

SEC. HOUSTON REFUSES TO GRANT FURTHER CREDITS TO SOUTHERN PLANTERS

SAYS TREASURY TO NOT AID IN KEEPING COTTON FROM SALE

Secretary Declares Department Cannot Act in Accordance With Request. PLANTERS PREPARED FOR CARRYING FIGHT TO FEDERAL RESERVE

Senator Smith of Georgia Asks for Lower Rate of Discount on Loans. Washington, Oct. 14.—Agricultural interests carried their fight for amelioration of credit condition today to Secretary Houston, of the Treasury Department.

The Treasury would not be a party, Mr. Houston also declared, to the withholding of any commodity from the market in order to maintain artificially high prices. Senator E. D. Smith, of South Carolina and other spokesmen for the delegates, in urging financing restoration of the finance corporation declared in favor of extending credit to Germany.

"Germany," the Senator said, "must live. I see no reason why her bonds should not be accepted." Later the delegation carried out its plan of asking a hearing before the full membership of the Federal Reserve Board.

"I ask one specific thing," Senator Smith, who was again the spokesman, said in summing up the case for the producers. "Give the agricultural interests a lower rate of discount in this distressing time than you do anybody else."

There was a distinct feeling of optimism among the delegates when they left the conference with the board. Although no action was taken by the board, it appeared to rest on the belief that board members were sympathetic towards the problems of the farmers.

FIVE MEN KILLED IN BOILER EXPLOSION IN FAYETTEVILLE TODAY

Fayetteville, N. C., Oct. 15.—Five men were killed and one seriously injured when a boiler in the cotton gin of the Bracy Gin Company, near Rowland, Roberson county, exploded this morning. The dead are Robert Bridges, part owner of the gin; two other white men and two Indians. The injured man, who is a negro, was brought to a hospital here. He has a fractured skull. The cause of the explosion has not been determined but it is believed by many due to water in boiler being exhausted. Others are of the opinion blast caused by an explosive in the boiler. Work had been done on pop valve yesterday and this morning the man who did the work on the valve had gotten only 150 yards away when the explosion occurred. One side of building torn away by explosion.

HARRY M. BLAIR Harry M. Blair, assistant to Fred Upham, treasurer of the Republican national committee, was an important witness before the senatorial committee investigating campaign funds.

PORTUGAL MAKING EFFORT TO RELIEVE SHORTAGE OF FOOD

Government Takes Hand as Discontent Becomes Manifest Among People.

Lisbon, Oct. 15.—The government is trying to find a way to relieve the serious shortage of all necessary articles of food as the discontent of the people in face of the present situation is daily becoming more manifest. The problem is a difficult one as no sooner are the articles tabulated at a fixed price than they totally disappear from the market.

Officials were appointed recently to search shops and even the shopkeepers' private houses for the vanished foodstuffs including potatoes, oil, lard, rice, coal, sugar and bacon. Many hidden stocks were seized and heavy fines inflicted on the transgressors. Lately the searches have had practically no results and the strain of living assumes alarming proportions.

Decrees have been issued by the government granting free transit and commerce throughout Portugal of rice and butter, two products which have been unobtainable. Free importation of rice, maize, potatoes and vegetables also is decreed.

In view of the utter lack of sugar to supply the population of Portugal, the government has forbidden, two days a week, the sale of cakes or pastry. Matches have reappeared on the market by intervention of the government after a period in which none was obtainable.

MINE WORKERS ASK FOR INVESTIGATION OF ALABAMA MINES

Indianapolis, Oct. 15.—United Mine workers of America announced today that they would ask the federal government to investigate the report of poisoning in Alabama coal fields. It is said a number of mines have been surrounded by high board fences with guard houses at openings to prevent entrance or exit without permission and in a majority of cases miners had been dismissed for vagrancy.

BRITISH GOVERNMENT ANNOUNCES EMBARGO ON COAL SHIPMENTS

London, Oct. 15.—The government has placed an embargo on coal export because of the threat of miners to strike Monday. Building and Loan shares, 30th series now on sale. Home B. & L. Ass'n.

SAYS BANKS HAVE GIVEN SUPPORT TO NATION'S BUSINESS

James Alexander Tells Manufacturers of Way Business Men Were Supported

SAYS PEAK OF CREDIT EXPANSION MUST SOON PASS AWAY EVERYWHERE

President of National Bank of New York Predicts Stable Price Level.

New York, Oct. 15.—James S. Alexander, president of the National Bank of Commerce in New York, told American exporters at the annual convention of the American Manufacturers Export Association here today that the banks had not failed to co-operate with business men to the fullest extent in the present business era. If business men felt there had been any such tendency on the part of the banks it was due to a misconception or a failure to give weight to fundamental facts, he said.

Mr. Alexander said he desired to answer the charge made by the President of the export association that the banks co-operate readily with business in times of prosperity but when hard times come they withdraw their assistance.

Mr. Alexander admitted that in the past there had been some basis for such an accusation but he attributed this to the fact that the banks were not then organized so as to support one another and each was compelled to protect itself by contracting its loans in times of stress. Under the Federal Reserve system, however, Mr. Alexander said this fundamental weakness in the American banking structure had been corrected.

