

SERIOUS FIGHTING FOLLOWS INVASION OF UPPER SILESIA

Insurgents of Poland Wage Vigorous Battle to Gain Possession Section Occupied By Italians

Oppeln, Upper Silesia, May 4.—(By the Associated Press)—Colonel Bond, British control officer at Gross-Strehlitz reported to British headquarters here tonight that he opened artillery fire on 2,000 to 3,000 Poles attempting to occupy the city. The Poles brought up light field pieces and were replying. Colonel Bond, who has approximately 200 Italian troops, also reported that he probably could not hold out long.

London, May 4.—(By the Associated Press)—Dr. Sthamer the German Ambassador here, tonight presented a note to the foreign office, protesting against the Polish coup in Upper Silesia as an apparently concerted effort to take the province by force, and refusing all responsibility for the situation and its consequences.

The note has also been communicated to the other allied governments. It declares that by the action of irresponsible Polish agents and provocateurs, a strike has been engineered in Upper Silesia through the whole mining and industrial area, terrorizing the willing workers and preventing them from carrying out their tasks, while Polish Sokols and armed bands cover the country as for as Ratibor.

The organized destruction of railways and bridges, it is asserted, shows a prearranged plan for Polish insurrections. The Inter-Allied commission, it is added, has recognized that the German population has given no provocation.

Late in the afternoon, Dr. Sthamer presented a second note, stating that the situation had become extremely acute, and reciting details, according to which the insurgents had seized the entire industrial region, including the districts of Pless, Rybnik, Gross-Strehlitz and Oppeln. In fighting at Rybnik two Italian officers and thirteen men were killed.

The note says that all German officials employes and directors have been compelled to abandon the industrial establishments and that all mines and factories are at a standstill. The insurgents are well armed, many of them wearing Polish uniforms. Railways, telephone lines and telegraph wires have been cut and many railway bridges blown up.

TREATMENT FOR CRIPPLED AND DEFORMED CHILDREN

The North Carolina Orthopaedic Hospital, now under construction at Gastonia, for the scientific treatment of crippled and deformed white children of sound mind in the state, will be open in a very short time. Children under 14 years of age will be admitted first, and application blanks for this purpose have been received at the office of the Supt. of Public Welfare. Parents or guardians having children in need of this treatment should investigate the matter at once so that application may go forward on the waiting list from Pitt county. Remember only white children of sound mind are eligible for admittance.

SNOW HILL POSTOFFICE BROKEN INTO AND ROBBED

Snow Hill, May 4.—The postoffice at Snow Hill was broken into and robbed on Monday night of this week. The robbers gained entrance by breaking through the rear door of the lobby and were successful in working the combination of the safe. However, they left a chisel and file on the floor near the safe. Between \$900 and \$950 was stolen in stamps and war savings stamps deposited for collection by Messrs. Joe Frazier and Ben Bedford to the value of about \$150 were also taken away.

The greater portion of the postoffice supplies are kept in a safety deposit box in a Snow Hill bank and consequently the robbers did not secure as great an amount as they probably expected.

CIVIC DINNER TO BE PULLED OFF IN CITY TONIGHT

Pitt County Folk Invited to be Present At Chamber of Commerce Affair

This is the night of the civic dinner in Greenville. Residents of all parts of Pitt County are gathering in the city to hear Howard Strong, the principal speaker, and to learn first-hand information regarding the Pitt county chamber of commerce. Remember the dinner will be given at Forbes and Morton's warehouse.

The ladies of the Memorial Baptist Church, working in conjunction with J. B. Kittrell, chairman of the meetings committee, have planned a hearty dinner for all. The singing will be excellent for everybody will join in, with Prof. Rose leading.

H. A. White, chairman of the campaign committee, will make an address. Dr. Chas. O'H. Laughinghouse will also speak. Rev. C. H. Bascom will deliver the invocation.

Members of the executive committee, of which Dr. C. J. Ellen is chairman, have expressed keen pleasure because of acceptance by Mr. Strong of the invitation to attend the meetings. Years of experience, as a chamber of commerce secretary in Rochester, N. Y., Minneapolis, Minn., and other cities, puts Mr. Strong in the front ranks in his profession. A resident of Tryon, N. C., he knows the needs of the state.

The dinner will begin promptly at seven o'clock and last-minute requests by the meetings committee are that all be in their seats at that hour. In order to provide places for all who wish to attend, arrangements have been made for the sale of tickets at Forbes and Morton's warehouse.

GREEK CAMPAIGN TO PREVENT LOSS OF THRACE REGION

King Constantine Will Also Have Control of The Eclat of Military Movements

Athens, May 4.—The Greek campaign now in progress in Turkey was undertaken as the only way to avoid the possible loss to Greece of Thrace and Smyrna and at the same time to give King Constantine the eclat of a great military movement.

