OFFICIALS CONSIDER PROPOSALS EXTEND MUNFORD PROPERTY

Board of Aldermen Make Surveys Regarding Narrowing of Sidewalk at Five Points

At a special session of the board of aldermen conducted at the city hall last night the question of a two foot narrowing of the sidewalk at the Munford property on Evans street at Five Points was considered and although there were many points presented for consideration and much contention in evidence, definite action was deferred until a later date.

The question was recently precipitated by desire of Mr. Munford to narrow the ten foot street to eight feet in order that a new building now under contemplation may be extended over the two feet to be derived from narrowing the walk. The town contends the street shall remain as it is, that it is the property of the town as included in old surveys several years ago. Mr. Munford maintains that his lot covered the extra two feet and demands that the walk be either narrowed or moved back in order to provide the necessary room.

The question created considerable interest among the aldermen and general public, and as a result the street was surveyed, old lines being compared several blocks away, or as far down as Second and Third streets. The town surveyor claims to have found old stakes providing for the present arrangement or dimension of the streets, and maintains that Mr. Munford has no right to demand an extension of his property.

At the meeting last night stiff and able arguments were presented in the interest of both factions. Mr. Munford was dissatisfied with the survey and requested that another be made. The town granted this and the next several days will be filled with compilation of facts dating back to early history of the city, especially when the streets were laid. Sentiment is divided on both sides, and this resulted in the decision last night by the aldermen in granting deferment in the matter. It is expected, however, that the issue will be closed within the next several days when final surveys and facts will be presented for consideration.

Colored Minister Dies

The passing of Dr. Geo. L. White, pastor of the A. M. E. Zion church, touches keenly the hearts of those whose minds are occupied with the future status of the race. He came to Greenville not to overturn and disrupt—but as was indicated by his first public utterances—was in keeping with what schools were drilling into the young. Effected the two distinct races was calculated to bring forth untold good for the community and the State. He was absolutely square on race relations. The schools and the church are the centers from which uplifting thought should come and in this crucial period of readjustment broadminded and farseeing men should be at the helm. The indifferent business does not appreciate the danger ahead. Crossing the bar recently such upstanding leaders as Col. James H. Young, Bishop George W. Clinton and Dr. Geo. L. White, all playing and emphasizing the same conservative tone, which if heeded will bring peace and quiet to the entire South.

The church has performed well, but the school has had work and performed its fission in striving to allay race feeling and create a community interest. George L. White came to this, fell in with the educational forces and proved a helpful ally in emphasizing the things preached by Dr. H. W. Dance and taught by the writer.

The graded school cherishes his memory here. Peace, enduring peace, is the hoped for result from the labors of such men.

TO NAME CHAIRMAN TO HEAD NEAR EAST RELIEF CAMPAIGN

Josephus Daniels to Announce Name of Local Committee Within the Next Several Hours

Josephus Daniels, who has been appointed head of the Near East Relief clothing campaign in this State is preparing to appoint a chairman in Pitt county, it is understood, and it is very probable the appointment will be made public within the next several hours. The cause is one of the greatest in which the public has had an opportunity of participating for many months, and it is to be hoped every one having old clothes will get them in readiness and turn over to the chairman of the county committee. Reports from the stricken areas show that conditions haven't improved at all within the last several months, although it is true starvation has been eliminated to a certain extent by funds recently provided by the American people. This county has had unlimited opportunities of contributing to such causes recently, and in practically every instance they measured up to expectations. As a result it is to be hoped they rally behind the good clothes movement and help the former secretary of the navy make the campaign one of the greatest of its kind ever pulled off in this State.

Miss Culppepper Visits Here

Miss Elizabeth Culppepper, secretary of the Wilson merchants association, attended the meeting of the local association in Greenville today. She will remain here the rest of the week as the guest of Miss Renner, secretary of the local association.

