Fierce Fighting Reported In Lemberg Territory
Governor Cox's Dynamic Methods Put Republicans On Offensive

HEAVY FIGHTING IS STILL IN PROGRESS IN LEMBERG REGION

Russians Succeed in Taking 4 Towns in Brest Litovsk Territory.

POLES REGROUPING FORCES SEPARATED IN RECENT ACTION

Russian Forces Are Preparing Counter Offensive on Several Fronts.

London, Aug. 30.—Russians in a counter offensive east of Brest Litovsk have occupied four villages according to a Moscow wireless. Heavy fighting is reported in the region of Lemberg.

MILITARY OPERATIONS IN POLAND LIMITED TO LOCAL ACTION FOR TIME

Paris, Aug. 30.—Warsaw advices say that military operations in Poland have been limited to local actions for the moment, and that the Poles are regrouping their forces separated during the rapid advances recently.

SAYS REDS ARE PREPARING FOR ANOTHER OFFENSIVE

Paris, Aug. 29.—The Bolsheviks will not remain idle although defeated, the Warsaw correspondent of L'Information quotes General Bozwardowski, President Pilsudski's chief of staff, as saying Saturday.

"Of the 70 divisions they gathered against Poland there remain barely 30," General Bozwardowski continued, "but they are organizing new armies at this moment. They are spreading fire and blood in eastern Galicia and arming bands of peasants. Our information justifies us in affirming that the Bolsheviks are preparing a great offensive in Eastern Galicia with 15 new divisions and that the military operations will soon begin."

SERIOUS RIOTING IS IN PROGRESS IN MANY SECTION OF BELFAST

Belfast, Aug. 30.—Rioting and destruction of property was renewed today with serious disorders occurring in the Unionists' quarter. Further grave developments are apprehended. Shops were wrecked in the neighborhood Ewart's row and troops opened fire from armed cars, critically wounding a woman and a man. Great excitement prevailed in other sections and crowds gathered early.

Today's rioting is said by the police to be the worst that Belfast has seen. Four deaths are known to have occurred up until one o'clock this afternoon and numerous persons were treated in the hospitals for bullet wounds. A hundred and thirty five fires have occurred since the disorders began. A girl in a green blouse led the Sinn Fein attacks on York street and numerous baton charges were made by the police.

NEGRO LYNCHED BY MANY MASKED MEN AT OKLAHOMA CITY

Okahoma City, Aug. 30.—The body of Claude Chandler, a negro who was removed from jail here last night by masked men, was found hanging from a tree eight miles from here today. The negro was captured in a raid on a moonshine still during which three officers were killed.

REPORT DECLARES COX QUALIFIED FOR LEADER OF PEOPLE

Labor's Campaign Committee Makes Favorable Report on Qualifications of Cox

SAYS HE POSSESSES GREAT UNDERSTANDING OF WORKING PEOPLE

Senator Harding's Record Criticised by Report in No Uncertain Terms.

New York, Aug. 30.—France's "victory of peace" in her reconstruction "nulls the lie that her people are not working," Herbert S. Houston, New York publisher, declares after a period of research at Paris whence he recently returned.

Offering statistics showing remarkable rehabilitation in former devastated regions, where German divisions wrought havoc in industrial, farming and mining sections, Mr. Houston characterizes the recovery of the French people as another "miracle of the modern world." In an article in the current issue of World's Work he says: With government support, including loans totalling 9,000,082,916 francs for agricultural and industrial reconstruction in "devastated departments," the French people have re-opened 5,345 out of 6,445 schools existing before the war; built or rebuilt 28,200 temporary wooden and 16,800 permanent stone

CITY TOBACCO MEN IN ANNUAL MEETING HERE THIS MORNING

Several Matters Relative to Sea-son Industry Taken Up for Consideration.

RESOLUTIONS PASSED FAVORING ABOLITION OF SCRAP PURCHASES

Several matters relative to the tobacco industry in this section of the state were taken up at the annual meeting of the Tobacco Board of Trade conducted in this city today, including the election of officers, adoption of resolutions for the opening of the market September 7th, and the laying of final plans to be effective on the Greenville market throughout the remainder of the year. The meeting was largely attended by local tobaccoists and featured in lively discussion of conditions in ascendancy in the immediate territory, and particularly, the effect with the opening of the market will have generally.

