

## QUESTION RIGHT OF JUDGE LANDIS TO HOLD POSITION

Members of House Judiciary Committee Convinced Employment Is Out of Keeping.

WELTY INVESTIGATION MATTER TO BE MADE IN THE NEXT SEVERAL WEEKS

Welty Claims Baseball Magnates Named Judge Landis as Arbitrator Because of Federal Position.

Washington, Feb. 22.—The right of a Federal judge to accept outside employment while serving on the bench was sharply questioned by members of the House Judiciary committee today in considering impeachment charges against Judge Kenesaw Mountain Landis.

After Representative Welty, Democrat Ohio, had outlined the grounds which he asked for the impeachment of Judge Landis because of his one year contract as supreme umpire of organized baseball, members of the committee should be brought into the case. With a view, chairman Wolstead announced that the question would be taken up Wednesday.

The committee will be left entirely for the committee composed exclusively of lawyers, to decide whether there is sufficient ground to justify presentation of the case to the House of Representatives. Should the House vote to impeach, the Senate would sit as the trial court.

Three Republican members of the committee, Representative Hunstead, New York; Koodykoontz, West Virginia; and Boies, Iowa, openly expressed opposition to the double service of the judge.

Mr. Husted declared that acceptance of such a large outside salary was "outrageous" but insisted the committee should have facts on which to draw an indictment.

Mr. Boies thought the judge might be forced by public opinion to quit one job.

Mr. Goodykoontz said that if Judge Landis' course was legally and morally proper there was nothing to prevent the meat packers and others employing a man on the bench to look after their interests while still acting as Judge.

Asked to explain why Judge Landis had been picked by organized baseball to sit as arbitrator, Mr. Welty presented a letter from Chicago, which purported to quote one of the magnates as saying that Landis, as a private citizen meant nothing to baseball but that Landis as a judge meant everything. Mr. Welty was emphatic in the ascertain that this was the real basis for his appointment.

Some committee members expressed the view that while the committee might not vote impeach, the charges would not be dismissed without possible censure of criticism. It also was said that Mr. Welty's bill making it unlawful for a Federal judge to accept any pay except that allowed him by the government, probably would be reported out with a recommendation for speedy enactment. This they said, would cure the "evil condition" mentioned by Mr. Welty.

## VAST WATERPOWER TO SUPPLY CHILE WITH ELECTRICITY

Natural Powers to Be Used in Generating Lighting System in Valparaiso and Santiago

Santiago, Chile, Feb. 22.—Vast natural waterpower resources in the central province of Chile are to be put to use to generate electricity for Santiago, Valparaiso and neighboring cities and towns. A company, capitalized at \$3,250,000, has been formed for the purpose and work already has been started on a hydroelectric plant on the Colorado river, near Santiago, where it is expected 18,000 horsepower can be developed. The project is backed largely by Chilean capital.

Basis for the promotion of the company was the need of fore power by both Valparaiso and Santiago, street railways and mining and industrial enterprises. Until recently no waterpower concessions in Chile were granted by the President of the Republic for more than 35 years but the latest concessions are said to be perpetual.

## FEMINE FANS URGED TO ATTEND BASE BALL MEETING WED. NIGHT

All the ladies of the town who are interested in a base ball team for Greenville this summer and all the young ladies who were interested in the base ball players last year, are urged to be present at the base ball meeting to be held in the Chamber of Commerce rooms Wednesday night at eight o'clock. The big meeting is scheduled to come off in New Berry Friday night, and it is necessary for Greenville to get her ducks in a row so that her delegation can go into the organization loaded for bears.

There are many points that will have to be settled at the Wednesday night meeting, some of which are the number of games to be played during season, the character of base ball desired (college or professional), the formation of a local association with the necessary machinery for successfully conducting the business of the team, the election of the officers to pilot the organization through the season, etc. It will be an open meeting and everybody will be given a chance to say what he or she thinks for the benefit of base ball in general and the Greenville team in particular.

Now, you Base Ball Fans, male and female, don't let anything hinder your coming to this meeting, for it is necessary that the real expression of Greenville Fandom be given at this time. Base ball or no base ball is the milk of the coconut. Be present and express yourself tomorrow night at eight o'clock.

