CONNECTICUT GOES IN SUFFRAGE ISSUE DESPITE WARNING

Legislators Defy Governor Holcomb and Adopt Ratification Resolution.

Hartford, Conn., Sept. 14.—In defiance of Governor Marcus H. Holcomb, who in a message had said that it might not pass any measures save those which it had been specifically called to consider the Connecticut General Assembly today in special session, adopted a resolution ratifying the nineteenth amendment to the United States Constitution. Still in defiance, it adopted in concurrence two pieces of general legislation, although the governor had given warning that he would "pocket"

any measures so adopted. The governor, taking the position that the right of women to vote legally at the November election may be jeopardized by a decision in Tennessee which would nullify ratification by that state—the 36th to ratify—personally gave notice to members by a proclamation, read by him after his message of the session which had just opened, of a special session to be held next Tuesday specifically to act upon the 19th amendment.

Although the legislature today ratified the amendment, the coming special session will again do this. Today it ratified on a resolution offered by Republican House Leader King, immediately following a conference of several leaders with the governor who declined to sanction action today.

PROPOSED DIVORCE LAW ROUSES GREAT PROTEST IN ITALY

Clerical and Socialist Camps Disapprove Movement by Socialists

Rome, Sept. 15.—A law to permit divorce in Italy proposed by the Socialist deputy, Marangoni, has roused both protest and approval in the Clerical and Socialist camps. The bill has now been examined by a parliamentary commission which has amended it.

Under the proposed law divorce would be permitted in consequence of separation for three years in the case of those children, two years in the case of those who have none.

"All right, Bill - You can stop reading 'em"

BILL TOLD ME HE HAD a good joke ON THE maker OF A well-known brand OF CIGARETTES. LAST NIGHT, Bill said HE READ an ad OF THIS cigarette IN A magazine. IT SAID "They Satisfy." AND THIS morning IN HIS newspaper HE READ "They Satisfy." AND ON a billboard AND ON a card IN THE street-car AND IN the dealer's window AND ON the counter HE READ "They Satisfy." AND HE bought a pack OF THESE cigarettes AND I asked him "WHERE'S THE joke, BILL?" AND BILL said "WHY THE darn fools SPENDING THEIR money PICKING ON me." SO I said, "You bought 'em. DIDN'T THEY satisfy?" AND BILL said "Sure. BUT HERE'S the joke FOR OVER a year I'D ALREADY been smoking THAT BRAND."

WE admit it, the joke's on us. And over three million other smokers are "in on it" with Bill. But the real joke is on anybody who looks for "Satisfy" anywhere but in Chesterfields—for the Chesterfield blend can't be copied!

FOREST PROTECTION.

A very searching question is asked in the title of a pamphlet just issued by the North Carolina Forestry Association which indicates that a turning point has been reached in the utilization of our forest resources. Heretofore we have used our timber, turpentine, tannin and other forest products without any thought of protecting the remaining growth. Devastation has still is the result. It is asserted that we are now cutting our timber four times as fast as it is growing. This association asks, therefore, which it shall be, "Forest Protection or Devastation?" And then states, also in the title page "It is up to North Carolina." In other words, the people of this state must choose, and choose now, whether they will practice a policy of forest fire prevention, or continue to devastate and leave in an unproductive condition such a large proportion of our forest area.

The pamphlet contains several of the more important addresses made at the Tenth Annual Convention of the North Carolina Forestry Association, which was held in Asheville, June 9-10 last. The letter from Colonel Henry S. Graves, who was until recently U. S. Forestry, is a gem of inspiration and advice. Three quotations from it urging North Carolina to take immediate action are put upon the title page. Here is a fourth "The factor of Federal aid is very great, but there is an immediate responsibility upon each state to go forward to the limit of its capacity, without waiting for help from our central government." In the next paper Federal aid in fire prevention is set forth in a simple and practical way by Mr. E. E. Carter, the Assistant U. S. Forester.

The example of French forestry is set before us in two interesting addresses, one by Colonel T. S. Woolsey, Jr., and the other by Colonel Joseph Hyde Pratt, both of whom look at the problems from the point of view of the experienced forester, as well as the average man.

