GOVERNMENT DEBT SHOWS DECLINE IN LAST FEW MONTHS

National Debt Amounts to \$23,438,000, 000 Made up Chiefly of Liberty and Victory Bonds

(By International News.) Washington, Jan. 5.—Uncle Sam's ledger today looked better than any month since the war debt was at its peak in 1919. The public debt of three billion and fifty-seven million dollars was made within the last 23 months. This is due to retirement of victory notes, sinking fund operations of the treasury and equally rapid retirement of certificate of indebtedness.

The nation's gross public debt amounts to \$23,438,000,000, which is made up chiefly of outstanding Liberty and Victory bonds.

NEW PROVISIONS IN REVENUE ACT FOR PRESENT YEAR

Collector of Internal Revenue Grissom Gives Out Facts Regarding Important Provisions

Raleigh, Jan. 5.—The following statement is issued by Collector of Internal Revenue Gilliam Grissom for the District of North Carolina:

The revenue act of 1921 contains two new and important provisions, which are the subject of frequent inquiry. The first relates to the personal exemptions allowed married persons, and the second to the provisions requiring that a return be made of gross income of \$5,000 or more.

The act provides that a married person, living with husband or wife, whose net income for 1921 was \$5,000 or less shall be allowed a personal exemption of 2,500. If the net income of such person was over \$5,000 the exemption is \$2,000. Under the revenue act of 1918 the personal exemption was \$2,000.

JAPANESE DELEGATES PROFUSE IN PRAISING AMERICAN HUMOR AND CLEAR-HEADED DIPLOMACY

Fling Superlatives With Careless Good Grace, But They Overwork the Adopted Smile

By WEBSTER K. NOLAN International News Service Staff Correspondent

Washington.—Superlatives are being flung with careless good grace in Japanese circles here in these post-ratio-settlement days. In the vernacular of the American schoolboy, the Japanese are under the impression that the conference has kicked a goal and panned a winner. In the vernacular of Hashimuro Toga, the classical Nipponese schoolboy, the conference has caused "much grateful pleasing among my people and much thanks are due America for her wide-minded nobleness of nature."

Our Baron Kato, one official of the Japanese delegation avers, with a broad grin, has proved himself very much of a diplomat. He is maybe to be to the understudying eye a cold and unemotional man. But our Baron Kato is warm in his heart and far-seeing in his mind. He had a difficult work to perform, and he performed it to the satisfaction of the people of America. There is no longer any doubt of Japan's desire for peace in the Pacific, and her long desire to come to an understanding with America has been cemented by the masterful work of our Baron Kato.

Your Secretary Hughes is also a wonderful diplomat, he continued, being beamed a broad smile.

NEW INCOME TAX LEGISLATION GOES INTO EFFECT SOON

Incomes From All Sources Received by Taxpayers is Subject to Taxation This Year

Raleigh, Jan. 5.—The legislature of 1921 enacted a new income tax law effective January 1st, 1922. Under the previous act only incomes from salaries, wages, fees and commissions were subject to income tax. Under the present act income from all other sources received by a taxpayer during the calendar year 1921 is subject to income tax to be paid in 1922.

Every tax payer having a net income during the year 1920 of \$1,000 and over if single; or having a net income during the year of \$2,000 or over if married and living with husband or wife, shall make a return.

Blank forms for report of income of tax payers, individuals, partnerships and corporations are now being mailed out by the State department of revenue, Raleigh, to all known probable tax payers, which blanks upon receipt by the tax payer should be filled out and returned to the State department of revenue, Raleigh, together with amount of tax due. Penalty for failure to file report attaches on March 15th. A supply of blanks has also been received by the register of deeds of the county for distribution to tax payers who have not received directly a blank form of report, and if any tax payer has failed to receive such form he should immediately call on the register of deeds for a copy.

The new income tax law while not identical with the Federal income tax law is similar, and may be used as a basis for return of income for State income tax.

For more detailed information as to income tax law reference should be had to schedule D of the revenue act, chapter 34, public laws of 1921.

LONDON TIMES WRITER KIDNAPPED BY IRISHMEN

Dublin, Jan. 5.—A. B. May, correspondent of the London Times, was kidnapped by three armed men who were identified as members of the Irish Republican army.

KINSTON TO GET UNION DEPOT IN NEXT FEW MONTHS

Corporation Commission Will Order Carriers to Erect Planned Depot as Soon as Possible

Raleigh, Jan. 4.—Kinston's delegation of business men won out in their fight before the corporation commission here today to obtain the early construction of a union depot at the crossing of the Atlantic Coast Line tracks and the Norfolk-Southern right of way at East Caswell street, Kinston. The commissioners gave every assurance that the order, which was issued in 1914 and which was put aside owing to the world war and resultant conditions, would be again given to the two carriers within a few days. The new order, according to the plans submitted by the architect of the Coast Line, will mean a satisfactory depot for the new union depot.

This favorable action was the result of a fight that has raged for many years, beginning in 1912 and, it is hoped, ended here today. Kinston's present depot facilities are not only lacking in size and convenience but are absolutely unsanitary and primeval in the extreme. The Kinston business man, led by H. Galt Braxton, chairman of the chamber of commerce, put up the fight of their lives in spite of the time-worn complaint of the carriers that finances were defunct and bankrupt. While some truth is existent in their claim, no one believed the enormity of the lack of money as their two attorneys ably claimed.

PRICE OF COTTON REMAINS FIRM ON GREENVILLE MART

Local Market Continues to Hold Its Own Against Other Cities, Except Charlotte

Greenville continues to lead the state in the price of middling cotton, according to reports made public by the department of Agriculture. Only Charlotte has bettered the Greenville record, but this was by a very slight margin. Prices have ranged from 17 to 17 1/2 cents since the holiday season, and those acquainted with the situation are expecting no definite change in the near future.

The greater part of the crop has already been disposed of, but it is believed the next month or so will see a considerable amount of the fleecy staple marketed here. Numbers of growers have held a considerable portion of the crop in reserve awaiting advance of prices, and in event the situation improves the market will witness additional activity. Numbers of towns have followed Greenville and Charlotte closely in prices, but so far none have been able to reach higher figures. If this situation continues it is certain the market will experience more favorable conditions than in years for the same part of the season.

AMERICANS IN CANADA ENJOY WINTER SPORTS

Toronto, Ont., Jan. 5.—Winter sports are in full swing in Algonquin Park and hundreds of tourists from Canada and the United States are holding high revel in the snow, which is deep over the 4,000 square miles of primeval wilderness comprised within the borders of this great international playground.

Snowshoeing is one of the most popular pastimes. Gay parties set off on long hikes through the forest day and night. Over the hills they make their way, along the margin of ice-sheeted lakes, through unending woods of pine, tamarack and spruce, drinking in health with every breath, returning in the twilight with ruddy cheeks and sharp appetites.

If you want a good companion through the new year take The Reflector along with you.

TALES OF KILLINGS IN FRANCE ROLL IN AT SENATE INQUIRY

More Strokes of Cold Blooded Killing of American Soldiers in France Presented Committee

(By International News.)

Washington, Jan. 5.—Tales of American soldiers in France being shot down in cold blood by superior officers rolled in today on the senatorial committee investigating Senator Tom Watson's charges of indiscriminate killing of members of the American expeditionary forces.

Edmund Dunner of San Francisco, who came to Washington at his own expense to testify, swore he saw a soldier shot by a drunken sergeant because he asked for a piece of bread. The shooting occurred at Banes prison near Bordeaux, he said.

Dr. Dunner also said the man shot was John Fitzgerald of Pennsylvania. The man who shot him was named Cooper.

Henry L. Cadenhead of Greenville, Mississippi said he saw ten or twelve Americans hung at Issurville where army records only show one was hung.

Colonel Opie, who was accused of shooting men in the Argonne forest, was present at the hearing. Witnesses also accused him of indiscriminate shooting.

POWERS AGREE TO EXCLUDE MAINLAND

Washington, Jan. 5.—It became known officially today that an agreement had been reached between the United States, Great Britain, Japan and France to exclude the mainland of Japan from the Pacific treaty thus removing the one chief cause of senatorial opposition.

TEACHERS COLLEGE OPENED THIS MORNING AFTER THE HOLIDAYS

East Carolina Teachers College opened this morning at 8:25, after a two week's holiday. Practically the whole school was in place on time. Every training arriving in Greenville yesterday was filled with the students. There were only a very few new students because of the lack of room and these are taking the places of those who have dropped out. One of last year's graduates, Miss Mabel Thomas, who has been doing extension work in Chatham county, has re-entered to take the advanced work in the college course.