## TWO DIVORCE CASES FEATURE FIRST DAY OF SUPERIOR COURT

Mrs. Mamie Williams Granted Divorce Absolute From H. H. Williams, On Grounds of Immorality

A one-week term of Pitt county superior court for the trial of civil cases convened in this city yesterday morning with Judge W. A. Devin, of Oxford, presiding. There are quite a number of cases on the calendar for the week, consisting mainly of suits for divorce and minor civil actions which have been pending final hearing for several months. The entire civil docket is probably the most congested of any county in the State, the number of cases totaling around seven hundred. The docket for the week, however, contains only about thirty-five or forty cases, and it is quite probable every one will be disposed of if nothing turns up to defer action.

Practically the entire session yesterday was consumed in the hearing of two divorce issues, and as a result only two other cases were reached during the day. Mrs. Mamie Williams, formerly of Durham, was granted an absolute divorce from H. H. Williams, of this county. The divorce was secured on grounds of abandonment and marriage to another woman.

Ben Hill, colored, was granted a divorce from Annie Hill, upon evidence of immoral relations.

Non-suit was ordered in the case of George Waelos vs. J. G. Lautrea. Non-suit was also taken in the case of S. W. Barwick vs. R. J. Cobb as the plaintiff failed to make appearance to prosecute his case.

## 30,000 CHINESE STARVE TO DEATH WAITING ON FOOD

American Explorer Tells of Food That Never Arrived and Subsequent Death From Starvation

New York, Feb. 22.—Thirty thousand Chinese gathered on a great bare field outside Tientsin, China, waited patiently for food which never arrived and then slowly died there. E. S. Glines, American engineer, reported upon his arrival here after passing six months in the famine stricken areas of North China.

The condition of the starving hordes was so pitiful, Mr. Glines said, that he "did not have the heart to take photographs of such misery." He said that the crowd at Tientsin had gathered because they believed food would reach them more quickly than in the country. Along roadsides near the field he told of seeing the bodies of a whole family—father, mother and five children each a few yards apart, where they had dropped and died.

The crop failures have been almost complete in the five great provinces that make up the northern part of China proper—Chihli, Shantung, Shansi, Shensi and Honan, said Mr. Glines. This is the part of the country around Peking, south of Mongolia and Manchuria.

Explaining why the sections of China not stricken by famine were unable to relieve the starvation districts, Mr. Glines said:

"China is largely an agricultural nation. Ninety percent of the population lives on the tiny farms into which the country is divided. The Chinese work their land to the limit but they cannot raise more than enough to feed themselves.

## SCIENTISTS LEAVE NEW YORK CITY FOR ASIATIC DISTRICTS

Group of Noted Men to Visit Untrodden Areas to Establish Missing Link Between Man and Beast

New York, Feb. 22.—A group of scientists left here today on a mission that will keep them in the vast untrodden areas of Asia for five years. When they return to America they hope to have evidence that the missing link between man and beast actually existed. Also they expect to bring back thousands of animal and botanical specimens to fill the proposed Hall of Asiatic Life in New York.

Ray Chapman Andrews, leader of two former scientific parties into China, will head the new groups, to be known as the Third Asiatic Expedition of the American Museum of Natural History. Supporting it financially are more than a score of New York's wealthiest men and women, the museum and other organizations. The party will sail from San Francisco on March 19.

Joined in Asia by scores of native guides, huntsmen cooks and helpers, the scientists expect to introduce American automobiles, moving picture cameras and other modern machines on the Gobi Desert, Central Asian Plateaus, Tibetan steppes and other little known lands.

Gasoline trucks will constitute mobile bases for various branches of the expedition—paleontologists, archeologists and anthropologists, while speedier cars are used in explorations and hunting. Dr. Andrews has found a 50-mile-a-hour-to-slow to keep up with frightened antelopes in Central Asia, and is taking a speedier roadster to use in hunting these mile-a-minute runners.

## DRAWS TWO YEARS IN COUNTY JAIL ON ASSAULT CHARGES

Clarence Stator, Colored, Given 18 Months for Assault With Deadly Weapon and Six for Assault

Judge Cooper meted out justice in a fast and effective way at the regular Monday morning session of county court in this city yesterday morning, and as a result road sentences and fine featured in virtually every case, with the exception of a few which were continued until next session. Routine continued without interruption from the opening period until adjournment and practically every issue up for hearing during the day was disposed of.

