GREENVILLE, N. C., TUESDAY EVENING, JULY 27TH, 1920.

NUMBER 41.

GOVERNOR COX AT WORK ON ADDRESS FOR NOTIFICATION

Democratic Nominee Makes Considerable Progress on Acceptance Speech. ADDRESS TO BE LONG ENOUGH TO TELL STORY. Judge Johnson Says Democratic Chances in the West Are Unusually Good.

Dayton, Ohio, July 26.—Governor Cox made considerable progress today on his address for August 7 accepting the Democratic presidential nomination. The governor found, however, that he was unable to carry out his plan for "locking" himself in his library to work on the speech, but between several visitors, the candidate put in some good hours in drafting his address.

The address the governor said will be "just long enough to tell the story," but because of its embryonic stage he could make no definite predictions as to length. He is to send it in installments as subjects are completed to his newspaper office here for composition and then he promised "to use the blue pencil vigorously" on proofs to eliminate every unnecessary word.

Between shifts on his address the governor today conferred with Judge J. G. Johnson, of the Ohio supreme court, who made the Cox nominating speech at the San Francisco convention. It was their first meeting since the conventions and Governor Cox thanked the judge for the successful outcome of this effort.

"The Western people seem to realize that Governor Cox is one of them, in their ideal and aspirations," said Judge Johnson, who toured the West en route to his home at Springfield. "They believe Governor Cox is for the people. They refer to him as 'Jimmy,' like Theodore Roosevelt was called 'Teddy.' It indicates a feeling of personal interest and regard, as I believe Cox is the first presidential candidate since 'Teddy' whose first name is being popularly and generally used."

Another caller of the Governor's was Oscar E. Bradfute of Xenia, Ohio, of the Ohio Farm Bureau and director of the Federal Farm Bureau as well as a former member of President Wilson's industrial commission. Agricultural affairs were the principal topic of his conference with the Governor, who also had a social call today from John D. Spreckles, Jr., of California; Senator Pomerene, Ohio member of the Senate committee investigating campaign expenditures, is to see the Governor tomorrow regarding continuance of the inquiry during the campaign.

MORE ALIENS ARE TO BE SENT AWAY FROM THE UNITED STATES

New York, July 24.—Thirty-five of the party of sixty-three aliens brought to Ellis Island today from western and middle-western cities, are to be deported because of their radical activities, Immigration Commissioner Frederick A. Wallis announced tonight. Four of them, he said, were rushed to an outward bound vessel and sent to their native land.

POLICE BELIEVE TRUNK MYSTERY WAS STARTED IN DETROIT APARTMENT HOUSE

Detroit, July 27.—Police today proved that Mrs. Eugene Leroy, whose body was shipped in a trunk to New York, was killed in a Harper avenue apartment house here. They found a blanket identical with those in which the body was wrapped before it was placed in the trunk. Another blanket was missing and police believe that vital organs of the body were placed in a second trunk. Every express office in the country has been requested to check uncalled for baggage in an effort to locate the second trunk. Meanwhile a nationwide search will be instituted for the husband of the murdered woman.

AMERICAN FLEETS TO BE MOBOLIZED ON PACIFIC COAST

Greatest Mobilization of American Forces to Occur by Junction of Fleets. GREAT SPECTACLE TO BE STAGED AT PANAMA. Admiral Henry Wilson to be in Charge of Maneuvers of Great Fleet.

Washington, July 27.—The greatest concentration of sea power in the history of the American navy will result from the junction of the reorganized Atlantic and Pacific fleets off the Pacific coast next January under plans now being prepared by naval operation. The great naval spectacle probably will be staged in the vicinity of the gulf of Panama.

Officials of the Navy Department say the proposed mobilization will in no sense result in "grand" maneuvers. No effort will be made to concentrate all of the nation's naval strength and only ships regularly in commission with trained crews will participate. The exercises and drills will be simple and mainly of a competitive nature, including unofficial athletic competitions between representatives of the two fleets and of individual ships. The main object of the mobilization will be to give officers and men an opportunity to compare notes and meet for a few weeks of good natured rivalry.

Admiral Henry B. Wilson, commander in chief of the Atlantic fleet, will be senior officer of the combined force, with Admiral Hugh Rodman, chief of the Pacific Fleet, second in command. The maneuvers will be unique in many respects, chiefly in that they will afford the first actual mobilization of the bulk of the new American navy. Before the war the forces were always more or less scattered and a shortage of several types of vessels, particularly of destroyers, submarines, light cruisers, aerial forces and fleet auxiliaries (Continued on page four.)