The members of the faculty were scattered far and wide during the holidays, most of them going to their homes.

Greenville camp M. W. A. held a very enthusiastic and interesting meeting last night. Officers for the year were installed and new members were initiated and all enjoyed a smoker. All the members seemed full of renewed interest.

FEW ARRESTED SPEEDING TO WORK, SAYS HOBO

Columbus, Ohio.—"The anty time a loafer is ever fired with enthusiasm is when his boss fires him and furnishes the enthusiasm," said Douglas Mallock, poet of the woods and former head of the American Press Humorists, in an address here.

"There is no such thing as doing too much work for your pay. Very few men are arrested for speeding on their way to work," continued Mallock.

GOVERNMENT DECLINES TO CANCEL ALLIED DEBT

(By International News.)

Washington, Jan. 5.—Before the United States will participate in any international financial conference the government must be assured that no effort will be made to cancel the eleven billion dollar indebtedness by foreign countries, it was declared in high administrative quarters today.

The price of cotton continues to remain at a favorable figure. It must have heard about the coming of the boll weevil.

It would be advisable for belligerent nations of Europe to stop fighting and hold an armament conference, too. They might find more to fight about.

The Republicans made a poor start, and indications don't seem to point to any better ending. It's a pity they can't gain the confidence of the public but this isn't to be expected after the doubtful things pulled off by different members since they came into power.

Greenville white way isn't talked very much of late, but we are gratified to learn that construction work will begin in the near future. Business men along Evans street and Dickinson avenue have already contributed their part for installing the system, and it is certain the plan will not be abandoned. In fact, it would be much more reasonable to expect an expansion.

The Reflector is doubling its capacity at present time and will be able to give our readers a paper they may be truly proud of. We are working at a great disadvantage now while the machinery is being installed, and if readers will bear patiently with us a few days longer they will be rewarded by receiving a paper that will do credit to a town much larger than Greenville.

The chamber of commerce should continue its campaign for enlightening the farmer about the coming of the boll weevil, as it is through such methods the country will be saved from the disaster which other communities suffered by not being in a state of preparation. Pitt county growers are ready to do anything for improvement, and if they believe great loss may be eliminated by reduction of acreage and planting of food crops the public may rest assured they will take advantage of it.

The boll weevil may be one of the greatest pests in the world to the cotton producing farmer, but by proper attention to the cultivation of food crops the pest will be cheated of a great victory. The world supply of cotton is such that the farmer may curtail acreage for the next four years without anyone being the loser? This being the case, the thing to do is to plant food crops, and wait until the weevil has had his day before planting any more cotton.

There are numbers of people in this community in need of charity, and instead of raising such great funds for foreign countries our people do well to look after those in their own midst. The public may be in intimate touch with the needy through members of the county welfare department. This organization's members are in touch with many cases that would bring tears to the eyes of the benevolent, and by proper support may be able to give desired relief.

...the county welfare department, as such good work is being done in the interest of delinquent children and those in need of charity. Wayward children handled through this department become respectable men and women eventually, and every community has the state to thank for inaugurating the plan for reforming its own children. The county department is probably one of the most active in the state, judging by past records, and if the public will give desired support it is destined to establish even a better record.

THE LEAGUE CAN DO IT.

Viscount Gray, former British minister of foreign affairs and ambassador to Washington, believes the league of nations would be the most direct means of solving world problems. That he is right goes without saying, but getting members of the administration to take the same view is another question.

The league could have accomplished much more than the armament conference. It embraces practically every nation of any importance in the world, and if promoting world peace or disarmament, would be able to get results which no conference headed by four larger nations could ever be able to accomplish.

It's a pity the American people failed to accept former President Wilson's version of the league. If they had, instead of having so many doubtful questions today the country would be at peace with the entire world and economic conditions as normal as before the war. The league has been scored by prominent members of the Republican party, but that was to be expected. Their views are biased because of the principals which they and other members represent, and as a consequence the world can expect no more of them.

Viscount Gray is one of the most resourceful men of Great Britain, and when he says the league is the only direct means of settling world affairs, he speaks authoritatively. His experiences have been such as to give him more than ordinary knowledge of world affairs, and what he has to say should receive great consideration of people in every part of the world.

