TOBACCO GROWERS TO NAME FOURTEEN DELEGATES MONDAY

Members of Co-operative Movement to Meet at Court House and Name Members to New Bern

FOURTEEN MILLION POUNDS OF TOBACCO SIGNED UP IN PITT

All Members Urged to Attend Meeting and Take Part in First Organization Plans

Members of the Co-operative Marketing Tobacco association of this county will meet at the court house in this city Monday morning at ten o'clock to elect delegates to attend the district convention to be held in New Bern February 2nd.

Fourteen million pounds of bright leaf have been signed up in Pitt county so far, according to information made public this morning by the State agricultural department, and this gives Pitt county exactly fourteen delegates to the convention, one delegate representing each million pounds of tobacco.

At the meeting every member will be supplied with ballots and requested to vote for the men they would have represent them at the district convention. This meeting promises to be one of the most vital since the new marketing plan came into being any many issues of importance will be discussed.

Many important tobacco growing sections comprise this district, and the New Bern convention no doubt will be one of the most important of the entire state, especially since more tobacco is produced in this immediate territory.

Every member of the organization is urged to attend the meeting here Monday morning and do his part in perfecting the organization.

BODY OF WOMAN FOUND ON RAILROAD TRACKS

Chattanooga, Jan. 27.—The body of an unidentified woman was found on the railroad tracks a short distance from this city this morning. A letter was found in her pocket, bearing the name of Kate Javorska, Chicago.

Famous Inn is Burned. London.—The Rose and Crown Inn at Sudbury, which was the "Town Arms" mentioned by Dickens when describing the Estanswill location in "Pickwick Papers," has been destroyed by fire.

U. S. WARSHIPS WON'T IGNORE SUBMARINES

All Fighting Ships to Be Equipped With Depth Charges; Mines Kept in Reserve

By T. N. SANDIFER International News Service Staff Correspondent

Washington.—Although under the rules adopted by the arms conference the submarine has been technically robbed of some of its principal terrors the United States navy is losing no time in preparing to deal with that weapon should another emergency arise.

The American navy during the world war had ample opportunity to get first hand information as to the deadliness of the undersea craft and among the officers having such war experience there are no illusions as to that vessel's ability.

Two of the most efficient weapons against the German submarines were developed by Americans during the war, and these weapons are still regarded as of maximum effect. They are the depth bomb and the mine.

American naval officers used both in the war with considerable effect, and one of the outstanding feats of that conflict was the North Sea barrage of mines, in which work the Americans had a major share.

Accordingly all destroyers not already equipped are now being supplied with an allowance of depth charges. No new manufacture of this device has been undertaken since the

Cardinal Petro Lafontane, Patriarch of Venice, is mentioned as a candidate to succeed the late Pope Benedict. He was born in 1860 and made Cardinal in 1916.

BASKETBALL CLUB FROM TARBORO TO BE HERE TONIGHT

Double Header to Be Filled Off at Forbes & Morton's Warehouse; Girls to Participate

The two Greenville basketball clubs are in prime condition for the double header to be played at Forbes & Morton's warehouse here tonight with Tarboro. Both boys and girls have been going through strenuous practice the past two days and what they go up against the better organization from Tarboro tonight fans may be assured of the best playing of the season.

Coach Duncan this morning announced the line-ups for the girls which was completed yesterday afternoon by Miss Mary Benton who has been acting as coach during the indisposition of Miss Corrina Mial. Only slight change has been made among the boys, who have made a splendid showing in every game this year.

The lineup of the girls follows: Esther Wayne, c.; Rose Hadley, g.; Virginia King, g.; Aleene Critcher, f.; Louise Moye, f. Other players are Lucy James, Willard and Pauline Taylor.

The line-up for the boys is as follows: J. Barber, cf.; Zeno Brown, lf.; R. Hardee, c.; Tom Foley, rg.; Robert Williams, lg. Other players who will probably take part in the game are Moye, Smith, Mayo, Gaston, Perkins, Harvey, Patrick and Evans.

MOTHER AND BABY PERISH IN FLAMES IN NEW YORK CITY

Several Other Persons Badly Burned in Fire That Swept Through Tenement Today

(By International News.) New York, Jan. 27.—A woman and her eighteen months old baby perished and twelve others were seriously injured in fire that destroyed a four story tenement house in Brooklyn early this morning. Twenty-five persons were carried to safety by firemen who were unable to reach the women and children that perished.

DURHAM TIED UP BY HEAVIEST SNOWSTORM

Durham, Jan. 27.—The heaviest snow since 1898 tied up traffic in Durham and several nearby North Carolina cities today. Twelve inches of snow was on the ground this morning and was still falling. Railroads are reported blocked to Raleigh.

war, but ordinance experts are working on improved types and are making satisfactory progress in this development.

