

SIMMONS IS AFRAID FAILURE TO RATIFY MAY MEAN TROUBLE

Sectional Antagonism May be Aroused, Senator Says, if South Rejects

ISSUES STATEMENT FOLLOWING REQUEST TO STATE HIS VIEW

Declares He Is Afraid North Carolina People Would Localize the Issue.

Washington, Aug. 16. — Failure to ratify the woman suffrage amendment at this time may result in antagonism that will be detrimental to the South, Senator Simmons declared today when asked to give his views on this phase of the question.

"I fear our people are looking at this question of ratification of the woman suffrage amendment from a local standpoint and are shutting their eyes to the possible effect of their action upon the fortunes of the South as a section. If, in the face of this fact that the balance of the country is practically a unit for ratification, the solidly Democratic South presents an unbroken front against it and as a result it falls by one vote of enactment prior to the 1920 elections, I fear a situation will be created which without finally defeating the amendment will tend to arouse and engender a spirit of bitterness and resentment both towards the Democratic party and the South on the part of the women of the ratifying states, in 26 of which there are from ten to twelve million women who are at present qualified voters. In such event, I fear that this attitude of unfriendliness and resentment on their part will be reflected in the official action of those whom their votes elect to office and that the result may be the election of a Republican Congress and administration not only unfriendly to the South but bent upon a policy of mischievous discrimination and sectionalism. Surely such grievous contingencies should not be overlooked or ignored."

THE ANTIS ARE WAVERING AND SUFFRAGE STOCK RISES

Signs of a defection in the ranks of the antis quickened the interest yesterday in the increasingly bitter legislative struggle for ratification of the suffrage amendment by North Carolina.

The chief indication of this defection was a meeting of the anti members—attended by several of the famous sixty-three—held yesterday afternoon attended by members of the Southern Rejection League and W. F. Evans, high priest of the State's Rights Society. The anti legislators were summoned to report any signs of weakness among their brothers.

PRESIDENT WILSON READY TO RECOGNIZE MEXICAN FACTIONS

Mexico City, Aug. 17. — President Wilson is ready to recognize the American government if the latter agrees to terms of proposals from Secretary of State Bainbridge Colby, according to a message recently sent to President DeLahuerta by Fernando Calderon, the Mexican high commission, the United States Excelsior says. The newspaper says that Colby proposes that North American lives and property be respected and that indemnity be paid foreigners suffering during the revolution and that Carranza confiscatory degrees be derogated.

TENNESSEE SOLONS PREPARE FOR GREAT BATTLE ON SUFFRAGE

Nashville, Aug. 17.—The Tennessee House met today prepared for an extended debate on suffrage which leaders thought would delay final action until late in the afternoon. Both sides went into the fight claiming victory.

"CHEROKEE BILL"

"Cherokee Bill," an Indian-negro, who is reputed to be worth \$80,000, and has been twice listed in the census as the oldest man in America, has just celebrated his 123d birthday on his farm in Grand Junction, Colo., according to telegraphic reports. He served in the war of 1812 and later settled down in Colorado, where he had a claim. In 1911 at the age of 114, "Bill" announced to the world that he was retiring. It was rumored at the time that there was 300 pounds of gold, worth between \$75,000 and \$80,000, secreted about the shack he calls home.

AMERICAN STOCKS PROVE SOURCE OF WORRY TO FRANCE

Lot of War Stock to Ukrainian Government Causes Concern to France.

STOCK WAREHOUSED WAITING ON FINAL LIQUIDATION PLAN

Paris, Aug. 17.—A job lot of American war stocks sold to a Ukrainian cooperative society last spring for \$6,000,000 and later taken back by the American authorities, has caused the French War Department almost as much trouble as the liquidation of the remainder, which sold for \$850,000,000.

One part of the stocks is today warehoused at Langres, France, where the French courts have undertaken to determine their actual ownership.

Another part is warehoused at Marseille in the name of the Ukrainian society and cannot be touched by the American authorities although up to this time any disposal or departure of the stocks has been prevented.

The larger part of the stocks, warehoused at Bordeaux, was ransacked by the Ukrainians for choice bits and later by thieves but the remainder has just been recovered by the American authorities and sold to the Jugo-Slav and Czecho-Slovakian governments.

