SENATOR OVERMAN ADVISED MONEY IS READY FOR CROPS

Federal Reserve Board Furnishes Illuminative Figures of Conditions

RAISING REDISCOUNT RATES TO SHUT OUT MANY SPECULATORS

Banks Are Prepared to Foster Legitimate Business and Care for Accounts.

Salisbury, Sept. 12.—Senator Lee Slater Overman today made public the text of the letter he received yesterday, and to which he referred in his speech at Concord, from Governor W. P. G. Harding, of the Federal Reserve Board, pointing out graphically the money situation in the country today and its relation to the movement of crops in the South and elsewhere.

Governor Harding goes into minute detail to show that instead of there having been, at any time during the past twelve months, any deflation of credit or currency there has been a steady and continuous expansion. "The Board's purpose is to promote good business, not to hamper it," Governor Harding says in answer to critics of the system, "and its policies are shaped with a view of making good business conditions next year and the next and so on indefinitely."

Re-discount rates, about which the big howl has been, were advanced not only to shut down speculation in the country and thereby promote good business but also because of the advance in international exchange. Interest rates at the Bank of England, the Bank of France and all central banks of Europe Senator Overman is informed, are higher than current market rates.

The announcement from the Federal Reserve Board, through Governor Harding's letter, that the Federal Reserve banks are now in position to render the banks all reasonable assistance necessary to enable them to move crops is taken to mean that member banks will be able to discount the paper of cotton farmers and tobacco growers through the assistance of the Federal reserve banks in other sections of the country besides the South.

It will, when the usual banking processes have been gone through, amount to relief in the same way as when Secretary McAdoo permitted money to flow into the South two years ago for the movement of cotton. Not only has the Federal Reserve system fortified itself against any immediate storm, but has prepared to weather the storms that may break in the years to come.

It is the opinion of the governor of the Federal Reserve Board that the expansion of currency may continue for several months. Higher discount rates have not served to check it entirely. But, in explanation of the course of the reserve board, Governor Harding says: "The Federal Reserve Banks are the guardians of the banking resources of the country; they must be managed prudently if the solvency of the banks is to be maintained. The interests of the depositor as well as those of the borrower must be considered. If the members of the Federal Reserve Board are intelligent and conscientious, they must keep in mind their responsibilities to the country, they must think of the future as well as of the present."

HEAVY VOTE LOOKED FOR IN ELECTION TO BE HELD IN MAINE

Portland, Me., Sept. 13.—Men and women with clearing weather are expected to cast a heavy vote in today's election, after being told the eyes of the nation were upon them to give indications of the country's political sentiment. The Republicans claim 30,000 majority. The Democrats gave out no figures.

Joseph Devlin, nationalist member of the house of commons from Belfast, who was suspended and ordered from the house after a stormy session during the discussion of the government's bill for restoration of order in Ireland.

CAMPAIGN TO MAKE SCOTLAND DRY HAS BEGUN IN EARNEST

Temperance Enthusiasts Believe County Will be Dry Within Year.

Edinburgh, Sept. 13.—The campaign to make Scotland dry has been started in earnest by the National Citizens' Council. Under the provisions of the Temperance (Scotland) Act which enables the electors to decide by a vote whether the country shall go dry, requisition forms demanding a poll on the no-license question have been issued. In order to secure a poll ten percent of the electors in each area must sign the requisition forms. Should this be forthcoming the next stage will be the taking of the vote which will decide whether the people shall have no licenses, or fewer licenses in their own areas, or there shall be no change.

Temperance enthusiasts believe that although Scotland may not go dry this year the no-license resolution will be carried in many municipal wards. They have obtained the services of W. E. (Pussyfoot) Johnson who will address a number of meetings next month. On the other hand, the liquor tradesmen are also arranging for a series of meetings at which prominent speakers will describe the effects of prohibition in America. The dealers charge that the act aims "a deadly blow at the hard won liberty of the people."

EARLY CONVOCATION ITALIAN PARLIAMENT CALLED IMMEDIATELY

Milan, Sept. 13.—An immediate convocation of the Italian parliament for passage of laws under which workmen may take over the management of industrial plants has been demanded by the federation of labor in session here.

McSWEENEY STARTS OUT ON 32ND DAY FASTING FOR CAUSE OF PEOPLE

London, Sept. 13.—Mayor McSweeney began his 32nd day of fasting in a state of collapse, after a restless night, according to a bulletin issued by the union league.

MAKES INDICTMENT AGAINST BRITAIN'S NEGRO TREATMENT

Sir H. H. Johnson Says Government Should Look After Blacks of Colony

CHARGES WHITE RACE WITH GREAT CRUELTY TO COLORED NATIVES

Declares Provisions for Soldier During the War Were Not Adequate.