POLLOCK WOMAN BANISHED FROM FIFTH DISTRICT

Prostitute of Underworld Sentenced to Jail or Banished by Judge Cranmer Here Last Night

ATTORNEY ENTERS PLEA OF MERCY OF THE COURT WITHOUT ANY EFFECT

Only Witnesses Were Sheriff Dudley and Members of the City Police Department.

Lucile Pollock, young white woman recently indicated on a charge of operating a house of prostitution in the underworld of this city, was last night banished from every town and village of the Fifth congressional district by an order of Judge Cranmer, presiding over the criminal term of Pitt county superior court. It was either agree to banishment or accept a sentence of two years in the county jail, according to provisions contained in the judge's order, so the woman decided to leave Greenville by February 2nd.

In the hearing last night Colonel Albion Dunn, attorney for the woman, pleaded for mercy of the court, admitting that the State had made out its case. Solicitor Davis submitted the case to Judge Cranmer, who presented the terms directly to the woman, the jury having heard all the evidence.

Judge Cranmer addressed the woman, expressing his pity for her sad plight. He told her of the damage done society by women of the underworld. Young men are demoralized by frequenting houses of the underworld, he declared, and it is best for very city that these women be banished. It was at this point that he gave her the alternative of leaving the Fifth congressional district or two years in jail.

Judge Cranmer learned yesterday morning that Lucile Pollock had said she would not be able to appear in court during the day. He ordered Sheriff Dudley to have her examined by Dr. Laughinghouse, and to bring her to court if the physician found her in condition. This the sheriff did, and the trial started off promptly when the evening session opened.

The woman pleaded not guilty of the charge of operating a house of prostitution, but testimony of Sheriff Dudley, Chief Lester Jones and Officer Guy Caton sufficed to prove her guilty of the charge. A large crowd attended the hearing, but all under 21 years of age were ordered from the court room.

NO CHOIR PRACTICE AT CHRISTIAN CHURCH

Owing to inclemency of the weather there will be no choir practice at the Christian church tonight.

Forty two babies in forty four years, the record of a woman who died near Rugby, England, in 1726, is said to be still unbeaten.

GIRL WHO LIKES DANCES LOVES TO BE HUGGED, SAYS PROMINENT MINISTER

Springfield, Ill.—"I love to be hugged,"

This, declared Rev. J. Leroy Mitchell at the Douglas Avenue Methodist church of this city, is what the present day girl means when she says she likes the modern mode of dancing.

Take the hug out of the dance and it will die, Rev. Mitchell continued. Who ever heard of a bunch of men having a dance? A man would as soon hug a barrel of soft soap as hug a man. When you say you love to dance you mean you love to be hugged.

Of the present day styles in women's clothes he said:

I have wondered what kind of style books and patterns Adam and Eve had. I'll bet they did as well as they do today. I don't know what was in the apple to make them know they were naked, but I have wished that some women would get a bite of that apple. They might go home and get enough clothes to cover them up.

Adam blamed his wife for his meanness; he is not the last man to do that thing. When Eve tempted Adam he may have asked to be excused, but when he saw her tears he would have eaten a barrel of apples to stop that.

ASKS CONGRESS TO APPROVE CONTRACT OF MUSCLE SHOALS

Delegations From Other States Ask Congress to Favor Henry Ford's Offer Immediately

(By International News) Washington, Jan. 27.—Secretary Underwood of Alabama in 1916 approved the offer of Henry Ford's Muscle Shoals when the contract was submitted to congress.

Secretary Weeks is expected to submit Ford's offer Monday. Engineer Mayo is in Washington with the contract, it was stated this morning, and is expected to deliver it this afternoon.

Weeks was also petitioned by a Wisconsin delegation to turn over Muscle Shoals to Henry Ford.

BANDITS KILL CASHIER AND ESCAPE WITH \$20,000 WORTH OF LIBERTY BONDS

(By International News) Pittsburg, Jan. 27.—Ninety-five thousand dollars in Liberty bonds was taken by five heavily armed bandits from the First National Bank of Grafton early this morning.

Assistant Mays, who resisted was shot and instantly killed by the bandits, who fled in an automobile and later engaged in a pistol battle with the police, who intercepted them as they started to leave the bank.

UNITED IRELAND IS FORECAST BY PREMIER ASQUITH

Asquith as Optimistic as Lloyd George Over the Settlement—Thinks Ulster Will Join

(By International News) London.—H. H. Asquith, former prime minister and present leader of the opposition in the House of Commons, with an optimism equal to that of the premier himself, sees a United Ireland as an assured thing of the future.

In recognition of the splendid spirit with which he ignored party questions and forgot a personal and political feud of five years' duration, in promising Lloyd George the Independent Liberal party support for the Irish settlement, the prime minister's first act when parliament met to ratify peace was to shake hands with Asquith before the eyes of the assembled house.

Government and opposition have been one on the question. Asquith now sees virtually eye to eye with the premier regarding the future.

No one knows better than the people of Ulster, he says, that Ireland cannot in the long run afford to keep two governments.

I do not mean merely from the point of view of pounds, shillings and pence, but from moral, social and economic considerations.

