NUMBER 44.

TO CONSIDER COAL PRICES OF NATION ON NEXT MONDAY

Conference Called by Government Officials to Avert Winter Shortages.

PALMER WILL DIRECT FORMATION OF PLANS

Embargo Will Probably be Discarded Before Conference Adjourns.

Washington, D. C., July 29.—Means of averting winter coal shortages and of defeating profiteering in the coal trade will be discussed at a conference in New York Monday between representatives of four government departments and a committee from the coal industry. Acting Attorney-General Ames, in announcing the conference tonight, said the government hoped to develop a program which the coal interests could come "half-way" in solving the coal problem.

Mr. Ames, who with Attorney-General Palmer, will direct the formation of the plan, declared there was no reason for a scarcity of fuel at the present time and that if a shortage existed it was through faulty distribution. He said that there were "no economical reasons" for the high coal prices which obtain throughout the country. This particular phase of the situation, he said, is being given close study both by the department of justice and by "many representatives of the coal industry" who feel that present conditions should undergo a change.

Although the question of an embargo on export coal will be discussed at the coming conference, Mr. Ames said it appeared that the embargo could be discarded as an effective means of increasing the supply available for domestic use. Less than 10,000,000 tons of coal have been exported during the first six months of this year, including shipments to Canada, he asserted, and this amount had not, therefore, materially reduced the stocks here with a production for the period estimated at 255,000,000 tons.

Wage questions probably will also come up for discussion since Secretary of Labor Wilson is understood to have recommended a re-opening of the wage award in a prepared report on the coal situation in general and strike conditions in the Illinois and Indiana fields, in particular submitted today to President Wilson.

M'ADOO OPPOSED TO THE COLLECTION OF LARGE SLUSH FUNDS

New York, July 29.—William G. McAdoo, former Secretary of the Treasury and a candidate at San Francisco for the Democratic nomination for President, announced today that he had consented to deliver some speeches in behalf of Governor Cox, the party's nominee, during what he said would be a vigorous and aggressive campaign. In a statement issued after a conference with George White, chairman of the Democratic national committee, and Governor Cox's secretary, held at Mr. McAdoo's home in Huntington last night Mr. McAdoo warned that the people would not stand for a "purchased presidency," and urged that the spotlight of pitiless publicity be turned on campaign expenses during the forthcoming campaign.

DISTRICT ATTORNEY PLANS TO PROSECUTE PROFITEERING FORCE

Washington, July 29.—Prosecutions on charges of profiteering in coal sales have been instituted against about 20 coal mine operators and brokers in Eastern Tennessee, the United States attorney general at Knoxville today advised the department of justice. The attorney who acted on recent instructions from the department, reported that the men would be taken before United States commissioners as soon as they had been arrested, and evidence presented to show that they have been selling bituminous coal at from \$7 to \$9.75 per ton.

COUNT ADOLPH MONTGELAS

Count Adolph Montgelas, Minister from Germany to Mexico, appointed by President Ebert of Germany.

KANSAS FARMERS ABLE TO MARKET BIG GRAIN CROPS

Increased Number of Cars Available Relieve Situation Materially.

Topeka, Kans., July 30.—An increase in the number of cars made available for the shipment of wheat to market is affording some relief to Kansas farmers in the problem of marketing their grain, according to state officials and bankers interested in the wheat movement.

Although there are not yet enough cars to move all the wheat, and many cars promised by the inter-state commerce commission have not arrived, and railroad officials are unable to give any definite assurance as to when they will arrive, the car shortage is not so desperate now as it has been in past years.

Officials of the state board of agriculture estimate that there are still stored on Kansas 22,000,000 bushels of last year's wheat crop, and additional 8,000,000 bushels of last year's wheat in Kansas elevators. A perceptible movement of this "hold-over crop" is now reported by the State Board of Agriculture.

There remains, however, the vastly greater problem of moving this year's wheat crop, variously estimated at 110,000,000 to 125,000,000 bushels to the great milling and export centers.

Bankers are vitally concerned in the wheat movement problem. According to J. R. Anspaugh, secretary of the Kansas State Bankers' Association, bankers have \$65,000,000 tied up in loans on crops which await marketing. Many of these loans are long overdue, and the prospects are that the amount involved in crop loans will easily reach \$100,000,000 with the ripening of the present wheat crop.

Some relief has been obtained, Mr. Anspaugh said, from the recent announcement of the Federal Reserve board that it favored extension of crop loans.

TIRED OF WEARING GIRL'S CLOTHES AND WANTS BOY'S WAGES

Hendersonville, July 29.—"I'm tired of wearing girl's clothes and want to earn a boy's wages," said Miss Bonny King, of 22 Ashland Avenue, Asheville, who is in jail here for masquerading as a boy. The girl is fourteen and very pretty, wears overalls and bears a good reputation, according to Asheville people's testimony in mayor's court here today.

