HARDING PROPOSES PEACE RESOLUTION IN INITIAL SPEECH

Republican Candidates Would Form Association of Na- tions Later.

PLEDGES ASSOCIATION IN PLACE OF LEAGUE

Nominee Outlines Stand for Government by Party Rather Than Individuals.

Marion, O., July 22.—Peace by a resolution of congress and after that an effort to form an association of nations that would not impair American sovereignty were promised today by Warren G. Harding in his speech accepting the Republican nomination for the presidency.

He declared the time had come to recognize "the failure attending assumption, obstinacy, impracticability and delay" in President Wilson's attempt to form a League of Nations, and that a new pathway must be found to peace and world concert.

In receiving formally his party's mandate the nominee also outlined a stand for government by party rather than by individuals, declared railway employees might well be accorded a status of public servants, endorsed cooperative marketing for farmers, and pronounced increased production the key to lower cost of living.

The address constituting the candidate's personal platform in the campaign was delivered here at the climax of a day of celebration which brought to Marion a notable company of party chiefs and a crowd of many thousands. Their placards and banners kept the nominee the center of a seven-hour reception as delegations from many states paraded past the Harding residence in a clamoring cavalcade.

Soon after sun up the march of the first delegations brought the Senator to his front door step, and after that there scarcely was a let up until he left for the notification ceremonies on the outskirts of the city at 2 o'clock. Old friends from nearby counties mixed with the representatives of powerful Republican clubs of distant cities in the procession, gay with decorations and blarney with noise.

At the chautauqua pavilion, where the notification took place squits had been provided for 4,000 and many times that number surged about the park and surrounding fields unable to get within ear-shot of the speaker. The pronouncements of the candidate were received with a tumult of applause and he was cheered back to his home through crowded streets.

Will H. Hayes, the national chairman, presided at the ceremonies, and Senator Lodge, of Massachusetts, who was chairman of the Chicago convention, formally notified the candidate of his nomination in a speech rapping President Wilson's League of Nations and praising the part Senator Harding had taken in preventing its unreserved acceptance.

GENERAL PERSHING NOT RECOGNIZED ON STREETS BY CROWD

Boston, July 22.—General Pershing in uniform is a figure familiar to the country. John J. Pershing in civilian clothes passed unnoticed by thousands on the streets of this city.

The leader of the American Expeditionary Forces, in passing through Boston to begin a short stay at Nahant Island, today, as the guest of W. Cameron Forbes, former Governor-General of the Philippines, was recognized by only one person. The General strolled about with his son Warren and his aide, in conventional dark suit, Panama hat, soft collar and white tie, an upstanding figure, yet one which did not obtain recognition on streets through which he had passed on parade a few months ago.

NATION'S MILITARY STANDING SUBJECT TO GREAT CHANGES

Army Re-organization Bill Practically Revolutionizes Activities.

PROVISIONS BECAME EFFECTIVE JULY 1ST

Rapid Expansion of Nation's Fighting Forces Possible in Emergency

Washington, July 23.—America's military establishment is being practically revolutionized under the terms of the new army re-organization bill which became effective July 1. Army officers say the work will not be completed for some months because of the broad scope of the measure passed at the last session of congress to place the land forces on a permanent peace basis.

While the regular army will contain only 295,000 officers and men scattered over the country and the insular possessions, it will be so arranged in conjunction with the National Guard and the Reserve that rapid expansion of the nation's fighting forces in time of emergency will be possible.

The National Guard will have about 440,000 officers and men, but the strength of the reserve has not yet been worked out and will depend largely on the enlistment of eligibles. The regular army reserve as it formerly existed, composed of former enlisted men furnished to the reserve to complete their enlistment period ceased to exist as such on July 1. In its place there is established the enlisted reserve corps and the officers reserve corps. The members of the former, except veterans of the world war, are required to enlist for three years. Veterans of the world war may enlist for only one year.

The officers reserve corps is composed of officers who held temporary or reserve commissions during the war emergency and graduates of the student officers' training school.

To accomplish the reorganization of the National Guard and the initial organization of the reserve, the army bill provides for a general commission to be composed of regular army general officers.

ITALIAN TO DECIDE MUNITION QUESTION FOR THE MEXICANS

Mexico Will Not be Able to Manufacture War Muni- tion if Expert Says So

Mexico City, July 22.—Upon the report of an Italian munitions expert will depend the decision of the question whether or not the Mexican government is to manufacture its own implements of war.

In case his report causes the military chiefs of the nation to decide to purchase their munitions abroad, the practice of employing buyers in foreign countries will be discontinued and the purchases will be made through the Mexican government's regularly constituted commercial agents, according to the plans of General Plutarco Elias Calles, Secretary of war and Marine, as reported by El Universal. Furthermore, effort will be made to find, within the army itself, munitions experts who can be entrusted with the task of judiciously placing the government's orders abroad.

"In Mexico there are all the raw materials necessary for the manufacture of arms," El Universal adds. "There is already on record a case where the carefully conducted manufacture (of war material) is resulting in notable economy to the country; namely, in the construction of airplane propellers. This work could be extended successfully to the manufacture of all our war materials."

First Seaplane Landing Station

General view during the ceremony which featured the turning over, for a seaplane landing station, by Murray Hulbert, commissioner of docks and ferries to Mayor Hylan, a pier at the foot of West Eighty-second street, New York city. It is the first such landing place the city has opened.

WATER POWER ACT BEING DRAFTED AT NATION'S CAPITOL

Act Opening up Country's Wa- terpower Resources to Soon be Well Under Way.

Washington, July 23.—Regulations for the administration of the Federal act opening up the country's vast waterpower resources to private development are now being drafted. As soon as they are completed the Waterpower Commission, composed of the Secretaries of war, interior and agriculture, will hold hearings on them.