I am glad to see that the latest pronouncements of the Ulster leaders encourage the hope that, whatever may be the difficulties of the moment, when passions still run high and uncompromising phrases still echo in the air, they will feel their way to approximation, and then, before very long, upon a broad basis of give and take no ultimate unity.

The treaty lays the broad basis upon which there may be built up and cemented a solid fabric of liberty for a self-governing Ireland.

TEACHER LOSES POSITION WHEN PUPILS PLOY POKER

New York.—Because he allowed several of his boy students to take part in a poker game at his home, Jaul Miller, professor of physics and chemistry in the Newton, N. J. high school, has lost his job.

Professor denied he had participated in the game and said that when he found the boys playing poker he immediately stopped the game. The voted to reprimand him, but on the threat of the resignation of ten of Miller's fellow teachers, including six women, the order was changed to dismissal.

JUDGE LYONS SETS ASIDE VERDICT IN THE ANDREWS CASE

Sends Order to Clerk Harrington Granting Another Hearing Under Stipulated Conditions

CASE MAY COME UP THIS TERM OF CRIMINAL COURT OR DURING APRIL TERM

Andrews to Receive Sentence of Not Less Than 25 Years in the State Penitentiary

The verdict has been set aside against Bonnie Andrews, young white man of this county, who was sentenced to die in the electric chair last December, on a charge of criminally assaulting Estelle Briley, 12 year old school girl of the Stokes section, according to an order received yesterday by J. F. Harrington, clerk of Pitt county superior court.

The order was issued by Judge C. C. Lyons, of Warrenton, who pronounced sentence against Andrews, with the understanding that the condemned man will plead guilty of criminal assault and other minor charges at a trial to be given probably during the April term of superior court in Greenville.

Judge Lyons' order, to Clerk Harrington follows: "State versus Bonnie Andrews: The verdict and sentence in the above entitled case is set aside and a new trial is granted. This order is made on the understanding and information on part of the defendant's attorneys that the defendant will at the January or April term of superior court, plead guilty of having intercourse with Estelle Briley, who was at the time under the age of 14 years, and will also plead guilty of abducting a child from the custody of the public school of this county; and that the punishment for that offense shall not be less than twenty-five years in the State prison. C. C. Lyons, judge superior court.

Bonnie Andrews was sentenced to die in the electric chair December 28th, 1921, but an appeal to supreme court automatically suspended sentence until another trial could be given. Governor Morrison failed to regard the plea for executive clemency, declaring that so long as the matter remained in hands of the court he could not take any action.

It is probable the matter may be taken up at this term of court, but so far no action has been taken, and adjournment may take place before Solicitor Davis has an opportunity of drawing up a bill of indictment. The case has created considerable comment throughout the entire county, and further developments will be watched with much interest.

MOTHER TO KEEP SON. ABANDONS HER SMOKING

(By International News) Wichita, Kan.—Should a woman who is a mother smoke?

Judge G. W. C. Jones of the juvenile court, has ruled that the mother who smokes is apt to be neglectful of her children.

Mrs. Charles Baker, mother of five children, appeared in court as a result of a complaint filed by her neighbor.

The mother admitted she smoked. When the court offered to give her another chance to keep David if she would give up the use of Lady Nicotine she promised.

FORD ANNOUNCES CUT IN PRICE OF TRUCKS

(By International News) Detroit, Jan. 27.—Henry Ford was today near the goal set several years ago when he announced that he would sell his tractor and truck for one thousand dollars. Ford, in a statement this morning, announced a cut of two hundred and thirty-seven dollars.

GERMAN PRESS FAVORS CHANCELLOR'S POSITION

(By International News) Berlin, Jan. 27.—The German press today unanimously endorsed Chancellor Wirth's taxation speech.

The Reichstag will probably reply to the declaration of policy recently announced in the French chamber of deputies.

HERE'S THE FOURTH BRIDE OF WILLARD MACK.

The present Mrs. Mack, who became the playwright's bride in Los Angeles, was Mrs. Beatrice Stone, of Salt Lake City. She is a divorcee.

AMERICAN LEGION BANQUET DEFERRED UNTIL LATER DATE

Impassable Condition of Roads and Inclement Weather Causes Members to Postpone Session

Owing to inclemency of the weather and impassable condition of the roads, the banquet which was to have been given here tonight by the Pitt county post of the American Legion was today indefinitely postponed.

The postponement was the result of telephone message received from prominent members throughout the county, stating that they could not be here owing to the cold and condition of the roads. Word was also received from principal speakers of the evening, and they too declared it would be impossible for them to attend the meeting.

Members will immediately be advised of the new meeting date, and every effort will be made to make the occasion even greater than ever. Several important matters were to have been taken up for consideration, but it is probable the delay may bring about more developments for the meeting.