Bruce Warren's Car Stolen

A Ford car belonging to Bruce Warren was stolen last night while parked a short distance from White's theatre where Mr. Warren stopped to take in the evening picture program. This is the second Ford stolen within the last two days. It is becoming such a popular pastime that persons are not safe to leave their cars parked for any length of time in any section. Police are making an effort to apprehend the thieves, and promise severe prosecution when this occurs.

Mrs. Wilson Still Quite Ill

Mrs. J. T. Wilson, who was operated on at the Moore-Herring hospital in Wilson Wednesday afternoon for an affection of the upper jaw, was reported as not doing so well in a message received by her husband here yesterday. This news will be regretted by her many friends who are wishing for her a speedy recovery.

Mr. Joseph Attends Meeting

Mr. J. J. Joseph returned to his home in Goldsboro this afternoon after speaking at the meeting of the merchants association here today. Mr. Joseph expressed much pleasure at progress of the Greenville organization, and thinks it will be of great influence in the improvement of future business. He has been a member of the Goldsboro association for a number of years, and believes no city can progress along general lines without organization.

"Trixy" is Terror to Rats

"Trixy", the enterprising fox terrier belonging to Night Policeman Stokes continues to increase her record in casualty of rats of the city, and at his time has a reputation that most any dog would be glad to have placed to him. Trixy last night killed five of the largest rodents frequenting the back alley. She manages to get about the same number every night, and computing the rat flesh by pounds she has made a record of from ten to twelve pounds in one night. Rats of the size which this ambitious little dog kills are very destructive in many ways and cost the nation millions of dollars annually. Trixy deserves to be recognized for her splendid services and ought to have a monument erected at her grave after passing away.

TAX COLLECTIONS MAKE UNUSUALLY SLIGHT PROGRESS

Collections in County Come to Momentary Halt, Although They've Been Good so Far

Tax Collections Slow Now
The collection of taxes in Pitt county is continuing at a moderate rate, according to collectors, although they are not meeting with so much success as during the early part of the campaign. It was reported recently that everything had been collected except about \$5,000. While this amount is being cut down gradually, much difficulty is being incurred in concluding the issue. It is hoped, however, that present delinquents will get busy and pay up so Sheriff Dudley will be able to close his books, claiming one of the in the State. The record is an enviable one already, but collectors would feel better if they could finish the job with every cent paid in.

Attend Spring Ceremonial

The following Greenville people attended the spring ceremonial of Shriners conducted in Raleigh yesterday: Mr. and Mrs. J. G. Gilbert, Mrs. Heber Forbes, W. Z. Morton, O. L. Joyner, T. J. Moore, Wyatt Morton, C. O. H. Horne, J. I. Harris and Mr. Saxe, the two last named being candidates for the Shrine. The party spent the entire day in the city, returning at an early hour this morning. They report a splendid time and many interesting scenes, particularly with that great number of candidates passing across the hottest sand ever seen at one single meeting before.

COUNTY EVANGELIST PLANS AN INTENSIVE REVIVAL CAMPAIGN

Rev. Frank Scattergood to Carry Two Weeks Campaign Into Five Communities Beginning May 29

An evangelistic campaign which promises to be one of the most helpful and extensive ever before considered by any single denomination in this section of the county will swing into being May 29th, under the direction of Rev. F. H. Scattergood, Pitt county evangelist and representative of the Presbyterian church. The campaign will be carried into five different localities and will continue for a period of ten weeks, one series of services following another immediately after being completed in the respective districts.

Mr. Scattergood announced this morning that he would be assisted by Rev. A. J. Crane of Tarboro, Frank Sharpe and Miss Vivian Johnston, both of Mississippi. Mr. Sharp and Miss Johnston will become assistants to Mr. Scattergood in his work for the next several months, and their services will prove of great value in the splendid work which the evangelist is accomplishing in practically every part of the county, and has accomplished throughout the several months he has been with the denomination here.

The campaign will open with a series of services at Hollywood schoolhouse May 29th, which will continue for a period of two weeks. Immediately after the completion of these services the campaign will be carried to Mason's schoolhouse, from there to Pollard's schoolhouse, then to Pactorus and Stokes. The evangelists will remain in each place for a period of two weeks, and it is certain much good will result.