"During the period through which we have recently passed," he went on, "never before witnessed in this country, banking credit."

BOSTON BEGINS TO ADVOCATE GREATER SUPPLY OF NURSES

Movement on Foot to Private Trained Nurses for Private Home Use.

Boston, Oct. 15.—A movement to build up an adequate body of nursing attendants to serve at moderate wages in homes where outside care is needed in cases of sickness but where means are lacking to pay trained nurses has been started in this city. The Household Nursing Association is offering women from twenty to forty-five years of age a carefully planned course which it describes as designed to prepare them for the care of sickness in the home and the care of the home during sickness.

New classes are formed every seven weeks. The expense for the training is small. The course extends over a period of seven months, beginning with study of the care of the house, marketing, cooking, dietetics and nursing. After this preliminary work the students are sent to co-operating hospitals for four months, receiving actual training and experience in the care of patients. After care of a mother and baby is then learned in a maternity hospital.

When the course is completed the students are given case work under supervision of a trained nurse for five months. If their work has proved satisfactory they are then given diplomas and are permitted to work independently. Through a registry system the association is able to provide constant employment for graduates of the course.

"SOME PEOPLE ARE FORTUNATE especially so are those who have attended WILLARD & SMITH'S GREAT REDUCTION SALE."

HEALTH FORCES TO BEGIN CAMPAIGNING AGAINST LEPROSY

Government Experts to Begin Use of Refined Oil Against Tuberculosis.

BACILLI OF LEPROSY SAID TO BE SIMILAR TO THE TUBERCULAR

No Formal Report of Progress Made Has Yet Been Issued in Country.

Washington, Oct. 15.—Refined chaulmoogra oil which experts of the government Public Health Service say has arrested the progress of leprosy is soon to be used by them in the fight against tuberculosis. The experiments with tubercular patients will be conducted in Hawaii.

Dr. J. T. McDonald, superintending physician of the leprosy investigation station at Kalahehi in Honolulu, with Dr. A. L. Dean, chemist and president of the University of Hawaii, will start the fight against tuberculosis, at the same time continuing their work against leprosy.

No concrete result of the use of the chaulmoogra oil in tuberculosis cases has yet been reported to the headquarters of the public health service here, but from their investigations with tubercular bacilli isolated from a patient Drs. McDonald and Dean have hopes of successful treatment of patients themselves.

The bacilli of leprosy and tuberculosis, according to government scientists, have been found to have similar characteristics, and the fatty acids of chaulmoogra oil seemingly have proved poisonous to the leprosy bacillus. This is the basis for the scientific hope that these acids likewise will be deadly to the germ of the "white plague."

Dr. McDonald has not yet made any formal report of his work with the (Continued on page ten.)

TICK ERADICATION WORK PROCEEDING NICELY IN COUNTY

Systematic Dipping Continuing With Only Slight Opposition Anywhere.

Systematic eradication work in Pitt county is progressing nicely. Of course there is some opposition to the work yet, and some cattle owners still refuse to dip their cattle but in spite of this condition, 4434 head of cattle were dipped during the month of September as against 3884 head dipped during the month of August. Of this 4434 head of cattle dipped in September only 618 head were found to be infested with ticks. This is the very best argument possible in favor of tick eradication work.

But to obtain the best results from this year's work, it is absolutely essential that dipping be continued during the next two months. Every female tick that falls to the ground now will lay eggs which will not hatch out until the warm days next spring. Every tick destroyed now by dipping means a potential crop of ticks destroyed for next year.

So often there is a tendency among cattle owners to get careless about dipping in the fall, and to stop dipping at the first cool spell. This is a mistake. Dipping can be successfully conducted without injury to the cattle until the ground is frozen and real winter sets in. To stop dipping too soon in the fall will be a decided set back to the progress gained during the summer.

Continued co-operation on the part of the cattle owners in Pitt county will go a long way towards getting rid of this pest to the live stock industry.

MRS. NATALIE LAIMBEE

To be made assistant secretary after being with a banking house for only six months is the record of Mrs. Natalie Schenck Laimbeer, former social leader, who has been promoted by the United States Mortgage and Trust company of New York. This position places Mrs. Laimbeer at the head of a number of women managers of various branches of the bank.

MAXWELL SPEAKS ON SUFFRAGE AND STATE TAX ISSUE

Chairman Corporation Commission Presents Many Facts in Address Here.

Tax issues of the state and nation, particularly the application of the income tax, and the federal suffrage amendment was presented in a forceful and convincing manner to a small but appreciative audience at the court house in this city last night by Hon. A. J. Maxwell, chairman of the State Corporation commission. The speaker devoted a greater part of his address to a discussion of general tax legislation of the state, and more particularly to an explanation of revaluation and the important part in which this will play in the future property valuation in this section of the country. He presented the supposedly objectionable features of the issue as claimed by opponents, showing in an interesting and indisputable way the soundness of the movement to put the state upon an honest and clean financial basis.

Mr. Maxwell was introduced by Attorney C. C. Pierce who told of the speaker's acquaintance with measures of taxation from experience as head of the state corporation commission, dwelling with emphasis upon his ability in handling public affairs and the service which he had rendered the state.