London, Sept. 13.—An indictment of British treatment of negroes in British East Africa is made by Sir H. H. Johnson, writing in The Observer. "Many of the assertions made before the Negro conference in New York," he says, "were wild and windy, but it behooves our Colonial office to see plain justice done to the 4,000,000 of black and brown people in this 'Colony' and 'Protectorate.' Numerous instances of buying, flogging and torture are cited by the writer.

"The natives," he says, "are slowing coalescing, Bantua with Nilot, Mohammedan with Christian and Pagan, Somali and Galla with hitherto despised negro in their common hatred of the invading white man, owing to the exceptional cruelties which have stained the white man's record during this period of 15 years. These are not cruelties of soldiers or policemen, of government servants of any kind, but of individual settlers, British or Boer in origin.

"Not only have murders, light-hearted murders, of natives taken place all too frequently, not only have revolting cruelties been committed, but, when the white delinquents are brought up for trial white juries acquit them or white judges inflict trivial penalties, or rebellious public opinion forces a governor to revise a sentence. I doubt if capital punishment for murder has

FARMERS URGED TO ATTEND MEETING IN WILSON TOMORROW

Chamber of Commerce Call Meeting to Consider Present Tobacco Prices

Wilson, Sept. 13.—The Wilson chamber of commerce is sending a personal letter to the owners and proprietors of every tobacco warehouse in North Carolina as well as to prominent tobaccoists urging them to attend a meeting to be held in Wilson, N. C. tomorrow, September 14th, at 3 o'clock.

The chamber of commerce realizes that the present price being paid for tobacco is below the cost of production and that something must be done and for that reason they are requesting the various interests in the state to meet with them and work the matter out on a businesslike basis, some plans must be formulated to reduce the acreage next year and the Wilson chamber of commerce has a plan to offer, but it needs the co-operation of the entire tobacco forces of North Carolina. This is not a local proposition, but affects the entire state and a large attendance is expected.

ANNUAL ENCAMPMENT OF FOREIGN VETERANS HELD IN WASHINGTON

Washington, Sept. 13.—The twenty-first annual encampment of veterans of foreign wars began here today. A parade will be held tomorrow.

JAPAN WOULD KEEP ABREAST OF NATION IN BUILDING SHIPS

Diet Considers Advisability of Spending Sums to Keep Pace With America

REPORT OF SPEECHES PRESENTED IN BRIEF MANNER BY REPORTER

Outlines Spirit Prevailing and Attitude Towards United States.

Tokio, Sept. 13.—There was a debate in the Japanese Diet recently between Premier Hara and a representative over the question whether it was necessary for Japan immediately to expend a large sum in an attempt to keep abreast of the United States in the building of warships. The discussion was briefly reported by cable at that time but the official report of the speech delivered by Ichizo Hattori, who criticized the action of the Japanese government, in asking for a naval appropriation and the reply of Premier Hara permits of a more comprehensive presentation of the argument.

Mr. Hattori interpellated the government asking why it introduced "the colossal estimates for armaments into an extraordinary session of the Diet which was called to discuss only such matters as permitted of no delay."

The representative quoted Admiral Kato, Minister of the Navy, as having explained the "colossal estimates" by pointing to the naval expansion scheme which was being pushed forward by a certain country. "By a certain country" presumably the Navy Minister meant the United States," said Mr. Hattori. "It must be remembered, however, that America is trying to expand her Pacific squadron simply because she misunderstands Japan.

"The Americans are laboring under the misconception that the Japanese

(Continued on page six.)

LYNCH NEGRO HELD ON MURDER CHARGE IN MISSISSIPPI JAIL

Taken From Prison and Shot to Death by Small Party of Citizens.

Meridian, Miss., Sept. 12.—Will Echols, a negro, who was convicted at recent term of the circuit court here and sentenced to die on the gallows September 10, for the murder of Henry W. Davis, an aged night watchman at a local lumber plant, but whose execution was stayed at the last moment by appeal to the supreme court, was taken from the jail at Quitman at 3 o'clock this morning by a small party of men, carried two miles from Quitman and shot to death in the public road, his body being riddled with bullets.

Following the hanging of Henry Lloyd Friday for the murder of James A. Tyrell, a merchant, who was killed on the same night Davis met death, and the stay of execution of Lloyd's companion, Echols, because of the confession of Lloyd that he alone had killed Davis, a mob gathered at the county jail here where Echols was being held and threats of lynching made but no overt act committed.

Late in the night after the mob had dispersed, Echols was spirited away to the Quitman jail for safe-keeping. However, his whereabouts leaked out and early today Sheriff Martin was notified by Sheriff Evans, of Clarke county, that at 3 o'clock this morning he was called to the jail at Quitman from his home. On arriving at the jail he was overpowered by a number of men, who took the jail keys from his pockets, unlocked the jail, seized Echols placed him in a waiting automobile and dashed away. His body was found later riddled with bullets.

