TOBACCO GROWERS OF STATE DISCUSS PRICES IN WILSON

Representatives from Seventeen Counties Attended Organization Meeting. RESOLUTIONS DRAFTED TO MEET CONDITIONS IN EVERY TERRITORY. Mr. Winslow of Greenville Appointed on Permanent Committee for State.

Wilson, Sept. 14.—The meeting called by the Wilson Chamber of Commerce was attended by representatives from 17 counties in Eastern North Carolina and the Piedmont section, composed of bankers, manufacturers business, of all trades, tobacco growers and warehousemen. The object of the organization was to devise ways and means for marketing this year's crop at prices which will be profitable to the farmer and regulate the planting of the next crop whereby a great reduction can be attained in the acreage.

The scope of the organization will extend to every county in North Carolina, South Carolina and Virginia. F. M. Miller, Wilson Chamber of Commerce, offered the following: "We, the farmers, tobaccoists, bankers, and manufacturers, offer the following resolution: "Be it resolved: "First: That instead of marketing this crop of tobacco in four months, we market it over a period of seven months.

"Second: That the daily sales of each market shall be determined on the basis of the total sales of that market of last year's crop, extended over the period of seven months as above specified and that the North Carolina warehouse association be called upon to prepare and put in motion necessary machinery to accomplish that end."

Judge Bragaw, of Beaufort county, offered the following:

"Resolved: That an association of tobacco growers be immediately formed and organized, the name and plan and operation of which shall be designated and provided as follows:

"First. Each county in Eastern and Piedmont North Carolina in which tobacco is grown shall select a representative for that county, said representative to constitute a committee to meet hereafter and at the earliest date possible to formulate a complete plan of organization and operation, said committee of representatives being hereby authorized to designate the name of the associate to recommend by-laws and other regulations for submission to local or county units of the organization for ratification and adoption.

"Second. That this committee of representatives shall be authorized to designate the curtailment of acreage to be planted in tobacco for the year 1921 and suggest methods whereby such curtailment may be effectuated.

"Third. That this committee of representatives be authorized to select officers and committees of the organization to the end that delay in putting into effect its plans may be avoided and shall make provision for election of officers and committees by the organization at large at some other date to be designated by the committee or representatives.

"Resolved, further: That it is the sense of this meeting that every bank doing business with tobacco growers in North Carolina be requested to enter into such legal agreements with this association as may tend to assure a curtailment of acreage in tobacco for the year 1921 and to encourage and enable the planting of a larger acreage of food and feed crops and thus to aid in providing against a repetition of existing conditions.

"Resolved, further: that this committee of representatives be authorized and it is hereby directed, immediately upon and after its meeting and organization to invite and provide for cooperation with the tobacco growers of South Carolina and Virginia and if deemed advisable, other States.

"Resolved, further, that a special committee be now appointed by the (Continued on page 12.)

KRAUSE SHOWS TO REACH GREENVILLE DURING SATURDAY

Special Train of 22 Cars to Reach Greenville to Play Midway at Fair.

The Krause Greater Shows will arrive Saturday evening September 18th in their own special train of twenty-two cars and will be the midway attraction at the Pitt County Fair which will be held in this city beginning Tuesday, September 21st and lasting for four days. All the cars will be loaded to capacity including three hundred people with paraphernalia to furnish the many attractions and riding devices. This show consists of twenty highly restricted attractions of the newest and largest sensational riding devices and two big concert bands. Among the feature attractions are Robert's "Dog, Pony and Monkey Circus," Joe Oppice's "Dixie and Trombones," a plantation show consisting of 35 real colored performers and a real colored ten piece jazz band with an elegant array of scenery and costumes and plenty of catchy jazz music. Joe Harris's "Motordrome" the largest portable drome in the world with five daring riders, both male and female, performing death defying stunts around the death wall. A show with a thrill every minute. Wolfe's, "Monkey Speed Way." A train load of educated monkeys. Joe Vargo's, "Athletic Arena," a champion wrestler who will meet all comers.

This show has played from coast to coast with a reputation of being one of the cleanest on the road. A show that has never fooled the public and is pleasing to everyone. At the fair from September 21 to 24.

NOT MUCH CHANGE IN MARKET.

Sales are light on the local tobacco market this week with but little change in prices. Some farmers bringing in good lots are making fair averages. The common grades continue to sell low.