At the outset, Mr. Maxwell impressed his audience with the importance of the registration of the women of the county as it is evident in some sections of the state that the women's vote will become a necessity, and may be here also; therefore, registration is a wise precaution.

Taking up the constitutional amendments in regard to the tax, especially the income tax which changes the law so that an income tax may be levied on unearned income as well as on earned incomes, though the limit is six per cent. By this income tax and corporation tax it is expected to raise enough money to take care of the state's expenses without having any tax whatever upon land and personal property.

The other ballot has to do with the abolition of the poll tax as a prerequisite to voting and changing the residence of the pre-requisite of a voter to one year's residence in the state instead of two years, as at the present.

The speaker made plain the apparent discrepancy between the valuation of land in Edgecombe county and Halifax about which much criticism has been offered. It is stated that the land of Edgecombe is valued at around eight dollars per acre while that in Halifax is about thirty-nine dollars per acre. (Continued on page ten.)

WILSON WILL MAKE APPEAL IN BEHALF OF LEAGUE ISSUES

Governor Cox Relies on President in Meeting Advances of Enemy.

SAYS ISSUE WILL BE FULLY CLEAR OUT IN NOVEMBER ELECTION

Democrats Gain New Confidence from Latest Reports Over Country.

Washington, Oct. 14.—President Wilson is now practically directing the whole Democratic campaign. He is said to be in almost complete health and is working ten and twelve hours a day, devoting his attention chiefly to politics. He is now preparing the most important statement yet issued from the White House, say officials there, and it may appear tomorrow or the next day.

In this statement he will show what, in his judgment, will happen if the League of Nations is "scuttled." He will let the American people know that it is now definitely certain if Harding is elected the League will be scrapped for Harding has declared he would scrap it and he will take his election as a mandate from the people to kill the League. The issue is now so clearly drawn that the result of the election cannot be construed otherwise than for or against the League.

The President will state that without the League war is well nigh certain in the near future. He will show that the tendencies prevailing in the world at this moment spell war and will result in war unless restrained by a powerful league of nations. This statement of the President, it is believed, will have an almost senatorial effect on the electorate of the country. Not only the President but the whole Administration has flung itself into the campaign. Attorney General Palmer and Secretary Meredith joining in. They will take the stump before the week is over. The reports coming to Washington ever since Harding made his Des Moines speech has greatly heartened the Democrats. Nebraska, Colorado, Indiana, Ohio, New Jersey and even New York and Connecticut are all sending in reports that make the party leaders glad.

The wonderful improvement in Governor Cox's campaign is buoying up the party. When the Governor was here last summer he asked the President to help him. Mr. Wilson told him to go ahead and blaze out his way and he would join him in the latter part of the campaign. Governor Cox started by eliminating as far as possible the League of Nations issue from his speech consequently the first three or four weeks of his speech making were a dead failure. Everybody knew his charges of an enormous Republican slush fund was true, but these charges did not interest the people nor did they make votes.

ANOTHER MURDERER DIES ON GALLOWS IN COOK COUNTY, ILL.

Chicago, Oct. 15.—Frank Zagar, convicted of killing two men in a hold-up was hanged from the same gallows here today upon which two murderers died yesterday.

CHICAGO POLICE SAY LIQUOR "RING" AGAIN AT WORK IN SECTION

When it comes to the roof—

You must determine the quality of roofing you are going to use before it is put on your factory building.

Many ready-roofings are waterproof, reasonably sun and air-proof and acid-proof; but the true test of a roofing is the length of time that it will retain these qualities when it is in service.

RU-BER-OID ROOFING

costs more than other roofings—because it is worth more. It is worth more because it has always been manufactured on a basis of honest quality and not of price competition.

Ru-ber-oid has always been the best roofing that we could make—and The Standard Paint Company has been manufacturing ready-roofings longer than any other concern in the business.

There are a great many roofings that look like Ru-ber-oid, that feel

like Ru-ber-oid, in fact, that seem exactly like Ru-ber-oid. But they are not like Ru-ber-oid. They may pass all the so-called "tests" for ready-roofings, but the one supreme test—the only conclusive one—is the test of time. Will they last?

We know that Ru-ber-oid will wear, for it has worn on some roofs more than 25 years. So, if you want to be sure that your new roof will last, send us your order for Ru-ber-oid Roofing.

There is but one Ru-ber-oid. Look for the Man on the Label.

BARCELONA READY TO PRESENT WORLD WITH UNUSUAL FAIR

Catalonia to Undertake Greatest Exposition Ever Held Anywhere.

ELECTRICAL FEATURES TO BE IMPORTANT PART OF GREAT ATTRACTION

Government Allots Ground for Opening of Country's Big Venture.

Barcelona, Oct. 14.—Catalonia has undertaken to present to the world's approval one of the most extensive and comprehensive expositions ever held and although it is not to open until 1924 advanced. Under the supervision of General Rubio, an engineer officer the preparation already are far recently retired from the Spanish army, the slopes of Monjuch are being transformed from an arid waste into an artistically laid out garden in the center of which the exposition buildings are being constructed.

The official title of the exposition is to be the International Exposition of Electrical Industries and the General Spanish Exposition. The ground allotted by the government for the purposes of the exposition is 270 acres in extent, and if necessary 220 acres will be added, this depending on the amount of space asked for by exhibitors.