STATE SECRETARIES TO HOLD MEETING AT WINSTON SALEM

Association to Meet Tomorrow Morning at Winston-Salem to Discuss Future Plans

The mid-winter meeting of the North Carolina Commercial Secretaries' Association will convene in Winston-Salem, tomorrow morning at 9:30 o'clock. The meeting will be called to order by the President, C. W. Roberts of Greensboro.

A most interesting program has been arranged for the occasion and will prove of great benefit to the North Carolina secretaries. The many problems confronting commercial organizations will be discussed by various secretaries of the State.

Among those on the program are the following: Louis T. Moore, of Wilmington; Burke Hobgood, of Durham; Fred W. Allen, of Gastonia; Wm. T. Ritter of Winston-Salem; Norman Y. Chambliss, of Rocky Mount.

This session, no doubt, will be largely attended; judging from the present indications. In order for the best results to be obtained from various Chambers of Commerce it is imperative that these secretarial meetings be held from time to time. Secretary Smith of the Pitt county Chamber of Commerce, left this morning in order to reach Winston-Salem tonight for a meeting of the directors.

AARON ROUSE FOUND GUILTY OF ASSAULT ON GRIFTON OFFICER

Negro Wanted in Kinston Found Guilty in This Morning's Session Criminal Court

JOHN KING IS GUILTY OF ASSAULTING WHITE MAN NEAR WINTERVILLE

Grand Jury to Probably Complete Work and Be Dismissed During the Afternoon Hours

Aaron Rouse, colored man of the Grifton community, charged with assaulting and seriously injuring Police man Seymour several days ago, was this morning found guilty by a jury in the criminal term of Pitt county superior court, but sentence will not be pronounced by Judge Cranmer until the afternoon hours.

Just how long Rouse will be sentenced to the roads was a matter of considerable speculation when court adjourned for dinner, but it is believed his term will go into years instead of months.

The jury this morning also found John King guilty of assaulting and painfully injuring Bill May, white man of the Winterville district, but judgment was withheld until this afternoon. One or two other minor cases were disposed of during the morning, none of them involving facts of public interest.

The murder charge against Julius Moore, charged with killing Skin Grimes, during a dance here several months ago, was to have been taken up this afternoon, but was continued until the next term of court. There are, however, several other interesting matters to come up for hearing this afternoon, and it is probable adjournment will not take place until tomorrow evening.

The Rouse case was one of the most interesting considered during the week. Rouse is alleged to have hit Officer Seymour over the head with the butt of a gun when the latter attempted to arrest him in Grifton recently. The negro, it seems, was wanted by Lenoir county authorities for committing some minor crime, and it was while the officer was attempting to arrest him for the Lenoir officials that he attacked Mr. Seymour and escaped.

The grand jury will very likely complete its work and be dismissed this afternoon, but this is merely problematical as there are a few county departments yet to be investigated. As soon as these investigations are completed, however, a report of the jury's findings will be presented to Judge Cranmer.

After sentence was pronounced against Porcas Ward and Stephen Lehoze in yesterday's session attorney's for the defendants immediately filed notice of an appeal to supreme court. Lehoze was required to give bond in the sum of \$4,000, while Ward was released on payment of \$2,000.

Arthur Ormond, young white man against whom judgment was withheld against, yesterday had prayer for judgment continued in his case for a period of two years. He paid costs of action and was placed under bond of \$1,000 for his appearance before each August and January terms of court to show good behavior.

Jesse Mayo, who pleaded guilty of assault with a deadly weapon, was fined \$5 and taxed with the costs. S. Reeves, recently indicted under two separate charges of peddling, pleaded guilty, judgment being suspended on payment of cost. Charlie Whitfield and Joe Crisp, charged with an attempt to dynamite a house in the Pactolus section several weeks ago, had their case continued until the April term of court.

ATLANTIC CITY PUTS BAN ON EASY SPOONING CHAIR

Atlantic City, N. J.—There are chairs and chairs. But the recent type introduced on the board walk here, affording too much privacy for spooning, won't do, say the city dads.

The city commissioners passed an ordinance putting the taboo on the "spooning rolling" chairs which have been in great demand since their introduction.

The sidewalk cleaning all had to be done over again.

Considering the Watson charges it begins to look like half the men killed in France came to their death at the hands of their own officers.

Foreign countries apparently think the United States is doing them a great wrong in refusing to grant them certain loans asked for recently. When this country stops loaning money entirely the public will have the pleasure of experiencing improved conditions.

The lobbyists are making an effort to sway sentiment against Henry Ford, according to information emanating from Washington City. It will require something more than lobbying to change sentiment against Ford. The farmers believe in him, and that's saying something.

The reduction of cotton and tobacco acreage should be promoted as much as possible in Pitt county this year. The farmer should confine his attention to the production of better tobacco and cotton and plant surplus acreage in food crops. This should make conditions much better and cause the ordinary farmer to be in much more prosperous condition when the year comes to an end.