The resolutions show pretty clearly where the Association stands and what it is working for. They urge (1) the enactment of legislation for the establishment of an adequate forest fire protection force in this State, and the appropriation by congress of funds sufficient to furnish reasonable co-operation with the several States for the same purpose; (2) an appropriation by congress of two million dollars a year for the continuation of purchases in North Carolina and other eastern States of non agricultural lands for inclusion within National Forests; (3) The establishment of a Forest Experiment Station in North Carolina with an appropriation of adequate funds for its operation; (4) Provision by the next General Assembly for the adequate support of Mt. Mitchell State Park, and the further acquisition by the State of forested areas for the benefit of the people; (5) closer co-operation with lumbermen and railroads in the prevention of forest fires.

That the shortage of newsprint will be overcome by new paper mills in Alaska was predicted today by Colonel W. B. Greeley, chief of the forest service, who has just returned from a month's inspection of timber and water power on the Tongass National Forest. "The National Forests of Alaska," said Colonel Greeley, "contain resources sufficient to produce 1,500,000 tons of paper annually in perpetuity, and a paper industry in the territory is now assured." Colonel Greeley believes that the administration of Alaska's great resources should be put in the hands of men on the ground, but

is opposed to the transfer of all federal interests to a local commission. A sale of 100,000,000 feet of pulp timber has been made, and a second sale of 1,500,000,000 feet, which will supply a large paper plant for 30 years, is now being arranged. "The National Forests of Alaska," said Colonel Greeley, "offer paper manufacturers an ample supply of pulp timber, available under long term contracts at low prices and subject to very simple and reasonable cutting requirements. The Forests Service is doing its utmost to develop this resource of the territory. We will not only make Alaska one of the great sources of paper for the United States; but we will make the industry permanent, as it is in Norway, by keeping the cut of timber within what our forests are growing. Paper manufacturers who go to Alaska can count upon an assured supply of raw material indefinitely."

CORPORAL WALDO AUSTIN ADDS TO SERVICE RECORD IN UNITED STATES ARMY

The following commendation of Corporal Waldo Austin who is a member of the United States army will be read with interest by his many friends in Greenville. Corporal Austin is the younger son of Mr. and Mrs. H. E. Austin and has only been in the army for a short time. Nearly a year ago from the date of the following incident, he, with a few friends went down Tar river on a boating trip and had a narrow escape from drowning. Many people will recall the incident and remember how composed the young fellow was upon his return. He is making a splendid record in the army and his many friends, here at home, are glad to hear of his success.

Fort Thomas, Ky.,
 July 28, 1920.
 Headquarters Recruit Depot,
 General Order No. 24,
 The commanding officer desires to call attention to the following incident, concerning an enlisted man at this depot, Corporal Waldo E. Austin (640-3461) 30th. Recruit Co., G. S. I., was sent by detail to Newport, Ky., driving a ton and one half Packard Cargo truck. He had with him five enlisted men as a working detail.

Proceeding along the brick road at a rate of approximately ten miles per hour, at a point where the road twists and turns down the hill, he arrived at that section where the road passes a steep bluff on the south and an abrupt drop on the north; here he encountered a loaded civilian truck coming up the hill, steering off to the right to pass, he suddenly saw approaching at a high rate of speed, a civilian touring car with two passengers, coming up the hill. Corporal Austin instantly appreciated the situation and realized that it was not possible for the three vehicles to pass, nor could the driver of the passenger car check his machine to hold up until the road was clear, and that by his holding the road the civilian passenger car would be caught and smashed between the two trucks and serious damage done, not only to the machine but also personal injury would be sustained by the occupants thereof.

With great presence of mind Corporal Austin gave the road to the oncoming passenger car, he taking the soft margin with his heavy truck throwing his vehicles and passengers, who were soldiers, and himself to that portion of the road that would not hold, with the result that the truck, passengers and cargo, went down the bank, turned over once and a half completely and came to a stop wheels up. Corporal Austin remained at the wheel, and when the truck came to a stop, crawled out, none the worse for his adventure, except for a few slight bruises and cuts about the body.