PROPOSED DIVORCE LAW ROUSES GREAT PROTEST IN ITALY

Clerical and Socialist Camps Disapprove Movement by Socialists

BILL IS EXAMINED BY COMMISSIONERS WITH ONLY FEW AMENDMENTS

Proposed Law Also Regulates Legitimation of Children Out of Matrimony.

Rome, Sept. 15.—A law to permit divorce in Italy proposed by the Socialist deputy, Maranzoni, has roused both protest and approval in the Clerical and Socialist camps. The bill has now been examined by a parliamentary commission which has amended it.

Under the proposed law divorce would be permitted in consequence of separation for three years in the case of those children, two years in the case of those who have none.

Dissolution of marriage could also be asked by a husband who, having been absent on military service, or for the execution of civil or philanthropic duties on the occasion of some national calamity, could prove that during his absence his wife committed adultery. Reasons for separation of married persons legalized by the proposed law include: Mental infirmity, declared to be incurable rendering married life dangerous or intolerable; desertion on the part of husband or wife; infliction of a penal sentence carrying the interdiction of civil rights; and habitual crime or immorality injurious to the honor of the family.

The proposed law also regulates the legitimation of children born out of matrimony, settles the question of alimony, the restitution of the dot and the arrangements regarding property held in common by man and wife; provides for the education and maintenance of children and for the institution called a "family council" to which Italians fairly now often have recourse of matrimonial troubles.

PAPERS OF BRITAIN CHARGE WASTE OF PUBLIC'S MONEYS

Report Just Issued by Committee Sheds Fresh Light on the Situation.

London, Sept. 15.—British papers are printing almost daily examples of what they term the waste of public funds. A report just issued by the committee of public accounts sheds fresh light on the subject. Nearly \$8,500,000 was involved, it appears in the government's plan to finance the Russian General Alexieff just before the bolshevik revolution brought about his collapse. Part of the plan was to set up a Cosack State Bank in Siberia, and for that purpose \$2,500,000 was loaned to a Russian financier. But the bank was never set up and the committee wants to know what became of the money.

The Ministry of Munitions paid \$12,250,000 for a plant begun in 1917 and which, when the war ended, was only half finished. For this outlay, the committee points out, the country received no benefit whatever except through the "stimulus to the steel trade."

Waste of nearly \$500,000 is charged by the committee to the Admiralty on a scheme for establishing schools to train boys in pneumatic riveting.

Cases are referred to by the committee where government officers holding responsible positions allotted contracts either to themselves or to firms in which they were interested. Such cases the committee asserts, "are especially liable to become a occasion for scandals."

SOVIET RUSSIA IS SETTING IN MOTION WORLD OFFENSIVE

Present Military Operations Are Only Minor Part of That Which Follows

PRINCE MAX OF BADEN DECLARES ONLY SLIGHT HOPE FROM SITUATION

Gives View of Condition Upon Which Eventual Peace May be Expected.

Mannheim, Germany, Sept. 15.—"The present military operations are only a very minor part of a world-wide offensive which Soviet Russia is now setting in motion," declared Prince Max of Baden in the course of a lengthy interview which appears today in the Baden State Gazette. Asked whether he saw a way out of the present dilemma for Germany, Prince Max, according to the report, said:

"There is only one very slender hope, it consists in an unconditional maintenance of our neutrality both to the east and the west, and in one last desperate effort to effect a revision of the Versailles peace treaty."

Prince Max believes that what he calls the German resistance to the moral invasion of bolshevism is bound to crumble down if the checking pressure from the west is kept up.

"It would be doing scant justice to Lenin's uncanny personality," he continued, "if one were to believe that he is capable of keeping more than a sham peace with so-called capitalistic states. Lenin believes with religious fanaticism in the vicarious march of his idea: the dictatorship of the proletariat or of the communistic portion of the proletariat. He is, of course, enough of a psychologist to understand that a military invasion of any country he wants to disrupt would be the very means of consolidating it. His plan would rather consist in provoking and fostering civil war in the bordering states so that, when the time was ripe or invasion, he would find an open door and a union of comrades."

CONNECTICUT GOES IN SUFFRAGE ISSUE DESPITE WARNING

Legislators Defy Governor Holcomb and Adopt Ratification Resolution.