In the election of officers for the ensuing year, W. J. Skinner was appointed to the presidency, succeeding J. F. Brinkley who has presided over the activities of the market for a number of seasons in an unusually energetic and resourceful manner. T. A. Person was elected to the office of vice-president while H. A. Bost was elected secretary. The election of officers consumed only a slight portion of the session, for attention was centered principally upon discussion of resolutions recently passed at meeting of Eastern Carolina warehousemen in Wilson eliminating the sale of scrap tobacco on any market in this section of

A shipment of Russian waifs were landed in San Francisco the other day to make their homes in the United States. The illustration shows the children of San Francisco gathered in the civic center to welcome, and types of the newcomers, carrying their belongings in sacks.

ARTIC EXPLORER PLANS TO DRIFT UP NEARER THE POLE

Captain Ronald Amundson Will Follow Trail Blazed by Norwegian.

San Francisco, Aug. 29.—Trails blazed across the Arctic ice pack a quarter of a century ago by Fritjof Nansen, Norwegian explorer, were expected to be followed, for a distance, by Nansen's fellow countryman, Captain Ronald Amundson, discoverer of the South Pole, when he left Nome, Alaska, recently on an attempt to drift across or near the North Pole.

Nansen, in 1895, attempting the same drift, sailed around Russia and Siberia and locked his boat, the Fram, in the ice off the New Siberian Islands, which lie in the Arctic north of Siberia. Amundson, on leaving Nome, said he planned to sail to the same New Siberian Islands, let his boat, the Maude, freeze in the ice and then allow the winds and currents to carry him where they wished.

Explorers' theories that an Arctic Ocean current starts near the New Siberian Islands, runs through the

SPECIAL FAIR EDITION TO BE ISSUED BY DAILY REFLECTOR

A special edition setting forth the advantages to be derived by Pitt county people from the Fair to take place in this city September 21, 22, 23 and 24th, will be issued by The Reflector a few days prior to the opening of the attraction, and as the Fair is the first that has been held in this county in a number of years, every effort will be forwarded to make the edition appropriate for the community which the paper has served so faithfully for the past several years.

Advertising patrons throughout the entire county are invited to use the columns of the paper freely in presenting their welcome to the thousands of people to be in attendance during the four days in which the Fair is to be in progress, for the circulation will embrace virtually every section of the country and open up a direct way for commercial intercourse between the business house and county citizenship after the attraction is over.

Promoters of the Fair are exerting every effort to make the occasion one of the greatest ever held in this section of the state. Virtually all buildings at the Fair grounds have been completed, and these alone justify the belief that the attraction will measure up to public expectation in every way.

STUDENTS PLAN TO BEGIN SAVING CLUB AGAIN THIS SEASON

Greenville School Boys and Girls to Re-organize Clubs Immediately.

Greenville school boys and girls will re-organize their savings clubs immediately after the opening of school here, according to definite announcement made today by the educational division of the district War Loan Organization. Plans have been made to continue the work through the coming school year. More than eleven thousand savings clubs have been formed in the schoolrooms of the fifth federal reserve district since the beginning of the work in 1918.

By means of these clubs the children have learned habits of thrift which it is proposed to make even more lasting by a continuation of the work this year. Members of savings societies pledge themselves to earn and save money regularly, no matter how small the amounts, and to invest at least part of their savings in Thrift and War Savings Stamps.

FRANCE IS RAPIDLY RECOVERING FROM WORLD WIDE WAR

"Victory of Peace" in Reconstruction Nails Lie that People Not Working

REMARKABLE CHANGES HAVE TAKEN PLACE IN DEVASTATED REGIONS

Herbert Houston, New York, Publisher, Tells of Progress of Nation.

Washington, Aug. 30.—Organized labor's non-partisan political campaign committee, comparing the public records of the Republican and democratic presidential nominees, declared in a report made public today that Governor Cox had "shown himself possessed of a fuller understanding of the needs of the working people."