The commanding officer desires to commend the presence of mind displayed by Corporal Austin, the ability to grasp and estimate the situation, and assume responsibility by sacrificing himself and the truck to save damage to the civilian truck and passenger machine; his grasp of the situation avoided a serious accident which might have resulted fatally to the occupants of the three different vehicles.

A copy of this order will be posted on all bulletin boards of the various organizations at this depot, and an additional copy will be furnished to the soldiers commanding officer to be attached to the service record of Corporal Austin.

By order of Colonel Traub,
 N. W. STAIRY,
 Captain C. A. Corps, Depot Adjutant.

THINGS.

All day I've been a-wishing
For things I haven't got;
A quaint old blue delt pitcher,
A rose-filled garden plot,
A dancing dress of silver,
A little gate that swings,
A gently curving highboy;
Ah me, the lovely things!

All day I've borne my wishing
A weight against my heart,
And all my thoughts were longings
To burn and sting and smart;
But now that it is evening,
I sit me down to rest,
And watch the twilight soften
The hill's low crest.

Above my small, white doorstep
Are stars; the night is still;
Deep are the inky shadows;
Grave is the distant hill,
My heart is hushed with beauty!
My spirit stirs and sings,
Tell me, what is wishing?
And what are Things?

**PRINCE MAX OF BADEN
DECLARES ONLY SLIGHT
HOPE FROM SITUATION**

annheim, Germany, Sept. 15.—“The
ent military operations are only a
minor part of a world-wide of-
fensive which Soviet Russia is now set-
ting in motion,” declared Prince Max
of Baden in the course of a lengthy in-

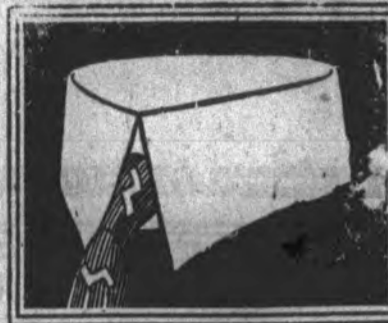

terview which appears today in the
Baden State Gazette. Asked whether
he saw a way out of the present dilem-
ma for Germany, Prince Max, accord-
ing to the report, said:

“There is only one very slender hope,
it consists in an unconditional main-
tenance of our neutrality both to the east
and the west, and in one last desperate
effort to effect a revision of the Ver-
sailles peace treaty.”

Prince Max believes that what he
calls the German resistance to the
moral invasion of bolshevism is bound
to crumble down if the checking pres-
sure from the west is kept up.

“It would be doing scant justice to
Lenine’s uncanny personality,” he con-
tinued, “if one were to believe that he
is capable of keeping more than a
sham peace with so-called capitalistic
states. Lenine believes with religious

fanaticism in the victorious march of
his idea; the dictatorship of the pro-
letariat or of the communistic portion
of the proletariat. He is, of course,
enough of a psychologist to understand
that a military invasion of any country
he wants to disrupt would be the very
means of consolidating it. His plan
would rather consist in provoking and
fostering civil war in the bordering
states so that, when the time was ripe
or invasion, he would find an open d-

NO WORK AND HIGH
PRICES ARE MAKING
HUNGARY TROUBLE

Latest Candidate for Country's
Throne Gives View of
Conditions.

Budapest, Sept. 15.—"No work and high prices are making Hungary a trouble center," said Count Etienne Crouy Chanel, who claims to be the most legitimate candidate for the throne of Hungary.

"We have here upwards of 100,000 workmen who are either without work or else have to work for 1,000 crowns a month, the price of a pair of shoes," he continued. "Besides them, we have 50,000 government employes left over from old Hungary whose pay is about half of the workmen. Then we have 50,000 army officers who insist that they be paid. Then there is a large number of landowners from the provinces given to Serbia, the Czechs and the Rumanians, who have no means of livelihood, having been driven from their lands.