Hartford, Conn., Sept. 14.—In defiance of Governor Marcus H. Holcomb, who in a message had said that it might not pass any measures save those which it had been specifically called to consider the Connecticut General Assembly today in special session, adopted a resolution ratifying the nineteenth amendment to the United States Constitution. Still in defiance, it adopted in concurrence two pieces of general legislation, although the governor had given warning that he would "pocket" any measures so adopted.

The governor, taking the position that the right of women to vote legally at the November election may be jeopardized by a decision in Tennessee which would nullify ratification by that State—the 36th ratify—personally gave notice to members by a proclamation, read by him after his message to the session which had just opened, of a special session to be held next Tuesday specifically to act upon the 9th amendment.

Although the legislature today ratified the amendment, the coming special session will again do this. Today it ratified on a resolution offered by Republican House Leader King, immediately following a conference of several leaders with the governor who declined to sanction action today.

Many local people are taking in the New Bern fair today to hear the speech of Former Secretary McAdoo.

NO WORK AND HIGH PRICES ARE MAKING HUNGARY TROUBLE

Latest Candidate for Country's Throne Gives View of Conditions.

Budapest, Sept. 15.—No work and high prices are making Hungary a trouble center," said Count Etienne Croy Chanel, who claims to be the most legitimate candidate for the throne of Hungary.

"We have here upwards of 100,000 workmen who are either without work or else have to work for 1,000 crowns a month, the price of a pair of shoes," he continued. "Besides them, we have 150,000 government employes left over from old Hungary whose pay is about that of the workmen. Then we have 60,000 army officers who insist that they be paid. Then there is a large number of landowners from the provinces given to Serbia, the Czechs and the Rumanians, who have no means of livelihood, having been driven from their lands.

"When these people begin considering their troubles, they turn to the wealthy Jews as the cause, or else to the Communists, and therein lies the origin of the so-called 'White-terror'."

"The immediate solution for these people is to emigrate but for that they have not the money or else cannot secure passports. They cannot become farmers overnight. Even if the government divided the land they would need to learn to farm and would need capital to build houses and buy machinery. The factories cannot start because of lack of coal and raw materials."

"Hungary has lost more than any nation in Europe by the peace treaty. In addition she has had two costly revolutions. It is no wonder our minds are deranged.

"It would be a charity if our surplus educated population was helped to emigrate to South America or some country where it could start life anew."

FARMER SEVERELY BEATEN BY RAIDING REVENUE OFFICERS

SEVERAL CASES IN OPENING SESSIONS OF SUPERIOR COURT

First Day's Session Concluded First Week of Three Week Term Yesterday.

FIVE DIVORCE CASES AMONG THESE GETTING ATTENTION TUESDAY

Robert Humber Sworn in by Judge Bond as Member of the State Bar.

The regular September term of Pitt county superior court for the trial of civil cases, convened in this city yesterday morning with Judge W. M. Bond of Edenton, presiding, and adjourned for the present week after disposing of virtually every case on the calendar for the first week's session. There were about twenty-five cases in all considered during the day, including a number of compromise actions which had been awaiting hearing for sometime.

The legal machinery moved along probably more smoothly yesterday than in several terms, and as a consequence little difficulty was incurred in completing a number of actions which at first appeared to hold countless worries for the court, including 100 out legal controversies that were narrowly avoided by quick and effective work on part of the officials. This was particularly in the five divorce cases coming up for action during both the morning and afternoon session and while several hitches were experienced those were of short duration and retarded progress only in a slight way.

Robert Lee Humber, of Greenville, was this morning sworn in by Judge Bond as a member of the state bar for practice in both superior and supreme courts. Mr. Humber, who recently completed his law studies at college, passed the state examination in a creditable way and confirmation by Judge Bond was hearty and pleasing. Mr. Humber will not become actively engaged in the practice of law, but intends to continue his studies at Oxford University, England for the next three years.

The following cases were disposed of yesterday, eliminating of course, several compromises:

- Linda Belcher vs. Ward Belcher, colored, divorce absolute. W. H. Paramore vs. Lillie Paramore, white, divorce absolute. Gertrude Scott vs. John Scott, colored, divorce absolute. M. D. Dail, vs. Lena Dail, divorce absolute. Effie Williams vs. Thomas Williams, divorce absolute. Henry Cromwell vs. Rosa Cromwell, colored, divorce absolute.

WEDNESDAY, SEPT. 15, 1920

McSweeney may starve himself to death, but most of us prefer three meals a day when the price can be dug up.

Sugar continues to drop in price, and what housekeepers want to see is some other things to start in the wake on the down scale.