The commission, of which Secretary Baker has been appointed chairman by President Wilson, will hold its first meeting immediately upon Secretary Payne's return from Alaska about August 5. The hearings on the regulations will be pushed as speedily as possible so that the waterpower legislation, which has been ten years in the making, can be put into effect without undue delay.

The tentative regulations are being drawn up by a special committee of the war, interior and agricultural departments. It is composed of Major General Enoch H. Crowder, representing the war department; O. C. Merrill, waterpower expert in the forestry service, who has been designated executive secretary of the commission and H. A. Stabler, of the interior department.

Members of the committee say the regulations will be extensive and that they probably will be announced in series, with open hearings on each group before they are made final. Those relating to form and condition of application for survey permit or license will be the first announced. The most difficult problem involved in drawing up the regulations, members of the committee say, is that of establishing a uniform system of accounting for licenses as required by the act.

Under the Waterpower Bill the commission is empowered to issue licenses for a period not exceeding 50 years. The licensee will pay to the government reasonable annual charges in an amount to be fixed by the commission. Upon the expiration of any license the government, if two years' notice in writing has been given by the commission, will have the right to take over and operate any waterpower development after payment of the net investment of the licensee in the project or projects taken, not to exceed the fair value of the property plus such reasonable damages, if any, to property of the licensee as may be caused by the severance therefrom of property taken.

RESOLUTE LEADS SHAMROCK BY TWENTY-THREE SECONDS

Sandy Hook, July 23.—Both yachts crossed the starting line a little after one o'clock, Resolute leading over the Shamrock by twenty-three seconds. At two-thirty-six the Resolute turned the first markwell in the lead, Captain Adams of the Resolute held the defender high in the wind and seemed to catch at every puff. The Shamrock seemed to wend off at every gush.

ANTI-SALOON LEAGUE TO NOT ENDORSE ANY CANDIDATE THIS YEAR

Washington, July 22.—The Anti-Saloon League of America will not endorse any presidential candidate for election this year, but has ordered a compilation of facts as to the prohibition record and present stand of "each candidate," and will make this public. This announcement was made by the executive committee of the organization tonight, after an all day session in which superintendents of many of its state branches participated.

A special committee headed by Dr. P. A. Baker, general superintendent of the League, was authorized by resolution "carefully and impartially to obtain the official records, public utterances, and present attitude of each candidate for the information of the constituency of the league." Dr. Baker when asked whether the league expected to question directly Senator Harding, the Republican presidential nominee, or Governor Cox, the Democratic candidate, replied that was a question for the committee to consider.

The executive committee announced that the league, however, take a direct and certain part in the election of members of congress. It was added that "this policy will be necessary as long as advocates of the liquor traffic continue their attempt to nullify the eighteenth amendment." "Following the historic non-partisan policy of the Anti-Saloon League of America from its organization to the present time," the executive committee in a statement said, "the league through the action of its executive committee taken today in doses no candidate for the presidency of the United States.

"But in accordance with its well established rule a sub-committee of the executive committee has been appointed carefully and impartially to obtain the official records, public utterances and present attitudes of each candidate for the information of the constituency of the league."

LABOR LEADERS GIVE POU STRAIGHT RECORD

Washington, July 22.—Organized labor, speaking through President Samuel Gompers, said today that there was no truth in the report that Congressman Edward W. Pou has been put on the black list in North Carolina. Rumors have been rife about the Capital for some time to the effect that labor was out for the scalp of several candidates for office in North Carolina and that Congressman Pou headed the list.

Like the death of Mark Twain, the report seems to have been exaggerated. Labor did take a hand in the primary contests in the State and is taking to itself some of the credit for the defeat of Max Gardner, Hannibal L. Godwin, John H. Small and Charles L. Abernethy. Messrs. Gardner and Godwin drew more punishment than the other two, in whose cases the activity of labor was incidental.

NEW YORK TO HAVE APARTMENTS WITH DISAPPEARING BEDS

Realty Syndicate Announces Erection of Building With New Features

New York, July 23.—Presidents of Manhattan island, in their eternal fight for space, have perked up their ears at the announcement by a New York realty syndicate that it will build a \$450,000 apartment house, whose distinguishing feature will be "disappearing beds." Officials of the syndicate are silent as to which form the "disappearing beds" will be during the day time. They dismiss the matter, saying that "disappearing beds" are many other labor saving devices will be installed.

Architects, however, have given their opinion on the proposed innovation. "The beauty of 'disappearing beds,'" the architects say, is that the bed cannot disappear while the occupant is lying in it on his back, with his knees up and his mouth open. This was the chief drawback to the old-fashioned folding bed. The architects made this statement to quiet the fears of many New York residents who had inquired as to whether the "disappearing beds" were similar to the old-fashioned folding bed, or contained any of the latter's cranky and uncertain tendencies.

The architects say that a "disappearing bed" is a bed at night and an oil painting of a Gordon setter or something like that in the day time; that it can be slipped under the bath room floor or tucked away behind the aquarium; or that it may be sunk into a trap door in the floor and an Oriental rug placed over it, so that the tell-tale cracks may not be seen.

PORTSMOUTH RANKS AS THIRD PLACE IN SIZE

Washington, July 22.—Portsmouth, Va., which showed an increase of 63.9 per cent, bringing the population to 54,387, taken rank as third largest city in Virginia, displacing Roanoke, which has 50,842 people, according to today's census figures. Portsmouth ranked as 27th Southern city in 1910, has passed Macon, Augusta, Roanoke, Tampa, Charlotte and Montgomery as a result of her growth in the last ten years. Portsmouth now ranks above Macon which has 52,995 people and below Chattanooga which has 57,895.

EUROPEAN WAR ON HUGE SCALE SEEN BY NATION

Washington, D. C., July 22.—Without official information regarding the decision of the Allied powers to furnish military aid to Poland in her struggle with the Bolsheviki government, officials refrained today from formal expression of opinion but unofficially professed to see in the new situation most of the elements of a European war on a broad scale.