The report, signed by Samuel Gompers, president; Matthew Woll, vice-president; and Frank Morrison, secretary of the American Federation of Labor, is the first ever made on presidential candidates by a federation committee.

Taking up the senatorial record of Senator Harding, the committee declared that on 18 measures dealing with labor his score stood: Favorable 7; unfavorable 10; paired unfavorably 1. The republican nominee's vote on labor issues during his term in the state Senate of Ohio, as reported by

VOGEL'S MINSTREL TO APPEAR IN CITY MONDAY, SEPT. 6TH

Popular Attraction to Appear for One Night's Engagement White's Theatre

"There's a big difference in the theatergoers of today and fifteen or twenty years ago," remarked the advance agent of John W. Vogel's Black and White Revue, which is coming to White's theatre next Monday, September 6th, "Back in 1903 or '04 it was unusual to see more than a very few adies at a minstrel show. They seemed to have the idea that minstrelsy was intended more for the entertainment of the 'men folks,' and so it was that the chivalrous escort of that period never thought of asking his fiancée, sister or mother to share the joys of such a performance. Funny—but it's a fact, nevertheless."

"But today all that has changed. If a man doesn't ask the feminine contingent to accompany him to the minstrel show he's 'out of luck' to use a common expression. The mothers, wives and sweethearts want to see the minstrel show just the same as father, husband and brother. And it's all because they have learned that minstrel managers have awakened to the fact that they must build their productions to the liking of the ladies."

Modern minstrelsy in scenery, dress and song caters especially to the adies. This is especially true of John W. Vogel's Black and White Revue. The gorgeous settings are a delight to the feminine eye. The costuming is elaborate, and the program offered is of supreme excellence, abounding in the keenest satire and wit and interspersed with clean, brilliant and entertaining vaudeville innovations.

FIGHTING SPIRIT OF COX MOVES G. O. P. TO DECIDED ACTION

Constant Assault of Democratic Nominee Puts Republican on Defensive.

DYNAMIC METHODS OF UNUSUAL INTEREST TO AMERICAN CITIZENS

Faculty of Yale University Attracted by Power of Ohio Candidate.

Washington, Aug. 29.—Governor Cox is proving himself a veritable revelation to the American people and a terror to the Republican party, is the verdict of some of the persons who witnessed the candidate's reception in New York yesterday. He has put the enemy on the run with his fierce assaults. Chairman Will Hays slipped out of town two days before he was scheduled to go and is now closeted with the lords of the Republican party on the Marion back porch.

At New Haven, Cox won over the Republican faculty of Yale almost in a body. Prof. Irving Fisher, who had just returned from an interview with Senator Harding on the League of Nations, said that he was an independent Republican, that he had never voted for a man for President who was not elected, and that he intended to vote for Cox. He said Cox would be elected because the great independent element that always elects was for Cox. Cox is winning the educators and the teachers and churchmen everywhere on the League of Nations issue. Practically every Episcopal clergyman in the State of New York is working for the Democratic candidate.

But the candidate is not only winning the high brow idealists but the man in the streets. He is corralling the great multitude. In meeting and handling a crowd Cox has shown himself a real magician. At his reception at the New York Democratic club yesterday he used both hands and shook the hands of 2,500 people within less than an hour, an achievement that no one ever got through with such speed before. At the end of his task the Governor was as fresh as at the beginning. In his double handshaking he employed what is known as the "Australian crawl" with his right hand. This crawl is a sure prevention of lameness. He shook hands with people almost as fast as they could walk by him and not one in that line will ever forget the grapple in the Governor's hand and the greeting on his lips, it is disclosed.

COX PREPARING FOR RAPID SWING AROUND THE UNITED STATES

Enroute with Cox, Aug. 30.—Governor Cox traveled homeward today to prepare for a swing around the circle, beginning September 3rd, which will take him to the Pacific coast and through the northern and southern states. He plans a reply soon to Harding's League of Nations.

SATURDAY, AUG. 28, 1920.

SENATOR LODGE AGAIN.

Senator Lodge again finds time for condemnation of the League of Nations, in fact, after laying quiet for several months he has appeared again in probably a greater attempt than ever to sway public sentiment over on his side. The public, however, will be rather difficult to handle for opinion has changed considerably since first efforts against the league and people who were then uninformed regarding the true principles involved are fully enlightened and far more capable of forming their own conclusions.