Miss Anna Wright, a New York woman said to be worth \$60,000,000, it is reported has been kept a prisoner in an upper apartment of the Villa Bragiotti in Florence, Italy, on the ground that she is afflicted with precocious madness. To passers-by the girl has cried that she is being held captive by her mother, the former Mrs. Lella Wright, and her stepfather, Count Emilio del Sella.

INDIA INDIFFERENT TOWARD FUTURE OF PRINCE OF WALES

Director of Bureau of Information Declares County is Really Hostile.

New York, Sept. 13.—India's attitude toward the Prince of Wales is one of cold indifference if not actual hostility," according to Dr. N. S. Hardiker, Director of the India Information Bureau, who made public here today certain phases of the Nationalist movement which, he said, had caused King George to cancel by royal decree on August 17 the proposed visit of his heir apparent to India next winter.

It had been announced that the prince would go to for the purpose of inaugurating reform legislation in connection with elaborate Durbar ceremonies at Delhi. The Duke of Comaugh, formerly Governor General of Canada, the decree stated, will perform the royal function in the presence of the masses.

"Developments in the next few months in India," said Dr. Hardiker, "promise to be more fundamentally significant than any that have occurred since the Indian war of Independence or 'Sepoy Rebellion' of 1857. The year 1920 has been filled with excitement and change. From last March until May, a period of about 60 days, 125 strikes occurred, 85 of them in the Bombay district alone. These labor outbreaks typify a new phase in the discontent of the masses.

"The second great movement of the recent year has been the attitude of the people toward the Turkish peace treaty settlement. India has besides its Hindu population of 230,000,000, a Mohammedan population of 10,000,000. Prior to 1910 the British government weakened the Nationalist movement by encouraging the separation of the Hindu and Mohammedan. Today, for the first time in its long history, the Hindu and Mohammedan are united and pledged to work in concert until the last obstacle to Indian freedom has been removed.

COMPTROLLER CALLS FOR STATEMENT OF CONDITION OF BANK

Washington, Sept. 13.—The Comptroller of currency has called for a statement of condition of all national banks at the close of business, Wednesday, September 8th.

TRAIN SWITCHMAN RESISTING ARREST KILLED BY OFFICER

Charlie Uessery, Colored, Shot by Policeman Creech on N. S. Train

NEGRO GRABBED BILLY FROM COP AND BEGAN ATTACK WHEN KILLED

Coroner's Jury Declares that Officer Shot in Defending His Life.

Charlie Uessery, colored switchman for the Norfolk & Southern railroad in this city was shot and killed by Policeman J. H. Creech, of the Greenville police department yesterday afternoon on the platform of the colored coach of the westbound Norfolk Southern passenger train shortly after the train had pulled out from the local station. The policeman fired twice in self defense after the negro had taken away his billie, one bullet of the 32 Smith and Wesson revolver passing directly through the body below the heart the other going in the right side and penetrating the negro's back.

In an investigation of incidents connected with the shooting late yesterday evening a county coroner's jury returned a verdict declaring that the policeman shot in self defense and at a time when it was either kill or be killed. Testimony produced by the few witnesses who were on the train and saw the affair showed conclusively that the officer was perfectly justified in shooting as he was attempting to arrest the negro for stealing a ride when the latter showed fight and really succeeded in gaining an advantage when the revolver was brought into play.

The shooting occurred at the Twelfth street junction, just as the train had stopped to switch on the main track to Raleigh. Uessery started to leave the coach when accosted by the policeman who asked him if he had a ticket. Instead of answering the question directly the negro told him it was none of his business, and that he had nothing to do with him riding on the train. Creech merely commanded that he consider himself under arrest. "Damn you—you can't arrest me," replied the negro, at the same time grasping the officer's billie. An encounter ensued in which the policeman was rushed to the corner of the coach in the midst of a number of soft drink crates by the infuriated negro. The officer found himself completely cornered as his assailant advanced in an endeavor to wind up the fight with an effective blow with the billie, but just at this juncture, passengers were startled by two successive reports from a pistol and saw the negro stagger over to the other side of the car and fall.

The occurrence was so sudden that near panic ensued from both white and colored coaches, but a short time later the train again backed into the station, out off the policeman, witnesses to the occurrence and the body of the negro who by that time had died.

MONDAY, SEPT. 13, 1920.

PREVENTING ALCOHOLISM.