Clarence Stator colored was sentenced to 2 years in jail on charge of assault with deadly weapon and carrying a concealed weapon. He pleaded guilty on both charges at the onset, and was given 18 months for the first offense and 6 months for the second.

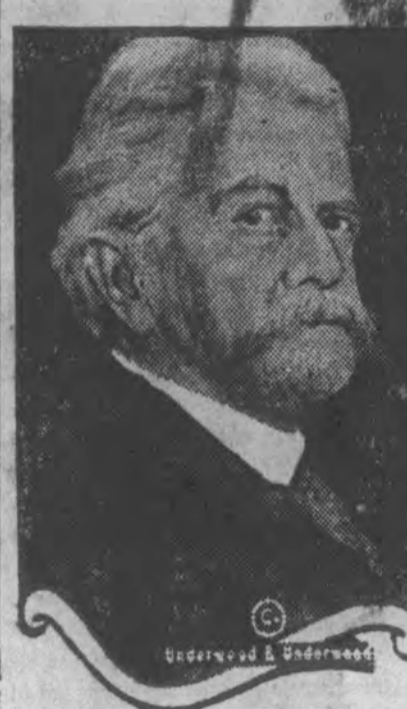

Johnnie Williams, pleaded guilty of carrying a concealed weapon and was sentenced to six months in the county jail. Roy Owens, pleaded guilty of carrying a concealed weapon and was fined \$50 and costs.

The case against Letha Avery, charged here with manufacturing whiskey, was continued until next term of criminal court, bond being fixed at \$1000. Charlie Mabry, charged with assault with deadly weapon was fined \$50 and cost of action.

## GEORGE B. SINGLETARY CHAPTER OF U. D. C. MEETS THURSDAY

The George B. Singletary Chapter of the U. D. C. will meet next Thursday afternoon at 2:30 o'clock at the home of Mrs. J. L. Hassell. At this meeting the district chairman, Mrs. Walter Woodard will be with the chapter and all members are urged to be present promptly at 2:30 o'clock, as Mrs. Woodard will leave on the four o'clock train.

## MAJ. C. THURSTON GREENE

Maj. C. Thurston Greene, seventy-eight years old, who won his title and lost a leg in the Civil War, is believed to be the oldest student in the country. The major, who can remember the stirring events of '61-'65, and who cannot remember recent events so well, is trying to rebuild his memory at the Bronx Y. M. C. A. evening school.

## FRANK M'COMBS DIES AS RESULT OF HEART DISEASE

Former Chairman Democratic National Campaign Committee Passes Away in Greenwich, Conn.

New York, Feb. 22.—William F. McCombs, chairman Democratic national committee, died in Greenwich, Conn., this morning of heart disease.

Known as a brilliant lawyer and successful politician in New York city, William F. McCombs received his first experience in national politics when he became campaign manager for Woodrow Wilson in 1912. Later he became chairman of the Democratic National Committee and declined the post of Ambassador to France offered him by President Wilson after his reelection.

Born of southern parentage at Hamburg, Ark., Dec. 26, 1875, he received an elementary education at Webb School in Tennessee and later was graduate from Princeton University. He studied law at Harvard University and entered the profession in 1901.

While still a clerk in a New York Law office, he handled a suit involving \$20,000,000 in railroad securities and received recognition which forecast his highly successful career.

Prior to his appointment as campaign manager to Woodrow Wilson in 1911, he served on the tariff revision committee of the National Democratic Club. He was appointed a trustee of the College of New York by the late Mayor William F. Gaynor and acted as counsel for William H. Edwards during the time he served as Commissioner for the Street Cleaning Department in New York city. He successfully prosecuted a number of snow removal fraud cases.

In 1912 he was elected chairman of the Democratic National Committee following the nomination of Wilson at Baltimore.

He was a member of the American and New York State Bar Associations, the Association of the Bar of the city of New York, the Southern Society and numerous clubs in New York and Washington.

In 1913, he married Dorothy Williams, daughter of Colonel John R. Williams, a fine United States army in London. They were divorced in 1916. For many years he made his home at the Vanderbilt hotel in New York city. Mr. McCombs was a first cousin of Mrs. R. L. Carr, of Greenville.

Mrs. Ed Harvey, who has been in St. Luke's hospital for several weeks has returned home. Her many friends are glad she has greatly improved.