With cattle receipts in the Western stock yards the largest on record, folks are wondering why they have to pay so much for a steak.

Things are certainly pointing to a change. All in the same week we see advertisements for positions by Charleston washerwomen and cooks, Pennsylvania hosiers mill workers agreeing to a ten per cent reduction in wages, and Chicago striking railway employes returning to work without any concessions being made. Maybe it will not be long before the plumber and automobile repairer will be offering to work for a little less than \$1.50 per hour.

**CROPS GOOD OVER THE STATE.**

While many industrial interests were worrying over the labor situation, the farmers of North Carolina went ahead with the aid of their wives and children and worked from sun-up until dark. When the urban interests were striking and arguing over higher prices and shorter hours the crop producers were loyally making foods and feeds to save the day. The resulting harvests are good. The farmers have expected fair appreciation and compensation. Now that they are offering those needed wares for sale they are met with offers that are from ten to fifty per cent less than they have cost to produce. At the same time the manufactured articles made from some of these same raw products are increasing in prices above their already high mark.

According to the Co-operative Crop Reporting Service, the condition of 97 per cent of a full crop is indicative of about the best corn crop we have ever had. It is about 16 per cent better than the ten-year average. The indications are for 62,464,000 bushel crop, this being an increase of six per cent in the last month, and about 14 per cent more than produced last year. The average price reported is \$2.19 compared with \$1.97 a year ago.

The wheat crop is harvested and practically all threshed, giving an average yield of toward eleven bushels per acre, which indicates a crop of something over eight million bushels. The tendency seems to have been to depress the price locally more than was justified. The prospects for fall plantings are for a less acreage than last year.

The present sweet potato outlook is indicated by the 5 per cent of a full crop condition, which forecasts over ten million bushels, which is about two per cent more than last year, but the commercial interest is growing. Due to the continued wet soil conditions the keeping qualities of the potatoes may be inferior, although a dry fall will correct this tendency.

**SOMETHING BREAKING.**

What is coming over the country? In Charleston the colored washerwomen and cooks are advertising for positions and domestic servants are asking for employment. Stranger still is the news that comes from the center of the hosiers industry in Pennsylvania, where the employes at one plant have secured a cut of 10 per cent in wages rather than face a shut-down of the mill, which threatened them. The workers in this mill were of the highly-paid class, making an average of \$52 a week, but when they thought about the clos-

ed hosiers mills all around them they wisely concluded that it is better to keep going on 10 per cent less than to face an indefinite period of idleness. This is perhaps the first instance of a voluntary acceptance of a cut in wages since the greedy days of the war set in. Times are indeed changing when we see the once-autocrat of the kitchen and wash-tub seeking employment, and the operatives of an industrial plant accepting a reduction in wages.—Charlotte Observer.

**TAR HEELS MAY GO TO SCHOOL**

Heretofore all recruits who were accepted in North Carolina for enlistment in the U. S. Army, and who were unable to read and write, were as a rule sent to the Recruit Educational Center at Camp Upton, N. Y., where they received a course in grammar school subjects, before being assigned to an organization for duty. Some time ago the war department ordered the abandonment of Camp Upton and the majority of the newspapers throughout the state made note of it in their columns, however, it seems that the public is now under the impression that the great educational work which was being carried on by the army at Camp Upton was to be stopped, but such is not the case. The Camp itself will be junked and sold but the schools are to be moved to Camp Dix, N. J., where their work will be carried on more intensively than ever.

The abandonment and demolition of Camp Upton is presumably to be commended. It is obvious that many of the camps which were created to serve the special and temporary needs of the war should be thus dealt with. The question of the selection for demolition for preservation is of course an important one, which should be determined solely upon the practical merits of each case, and without regard to local interests or to sentiment. The location of Camp Upton is regarded by the war department as less desirable for a permanent Camp than that of Camp Dix, to which the schools are to be transferred. The Recruit Educational Center was founded at Camp Upton and has there been productive of marvellously beneficial results. The Center, like the camp itself, was practically forced into existence through the exigencies of the war, but, unlike other war measures, it need not be discontinued with the return of peace, but on the contrary call irresistibly for perpetuation and for enlargement and extension.

