morning that it is believed it will be extremely dangerous to try to run the ferry later than noon today. However, the situation is being watched closely, and operation will be discontinued immediately the water reaches a certain height.

The expected fifteen foot rise, it is estimated, will be nine feet less than that of last year, which was the highest record ever established by the stream, and greatly above any of recent years.

The road commission is making an effort to have A. C. L. passenger trains stop at Mumford's siding to accommodate the traffic while the ferry is out.

Greenville Postoffice Shows Splendid Increase of Business Over Last Year

Postmaster D. J. Whichard gives out the following statistics of the business of the Greenville post office for the fiscal year ending June 30, 1920. The figures given below, which will prove of interest to the public, show a comparison of the past year with the previous year ending June 30, 1919:

	1920	1919.
Total receipts of office	\$28,543.76	\$26,651.01
Number insured parcels mailed	9155	5734
Number paid registers mailed	2445	2177
Number official registers mailed	482	
Number C. O. D. parcels mailed	1419	1211
Number money orders issued	14,994	11,057
Number money orders paid	3814	3603
Receipts for lock box rents	\$ 964.00	\$906.55

It is also worthy of note in comparing the figures for the two years above, to state that with a gain of \$1,892.75 in total receipts for the past year, this gain was made on a decreased rate of postage. During the previous year letter postage was 3 cents and postal cards 2 cents, while the past year the rate on letters was 2 cents and postal cards 1 cent. Had the same rate of postage been in effect the past year as for the previous year the gain in receipts would have been over 17 per cent more.

The report should be appreciated by people of this city for it may be considered an accurate index to progress along practically all lines of industry for the past year. Postmaster Whichard has been pleasantly attentive to the government's work, and his enterprise and versatility have meant much in the splendid proportions which the business has assumed.

SUBMIT AWARD TO REFERENDUM VOTE OF RAILROAD MEN

Union Officials Probably Will Not Present Any Recommendations.

DIRECT REJECTION OF AWARD NOT APPROVED

Railway Labor Board Declines to Re-consider Case Further.

Chicago, July 22.—Submission of the \$600,000,000 rail wage award to a referendum vote by the 1,800,000 railroad workers without recommendation from the Union leaders either for its acceptance or rejection appeared probable tonight.

This was the opinion in labor circles after rejection by the United States Railway Labor Board of a petition for a rehearing of the case.

Three courses were open to the Union chiefs:

First, submission without recommendation; second, recommendation that the award be accepted; and third that it be rejected.

At midnight it was reported that six

(Continued on page four.)

ANDERSON FAVORS CONNECTING GREAT LAKES WITH OCEAN

Vice-President of Manufacturers' Association Thinks Waterway Advisable.

Detroit Mich., July 22.—Charles K. Anderson, of Chicago, vice president of the American Manufacturers' Export Association urged development of a waterway from the Great Lakes to the Atlantic to relieve congestion in New York harbor, in speaking today before the Great Lakes-St. Lawrence Tidewater Congress.

In answering opponents of the project to develop the St. Lawrence, who, Mr. Anderson said, had asserted the plan was not feasible because the St. Lawrence was frozen over during a part of each year, the speaker said that "So far as shipments are concerned the New York harbor has been frozen up during two thirds of the last year."

Calling attention to the congestion of freight in New York, Mr. Anderson declared the expense of making the St. Lawrence a pathway to the sea would be trifling when compared with the results.

The life and happiness of the Great Lakes district are at stake to a greater extent than is realized by the citizens of the territory", the speaker said. "The last census has shown a remarkable growth of cities in the Lakes region. An outlet to the sea will insure a similar development in years to come. Mr. Anderson declared the saving in time and money in unloading and reloading ships would pay for the proposed waterway many times.

The speaker asked the congress to poll manufacturers and business men of New York and Pennsylvania and learn their views, declaring his opinion that the census would show a large percentage favorable to such development.

25,000 CARS GO WEST FOR GRAIN

Washington, July 21.—Movement of 25,000 additional box cars from eastern and southeastern roads to western lines to assist in handling the new grain crop was ordered today by the commission on near service of the Association of Railway Executives. The movement will begin July 25 and continue for thirty days.

This order is in line with instructions issued by the Interstate commerce commission and a renewal of orders in effect for the 30-day period ending July 24.

HARDING PLEDGES FAITH TO COUNTRY IN ADDRESS TODAY

Republican Nominee Formally Accepts Nomination in Address at Marion.