The decision of the Supreme Council at the conference in London in February to send a commission to Thrace and Smyrna to inquire into the composition of the populations there rilled the Greeks with disappointment and despondency.

Under the proposed revision of the Treaty of Sevres, Greece saw itself about to be reduced to its 1912 proportions, its prowess as a Mediterranean power nullified and its friendship with the Allies alienated. It considered the territorial losses with which the country was threatened a staggering price to pay for Constantine's return to the throne.

All classes awakened to the realities of the situation. They recognized that without financial support from the great powers, the country must become an impotent peninsular state. The absence of recognition by Greece's great neutral friend, the United States, was a particularly painful realization to the people. Many Greeks even some of the most ardent Royalists, were willing to sacrifice their King if it would win back the good will and support of the big nations, particularly the United States and England.

ARGENTINA GOLD ATTRACTS GREAT ATTENTION TODAY

Experts in Oil Production Says Country Will Become World's Greatest Fuel Territory

Buenos Aires, May 4.—Experts in oil production say that, as a result of the rich discoveries of oil in the Comodoro Rivadavia field, Argentina may become one of the world's great sources of fuel. The Well No. 128 which came in on February 28 with an initial production of about 1,200 barrels an hour is continuing to flow at approximately the same amount.

The Comodoro Rivadavia oil producing area is located in the territory of Chubut, in the region called Patagonia and is more than 600 miles southwest of Buenos Aires. It was discovered in 1907 when a deep test was being made in an effort to locate a water supply. The government, exercising its ownership of mineral rights, staked 12,500 acres of land in the district and began the work of exploiting the field. Later, another 12,500 acres was reserved.

Since that time 128 wells have been sunk and production has gradually increased up to the present. In 1920 the total production was more than 1,000,000 barrels. The oil is heavy with small kerosene and gasoline content and is used principally as fuel oil, being sold to a number of industries in the country. Drilling depths are between 1,500 and 1,800 feet.

Until well No. 128 was brought in all the wells had shown small production although several of them were gushers and had an initial production that passed the 1,000 barrel mark. Practically every well drilled found oil in paying quantities.

IMMANUEL BAPTIST B. Y. P. U. SOCIAL TOMORROW NIGHT

Tomorrow night in the Sunday School rooms of the Immanuel Baptist Church, the B. Y. P. U. of this church will meet for a social hour. Refreshments will be served, games played, and stories told. A committee is at work on the program, which promises to be enjoyable and interesting. Every member is urged to be present. Each member is permitted to bring one visitor. The hour is eight o'clock.

AN EARLY START

Teaching the young to save is a splendid plan, and the budding and loan opportunity is one that some parents are seeking to accomplish this purpose. The little ones soon grasp the notion that saving 25c a week means a hundred dollars in a few years.

Parents, do your duty toward your children. Shares in our 31st. series are now on sale.

ANOTHER LARGE CROWD PRESENT AT CITY REVIVAL

Dr. Ben Edwards Delivered Another Powerful Sermon at Christian Church Last Evening

A large audience attended last night in spite of threatening weather. Dr. Edwards preached an interesting sermon: using Luke 14th chapter as the basis of his theme. He took up the various excuses offered for not becoming Christians. Sometimes these were made to appear ridiculous and amusing; but always the lesson of helpfulness stood out in his message. There is a vein of humor that comes bubbling up unexpectedly. One by one he took up some of the excuses and when he had finished with each one, there was probably none present who would have been willing to use the old time and worn out excuse people offer.

The music led by the Pollocks was especially good. Mr. Pollock sang two numbers, Why Should He Love Me So? and the pilot song, Is He Yours?

There will be another great service to-night at 7:45.

Friday night the children that have been training under Mr. Pollock will give an introductory program that everybody should hear. Sunday morning will be used for a great Mother's Day service. In the afternoon Dr. Edwards will speak to men only.

REV. S. K. PHILLIPS SPENDING FEW DAYS IN RICHMOND

Rev. S. K. Phillips left today for Richmond, to attend a meeting of the Governing Board of the General Assembly's Training School for Lay workers. Mr. Phillips is one of the two trustees of the institution from the Synod of North Carolina.

He will return from Richmond on Saturday and will preach a both services in the Presbyterian Church next Sunday. He will preach the sermon in the morning on 'Why a Presbyterian Believes in Sprinkling as the Mode of Baptism.' He was requested to preach on this subject last week, but the injury to his knee prevented.

TO PRACTICE LAW HERE

Mr. W. A. Darden, who has been in Baltimore for several months, has returned to Greenville to resume his law practice. Mr. Darden formerly practiced with Mr. N. W. Outlaw but will in the future practice individually. We are glad to again have Mr. Darden with us who has many friends in Greenville and Pitt County.