Pitt county farmers are going to Rocky Mount and see how sweet potatoes are preserved through the storage house system. This is very gratifying, as food crops are going to be in greater need this year than ever before. In fact, the coming of the boll weevil makes more food crops very necessary; that is if we mean to be prepared against enormous losses occasioned by the pesky pest in other sections of the country.

Property owners in tobacco town should do everything possible to promote the purchase of additional fire apparatus, and to have it established in that part of town. The recent fire probably wouldn't have been so disastrous if the equipment had been larger, but as it were the department was greatly handicapped, although rendering valiant service. A town the size of Greenville deserves a larger department and the sooner the department makes the purchase, the better the public will feel about it.

Judge Cranmer spoke a great truth when he said whiskey has caused greater loss of life than wars. The kind of whiskey manufactured these days is a great menace to the public, and the sooner its manufacture is discouraged the earlier civilization will measure up to expectations. If all judges would do as Judge Cranmer is doing the country would be a much better place to live in anyway. He believes there are only two ways to judge a criminal. That is, guilty or not guilty, and to that end he is directing his efforts with great effect. Pitt county approves such methods and hopes Judge Cranmer will be successful wherever he may go.

Judge Cranmer continues to make a very favorable impression on people in this county through sentences given members of the whiskey traffic. In fact he has caused many to believe the law really can be enforced and that a judge can make a decision without some shyster lawyer butting in and causing the public to believe he is greater than the judge. When it becomes so lawyers will not accept appeals to higher courts of persons they know to be guilty conditions will be subject to a great change in this country. The community is behind Judge Cranmer in his effort to make the law effective, and those who oppose him are doing themselves no good, that's a settled fact.

KILLS RATS

and mice—that's RAT-SNAP, the old reliable rodent destroyer. Comes in cakes—no mixing with other food. Your money back if it fails.

35c size (1 cake) enough for Pantry, Kitchen or Cellar.

65c size (2 cakes) for Chicken House, coops, or small buildings.

1.25 size (5 cakes) enough for all farm and out-buildings, storage buildings, or factory buildings.

Sold and guaranteed by Warren Drug Co., Blount-Harvey Co., Greenville, and J. E. Bunting & Sons, Bethel

A FAIR "OLD MAN."

The editor of the Southern Tobacco Journal, who styles himself as the "Old Man" is a mighty fair opponent of the Co-operative Marketing Tobacco association, and is ready to give its members due credit for what they have accomplished. But he isn't ready to admit that the plan is practicable for the sale of leaf tobacco, although it may safely apply to certain lines of commodities.

The "Old Man" maintains the position of all able tobaccoists, and through the Tobacco Journal is doing his part in showing the farmer why co-operative movement isn't what its advocates would have them to believe. He is ready to give them credit for being sincere and fair in their labor, and believes they have the same right of opinion as every other American citizen.

This is mighty commendable spirit on the part of one who has watched the industry develop and expand for so many years, and shows the Journal still has a clear-headed, resourceful thinker at the helm. The same spirit should predominate both factions. Both are striving for continued development of the industry, and can do so with far greater harmony in event they remain fair with one another as the "Old Man" is with critics of the open market plan.

TUBERCULAR SCHOOLS

The tuberculosis schools for medical officers in soldier hospitals and examining stations which were established some 18 months ago by the U. S. public health service and were recently taken over by the Veterans' bureau have trained several hundred service physicians, four fifths of whom have qualified in making special examinations of the chest and in reporting thereon with accuracy satisfactory to the somewhat exacting requirements of the rating board of the Veterans' bureau. This has lessened the expense for travel and the inconvenience and hazard to tuberculosis veterans in going long distances to chest specialists and has more than balanced the cost of the schooling.

These schools were established in the spring of 1920 in various parts of the United States. Courses of instruction were arranged and the students were chosen from among the medical officers and specialists in the service of the United States public health service. In the eighth district alone, which comprises the States of Illinois, Michigan and Wisconsin, and where more than 150 physicians were trained, seven such courses were conducted—three at Springfield, Ill., two at Maudslayi Sanatorium, Wauwatosa, Wis., and two at the Michigan State

sanatorium at Howell. The broad benefits of the courses having become apparent, it was then thought advisable to concentrate the efforts and combine the staff of the three original schools into one school and to conduct it at Chicago, where the district office of the bureau was located. Four very intensive seven-day courses were conducted there.

The course embraced instruction in topography, inspection, palpation, percussion and auscultation, demonstrations of the normal chest, chest pathology and finally a study of advanced cases in hospitals. The classes were divided into small sections for individual instruction under specialists, who guided each student through the steps of diagnosis and taught him to visualize the conditions accountable for the physical findings.

A review with quizzes was then conducted thoroughly fixing each point in the minds of the members of the class, followed by special instruction in differential diagnosis and clinics. No member of the class was allowed to leave without learning individually to differentiate different breath sounds, voice conductivity and kinds of rales, or without a mechanical and clinical knowledge concerning them.

A lecture and clinic on the heart and a short course in x-ray and laboratory work were also given and cinema diagnostic films were exhibited.