RAILROADS DESIRE GENERAL INCREASE GRANTED IN RATES

Plans to Raise Passenger Rates 20 Percent and Freights 10 Per Cent.

FIFTY PERCENT PULLMAN CHARGE ALSO REQUESTED

Proposed Increases Would More Than Meet Increases in Labor Demands

Washington, July 22.—To provide the additional revenues necessary to meet the \$600,000,000, increase in wages awarded by the Railroad Labor Board, the railroads of the country proposed of the country proposed today to the Interstate Commerce Commission that passenger rates be advanced 20 per cent and freight rates 10 per cent in addition to the 27.6 per cent previously requested. They also proposed that surcharge of 50 per cent be made on Pullman fares that excess baggage rate be increased 20 per cent and that milk tariffs be increased to the same level. Should the increases proposed today as freight rates.

and those previously asked for be granted in full existing freight rates would be advanced 26.9 per cent and the nation's freight bill be increased by \$1,355,379,675. The total which would be added to the passenger revenue under the railway executives plan would be \$233,827,982 annually. Pullman charges would go up \$43,586,444 a year, the revenue on milk would be increased \$8,762,089 and excess baggage charges would be advanced by \$1,420,995.

The plan presented by the railroad executives declared that they have estimated the wage award to approximately \$625,000,000 instead of the \$600,000,000 figured by the labor board. Alfred P. Thom, general counsel of the Association of Railway Executives, explained that the \$26,000,000 additional was figured on the basis of overtime allowances provided in the award.

The proposal of the executives was submitted to the commission by Mr. Thom after a conference with its members. It had been worked out at a series of conferences of railroad officials here since the announcement of the wage award by the labor board at Chicago last Tuesday. The commission made no comment on receiving the proposal and did not indicate whether it would order hearings.

Hearings on the billion dollar freight rate increase case were concluded two weeks ago.

LOCOMOTIVE FIREMEN TO ACCEPT NEW WAGES

Chicago, Ill., July 22.—Acceptance under protest of the United States Labor Board's wage decision was decided upon at an executive conference here tonight by all of the 16 recognized railroad unions, except one, it was announced, following the meeting, by Timothy Shea, of the Brotherhood of Locomotive and Enginemen.

The one exception was the Brotherhood of Railway Telegraphers which referred the award to its membership together with a strike proposition. The fifteen other organizations decided they would renew their attack on the labor board.

A. C. L. TRAINS TO STOP AT MUNFORD'S SIDING

On account of the ferry being out of commission and the bridge being up, the Atlantic Coast Line trains 53, 59, 72 and 73, will, beginning at once, stop at Munford's Landing to convey passengers across the river. The A. C. L. was appealed to yesterday to assist in this trying situation, and Mr. Keel informed the papers today that the company had kindly consented to do so. This is quite an accommodation to the public and will be appreciated.

THURSDAY, JULY 22, 1920

Bryan likes the idea of becoming head of the prohibition party, but experience has taught him that the presidency is another consideration.

Both Europe and Asia have closed doors to the ruthless Turk, so about the only thing left is the chopping block.

If President Wilson and Governor Cox should agree upon one or two other issues it is possible that Senator Harding would become so excited that he would have to quit the front porch entirely as he is apparently too nervous for comfort.

When Governor Cox gets through with the league of nations it is said to say that the people will be ready to accept it just as presented by President Wilson in its original form. The irreconcilables may still contend for additional clauses, but opponents soon will be of secondary consideration, especially after the masses speak.

The prohibition platform will be so dry that even Bryan might consider certain moderately wet planks.

The promise of high prices for bright leaf in this section of the state is one of the best things the farmer could hear at this time. The good news from the South Carolina market will make the fires in Eastern Carolina burn considerably brighter than under ordinary circumstances, for a good season means more to the entire country than that most people realize.

With coal at \$10 per ton the winter holds additional terrors to those who labor through the summer months without making proper provisions for the cold period. The fact is, too many are forgetting the thrift habit in these days of unrest but adversity and cold reality will certainly bring many of the thoughtless back to the serious side of life. Preparedness is one of America's strong talking points, therefore, the \$10 coal ought to be looked after now.

The fact that Eugene Debbs is conducting his campaign from behind prison bars and Senator Harding from his front porch suggests the possibility of Mr. Bryan going back to the old form of "stump" campaigning. It really might prove more profitable than Harding's front porch affair, which is about as confining as Debbs' predicament behind the bars. However, there is no need of exertion, for the campaign will show convincingly that Cox made the best start by visiting the states.

Excessive rainfall may have affected the cotton crop slightly in this part of the country, but if the weather clears up now little damage will be realized. The crops are in pretty fair condition, but if cultivation should be resumed within the next several hours the situation will be improved considerably. Cotton and tobacco are two of the main crops in the territory, and when they are affected, industry in every line undergoes a noticeable change. Better weather is promised, so if the weather man lives up to indications prosperity will prevail again in hundreds of homes.

RAPID GAINS IN TRADE WITH EAST.

The after-the-war trade of the United States with the Far East shows astonishing gains. We had been gratified says a statement of the National City Bank of New York, in the fact that our exports to Asia had grown from 113 million dollars in the fiscal year immediately preceding the war, 1914, to 604 millions in the fiscal year which included its close, 1919; but this growth of practically 500 million dollars in five years of war is followed by a growth of 200 millions in the first year of peace. Latest figures of our exports to Asia as a whole, adds the Bank's statement, indicate that the total exports to that continent in the fiscal year 1920, which ended June 30, were 804 million dollars against 604 millions in the fiscal year 1919, a gain of 33 per cent in this first peace year in which we were expecting that Asia would return to her former habit of buying from western Europe. Apparently her habit, developed during the war, of trading with the United States, her neighbor across the Pacific is continuing and likely to continue, for this big gain in this fiscal year in our trade with Asia continues right down to the present moment, the exports to that continent in the month of May, the latest figures available, showing an increase of 43 per cent over May of last year. While of course a part of these increases are due to higher valuations, it is quite apparent that there has also been a very large increase in quantities of merchandise moved, both in imports and exports.