MARKETING DRIVE TO BE CONCLUDED IN COUNTY TODAY

Campaign For Signing Up Farmers to Be Brought to Conclusion Unless Weather Hinders Activity

O. F. McCrary, of Washington, district demonstration agent, arrived in Greenville this morning to participate in the concluding subscription drive of the Co-operative Marketing association. The final drive will be made today it is understood if weather permits and every effort will be put forward to make Pitt county's record better than the nineteen counties which have already been signed up.

Members of the campaign committee have visited practically every community which could not be reached last week, and consequently the fifty-five percent membership which had been secured up to the time has been materially increased. It is believed the closing of the drive tonight will see the total percentage climb above the eighty mark, and if this should be so Pitt county will be about the best prepared county in the state to take part in first operation of the association.

Mr. Pace says he found interest prevailing among practically all important planters and business men, and that very few failed to sign the contract. The real community leaders even went so far as to join the campaign committee and assisted in every way possible to sign up those who have been following the farming industry for some time. There is also everything in evidence to cause one to believe the reduction in acreage will be from 25 to 50 percent. This includes both cotton and tobacco, therefore, it is easy to surmise that decreased demand will have much to do with better prices.

Mr. Pace says the committee found that every man meaning anything to the industry appreciates principles involved in the Co-operative movement, and are exerting every effort to make it a success. They realize that such an organization is very necessary if prices are to become better, for it will have a tendency of controlling the market and demanding legitimate prices. This is the greatest feature connected with the plan and will have much to do with the great change to take place during the readjustment period.

MUSIC RECITAL TO BE PRESENTED HERE ON FRIDAY NIGHT

Contest Promises to be One of the Best Conducted Here in Sometime

Friday night there will be held in the High School auditorium, the third of a series of musical recitals, followed by the County contest in piano playing by High school students.

The program for the evening will consist of several piano solos by the pupils of Miss Howell and Miss Lay and also violin and voice solos. The three contestants for piano playing are Misses Kathleen Spain, and Elizabeth White, of this city and Miss Lenore Stone, of Grifton.

Contests of this kind are being held in practically every county in the state and the contestant who wins in each county will go to Greensboro next Saturday, May 14, where the second state contest will be held. The one who wins in Greensboro will be presented with a silver loving cup. These contests were instituted last year by the North Carolina College for Women, to create a keener interest for music and to raise the standard of music in secondary schools. A large audience is expected to add to the interest of the occasion and also to encourage those who are entering the contest. This will be the first contest held in Elitt county and it is hoped it will be a successful one.

The recital will begin promptly at eight o'clock.

NICE TROUT, Butterfish, and Shad 5th Ww Greenville Market Co.

BORAH'S PROPOSAL FOR DISARMAMENT LEFT OUT OF BILL

Administration Forces Win Initial Skirmish in Severe Fighting Over Naval Measure

Washington, May 4.—Administration forces won in the first skirmish today in the impending Senate fight over naval disarmament.

Guided by the expressed wishes of President Harding, the Senate naval committee refused to incorporate in the annual naval appropriation measure the proposal of Senator Borah, Requesting the chief executive to invite Great Britain and Japan to send representatives to a disarmament conference here.

Before the committee acted Senator Borah had given notice of the fight to come by re-introducing his proposal in the Senate and moving to suspend the rules to make it in order. Senator Pomerene, Democrat, Ohio, also gave formal notice that he intended to present a disarmament amendment to the Naval bill in the Senate. His amendment would authorize the President to delay the building program six months while an effort was being made to arrange a conference between the United States, Great Britain and Japan. Should an agreement to limit construction be reached by the three countries, the President might suspend the building program in whole or in part.

It is understood that administration leaders in both the Senate and House plan to delay action on any proposals for international disarmament because of the desire of the President not to have this question initiated in Congress in the present state of international relations.

As favorably reported today by the Naval committee, the annual naval bill which failed at the last session, provides not only funds for continuing construction of the uncompleted 1916 program, but also for a personnel 20,000 in excess of the 100,000 proposed by the House. It also carries funds for beginning work on various naval bases on the Pacific coast.

The committee increases the House total of \$306,800,000 to \$496,500,000 or the same figure that was in the bill as it failed in the Senate last March. The principal increases voted today by the committee included \$12,000,000 for aviation, \$15,000,000 to start work on two new aircraft carriers, about \$7,000,000 to begin construction of a new fleet base at Alameda Cal., and other Pacific Coast bases and about \$7,000,000 to expedite construction of capital ships.

MISS RUBY WRAY GUEST OF Y. W. C. A. TRAINING SCHOOL

Miss Ruby Wray, a missionary, whose work is in the mountains of Kentucky, has been at the Training School since Monday afternoon, the guest of the Y. W. C. A. She has made interesting talks to the students about her work and has appealed for workers from among the students. She is a young woman full of zeal for her work and presented her cause in a very attractive manner. Her work is connected with that of the Presbyterian church.