EMPEROR WILLIAM CREATES COURT IN DOORN TERRITORY

Former Ruler of Germany Gets More Attention Than at Amerongen.

Doorn, Holland, July 27.—The former German Emperor William, while professing a desire to lead at Doorn the quiet life of a country gentleman, has nevertheless created a little court around him somewhat larger than that which he lead at Amerongen and Dutch newspapers have already begun calling Doorn "The Little Potsdam."

The Allies' demand upon Holland to guard the former Emperor closely have made it impossible for William to mingle with the Dutch country gentry who have estates about Doorn and the house where he is said to expect to spend his remaining days is just like a little bit of Germany.

Strict military orders prevail outside the House of Doorn, where passersby must not be too curious. Within the discipline is Prussian. William's only associates are Germans his entire staff, including approximately 40 servants, are Germans, with one exception the village barber, a Dutchman, is called in now and then to trim his hair or beard.

When at Amerongen, William went frequently to Doorn by automobile but now he is seldom seen outside the walled fence of his estate, which villagers call his "40 hectare cage." Forty hectares are about 80 acres.

The few times he has been out, he has paid visits to his former host, Count Bentinck, at Amerongen. Now and then, the former crown prince or others of William's sons have been permitted to visit the exile, largely because of the illness of their mother, but, from day to day, William seldom sees

Stenographer Breaks Into Whisky Business

A pretty stenographer in the federal prohibition office at Atlanta, Ga., breaking up some confiscated stills and apparatus on one of the main streets during a public smashing of stills and dumping of confiscated liquor in the gutters, staged by D. J. Gantt, supervisor of prohibition in the southeast.

BUILDERS BELIEVE CITY SKYSCRAPERS ARE TOO EXPENSIVE

Declare Low Buildings on Expensive Lots Are More Directly Profitable.

Minneapolis, Minn., July 27.—Low buildings erected on expensive lots are more profitable than skyscrapers towering into the air in the opinion of various members of the National Association of Building Owners and Managers expressed at their annual convention here. This is contradictory to the generally accepted theory of realty men.

Reading a paper at one of the sessions an "Analysis of the Comparative Investment Value of Office Buildings of Various Heights," Edwin S. Jewell, of Omaha, an advocate of the low building theory, said that since land values are enhanced by the increase of it, structures under 10 stories in height were more profitable in that a saving would be made on the tremendous cost of foundation and enormous elevator equipment.

"If a builder erects a six or eight story building in a part of the city that is the business section," Mr. Jewell said, "and if that business section shifts in a decade of two, the structure can readily be used for a factory, warehouse or other purposes. It is still a marketable building. The same is not true of the skyscrapers.

"When builders begin to erect low buildings in our cities, the tremendous amount of money now being used for building foundations, and sub basements, can be put into other buildings. The money put into elevators, heavy framework and other incidentals necessary to the erection of a skyscraper would pay for a good, practical office building four to six stories high covering the same piece of ground.

Mr. Jewell, who is chairman of the operating experience committee of the building owners and managers association, also asserted that the low office building plan would spread the business districts of cities over wider areas and raise land values, enabling cities to raise more revenue for schools and other public improvements.

TODAY'S YACHT RACE PROMISES TO DEVELOP INTO DRIFTING MATCH

Sandy Hook, July 27.—The Shamrock and Resolute crossed the starting line together at 2:17, official time, the course being a fifteen mile bent to windward down the Jersey coast with home run. The wind was only about three knots off shore and few spectators believed yachts could finish within the six hour time limit unless freshened considerably.

Sandy Hook, July 27.—Clear skies and smooth seas and a seven knot northwest wind were conditions at 8 o'clock this morning for the fifth and final America's cup race which at that hour promised to develop into another drifting match. The race yesterday was called off on account of dying wind.

ENGLAND PLANS TO ADHERE TO STRICT ECONOMY POLICIES

Business Men Confronted with Necessity for Change by Bankruptcies.

BUYING PUBLIC MUST BUY ONLY NECESSITIES

Profiteers Find Themselves With "White Elephant" Stocks on Hand.

London, July 27.—English people have determined upon a policy of strict economy resulting in a considerable increase in the number of bankruptcies during the last few months. These failures have occurred not only in London but also in the provinces. Business men, however are confronted by the fact that the aggregate number is for figures for 1919 being 737 as against 2,856 for 1914.