NOTICE

Chicod, Winterville, Ayden Townships Stock Law Election.

Notice is hereby given that the board of county commissioners of Pitt County, in regular meeting assembled on Monday, September 6th, 1920, ordered an election to be held in that portion of Chicod township, Winterville township and Ayden township, which is fully set out in said petition filed, said election to be held on Saturday, December 4th, 1920, at Galloway's Cross Roads, in Chicod township, and at Cox's Mill in Chicod, Ayden and Winterville townships, on the question or proposition, on a stock law territory, for within boundaries.

Beginning at the corner of the stock law fence at or near Calico Cross roads on the Greenville-Vanceboro road, then running east across said road; thence running on the east side of the Greenville-Vanceboro road northward to Black Jack, thence on the eastward side of the Griggsland Road to Rufus Galloway's; thence with the Grimmer Mill road to the Beaufort line, at or near H. A. Boyd's store. Thence on the south side of the public road leading from Black Jack to the County Home, thence North with New Bern road to White's New road; thence west with said White's road to the present Stock Law line.

Said election is called and ordered as provided by section 1074 of the Revised, shall be held and conducted, as for the election of the house of representatives.

It is further ordered, that a new registration be and is hereby required, and those who desired to vote at said election are required to register, said registration books will be open on Tuesday November 2nd, 1920, and closed November the 22nd, 1920, at sun set, that on each Saturday during the time the registration books will be opened at Galloway's X Roads in Chicod township, and at Cox's Mill in Ayden, Chicod and Winterville townships and at all other times at the home or R. L. Little, and W. S. Cox in said townships' county and state.

And all citizens, desiring to vote in said elections will be required, to vote a written or printed ballot containing the words "STOCK LAW", and those opposed thereto, shall vote a written or printed ballot, with the words written thereon, "NO STOCK LAW."

It is further ordered, that R. L. Little, be and is hereby appointed registrar, for Galloway's X Roads precinct and W. S. Cox be and is hereby appointed Registrar, for Cox's Mill precinct.

This the 1st day of October, 1920.
SAM T. WHITE,
Chairman of Board Commissioners of Pitt County.
J. C. GASKINS,
Clerk to the Board. 4-11w4wks

All the South Loves Hot Rolls

SERVE them with lots of butter and you'll get a glad smile of appreciation all 'round your table. And if you use the right flour, it's mighty easy, quick, sure and simple to bake delicious rolls. Ballard Self-Rising Flour contains the soda, salt and baking powder already mixed—saving you time, trouble and money.

You buy this ready prepared flour much cheaper than you possibly could buy the ingredients and mix them yourself. And, of course, it's much more economical than buying bread from the store. But best of all, the biscuits you bake are certain to be good—better than any guess-work—better than you could buy.

We use only the best grades of selected winter wheat. The fine, plump grains are rolled four times and the flour sifted thru a silk mesh. The soda, salt and phosphate are scientifically mixed to guarantee good results.

You know how comfortable it is to feel you are serving food that delights your home folks and guests. With Ballard you know in advance how fine everything will be. One trial will convince you. Ask your grocer for the best self-rising flour he has—

It's Ballard - that's enough

JAPAN PLANS FOR GREATER ACTIVITY THROUGH REPUBLIC

Diplomatic Relations to be Re-
sumed With Venezuela
Territory.

Tokio, Oct. 14.—Diplomatic relations between the Republic of Venezuela and the Empire of Japan may be established in the very near future, if the mission of H. Perez Dupuy, envoy extraordinary from Venezuela to Tokio, is successful. Mr. Dupuy has, for several days past, been negotiating with the Japanese foreign office to that end and feels sure of the ultimate success of his mission.

"Venezuela seeks more customers for her products," said Mr. Dupuy. Her bankers and business men realize that more customers will make sounder

copper, tobacco, long fiber cotton, sugar, cocoa, coffee, oil and frozen meats, will doubtless some of them be saleable in Japan, and in return, Venezuela can buy rice, wheat, toys, porcelains and other goods from this country."

The newly subsidized steamship lines which Japan is today promoting to improve and encourage Japanese shipping probably will call at LaGuayra, the principal seaport of Venezuela.

**HOOVER SAYS APEX
OF HIGH COST LIVING
HAS BEEN REACHED**

Topeka, Kansas, Oct. 14.—The apex of the high cost of living has been reached in America and from now on prices will undergo downward along lines of readjustment, Herbert Hoover, declared in an address here today. He said labor's wages need not come down with living cost if labor increases in production.

We can almost see ten cents sugar again, as it only lacks one cent of dropping to that price.

Hurry! Cotton growers and have cotton ginned. Take it immediately to the market and compel the buyer to take it off your hands. It is worthless to you.

Hurry! Join the Bear side of the cotton market and drive the price down to fifteen cents as that will help them to reach rock-bottom prices right away.

Hurry! Let your wife and children learn as soon as possible that they need not expect anything out of this crop for their labor. It will make them happy to learn it.

Stop! We have a world necessity in our cotton. Civilization cannot endure without it. It is the most valuable and precious product known to mankind.

Stop! Don't sell a bale of your cotton unless absolutely necessary to meet pressing obligations, and then sell only off-grades. The trouble with most cotton producers is that they bring all their cotton in at one time and are so anxious to see ready money that they sacrifice the larger profits the future will bring them to get immediate cash. Any man selling his cotton at present prices is selling it below the cost of production.

FRIDAY, OCT. 15, 1920.

The price reductions in the stores helps the people to turn loose their money, and many are taking advantage of the opportunity to get goods lower.

If you think there is much Republican sentiment among the woman of North Carolina, a look at what the pupils of the Greensboro College for Women did when a speaker denounced President Wilson and the league of nations in their presence will put you wise on that score.

INDUSTRIAL EDUCATION IN THE SOUTH.

The new Delgado Trade School at New Orleans, La., will be open by January 1, 1921. The building is nearly completed now.

Some years ago Isaac Delgado, a wealthy citizen of New Orleans, died leaving in his will the sum of \$800,000 for the establishment of a trade school

for boys and men. The city of New Orleans put the money at interest and the sum has now grown to be a million and a quarter dollars. By the terms of the will this money must all go into buildings and equipment.

However, the State of Louisiana is entitled to receive a considerable sum for trade education from the Federal appropriations under the vocational education act. This amount the State supplements by \$50,000 a year provided for by the State legislature for the maintenance of the trade school. This gives the school a large annual maintenance fund.

According to a recent report of the Federation Board for Vocational Education there is a tremendous increase in the number of vocational classes in trade and industrial education in the southern region, including the states of Virginia, North Carolina, South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, and Texas.

RED CROSS APPROPRIATES.

The American Red Cross has appropriated \$48,200,000 for its program of relief and service for the fiscal year ending July 1, 1921, according to official announcement from national headquarters.

This is \$21,000,000 less than the similar appropriation of the Red Cross for the fiscal year recently ended. Of last year's appropriation, \$38,386.40 was spent in the southern division, the states of Georgia, Florida, Tennessee, North Carolina and South Carolina, although the total receipts to the Red Cross from the division were but \$500,117.

The proportionately large amount spent in the south is due to the number of camps, military posts, and United States Public Health hospitals located in this section, as well as the great expansion of its nursing and social service program which the Red Cross undertook in the south.

In the light of the nearly a million spent in the south last year, all of which was exclusive of expenditures by the individual chapters, it is believed a proportionately large amount of the 1920-21 appropriation of the Red Cross will also be spent in the south.

Important among the items of the budget for the coming year, announces national headquarters, is \$31,500,000 for relief to foreign lands, which includes \$11,000,000 in purchased supplies on hand, but not yet distributed. This will enable the Red Cross to con-

tinue its humanitarian program of aiding stricken peoples to re-establish themselves, fighting the disease epidemics that threaten many countries, effacing largely the remaining traces of blight left by the world war, Central Europe faces another winter of famine, pestilence, typhus plagues and other horrors. The Red Cross will continue to fight them, not only for Europe's sake, but to keep such maladies from American shores.

Appropriations for domestic activities of the Red Cross in 1920-21 total \$10,700,000, of which the largest item is \$7,800,000 for civilian relief work such as assistance for families of soldiers, sailors and marines. Of the total for civilian relief, \$5,000,000 is held in reserve for actual disaster relief in case of such floods as that at West Point, Ga., last year, and fires and tornadoes.

For assistance to soldiers, sailors and marines in hospitals and in camps at the Red Cross has set aside \$1,900,000. For improvement of health and prevention of disease throughout America, \$4,200,000 has been appropriated. One million will be fore developing the peace-time program of the Red Cross by service to its chapters in all regions.

COMPANIES SELLING STOCK ("BLUE SKY")

The following is a list of companies which held license September 1st from the North Carolina Insurance Commissioner, under the provisions of the Blue Sky Law to do business in the state.

As required by law, each license recites in bold type "that the Insurance Commissioner in no wise recommends the securities to be offered for sale by such company" and that "it shall be subject to revocation at any time for cause appearing to the commissioner sufficient."

- A. B. Davis Co., (Texas Leasing Co.), Nashville, Tenn.; American Grocers Society, Newark, N. J.; American Southern Motors Corp., Greensboro, N. C.; Anderson Motor Sales Co., Charlotte, N. Co., Richmond, Va.; Raleigh Petroleum Co., Raleigh, N. C.; Seminole Phosphate Co., Goldsboro, N. C.; Silver Dress, Inc., Dover, Del.; Southport Fish Scrap & Oil Co., Southport, N. C.; Spear Oil Co., Stephensville, Texas; Victor Oil Products Co., Little Rock, Ark.; Virginia-Carolina Medical Co., Winston-Salem, N. C.; Visible Measure Gasoline Dispenser, Louisville, Ky.; Wizard Automobile Co., Charlotte, N. C. Since September 1st only two licenses have been issued: The Pepsi Cola Co., New Bern, N. C.; Sunset Oil Corp., Oklahoma.

SEPTEMBER TOBACCO REPORT.

Tobacco sales were much less during September than last year. The prices averaged \$19.21 compared with \$41.10 per hundred a year ago.