"When these people begin considering their troubles, they turn to the wealthy Jews as the cause, or else to the Communists, and therein lies the origin of the so-called 'White-terror.' The immediate solution for these

people is to emigrate but for that they have not the money or else cannot secure passports. They cannot become farmers overnight. Even if the government divided the land they would need to learn to farm and would need capital to build houses and buy machinery. The factories cannot start because of lack of coal and raw materials."

"Hungary has lost more than any nation in Europe by the peace treaty. In addition she has had two costly revolutions. It is no wonder our minds are deranged."

NOTICE OF SERVICE BY PUBLICATION.

North Carolina, Pitt County.
L. F. Davis
vs.
J. V. Worthington.

The defendant above named will take notice, that an action entitled as above has been commenced in county court of Pitt county, North Carolina, to obtain judgment for the non-payment of three promissory notes in the sum of \$275.00 executed by the defendant to the plaintiff above named; and the said defendant will take notice that he is required to appear before the clerk of the Superior Court of Pitt county, North Carolina, on the 20th day of August, 1920 at the court house in Greenville, then and there to answer or demur to the complaint of the plaintiff in said action, or the plaintiff will apply for the relief demanded in said complaint.

This the 16th day of Aug., 1920.
Clerk of the Superior Court of Pitt County.

Pete, listen hard!

Buffalo, N. Y.
—on a Saturday!

When it's your good luck to butt into Buffalo, go to that store on Ellicott square where the dark haired clerk slips out Camels with both hands—plus a tank of talk on the side!

The thing that tickled me most was his sureness that I was after Camels! As soon as I had my coin on the counter and before I could say a word, he flashed me a package of Camels! When I asked him how he knew I wanted Camels, he took a pull on his laugh stock and soaked me with this:—"Ain't tell you, old mayonnaise—I'm dressing!"

After he had waited on several other men who drew their Camels like I did, this salesman said:—"For a fact, most men here smoke Camels. They hit the popular taste! Camels have the right body and the right mildness and the right flavor! They're all right!"

And, Pete—he added this without a stutter: The more I see of the world and the more I learn about cigarettes, the more respect I have for Camels and Camels quality! I don't believe a better cigarette could be made at any price! And Pete—oh, Pete—listen to this gem:—"And it's an odds on bet I'm a good judge. I've tried 'em all—and my taste is the jury box!"

If that ain't a swell line of Camel talk, I'll sell my shoes! But, Peter, that salesman is right! It's my belief that no cigarette in the world can be favorably compared with Camels—they're so smooth and mellow and delightful!

I'm herewith slipping between the sheets, old book. So, you tell 'em the rest—you're so full of knowledge!

Sincerely

PAPERS OF BRITAIN

PUBLIC'S MONEYS

Report Just Issued by Committee Sheds Fresh Light on the Situation.

London, Sept. 15.—British papers are printing almost daily examples of what they term the waste of public funds. A report just issued by the committee of public accounts sheds fresh light on the subject. Nearly \$8,500,000 was involved, it appears, in the government's plan to finance the Russian General Alexieff just before the bolshevik revolution brought about his collapse. Part of the plan was to set up a Cosack State Bank in Siberia, and for

that purpose \$2,500,000 was loaned to Russian financier. But the bank was never set up and the committee wants to know what became of the money.

The Ministry of Munitions paid \$12,250,000 for a plant begun in 1917 and which, when the war ended, was only half finished. For this outlay, the committee points out, the country received no benefit whatever except through the stimulus to the steel trade.

Waste of nearly \$300,000 is charged by the committee to the Admiralty on a scheme for establishing schools to train boys in pneumatic riveting.

Cases are referred to by the committee where government officers holding responsible positions allotted contracts either to themselves or to firms in which they were interested. Such cases the committee asserts, "are especially liable to become a no occasion for scandals."

It looks good to see such an army of bright little folks on the school campus.