The sessions of the Fifteenth International Congress Against Alcoholism, to be held in Washington, September 21 to 26, are expected to have a direct relation to the development of aviation in this and other countries, due to discussions which will be had of the relationship of alcohol to the health of the individual, and to the nervous reaction which follows the use of it. Dominance in the world of aviation, which promises to be one of the goals sought by many nations, according to scientists who will participate in the International congress, will depend to such an extent as few appreciate upon the use or non use of alcohol.

Dr. Eugene L. Fisk, medical director, Life Extension Institute, New York City, will have as his subject on the program for Tuesday, September 21, "The Relationship of Alcohol to Modern Health Ideals," in which the effect of alcohol on judgment is to be analyzed. Other scientists, notably Dr. Charles H. Stockard of Cornell University, will discuss, directly, scientific investigations of the action of alcohol on the brain and the nervous system. It is possible that other modern callings, developed in great part by the experiences of the war, and particularly those involving risk to human life will, like aviation be made the subject of detailed inquiry and discussion.

Motoring, it has also been suggested, with its countless opportunities for injury to drivers and others, has attained such tremendous vogue in most countries that special discussion of its relation to alcohol will occur as incidental to the main themes on the program.

Dr. Edwin C. Dinwiddle, chairman of the American Executive Committee of the congress, in a statement touching the work which the congress is doing, suggests that the international sessions of this body be held annually for a few years hereafter, since international political conditions are changing so rapidly, and the congresses are further more the only mediums through which scientific investigations made by members in the interim may be brought up for discussion. He said:

"The betterment of industry, commerce, and the promotion of science, as well as the betterment of society, is sought by those who make up the international congress against alcoholism. They are actuated by the broadest possible motives. Their goal is, first, to work for humanity and, second, the making of such scientific researches as will enable them to educate the world concerning the good and bad effects of alcohol in connection with its almost limitless uses.

The North Carolina fire loss for August makes the best showing for the year, there having been but one in the \$10,000 class and that was a freight large loaded with fertilizer at Wilmington, entailing a damage of \$40,000. Elizabeth City and several other smaller towns report not a single fire or a fire alarm during the entire month. The largest town in the State, Winston-Salem, had but one fire, with damage of only \$10 according to the official report of the State Insurance Department. Deputy commissioner Wade was much impressed with the New Bern fire chiefs monthly report. This showed a fire loss of \$167,500, but it also showed that the property worth \$368,000 was involved, and that only \$600 of insurance was carried. He says that people who claim that fire prevention activities benefit insurance companies should have another think coming when they know as he does, that this is the government of actual facts. And out of the blue fires during the month of August.

month, the reports say, four were gasoline fires, caused by carelessness, first spark from electric wire, caused by insulation being off and coming in contact with iron over gasoline tank of 3,000 gallon capacity, producing explosion; second, washing clothes with gasoline, matches bringing explosion; third, threw match in bucket of gasoline, explosion; fourth, used lantern to see how to draw gasoline from tank at night, explosion." Well, one would think so.

For the United States and Canada, the entire fire loss for August was \$18,000,000, a big improvement over August 1919, when it was \$25,000,000. August fires show an equally encouraging decline from July, with a loss of \$25,000,000. But the loss of the first eight months is bad, when compared with the same period last year, the totals being \$175,741,575 for 1919 and \$207,001,525 for 1920. But North Carolina's fire record, especially in the cities, shows a uniform improvement, the great increase coming from New York, New Jersey and the Pacific coast states.

GETTING STOCK SALESMEN.

People are responding to requests from the Insurance Department to report all stock salesmen who solicit and who fail to show a license. Monday one arrest was made of a fellow who had sold and collected stock in a corporation that had never been organized. Friday, three arrests were made at widely divergent points, Asheville, Chadborne and Wilson, two alleged wild cat oil stock operators, and one fertilizer stock salesman. Records at the Insurance Department showing that neither company had been licensed, as men were arrested on wired information from Deputy Commissioner Gray Wade.

The up-hill fight which Commissioner Young has been making against the indiscriminate purchasing of stock, any kind of promoter or solicitor has attracted attention in all parts of the country and is being commended generally. The president of the American Banking Association, Mr. Richard Hawes, recommends a general effort in every state for the enactment of a more stringent Blue Law by the coming legislatures. He says that the convention of the American Bankers Association to be held at Washington, October 18th, a check will be sought to be put upon the operation of "sucker security activities," and that the wide publicity given the Ponzi case of Boston, where millions were lost by investors in his get-rich-quick scheme, ought to help greatly in securing protective laws. Commissioner Young secured one amendment, at the present special session of the North Carolina General Assembly requiring security stock salesmen to be a resident of the state for at least two years before application for license. In many cases, this cannot operate until present license expire, but it effectively bars unknown professional outsiders who have not already been licensed.