Mr. Scattergood has seen long service in the religious field, and his services have been a source of much help in expanding the teachings of Christ. The ambitious program now under consideration is commendable indeed, and should receive the co-operation of members of every denomination success is an assured fact.

GREENVILLE MERCHANTS PICNIC AT AMUZU PARK THIS AFTERNOON

Number of Visitors Attend Business Session at Which Election of Officers Occurred Prior to Picnic; Number of Interesting Addresses

Today proved decidedly one of the fullest in the history of the merchants association of this city, for beginning with a morning session conducted at the chamber of commerce which was featured by the election of officers and the presence of many visitors, the day's activities were brought to a conclusion with a picnic and barbecue dinner at Amuzu park at which Mr. B. B. Peters, president of the State association, was chief speaker. The picnic was largely attended both by visiting members of the association from other towns and city people, and as a result the occasion proved one of the most inspirational since the organization came into being here several years ago.

The morning session was featured by consideration of a number of problems of direct moment to the association, principal among them being present conditions confronting every line of business which was ably discussed by J. J. Joseph of Goldsboro, who has been a member of the Goldsboro club for several years. There were numbers of addresses on program for the morning, practically every one dealing with the present abnormality in business and the tendency of the public to refrain from buying while believing in a great money shortage.

In the election of officers Claude Tunstall, former second vice president, was chosen to succeed B. L. Crow, who has headed the organization as president for three years or more. Judson Blount was elected to succeed W. L. Best as vice president, C. H. Forbes was re-elected treasurer, while Miss Renner also was re-elected as active secretary.

Immediately following the election of officers Mr. Joseph delivered the principal address of the morning. He dwelt principally on the importance of conservatism in business and the necessity for extensive advertising even though business conditions may not be the best in the world. He showed the results to be obtained from a systematic manner of using the columns of the daily newspaper; the necessity of keeping the trading public informed of what the merchant carries in stock, particularly that type of goods which may be considered as specials. The time for co-operated efforts of the business man was never more pressing, he declared, and any town where business men are not organized cannot expect to accomplish as much as other places where they are. Organization means preservation of time and money, because it establishes a direct way for business, and gives the merchant an opportunity of knowing exactly what to do for himself and that great mass of people represented as public traders. The address was timely and well presented and showed in an interesting way the progress which the Goldsboro club must be making even in the face of depressing conditions.

At the park hilarity was at its height and business man outdid business man in an effort to make the event one to be remembered. Mr. Peters was introduced by Mayor D. M. Clark, who complimented the splendid spirit prevailing between city merchants at the present time. This predicts better times and a higher standard of business in the days to come, he confidently asserted.

Mr. Peters covered in a particularly comprehensive way the progress which has been made by the various organizations comprising the State institution, declaring that never was there a time when business men were pulling together as they are now. This fact assures the country of prosperity regardless of stringent money and apparently discouraging business outlook, and when the public awakes to the great good which is being brought about through combined effort it is safe to say prospects for every line of business will be brighter than they have ever been.

GREENVILLE NOT IN FAVOR POSTPONING OPENING OF SEASON

Proposal of Kinston and New Bern Meets Strong Disapproval at Meeting Last Night

The baseball situation continues to warm up in this city and indications at the present time point to one of the most eventful and interesting seasons in a number of years. Added impetus is given the question by reports of intensive preparations by the other three members of the league and the fact that everyone is going to put forth the very best efforts in an attempt to win the first half of the series, if not the pennant. Greenville enthusiasts mean to back up their club to the limit, and this spirit it is believed is going to mean much when the season finally opens.

At a called meeting of directors held in Greenville yesterday afternoon proposals for postponing the opening of the season from June 9th to 16th were considered, but Greenville representatives failed to favor the proposition, and were supported by Washington. The question emanated from Kinston, received some support from New Bern, and the fact that the clubs were equally divided has resulted in the necessity for the second meeting to be held in New Bern within the next several hours. It seems generally conceded the season should open as early as possible, as it is certain players can be secured and trained as much as desired by the first date. Kinston, however, seems to think a little more time is needed, although it is very difficult to understand its reasons for such.