While many reasons are advanced for this state of affairs, the most acceptable one in business circles is the attitude of the buying public which has decided only to purchase absolute necessities. In consequence, traders who have purchased large stocks of goods at fancy prices in anticipation of quick and handsome profits, find themselves with "white elephants" on their hands and non-buying public.

The goods had to be disposed of frequently at a big loss. The recent bankruptcies included a number of demobilized men who started business with the proceeds of their men, for the most part, were inexperienced in the ways of trade and when a severe test came, they were forced to close their doors.

AMERICAN LEGION TO PROVIDE FOR SERVICE MEN NOW IN HOSPITAL

New York, July 26.—The national American commission of the American Legion today announced plans for a movement to care for the 17,000 service men now in 700 hospitals throughout the country. Formation of local committees to visit the men in the hospitals and care for them after discharge is urged of the 48 state chairmen, who have been enlisted in the movement.

Referring to the remaining "undesirables," Commissioner Wallis said he planned "to make quick work of these Bolshevik deportees."

SENATOR HARDING LEAVES CENTRAL REPUBLICAN AREA IN HANDS OF COOLIDGE

Marion, July 27.—Senator Harding left the center Republican stage today in the hands of Governor Coolidge whose formal notification will be held at Northampton, Mass. The Senator planned to devote the day to correspondence and recreation.

ENGLISH ALLIANCE TO CARRY PEACE TO NEAR EAST PEOPLE

Premier Hera Declares Anglo-Japanese Alliance Does Not Oppose League.

Tokio, July 27.—The Anglo-Japanese alliance does not run counter to the League of Nations, wrote Premier Hera favoring a renewal of the pact, in the course of a contribution to the current issue of the Japanese diplomatic review.

Mr. Hera declared that the English alliance is intended for the preservation of the peace and order in the far East, with no particular country its object. The Japanese were determined to improve the relations with China and to develop the rich natural resources of China. It was a good thing, he thought, that the United States was taking an economic interest in China. But while the interest of the United States was economic, to Japan the re-union with China was really a question of life and death for the nation. He hoped this fact would be appreciated in a sympathetic way by the American people.

Concerning Siberia the Premier wrote:

"The original object of Japan's expedition to Siberia was to aid the Czech-Slovaks. In the meantime, however, Siberia has undergone serious upheavals, endangering the life and property of Japanese residents and disturbing peace and order in Manchuria and Mongolia. This is the reason why Japan cannot evacuate the country as soon as she expected. However, when peace and order have been restored in Siberia, safeguarding the life and property of Japanese residents, and ensuring freedom of communications, the Japanese troops will be withdrawn, with the repatriation of the Czech-Slovaks."

SHARP EARTHQUAKE SHOCK DOES SLIGHT DAMAGE IN LOS ANGELES TERRITORY

Los Angeles, July 27.—A sharp earthquake shock shortly after midnight rattled windows in downtown buildings awakened prisoners in the county jail who set up a howl to be released. Reports from various parts of the city show that only slight damage was done.

GOVERNOR COOLIDGE IN NOTIFICATION EXERCISES AT NORTHAMPTON TODAY

Northampton, July 27.—Governor was formally notified today in nomination exercises which began with a meeting of the notification committee, and concluded with ceremonies of notification at three o'clock on Allen Field at the Smith College. In acceptance speech it is expected that Coolidge will interpret issues for the campaign so broadly defined in party platform and Harding's notification speech.

CAROLINA REVENUE MORE THAN ANY OF SOUTHERN STATES

Internal Revenue Taxes Exceed All Southern States Nearly 66 Million.

FIGURES COVER FISCAL YEAR ENDING JUNE 30

North Carolina Forwarded \$169,206,007.77 to Treasury Department.

Washington, July 27.—Of the more than five billion dollars in internal revenue taxes collected and deposited during the fiscal year ending June 30 last, North Carolina forwarded to the Federal treasury 169,206,007.77, nearly sixty six million dollars more than any other Southern State.

The department says this represents the greatest annual tax collection since the revenue bureau was established in 1862. The cost of collection will approximate fifty five cents for every \$1.00 collected.

The income and excess profits tax letted the treasury \$3,944,555,737.93 and from miscellaneous taxes \$1,465,729,130.97 was received respectively, North Carolina furnished \$45,032,387.56 and \$124,173,620.21 of the grand total.