The only boat that managed to sail with a cargo of the stocks was turned back in May by an American destroyer after it had left Constantinople and the cargo was later disposed of there, little money remaining after the freight charges had been repaid to the Ukrainians.

The stocks, consisting largely of clothing and medicines, were sold on the understanding that they would be used for the Commission which was then in France accepted in payment notes guaranteed by the Ukrainian government of that period.

RUSSIA ASKS FOR BRITISH OPINION OF GEN. WRANGLE

London, Aug. 17.—Soviet Russia has asked the British premier for definite statement regarding Great Britain's attitude towards General Wrangle, anti-Bolshevik commander.

BAPTISTS MISSIONS SEND MISSIONARIES TO FOREIGN FIELDS

Fifty Missionary Workers leave Today for Japan, China and Africa.

NUMBER SAID TO BE ADVANCE GUARD FOR SPLENDID CAMPAIGN

Baptist \$75,000,000 Campaign Makes Campaign Orient Possible.

Vancouver, B. C., Aug. 17.—Nearly 50 missionary workers sent out by the Foreign Mission Board of the Southern Baptist Convention as the advance guard of the extension of foreign work planned for under the recent Baptist 75 million campaign in the south, sail for the Orient today on the Canadian steamer Empress of Japan. They go to posts in Japan, China and Africa.

Members of the party which sails today and which constitutes the largest missionary pilgrimage ever sent out by a single denomination, it is said all came from the ten southern and southwestern states included in southern convention territory. Among them in addition to the evangelists are doctors, nurses, teachers, women workers and one scientific farmer.

Those aboard the ship, grouped by the states from which they came, were: Alabama: Isaac T. Thomas, Greenville; Mrs. Annie Gary Thomas, Comer and Miss Mary Louise Bonar, Marion; to posts in China.

Georgia: Mr. and Mrs. James W. Moore and two children, Hartwell; D. F. Stamp, Dalton; Miss Mattie Vie Sumner, Newman; Miss Alvada Gunn, Crawfordsville; Miss Doris Knight, Quitman; E. E. Steele, Lexington; and Mrs. Lella Burnett Steele, all assigned to China. Miss May Perry, (Continued on Page 4)

AMERICAN PEOPLE LEAVING WARSAW FOR CITY OF POSEN

Most of Colony in Polish Capital Have Gone to the Posen Territory.

Warsaw, Aug. 16.—American residents of this city have been gradually leaving during the last fortnight and Warsaw's American colony may be said to have shifted to Posen. There is scarcely an American in Warsaw now except a few relief workers, officers of the American typhus expedition and newspaper correspondents. Jay Pierrepont Moffat, third secretary at the American legation, is still looking after the interests of the United States government in Warsaw. Polish soldiers who have been slightly wounded during the recent fighting have also gone to Posen.

Announcement was made today that governmental authorities had not set a day for leaving the Polish capital, and this seems to have had a quieting effect upon the population. Business is going on as usual, with all the stores and coffee shops very active. Women are about the streets, their summer dresses and bright parasols contrasting with the black war material being hauled through the city.

CLEVELAND PLAYER DIES AS RESULT OF FRACTURED SKULL

New York, Aug. 17.—Raymond Chapman, shortstop of the Cleveland American league, dies today from a fractured skull sustained when hit by a ball thrown by Pitcher Carl Mays in yesterday's game with New York. He was operated on in an effort to save his life.

780 RUSSIAN WAIFS ON THEIR WAY BACK TO NATIVE COUNTRY

Children Forced to Leave Russian Account of War to Soon be in New York

RED CROSS CARING FOR CHILDREN UNTIL THEY RETURN HOME

Children to go Back Home Without Knowledge of Parents of Birth

Washington, Aug. 17. — Voyaging around the world to reach their homes, 780 Russian waifs, all that have been accounted for of probably 6,000 children sent out of Petrograd by their parents when revolution gripped the old Russian capital, are on their way from San Francisco to New York by way of the Panama Canal. They came from Vladivostok under the care of the American Red Cross of which they have been wards for two years. They are going back to Petrograd after suffering and wanderings that for some of them have blotted out every recollection of their parents, the places of their birth or even of their own names.