## HOUSTON DEFENDS HEAVY LOANS MADE DURING WORLD WAR

Secretary of Treasury Files Answer to Suit By Hearst to Restrain Loans Now.

VIGOROUSLY DEFENDS GOVERNMENT OFFICIALS BEFORE COMMITTEES

Secretary Presents Mass of Correspondence Covering Period of Activities of War.

Washington, Feb. 21.—Foreign loans extended by the Treasury during the war and since the armistice were vigorously defended by government officials today in reply to protestants against any further exercise of the government's loan powers.

Secretary Houston, of the Treasury, resumed testimony before the Senate Judiciary committee on the Reed bill directing the stoppage of further loan negotiations with the debtor nations. At the same time, Solicitor General Frierson responded in the court to the suit brought by William Randolph Hearst to prevent further financial transactions with foreign government.

Mr. Houston was excused from further appearance before the committee after he had presented a mass of correspondence covering the entire subject of negotiation and had pointed out the impossibility of his reading them in full in the few days preceding Mar. 4. He, however, left Nicholas Kelley, assistant secretary in charge of foreign loans, at the disposal of the committee while it continued the investigation.

Mr. Frierson filed with the District of Columbia Supreme Court a brief reviewing the transactions with the foreign owners and declared there was no necessity for the injunction sought by Mr. Hearst as a taxpayer as Secretary Houston had no intention of establishing additional credits in favor of any foreign powers. The Solicitor General reviewed at length the conditions under which money was advanced to the Kerensky government of Russia. He also asserted that Secretary Houston did not concede that the plaintiff possessed a status entitling him to call in question the various credits or that the country had any jurisdiction to determine such a controversy.

## HARDING SELECTS EDWIN DENBY AS SECRETARY OF NAVY

St. Augustine, Feb. 22.—Harding completed his cabinet slate today by virtual selection of Edwin Denby, of Detroit, as secretary of navy. The choice was the first big surprise among cabinet selections, as Denby's name had never appeared in newspaper speculative. He is an attorney and former member of congress and has served as an enlisted man in wartime in both navy and marine corps.

Herbert Hoover and John Davis of Pittsburg were virtually chosen for cabinet today leaving open only one place which now seems certain will go to a dark horse. It is understood that Hoover is offered a commerce portfolio and general expectations is that he will accept. Davis, who is a former steel worker and now banker will be secretary of labor of cabinet of state goes through as it now stands. Cabinet selections previously regarded certain are finally put in class of certainties. Hughes, State, Daugherty, Attorney General, already announced, others are Hays, Postmaster, General John W. Weeks, War, and Reuss, Mellon, Treasury, Henry Wallace, Agriculture, Senator Fall, Interior.

The story of George Washington and his hatchet has probably been retold today in every school room in the land.

WINNING AND LOSING

Speculators some time make it, but more often they do not. The man who works and saves always makes it. All the great fortunes were started on the working and saving plan. Men who work and save are usually happy. Men who are "blowing in" all their earnings are seldom happy. No one can tell what will happen. The man who has "salted" down his pile in government savings securities or in other standard investments doesn't have to worry.

French leaders say Germany must meet their demands. They intimated such before but Germany offered to parley long enough to forget the real issues at hand.

A general rate increase has been granted North Carolina railroads. This should inspire the railroads to giving better service, or at least replace some of the trains recently taken off.

The cotton market seems permanently on the decline these days. This cannot always remain so, and the farmer need not get too far in the dumps before the change comes. Complete adjustment will bring many changes of interest, and will be of great interest to the producer.

The campaign for reduction of tobacco acreage in Wilson county was a great success, so reports say. That being the case, Wilson county may expect to see better prices in the near future. Other sections will probably cut in proper proportion and will result in better grades will be produced and higher prices more in evidence.

Bears are playing a big part in cotton market activities just at this time, but in the course of a few months there will be a different tale to tell. A tale brought about through action on the part of the farmer who has learned through bitter experience how and when to plant.

Congestion of legislation features the near adjournment of Congress, so statements say. Greater activity at the opening sessions would have made the closing quite different. The lawmakers should take note of this and prepare for actual work at the next session.