Texas, with collections slightly above 103 millions, is the only Southern State that approaches North Carolina. The second New York district which include the old third New York district, is the only New York district ahead of North Carolina. The Chicago, Boston, Detroit, Cleveland, Philadelphia and Pittsburgh districts are the only ones in the country that pass the North Carolina mark.

Of more than passing interest is connection with the report just released by the department is a statement from the Comptroller of the Currency showing that there is a deposit account in North Carolina for one in every ten persons in the State. This applies to National banks only and does not include State institutions.

The population of the State, according to the 1910 estimate is 2,497,668 and there are 265,000 bank accounts, making a fractional difference in the ratio of bank accounts to people. There are 87 National banks in the State.

COMMERCE COMMISSION MAY PLACE EMBARGO ON EXPORT COAL SHIPMENT

Washington, July 26.—The Interstate Commerce Commission indicated it was prepared to issue an order for priority of movements in the shipment of coal to New England States while railroads, under a recent order of the commission, began to move coal to the Lake ports for transshipment to the northwest.

The order was expected to forbid movement of coal to tidewater unless consigned to New England. This practically would mean an embargo on exportation, coal men said.

Commercial shipments to the northwest have been less than half enough to insure an adequate supply during the coming winter, the Interstate commerce commission was informed. A score of railroads will attempt to dump 4,000 carloads daily to take ports, the coal coming from bituminous mines in western Pennsylvania, Ohio, West Virginia, Virginia, Kentucky and Tennessee.

CENTRAL PROVINCES OF CHILE SUFFER SLIGHTLY FROM LATE EARTHQUAKES

Santiago, Chile, July 27.—Advices from various sections of the country indicate that yesterday's earthquake effected only central provinces generally. Isolated cases feature minor damages, but no reports of personal injuries have been received.

MISS EVELYN HODGES NEW SEC. CHAMBER OF COMMERCE

Miss Evelyn Hodges has been elected by the Chamber of Commerce as temporary secretary, and has accepted the position. The Chamber of Commerce made a splendid selection as Miss Hodges is capable of handling their affairs in an excellent manner.

TUESDAY, JULY 27, 1920.

If expenditures count for success in campaigns, then the Republican party has campaigned the world.

The Republican platform is so evasive that it is a wonder party members can keep from sliding off.

The Republican party has succeeded so admirably in its campaign that people even now don't know any more than they did at first.

Harding may not believe in one man power, but he certainly believes in equivocal language. The fact goes to show that he is really capable of believing in two things at one time.

The Republican campaign has been such a expensive one that the ordinary American citizen is afraid to take part for fear of being called upon to bear a proportionate party.

It looks like the prison reform crowd has pulled something over on Governor Bickett, but before it's all over there may be a different version of the affair, or some of the reformers serving sentences themselves.

When all of those candidates get to campaigning in Ohio there going to be something going on. Cox, however, has the advantage as he is located in the largest city and has a newspaper with leased wires to look after his end of the game. This fact shows that it means something to be really great in a large community.

Bryan likes to know why prohibitionists do things, but it has been quite evident that he is not in favor of becoming their candidate for the presidency. The distinguished Nebraskan has several times been forcefully convinced that the American people do not want him as the nation's chief executive on any kind of a ticket, and it was probably realization of this fact that prevented him from accepting the nomination recently tendered him by the prohibition convention. If there were a few other prominent men capable of discovering what the people want in time they would be saved much embarrassment, but as this appears impossible, experience have to serve as a teacher, the same teacher that all men learn the way of the world by.

Samuel Gompers, president of the America federation of labor, is optimistic for labor this year. In fact, he says that the coming campaign will be a notable victory for the party in many ways and that the ordinary workman will realize hopes cherished for many years. The Democratic party has met labor's demands fairly and squarely, so it is perfectly natural to expect that the labor vote will go to the party more so than to any other. Every demand has not been met of course, but Mr. Gompers himself has said that the San Francisco convention came nearer meeting the party's demands than other Auctions and for that reason it is reasonable to expect that Democrats will get a pretty big vote from the laboring element. The platform provides every feature necessary to success of the party, and consequently the working man will find it safer to vote the Democratic ticket.

THE FAIR ADVERTISING.