This disposition of the Far East to buy our manufactures—for more than 34 of our exports to Asia are manufactures—is fully reciprocated by the United States, which increased its imports from Asia 50 per cent during the fiscal year 1920, our total imports from that grand division in the year ending June 30, 1920, having been, 1,350 million dollars against 831 millions in the fiscal year 1919.

Our total imports from Asia in the fiscal year 1920—a full peace year—are 5 times as much in value as in the fiscal year immediately preceding the war, 1914, and our exports to Asia in 1920 are 7 times as much in value as in the fiscal year 1914. The total trade of the United States with Asia in the fiscal year 1920 was 2,100 millions as against just 400 millions in 1914.

This tremendous increase in the trade with Asia applies to practically all its important trading sections. To Japan our sales in 1920 were 460 million dollars against 51 millions in 1914—9 times as much in the after-war year as in the pre-war year; to China the exports in the fiscal year 1920 were 115 million dollars against 25 millions in 1914; to India 78 millions against 11 millions in 1914 or 7 times as much now as immediately preceding the war; to the Dutch East Indies 45 million against slightly less than 4 millions in 1914—12 times as much in 1920 as in 1914; to the Philippines 7 millions against 27 millions in 1914; to Hongkong 20 millions in 1920 against 10 millions in 1914; and to Straits Settlements 15 millions against 4 millions in 1914.

The railway labor board may contend for a further increase in wages, but if it does the right thing, the \$600,000,000 will be accepted without further consideration. Railroad men are probably the best paid class of laborers in the country today, and the proposed increase is sufficient to justify any set of people desirous of doing the right things by the country. When wages are increased, rates must be increased to meet the additional payroll, and after it's all over the public is forced to bear the brunt of the entire issue. The position taken by railroad workmen has been almost intolerable for several months, but it is hoped they will eventually be impressed by the fact that wages cannot be increased other than in proportion to the increase in the cost of living. When this fact becomes evident there will be no further complaints and demands and the country will feel like it is really facing a period of re-adjustment.

STRAY TAKEN UP—ONE BULL, 5 or 6 years old, light roan color, marked straight slit in right ear, slight under slit in left ear. Owner can get same by proving ownership and paying costs. L. P. Dudley, R. F. D. 5, Greenville, N. C. 1twk4wks

CAN A STATE AFFORD NOT TO LET WOMEN VOTE?

READ THESE TAX FIGURES.

The lowest city tax rate but one (listed in the 1920 figures of the World Almanac, pages 702-705) is in Muskogee, Okla., a full suffrage state. It is 35 cents on the hundred.

The highest tax rate in the United States at the same time is in Milwaukee, Wis., \$20.17 per hundred. Wisconsin until 1919 had no woman suffrage. It now has presidential suffrage.

Of the twenty-one cities in the United States, quoted in the World Almanac list having tax rates below \$1 ten are in states which have full, presidential or primary suffrage.

There are but three male suffrage states in which any cities are listed with a tax rate below \$1 on the hundred.

The suffrage cities with a low tax rate are: South Bend, Ind., 74 cents; Ogden, Utah, 72 cents; Niagara Falls, N. Y., 80 cents; Kalamazoo, Mich., 85 cents; Muskogee, Okla., 35 cents; Kansas City, Kan., 82 cents; Hutchinson, Kan., 75 cents; Fort Wayne, Ind., 64 cents; Fort Smith, Ark., 50 cents; Cleveland, Ohio, 70 cents.

In 1916 Washington, a full suffrage state, went out of debt.

And Wyoming in that year had no need of taxes for state government.

"Taxes were not levied for the support of the state government," said the Anaconda Standard (1916). "The income of lands, leases, royalties and interest on investment last year was \$808,241.02, while the amount received from direct taxation was \$508,497.51. There was a cash balance on hand at the beginning of the year of \$718,426.80. The actual expenses of Wyoming were \$1,305,588.21. After paying all expenses and making some investments in permanent funds, there is carried over a cash balance of \$789,587.12. With this balance and the income derived this year from oil and mining development, royalties on state lands, leases and fees, the state will easily be able to get along a year at least without any direct taxation." Wyoming has full suffrage.

In January, 1916, equal suffrage Kansas paid off its last dollar of indebtedness.

WHERE MEN ONLY VOTE DEBTS ARE GREATER.

In the city of Baltimore, Maryland, where woman suffrage is rejected, the total population in 1919 was 700,000. The debt of the city is \$60,127,174 or more than \$90 per capita, the budget \$22,020,000, or more than \$30 per capita.

In Richmond, Virginia, another state where suffrage was rejected, the population of 165,000, is burdened with a debt of \$12,513,097, or \$75 per capita, and with a budget of \$5,604,013, or \$44 each. (World Almanac, 1920.)

In February, 1916, the Denver, Colorado, Chamber of Commerce said: "Denver's per capita indebtedness is \$3.62. Per capita indebtedness of other cities follows:

"Louisville, \$50.13; St. Paul, \$43.19; Worcester, Mass., \$42.90; Columbus, Ohio, \$46.05; Toledo, \$50.54; Atlanta, Ga., \$30.28.

"Two million and a quarter dollars were spent in homes last year, costing from \$3,000 to \$15,000 each.

"The state has made great progress in agriculture. In 1914 it amounted to \$89,573,200 and in 1915, to \$95,052,000." The indebtedness of Massachusetts, a male suffrage state, was in 1915, \$22.78 per capita.