**WHICH IS "THE INFERIOR SEX?" MILDRED HARRIS CHAPLIN WILL TELL AT WHITE'S THEATRE**

Is there any excuse for a girl or a married woman flirting to stimulate the love of a sweetheart or husband? Mildred Harris Chaplin, star of "The Inferior Sex," deliberately flirted with a purpose in this picture. And she got away with it. "The Inferior Sex" is a picture that tells girls how to win a man's love and how to keep it when once won.

"Divorce courts would be out-of-date if the romance of courtship days were carried into married life" says Mildred Harris Chaplin, star of "The Inferior Sex" and she proves in the picture which will be shown at White's theatre, Thursday.

The play deals with the problem of a young married woman whose husband, who vowed eternal love in the courtship and honeymoon days, began to slip and show more attention to business than his wife after marriage.

One of the dramatic scenes in "The Inferior Sex" is that which takes place on a yacht. The young married woman, whose husband has shown great indifference to her has been wooed by wealthy clubman and finally has decided to elope with him. She goes to meet him aboard his yacht. But there she is followed by her sister-in-law who explains the situation to the captain. The gallant old sea-dog turns on his master and tells him that by the laws of the sea he is in command of the yacht and that he will not sail, placing his own position in jeopardy rather than be a party to a scandal and the wrecking of a home. There is a sharp clash between the captain and the owner, but the captain wins out and the elopement for the time being, at least, is foiled.

(Continued from page one.)

The chairman of this meeting whose duty it will be to communicate the substance of this resolution to each county in the territory contemplated and to request that local meetings be held and a representative selected to act for the county on the committee of representatives herein before provided for or this special committee to be authorized and directed to name the time and place for the meeting of said committee of representatives and to make due publication thereof and otherwise to provide for the full attendance and county representation at such meetings.

"Resolved, further, that the committee of representatives provided for by these resolutions be not limited to the specific matters herein suggested, but be authorized to take other and further action which may occur or be suggested to them, designed to bring relief to the tobacco growers in the existing emergency and to provide against its repetition."

In answer to the above resolution it was announced by W. R. Dixon and

F. L. Carr that the Southern Farmers' Association had already been organized in Wilson, Greene and Pitt counties to put into effect the action and measures outlined, and a statement of the plans, scope and purposes of that association was read to the convention. A committee was appointed by the meeting for the purpose of effecting organization of the association in every county in this state, Virginia, North and South Carolina. The committee named was as follows: J. E. Winslow, of Pitt county; F. L. Carr, of Wilson county; Stephen Bragaw, of Beaufort county, and J. A. Croom, of Wilson county.

Edinburgh, Sept. 1.—The campaign to make Scotland dry has been started in earnest by the National Citizens' Council. Under the provisions of the Temperance (Scotland) Act which enables the electors to decide by a vote whether the country shall go dry, requisition forms demanding a poll on the no-license question have been issued. In order to secure a poll ten percent of the electors in each area must sign the requisition forms. Should this be forthcoming the next stage will be the taking of the vote which will decide whether the people shall have no licenses, or fewer licenses in their own areas, or there shall be no change.

Temperance enthusiasts believe that although Scotland may not go dry this year the no-license resolution will be carried in many municipal wards. They have obtained the services of W. (Pussyfoot) Johnson who will address a number of meetings next month. On the other hand, the liquor tradesmen are also arranging for a series of meetings at which prominent speakers will describe the effects.

## Ride *Farther* on Goodyear Tires in Your Small Car

It is tire performance, not price, that decides what you really pay; hence, do not experiment with tires made to sell at sensationally low prices.

You can secure in Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, a high relative value not exceeded even in the famous Goodyear Cord Tires on the world's finest automobiles.

Goodyear experience and care are applied to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; take advantage of the opportunity to get true Goodyear mileage and economy.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread **\$23<sup>50</sup>**  
30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread **\$21<sup>50</sup>**

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30x3½ size **\$4<sup>50</sup>** in waterproof bag.....

# Gentry & Gorman

All sales finished Tuesday by twelve-thirty. Gorman's had fully half of what was in town and finished by noon.

Prices ranged about the same as on Monday. We attach a few sales made Tuesday which will give an idea of prices. If you want to sell some of your tobacco, we advise grading the bodied tobacco as this bodied tobacco has more competition than the thin bright and common and is bringing nearer its value in our opinion.

Today's sales will finish before dinner. Drive to Gormans and we will send you home with the top of the market.

Gorman's has first sale Tuesday, 4th Wednesday, 3rd Thursday and 2nd Friday.