SHORTAGE OF COAL BECOMES GRAVE IN PORTUGAL DISTRICT

(Continued from page one.)
 food and fuel has been emphasized by a statement of Premier Granjo made in Parliament in which he said that there was a lack not only of coal and provisions but of all other articles indispensable for living. Since there was only 10,000 tons of sugar to supply the government was going to prohibit its sale in restaurants and pastry shops so that the hospitals of Portugal might not run short.

"Butter, lard, coal, oil and even vegetables have disappeared from the market since government prices were fixed for those articles," said the Premier. "The bread question is even more desperate than the others. The wheat in this country will barely suffice to supply bread for the next five days. Wheat contracts are being closed by the government at a very high price. The maize harvest is so bad that we have already imported 100,000 tons of it. There is no coal in the city of Lisbon where the poor are tearing up their floors to cook their food and the foreign coal is sold at such an exorbitant price that it does not even allow our fishing vessels to go to sea for fish."

DECORATORS FOR FAIR WILL ARRIVE THIS AFTERNOON

Special decorators for the Pitt County Fair, which is scheduled to take place in Greenville next week, will arrive this afternoon, and will immediately, upon their arrival, begin decorating the city for the big event. Every business man should make it a point to see that his place of business is decorated. It is "Our Fair," and the reputation of Greenville depends to a large extent upon the success of this the first Pitt County Fair to be held at the new fair grounds. Decorate and add to the success of the occasion.

SENATOR JIM WATSON DENOUNCES THE SOUTH

Sullivan, Ind., Sept. 15. — United States Senator James E. Watson, Republican candidate for re-election, in a speech here today bitterly denounced the South. "The south has been in the saddle for the last seven years," said Watson, "and the south is not competent to handle the affairs of this nation. The South has robbed the North systematically under Woodrow Wilson. You people in the North pay the taxes and the South has got rich. You Northern farmers had your wheat price fixed while Southern cotton made the Southerners wealthy. If you want four more years of Southern control, vote for Cox."

EVANGELISTIC MEETING BY "CYCLONE MACK"

Rev. B. F. McLendon, familiarly known as "Cyclone Mac," of South Carolina, has been secured to hold an evangelistic meeting in Greenville to continue through four or five weeks, beginning on either the 17th or 24th of October, the exact date to be determined upon the time he will close a meeting in New Bern which begins there next Sunday. The meeting here will be held in a tent which will occupy the vacant lot on the corner of Third and Cotanch streets, immediately behind the post office. The tent will be amply large to comfortably accommodate several thousand people.

Mr. McLendon is among the most noted evangelists in the south, and has held successful meetings in all parts of the country. His preaching of the Gospel is unique and effective and wherever he goes the people hear him gladly. The Ministers Association have been planning some time for this

evangelistic meetings, and for the perfection of these plans a meeting of the ministers and representatives of the several churches of the town was held last night in Jarvis Memorial Methodist church. At this meeting several committees, on each of which all the churches are represented, were named to lead in the arrangements for the McLendon meeting. All the details will be worked out by those committees in ample time, and it is expected that the evangelistic meeting will prove a great blessing to this entire community.

Ride On Spotless Guaranteed Tires

More Mileage—Less Trouble

Spotless Smooth and Non-Skid Tires are reliable and dependable. Guaranteed to run 6,000 miles under severe road conditions. Hand-made, wrapped tread. Built one ply thicker and two to three pounds heavier than most tires at same price. Wrapped tread construction lessens danger of blister or stone bruise. Non-skid feature comes from suction tread, instead of raised tread that soon wears off. The Spotless tire tread is molded down in the tire forming a vacuum—grips the road. Factory costs have advanced 25 per cent. Our prices established on old costs are still in effect. It will pay you to come in and see us before buying.

Gentry & Gorman

Our Wednesday's sale of 52070 pounds, while not making as high an average as we have made, (there being so much common tobacco in the sale) was the best as to price that we have had this season.

The thin bright and common tobacco is very much neglected, but tobacco, free of green and black leaves, that has body is selling nearer its value.

We advise grading the bodied tobacco and holding the first primings as they are bound to do better we also believe the common tips will bring more later on.

We attach some sales made Wednesday:

Sales and averages made on the 15th day of September, 1920:
