Senator Hitchcock Plans to Make Available Federal Reserve Profits as Soon as Possible

Washington, Dec. 2.—The plight of farmers due to falling prices was taken to congress today.

Agricultural committees of the Senate and House in joint session began hearings on conditions brought about by falling prices preliminary to devising relief measures.

Senator Hitchcock of Nebraska, told the conference he planned to introduce measures making available the profits of the Federal Reserve banks, amounting to about \$60,000,000 for loans to agricultural interests.

Legislation extending a billion dollar credit to Germany was advocated before the joint committee by J. J. Brauer of New York, who claimed to represent the German government.

Representative Campbell of Kansas suggested that profits of the grain corporation, about \$100,000,000 be made available for loans to farmers.

Farmers in some sections of Nebraska have said they will burn their corn because at current prices it would not pay for the coal.

MOB STORMS JAIL AT GOLDSBORO TO SECURE PRISONERS

Former Deputy Constable Futrell of Wayne County Shot in Assault on Court House

Goldsboro, Dec. 2.—Herbert Futrell, former constable in Wayne county was shot when a mob attacked the Wayne county courthouse tonight in the attempt to lynch five negroes whose trial on the charge of murdering a white man, Herman Jones, was started this afternoon.

The assault on the courthouse came at nine o'clock and in the firing of about three hundred or more shot all the window lights on one side of the building were smashed.

The report spread immediately that Futrell had been shot by members of the garrison. This was vigorously denied by guards on the inside of the jail.

GENERAL OBREGON HEARS PLEADINGS OF OFFICE SEEKERS

Mexican President Sought by Hundreds With Different Tales to Tell How They Aided

MANY SPEND LONG HOURS WAITING THEIR TURN TO VOICE TIDE OF OPINION

General Declares That People Have Wrong Idea of Position Assumed by Executive

Mexico City, Nov. 18.—In a grandly-furnished office on the second floor of a building undergoing repairs General Alvaro Obregon as President-elect, has received daily hundreds of men and women who came here to plead their cause with him before his inauguration.

Following an arduous campaign which culminated in his overwhelming election last September, General Obregon came to Mexico City and established headquarters in the office on Avenida Madero where his candidacy was conducted.

Outside there were several antechambers which, from 9:30 o'clock in the morning when President-elect arrived for work, until 7 o'clock at night, with a couple of hours allowed for lunch were crowded with people.

There were numerous doors to pass before the inner chamber is entered and at each stood two guards, who questioned closely all comers.

FLOUR MILLING IS CONDUCTED QUIETLY IN KANSAS SECTION

Recent Action of Industrial Court Restricts Order in Virtually All Milling Districts

Chicago, Dec. 2.—The wheat flour milling business, to which attention was called by the Kansas Industrial court's investigation of Kansas millers for reducing operations, is the quietest it has been in ten years, according to A. P. Husband, secretary of the Millers National Federation.

The total for November was 1,700,263 against 2,445,698 last year.

Overland across the Mississippi, Ohio and Potomac rivers to Northern mills and Canada 217,371 against 534,145 last year.

These make the total movement of the cotton crop brought into sight for the four months ending close of November 4,340,514, against 5,240,874 last year.

JAPAN AND CHINA AGAIN IN GRIP OF STORMY RELATIONS

Sending of Troops to Frontier by Japan Arouses China to Immediate Activity

SERIOUS CONTROVERSY INVOLVED IN BOUNDARY TROUBLE OF OLD DATE

Chinese Press Accuses Japan of Being Actuated by Ulterior Motive in Its Attack

Peking, Nov. 2.—The fact that Japanese authorities sent troops to the frontier town of Hungchun, in Chinese territory, for the announced purpose of protecting Japanese subjects, after the town had been raided by bandits, appears to have raised a serious controversy between the foreign ministries of the countries in question and incidentally to have reopened an old controversy concerning an adjacent territory known as Chientao.

The Chinese press accuses the Japanese of being actuated by an ulterior motive in the course they have pursued. E. Lenox Simpson, statistician to the President of China, has pointed out that it is significant that such attempted where Japan wishes to get up garrisons.

Early in October a band of outlaws which is said to have numbered several thousand and to have been well supplied with modern rifles and machine guns, entered Hungchun, killed a number of people including, it is said, several Japanese, and burned the Japanese consulate.

In the course of diplomatic exchanges over the situation, it appears that the Tokio foreign office assumed that Peking had agreed to "cooperation" by Japanese troops.

HESTER'S REPORT SHOWS FALLING OFF IN COTTON SALES

Report of New Orleans Cotton Movement Shows Rounds Decrease of 655,000 Bales

New Orleans, La., Dec. 2.—Secretary Hester's New Orleans cotton exchange statement issued today covers the monthly movement to the close of November. Compared with last year, it shows a decrease for the month in round figures of 655,000, an increase compared with the year before last of 43,000.