Reports received from the various cities up to this time indicate that hiring of players has been continuing rapidly, and that only one or two clubs haven't completed their lineups. Greenville so far has actually secured the services of five players. Stringfield, the fast shotstop of last season, will be with the club again, while Barnes, Ellis and Massey have also promised to return. Manager Guy Smith hired a player by the name of Liles upon the recommendation of Massey, who says he's a good one and will fully measure up to expectations.

Manager Smith stated this morning that he is in touch with more than enough men to complete his team, and is merely waiting on answers from them. He and Con Lanier scouted the State immediately after the meeting the early part of the week, but did not remain away from the city long, because this was not found necessary. So far very little has been said concerning the material to compose the pitching staff, but Mr. Smith says he has quite a number of good men on string, and won't have much trouble making this station the most formidable part of the club by opening of the season.

Mr. Smith says he means to have clean baseball in Greenville this season. Gambling will not be permitted anywhere in the ball park, and dissipation of the players will be prohibited by the strictest kind of regulations. This news will be received with much interest, as it is certain the club will be able to make a good showing all the time, and when it loses no one can claim the players were not up to their standard because of late hours and revelry.

and Mr. Starr, president of the Wilson merchants association, were numbered among visitors attending the meeting here today, while Miss Elizabeth Culppepper, secretary, also was present.

BIG PREPARATIONS IN PROGRESS HERE FOR MEMORIAL DAY

American Legion Plans to Make May 30 Biggest Day in History of County Celebrations

Preparations for the Memorial day celebration to be conducted in this city May 30th under auspices of the Pitt county post of the American Legion, are continuing rapidly today, and indications point to one of the greatest occasions of its kind held in this section in many a day. The committees on arrangements mean to provide such features that will appeal to everyone, particularly the boys who played such an important part in winning the great war, and as a consequence it is actual to expect something out of the ordinary in every sense of the word.

So far the program is merely of a tentative nature, but by the middle or latter part of next week plans will have been completed and the public will be given an opportunity of hearing of the extensive plans provided for the event. The mammoth parade promises to be one of the most spectacular features of the day, in fact more dazzling than anything produced in the county in years, and with the co-operation of the public it is certain little trouble will be incurred in arrangements for this part of the program.

The American Legion believes in doing things in a big way as they learned during the great drive against the Germans and if plans under consideration materialize May 30 will prove one of the most auspicious memorial days in Pitt county. An intensive advertising campaign is now in progress, and not a single service man will be missed in efforts to reach them all before date of the event approaches. It is the purpose of the committee to have every man possible present, as well as members of the Spanish American war and the Civil war, therefore, it is certain the streets will be thronged with visitors during the entire day.

The various committees are composed of representatives of practically every section of the county. Therefore it is thought quite probable that every man will be reached and urged to be present and take his part in the day's activities. The soldiers are to appear in uniforms in the parade, and this particular feature itself will contribute largely to the greatness of the day.

.....

The immigration question is not one of numbers but of nature; of quality instead of quantity. Here is room enough for all of the right kind; here is no room whatsoever for one of the wrong kind. So long as pioneer spirits came to this country to help build it up, there was no immigration problem. But as soon as the parasites and malcontents began to swar here, the problem arose at once. Two principles will go far to solve it: First, selection; second, distribution. We must select those who are capable of becoming Americans; we must say to them, "You shall not settle in the slums of any city, but go into the great open spaces of the country."

.....

Europe seems to think America is able to grant loans at all times, but the problem seems to lie in the fact that the more we loan the greater the trouble we get in return.

Aurora Borealis caused telegraphers of the country much trouble and concern recently, but fortunately Mr. Borealis doesn't favor them with his presence only occasionally.

The \$500,000,000 naval appropriation measure has been unable to make any headway in the Senate because of opposition from the Borah faction. That's exactly what the public has been expecting from the beginning, but after awhile the opposition will tire of incessant contention and will give way to the proponents.