DECLARES DESIRE FOR SUFFRAGE RATIFICATION

Makes Only Passing Comment on Prohibition Question of the Country.

Marion, O., July 22.—A pledge of constitutional government, administered by party and not by individual and based on national rather than world ideals was given by Warren G. Harding today in accepting formally the Republican nomination for the presidency.

He welcomed a popular referendum on the league of nations, advocated increased production to cut the high cost of living, pleaded for obliteration of sectional and class conflict, and declared for industrial peace "not forced but inspired by the common weal."

Prohibition he gave only a passing notice, saying that despite divided opinion regarding the eighteenth amendment and the statutes enacted to make it operative, there must be no evasion in their enforcement. He declared it his "sincere desire" that ratification of the suffrage amendment be completed to permit women to vote this fall in every state.

Reviewing and commending briefly many other planks of the party platform, the candidate declared for collective bargaining for farmers, repression of the disloyal, "generous federal co-operation" in rehabilitating the railroads, intelligent deflation of the currency, enlargement of government aid in reclamation, a genuine expression of gratitude to veterans of the world war and maintenance of an ample navy "a small army but the best in the world."

In his promise of "a party government," Senator Harding reiterated his belief that the Vice President should have a part in the affairs of the chief executive's official family and declared there also should be "a cordial understanding and co-ordinated activities" between the executive and congress.

"No man," he said, "is big enough to run this great republic. Our first commitment is the restoration of representative popular government, under the constitution, through the agency of the Republican party."

Promising restoration of peace as soon as a Republican congress should send a peace declaration to a Republican President for his signature, the candidate assailed the league covenant as brought home by President Wilson, but declared the war's sacrifices would be "in vain if we cannot acclaim a new order, with added security to civilization and peace maintained."

IRISH PROBLEMS MAY BE SOLVED

London, July 21.—The Sinn Fein and the British government are prepared to discuss, if they are not already discussing, a basis of probable settlement of the Irish question, according to a statement recorded by the Daily Mail's Dublin correspondent, who says the Irish political circles where this report is current are usually well informed about important moves at Westminster.

Both Sinn Fein and labor leaders in Dublin are very busy, adds the correspondent, and important statements are expected to be made at Thursday's debate, in the house of commons.

881 AMERICAN BODIES ARRIVE FROM OVERSEAS

New York, July 21.—Bodies of 881 American soldiers who died overseas arrived here today on the steamship Princess Matoika from Danzig and Antwerp. Twenty-five "war brides" of French and German nativity were among the first cabin passengers and Polish repatriated troops composed the majority of the 2,004 steerage passengers.

THURSDAY, JULY 22, 1920

Hi Johnson promises his support to Harding with a big if attached to it.

The spirit of lynching should be quenched, and the sooner the better.

If they do not hurry and let Harding get off his speech of acceptance he will have to make some changes in it.

Harding seems rather forward in issuing commands, but he finds that Cox is one who does not obey unless he wants to.

Two hundred percent stock dividend, as has just been declared by the Reynolds Tobacco Company, shows some profit.

Senator Lodge will notify Harding of his nomination for the presidency today, but it hasn't been decided who will inform him of his defeat.

Notification ceremonies will take place on Senator Harding's front porch, so it is stated, and it is hardly probable that the campaign will get any further.

Senator Henry Cabot Lodge may have a flowery speech planned for the notification ceremonies, but it's certain he would rather preside over the last rites of the league of nations.

Admirers from Ohio were the first to reach Senator Harding's home yesterday, but still there are enough folk left at home to nominate Cox in that state just the same.

There are lots of men who think very little of woman suffrage just now, but they may change their minds after woman has been retained in North Carolina.

Governor Cox says campaign expenditures of the Republicans would "shock the public's sensibilities," but since the public is better acquainted with conditions than most people expect nothing it may do will be shocking any longer.

The Democrats have perfect right to count on winning supremacy in congress next year, for Democrats have been instrumental in making one of the greatest records in the annals of the nation and naturally feel that it is a prerogative to be leaders in everything of national importance. The United States congress demands men fully qualified to consider the nation's business with due regards for every faction concerned, and if one party handles the business it is perfectly natural to believe that greater harmony will be in evidence. Republican ascendancy in the Senate created several deplorable situations, for they failed to view conditions as did those with clear conception of Democracy, and the session terminated without anything of any note being accomplished. The people demand faithful representation, and when there is factionalism this is not possible, so it is up to each state to appoint representatives of the party holding sway. The nation's future demands this much, and should not be denied.