The amount of the crop brought into sight for the four months, from August to November inclusive is 900,000 under last year.

Overland across the Mississippi, Ohio and Potomac rivers to Northern mills and Canada 217,371 against 534,145 last year.

These make the total movement of the cotton crop brought into sight for the four months ending close of November 4,340,514, against 5,240,874 last year.

M. Billinis, Lithuania Constituent, Says Government Instigated Seizure of Vilna

Alleges Poland Intends to Obtain Another Important Port Along the Baltic Coast

Riga, Dec. 2.—The charge that the Polish government instigated the seizure of Vilna by the former Polish General Zeligowski, is made by M. Billinis, a member of the finance committee of that body.

"It is only from Warsaw that General Zeligowski can obtain food supplies and ammunition for his troops," said M. Billinis to The Associated Press correspondent.

"The Polish government officially calls Zeligowski a rebel and denies all connections with him. However, they have issued an official statement saying their troops stand at the gates of Vilna."

He alleges that the real aim of Poland is to obtain another port on the Baltic besides Danzig and that she would like either Memel or Libau.

"Another reason why the Polish government is interested in the occupation of Lithuania is that many of the highest Polish officials, among them General Pilsudski, head of the Polish state, and Prince Sapieha, Polish f

LEAGUE VOTES TO DELAY AMENDMENT FOR SEVERAL DAYS

Resolution Adopted Providing for Committees, to Consider Changes Deemed Advisable

DELEGATE OF ARGENTINE ONLY PERSON PRESENT TO OFFER DISSENTING VOICE

Solemn Message of Gratitude Sent President Wilson for Way He Responded to Appeal

Geneva, Dec. 2.—Amendments for revisions held the floor of the assembly of the league of nations today, the debate bringing out clearly that amendment of the covenant was in the minds of nearly all the delegates, some of whom were more pressing in their desire for a perfect instrument than others but all thinking of a revision that would remove obstacles to the entry of the United States.

Article X was not mentioned in the debate, but has been frequently discussed in small circles, and N. W. Rowell of Canada, whom he insisted that adoption of a resolution by a committee should not be understood as closing the door to presentation before the assembly of other amendments than those proposed by the Scandinavians, is said to have had in mind the article that has been subjected to much contention.

The delegations of the British dominions have been studying how to approach the assembly on this question. The eventual proposal to eliminate Article X is somewhat compromised by the general understanding that consideration of all proposed changes should be postponed until studied by a special committee. This understanding, however, came largely from the anxiety of the delegates not to precipitate revision until the attitude of the United States under the new government is known.

Leon Bourgeois of the French delegation is pre-occupied lest the investigations of the committee should lead it to consider alterations involving a revision of the treaty of Versailles, and he demanded today that it be understood that the committee should declare itself incompetent to consider any amendment to the covenant that involved modification of the treaty.

The close of the debate brought a moment of great suspense, when Senator Pueyrredon of Argentina, who failed to take part in the debate, voted alone against the resolution rejecting consideration of amendments to the covenant at this session. The presiding officer M. Hymans, hesitated as if unable to believe that a single delegate would prevent unanimity.

M. Viviani, France, relieved the tension when he remarked that postponement of consideration of amendments involved only a question of procedure, on which unanimity was not necessary. Thereupon, the chairman declared, adopted the resolution, which provided that the Scandinavian amendment be studied by a committee—report to the council—and giving the committee authority to consider any other amendments that may be proposed.

If President Obregon succeeds in keeping Mexico out of revolution for a period of one year, he will certainly deserve the thanks of the entire world, particularly the United States.

Governor Coolidge's assertion that the country is on a sounder basis than ever wouldn't go far with tobacco and cotton growers in this part of the country.

"The pot should never call the kettle black" is an old saying applicable in a number of instances, particularly in speaking of the shortcomings of others when we can't see our own.

A "perfect prune" is to be grown in the United States. That's all right, too, long as the farmer continues to produce plenty of good meat, taters and liberal hen coops.

If Frank A. Munsey keeps on he will before long own practically all of the big city newspapers. He has recently added the Baltimore American and Star to his string.

After a married life of 31 years in which they became parents of 17 children, a Pennsylvania couple are now figuring in the divorce court. Books like they had ties enough to keep them together.

President Wilson's moral support means more to Armenia than armed force. What he says is generally considered authoritative, and sound advice is what every country needs at this time.

We have seen the suggestion that automobiles have much to do with the wave of crime that is spreading over the country. Whether they cause crime or not, they certainly do afford a convenient get-away for many criminals.