Speaking of the experiences of the children, who range in age from 3 to 17 years, a statement by the Red Cross said:

"The long sea journey writes the last chapter in a history of wandering and adventure in a revolution torn country that can hardly be matched in the whole record of world upheaval in the last six years," the announcement says. "It seems almost a tale out of the Old Testament of Greek Mythology and a thousand years from now, it is pertinent too much to say, the Russians with their dramatic instinct and mysticism will have made it a part of their (Continued on page 12)

HEAVY RAIN STORM DOES BIG DAMAGE IN TOLEDO SECTION

Rain in Sheets Sweeps City; Pavements and Automobiles Float Away.

Toledo, O., Aug. 16.—Damage estimated at \$1,000,000 was done here today by a severe rain storm which floated away great stretches of city paving, flooded cellars and paralyzed traffic. It was one of the most severe storms that ever struck the city district.

Rain swept in sheets through the streets during the hours when crowds were trying to make their way to work. Automobiles parked at curbs either were floated away or stood with their floors flooded.

Reports of storm damage from neighboring points have not been received, as telephone service was temporarily handicapped and interurban cars ran with difficulty.

City authorities estimated that the damage to wrecked pavements would run close to \$200,000. A number of streets are absolutely out of commission, the block surfacing on one street floating into the lobby of an office building.

Damage was heavy to buildings, one collapsing. From all parts of the city distress calls have been received.

Later reports of the damage showed that the light and power facilities had been crippled and entire western end of Toledo would be without illumination tonight as the result of damage to current lines.

Camp Perry, O., Aug. 16.—Heavy rains this morning left the range in bad condition and showers still threaten the day's shoot. The marine corps cup with 795 entrants, opens on the 600 and 1,000 yard stages today and promises to be one of the big events. Each competitor has two sighting shots with twenty shots for record.

Bolshevik Hordes Still Hammering At Polish Capitol

JAMES A. REED

TOBACCO GROWERS OF THREE STATES TO DISCUSS WORK

To Decide Whether or Not 50,000 Growers Will Cut Out Crop in 1921.

GROWERS SAY LAST CROP WAS PRODUCED WITHOUT ANY PROFIT

Lexington, Ky., Aug. 17.—Delegates representing burley tobacco growers of three states will meet in Lexington, Wednesday, August 18 to decide whether 50,000 burley growers, producing an average of 300,000,000 pounds of tobacco annually will cut out the crop in 1921.

Delegates to this meeting will be selected at county conventions to be held throughout the burley district of Kentucky and in the burley producing sections of Ohio and Indiana.

At a meeting of the leading burley growers held in Lexington, August 4, 500 farmers from 28 Kentucky, Ohio, and Indiana counties went on record as unanimously in favor of cutting out the next year. This action was not taken as final, however, due to the fact that many burley raising counties were not represented in the convention, and the second convention was called in order that all growers of the three states might have a chance to act on the question.

Agitation in favor of cutting out next year's burley crop has been brewing since the close of sales last winter. According to leading growers, at least 40 per cent of the 1919 crop was far below last year's crop in quality. Tobacco manufacturers of the country overstocked on second grade tobacco, grown without profit to the producing farmers, and the present crop, although the tobacco land in much better condition for future crops of burley.

RAILROADS ASK FOR EARLY DISTRIBUTION OF RECENT ADVANCE

Washington, Aug. 17.—Distribution to railroads of nearly two hundred million dollars was recommended to the interstate commerce commission in a final report by the association of railway executives on application of various carriers for loans.

POLES PRESENTING STERN RESISTANCE TO RUSSIAN HORDES

Latest Reports Declare that Warsaw Is Still in the Hands of Defenders

RUSSIANS REPORT TO BE MAKING RAPID PROGRESS ON DANZIG

Red Forces Fifty Miles from Danzig Meeting With Desperate Resistance

Warsaw, Aug. 17.—The Russian soviet hold on the gates at Warsaw have been broken, according to allied officers here. The Polish counter-offensive is in full way at various points and the Russians are falling back in confusion. A Polish communique says the pressure on Warsaw has been relieved and that General Pilsudski directed the counter stroke.