The first advertising to be distributed by promoters of the Pitt county fair has just been put in circulation, and those who have dreamed of such an attraction for years, find no little pleasure in reading and re-reading the significant message which the small advertisements carry with them. The advertising committee has not yet initiated any intensive campaign, for this will be looked after about the first of September, the fair not being scheduled until the week of the twenty first. The county has for years needed such an attraction to stimulate social life of the territory, and encourage the raising of better products produced in this section of the state. The demonstrations are well worth the price of almost any fair, and it is expected that the opening here will feature in some mighty splendid offering along every line. County fairs draw people together as nothing else can do, and the fact that Pitt county is the logical center for such an attraction is evidence enough that it will be largely attended from many sections of the state, and get possibly better patronage than those that have been in progress for a number of years. Pitt county people should event one of the greatest in the county's do everything possible to make the annals, for it directly opens up a way to greater possibilities — possibilities upon which the foundation of every progressive, thriving city of the country is at first laid upon. It is up to the public to assist in every way possible, for if this is done the fair will undoubtedly be all that anyone could possibly ask for.

Sugar went off three cents in New City, but it's a life bet that profiteers won't let it stay that way long at the time. Reports have been bringing down the cost of living for the past several months, but high prices are the only thing we have seen at all. Profiteering, unfortunately, is still in progress in many districts, and if manufacturers would be sincere they would assist the public in punishing those responsible for the gradual rise of necessities. The future demands this of everyone, consumer, producer, manufacturer and all, for unless there is combined effort very soon there will not be the slightest prospect of any decline within the next several months, if not years.

If Senator Lodge has too much to do with the Republican party it is probable that international intercourse will be cut off entirely. The senator likes home folks of his own style, but he doesn't give foreign treaties and agreements anything at all encouraging. In fact, he is so considerate of the country that peace treaties and league of nation programs are looked upon as purely detrimental to the people's welfare. If there were just a few other men like the gentleman American would be in a mighty sorry plight, but fortunately, there are no others of his type and the people can keep on thinking for themselves, as Democrats generally do.

North Carolina women will be strong for editors hereafter, for it is understood that a majority of the state's scribes are for woman suffrage, and are giving it their support at every opportunity. There are a number opposing the issue, of course, but they have been married too long to enjoy woman's charm and oppose her enfranchisement simply to be obstinate, certainly for no other reason. Those with matrimony in view are working hard, and those without any girl at all are doing everything possible to get one. So, eventually, it is probable that all newspaper forces will be increased by requiring the services of certain suffrage members.

Senator Harding has taken up the needs of the farmer. If he expects to win in the coming campaign he had better look after his own needs and let the farmer's alone until after the election is over.

Mr. and Mrs. C. L. Perkins returned this morning from Virginia Beach.

Mr. J. C. Ihner returned this afternoon from Virginia Beach.

WILLIAM FARNUM TO APPEAR IN "WINGS OF THE MORNING."

William Farnum will appear in one of his best pictures tomorrow night in White's Theatre when he is seen in Wings of the Morning. He will have the following cast to support him: Frank Elliott, Harry Devene, Hershall Mayall, G. Raymond Mye, Clarence Burton, Louise Lovely and Genevieve Bliss. In the beginning of the story the hero and heroine step from the sea to play their part in the wonderful production. She the daughter of the ill-fated Surday and he Robert Jerks, steward of her father's yacht, who had braved the waters all night in order that he might save her. How they lived on the island, and how he kept this vow he would never make love to her, or give her reason to be afraid of him are beautifully portrayed in the picture. The acting is without a doubt some of the best seen in a picture in a long time and how love plays its part in bringing this young lady, who is a millionaire, and her father's steward together makes the picture all the more interesting. Miss Louise Lovely, as Iris Deane, is the heroine of Wings of the Morning, and despite her luxurious up-living insists upon helping Farnum with every thing.

After the very warm weather for several days the change to cooler yesterday was indeed refreshing.

Yesterday morning at the home of Mrs. N. S. Fulford on Pitt street, Mrs. W. M. Scales was hostess to her bridge club. Tables for the games were arranged in the library and many spirited games were enjoyed. Mrs. D. E. Taylor making the top score was awarded a beautiful card table cover. At the conclusion of the games an ice course was served. Mesdames Oscar Greene and N. S. Fulford were guests of the club.

CAROLINA CLUB TO MEET WEDNESDAY AT 8 P. M.

The members of the Carolina Club will meet tomorrow evening at 8 o'clock. Every member is urged to be present.

Colored—Thelma Gray to Alfred Credle, both of Greenville township.

The water in the river seems to have reached its crest and is due to begin falling soon. It did not reach the height predicted.

Locals Wins From Scotland

Ninth Inning Rally, Sec

Four to Three.