She wore her hair cut the latest boy fashion and told the mayor she had hidden her long locks, expecting some day to make a switch of them.

Dance tonight. Amuzu Park. Edmonds Jazz orchestra Monday and Fri.

ANY AMOUNT WILL BE CONSIDERED IN DEMOCRATIC FUND

Source Rather Than Amount Will be Asked About, Says Chairman White

TO CAREFULLY NOTE ALL MONEY RECEIVED

McAdoo to Lend Assistance in Making Speaking Tour of the Country.

Washington, July 29.—Funds for financing the Democratic National campaign will be received in any amounts and party leaders will be concerned only with the sources from which the money comes. George White, the new National chairman announced today in paying his first visit to the party's National headquarters. He characterized as "buncombe" the suggestion that campaign contributions be limited to \$1,000 for each contributor.

Party heads will scrutinize carefully all campaign gifts in order that "no obligation will be entailed on the candidate," Mr. White asserted adding that any plans to restrict the amounts of gifts would be useless since such could be easily circumvented.

The new National chairman in discussing campaign developments declared that Governor Cox, "as the nominee of the San Francisco convention had become the new head of the Democratic party.

With respect to interpretations placed (Continued on page six.)

EDITOR OF HERALD FORMS CREED FOR AMERICAN PEOPLE

Charles W. Miller, of Vicksburg, Miss., Presents a Definite Creed.

Vicksburg, Miss., July 30.—A newspaper man, Charles W. Miller, city editor of the Herald here, has compiled "An American Creed," consisting of passages from the old and New Testaments. The selections transposed and arranged in such a manner as to preserve the continuity of the Creed unbroken to the end, are said by Mr. Miller to contain "the wholesome truths handed down from the prophets, the Saviour and the apostles."

There are seven quotations from the Old Testament and 21 from the New Testament making a total of more than 800 words in the Creed. It begins with the words of Timothy, "Godliness with contentment is great gain. For we brought nothing into this world, and it is certain we can carry nothing out." The second paragraph is introduced by not all one Father? Hath not one a passage from Malachi, "Have we God created us? Why do we deal treacherously every man against his brother by profaning the covenant of our Father?" The Creed closes with these words from Timothy, "Now unto the King Eternal, Immortal, Invisible, the only Wise God, be Honor and Glory for Ever and Ever."

W. F. Bond, state superintendent of education in the state.

Mr. Miller, who has been a newspaper man more than 30 years, said: "In this age of Godless selfishness, the tendency of the times is running steadily into a state of unrestricted license, regardless of a high standard of life. Something is needed to assist in turning the attention of old and young to their duty to God and their neighbors. The Holy Bible will give the correct answer to every conceivable question that can be framed by man. It is the rule and guide for humanity."

Dance tonight. Amuzu Park. Edmonds Jazz orchestra Monday and Fri.

POLICE SEEK FOR MOTIVE OF TRIPPLE GREEK HOMICIDE

Principals in Washington City Tragedy Formerly Resided in Greenville.

BROTHER OF WOMAN IN CASE SOUGHT BY POLICE

Jean Odisceos, Who Killed Sister and Sweetheart, Conducted Cafe Here.

Police authorities in this city yesterday began an investigation to ascertain the whereabouts of Phillip Odisceos, wanted by Washington City police in connection with the murder of his sister, Katherine Odisceos, a brother Jean Odisceos, former Greek residents of this city, and Thomas Apostolus, an employe of the Norfolk Y. M. C. A., but up until a late hour last night the search had been futile for it was learned from a reliable source that Odisceos disappeared a few days ago without any of his companions being apparently being aware of his destination. It was learned, however, that he left with the intention of going to the home of an uncle, one J. D. Stefan, in Lake City, S. C., but so far this fact has not been confirmed and police are as much in the dark concerning his location as ever.

The mysterious disappearance and subsequent murder of Jean Odisceos, her brother and professor lover, Thos. Apostolus, has created unusual interest (Continued on page six.)

BROTHER WAITING TO AVENGE DEATH ALBANIAN LEADER

"Blood Brother" Patiently Waiting to Avenge Assassination Essad Pasha.

Paris, July 30.—Vengeance for the assassination of Essad Pasha, head of the Albanian delegation here, is being quietly awaited by a "blood brother" of the Balkan leader, according to a circumstantial story by a French writer, published by the Excelsior.

This man, now rich and influential in France, the story goes, was one of several poor young men who 30 years ago met Essad Pasha, then known as the "Black Dagger of Abdul Hamid" in Constantinople, when he crowded into a card game and insisted upon playing with them. Faering Essad Pasha, they protested they were too poor to play with him but he insisted, emphasizing it by placing his revolver on the table as a threat.

To meet this, the "blood brother" put down his dagger, poisoned, he said, Essad Pasha showed his surprise, then his pleasure.

"Young man," he exclaimed, "this is the first time anyone has dared defy me. Men like you are rare."

Essad Pasha took his own dagger, opened it vein in his wrist and also in that of the young man, each sucked a few drops of blood from the other and they became "blood brothers."

THOUSANDS IN DAYTON PAY HOMAGE TO THEIR PRESIDENTIAL CHOICE

Dayton, July 30.—Choice of their fellow citizen, Governor James M. Cox, as the Democratic nominee for the presidency, was claimed today by residents of Dayton and other portions of Miami valley. People are here by the thousands in attendance at the non-partisan hon coming demonstration. A civic parade this afternoon will be one of the principal features of the day. No speeches of any nature are included in the day's activities.

Dance tonight. Amuzu Park. Edmonds Jazz orchestra Monday and Fri.

"GOING UP"

James B. Evans, for 32 years chauffeur of the elevator which travels from the base to the top of the Washington monument, claims the world record for elevator traveling. He has made more than 300,000 trips at the rate of 30 a day, 540 feet up and back again. He figures this is something over 50,000 miles.

PRESENTS FIGURES OF CITY'S GROWTH OF PAST 10 YEARS

H. T. King, District Census Enumerators, Gives Comprehensive Account.

Mr. H. T. King, one of the 1920 census enumerators, for this district has made the following report which includes the five wards and the suburban districts. Ward 1, white 325; colored 75; ward 2, white 671; colored 76; Indians 4; Chinamen, 1; ward 3, white 796; colored 799; ward 4, white 582; colored 1076; ward 5, white, 685; colored 2. Total white 3057; colored 2710; Indians 4; Chinamen 1; making the final total 5772; which is an increase of 1671 over the 1910 census which gave the total of 4101. The suburban districts include cotton mill, white 367; mill town, colored 38; Riverdale colored 104; east Greenville white 25. This added to the total for the five wards gives a total of white 3449; colored 3199; Indians 4; Chinamen 1; making the complete total of 6653. This census report has been filed and is official. Greenville is one mile square in size and the report of 5772 comprises the one square mile. This report is a disappointment to the Greenville people as they were counting on a must larger report. Greenville has made such rapid strides in the past ten years in every line of business and has grown so much that it was thought by the citizens that the census report would at least give around ten eight or nine thousand population. The report however, doesn't detract from the fact that Greenville is one of the most progressive towns in the state and that it is improving and developing in every line of business.

Harry Olmstead, of the Coal Operators' Association of Williamson, gave the other side of the controversy.

"The United Mine Workers want to organize their field," said Mr. Olmstead "and then move on to the larger and more important fields of McDowell, Wyoming, Mercer counties, and what mines have not been organized in Raleigh.

New York, July 30.—A. Lessen, proprietor of a small grocery store, was sentenced to two years in the Atlanta penitentiary following conviction of hoarding foodstuffs. Federal Judge Howe, in imposing the sentence, said that he might have fined Lessen five thousand dollars, but he didn't want to "put the dollar mark on this judgment."

OPERATORS DECLINE TO HEAR MINERS ON THE COAL SITUATION

Chicago, Ill., July 29.—Coal operators today declined to participate in a joint conference with the miners as suggested by John L. Lewis, president of the United Mine Workers of Illinois, with a view of changing or amending the interstate agreement and the commerce commission's award.

The executive committee of the Indiana bituminous coal operators' association in announcing its action, said it was influenced "by the fact that all contracts, state and interstate were but a reaffirmation and acceptance by the operators and miners of an award made by the interstate commission."

PAY SCALE CAUSES CONFLICTS AMONG VIRGINIAN MINERS

Industrial Conflict Begins to Secure Same Pay of Kanawha Miners.

35,000 MINERS FIGHT FOR ORGANIZATION

Charles Keeney, Miners' President Explains Situation in Early Stage.

Williamson, W. Va., July 30.—An industrial conflict is being waged between mine operators and leaders of the United Mine Workers over the question whether all the bituminous coal miners in West Virginia shall be organized as union men.

The miners' leaders also demand that the scale of pay now in use in the Kanawha field be adopted in the Mingo county bituminous field here.

Charles F. Keeney, president of district number 17 of the United Mine Workers, who is in command of the union forces, explains the situation here by saying:

"There are approximately 55,000 organized miners in West Virginia and 35,000 who have not yet been organized. These unorganized men are mostly in the counties of Mingo, McDowell, Logan, Raleigh, Mercer and Wayne, all in the southern part of the state. The campaign to organize these miners is well under way and we expect to have it completed before the snow flies.

"The men and the operators could get together and settle this thing if it were not for the mine guards. They are depriving the men of their constitutional rights and that brings about trouble. Why, I understand the sheriff of Pike county yep deputed some 300 men and the coal companies are paying them, while detectives are on the border between Mingo and McDowell counties with rifles and machine guns.

"What would happen if an attempt were made to operate the mines here with non-union men? I wouldn't like to say. But in their present temper, these men are not to be fooled with. Right now this situation is a powder mill. The men have no complaint when the law is enforced by the proper authorities. But they will oppose to the last, the use of private armies enlisted by the coal companies."

Harry Olmstead, of the Coal Operators' Association of Williamson, gave the other side of the controversy.

"The United Mine Workers want to organize their field," said Mr. Olmstead "and then move on to the larger and more important fields of McDowell, Wyoming, Mercer counties, and what mines have not been organized in Raleigh.

NEW YORK GROCER GIVEN TWO YEARS IN ATLANTA PRISON

New York, July 30.—A. Lessen, proprietor of a small grocery store, was sentenced to two years in the Atlanta penitentiary following conviction of hoarding foodstuffs. Federal Judge Howe, in imposing the sentence, said that he might have fined Lessen five thousand dollars, but he didn't want to "put the dollar mark on this judgment."

OPERATORS DECLINE TO HEAR MINERS ON THE COAL SITUATION

Chicago, Ill., July 29.—Coal operators today declined to participate in a joint conference with the miners as suggested by John L. Lewis, president of the United Mine Workers of Illinois, with a view of changing or amending the interstate agreement and the commerce commission's award.

The executive committee of the Indiana bituminous coal operators' association in announcing its action, said it was influenced "by the fact that all contracts, state and interstate were but a reaffirmation and acceptance by the operators and miners of an award made by the interstate commission."

FRIDAY, JULY 30, 1920.

That French and British agreement on the oil question appears to be a "greased" proposition at the best.

What Republican candidate for Governor Parker wants in North Carolina he will not be likely to get.

The coal question is a mighty good subject for hot weather talk, but it furnishes poor food for thought in the winter.

It is predicted that clothing prices will take a decided drop this fall. Which means, we suppose, that they will drop completely to the depths of a man's pocketbook.

Cotton continues to make good progress in North Carolina, according to reports just issued, so New York bears may come out of their dens without being afraid of decreased production.

That Norwegian explorer arranging for a five year stay in the Arctic region may have good intention in the trip, but before the five years have expired he will be too chilled to see them through.

Pitt county farmers should be planning right now for something to exhibit at the county fair to be held the latter part of September. Just mark it down that the coming fair is going to be a great event for the county and to be a great event for the county and every citizen should take a hand in its success.

Before the suffrage forces complete their work in this state it is quite probable that legislators will be only too glad to ratify the amendment. Women have a way of presenting a question that man can't easily evade, so it is highly probable that suffrage opponents may experience a change of sentiment before the next meeting of the General Assembly.

The Rejection League has requested Governor Cox to give the women of the South a hearing on the suffrage question, but as the governor is a firm supporter of the movement there is little reason to expect that he rejection forces will make much headway by conferring with him. Woman's enfranchisement is not far away, and the more opponents do defeat their plans the more intense the campaign will become. The United States has its first opportunity for revaluing its women, and it is safe to say the chance will not be passed by without the consideration which the question deserves.

The fact that Villa has surrendered to the Huerta regime causes one to believe that conditions in Mexico will be considerably improved in the future, for with the rebel factions at peace with the country, the situation certainly cannot become worse. Mexico is deserving of a period of peace, but this will not be possible until the government really decides upon some constructive form of international intercourse. There is much room for improvement and unless this becomes evident in a short time Villa's surrender after all will not mean anything out of the ordinary.

GOOD CROP PROSPECTS.

Mr. Frank Parker, of the crops reporting service of the state, thinks that Pitt county has one of the most promising tobacco crops in many years, and that the production this year will be all that could be desired by those who have been watching developments so anxiously for the past several weeks. The increased acreage, it is thought, will make up for the great loss experienced in many sections from lack of development of the plants, and this fact more than any other is going to make the crop considerably beyond the expectations of those who...

George White, chairman of the Democratic campaign, is beginning operations in the interest of the coming campaign, and as he is one of the best informed politicians in the country, it is assured that he will get everything that the party is deserving of. Governor Cox has implicit faith in his ability to carry campaign plans to the highest state of consummation, so it is safe to say that he will do just that too, and in a way that will be pleasing to everyone concerned. The fight promises to be one of the most interesting waged in many years, for the Republicans promise determined opposition until the last vote has been cast. The Democrats, fortunately, have a decidedly convincing and constructive policy to present the people, and as the Republicans can make no boast along this line, there is every indication that the future will be a fortunate one for the Democrats. Anyway, with Mr. White steering the party there is every reason to believe that he will be able to accomplish the very best which Democrats desire.

Samuel Gompers, president of the American Federation of labor, is of the opinion that Mr. Harding failed to give the laboring man fair consideration in his acceptance speech, and declares that his inference that the country needs greater production with decreased pay for the laborer is simply beyond consideration. The laying off of workmen simply to gratify the desire to drive them to some political camp for safety is simply going back to the crude way of handling labor in the old days, Mr. Gompers thinks, and believes that Senator Harding's position in this direction will have an opposite effect from that which he expected. The American federation of labor merely wishes to protect the country's laboring element, and it has found in the Democratic demeanor a decidedly soothing effect which probably will mean much to the party in the coming campaign. The Republican candidate apparently has struck a discordant note, and before the issue is finally settled he will have an opportunity of realizing the fact in all its seriousness.

That man in the trunk mystery is at least slick enough to keep out of jail.

What Is the best Occupation For Your Daughter

A man in the employ of the U. S. Government, whose two daughters have made telephone operating their profession, said: "If I had ten daughters, I would want all of them to be telephone operators. Aside from the fact that they work under the direct supervision of women only and that every provision is made for their comfort, the training they receive is a great development of tact, resourcefulness and initiative."

Telephone operating is more than a job. It is a young woman's profession and the work is essentially a woman's work. At the present time it offers unusual opportunities for advancement.

In most young women's professions months of preliminary training are necessary at the learner's expense. But in telephone operating the beginner pays nothing for her training. On the contrary, she is placed on the pay-roll as soon as she begins the brief course of instruction. Her salary is increased at the completion of this course and thereafter at regular and frequent intervals.

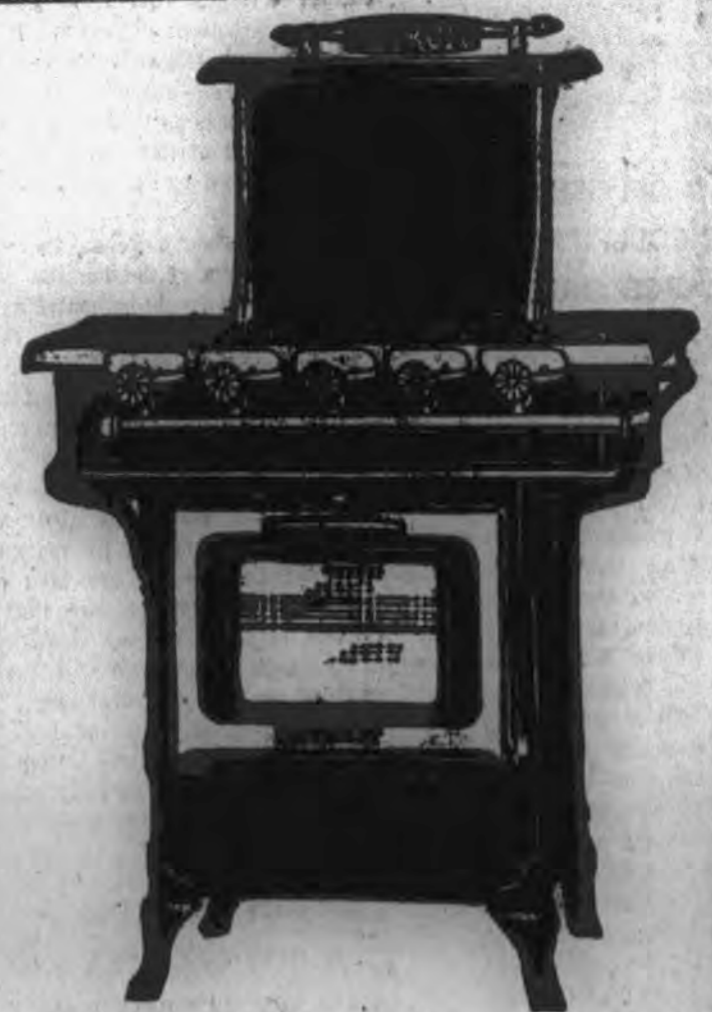

Some of the features of the work are: Good salaries from the start; permanent positions; regular and frequent increases; special opportunities for promotion; high grade, cleanly work; congenial and carefully chosen associates; light and airy central offices; comfortable recreation rooms; annual vacations with pay, and sick benefits and pensions without cost.

If you have a daughter who would like to apply for a position as telephone operator, or know of another young woman who may be interested, we shall be glad to see her and talk the matter over in detail.

GOVERNMENT SECURITIES

INVESTED IN SCHOOLS

In the month comprising the last school session a more than \$451,000 was invested in North Carolina in government savings securities, according to official figures just compiled. This money was saved largely through the purchase of United States securities of which there were more than 11,000 in this federal reserve district.

North Carolina's gross sales of Thrift and war savings stamps and treasury savings certificates, in exact figures, amounted to \$451,764.43. In the district the gross total exceeded \$2,315,000, or at the rate of considerably more than \$250.00 a month. While much of this money was saved by school children, no small amount of credit is due, it is said, to woman's clubs and such organizations which not only took an active interest in the saving movement in their own behalf, but encouraged and assisted the work of the school societies.

In the last four months of last year the gross sales in North Carolina amounted to \$203,674.51. In the first five months of 1920 they were \$248,082.

PROTECT YOUR HOME
Guard It Against Unseen Evils

The laundry bag is often—the source of sorrow. Germs are transferred from one soiled garment to another. If washed in cold or warm water they are not killed, but multiply by thousands, carrying death and disease.

It is the duty of every true woman to protect her home—her children. One thing that should never be overlooked is the method of washing clothes.

The Easy Clean Easy way of washing is the easiest, quickest, easiest and most economical way to wash. All clothes are boiled, killing every germ. They are left clean, sweet and wholesome.

Here's all there is to do: Soak the clothes over night. Shave 1/2 bar of Clean Easy Naphtholete Wash Soap into 4 1/2 gallons of water. Roll water—let soap dissolve and put in the clothes. Stir for ten minutes only—rinse, blue and dry. The entire job is done without any mean work—and it's done a whole lot better, too.

Clothes are not worn out by scrubbing. Clean Easy does not hurt the fabric. Your laundry will last longer, look better and be cleaner if it is washed in the Clean Easy way.

Ask your grocer for Clean Easy today. Notice how different it is from any other soap you ever saw.

SOCIETY

Mr. A. T. Galloway, of Rocky Mount, is among the business visitors here today.

Mr. J. A. Currin, of Rocky Mount, spent several hours in Greenville yesterday.

Mr. E. R. Bryan, of New Bern, was here for a short time yesterday.

Mr. J. A. Staton, of Bethel, spent the day in this city.

Mr. W. C. Wells, of Wilmington, was among the business visitors in Greenville yesterday afternoon.

Messrs. H. A. Underwood and James S. Salter, of Raleigh, were in Greenville during Friday.

Mr. F. S. Mott, of Raleigh, spent a short a short time in the city yesterday.

Mr. Frank Parker, representing the state crop reporting service was among the visitors in the city yesterday morning.

Mr. A. G. Kirpatrick, of Charlotte, was here several hours Friday.

Messrs. C. E. Neweon, C. A. Micenheimer, and J. L. Booth, of the B. & B. Motor Company, Charlotte, H. I. Sherrick and J. J. Neitz, of the Maxwell factory, Detroit, Michigan, are in the city today making arrangements for an exhibit of the Maxwell New York chassis to be conducted on the vacant lot at Five Points tomorrow. They are conducting an exhibit in Farmville today.

Miss Ella Moseley Wilkinson, of Durham, is visiting Miss Frances Whedbee.

Miss Ruebelle Forbes has returned from a visit in Weldon.

Mr. H. S. Ward, of Washington, is here today.

Mrs. Lula Fleming and daughter, Miss Margaret and Misses Nell White, Ada James, and Mr. Charles White returned last night from Atlantic City.

Mr. Larry James spent last night in Wilson.

Mrs. Hyman Phillips, of Tarboro, is visiting relatives here.

Mr. and Mrs. George A. Forrest have returned to their home in this city after spending several days in Seven Springs.

The Reflector is recognized by all who use its columns as a valuable advertising medium.

A number of young women who have been attending summer school at E. C. T. T. school left this morning for their homes.

GREAT SALE TO BE CONDUCTED AT YOUNG'S TOMORROW

One of the greatest sales ever put on in this city will be staged tomorrow when Young's Mercantile Store will throw open its doors to sell each and every article of wearing apparel and other articles at prices that will be remembered by those who visit the sale. Mr. Young stated this morning that in this sale the cost price would be absolutely forgotten and profits thrown to the wind. Every department offers greater values than ever before in this "Gift of Profit" sale. Mr. Young has since coming to Greenville, and opening up this link of his chain of stores, put on many sales which smashed the H. C. L., but the sale tomorrow promises to be the most sensational sacrifice sale ever conducted. In order that the sale might be a success and that everything be in readiness tomorrow morning Mr. Young closed down this afternoon, and promptly at nine o'clock tomorrow he opens again. It would be impossible to enumerate all the bargains which the sale offers but to those who read his adv. in yesterday paper, enough has been said. Young's has secured a sufficient number of sales ladies and every one can be assured that they will be waited upon promptly. One solid car load of fine granulated sugar will also be sold in this sale.