The latest course was held at Chicago during the week of December 5-11.

FORESTS ENLARGED BY NEW PURCHASES.

Nearly 2,000,000 acres of land been purchased to date in the East for National Forest purposes and more than 1,000,000 additional acres have been offered for sale to the government, announces the National Forest Reservation commission.

Recently the commission authorized new purchases aggregating 134,644 acres of cut-over land at an average cost of \$3.33 per acre. In West Virginia the purchase of 79,178 acres, averaging \$2.75 per acre, was authorized. These tracts lie in Tucker, Randolph, Pendleton, and Pocahontas Counties and are located upon the watersheds of the Potomac and Monongahela rivers, the latter one of the important tributaries of the Ohio, and subject to floods which have been extremely destructive to property at Pittsburgh, Pa.

In Virginia, on the watersheds of the Potomac, James, and New Rivers, the latter a large and important head stream of the Ohio, the purchase was authorized of 28,639 acres at \$2.80 per acre, situated chiefly in Highland, Shenandoah, Augusta, Rockbridge, Amherst, Botetourt, Wythe, Carroll,

and Grayson counties.

In North Carolina the purchase of 14,148 acres was authorized at an average price of \$6.41 per acre, located largely in McDowell, Macon, and Madison counties; in Georgia, 1,159 acres at \$6.40 per acre, in Fannin, Union, and Rabun counties; in South Carolina, 92 acres in Oconee county at \$6 per acre; in Tennessee, 170 acres at 6.28 per acre, in Greene, Union, and Monroe counties; in Arkansas 5,086 acres at \$4.07, largely in Pope, Scott, Johnson, and Polk counties; and 5,572 acres in Winston and Lawrence counties, Alabama, at an average price of \$4.83 per acre.

As soon as purchase is completed these lands will become a part of existing National Forests, under the administration of the Forest Service of the United States department of agriculture. They will be protected from fire and a system of management applied whereby the timber resources will be used and at the same time conserved, with continuous forest production, watershed protection, and co-ordinated development of all resources of public value.

It is gratifying to note the city is considering the purchase of additional fire equipment, for this has been badly needed. Our present equipment would be very inadequate in case of a large fire, and the sooner we prepare ourselves the better. An additional fire station in tobacco town should bring about a direct reduction in insurance rates, and cause people with property in that section to feel doubly safe.

In Your Business Slow? Get into One Good For \$6000 to \$12000 a Year

Many Carolina men, as well as others all over the U. S. have found their opportunity through Elektrik Maid Bake Shops. Today they own prosperous businesses without having known a thing about the bakery business before. The opportunity these men found is here in Greenville for you, if you act. No previous baking experience needed; we supply all equipment and information. A cash business; no charges; no deliveries; your profits in the till every night. Good 365 days a year. Exclusive territory. Good Carolina territory being taken rapidly. Prompt action necessary. If you want to get into a real paying business.

WHY NOT WIRE US TODAY for full particulars. Act now for exclusive rights in Greenville.

Elektrik Maid Bake Shops 321 Cedar St. St. Paul, Minn.

The Wilson Foundation Movement meeting with desired attention in this county and at the present time funds are far behind. Chairman Gaskins is desirous of sending in the contributions as early as possible, but will be unable to do so if the public fails to respond as it should. The part which former president Wilson played in winning the world war should be given consideration by everyone. When this is done contributions will be made gladly.

PROBE ORDERED TO AID ILL VETERANS

Washington.—"Lest we forget." This slogan, which stirred the country when the war had ended, has been re-adopted by the U. S. Veterans' Bureau to spur its drive for the rehabilitation of fallen veterans of the World War. A drive, with this purpose in view, has been started in every hospital and prison in the country.

Director Forbes has ordered search made in every hospital and penal institution for veterans whose war experiences may have been accountable for their present distress. Numerous soldiers, he declared, became mentally disarranged through har-

rowing experiences in the war and fell from grace. These men, some serving prison sentences, but many committed for short terms, will be helped to regain their pre-war status. The hospital search is intended to locate such veterans who sought to pay their expenses for illnesses caused by war wounds or experiences. These men will be helped just as well as those who applied for government assistance.

RAT-SNAP KILLS RATS

Also mice. Absolutely prevents odors from carcass. One package proves this. RAT-SNAP comes in cakes—no mixing with other food. Guaranteed.

35c size (1 cake) enough for Pantry, Kitchen or Cellar.

Greetings and Success to You During the Year 1922

DO YOU KNOW ME? IF YOU DON'T, LET'S GET ACQUAINTED.