Germany probably doesn't mind paying the indemnity so much as in realizing that in doing so she will be instrumental in placing France on her feet. Germany would give anything to have that country under its heel of oppression, but fortunately this will never be so unless conditions change marvelously within the next several years.

The visit to this city last week of two members of the International Board of Health goes to show that health authorities are keeping their eyes on the work being accomplished in this section of the country. One of the representatives came with the especial purpose of studying health conditions in rural sections of the county before putting them in practice in Mexico. This is indeed a compliment to the enterprise and industry of Dr. C. J. Chester, director of health in Pitt county, one in which the public should be very much interested. Departments of health are the best assets of any section and people should not be slow in co-operating in an effort to expand their activities.

Quite a number of sections are taking active measures against violation of the dry enforcement measure, and in numbers of instances resolutions have been drafted, with promise of combined moral support. This is what is needed. Support and resolutions mean very little in such a campaign unless the combined efforts of the community is to be put in force. The present serious proportions of the illicit whiskey traffic resulted indirectly from carelessness of the citizenship, and hope of accomplishing anything is absolutely futile unless every home here takes a hand. In such instances are wonderful. It is to be hoped "combined moral support" will be given in every town and community where there is cause for fighting the demoralizing elements.

FORGOTTEN PROMISES

The Republican party made all kinds of promises during campaign days, but so far all the public has seen of a fulfillment is an incessant amount of talking about things that directly and indirectly concern the country. It promised a reduction of taxation such as the country had never heard of before, but all that has been accomplished up to the present memorable period of transition is increased revenues which promise a return to normalcy about as soon as the party gets ready to go out of office four years from now.

It is mighty easy to make promises but when it comes to making them good the situation is changed materially. About the only factions realizing anything out of activities at this time is the large trusts which have always received their share of prosperity. The public as a whole has received nothing. In fact, so little that it would require an exceedingly powerful microscope to determine whether achievements should be more insignificant than they really are.

The railroad question is the same big issue today it has been all the time. Magnates claim they are not making money, and have not been able to make any money since the government relinquished control. Whether there's anything to this assertion cannot be said, but it's a safe go the railroads are not losing enough to hurt them, or they would begin increasing rates in such a way as to terrify the public more than it has been alarmed in the past.

Railroad owners are a curious set of people. This has been proven in the past. They claim one thing then another, and now that they realize the party is with them they are going to claim more than ever and make money regardless of the public and what not. We read all kinds of accounts about what monthly and yearly expenditures are, but as to what the magnates put in their pockets on the side has never been determined and will never be.

They estimate there are at least five million men out of employment and that service is greatly hampered, but coming down to the truth about the matter an accurate account shows the number to be at least two million men less than they figured. They probably figure the same way about dollars, therefore, the public may read all it likes about the deplorable state of affairs, but when it comes to believing it might be safe to stop and consider. The party probably means to make some of its promises good in the near future. We hope it will for the country is in such condition that unless something is done somebody, some where is going to suffer, there's no doubt about that. Campaign days are over and almost forgotten, therefore if the party means to make things good it had better begin right away before the importance of issues at hand are forgotten.

America's foreign relations may all be poor relations, but that doesn't keep them from scrapping like the dickens, and that's a safe go.

The Southern Baptist convention which has recently been in session in Chattanooga, Tenn., has deferred action pertaining to representation of women on church boards. It was thought at first the proposal would go through without a hitch, but something happened during the convention which caused such indecision that delay was inevitable. It is hardly probable the denomination would be injured by granting women this prerogative. They have proven themselves equal to the occasion in many responsible positions and recognizing their rights for greater liberty in churches would be repaying them for what they have already done for the country. The American woman is exceedingly enterprising and industrious. She is educated and sufficiently fair-minded and intelligent to be trusted with any mission of the present day, so it is unspeakably certain that her activity on church boards would result in greater good to all interests concerned.