A PLEA FOR SUFFRAGE.

Headed by Miss Esther Ogden, a director of the National American Woman Suffrage Association, a deputation of Democratic women will appear before the National Democratic Committee when it meets in Columbus, Ohio, Tuesday, and urge that the committee leave no stone unturned to secure ratification of the Federal Suffrage Amendment by Tennessee and North Carolina. With Miss Ogden will be, among others, Mrs. T. Palmer Jerman, of Raleigh, North Carolina, Mrs. Otto Wittgen of New Jersey, Mrs. Elizabeth Hamner, of Ohio.

Miss Ogden will present to the committee a memorial from the National American Woman Suffrage Association which reads as follows:

"In behalf of the women of the country, the National American Woman Suffrage Association reminds the National committee of the Democratic party that within the grasp of the party lies the opportunity to render an act of supreme justice to the women of America by securing the 36th ratification of the Federal Suffrage Amendment.

"The Amendment has been brought to the very verge of success but the 35 ratifications that it has to its credit make a lifeless record without the 36th to vitalize them. Of far greater moment than party service is the question of right, but we stand at a crisis in American history today where both questions are pressing.

"From every angle of consideration we urge the Democratic committee to assume the responsibility of achieving the ratification of the amendment by Tennessee and North Carolina and to rest satisfied with nothing short of that achievement."

GOOD TOBACCO PRICES.

The favorable prices prevailing at the opening of the South Carolina tobacco markets is the best news which people in this section of the state have received in sometime, for it means that prices also will be good on the floors in Eastern Carolina. Good grades of tobacco, it is believed will be in constant demand throughout the entire season, and prices will be proportionately higher than last year. There will be little demand for inferior grades, as the South Carolina opening plainly depicted, so it is up to the farmers to carefully grade and assort their offerings before presenting for sale. The year will be as prosperous possibly as last season, for prices will be considerably higher owing to the steady advance in the cost of production. The average price, however, will be similar to that received last year, according to authorities, so there is little reason to doubt that the season will be other than what people desire it. Tobacco means more to eastern North Carolina than the majority of people realize, but those informed of the extent of the industry know what low prices and shortages in production will mean in the long run, and rejoice with the planter when there is every indication of a good season.

With Wilson and Cox both urging the North Carolina legislature to pass the suffrage amendment, and the Democratic state convention already having declared for it, the legislature should not be slow to fall in line and give the ballot to the women. It is bound to come any way, and it will be best to end the agitation.

The Republican party claims to be optimistic concerning the future, but if we would judge by Senator Harding's action, they are becoming to nervous for comfort. The truth is, that old G. O. P. doctrine isn't getting the attention necessary, and very naturally supporters are getting over anxious, if not excited.