Mrs. Vina Knight of Salt Lake City, Utah, has the record as far as child birth is concerned, having given birth to four children, three boys and a girl. The honor is a peculiarly distinctive one, one that any American mother might be proud of.

Two messengers carrying bonds to the value of half million dollars were held up and robbed by bandits on the streets of Brooklyn, N. Y., right in broad daylight. When robbers get that bold it is wise to keep a lookout for them when carrying valuables.

A Baltimore man who carried his life time savings, \$2,300, in a tin box in his hip pocket, was enticed in a house by negroes and robbed. Had he kept that money in a bank he would know where to find it when he needed it. But this is a lesson many people will not learn.

Think of bandits daring enough to steal funds from coffee headquarters while the cops were out looking for them. That's what they did in High Point and that city doesn't claim to be much on precedents. But it can claim this singular happening without other cities becoming at all envious.

GROWTH IN WORLD DEBTS

The growth in world debts and paper currency has not been checked by the return of peace. The additions to world national debts, which averaged \$40,000,000,000 per annum during the war, were \$44,000,000,000 in the first year following the Armistice and \$42,000,000,000 in the year just ended—the second peace year. The additions to world paper currency, which averaged \$9,000,000,000 per annum during the war, were \$12,000,000,000 in the first peace year and \$25,000,000,000 in the year just ended.

A detailed discussion of world national debts and paper currency, appearing in the November issue of The Americas, issued by the National City bank of New York, prepared by the bank's statistician, Mr. O. P. Austin, shows that world national debts which increased from \$43,000,000,000 in 1913 to \$212,000,000,000 at the date of the Armistice were \$256,000,000,000 one year later and \$300,000,000,000 in November, 1920, two years after the Armistice. World paper currency which increased from \$7,500,000,000 in 1913 to \$43,000,000,000 at the date of the Armistice was \$55,000,000,000 one year later and \$82,000,000,000 in November, 1920, the end of the second peace year. The ratio of gold to world paper currency, which averaged 66.3 per cent in 1913 and 17.6 per cent at the close of the war, was 13.5 per cent at the end of the first peace year and 9.2 per cent on the second anniversary of the Armistice. Annual interest charges on world national debts, which were about \$1,750,000,000 per annum prior to the war, were approximately \$9,000,000,000 per annum at its close, and now more than \$12,000,000,000 per annum. These figures are in all cases based upon the pre-war value of the currencies of the respective countries but are in all cases exclusive of currency or other obligations of the Soviet government of Russia.

Most of the after-the-war increase in national debts and paper currency occurs in Europe. National debts in North and South America show an actual decline in the second peace year and but a trifling increase in Asia, Africa, and Oceania, while national debts in Europe increased \$30,000,000,000 in the first year following the Armistice, and \$45,000,000,000 in the second year, just ended. Paper currency which increased about \$2,000,000,000 in North and South America in the second peace year and showed a slight reduction in Asia, Africa and Oceania, increased \$11,000,000,000 in Europe in the first year following the Armistice, and \$26,000,000,000 in the year just ended. Europe's share of the world national debt is 86 per cent and of world paper currency 88 per cent.

It is only natural that state governors in conference at Harrisburg, Pa., should urge upon congress the necessity of making some provision for the acute situation which the American farmer is facing. With prices on virtually all farm products on the decline the farmer is faced by problems both perplexing and discouraging and which must be met by the business man as well as the planter. One is dependent upon the other for support, and when prices for the farm product are not what they should be it is only natural to expect unparalleled conditions. There's plenty of money, there's certainly an increasing demand for the farm product, and with proper support and intelligent guidance the planter yet has an opportunity of gaining that for which he has worked so earnestly. It is true the war produced an unexpected aftermath, but even the most abnormal situation must be adjusted so the producer may not experience enormous losses. The American farmer is the country's backbone and when he is affected public pulse is visibly disturbed, and at times, seriously.

When the producer and consumer get better acquainted high prices will take a tumble according to the people's notion.

The moneyed man is probably hit as hard as any by the unexpected trend of the nation's economic resources. And if one looks around closely, he's the one raising the greatest noise.

Predictions of thirty cent cotton at least gives some relief to the panicky farmer who has felt "bearish" and every other kind of way for the past several weeks. On the other hand, such confidence dispels the speculator more than one would suppose.

The Democrats expended slightly over a million in the recent campaign and the Republicans five million. Both parties have learned a pretty good lesson from the way people voted, one showing conclusively that money has little to do with public opinion when people are determined for a change. Both parties might have saved their millions for a time when they would be needed more. As it is they have gained experience.

Come to Greenville tomorrow to attend the meeting of farmers and others in the interest of a Pitt county cotton association.