Do you remember in the years 1915 and 1916 when I was running the leading Feed, Seed and Provision store in Greenville and you were buyer food stuffs for humanity and boast at the right prices? Since my retirement from this line of business you have no doubt paid enormous profits and others have waxed rich from your earnings wrought from the sweat of your brow. High prices soared until the strong arm of the government had to take a hand to check the greedy profiters who made the high cost of living almost unbearable. Having had considerable experience in this line of business and being placed in a position to sell as low or lower than any firm in Greenville and prompted by a desire to be of some service to help cut down living expenses I have decided to resume business again, but in a different location. Soliciting your patronage and co-operation that I may work to your advantage and help make your living expenses less than they have been in 5 years, I submit herewith just a few of the reasons why I am entitled to your consideration and patronage in justice to yourself and your family.

1st. I have more storage room than any merchant in this line of business in Greenville. I own the buildings and don't have to pay any rent.

2nd. I buy in car load lots, several cars rolling now. Keep in touch with the leading wholesale business concerns in the United States.

3rd. Buy for cash, know my business, get the benefits of all discounts coming to me and get best prices obtainable.

4th. I sell for cash, take no risk of bad accounts and you don't have to help pay the other fellow's debts. Come and trade with me and you get full benefit of lowest prices for yourself.

5th. By permission of the Atlantic Coast Line railroad cars are placed and unloaded almost in front and only a few feet from my store and storage rooms. Unloading carload 90 day oats only last week in two hours by the watch, giving me the advantage of saving time and money over hauling stuff way down town.

6th. My expenses are far less than any firm in this line in Greenville, consequently I am placed in the best kind of position to give lowest prices possible. Take it from me, and back it up with my reputation and all that I am worth or ever expect to be, that it will pay you to look me up and let me give you the best service and use my best efforts to help you save the exorbitant prices you have been paying for the benefit of your own family and the education of your own children.

ON HAND AND COMING

Wholesale prices in retail lots. Volume of business and not profit is what I am looking for.

All goods delivered anywhere in the city and all depot stations for shipments.

A special message and announcement to the farmers of Pitt county and Eastern North Carolina. Many of you no doubt remember me and have realized benefits by our dealings together during the years 1915 and 1916. Those who know Bill Allen best know that while he holds no enmity towards other professions or avocations of life, yet his fullness of heart, highest esteem and noblest sympathies go out to the man who tills the soil. It was on the farm that he himself first saw the light of day and from those early associations he has drawn inspiration for whatever worth of the summer may be in him. He too, has felt the scorching sun of the summer heat and the wintry blast of bleak December. He too has known what it is to meet high prices of foodstuffs while produce failed to stretch itself enough to cover the cost of living. Personal realization of what the farmer is up against suggested the step taken and a desire to help him obtain goods at almost wholesale prices prompted the efforts. This intended history is one of the main reasons for this newly launched enterprise and I intend to prove to those who patronize this establishment the well and deserved slogan "Bill Allen is the Farmers' Friend".

Thinking you one and all and bespeaking in advance a liberal share of your patronage, I am,

Yours to serve,

W. H. ALLEN

Don't forget the place and phone number and save money for yourself.

Adapted silken thread can shift gears on the new Buick

Gear shifting on the new Buick is so easy that a slender silk thread tied to the gear shift lever is strong enough to pull the gear shift lever from second speed to high speed.

The marvelous Buick Velvet Disc Clutch makes driving a real joy. It has taken the annoyance and trouble of grating, rasping gears and stiff, harsh clutches from motoring. The combination of the patented disc clutch and the patented Buick transmission makes this possible.

You cannot get this combination in any other but a Buick.

GIFFORD PINCHOT FAVORS FORESTRY WORK

In an address on "A National Forest Policy" before the Agricultural conference at Washington, D. C., on Thursday, January 26, Gifford Pinchot said:

"No wood on the farm, no food in the town. It takes more than half the wood consumed in America to supply the farms that produce our food. The farm industry is the greatest single user of wood.

The farmer finds it harder and harder to get building lumber at reasonable cost. The reason is clear. Five-sixths of our virgin timber is gone. Two-thirds of all the states, with eighty million people and more than four-fifths of the farm values of the country, depend for timber on the few remaining states which still cut more than they consume. Within ten years the entire country will have to depend on two or three states for nearly all its softwood lumber.

Moreover, what we can not supply at home we can not secure abroad. Far more than half the Nations of the world are dependent for timber supplies upon forests beyond their own boundaries. Even Mexico is an

importer of timber, while the Canadians, if they should give us all they have, could meet our needs for less than one generation.

"The demands we make upon our forests are gigantic. More half of all the lumber used in the world is consumed in the United States. Meantime, we are replacing by growth only one-fourth of what we cut, and our remaining supplies are dwindling to an early end. It is clear that we must grow what we need, or go without.

"The 460,000,000 acres of timberland which remain, if they produced fifty cubic feet per acre per year, could almost meet our present needs. But they have been so mismanaged that fifteen cubic feet is all they grow, while our population is increasing and the uses of wood are multiplying. A higher standard of living always means a larger use of wood.

"The public forests, National and State, are reasonably well handled, but they furnish less than three percent of our lumber, and can never supply more than twenty.

"Farm woodlots, scattered in small tracts outside the lumber regions, will always help the farmers, but can not grow the vast quantities of saw timber we must have to live.