In California and Colorado, woman suffrage states, the same year, it was \$3.83 and \$3.70 per capita. In Kansas it was 14 cents and in Oregon 4 cents. (Figures are from the United States Special Census report on "Wealth, Debt and Taxation," Table 10.)

ELECTION EXPENSES.

What It Costs to Let Women Vote.

The state treasurer of every suffrage state has declared that woman suffrage has not appreciably increased election expenses. Denver, in 1916, recorded the lowest per capita (of population) cost of voting (14 cents) of the larger cities of the United States. In Cheyenne, Wyoming, voting costs 10 cents per capita (of population), a less sum than in any city of its size.

It was computed in June, 1918, that New York City could vote all its women for just one-sixth of what it has been costing to vote its men. It cost \$300,000 in 1917 to vote 601,800 men. It was explained by the election officials that an equal number of women could be voted for an additional sum of \$50,000, making \$350,000 in all. It had cost the city 43 cents each to vote its men, but it would only need a per capita expenditure of 7 cents more to care for as many more women at the polls.

In Chicago's experience it was found that the actual additional cost of the woman voter was about one-third.

Women pay their full pro rata share of the taxation for election expenses and they have been doing so for more than a century while deprived by law from casting a vote.

Anti-suffragists are busily defaming the dead suffrage leader, Dr. Anna Howard Shaw, in North Carolina, today. This is what they said of her in their official organ under date of July 12, 1919:

"There are thousands of women who honored Dr. Shaw for her other ideals who never did agree with her suffrage views. She was an honest radical. She fought in the open."

Get Goodyear Value in Tires for Small Cars

Don't be misled by very cheaply priced tires, for tire economy is not a matter of what tires cost originally but of what tire service costs in the end.

True Goodyear mileage and economy are built into Goodyear Tires, of the 30x3-, 30½x3- and 31x4-inch sizes, in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at your nearest Service Station.

Go there for the exceptional value in these tires made possible by Goodyear's resources, experience and demonstrated expertness in tire manufacture.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$2350

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$2150

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size \$450 in waterproof bag

GOOD YEAR

Valuable City Property For Sale

The Dr. Zeno Brown Property, fronting on 4th street and consisting of 10 lots will be offered at public auction on

Thursday Aug. 5

At 11 o'clock A. M.

This property is splendidly located either for business or residence purposes.

The property has been divided into 9 lots 25x80 feet and 1 lot 42x80, upon which is located Dr. Zeno Brown's residence.

Sale will be made on the premises and the right to confirm or reject any bid is reserved to the owner.

Look over this property and be prepared to take advantage of one of the best opportunities offered in city lots during the year.

Terms of sale will be announced on day of sale and will be made to suit the purchasers.

HARDING PLEDGES FAITH TO COUNTRY IN ADDRESS TODAY

Republican Nominee Formally
Accepts Nomination in
Address at Marion.
DECLARES DESIRE FOR
SUFFRAGE RATIFICATION
Makes Only Passing Comment
on Prohibition Question
of the Country.

Marion, O., July 22.—A pledge of constitutional government, administered by party and not by individual and based on national rather than world ideals was given by Warren G. Harding today in accepting formally the Republican nomination for the presidency.

He welcomed a popular referendum on the league of nations, advocated increased production to cut the high cost of living, pleaded for obliteration of sectional and class conflict, and declared for industrial peace "not forced but inspired by the common weal."

Prohibition he gave only a passing notice, saying that despite divided opinion regarding the eighteenth amendment and the statutes enacted to make it operative, there must be no evasion in their enforcement. He declared it his "sincere desire" that ratification of the suffrage amendment be completed to permit women to vote this fall in every state.

Reviewing and commending briefly many other planks of the party platform, the candidate declared for collective bargaining for farmers, repression of the disloyal, "generous federal co-operation" in rehabilitating the railroads, intelligent deflation of the currency, enlargement of government aid in reclamation, a genuine expression of gratitude to veterans of the world war and maintenance of an ample navy "a small army but the best in the world."

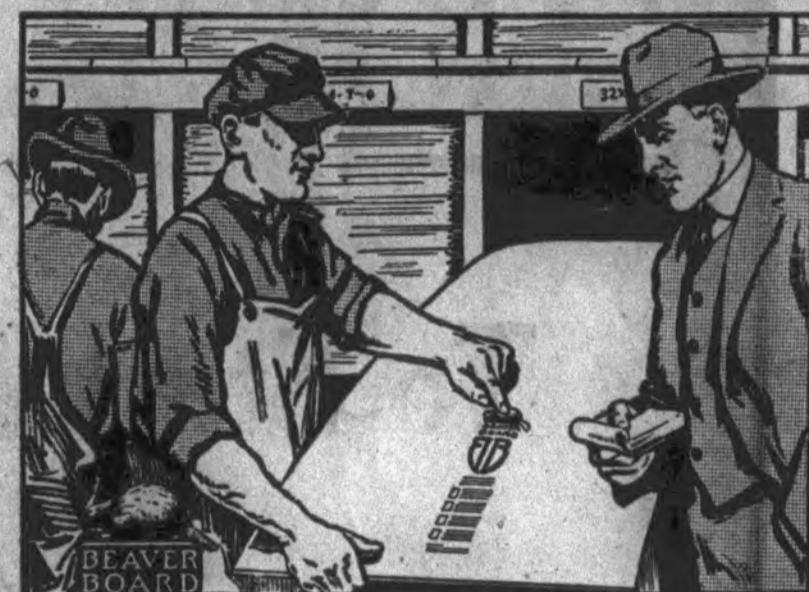

In his promise of "a party government," Senator Harding reiterated his belief that the Vice President should have a part in the affairs of the chief executive's official family and declared there also should be "a cordial understanding and co-ordinated activities" between the executive and congress.