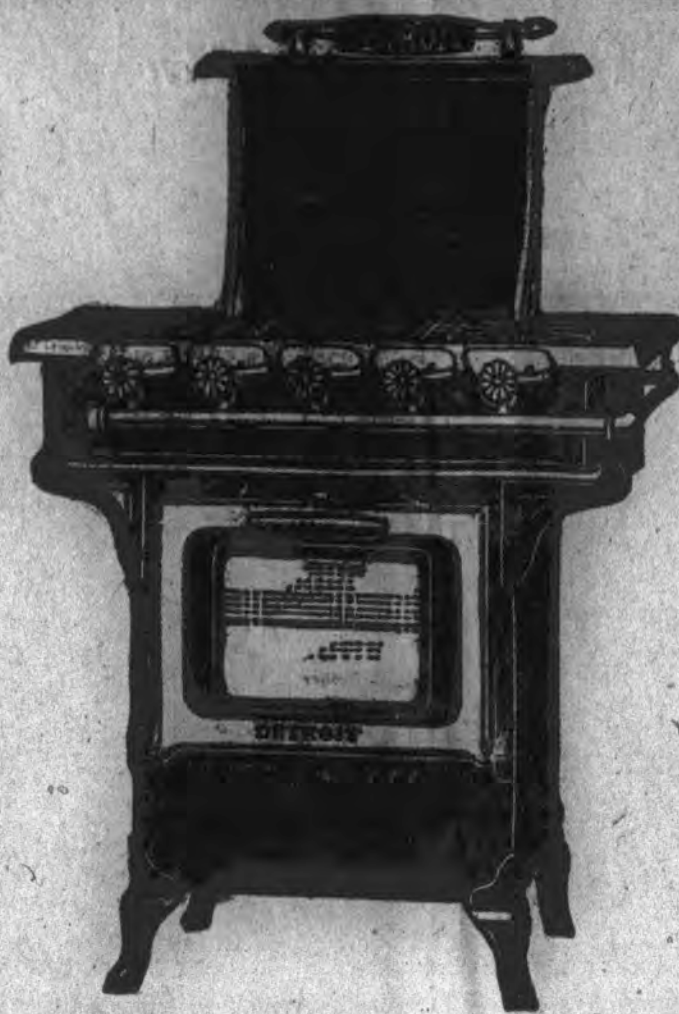

MARRIAGE LICENSES ISSUED SINCE REPORTS YESTERDAY

The following marriage licenses have been issued by the register of deeds since the report of yesterday evening: Colored—Esther Cooper to Charlie Murphy, both of Greenville township. Kate Collier to Robert Persons, both of Bethel township.

What Is the best Occupation For Your Daughter

A man in the employ of the U. S. Government, whose two daughters have made telephone operating their profession, said: "If I had ten daughters, I would want all of them to be telephone operators. Aside from the fact that they work under the direct supervision of women only and that every provision is made for their comfort, the training they receive is a great developer of tact, resourcefulness and initiative."

Telephone operating is more than a job. It is a young woman's profession and the work is essentially a woman's work. At the present time it offers unusual opportunities for advancement.

In most young women's professions months of preliminary training are necessary at the learner's expense. But in telephone operating the beginner pays nothing for her training. On the contrary, she is placed on the pay-roll as soon as she begins the brief course of instruction. Her salary is increased at the completion of this course and thereafter a regular and frequent intervals.