If Mr. Mellon succeeds in setting aside the excess profit tax, then he is the kind of fellow the public has been looking for a long time.

Germany is to send another ultimatum to the Allies. If it gets the same results of former ones Germany will be as safe as ever.

The reparations question has been mooted enough to familiarize everyone with the principles involved. At least the public thinks it ought to be closed, and that's about the right way to look at it.

Raleigh, New Bern and Wilson appreciated their old mayors enough to re-elect them. This is a distinct recognition of worth of the men and they are to be congratulated in being able to sustain such a splendid record.

The United States Steel Corporation plans to reduce wages at least 20 per cent. This shows conclusively that the man who continues to work in the future must accept cuts in wages without too much talk. The time for the change has come and it is incumbent upon every man to do his part so far as this is possible.

The laborer complaining about decreased wages need only to look at the price of eggs to be convinced that reductions are just. The person who complains over such proposals shows mighty bad spirit, but there are many who won't realize it until they are out of jobs, hunting another when there are not any.

Harding has started out on the right track in demanding more economy in government. If this had been given more attention years ago there would not be quite so much complaining about hard times now. There is plenty room for action and it is to be hoped the Republican chief will continue pegging away until he gets results.

The Republicans made numerous promises last fall but all we've seen of their fulfillment are a few disappointed office seekers, or pie hunters. It is easy to make promises when the prospect of victory is in sight, but it is the hardest job in the world to do what people expect after it's all over.

If the Allies continue to urge the United States to become a member of the Supreme council we can't see why we should hold back. It might have been a long time ago, but since the republicans got in sway there's no telling what will happen, and that's a safe go. The country is interested in administration activity, but will never be satisfied until they turn loose some of that money that was promised so freely during campaign days.

President Harding has told department heads of the government that the habit of living beyond their allowances made by congress will not be tolerated. The statement will be received with right much interest throughout the entire country, for millions of people have been disgusted by reckless expenditures. The change proposed by the executive is an appropriate one indeed, and if the public co-operate there may be some assurance of getting results.

Neglected disabled men who fought in the great war with Germany deserves to be investigated, and if there's any thing to it department heads ought to be fired immediately. When one stops to consider what the young American did in behalf of saving civilization from Germany's clutches it is certain they should not be neglected. They received injuries while battling for the great principles of the American people democracy and deserve the best care the country is able to offer.

It is gratifying to note that the sign-up campaign of the Co-operative Marketing association is meeting with success in this county. It has been realized for years that such an organization was needed, and now the opportunity is before the farmer it is hardly probable any will refuse to remain on the outside. Members of the campaign committee say over sixty percent of cotton and tobacco has already been signed up in Pitt county. This assures success, as fifty percent makes the association possible. This gives the organization control of the section's production, and it is safe to say better prices will result in the course of a few months.

News reports indicate that prospects of settling the wage dispute among textile workers of Tennessee is mighty poor at this time. This should not be discouraging, for time will work wonderful changes. There are thousands of persons unemployed in the United States, and when the workers realize they are ready and waiting to accept any kind of labor at legitimate wages it's safe to say they will awaken to the fact that readjustment is in progress. The average laboring man was too independent in the past when he realized the world depended upon him for production, but now others waiting for his job will bring about a mighty great change.

Business men who support the expansion drive now in progress by the local chamber of commerce may be assured of taking a step in the right direction. Greenville, it is true, has made remarkable progress during the past several years, but this would have been more evident if influences of the chamber of commerce had been county-wide instead of applying only to the city. Every town has realized the importance of organization and when the work becomes more extensive it is certain conditions will be much better

than ever before. Such an institution might have been able of assisting the farmer during the past period of depression if there had been more chamber of commerce influence. But since this was not so thousands have suffered from conditions over which individuals had no control. The times ought to prove a lesson, and it's a safe bet they will before things are natural.

Nearly every leader in industry who speaks of returning to normalcy declares the first definite step is in reduction of wages. That they are right is not to be doubted in the least. American laborers, at least, a few of them earned lots more than they were capable of producing in the past, and it is nothing but fair that they should be the first affected by readjustment. There may be a great howl let up at first, but when it is either work and produce than be idle and starve, it may safely be said there are thousands who will accept the former.

Looks like H. Johnson, of California has it in for Dave Blair, of North Carolina, judging by the way things are happening in Washington City. His opposition may be well intended, but President Harding feels like he is still running things and will continue to favor the appointment regardless of what H. may do in the opposite direction. This contention and strife is just the beginning. After they have been in office a while longer it is perfectly natural to expect that resentment will come to fistie battles in many cases. It's a great era in which we are living but not quite so amusing and entertaining as it will be in the near future.