Warsaw, Aug. 17.—Signs at the front Sunday indicated that the French are taking a more prominent part in the guidance of the Polish army. General Weygand said they were responsible for new attacks to repel invaders.

London, Aug. 17.—Warsaw is still held by the Poles, so far as dispatched here disclose. The latest Russian communique does not claim that the city is captured, while Monday's Polish official statement represents the defenders making successful resistance. Meanwhile, the Russians are rapidly progressing through the Polish corridor and are reported within fifty miles of Danzig.

Warsaw, Aug. 16. — Uninterrupted fighting is going on in the valley of the Bug river from its source to its confluence with the Narew river. The great battle which has just begun along the river has been marked by appreciable advantages for the Poles. They have inflicted heavy losses on the enemy and won back important positions. In Galacia the Poles, without pressure from the Bolsheviks, have withdrawn to the line of the Bug.

The forces defending Warsaw are now grouped as follows: The left wing, resting on the forts of Modlin (Novo Georgievsk), holds the line of the lower Narew and Bug; the center, protected behind by the outer forts of Warsaw, occupies positions situated at distances varying from eighteen to thirty miles from the capital; the right wing commands the valley of the upper Bug. Both on the right and the left wing it is the Poles who have taken the initiative in the operations.

The Bolshevik forces, which had crossed the Bug between Hrubieszow and Wlodawa, have been thrown back on the right bank. On the left wing the Poles, starting from Modlin, have made a successful attack in the direction of Miawa. Thanks to this operation, the position the Poles occupy in the fork of the Narew and Bug rivers, which constitute the key defenses of Warsaw, are now better protected from a flank attack threatened by the Bolshevik forces on the northwest.

MISSISSIPPI VOTES ON FIVE MEMBERS IN AMERICAN CONGRESS

Jackson, Aug. 17.—Mississippi Democrats voted for five candidates to congress in a primary today with administration record as the chief issue.

TUESDAY, AUG. 17, 1920.

The Senator Harding front porch campaign will probably be as effective as one on the back porch, as far as attendance goes.

Governor Cox evidently is just beginning to get warmed up to his speaking campaign, for we are now informed that probably the most important issues of the party are to be taken up within the next few days. He is a fluent, forceful speaker, and the reception that has been accorded him in the towns which he has visited up until the present time justifies the belief that he is accomplishing everything the party desires.

The Republican scheme of trying to have Governor Cox arrested in his own state for exceeding the speed limit faced in its insipidity for the simple fact that it was similar to several other things which the party has started without accomplishing anything. This attempt to humiliate the Democratic presidential candidate is about one of the most inexcusable which they could have resorted to and will have a tendency of counteracting sentiment to a greater extent than any other single feature. The day of fair square dealings with the public is here, and not until the party learns this will it ever be able to secure the desired following which it so earnestly seeking at this time.

The championship baseball series opening in this city today between Scotland Neck and Greenville will likely attract hundreds of people from other sections who have been keeping informed regarding the work of each club of the Eastern Carolina league. And naturally the concluding games between the champions are looked forward to in expectancy as they will definitely declare the winner of the pennant. Greenville and Scotland Neck have played an honest, consistent game throughout the season and their reputation is of such an enviable nature that people are desirous of seeing them in final action for the season's honors. Both clubs are about equally matched, and it is safe to say the games will be highly interesting in every way.

TIMELY MORAL AID.

It is now quite certain that the Polish armies are going to make a determined stand against the invasion of Russian troops, for with the guarantee of moral support from America it is confidently expected that the victorious Russians will be setback in a decidedly convincing and successful manner. Poland, to all appearance, is making its last stand, but if along with the guarantee of moral support from the allies should go ammunition, guns and food the situation will be charged in a decidedly effective way. Encouragement many mean unexpected victory on the part of the Poles, and since they have received that from the American government, it is nothing more than natural to expect that the Russian siege will be considerably longer than anticipated.

The Polish situation has been intensified by factional influences. Its stand has been determined although against great odds, and it is perfectly right that the Allies should come out and tell the Russians plainly that they do not approve of their effort to supplant ideals of the Poles with those of demoralizing Bolshevism. The situation has been an appealing one when taking in consideration the great influences which the small nation has been forced to combat, and since its stand has attracted the attention of the world it is no wonder that the larger countries should offer aid and assistance in defeating the dreams of dominion and power of the Red element.