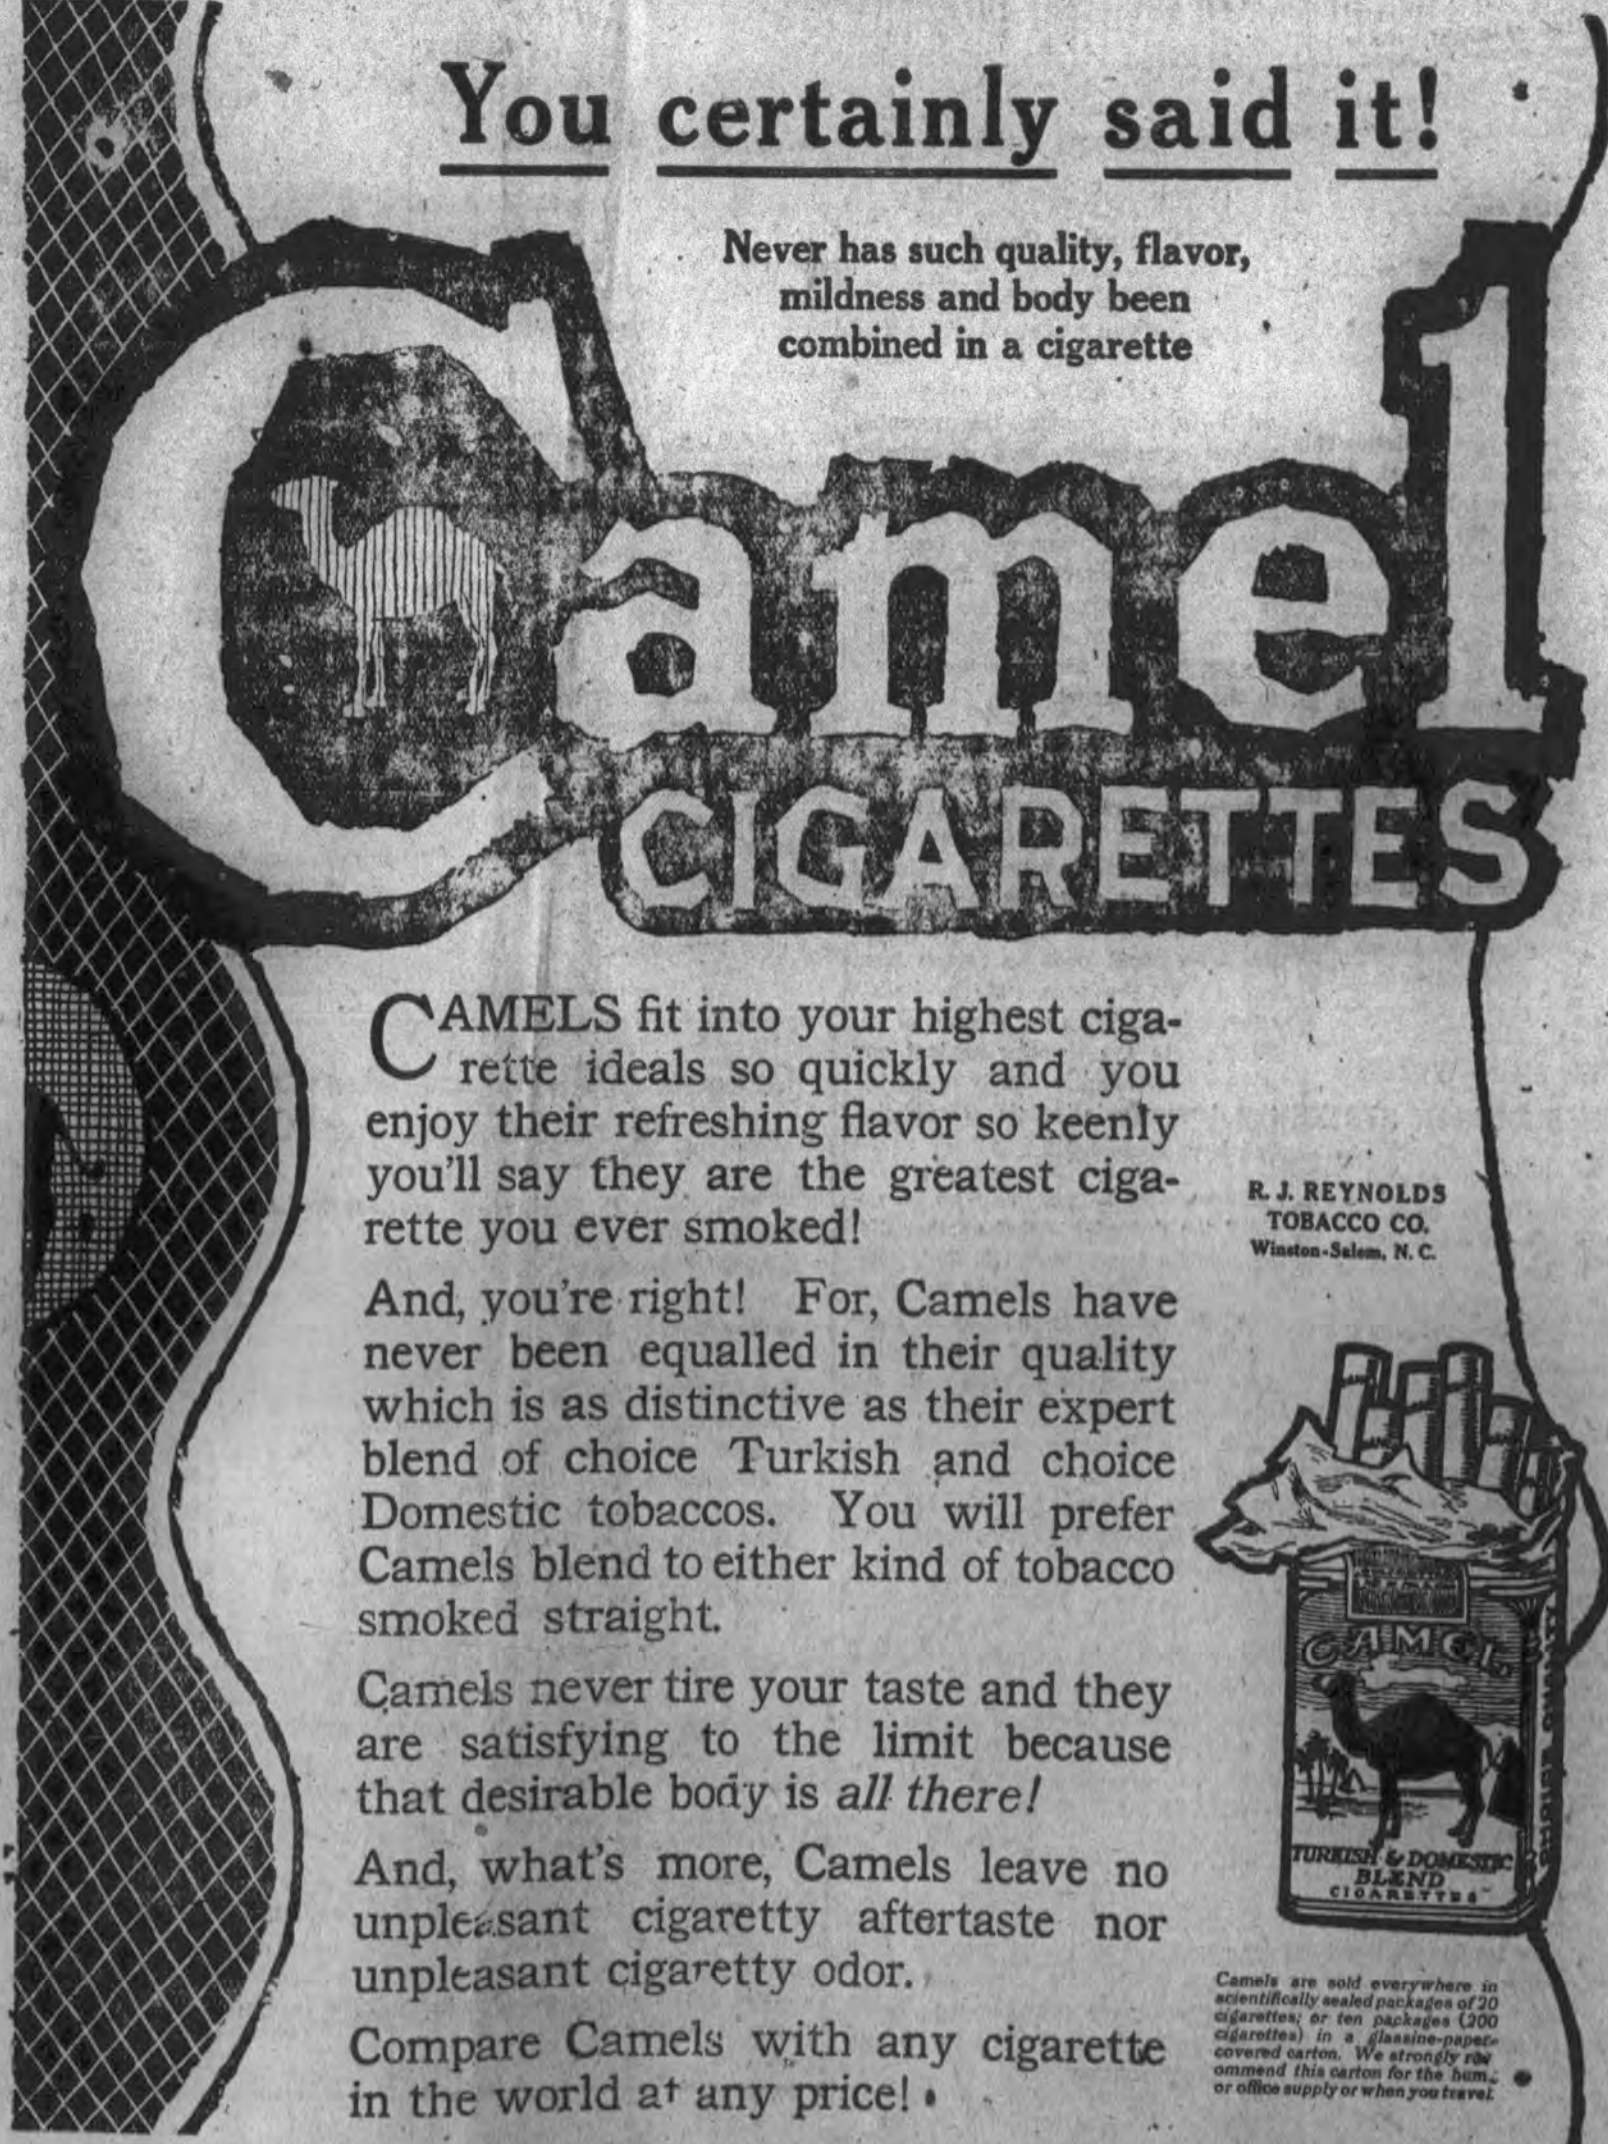

Some of the features of the work are: Good salaries from the start; permanent positions; regular and frequent increases; special opportunities for promotion; high grade, cleanly work; congenial and carefully chosen associates; light and airy central offices; comfortable recreation rooms; annual vacations with pay, and sick benefits and pensions without cost.