"No man," he said, "is big enough to run this great republic."

SOCIETY

Miss Mary Stewart Davis, of Wilson, is visiting Miss Josephine Skinner.

Mr. J. W. Lindsay, of High Point, was in Greenville yesterday afternoon.

Mr. H. B. Smith, of New Bern, is in the city today on business.

Mr. H. B. Buck, of Murfreesboro, was in the city yesterday evening.

Mr. O. B. Lipscomb, of Tarboro, is spending the day in Greenville.

Misses Allie and Floy Clodfelter, of Winston-Salem, are visiting their brother, Mr. P. L. Clodfelter.

Mr. A. S. Haynes, of Greensboro, spent several hours in Greenville Thursday.

Messrs. J. E. Matthews and H. M. Stille, of Washington, were here yesterday evening.

Mr. H. V. Stevenson, of Wilson, is numbered among business visitors in Greenville today.

Mr. J. O. Everett, of Plymouth, made a short business trip here during Thursday.

Mrs. H. L. Carr left yesterday for Wilson. After a visit in that city she will go to Texas where she will spend a few weeks.

Mr. and Mrs. C. S. Nissen, of Winston-Salem, who have been visiting Mr. and Mrs. P. L. Clodfelter have returned home.

Mr. J. K. Young, of Young's, has returned from northern markets where he went to buy an immediate stock of merchandise.

Miss Mary Thomas left this morning for Scotland Neck to attend today's session of the Mohile School which is in session in that city.

Misses Annie Anthony and Carrie Roebuck, who have been visiting Miss Ruth Briley have returned to their homes in Hamilton.

Rev. John R. Carroll, of Spring Hope, will preach in Memorial Baptist church here Sunday morning and night.

Rev. and Mrs. Carroll will arrive this afternoon and while in the city will be the guests of Mr. and Mrs. A. E. Hobgood.

Mrs. J. F. Lynch and little son, of Duke, who have been visiting her mother, Mrs. R. Hyman, left this morning.

Mr. and Mrs. Henry Martin, Messrs. Clarence Taylor, William Briley, Jennings Davis, Mrs. Dillian, Misses Annie Anthony, Carrie Roebuck, Dolle Martin, Florence Parken, Ruth and Hortense Briley motored to Washington yesterday where they were joined by Messrs. Eborn and Nicholson, and from there went to Bayside where they gave a picnic. All report a very pleasant day.

"OLD WIVES FOR NEW"

WHITE'S THEATRE MONDAY

Should a wife compete with other women for her husband's love? If she snugly rests on virtue and the marriage contract and drifts into careless cloudiness, is her husband wholly to blame when his interest turns to another? The supreme modern problem of love, marriage and divorce, vividly portrayed in this great picture. All the beauty, color and intimate real life drama that DeMille can paint so alluring on the screen. "Old Wives for New," will answer the above questions. White's theatre Monday night. What some of the leading New York papers said of "Old Wives for New."

New York Times—As a work of careful and realistic staging, "Old Wives for New" is a accomplishment.

New York Herald—Though the story abounds in light comedy, there were many scenes of emotional interest and an absorbing love story.

New York Sun—A photoplay of superior technique and unusual dramatic force. An all star Lasky cast.

Motion Picture World—Directed by Cecil B. DeMille and containing a cast as appears therein, "Old Wives for New" is an accomplishment.

Count of itself. It will amuse, instruct and shock, and in some cases it will do all three. To those who know life, the sincerity of the author is apparent. Managers of moving picture theatres who are not opposed to showing their patrons views of sordid passion and giving them a clear insight into the ways of immoral women and faithless husbands will have the satisfaction of knowing that the acting and general production of the picture could hardly be bettered.

J. K. YOUNG RETURNS FROM NORTHERN MARKETS

Mr. J. K. Young, of Young's mercantile store, has just returned from northern markets where he went to buy an immediate stock of goods. He stated this morning that he has purchased some remarkable bargains which he expects to place on sale within the next 10 days. Mr. Young is one of the city's most popular merchants and he takes great pleasure in seeing that his customers are supplied with the latest styles and at a price which helps cut the H. C. L. His new goods will consist of ready-to-wear clothing for both old and young, a splendid line of shoes and dress goods.

BRIDGE CLUB.

Mrs. N. O. Warren was hostess to her bridge club yesterday morning. The house was decorated with cut flowers and tables for bridge were arranged in the library. Mrs. Albion Dunn, making the top score was awarded a guest towel. Mrs. Harry Smith, of Weldon, was presented the guests' prize a bottle of toilet water. At the conclusion of the games a salad course was served. About six visitors enjoyed Mrs. Warren's hospitality.

Mr. W. G. Lamb, of Wilson, was in Greenville a short while yesterday.

Messrs. C. L. Dunn and J. L. Duffey, of Wilmington, spent Thursday in Greenville, on business.

Mr. T. H. Starkey, of Rocky Mount, spent several hours in the city yesterday.

Solid Mahogany for every man's money

These days, when so much period furniture has a Queen Ann front and a Mary Ann back, it seems good to stumble onto a piece of good old solid mahogany—even in the dark.

Solid Mahogany—that's the word. We like to liken it to our values, for both are hewed out of the solid timber—not glued up with veneer.

Every price ticket in this store can be turned bottom side up and reviewed. They are not like the false back Davenports that must be cornered to be correct.

We're sawing wood down here at 401 Evans Street. AND IT'S SOLID MAHOGANY.

FRANK WILSON

"THE KING CLOTHIER"

CAN YOU ANSWER THIS?

Interesting Question Raised by Picture "Old Wives for New."

If a wife fails to retain the charm and alluring qualities that gained the first love of her husband, is the husband justified if he strays in search of green fields and pastures new? Such in a degree, is the problem involved in "Old Wives for New," which will be shown at White's theatre Monday night.