The Chamber of Commerce of the United States expects a general improvement in business during the next several days. Other organizations expect the same thing, but so far they have been severely jolted. Business is apparently at a standstill, and will not improve until retail prices take another change.

Instead of banking money during the present period of financial depression most people are taking it home and burying it. This is very unwise, and has been costly in number of cases when fire destroyed the home before the hidden treasure could be rescued. The bank is the safest place, and when deposits increase they will be able to grant hundreds of loans coming in from every section.

COTTON MANUFACTURES MAKE NEW HIGH EXPORT RECORD

More than \$400,000,000 worth of cotton manufactures were sent out of the United States in the calendar year 1920 against \$51,000,000 worth in the year immediately preceding the war. Our exports of cotton goods of all classes far exceed in value those of any earlier year and are materially greater in quantity than ever before. The quantity of cotton cloths exported in the year 1920 was, says a statement by the National City Bank of New York, about \$50,000,000 yards as against 326,000,000 in 1914, while the valuation shows a much greater increase by reason of advance in price, the average price per yard of cotton exported in 1920 being 29c against about 7c per yard in 1914.

The United States, adds the bank's statement, although producing two-thirds of the world's cotton, had never been a large exporter of cotton goods until war conditions cut off the cotton goods markets of the world from their usual source of supplies—Europe—when they turned naturally to the United States, and our exports of cotton cloths which amounted to only 326,000,000 yards in the calendar year 1914, most of which preceded the war, were 620,000,000 yards in 1916, 765,000,000 in 1917, and approximately \$50,000,000 yards in the calendar year 1920. The increase in valuation of the exports, however, was far more rapid, that of cotton cloths jumping from \$24,000,000 in 1914 to \$58,000,000 in 1916, \$108,000,000 in 1918, \$152,000,000

in the calendar year 1919 and approximately \$244,000,000 in 1920. The quantity of clothes exported in 1920 was two and one-half times as much as in 1914, but the valuation was nearly ten times as much. Even this does not tell the full story, for the value of knit goods exported in 1920 was \$55,000,000 in value against six and one-half million dollars in 1914, and of all cotton goods approximately \$410,000,000 against \$50,032,993 in the fiscal year 1914.

The American Legion claims pro-German propaganda still exists in this country. That's right, and several other kinds, too. The government should be as careful now as ever and see to it that aliens are carefully watched.

**WHOSE TIME NEXT. SMALLPOX PREVALENT.**

Smallpox has been reported to the State Board of Health in Ash, Avery, Beaufort, Bertie, Brunswick, Carteret, Catawaba, Chatham, Craven, Cumberland, Davidson, Durham, Edgecombe, Forsythe, Franklin, Gaston, Guilford, Halifax, Hoke, Lee, Mecklenburg, Nash, Northampton, Orange, Person, Pitt, Roberson, Swain, Tyrell, Warren, Wayne and Wilson counties during the first two weeks of February.

There is but one proven method for prevention of smallpox—vaccination. This every one should have done until he gets a "take". When the disease is prevalent it is well for all to be vaccinated, especially if exposed, unless your "take" has been within the last few years. This is applicable to babies.

The spread of smallpox has not been as rapid as it was under the old system of control. Before people knew a certain preventive they tried this and that, but yet died. Seeing that it was to be vaccinated or have the disease and possible die, they are being vaccinated more than ever as vaccination has proven to be practically harmless. Statistics prove this. During 1920 there were 29 deaths from smallpox but none from vaccination. The numbers who were vaccinated were far greater than those that had smallpox. Vaccination alone gives one confidence and almost a surety of freedom from smallpox, its scars, etc. The truth of this statement is backed by one hundred years' observation.

Every county should offer free protection against smallpox to its citizens. When it appears in a rural community, children, parents, and others should come together and be vaccinated.

Vaccination alone prevents smallpox. If you desire the state Board of Health Raleigh, N. C., will send you a special bulletin of this disease.

**GREENVILLE TOBACCO MARKET TO CLOSE ON FRIDAY, MARCH 18TH**

The Greenville tobacco market will close March 18th. This decision was reached at a meeting of the Tobacco Board of Trade in this city last night in which questions relative to the industry were discussed at length by men well acquainted with conditions. It seemed generally agreed that a greater part of the crops had been sold up to the present time, and that by the closing date all farmers would have an opportunity of marketing what they have on hand at this time.