There were 40,480,056 pounds producers tobacco reported sold during the month. The 32 warehouses failing to report are estimated to have sold \$,040,000 pounds, making a total probably sold during the month of 48,520,056 pounds as compared with 79,220,071 pounds sold during September last year. The highest priced markets were Mebane \$26.65, Fuquay Springs, \$23.20, and Wilson \$22.52. The Wilson market sold 7,223,200 pounds, which was valued at \$1,620,065. The total state's sales during the month were valued at \$9,320,703. This indicates that farmers are complying with their promises to hold the tobacco from the market. The tobacco organizations seem to have some weight. The lowest prices were shown on the following markets: Lumberton \$13.24, Maysville \$13.50, Burgaw \$13.06. There was only one report from Lumberton.

It has cost over thirty cents per pound to produce the crop so that the present returns are showing a loss to the farmer. The product offered for sale so far has been of poor quality, mostly lugs and primings. Much of that marketed would have damaged on the farm. Farmers complain that they

cannot meet expenses with the prices they are receiving.

The mid-summer wet weather caused a rapid, tall growth. The late August and September hot and dry weather further hurt the development. The results are that a pile of tobacco will weigh but 60 per cent as much as last year. The texture is papery and crisp. The grade is low and faulty. The color is good. The estimated production fell from 424,000,000 to 371,000,000 pounds from August to September. The United States crop forecast is but six per cent more than last year's crop even though the present acreage is greatly increased.

"THE TALK OF THE TOWN—Willard & Smith's Great Reduction Sale."

PEOPLE ARE GOING AWAY.

Every day hundreds of people leave our store with their purchases at a discount of 33 1-3 cents on the dollar and wonder how we can do it—WILLARD & SMITH'S GREAT REDUCTION SALE.

OCTOBER'S BRIGHT BLUE WEATHER.

O suns and skies and clouds of June,
And flowers of June together,
Ye cannot rival for one hour
October's bright blue weather.

When loud the bumblebee makes haste,
Belated, thriftless vagrant,
And goldenrod is dying fast,
And lanes with grapes are fragrant.

When gentians roll their fringes tight
To save them from the morning,
And chestnuts fall from satin burs,
Without a sound of warning.

When on the ground ripe apples lie
In piles like jewels shining;
And redder still on old stone walls
Are leaves of woodbine twining.

When all the lovely wayside things
Their white-winged seeds are sowing,
And in the fields still green and fair,
Late aftermath are growing.

When springs run low and on the
brooks
In idle golden freighting,
Bright leaves sing noiseless in the
Of woods, for winter waiting.

When comrades seek sweet country
haunts,
By twos and twos together,
October's bright blue weather.
And county like misers hour by hour

O suns and skies and flowers of June
Count all your boasts together,
Love loveth best of all the year
October's bright blue weather!
—Helen Hunt Jackson.

Mrs. W. H. Norris, who has been taking treatment in St. Luke's hospital, Richmond, has returned home.

Mrs. C. E. Daniels and little son, who have been visiting her mother, Mrs. G. A. Clapp, returned to their home in Newbern today.

Mr. E. F. Tucker who has been confined in Moore-Herring hospital, Wilson, for a few weeks has returned home. His many friends are glad to see him return home greatly improved.

GORMAN CORRECTS REPORTS FROM CORPORATION COMMISSION
Mr. Editor:

I note in Thursday's issue of the Daily News the sales for the market is given as 4,137,402 pounds. This is the report as sent out by the Corporation Commission but is 816,573 pounds less than was reported to the board of trade. The market sold 4,973,975 lbs. in September. The two warehouses of Foxhall and Johnson having failed to make their report to the Corporation Commission is the cause of this discrepancy.

J. N. GORMAN.

23 Pairs Girl Black Kid Lace Shoes, values up to \$4.25. All sizes at \$1.85, Pitt Shoe Co. 15-16

TO THE PUBLIC.

This is to announce, to the good people of Pitt county, that I am not a candidate for treasurer on the Republican ticket, as announced in Thursday's Daily News and Reflector. I will further state that I have never given my permission for my name to be used as such.
Very Respectfully,
MANA PATRICK.

WOMAN'S CLUB HOLDS INTERESTING MEETING

Elects Officers for the Ensuing Year. (Mrs. Mrs. O. F. Clark, Reporter.)
After an intermission of several months the Women's Club held its first meeting of the fall in the Chamber of Commerce rooms yesterday afternoon at 3:30 o'clock. The president, Miss Marion McFayden, presided. The minutes were read by the secretary, Mrs. S. K. Phillips and approved. This was followed by roll call.

The treasurer, Mrs. L. W. Tucker, reported that \$1530.12 had passed through her hands during the year and that \$1419.44 had been paid out for various sundry things, leaving on hand in the treasury \$120.68. The club being without a president for the past few months, Mrs. Hugh Ragsdale was nominated and elected.

A telegram was read from Thos. Warren, chairman of the state Democratic executive committee urging the women to cast their vote in the coming election. It was decided by the club to invite Miss Mary Graham, President of Peace Institute, to come to Greenville, October 20th with Senator Overman to make the club an address. All club members are requested to meet in the clerk's office at court house at 2 o'clock and attend the speaking in a body.