All that can be done and said will not be too much to relieve the Poles of impending disaster, for since they are at this very minute battling with almost overwhelmed odds, it is a matter of right against might that the country should be given the moral aid of those nations appreciating the effort of every country in fighting the supremacy of ideals that would demoralize the world. The Russians are pushing vigorously towards the Polish capitol, but it is a matter of much speculation whether they will gain entrance. The Polish offensive will be one to be reckoned with, for it may be considered the final stand against the great hordes of Russian troops, and either means defeat or success. Moral support counts more than ever now. Therefore, it may be assumed that the Russians will not openly defy the world's desire of peace and progress by continuing their advance.

It is quite natural to expect that the action of the Tennessee senate in ratifying the suffrage amendment is going to have great weight with action of the House, for where an issue is recognized by one body it is more likely that time for consideration will have a pretty good effect with the other. The morale of the suffrage forces at the state capitol has been increased considerably by the senate's action and it is expected that today's battle will be one which the party will be proud to speak of in coming years. Work of the "antis" of course, has been exceeding vigorous, but they probably realize now that they are losing ground almost minutely and that the action of the House is more than likely to be based upon that of the senate. Suffrage at this moment is at the threshold of victory. The dreams of those who have battled so determinedly and effectively for the right of the American woman are at a point of realization, for with the legislature, of North Carolina and Tennessee, too, apparently favorably disposed towards ratification it may be safely said that definite and concerted action is expected. Opposition is still great, but it will not find a way into

the minds of those who believe that it is fair and right to give the woman that for which she has struggled so faithfully to gain.

Senator Harding is planning to deliver one of the most important speeches of the campaign. Considering what he has already said, naturally the country is expecting something brilliant.

Pitt county farmers are the most progressive and prosperous in this section of the country, and only those who have the pleasure of witnessing the opening of the tobacco market from year to year are able to realize the fact in its true greatness.

The Washington Progress sounds the sentiment of every Democrat of the nation when it declares that "We have faith in the Democratic party in nation, state and county." The statement bears out the conviction that the future is going to be a great success, for when faith is in evidence it takes mighty good opposition to bring about any noticeable counteraction.

"ZIRON IS A GOOD MEDICINE"

Says Rock City, Ala. Gentleman, After Having Given It Conscientious Trial.

Ziron is a new scientific combination of pure, inorganic, official, U. S. Pharmacopeia iron, with the hypophosphites of lime and soda and other valuable tonic ingredients, recommended by the best medical authorities in the treatment of anemic conditions.

Ziron helps to put iron into your blood and this helps to build strength for you, when you are pale, weak, nervous, depressed.

Read what Mr. Sidney Fry, of Rock City, Ala., says, and then try Ziron. He makes the following statement:

"Something over a week ago I used Ziron for the first time. I was troubled with indigestion and had a spell of weakness. Ziron helped both troubles. I feel better and my stomach quit hurting. I really feel that Ziron is a good medicine. It surely helped me."

Your druggist will sell you Ziron on a guarantee that if the first bottle does not benefit you, he will refund the money you paid him.

Get a bottle of Ziron today! ZN 13

780 RUSSIAN WAIFS

ON THEIR WAY BACK TO NATIVE COUNTRY

(Continued from page one.)
rich folkore."

When the revolution broke out in Russia, the report continued, many parents in Petrograd decided to send the youngsters into peaceful Siberia "until the trouble was over." They were sent east in charge of nurses and teachers.

Later, a barrier of fire marking the battle lines of the opposing Russian and Czech armies had been stretched between the youngsters and their homes. Months passed. Winter arrived, funds were exhausted and hunger and war horrors menaced the wanderers. The Omsk government, appealed to for help, passed it on to the Red Cross.

Group after group was taken over by the Red Cross, which established colonies in western Siberia and had apparently solved the problem of caring for its charges when the battleline swayed eastward and the Bolsheviks captured town after town. Groups of the children barely escaped capture. Finally it was decided to take them to Vladivostok.