UNFAIR OPPOSITION.

One of the strangest of strange things in this enlightened age is that many farmers will oppose things from which they are directly the largest beneficiaries. It is recalled that nowhere was a stock law district established except after much opposition and a hard fight, yet where the farmers have lived for awhile under stock law operation they have found it, so beneficial that they could not be induced to return to the old system of stock running at large. And the same thing is true now concerning the eradication of the cattle ticks. Some farmers are so much aroused against this movement that is primarily for their benefit, that they resort to dynamiting dipping vats and other lawlessness in an effort to check it. Yet it will not be long before they will realize that tick eradication will help their stock more than anything that could be done.

To make a hard story soft

and to relieve the minds of the many who suppose that a Boy's suit must necessarily be expensive in order to wear—we publish the next paragraph with a great deal of pride.

We have boy's suits so good at \$12 and \$15 that we guarantee to stand behind them no matter how many trees they climb or how many green apples they eat.

And that goes for all sizes from 6 to 18—or

if you add on a few dollars we can stretch that limit to read from 34 to 44 chest measure.

Goodyear Mileage — and Tires for Small Cars

A well built tire yields much more mileage for each dollar of cost than a tire purposely made to be offered at a sensationally low price; buy the tire, not the price.

Built to deliver exceptional mileage at exceedingly low cost, Goodyear Tires, of the 30 x 3-, 30 x 3½ and 31 x 4-inch sizes, save inconvenience, disappointment and money.

Their value results from the application of Goodyear experience, expertness and care to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for the real worth and endurance that Goodyear builds into them.

30 x 3½ Goodyear Double-Cure Fabric All-Weather Tread \$2350

30 x 3½ Goodyear Single-Cure Fabric All-Weather Tread \$2150

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size \$450 in waterproof bag

GOOD YEAR

WANTS

LADIES — WHEN IRREGULAR OR suppressed use Triumph pills. Safe and always dependable. No sold at drug stores. Do not experiment with others; save disappointment. Write for "Relief" and particulars it's free. Address: National Medical Institute, Milwaukee, Wis. e s agd.

POLICE SEEK FOR MOTIVE OF TRIPLE CREEK HOMICIDE

(Continued from page one.) among Greek residents, some of whom were intimately associated with victims of the tragedy, during their stay here, while there are many different stories told concerning the incident, it is generally believed, however, that the girl and her lover came to their death at the hands of Jean Odiseos, who seriously objected to Apostolos' affections for his sister, and who upon learning of improper association, fired the fatal shots and then killed himself.

Reports in circulation throughout the country conveying the impression that the murder resulted from a desire of Jean Odiseos to secure possession of some \$2000, which it is claimed that the girl's lover had recently accumulated, are considered highly improbable, for those intimately acquainted with him say that he had brought his sister to this country to protect her from Turkish and Bulgarian forces which were threatening to invade Greece at the time. They came directly to this city upon the girl's arrival, and ever since that time the brother watched over her carefully and did everything possible to prevent her from getting under bad environments. He conducted a small cafe and to all appearances, gave the girl the best of care. Their sudden disappearance several days ago failed to create more than usual interest. It was supposed that they went to Norfolk as the result of the girl's persistent pleading to see her lover, but the trip to Washington in company with Apostolos and following murder are incidents that have baffled friends as well as police. It is not believed, however, that the disappearance of Phillip Odiseos, who went by the name of Dan Odiseos while employed in a candy kitchen here can be connected with the murder, although the fact that he still remains in apparent seclusion has produced much speculation. The theory that the young woman killed herself and brother after he had shot her lover in an attempt to obtain possession of the money, is accepted as doubtful, and it is believed by those intimately acquainted with both the sister and brother that he committed the crime after learning of improper relationship through Apostolos' continued insistence to gain his sister's hand in marriage.

SCOTLAND NECK HYPHENS GIVE GREENVILLE CLUB DINNER

The Scotland Neck-Hobgood baseball club yesterday tendered a barbecue dinner to members of the Greenville baseball club and fans attending the afternoon's game from this city. The event was enjoyed, and depicted the friendly relationship existing between the two towns.

St. Paul's Church.
Friday—Litany 8 P. M.

SPORTS

GREENVILLE WINS FROM HYPHENS IN PLEASING MANNER

Scotland Neck Plays Fast Game but Were Outplayed by the Visitors; Score 3 to 2.

By out hitting their opponents at a two to one pace Greenville yesterday evening succeeded in taking the third game of the week from the Scotland Neck Hyphens, in Scotland Neck, by the score of 3 to 2. The contest was by no means different from those played in this city during the first part of the week for Greenville appeared in regular form and handled the ball in a way that was pleasing and interesting from the first inning until the last. The hyphens possibly fought harder for victory than they did in this city, owing to Manager Riddick's claim that the last three games would be captured by his club, but to no avail, for Greenville appeared careful both in the field and at the bat, and showed conclusively from the first inning that the game was going to be determinedly contested.