Punch and Judy Coming

Bang! Slap! Crash! "You will do it!" Noise and more noise! What is it all about? Don't get excited; it is merely a warning of what the children will hear and see when they attend the big Children's Afternoon program at the coming Chautauqua and see the big Punch and Judy show by Professor Will H. Smith.

All the grown-ups have seen a Punch and Judy show some time, and they think they know just what these little puppets act so innocently. Is it that they are controlled by wires? Or rubber bands? Or just how is it that they act so quickly and accurately?

The secret is hard to discover. See the big show at the Chautauqua Tent.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for Wyeth's Sage and Sulphur Compound. You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

MY WAKE FOREST BOYS

By J. W. Lynch

They came from coastal plain and mountain glen,
In pulsing streams of youth,
And poured their souls in the moulds of men,
Made by God's shaping Truth.

I saw their upturned faces bright,
Called by Sabbath chime,
And sung upon their untrained might
My song of love divine.

I see them oft in many a place,
But changed beyond my ken;
I know their hearts though not the face,
My boys now are MEN!

Past are the years: I feel the weight
Of life's increasing cares,
But old-time love my soul doth state—
Sweet fruitage of my prayers.

evil spirit of old, which cried out "I know thee, thou art the Holy One of God". Out of the alabaster box of a pure mind there flow no ill odors, but the air is made redolent with the sweet perfume of mind's most beautiful flowers, holy thoughts and loving motives. If impure thoughts are permitted there, impure words will flow from them in proportion to their occupancy of the box, which is "very precious" only in proportion to the purity of its contents. One evil thought will change the odor from the precious ointment and if it goes forth and brings in another more wicked than itself, as did the evil spirit, the odor becomes sickening and nauseating because death lurks in all evil, evil thoughts particularly. One's life should be such as to make it manifest to those about him that he bears this box of "very precious" ointment with him. It is not only full of purity but pure things are good things and good things are impelled by love. So that the alabaster box of a pure mind is also one of love. And this alabaster box of love and sweet purity should not be kept sealed or hidden, but it should be open constantly in order that its contents may be known and enjoyed by all with whom we come in contact. Contrast the beauty and happiness here and hereafter of the pure life. This, it would seem, should be enough to inspire any one to a mental house cleaning in order that he may be able to say search me, O God, and know my heart, try me and know my thoughts.

AN INSIDE BATH MAKES YOU LOOK AND FEEL FRESH

Says a Glass of Hot Water With Phosphate Before Breakfast Keeps Illness Away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before eating more food.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who have bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of inside bathing.

WOMAN DECLARES PASTOR'S ADVICE BLESSING TO HER

Mrs. Kelley Thought She Was Beyond Hope—Says Tanlac Restores Her to Splendid Health

"I had long thought that no medicine could do me any good; but Tanlac has done for me in just a little while what I had tried for years to get other medicines to do any my enthusiasm for it is unbounded," was the statement made recently by Mrs. G. M. Kelley, wife of G. M. Kelley, well-known employe of the West Virginia Pulp and Paper Co., residing at 420 Highland St., Covington, Va.

"My stomach pained and worried me all the time for four years and everything I ate gave me awful cramps. At times I couldn't retain a bite of food, and even a crust of dry bread would nearly throw me into spasms and I had such gagging spells I was afraid I would burst a blood vessel. I was so nervous I couldn't sleep, and my forehead, neck and back hurt awfully. Sometimes I couldn't straighten my neck, and my back was drawn so at times I couldn't stand up straight. Finally I got so bad off I just had to quit doing any of my housework and spent most of my time lying down.

"Well, after everything that seemed possible was done for me, the Rev. W. C. Richardson, a Methodist minister, told us he thought Tanlac was what I needed. So I started taking it and while on my first bottle I got so much better than I knew Tanlac was just what I had been needing, and now I'm in such fine health I'm really enjoying life for the first time in years. I have a wonderful appetite, never have a touch of indigestion, and can keep at my housework all day long without sitting down, except at meal time, and still feel good. Tanlac is simply grand."