AMERICA'S PROSPERITY

America's industrial progress is inextricably linked with her foreign trade and it is impossible for the United States to achieve its pre-war prosperity by a revival of domestic business alone. Dr. Henry A. E. Chandler, economist of the National Bank of Commerce in New York, says:

Dr. Chandler takes issue with those who believe that, since foreign trade represents not more than 10 to 15 percent of America's total commerce, the loss of a part of it would leave a sufficient percentage of the whole to insure reasonable prosperity. In the January number of the bank's magazine, Commerce Monthly, he points out that economic investigation proves that "even during periods of depression, volume of national business, after allowing for price changes, seldom departs from normal by more than 15 percent, and often by smaller percentages; and a seemingly small reduction in the percentage of gross business may have great significance when translated into terms of net profits and thus into final buying capacity."

"In view of the decline in foreign buying capacity it has been suggested that we may have to reduce our output to conform much more nearly to domestic demand and thus in the future prevent the accumulation of surpluses similar to those that have so recently demoralized some of our principal markets," he continues. "Undoubtedly such a reduction can be effected in part and indeed, to some extent, has already been done, but as a practical movement upon a large scale it is beset with great difficulties."

"If, for example, we lose only 5

...90 feet from the corner of 4th and Washington streets, thence with a northwesterly direction with C. O'H. Laughinghouse line 109 1-2 feet to Dr. L. C. Skinner's line, thence in a westerly direction with Skinner's line 50 feet to a stake, thence with L. C. Skinner's lot in a southerly direction 108 feet to a stake on the north side of 4th street, thence along Fourth street easterly 50 feet to the beginning, it being the same lot or parcel of land which was conveyed to N. W. Outlaw and wife Grace S. Outlaw by T. W. Whitehurst and wife on January 30th, 1918 by deed registered in book 12 at page 554.

"Our domestic trade will, of course, continue to be of much the larger importance in our economic life, and even if international economic affairs should remain in a highly unsettled condition we would, undoubtedly, make important substitutions and readjustments within our own territory that would contribute to the relief of our domestic business situation. Such readjustments are in part already under way. Indeed it is not at all clear that the uncertainty as to the international situation is an unalloyed evil. In forcing us to look more closely for possible readjustments at home, consequent efficiency may, in the end, bring us some lasting benefits."

TWO MEN RUN DOWN BY AUTO TRUCK IN ATLANTA
(By International News)

Atlanta, Jan. 5.—Run over by a truck while boarding a car and receiving serious injuries, B. F. Sewell was again run over by the same truck when the negro driver tried to maneuver to assist persons trying to extricate Sewell. P. S. Gibson of Newnan, Ga., also received painful injuries when struck by the same truck.

BRITISH SEEK NON-BURSTING AIRPLANE TANK

London.—Experiments with an airplane petrol tank, which can be dropped from any height without bursting, have been made at Farnborough Airdrome.

Fastened to a running engine, the tank was dropped from the top of the highest airplane shed onto a concrete base and did not burst.

Many airmen have lost their lives through petrol tanks bursting and catching fire.

The Silver Lining!

Honolulu, T. H.—A possible shortage of ukuleles, guitars and various souvenirs made of the famous koa (Hawaiian mahogany) is threatened as a result of a recent conflagration in a Honolulu planing mill on lumber yard. The fire destroyed a pile containing 10,000 feet of koa wood, said to be the largest supply of this rare wood on hand in the islands.

Kinston, Jan. 5.—The marriage of Miss Ella Katherine Haskett, daughter of Mrs. J. P. Haskett, to Henry Hubert Morton, was conducted this morning at 6 o'clock at the home of the bride on King St. Only a few friends were present owing to the desire of the family and the couple to make the event as quiet as possible. They left on the 6:30 Coast Line train for Richmond, from which point they will go to Cincinnati, Ohio.

Miss Haskett is one of the most talented and beloved young women of the city and has a large number of friends all over the state. Mr. Morton is likewise well-known here and is one of Kinston's finest young men. The couple will only reside in Cincinnati temporarily and will make their home here later, it is understood.