If you have a daughter who would like to apply for a position as telephone operator, or know of another young woman who may be interested, we shall be glad to see her and talk the matter over in detail.

Call Chief Operator.

ZIRON Iron Tonic Makes Her "Old Man"

Feel Young Again, Says Daughter.

To help repair the results of illness, old age, work and worry in your daily life; to help give strength to your run-down system and to help renew lagged forces and tone up the nerves—you will find a valuable remedy in Ziron.

Read what Ziron did for an old man, who had to stay in bed most of the time. His daughter, Myrtle Mills, of Pulaski, Tenn., says: "Ziron has helped my father wonderfully. He could not do anything before taking it. He was in bed most of the time, complaining with broken-down nerves and backache. He has taken three bottles and says he is as strong as when he was 17 years old."

If your blood needs iron, try Ziron Iron Tonic. What it has done for others, it may do for you.

Ziron is mild, harmless; does not discolor the teeth, and may be taken safely by young and old, men, women and children.

Get Ziron at your druggist's, under a money-back guarantee.

 of commission, and while this has not yet been it is quite probable the company will concede to the request.

PLANS TO CONNECT GREAT LAKES WITH ATLANTIC OCEAN

(Continued from page one.)
 ment of the St. Lawrence.
 "Development of the river will bring necessary relief to millions of American and Canadians", Mr. Gardner said. "Power will be developed industry and agriculture made more secure, and 100,000,000 tons of coal saved each year."
 "The American people and their law makers must be made to realize that opening of the St. Lawrence is an economic necessity."
 Mr. Gardner pointed out that 14 states now are actively interested in the deep water ways project.
 Hearings of the International Joint Commission, Mr. Gardner said, have shown a desire for the waterways improvement on the part of practically all citizens in the Great Lakes district.

Matt Healy, of the Marks-Arnheimer Tailoring Co., will be here Friday and Saturday with his fall line of samples. Come in and let him take your order for a suit.

SUBMIT AWARD TO REFERENDUM VOTE OF RAILROAD MEN

(Continued from page one.)
 of the sixteen great transportation brotherhoods, in addition the Masters mates and pilots of America, had decided definitely to accept the award.
 Eight of the remainder were said to have tentatively rejected the award, with provision that the final decision be left to a referendum vote of the membership.
 The order of Railway Conductors was said to be still undecided, while the Order of Railway Telegraphers were reported to have issued strike ballots.

In view of the vision, it is believed that the award would be submitted to a referendum by all of the brotherhoods, either without recommendation or with the recommendation of each group.
 The following brotherhoods were reported to have accepted the award:
 Brotherhood of Locomotive Engineers; Brotherhood of Railroad Trainmen; Switchmen's Union of America; Brotherhood of Stationary Firemen and Oilers; United Brotherhood of Maintenance of Way Employees, and Railroad Shop Laborers; Brotherhood of Locomotive Firemen and Engineers and the Masters, Mates and Pilots of America.

LUMBERTON TOBACCO MARKET STARTS WELL ON GOOD GRADES

Mr. O. L. Joyner, who is in Lumberton at the opening of the tobacco market there for the season, drops The Reflector a note in which he says good tobacco has opened well up in price, but that the common grades "are too low for anything. This seems in line with the prediction that there will not be much demand for common tobacco this season.

Some local gardeners are complaining that their tomato plants are dying before the tomatoes mature.

GREENVILLE WINS FROM TARBORO IN INTERESTING GAME

Locals Blank Visitors Until Fortunate Scoring in Ninth; Score 4 to 2.

Those who braved the inclement weather to the fair grounds in this city yesterday afternoon were amply rewarded for their effort in seeing Greenville win from Tarboro by the score of 4 to 2. The contest was unusually fast and interesting considering the wet condition of the diamond, but both clubs were evidently in a playing mood and handled the sphere in a pleasing way throughout the entire game. The visitors were blanked completely until the ninth inning when by a succession of two hits, bunt and wild throw by Greenville they succeeded in sending the only two tallies across the rubber. It is not believed this would have been possible, however, if a commotion had not been started in front of the grandstand over Tarboro placing Mark Webb, professional player, in as a pinch hitter, for about the time the argument was at its height, a sacrifice hit and bunt placed the two runners in home. The visitors probably used a greater number of pinch hitters in this inning than has ever been noticed in any game here during the season, but they failed to change the tide of victory in the slightest way.