The Scotland Neck-Hobgood champions came very near asserting their superiority over Greenville yesterday, but by a timely batting rally in the ninth inning Greenville succeeded in putting two runners across the rubber, winning out by the score of 4 to 3. The game was everything that fans anticipated, and probably more, for both clubs played fast and interestingly throughout the game, showing in a particularly impressive way the strength that caused the leaders to win out in the first half of the series and Greenville to hold first place for honors of the last half.

The game looked rather gloomy for Greenville from the first inning until the ninth, for although the club played almost errorless ball, and handled the sphere in airtight form, Johnson for the visitors absolutely refused to yield anything in the shape of a timely hit and pitched the first six innings without yielding even a scratch. His twirling was one of the outstanding features of the game, for Greenville's best efforts with the willow only resulted in four hits for the entire game, most of those being well scattered and without results. Massey's single with Duncan on second and Behrie's sacrifice after Massey had stolen second and third were responsible for the two decisive runs in the ninth.

The champions handled the ball in old time form in many parts of the contest, but errors credited for the game were probably more responsible for their defeat than any other single feature. Greenville's first run was scored on an error and wild throw, but after that the club tightened up considerably and absolutely refused to let anything at all in the shape of even difficult grounders get past them. This fact, coupled with timely work with the willow came very near giving the contest to the visitors, but luck breaking strangely for Greenville and always requires just a little something out of the ordinary before showing itself in concrete form.

Sheppard pitched his usual easy game for Greenville, and although rather wild at the first, he settled down and pitched effectively during the remainder of the game, absolutely refusing to let the visitors profit by holes which he sometimes got in by his own wildness. He showed a wonderful amount of speed and curves at such times, and only those who faced him realized what it was to try to connect with something almost invisible to the naked eye at time. The entire Greenville club rendered splendid support. Massey, Stringfield, Behrie and Denning did the work with the willow.

Leggett, Minton and Edwards did the trick work for the champions, Leggett getting two of the five hits of the game. Both clubs secured two hits each in the seventh inning, Scotland Neck realizing one run, and Greenville none. This gave the visitors a lead of one run which it looked like they really intended holding until the ninth when luck swung around Greenville's way.

Scotland Neck scored its first run in the second inning when Edwards singled, later going home on a single by Leggett. In the seventh Minton singled. Edwards hit safely. Bird and Ruth were used as pinch hitters at the stage of the game, but without result. Minton scored on wild pitch by Sheppard.

Greenville scored its first run in the fourth inning without so much as getting a hit. Duncan beat out a grounder to first on account of an error, stole second, later going to third on wild throw, and scored on wild throw. In the ninth Duncan again got to first on an error, later stealing second; Massey singled, scoring Duncan; Massey stole second and third and scored on excellent sacrifice by Behrie and a timely error of the visiting catcher.

WALKS GOOD
FROM TARBORIANS

Washington, July 26.—Washington defeated Tarboro here this afternoon by the score of 4 to 0 in probably one of the finest games staged here this season. The visitors failed completely in securing timely hits, while the locals won out purely through clean work in the field and timely work with the willow.

PINETOPS STAGES COMPLETE WALKOVER ON WILLIAMSTON

Williamston, July 26.—Pinetops defeated Williamston here this afternoon by the score of 9 to 1. It was just a case of too much Pinetops from the first inning until the last, for they played fast in the field and used the willow in an unusually effective way.

SCHEDULE SECOND SERIES EASTERN CAROLINA LEAGUE

The following deeds of transfer have been filed in the office of the register of deeds for registration since the report of Saturday evening:

E. F. Huffines to Farmville Furniture Company, consideration \$10.

R. R. Newton and wife to T. E. Joyner, consideration \$500.

AMERICAN FLEETS TO BE MOBILIZED ON PACIFIC COAST

(Continued from page one.)

made it impossible to concentrate a well rounded fleet although the major portion of the battleship force met each winter at Guantanamo, Cuba, for target practice and drills.

During the war the shortage in most types of small vessels, notably destroyers and submarines, was over come, but the entire fleet was never mobilized due to the use of practically all light craft in the war zone, the detail of cruisers to escort duty and the fact that a considerable portion of the battleship force was on duty aboard much of the time.

The January maneuvers will set a new mark in American naval progress. For the first time in the history of the new navy the battleship fleet will be supported by a reasonably adequate number of destroyers and other light craft. Submarines will be available in abundance, together with sufficient naval aircraft for all tactical purposes and a fully rounded out fleet of auxiliary vessels.