Round Table Meets.
(Reported for The Reflector.)
Mrs. C. T. Munford was hostess for the Round Table club on Tuesday afternoon. After a brief business session the program was taken up. The topic was "The New Nation." Mrs. D. J. Whichard very ably presented the subject, "The Principles and Policies of the New America as Interpreted by Washington and Jefferson." She urged everyone to read and study the speeches and history of these men who had so much to do with our early history. Miss Wyman gave a very instructive and entertaining account of the "Life and leadership of Washington." Mrs. Bryce Brown was a guest of the club. The hostess served a very delightful sweet course. After hearing New Year's resolution from all the club adjourned to meet at Mrs. H. E. Austin's, with Miss Wyman hostess, on next Tuesday afternoon, Jan. 10th.

Resolved!
that the year 1922 will continue to buy Buick cars with Buick motors and all Buick machinery

Just think how much happiness it would bring if everybody could start the new year with a new Buick.

Look over the list of Buick owners in this community; you will find among them the most representative people of our city. Next to the pride that we feel in having the best automobile buy in the world, is the pride we feel in the type of people who are driving Buick Automobiles in our territory.

PROVISIONS OF THE REVENUE ACT

(Continued from page 1)

tion allowed a married person was \$2,000, regardless of the amount of net income. The normal tax rate remains unchanged, 4 percent of the first \$4,000 of net income above the exemptions and 8 percent on the remaining net income.

In order that an income slightly in excess of \$5,000 shall not be subjected to an inordinately disproportionate tax because of the reduction of the exemption to \$2,000 thereon, the law provides that such reduction shall not operate to increase the tax, which would be payable if the exemption were \$2,500, by more than the amount of the net income in excess of \$5,000.

For example, on a net income of \$5,010, the tax, without this saving clause, would be \$120.40, which is 4 percent on \$3010, the amount of net income less an exemption of \$2,000. The actual tax is \$110.40, computed as follows: from the net income of \$5,010 is deducted leaving \$2,510, the 4 percent tax on which amounts to \$100.40. To this is added \$10, "the amount of net income in excess of \$5,000."

The personal exemptions allowed married persons, apply also to the head of a family, a person who support in one household one or more relatives by blood, marriage or adoption.

Heretofore, a person whose net income was less than his exemption \$1,000, if single, or \$2,000 if married,

was not required to file a return. Under the revenue act of 1921, if the gross income of an individual equalled or exceeded \$5,000, or if the combined gross income of a married couple and that of dependent minor children equalled or exceeded \$5,000, a return must be filed, regardless of the amount of net income.

"Net income" is gross income, less certain deductions. The fact that allowable deductions from gross income, for business expenses, losses, bad debts, etc., may reduce the net income to an amount below the personal exemptions of \$1,000 or \$2,000, does not alter the requirement to file a return of gross income, if such gross income equalled or exceeded \$5,000.

Neuritis Victim Hardly Knows Danger

(Thursday Health Talk No. 52)
(By J. B. Ball, D. C. Ph. C.)

The neuritis victim hardly knows the danger of this disease. Usually the pain is so persistent day and night that any measure of relief is welcome and no thought of future danger is possible.

Neuritis, like neuralgia, may be caused by a local displacement of spinal vertebra, and thus affect only a part of the body. If nerves are affected in a number of places at the same time, it is what is called multiple neuritis and is caused by pressure on the spinal cord at the base of the brain.

UNCLE BEN SAYS:
Tomorrow, Nevy, is merely the yesterday of today, and yesterday is past. The only day you have, is today.

HEALTH FOLLOWS
CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:

Spinal Column—LOWER LIMBS

THE LOWER NERVE UNDER THE MAGNIFYING GLASS IS PINCHED BY A MISALIGNED JOINT. PINCHED NERVES CANNOT TRANSMIT HEALTHFUL IMPULSES. CHIROPRACTIC ADJUSTING REMOVES THE PRESSURE. THE UPPER NERVE IS FREE AS NATURE INTENDS.

The danger of neuritis if not quickly checked is that the heat in the nerve finally atrophies or destroys the nerve. This degeneration of the nerve tissue, if the neuritis for instance affects the arm, amounts to a loss of power in that arm. Neuritis should be checked at once. Its very nature points clearly to the need of chiropractic spinal adjustments.

NEURITIS IS GONE
"For months I suffered with neuritis of the neck, shoulder and arms. After three months of osteopathy during which I got ninety-seven treatments, I decided to try chiropractic. In two weeks the pain had gone, and I have had other chiropractic adjustments since but no return of the neuritis."—Lillian Harne, Chiropractic Research Bureau, Sworn Statement No. 1293L.

Chiropractors adjust the cause of disease instead of treating the effect.