The double-header, which had been scheduled between the two clubs since Monday afternoon, was again postponed yesterday, as a heavy rainfall shortly before the first game was to have taken place flooded the diamond to such an extent that playing at the time was impossible. However, the grounds were in pretty fair condition by 4:30 o'clock, and the second game was started and played without the slightest interruption from old Jupiter Pluvius who evidently realized for one time this week that the club needed the money. Rain checks were issued to the great throng of people caught in the heavy rainfall preceding the first game, and only a very slight number failed to make their appearance for the second game. Some were drenched completely, including a number of ladies, but they had been home, changed apparel, and returned to take another chance with the rain or see a mighty good game of ball.

"Smokey" Smith pitched another great game for Greenville, and had visitors shut out with only three hits until the batting rally and fighting spirit of the visitors succeeding in sending the two runners around the circuit. His curves worked to perfection although the balls were at times wet and heavy, and Tarboro found him invincible when hits counted for runs in early stages of the contest. Banks, Greenville right fielder, prevented Tarboro scoring in the third inning by a sensational one-handed catch of a fly from Shirley's bat, with three men on bases. He made a long run after the sphere, and by leaping high in the air, brought the sphere down in a way that caused hundreds of fans to momentarily go wild with elation at this piece of highway robbery. He was afterwards arrested by Managers Hollingsworth and Hooker, charged with a sensational robbery, but was later released at the player's bench with appropriate honors.

Llewellyn pitched in pretty good form for Tarboro, but was relieved in the seventh inning by Brisk who was fortunate enough to prevent further scoring, although he was hit probably as freely as his predecessor. Both failed to prevent the batting spirit of the locals during the game, Massey, Ellis, Wrenn, Burrell, Banks and Strickfield absolutely refused to be denied their usual chance with the willow, and hit so opportunely that sending four runners across the rubber proved an unusually easy matter. Lancaster, Bird and Shirley did the hitting for the visitors, but they were well scattered and failed to be productive of runs until the ninth inning.

Greenville began scoring in third on

EASTERN CAROLINA.

Clubs:	W.	L.	Pct.
Greenville	5	1	.833
Williamston	3	3	.500
Washington	3	3	.500
Scotland Neck	4	4	.500

Tarboro	2	5	.286

SCOTLAND NECK DEFEATS WILLIAMSTON CLUB 3 TO 0

Scotland Neck, July 22.—The Scotland Neck hyphens defeated Williamston here this afternoon by the score of 3 to 0. The game was probably one of the best staged here in several days, as both clubs fielded fast and made every play count to their interest.

SINGLE MEN AND MARRIED MEN TO CROSS BATS FRIDAY

On Friday afternoon at 4:30 o'clock at the Fair Grounds the married men will cross bats with the single men. The game will be played for the benefit of the baseball club. No admission will be charged but a collection will be taken. This promises to be one of the most interesting games of the season. It is expected that it will be a no hit, no error game, and it is predicted by the older baseball fans that it will probably take from eleven to thirteen innings to decide the game. Both sides are going in to win, and it is requested that each player bring his own glove and as many bring bats as possible. The line-up hasn't been definitely decided upon but it is thought that the following line-up will play: married: Burt James, Parson Sam Phillips, Slow Bowling, Marvin Blount, Willie Morton, Will Lipscomb, Alex Blow and Jack Klgo. Single: Con Lanier, Carey Harrington, P. Frank Rice, C. Bill Rogers, 1st; Tom Kennedy 2b; Larry James, ss.; Lindsay Swindell 3b; Reddy Clark, Johnnie Kittrell and Burt Greene, fielders; Seth Hooker, Sr., Promoter, Hap Ragsdale, Bully Anderson; Albion Dunn, Will Hall, Umpires.

Everybody should make it a point to attend the game. It will encourage the players, help the ball club, and also fatten the thin folks, if the slogan "laugh and grow fat," has any truth in it. 4:30 o'clock Friday, Fair Grounds.

a single by Ellis, Wrenn, the former going home on Wrenn's steal to second, Stringfield doubled, scoring Wrenn. In the sixth inning Stringfield singled, Massey sacrificed; Duncan hit safe, Stringfield scoring on an error of throw in home. Banks singled, scoring Duncan.