How the question is answered forms a most entertaining story, done into screen terms by Jeanne Macpherson. The theme of the picture is set forth in the statement of Mrs. Berkeley to Mrs. Murdock, two wives in the picture:

"There is just one thing left for us to do in competition with the 'other kind' of women; to wear more laces and ribbons than they—and to be more delicately perfumed! Just posing as virtuous isn't enough for wives any more. And now that we've got to compete with women who have to be alluring, or go to the wall, we'll be all the better for it."

If married women who see "Old Wives for New" believe this philosophy is based on false premises, will send their opinions to this newspaper, we will be glad to publish them.

BISHOP DELANEY WILL SPEAK TO EPISCOPALIANS

Bishop H. B. Delaney will administer confirmation at 11 o'clock on Sunday at St. Andrews, the colored Episcopal Mission on Bonner's Lane in this town. At 3:30 p. m. a Young People's Flower Service will be held at the same Mission; and on Monday night, the minister, Rev. Jas. E. Holder, will deliver his illustrated lecture on Bunyan's Pilgrim's Progress in the colored Odd Fellows Hall.

Mr. W. G. Privette, of Raleigh, is among the visitors in Greenville yesterday.

Matt Healy, of the Marks-Arnheimer Tailoring Co., will be here Friday and Saturday with his fall line of samples. Come in and let him take your order for a suit. C. HEBER FORBES.

SALE OF TOWN LOTS.

By virtue of an order of the Superior
Court of Edgecombe county, in an
action entitled O. A. Thorne et als.
vs. Bettie Phillips, et als. I will on
Saturday, August 21, 1920, at 12 M. in
front of the post office in Fountain,
N. C., sell at public auction for cash,
the following described realty, to-wit:
Sited in Fountain, N. C., and be-
longing lots 7 and 8 in Block A. on map of
property formerly belonging to H. W.

Webb recorded in Book of Maps, 1
Page 4, Pitt county registry, to which
reference is hereby made.
This July 15, 1920.
W. O. HOWARD,
North Carolina, Pitt County
Julia Baker
vs.
J. E. Baker.
In Superior Court, August Term 1920.
The defendant above named will
take notice that an action entitled as
above has been commenced in the Su-
perior Court of Pitt county by plaintiff
to obtain an absolute divorce from the
defendant, and the defendant will fur-
ther take notice that he is required to
appear at the next term of the superior
court of Pitt county to be held on the
3rd Monday in August, 1920, at the
court house of said county in Green-
ville, N. C., and answer or demur to
the complaint in said action or the
plaintiff will apply to the court for the
relief demanded in said complaint.
This 13th day of July, 1920.
J. F. HARRINGTON,
Clerk Superior Court.
F. G. JAMES & SON, Attys for plaintiff

Q and A

About
Threaded
Rubber
Insulation

This trade-mark is
blended in red on
one side of the Still
Better Willard—the
only storage battery
with Threaded Rubber
Insulation.

- Q. What is Threaded Rubber Insulation?**
A. A storage battery insulating material made up of rubber pierced with thousands of tiny threads.
- Q. How does it differ from other battery insulation?**
A. Ordinary insulation is wood, cut in the form of thin sheets, and is neither as uniform nor as durable as Threaded Rubber Insulation.
- Q. Why is insulation so important?**
A. Because battery life depends largely on insulation, and because any defect or weakness of insulation is quickly evidenced by buckled plates, short circuits, failure of the battery to hold its charge and so on.
- Q. What has this insulation to do with battery shipment?**
A. The kind of insulation determines whether the battery must be kept wet, or can be shipped in "bone dry" condition. Wood insulation must never be allowed to dry out, hence makes necessary wet or partially wet shipment. With Threaded Rubber Insulation the battery can be shipped absolutely "bone dry."
- Q. Why is "bone dry" shipment and stocking preferable?**
A. Because it is the only method by which chemical action in the battery can be entirely held up, so that the battery reaches the buyer in truly brand-new condition.
- Q. Why does wood insulation need to be replaced?**
A. Because wood insulation, being soft, wears out more rapidly than any other part of the battery. It is also subject to cracking and checking, which, if allowed to go too far, seriously damages the battery.
- Q. Why does Threaded Rubber Insulation outlast the battery?**
A. Because the basis is hard rubber, which resists wear and does not crack or check.
- Q. How can I be sure my battery has Threaded Rubber Insulation?**
A. Look for the red Thread-Rubber trade-mark. It can be found only on the Still Better Willard Battery.
- Q. How many car and truck manufacturers have selected Threaded Rubber Insulation?**
A. 136 in all. The complete list is printed on the right.

- 136 Manufacturers Using Threaded Rubber Insulation**

Willard STORAGE BATTERY

**How
Would You
Like to Save
Half the Work
Time and Cost
of Mowing
?**

HERE is the *only successful* wide-cut mower. It saves 50% of your mowing cost by cutting twice as much in the same time. Compensating lever and spring carries the cutter bar on the drive wheels instead of dragging it on the ground. This increases traction, does away with side draft and weight on horses' necks—greatly lengthens life of machine.

**E-B
Standard Mower**

This mower is as easy on your horses as plowing corn, and will cut two acres of hay in every mile the horses travel. Come in and see it. Bring your boy along.

NATION'S MILITARY STANDING SUBJECT TO GREAT CHANGES

(Continued from page one.) committee to be composed of regular army general staff officers and an equal number of reserve or national guard officers. In addition, 52 other committees, representing each state and territory will arrange the National Guard organization in each state and territory. Some of these committees have not been appointed by the governors and consequently this work has not yet been put under way. While no full plan of organization has been made public, a tentative plan to be placed before the committees would divide the country into five districts with an army corps in each. This corps would consist of one regular, one guard and two reserve divisions, so organized that in an emergency the two reserve divisions, which theoretically would be the only ones much below war strength, could be filled up with selective service men. A full quota of officers drawn from the officers' reserve corps would be available for these divisions at all times.