WOMANS CLUB HOLDS REGULAR MONTHLY MEETING

The Woman's club met in their regular monthly meeting Thursday afternoon at 3 o'clock in the auditorium of the high school. The meeting was the most enthusiastic that has been held for several months, the President, Mrs. Hugh Ragsdale, presiding. Minutes were read by the secretary, Mrs. S. K. Phillips, which was followed by report from the treasurer. The chairman of the educational committee, Mrs. N. W. Outlaw, reported the tea that was given at her home in November 18. About 75 were present. Mrs. W. L. Hall, chairman of the ways and means committee, gave her report. Mrs. Anthony, chairman of the health committee, reported and gave an outline of their work. Mrs. C. D. Tunstall, chairman of the membership committee, reported names of several ladies that wanted to join the club. The club was delighted to have them join. There was no report on committee of fine arts.

After the reports from the various committees the business was taken up. A letter from the Kings Daughters was read asking for a donation for the starving children of Europe. The club was glad to donate to the worthy cause, \$25.00 was given. Letters were read asking the club to take up the following bills that were being introduced in the legislature, the censorship of Motion Pictures, Sheppard-Towner bill. A committee was appointed to see the representatives of Pitt county.

An invitation from the Sidney Lanier society of E. C. T. school was read, inviting the club to be their guest at the celebration of Pilgrimage day, December 13th. All club members are requested to assemble at Key Brown's drug store at 7:45 o'clock and go in a body.

Prof. Rose was introduced and gave a very interesting talk on education, urging the club to form a Parent-Teacher club.

Miss MacFayden gave an interesting talk about the teachers assembly at Asheville, N. C.

\$50.00 was given to the Greenville library fund.

After the business was transacted tea and wafers were served by Mrs. R. Williams.

When Wintry Ginds.

When wintry winds come blowing,
Bringing the ice and snowing,
Where Boreas blows his chilling breath
And silvers fields in splendid death...
When all the skies cease smiling
And gold-brown leaves are piling,
Where hidden paths tempted my feet
To that cool spring, that snug retreat
That now no trace is showing,
When wintry winds come blowing!

Shortening the days and killing
The frozen nights, so chilling,
So drear, so long... so lonesome, too,
To one who loves his skies of blue
And night's of moonlight sitting,
Hearing the nightbirds twitting!
And O! these days of snowing!
These nor'west tempests blowing!
Ugh-gh!... Loves of Spring come
save me
That sunny heart you gave me!

SMALL TAX BOOKS ARE PLACED IN MANY BANKS FOR COLLECTION TAXES

"DARDANELLA" LIVES UP TO ELABORATE ACCOUNTS OF PUBLICITY MANAGER

"Dardanela," the Oriental musical comedy company which made its first appearance in this city last night at White's theatre, lived up to the publicity manager's accounts of it with few exceptions, for it was extremely oriental in presentation from the rising of the curtain to the concluding feature. It was not the best show seen in Greenville by all means, but there were numerous comedy numbers that met with applause. The scenery and costumes were of a brilliant type and corresponded in a striking way with the general trend of the play. There was very little plot to the play as is customary with the musical comedy companies of the present era. The threads of romance were constantly interrupted by novelties, being later picked up and carried out with a degree of accuracy and skill. In scenes presenting oriental customs in dance and dress the characters probably approached near as possible the forms of the Turkish harem, and wearing apparel of course was scant. The absence of good vocal and instrumental music did much to detract from the various offerings.

Next Monday the new fiscal year in county affairs will begin and it will be a busy day around the court house.

THREE CENT MEAL MEETS SUCCESS IN CHICAGO DISTRICT

Judging by Patronage, Three and Five Cent Lunches Have Met With Enormous Success

Chicago, Dec. 2.—Judging by their patronage, the 3c and 5c meals put up by the Chicago board of education are making an enormous success. The city's "penny lunch" business runs from forty to fifty thousand customers a day. Sales, measured in pennies and nickels, amount daily between \$4000 and \$5000.

"We have to chase the children away," remarked Dr. Frank G. Bruner, director of special schools under the board of education, who has charge of this work. "Often we have to stand at the door and protect the lunchrooms so they won't be overrun."

Dr. Bruner said that penny lunches had been established in 57 of the city's elementary schools. Their object, he observed, is to provide substantial food at the least cost for children coming from homes where there is real necessity. Lunchrooms therefore have been opened in districts where, as a general thing, the people are not as well to do.

"For five cents," Dr. Bruner said, "the menu runs something like this: soup, bread, milk or cocoa, fruit or pudding."

"The bill of fare at 3c drops the milk. Then a youngster can spend only a penny if he wants to, buying any one of these articles for it. Or if he is not blessed with wealth and yet has more than a penny, he can for two cents purchase a meat ball, beans, spaghetti or rice."