MISS MAYCIE SOUTHALL ELECTED SUPERVISOR OF THE COUNTY SCHOOLS

The County Board of Education of Pitt county has taken another forward step in the election of Miss Maycie Southall of Columbia, Tennessee, as supervisor of the rural schools of the county. This step puts the county in line with other progressive counties of the state and the south. This officer is a very important addition to a county department of education. One of the chief needs has been a closer supervision of the work of the rural schools. Now that the state and county are putting more money than ever into the rural schools it is imperative that they be given closer supervision than the administrative duties of the county superintendent will permit him to give.

Miss Southall will spend her entire time with the teachers in the rural schools, going from one school to another and staying long enough to be acquainted with the teachers, especially the young and inexperienced ones. She is unusually well prepared for the duties of her position. She was bred in the country, and most of her teaching experience has been in the rural schools of Tennessee and Georgia. She is a graduate of George Peabody College for teachers, where she took special courses in supervision of instruction. She has already reported for duty and is actively at work planning for the opening of schools.

The county superintendent will continue visiting schools just as he has in the past, so far as his office duties will permit. Miss Southall will give all her time to school visitation and working with teachers, children, committeemen and patrons. Her work will greatly increase the efficiency of the schools.

INVITATION TO GREENVILLE LADIES.

On September 16th and 17th we will have a special showing of ladies' ready to wear clothing and millinery to which you are cordially invited.

PETITION FOR NEW VOTING PRECINCT.

A petition signed by one hundred and fifty voters of a part of Ayden township and Swift Creek township has been submitted to the county board of elections for Pitt county for the establishment of a voting precinct at Grifton for the convenience of the voters who reside within the territory outlined below:

"The line of said voting precinct to begin on Contentnea Creek in Ayden township, being the corner between the lands of W. L. McLawhorn and Mark Patton and running in a northerly direction with said line to the road in front of J. P. Dawson's, thence continuing and line of Swift Creek township, ending from Hanrahan's to Roundtree's church, thence down said road in an easterly direction to Hanrahan's crossing and line of Swift Creek township, thence in a northerly direction up said road with the line of Swift Creek township to Garris Crossing on Swift Creek, thence down the run of Swift Creek until you reach Craven county line near Gardner's Bridge, thence with the Craven county line and Swift Creek township to Neuse river; thence up Neuse river to Contentnea Creek, thence up Contentnea Creek to the beginning."

The county board of elections will have a hearing in the court house in Greenville next Monday, September 20, 1920, at 10 A. M., for the purpose of determining whether or not this precinct shall be established. All voters interested for or against the creation of this precinct are urgently requested to be present.

M. K. BLOUNT,
Chairman County Board of Elections.

WAR DEPARTMENT EDUCATES.

Now the war department has fallen into line with some of the great manufacturing industries in realizing the tremendous importance of the moving picture for educational purposes. Scores of manufacturers are already using the screen for the purpose of recruiting employees, training them in their new trade, and teaching them lessons in stopping lost motion.

The army, which has recently gone into vocational training in a large way, has decided to equip some of its courses with sets of films by which soldiers taking occupational training can the more readily absorb what is before them. There are 107 courses in the army now, ranging from agronomy to zoology, and 105,000 soldiers are receiving instruction either along vocational lines or in general education.

It is announced by Major-General C. Harris, the Adjutant General of the army, that the Bray Pictures Corporation of New York City has received the contract from the war department to make these new films for the Automotive department in the vocational schools. An order has been placed for making 35 complete sets, each set containing 10 reels, to be used for instruction. The films are valued at \$800 a set.

When completed by the Bray Pictures Corporation and approved and accepted by a representative of the war plans division, General Staff, and a representative from the Motor Transport Corps, the pictures will be taken over by the Education and Recreation Division, Storage Service, of the Quartermaster General's office. The reels then will be sent all over the country to all the military departments of the army, as well as to Panama, Hawaii, Germany, and the Philippines, where they will be put to work in the various army schools which teach au-

tomotives. The pictures are made precisely like animated cartoons, with pen and ink, showing cross sections of gas engines, carburetors, and other automobile machinery in actual operation. There is nothing military about them—the reels are purely illustrative of mechanical operations and functions. What is most valuable in the films is that the motion picture can be made to show that which is invisible. Some of the commonest processes of modern industry have never been seen except in the mind's eye, and this is particularly true of gas engines. Explosions take place in obscured confinement, and besides they are too quick to be caught by the human eye, even were the cylinder made of glass.

It may be interesting to note incidentally that this kind of film was first developed during the war for the instruction of machine gunners, to show them what to do when a gun is aimed. It was highly successful.