The hyphens played a considerably faster game than the day they defeated Greenville here, but the fact that Washington had climbed upon the last rung of the ladder for honors for first place caused Greenville to play almost desperately at times, and to accept openings to their advantage so quickly that the hyphenated crew found it difficult indeed to keep pace. The winning run which Greenville sent over the rubber in the seventh inning produced additional activity in the hyphen camp, but every effort with the willow failed to yield anything profitable and consequently the ninth inning was concluded with Greenville still retaining the one run lead.

Owens, a recent acquisition to the Greenville club pitched a splendid game against the champions, and while he appeared wild during the first part of the game, he settled down in a pleasing way at critical stages and absolutely refused to yield anything in the shape of a timely hit. He pitched exceptionally well in pitches, allowing only four well scattered hits during the game, Johnson pitched a good game for Scotland Neck, but the visitors found him for nine hits to the entire game, part of them well bunched and productive of runs. He exhibited excellent form, however, and succeeded in curbing the persistent batting spirit in an effective way.

Stringfield, Massey, Dennehey and Behrie came in for the batting honors for Greenville, Massey being credited with a three base hit, Stringfield and Dennehey with doubles. The entire club used the bat effectively in sacrifice work, and the way they handled the ball in the field was probably the most interesting feature of the game. Both infield and outfield apparently were in usual trim. Two errors were credited to each club, but as they were of minor consideration they failed to give any direct advantage to either side.

ROTARIANS DEFEAT COMMERCE OUTFIT IN SPLENDID GAME

Buddy Gorman Pitches Great Game, Winning Out Over Chamber of Commerce 15 to 7.

Charlie Adams says he knows good baseball when he sees it, and he says there certainly should have been a sporting editor from each paper at the ball park yesterday, because good baseball, "dope" was present from start to finish.

The Chamber of Commerce started out with a vengeance and it looked like Rotary was not to have a look-in. For four innings the score stood 2 to 0 against them, but in the fifth they managed to push one run across the plate. The Manager Charlie Porter got busy. No one knows exactly what he said and did, but business picked up, and by the time the sixth was over, Rotary had scored six runs, and Buddy Gorman was getting stungier and stungier with his offerings.

In the seventh the performance was continued and Rotary scored nine more runs, making the final score 15 to 7 in favor of the Rotarians. "Peter" Anthony says that if Reddie Clark had not been injured when Blount that other lawyer hit him on the nose with a ball, Rotary would have scored even more runs, because Reddie is right there with the goods.

The Chamber of Commerce secured 11 hits off Buddy, but they were so scattered that the game was never in doubt after the fifth. Rotary secured 20 hits off three Commerce pitchers, and of these twenty hits, five were two baggers and one was for three bases. Paul Clodfelter actually scored two runs in one inning, the fatal seventh.

Paul Clodfelter, Alex Blow and Old Haywood Dall were the heavy hitters for the Rotarians, and in the field Haywood, Claud Tunstall, Paul and Alex, put up a splendid game.

"Buddy" was in great shape and Sky-pilot Phillips, an old College catcher, who caught for Rotary, says that "Buddy" had everything on the ball, even a high-ball which is mighty hard to get now-a-days.

Perhaps the outstanding feature of the game was a brilliant catch by Bruce Suggs of a hot liner in the sixth. It was such a fine play that Manager Porter tangoed all across the field, in order to congratulate the tobaccoist.

Both clubs wish to extend their thanks to "Kid" Skinner and "Ed" Flanagan, for their services as umpires. The large congregation which had assembled, was fully repaid not only by the thrills of the game, but by the really good baseball, which these men who haven't played for years, were able to furnish them.

Burney Warren says he has sold about nine bottles of Sloan's Liniment and equally as many bottles of something guaranteed to take the sun-burn out.

R. H. E.
Rotary 15 20 5
Chamber of Commerce 7 11 3

TARBORO WINS GOOD GAME FROM WASHINGTON

Tarboro, July 29. — Tarboro came back at Washington in entirely new form in this city today, taking the evening's contest from the visitors by the score of 7 to 0. The game was a decided change from the last series in which Washington won three straight from the locals, and featured in considerably better field work of both clubs.

WILLIAMSTON DEFEATS PINETOPS AGGREGATION

Pinetops, July 29.—Williamston defeated Pinetops here this afternoon in a twelve inning contest by the score of 9 to 5. The visitors staged a heavy batting rally in the final frame succeeding in piling up an overwhelming score which it was impossible for the locals to overcome in their last inning.

If the owners of all want sidewalks around town are haled before the mayor he will have a very busy court for one day.