The club was delighted to have as their guest Miss Sallie Joyner Davis of the East Carolina Teachers' Training School who made a short, but effective talk. Several volunteered to go in the rural districts for the purpose of urging the women to register and vote. The concluding feature of the meeting was a delightful and inspirational talk by the club's honorary president, Mrs. R. R. Cotten.

Following are the officers for ensuing year: President, Mrs. Hugh Ragsdale. First Vice President, Mrs. S. T. White; 2nd Vice President, Mrs. R. Williams; Treasurer, Mrs. L. W. Tucker. Secretary, Mrs. S. K. Phillips. Auditor, Mrs. H. A. Bost Reporter, Mrs. O. F. Clark.

THE TOBACCO MARKET WAS STRONGER THIS WEEK

This has been a much better feeling week on the tobacco market, with averages showing an increase over earlier in the season. The week opened with a very large sale Monday, not so large Tuesday, smaller Wednesday and Thursday, and large again today. If the farmers bring their tobacco in good condition and market it slowly there is no reason why prices should not continue to improve, though they will not get back to last year's figures. It is doubtful if the price ever goes as high again as was paid for the 1919 crop.

PEOPLE ARRIVING EVERY TRAIN
to attend the biggest event in history of Pitt county. Willard & Smith's Great Reduction Sale.

APPEALS TO DEMOCRATS FOR ADEQUATE FUNDS IN PRESENT CAMPAIGN

To the Democrats of South:
Let me appeal to every Democratic man and woman in the South to immediately make a contribution to the National Democratic Campaign fund.

The tide to victory has turned. We are sure of victory if the proper financial support is given. The election of a Democratic president means peace, prosperity and happiness for the South. No one can tell just what will happen in the event of Republican success. The professional politician of the North is jealous of the prosperity of the South.

The funds should be immediately contributed. Delay may be fatal. Send your check today to your State Finance chairman.

JOE SPARKS,
Assistant Treasurer, Democratic National Committee.

NINE MEN WILL BE LED TO GALLOWS IN STATE OF ILLINOIS

Largest Number of Men to be Executed in State in Several Years.

Chicago, Oct. 14.—Nine men will be led to the gallows in the Cook county jail in the 48 hours of October 14 and 15.

The largest number executed at any one time heretofore was four, who were hanged Nov. 11, 1886, for participation in the Haymarket riots.

Fourteen men were to have been executed Oct. 14 and 15, eight on the 14 and six the following day, but five of them have obtained writs of superseadeas and appealed to the supreme court.

The seven condemned men to hang October 14 are:

John Henry Reese. On the night of Dec. 5, 1919, he murdered his wife Mary with a hatchet when she is said to have confessed her love for another man. After dismembering the body, Reese buried it in a lot near his home.

Nicholas Viana, Thomas Errico and Frank Campione, all convicted for the murder of Andrew P. Bowman, on June 24, 1919 and held by police to be members of a "murder trust," against which were charged six murders and more than fifty holdups.

Sam Cardinelli who was called by police the head of this group of murderers was to have been hanged tomorrow but obtained a writ of superseadeas staying execution.

Antonio Lopez, Sam Ferrera and Joe Costanzo, sentenced for the murder of Antonio Varchetto, who was killed while resisting robbery also are to be hanged tomorrow.

On October 15, these two are set down for execution.

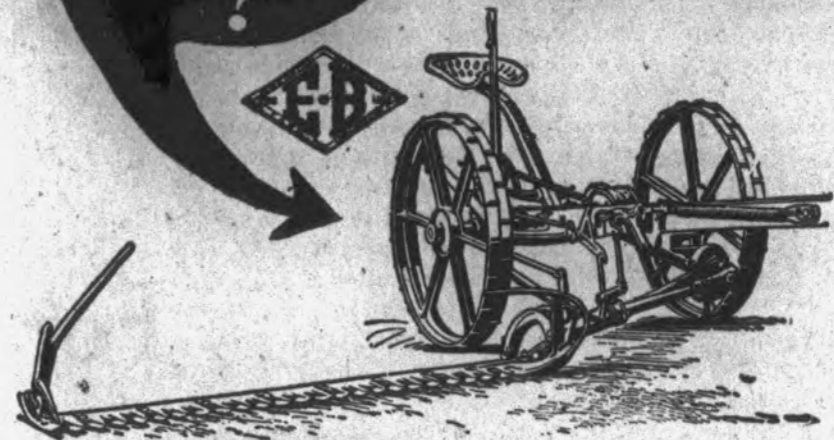

Arthur E. Haensel—Former service man who shot and killed his wife, Cecelia, Feb. 4, 1919, when, on returning from service, he questioned her fidelity.

"OFFICER, WHY SUCH A CROWDED thoroughfare today? Oh, Willard & Smith's Great Reduction Sale."

How Would You Like to Save Half the Work Time and Cost of Mowing?

HERE is the only successful wide-cut mower. It saves 50% of your mowing cost by cutting twice as much in the same time. Compensating lever and spring carries the cutter bar on the drive wheels instead of dragging it on the ground. This increases traction, does away with side draft and weight on horses' necks—greatly lengthens life of machine.