Matt Healy, of the Marks-Arnheimer Tailoring Co., will be here Friday and Saturday with his fall line of samples. Come in and let him take your order for a suit. C. HEBER FORBES.

GREENVILLE FINDS PINETOPS EASY IN GAME YESTERDAY

Hefty Sluggers Failed to Live Up to Reputation, Greenville Winning Score 8 to 3.

In a fairly fast and interesting game regardless of the unusual number of errors by the local club, Greenville yesterday evening defeated the hefty sluggers at Pinetops by the score of 8 to 3. At no time during the last half of the game did Pinetops seriously threaten to overcome the splendid lead gained by the visitors in the second and fourth innings, for by slugging hard virtually every inning Greenville was enabled to keep well in the lead, and to threaten the home circuit many times without scoring.

Pinetops played in a fast, interesting way at many stages of the game, particularly when men were on bases, and while ten errors were credited for the entire game, those were made at moments when they counted for little in the interest of the visitors, and failed to prove of more than passing notice. Several splendid plays pulled off at moments when Greenville was using the willow freely offset the errors in a decidedly interesting way, and left the rooters on both sides with the impression that the contest was a good one after all.

Ray and Calvert featured in the field for Pinetops many times. In fact they accepted long drives and fast liners in a way that would have done credit to veterans from the big leagues. Denning, Trust, Barnes, Stringfield, Burrel, Ellis and Wrenn featured largely for Greenville in the field and with the willow, particularly Denning, who made a splendid catch of a long drive by Howard in the fifth inning. Rivard and Langley did practically all of the important stick work for Pinetops, Ray being credited with a home run in the eighth inning with one man on bases, and Rivard a three base hit in the fourth with one man on bases. Langley was credited with two doubles.

Euliss started off to do the mound work for Pinetops but he was pounded so unmercifully that he was relieved in the fourth inning by Rivard, who succeeded in curbing the stick work momentarily, but failed completely in preventing timely hitting with men on bases. Barnes pitched an easy, steady game for Greenville, and at no time yielded the slightest kind of a hit before Greenville gained a definite lead. After that time he handled the ball almost indifferently, but Pinetops showed no inclination to stage a heavy batting rally, and consequently accepted the inevitable in a sanguine way, ignoring defeat with the same show of optimism that has been ascendent throughout the entire season.

Greenville sent the first two runners across the rubber in the second inning on a single by Duncan, sacrifice by Burrel and singles by Barnes and Ellis. In the fourth frame Burrel started off the run getting by accepting a pitcher's offering in the ribs, Trust singled Barnes sacrificed, scoring Burrel; Ellis singled, scoring Barnes; Wrenn singled, Ellis later scoring on Wrenn's steal to second. In the sixth Barnes singled; Ellis sacrificed; Stringfield singled, scoring Barnes. In the ninth Duncan hit safely; Burrel bunted safely; Trust sacrificed, Denning scoring; Denning sacrificed, Burrel scoring. Pinetops began scoring in the fourth inning when Ray doubled, Austin singled, Ray getting out at home; Rivard hit for three bases, scoring Austin. In the eighth inning two runners were sent across the rubber. Latowski hit to left field, getting safe on error by Duncan; Euliss got safe, both scoring on sacrifice hits.

ROTARY CLUB WILL CROSS BATS WITH CHAMBER OF COMMERCE

The Eastern Carolina League is now a shining star in the sky of baseball clubs, but after next Thursday it will fade into insignificance, when the Rotary Club and the Chamber of Commerce cross bats on the local diamond at the Fair Grounds. The Rotary Club this morning issued a challenge to the Chamber of Commerce to meet them at the baseball park either next Thursday or Friday, as they are desirous of showing the national leagues that they can play ball. Herbert White, in all his glory, will play on the Chamber of Commerce line-up. Mr. White needs no introduction to the people of this city and after next Thursday he will need no introduction to the entire baseball world as his name will be known on every diamond. C. L. Porter for the Rotarians will establish an enviable reputation. He has resigned his position as road engineer, for one day, to accept a position of engineer for the Rotarian base ball club. With him at the helm for the Rotarians, and Mr. White for the Chamber of Commerce, both ships will keep close together and no one under the sun, can tell which will reach the port first. The line-up hasn't been definitely decided upon but as the members are young men and small men? it will not require much time to select both teams. It promises to be without a doubt the most interesting game of the season. The playing will be perfect, no errors will be made and only a few scores if any will be allowed by either side. We are really afraid that after the game Greenville will lose many of its best citizens as they will be offered such splendid positions on the base ball leagues. Everybody look forward to next week, it will be worth your while to do so.

	Greenville at Scotland Neck-Hobgood.
	Williamston at Pine Tops.

TARBORO TAKES SPLENDID GAME FROM SCOTLAND NECK

Tarboro, July 22.—Tarboro defeated the strong Scotland Neck-Hobgood club here this evening by the score of 3 to 0, in probably one of the fastest and best played staged here this season. Both clubs handled the sphere in excellent form, but the ability of the locals to hit opportunely was more responsible for winning the game than any other single feature. The Champions played hard and determinedly, but at no time showed signs of overcoming the definite lead gained by the locals in early stages of the game.

WASHINGTON WINS GOOD GAME FROM WILLIAMSTON

Williamston, July 22.—Washington defeated Williamston here this afternoon by the score of 1 to 0 in decidedly one of the most interesting games played here during the season. The visitors showed better form than in any other game of the year, and blanked the locals purely through fast work in the field and fortunate work with the willow. Both clubs, however, handled the sphere like veterans and contested every inch of ground in a stubborn convincing way.

Washington	A	B	R	H	O	A	E