Mr. Lodge has been one of the most relentless persecutors the League has had since its formation, but he has accomplished very little indeed in comparison to the support which Democratic figures have gained for it during his momentary silence. The people didn't really comprehend what the world league meant in its insipidity, but since President Wilson has explained it in his convincing assuring way there are very few who do not believe that it is the best thing that the world could have, particularly in this great era of social and labor unrest. The alliance is one that instantly attracts attention of those realizing that the future demands such mutual understanding between the powerful nations of the earth, and facts which have been submitted to the contrary have been without effect, for they were not based upon sound judgment in any way.

Mr. Lodge and his followers have undertaken to handle a question in which several nations are involved. They have concluded that their opinion is the safest from every point of view, and consequently look to the world for support. This they cannot expect, and will not get. The American people have realized the futility of listening to those without any great principles for the future, and will follow the trail blazed by the more progressive members of the Democratic party.

The opening of the Greenville tobacco market promises to be one of the greatest in the market's history, for with increased floor space, triple sales, better factory facilities, it is only natural that the sales should be of direct benefit to everybody. Prices are expected to be about as good as could be expected, although it is conceded that there will be little demand for inferior grades of bright leaf. The buyers are anxious for every available pound of bright tobacco, therefore, it is reasonable to expect good prices for this quality. Scraps will be eliminated entirely and this will give the warehousemen more time to confine their effort to the sale and distribution of the major part of the crops produced in this section of the state. Pitt county, fortunately, produces better grades, and for that reason the opening is looked forward to with confidence by the planter who has confined his attention entirely to the cultivation of a crop continually in demand.

The peasants of western Siberia do not like the idea of Soviet supremacy in that territory at all, for the way forces were repulsed several days ago causes one to believe that the future holds nothing bright for the Reds who have accomplished so little against the Poles. The battle has been a great one. The Poles at times have been mighty near defeat, but by hard work have pulled themselves up to a position that may very soon mean absolute freedom from the presence of Soviet troops. They have fought against apparently overwhelming odds at all times, but are in such a position now that the future appears decidedly brighter than several days ago when the Bolsheviks were victoriously advancing toward Warsaw. The victory will be one well deserved and more directly discourage the dangerous Red principles than anything that has occurred since the ending the war.

Officials of the Pitt county fair are beginning to wage an active campaign for the attraction to be staged in this city September 21, 22, 23 and 24, and it is natural to expect that the event will be one of interest to every person residing in this section of the state. The fair promises to be among the best of its kind in Eastern Carolina. Similar attractions used by other fairs will be in evidence upon a larger scale, for every effort is being made to make the occasion a fitting representative of the greatest tobacco producing region in the country. Many exhibits are being planned and it is certain that the farmer will find as many interesting things as those residing in surrounding towns.

Criminal term of Superior court this week.

Just a week from tomorrow to the opening of the tobacco market.

Boiling Is the Only Sure Way

New Method of Washing is Quicker, Better and More Economical

Old-style scrub boards and warm water have been responsible for the spreading of many contagious diseases. There is no need for any woman to take this risk. The best way to kill germs is with heat. Boil your clothes and every germ is killed.

And besides, this wonderful new method is far better and more economical than any other way.

Just think! Soak your wash over night. Shave 1/2 bar of Clean Easy Naphtholene Wash Soap into a 4-gallon tub of water. Let it dissolve, and bring to boil. Put the clothes in and stir for 10 minutes only. Every garment is clean and pure.

There's no comparison between this and the old, dangerous, back-breaking wash tubs. Your wash will be finished before your neighbor has scrubbed the skin off three fingers!

Buy a bar of Clean Easy from your grocer. One-half bar will do an average week's washing of heavy clothes. And it goes after dirt, grime and germs in a way that you couldn't possibly do with a scrubbing board.

TAR RIVER BRIDGE OPENS FOR TRAFFIC MONDAY MORNING

Highway Commission Presents Rules Regulation Traffic Across the Bridge

The Greenville Bridge will be open for traffic 7 A. M. Monday, August 30th.

For the proper care of the hard surface roads in Pitt county and the bridge across Tar river at Greenville, the Pitt County Highway Commission, in regular session on this the 26th day of August 1920, under the authority given them by an act of the legislature session 1919, known as an act to create a Highway Commission for the county of Pitt, being H. B. 1264 and S. B. 884, do enact:

1. That it shall be unlawful for any vehicle drawn by any horse, mule or other animal to go or be drawn faster than a walk on the Greenville bridge across Tar river;
2. That it shall be unlawful for any automobile or other motor driven vehicle to be driven on the Greenville bridge across Tar river at a greater speed than ten miles per hour;
3. That it shall be unlawful to run any tractor with cleats, disc harrow or peg tooth harrow, or any other machinery with cleats or other sharp pointed bearings on the wheel surface on any hard surfaced road in Pitt county or any bridge in Pitt county on which a hard surface, either asphalt, concrete or other hard surface has been laid;
4. That it shall be unlawful for any person or persons to drive on or use in anyway any hard surface or other roads under construction until public notice has been given by the Pitt county highway commission, over the signature of the chairman of said commission, that said road is open for public use;

5. That an obstruction shall be placed across roads in course of construction with a sign, giving notice that said road is closed to public use and any interference with this barrier or sign, shall be punishable as set out in the bill creating the Pitt County Highway Commission;

6. That any person violating any of the above rules and regulations shall be guilty of a misdemeanor and punished as provided for by law.

FIGHTING BROTHER-LOVE DEFIES FINANCIAL RUIN TO SAVE NAME OF DEAD

Anita Stewart in "Her Kingdom of Dreams," Joins Hands With Fighting Fred Warren.

Brotherly love, as the powerful force that sends a father to an early grave and controls the destinies of a prominent New York family, is one of the appealing elements in "Her Kingdom of Dreams," starring Anita Stewart and which will be seen at White's Theatre tonight.

Probably the greatest cast ever assembled for a motion picture was placed under the direction of Marshall Neilan for the production of this picture. Among the stars included are: Anna Q. Nilsson, Kathlyn Williams, Tully Marshall, Thomas Santsch, Spottiswood Aitken, Mahlon Hamilton, Wesley Barry, Ralph Graves, Thomas Jefferson, Jams Neill and Edwin Stevens.

As Judith Rutledge, Miss Stewart plays the role of a country girl who has idealized the life and surroundings of the large cities. As a stenographer she is involved in the family affairs of her employer, the wealthy Mr. Warren, whose death results from a violent argument with his son Fred. On his deathbed the elder Warren makes a final request that his son marry Judith.

Their marriage is followed by a series of business and domestic misunderstandings which cram the picture with unusually interesting situations.

TO URGE SPEEDING UP

ALASKAN RESOURCES

Minneapolis, Minn., Aug. 28—John Barton Payne, secretary of the Interior passed through here with Secretary Daniels upon their return from Alaska. will urge speeding up development of Alaska's resources.

"Some of my predecessors", Secretary Payne said, seemed to think that a mine or a tree were things to be locked and preserved. But Alaska is not to be developed by locking it up. A strict conservation policy cannot be applied to a new country scantily settled which must increase its population by using its resources. I believe that for a time the wealth of the territory should be used without stint for the benefit of humanity".

Mr. Payne declared legislation is needed to provide easier access to Alaska. Transportation, both for freight and passengers, must be cheaper and provision made to handle traffic during the rushing summer season.

SHOTGUN BRIGADES ARE

BEING FORMED IN IOWA

Dubuque, Ia., Aug. 28. — Shotgun brigades of citizens and officers of the peace are being organized in this part of the state in an effort to stop and apprehend thieves, particularly bank robbers. State authorities have taken the initiative in organizing the posses, according to Sheriff Frank Kennedy. It is planned that when a robbery is reported notice be sent throughout the county in which it occurred and counties nearby, and the "shotgun" men called together to patrol all highways.

The Iowa Bankers' Association has sent out notices that it is believed that at least three gangs of bank robbers have worked in the state recently, and with the aid of speedy automobiles soon are long distances from the scenes of the robberies.

If Your Son Frowns When You Mention "SCHOOL SUITS"

don't get the idea that he is going to grow up an ignoramus.

Perhaps he connects the term with a poor looking suit of last term and views your plans much the same as a fatted calf regards it's last meal.

You can change all this in one half hour's time this afternoon by bringing him here and letting him use his own judgment.

THE RIVER BRIDGE

WAS USED SUNDAY

While notice was given by the County Highway Commission that the bridge across Tar river at Greenville, which has been closed for some time during the construction of a concrete flooring, would not be opened for traffic until this morning, some one Sunday morning removed the chains across each end of the bridge and it was freely used all that day.

The bridge has been doubly reinforced with steel posts to support the immense weight of the concrete floor, and is so constructed that it should last indefinitely. The people who pass in and out of town across the bridge thoroughly appreciate that it has been completed before the opening of the tobacco market.

the state.
The board heartily approved the action and passed resolutions declaring that all warehouses of the city will absolutely refuse to accept scraps during the sales this season, believing the farmer would be more directly benefited and that prices would be considerably better for common grades of the bright leaf. By cutting out the scrap, leading tobaccoists are of the opinion that there will be at least 20,000,000 pounds less shown in the 1920 crop than if the scrap was sold. There is no market at all for the old scrap now being held and if the scrap from this crop should be offered it is not believed it would average one cent a pound. It will cost fully this amount to haul and pay warehouse charges, and the farmer selling his scrap receives the price of hauling robbing his land and at the same time giving manufacturer and dealer a stick to knock the price of the balance of his crop.
Considerable time was consumed in discussion of the resolution, but it is generally conceded that the action will mean much to the industry in this section of the state and be a direct means of increasing the earnings of the farmer. The warehousemen will be able to handle the production much easier, and as a result the entire section will be much better off in the long run.

CAROLINA FERTILIZER AND PHOSPHATE COMPANY TO ELECT PLANT IN THIS CITY

The Carolina Fertilizer and Phosphate Company, of North Carolina, are to erect a plant here. The lumber has already been secured also the sit, and building will begin at once. The contract has been given to Mr. W. P. Rose, of Goldsboro, and it is expected that the plant will be in operation by the first of next February. The company is planning to furnish the farmers of this section with the very best quality of fertilizer for next season's crops. This factory will be a great addition

REPORT DECLARES COX QUALIFIED FOR LEADER OF PEOPLE

(Continued from page one.)
the committee, stood: favorable 6; unfavorable 0. In this connection the report said:
"Senator Harding's record in Washington affords a better opportunity for analysis of his legislative views than does his record in the Ohio senate by reason of the fact that his term of service extended for a longer period of time, during which he was called upon to consider a wider variety of measures."
Rewriting Governor Cox's record the report said that while governor of Ohio he had "acted upon 59 measures of interest to labor without acting on a single one adversely to labor." As a member of the 62nd congress, the governor was recorded as voting "favorable" to labor on two measures, the only ones listed.

ACTIC EXPLORER PLANS TO DRIFT UP NEARER THE POLE

(Continued from page one.)
Polar sea, across or near the Pole, and finally ends at Greenland, in the Atlantic, were used by both Nansen and Amundsen as a base upon which they made their plans.
Existence of the current has been disputed by many Arctic authorities, who claimed the wind and not the current determined the route of the ever-drifting Polar ice. Nansen, one of the first advocates of the theory, pointed to the fact that wreckage from the exploring craft, the Jeannette, destroyed near the New Siberian Islands, was found two years after the wreck along the Greenland coast. A "throwing stick" used by Alaskan Eskimos was found, it has been claimed, in driftwood on a Greenland beach. The wreckage and the stick, it was argued, lodged on an ice floe which carried them across the Polar wastes of Greenland.

MAYOR OF CORK NOT EXPECTED TO SURVIVE LONG HUNGER STRIKE

London, Aug. 30.—The hunger strike of Mayor MacSweeney, of Cork, has progressed so far that food would not

save him, a Broxton prison doctor says. A change for the worst is expected within 24 hours. The mayor's wife is said to still be conscious but unable to speak.