E-B Standard Mower

This mower is as easy on your horses as plowing corn, and will cut two acres of hay in every mile the horses travel. Come in and see it. Bring your boy along.

"THE LADIES' STORE."

Stratford Clothes

Take A Lesson In Clothes Buying

SEE for yourself that style is not the only glory of Stratford Clothes. Just drop into our store for a few minutes some day this week. You won't be urged to buy or obligated to spend a penny—but you will learn how to judge a suit of clothes!

We'll show you some vast differences between Stratford tailoring and the ordinary. We'll do more than touch upon fabric and sewing. We'll go into the Stratford method of inner construction.

You'll observe that Stratford sacks have no linings to crack, rip and wear out. None to twist the coat out of shape. You'll note that the fabric of the suit itself is used as the inside trim, with seams beautifully satin-piped. You'll see, too, that Stratford trousers are double-crotched to give double strength and wear.

You'll mark many other excellencies that will show you wherein real value lies in a suit of clothes.

Your Cash Dollar in this store will mean a Great buying power. Come in and investigate for yourself.

SERVICE

Today the progressive business house realizes that its success is dependent upon the progress and welfare of the community which it serves

Success in business is service, and success means to give as well as to take. Efficient merchandising, therefore, intends to give as well as to take.

A store of high character, therefore, that serves its community from a standpoint of service must naturally give to its customers reductions in prices in keeping with the decline of the market.

Our prices have been materially reduced for the past thirty days and it will be the aim and policy of this business to continue further reductions from time to time in order to co-operate with our friends and render--SERVICE.

To visit our store in Ayden is to really know the big way in which this idea is being developed. It consists of:

To Render Efficient Service

To Offer Only the Best Merchandise

To Maintain Right Prices

One price to all

"Confidence imparts a wonderful inspiration to its possessor."

--Milton

We have endeavored to offer to our customers all the confidence---inspiring factors that modern banking has to give--

Experience, Resources, Organization Service and Courtesy.

Greenville Banking & Trust Co.

E. G. FLANAGAN, President,

W. H. WOOLARD, Vice President and Cashier.

SAYS BANKS HAVE GIVEN SUPPORT TO NATION'S BUSINESS

(Continued from page one.)

ness as they should, it is because he... any one feels that the banks as a whole have not co-operated with business... the loyal co-operation of the banks with business maintained the sound-perpetuate over-expansion in domestic does not fully appreciate the fundamentals involved." While the American credit structure was highly expanded, he said, the volume of gold had shrunk and it had become advisable for the banks to conserve their positions with the utmost care. He regarded this as the best service the banks could render to business for "weakened banks would have meant disaster."

The peak of credit expansion must soon pass," he predicted, but he foresaw that there must be established stable price levels "so that business could be conducted on the basis of confident judgment rather than of guess and speculation." There also must be adequate production and "credit should be conserved so that there would be ample funds for long time investment for railroad building and repair and for housing construction." Mr. Alexander pointed to the danger of seeking to stimulate by artificial measures the volume of American foreign trade and said the bank could not finance that trade on such a basis as to

HEALTH SERVICES TO BEGIN CAMPAIGNING AGAINST LEPROSY

(Continued from page one.)

the tubercular germs to officials here, but unofficial reports from Honolulu quote him as saying that scientists at the University of California have discovered that the fatty acids of chaulmoogra oil are bactericidal discovered that the fatty acids of chaulmoogra oil are bactericidal to an acid-fat bacillus, in which class are the leprosy and tuberculosis bacilli. The inference, according to the doctor, is that what has been done to end the dread of leprosy may possibly be repeated to relieve the world of tuberculosis.

The public health service maintains a tubercular hospital in Hawaii separate from its leprosy stations, and the experiments with tuberculosis are to be conducted at the former. Health officials here refrain from any prediction results, but express hope that chaulmoogra oil will prove a specific for curing tuberculosis.

MAXWELL SPEAKS ON SUFFRAGE AND STATE TAX ISSUES

(Continued from page one.)

Investigation shows, said Mr. Maxwell, that in making out the report, the assessors left out the improvements on the land in Halifax which, when added, will bring Halifax values up to about those of Edgecombe.

It was also shown that there is much more unimproved land in Halifax than in Edgecombe, which is another important point in considering this question.

Sales light today, very little will be sold after dinner.

Gorman's sold 54,882 pounds Thursday. Prices on all fresh (not shipped) tobacco as high as our Wednesday's sale.

We look for smaller sales until we have a season and believe prices will continue to improve. Prices on all grades closed higher Wednesday than they have been this season.

The finer tobaccos fully ten dollars higher and the common and medium grades from \$1.00 to \$5.00 higher.

We advise closer grading, many are tying up the barns, no grading at all this leaves the colors mixed and effects the price greatly. Throw out the green and black leaves and get your colors together. It is but little trouble, or expense to you but will pay you handsomely.

Don't try to get rid of your tobacco too fast, keep off of the markets when they are glutted.

Drive to Gorman's and you will go home with the top of the market. WE PROTECT YOU.

Gorman's has 1st 2nd sale Monday, 1st Tuesday, 3rd Wednesday 2nd Thursday and 1st Friday.

GENTRY PULLS AND GORMAN PUSHES—THE STEAM PLANT DOES THE REST