Accordingly the same kind of films were made for depth bombs, steam-shovels, flame projectors, hand grenades, and cannon in the act of firing. Explosions were slowed down so they could be viewed as a progression, seen through the open side of a gun. By this means raw recruits were turned into expert operators by the thousands, freed from all limitations as to language vision and perception. The government now expects equally gratifying results by using similar pictures in the army's vocational schools.

REAL AMERICANIZATION.

The Immigration Bureau reports that the flow of foreigners this way is now becoming as great as at any time in the history of the country, and the indication is that a new movement is on foot that will bring us a large new European population. More rigid immigration laws have been adopted by con-

AMERICANS PAYING EXCESSIVE PRICES IN BALKAN STATES

Cost of Travel Becoming Ex-tortionate in Every Section of Country.

Budapest, Sept. 11.—The cost of travel for Americans in Central Europe and Balkan countries is reaching extortionate proportions through the tendency to charge Americans the same price for passport visas as that of the American government for foreigners, which recently was increased from \$1.00 to \$10. If this tendency is continued, an American in the course of a few days' journey passing several frontiers, may have to pay \$30 to \$50 in visas.

For travellers of all nationalities, however, the charge has been rapidly increasing during the past six months. The Germans began the high charges emanating \$5. Then Austria followed suit with the same charge and Hungary and other countries have been obliged to make like charges. Because of the huge revenue so obtainable, passports are severely examined, more so than in war time.

ERECT MEMORIALS IN HONOR OF TWO CIVIL WAR HEROES

Virginians to Unveil Memorial in Honor of Generals Ramseur and Pettigrew

DEDICATION TO TAKE PLACE IN TERRITORY WHERE VETERANS DIED

Major Steadman to Speak at Memorial Dedication of Ramseur Monument.

Winchester, Va., Sept. 11.—Memorials to two Confederate Generals, Stephen Dodson Ramseur and James Johnston Pettigrew, both North Carolinians, will be unveiled near here during the coming week at the places where they died. Many southerners, principally North Carolinians, are expected here for the exercises which will be under the joint auspices of the North Carolina Division of United Confederate Veterans,

North Carolina Division of United Daughters of the Confederacy and the North Carolina Historical commission.

The memorial to General Ramseur which marks the Belle Grove House where the general died October 20, 1904, will be dedicated on the afternoon of September 16. The memorial to General Pettigrew which marks the Boyd House where he died July 17, 1863, will be dedicated on the morning of September 17.

The two memorials consist of granite columns, the gift of the late Colonel P. H. Mayo, of Richmond, Va.

At the Ramseur memorial dedication Thursday afternoon the speakers will include Major Charles M. Steadman, formerly a member of General Ramseur's staff and former Senator Henry A. duPont, of Delaware, who was a classmate of General Ramseur at West Point, afterward an officer in the Union army.

TO DEVELOP PULP WOOD RESOURCES IN NEWFOUNDLAND

British and Norwegian Concerns to Take Advantage of Recent Grants.

BRITISH CONCERN TO LOCATE MILLS NEAR THE WESTERN COAST

Supply of Labor at Present Justifies Increases in Activity Everywhere.

St. Johns, N. F., Sept. 10.—Important development of the great pulpwood resources of Newfoundland is about to be undertaken under grants to two pulp and paper manufacturing companies made at the last session of the colonial legislature. One of those companies is British, the other Norwegian. The mills of the British concern will be located at Bonne Bay, half way up the west coast. This port is the center of winter herring fishing activities. In its vicinity are large areas thickly wooded with spruce and fir, through which flow rivers which will afford good water power as well as facilities for floating logs.

Bonavista Bay, on the east coast, is to be the site of the Norwegian company's mill. Codfishing at present is the great industry there. Backward from the bay runs a series of well wooded valleys, drained by rivers of good size.

At present the only pulp and paper mills in the island are at Grand Falls. In the interior, where the Anglo-Newfoundland Development Company some years ago established an extensive plant which supplies the Northcliffe papers in England with most of their paper. Before the war capitalists were negotiating for other similar projects. Now that the survivors of the New-

WORLDS OF AMUSEMENT
for the Ladies, Gentlemen and Children.

Every Day a Big Day - Every Nite a Big Nite!

The Centre Brick Warehouse is selling tobacco as high as any other house. There is a fair demand of the better grades of bright tobaccos, which in some instances we are selling as high as 70 cents. But we want to be fair and honest with the tobacco growers and tell them that there is absolutely no market for tobacco ranging from 1c to 6c and we strongly advise that these tobaccos be held until some future date when it may be possible to create a demand for them.

Bring your tobacco to us and we will get you the top of the market on every pile, but what we have stated above are plain, hard facts which you ought to know. **COME TO SEE US.**

Yours truly,

CENTRE BRICK WAREHOUSE

IN OUR BOYS DEPARTMENT WE GO TO WORK AT 12

and work from the middle down to 6—and up to 18 years.

Most stores start in at 6 and by the time they reach 14 their selections are all tired out—and look it.

We show as many garments at 15 years as we do at 8 so no matter how large your boy is for his age you always find a large lot of patterns to choose from.

Right now we are at our best. The Fall models are wonderful in themselves but you ought to see how many we have of them—that's the point.

Right Posture Fall Suits for Boys. You'll find them here in every color no matter what color you are trying to find.

SOCIAL - PERSONAL

Mrs. Lula Fleming spent the week-end in Raleigh.

Mr. Robert L. Humber, Jr., returned this morning from Wake Forest.

Mr. L. M. James came home from Goldsboro to spend the week-end.

Mr. W. L. Whichard returned Sunday evening from Goldsboro and Warsaw.

Capt. and Mrs. J. S. Barr, of Tarboro, spent the week-end with relatives here.

Mr. and Mrs. D. W. Dixon and Mr. and Mrs. Clarence Blount and sister, Snow Hill, were here Sunday afternoon.

Miss Elizabeth Hines, of Kinston, who has been visiting her brother, Mr. J. M. Hines, returned home Sunday evening.

Miss Jamie Bryan, of Asheville, arrived Saturday to teach in the graded school here.

MRS. J. L. HASSELL ENTERTAINS

On Saturday Mrs. J. L. Hassell delightfully entertained at bridge complimentary to Mrs. R. B. Wiggins, of Boston, and Mrs. W. J. Williams, of Wilson. The parlor and library in which the tables were arranged were beautifully decorated with pink roses and yellow daisies. Mrs. E. B. Ficklen making the top score was presented a deck of cards. Mesdames Williams and Wiggins were presented the guests honor prizes a silver powder box and a Japanese salad set. At the conclusion of the games a salad course was served.

MEMORIAL BAPTIST PASTOR WILL REMAIN WITH CHURCH

It is gratifying to the congregation of Memorial Baptist church, as well as to the people generally of the community, to know that Rev. W. H. Moore will continue to serve the church as pastor. Early in July, Mr. Moore gave notice that he would resign the first of October. A week ago the church voted unanimously requesting him not to resign and he stated that he would give his answer yesterday. Mr. Moore stated yesterday that while he had felt that he should give up his work here, those whom he served held a different opinion as shown in this request of the church, so he would yield to that request at this time. Mr. Moore has acceptably served the church for more than three years, and it is hoped his pastorate will yet continue a great while longer.

MR. CHARLES D. ROUNTREE PASSED AWAY SUNDAY EVENING

Mr. Charles D. Rountree, who passed his 79th birthday on the first of August, died about 7 o'clock Sunday evening at his home on Greene street. He had been feeble for some time and during the last three months had been confined to his home. Though from the nature of his illness his death was not unexpected, yet his passing brings sorrow to a host of friends.

Mr. Rountree was not only one of Greenville's oldest citizens, but there was none held in higher esteem. For more than a score of years he was a justice of the peace with an office in the court house, and he tried more cases and performed more marriage ceremonies than any magistrate in the county.

For many years he was a member of Memorial Baptist church and was the oldest deacon of the church. He was also supervisor of the Sunday school to which position he was years ago elected for life. No member was more faithful and loyal to the church and Sunday school than he, and when death would permit he was always at its place in the house of worship.

Mr. Rountree was twice married, his first wife being Miss Maggie Smith and his second Miss Annie Johnson. By the first marriage he is survived by one daughter, Mrs. R. J. Cobb, and by his second marriage he is survived by his wife and one daughter, Mrs. G. J. Woodward.

He was an ardent Mason and his funeral was with the honors of the fraternity, a large number of his brethren being in attendance to pay this last mark of respect to his memory. Funeral services were held in Memorial Baptist church at 4 o'clock this afternoon conducted by the pastor, Rev. W. H. Moore. The Masons took charge of the remains from the church and held their service at the grave in Cherry Hill cemetery. The deacons of the church, Messrs. D. J. Whichard, J. C. Tyson, T. R. Moore, J. N. Gorman, C. J. Ellen, R. T. Burnette, C. B. Whichard and D. B. Carter, served as honorary pall bearers being Messrs: Congraty pall bearers.

Edmond's six piece orchestra tonight at Amuzu Park. Extra pieces, clarinet and bass violin. Fine jazz music.

Emerson dance hits. When they start you just can't keep your feet still. Big lot just received. Come in and hear them. S. G. Wilkerson Und. Co. 1-11

EDMOND'S ORCHESTRA GROWING JACK TRIPP FALLS FROM HOUSE TOP AND BREAKS ARM

Amuzu Park Band Now Has Six Pieces Regular. Henry Edmonds, manager of Edmond's Jazz orchestra announces that he has secured a bass violin and a clarinet player. One from New York and the other Richmond. They are well recommended and a unique feature is that the bass violinist is a woman. They play their opening engagement at Amuzu Park. Lovers of good jazz music will enjoy hearing them.

Master Jack Tripp, the eleven year old son of Mr. and Mrs. Joseph Tripp, fell yesterday from the top of Mr. Burnett's house to the door steps, and broke his arm. The children in the neighborhood had gathered at Mr. Burnett's and were trying to see which one could climb the highest. Immediately after the accident the physician was summoned and the broken arm set. Jack was resting very well at noon today. It is hoped by his little friends that he will soon be well again.

Tobacco Always Sells Higher At Forbes & Morton

Bring us your next load. We will get you the top market dollar for it

We have First Sale Monday, Third Tuesday, Second Wednesday and first Thursday.

SMITH & SUGG

Market Report

SALES SCHEDULE

Monday, September 13th ----- 4th Sale
 Tuesday, September 14th ----- 3rd Sale
 Wednesday, September 15 ----- 2nd Sale
 Thursday, September 16th ----- 1st Sale
 Friday, September 17th ----- 3rd Sale

Our Board of Trade decided Friday to keep open the tobacco market until March 15th, and urge the slow marketing of this crop. The tobacco on our sale Thursday was what was left over from opening sale Tuesday, most of which was put on floor Monday. This tobacco was badly trampled upon and bruised, and of course showed up to great disadvantage. Sales Friday were light, averaging much better. We sold a few piles of tobacco around 70c. The real common grades continue to sell low, whereas, some of the better grades show an increase of 25 per cent over the opening. We urge holding off the marketing of the real common grades, and marketing very slowly the better grades.

JAPAN WOULD KEEP ABREAST OF NATION IN BUILDING SHIPS

(Continued from page one.)
 are a very dangerous people, wedded to militarism and aggressiveness. Being obsessed by this mistaken notion, they are anxious to complete their naval armaments against all emergencies on the Pacific. America has always been a country which sets store by peace and I do not believe the government thinks that she is doing all this for aggressive purposes.

"Supposing the present naval and military estimates were carried through the Diet, though they ought to be introduced in the next session of the Diet as a measure not requiring very urgent attention. What impression would be caused in America? Americans would ascribe sinister intentions to the Japanese Diet which, notwithstanding an unfavorable economic situation and the restoration of peace went the length of carrying the estimates through at an extraordinary session.

"I am not opposed to proper provision for national defense but I do not see why this program should not be deferred to the next ordinary session of the Diet.

MAKES INDICTMENT AGAINST BRITIAN'S NEGRO TREATMENT

(Continued from page one.)
 ver been imposed on a white man in East Africa.

"Again, in the great war, thousands and thousands of native porters were conscripted by our government and by the military authorities in the unhappily-styled 'Protectorate' and the arrangements for their commissariat, their medical treatment, their lodging and clothing have been miserably inadequate, with the result that some 25,000 to 25,000 of them (it was reported) died during the pursuit of the German forces.

"The survivors have retained tongues and the power of speaking; some, even, had been mission educated and when 'Dora' (Defense of the Realm Act) took her hand off the mail service they have stammeringly told the world outside Africa something of their preventable sufferings and even of singularly allous and sometimes cruel treatment at the hands of the military authorities.

Big lot of Emerson's dance records, test hits, just received. S. G. Wilkerson Und. Co. 13-11

"A MASTER STROKE" IS TALE OF FINANCE

Based on Novel by Frederic Van Rensselaer Dey.

"A Master Stroke" is the title of the Earle Williams feature which will be shown at White's theatre on Tuesday. It is an adaptation from a popular novel by Frederic Van Rensselaer Dey, the senario having been prepared by H. Thompson Rich and Lucien Hubbard. The story is written on an exciting Wall street theme, and the leading role fits Mr. Williams well. It is a tense story, filled with thrills, many of which were taken in the mountains near Los Angeles.

Chester Bennett, who directed many of the Williams features, had charge of the production. He assembled an exceptionally strong cast. Opposite Mr. Williams is 'Vola Vale, who some time ago appeared as his leading woman in "The Hornet's Nest." Miss Vale has appeared in many big productions during the past year, including "Alias Jimmy Valentine," with Bert Lytell; "Common Sense," "Overland Red," with Harry Carey; "The Duke of Chimney Butte," with Fred Stone, and "Six Feet Four," with William Russell.

H. A. Barrows, one of the best known character men in pictures, has a highly important role. Frank Crayne and Rea Haines, herself a feature player in many productions, appear in the principal support. James Warner, John Elliot and Paul Wiegler, all well-known character players, are also in the cast.

NOTICE.