They are in little danger of devastation.

"The privately-owned commercial timberlands which contain most of what timber we have left are being devastated more rapidly and completely than ever before, to the incalculable injury of the whole nation.

DRAMATIC WRECK AVERTED AFTER CO-ED SHOWS YOUTH HOW TO KISS

Chicago.—Rehearsals of the play "Back to Earth," to be presented by the members of the Hermit and Crow Dramatic Club of Northwestern University, are once more progressing satisfactorily. A much-needed kiss which wrecked the show the other day, but the kiss was forthcoming and the work again resumed, with renewed vigor.

"Aw, I can't do it Ken Paider, decked out as a fair maiden and designated to kiss one Ben Carswell, gesticulated. "Ben Carswell is too rough and, anyway, his breath reminds me of chewing tobacco."

The stage coach was frantic. The whole show, apparently, had struck a snag and one that couldn't be passed. The feminine end of the scene remained immovable, and there the

show stopped.

When in came Miss Pauline Griner, a co-ed. She heard the sorry tale of the coach and volunteered "expert" aid.

"S-Smuckk."

Carswell grinned.

"That's how," said Miss Griner. Paider grinned and the show went on.

Paid Not to Remarry.

Chicago.—Provided she does not remarry Mrs. Elsie K. McNett, widow of Attorney Charles S. McNett, of Evanston, will receive the whole of his \$125,000 estate, according to the will admitted to probate. In the event of her remarriage Mrs. McNett will receive, under the provisions of the will, only \$50,000.

Style Leads to Grave.

Martin's Ferry, Ohio.—"Thousands die for fashion," declared Dr. C. B. Wingard, commenting on dress reform. "Bare breast, silk hose, low shoes, with a chic fur coat send

thousands into the grave. In the high school dress leads to snobbery and caste, and many a poor man's daughter, with birth, brains and character even in excess of others, cannot go because of expenses."

Cattle Thieves Are Cowed.
Norfolk, Neb.—Cattle rustling in this part of the cow country has gone entirely out of style as a result of threats of live stock owners to return to the old-time Western methods of dealing with thieves. Cattle thefts in the vicinity of Norfolk were estimated at \$50,000 in 1919. They

dropped to zero in 1920, with the organization of the Owners' Protective Association.

Some chickens are still running at large around town, but not so many since several owners had to pay cost in the mayor's court for this violation of law.

JOBLESS CRISIS IS WITHSTOOD BY ITALY THIS WINTER

Half Million Without Work, one Fifth Being Farm Laborers; Food Prices Are Cut

By FRANK E. MASON
International News Service Staff Correspondent

Rome.—Italy has passed through the worst of the unemployment crisis, according to the officials having statistics on this subject. November and December saw nearly a half million jobless out of an Italian population roughly considered to be forty millions.

Despite the crisis in regard to coal through which Italy has been passing, the metal trades have not suffered. About eighty thousand metal workers have been laid off, but that represents about one-sixth of the workmen in this branch.

About 108,000 of the unemployed are from the farms and vineyards, and about 43,000 are textile workers. The Venice district, which is not industrial but agricultural, reports nearly 100,000 out of work. The industrial regions, except for Lombardy and Emilia, have not suffered in proportion.

The government has tried to avoid the system of doles or unemployment pensions. Several years ago a compulsory insurance law was introduced and while it hasn't been in operation long enough to take care of all the cases it has helped greatly in relieving the situation.

Employers have successfully com-

menced the reconstructing work of getting prices back to normal by introducing company stores, in which it is guaranteed that staple food products will not exceed fixed maximum prices; these prices now being the actual market value. In consideration of this arrangement, which cuts down the cost of living, labor unions have agreed to cutting wages.

In order to decrease the unemployment the government has appropriated large sums for reclamation work. Much of the unskilled labor which would otherwise be jobless is engaged in hydro-electric construction. Roads which were permitted to get into bad condition during the war are being rebuilt.

Although the unemployment survey reached its highest point last month since the war, the radical movement which had attained considerable popularity a year ago is losing ground. The Communist party has lost heavily to the Socialists.

STAR THISTLE MENACES WHEAT CROP IN KANSAS

Hanhattan, Kan., Agriculturists are alarmed over the fact that another pest has put in an appearance in Kansas and is threatening the 1922 wheat crop. It is the star thistle and has a penchant for spreading through wheat fields.

The sample of the weed, which was sent to the Kansas State agricultural College here, was forwarded to the Agricultural department at Washington. Authorities identified it as the star thistle, and declared that it was a foreign invader. This flowing thistle has made its appearance in a number of widely separated States throughout the country, according to agricultural experts.

200 BARRELS OF WHISKEY MAY BE DUMPED IN RIVER

(By International News)

Pittsburgh, Pa.—Wanted, a buyer for 200 barrels of perfectly good whiskey valued at \$100,000. Somebody that all right can have it reasonable if they will bid on it and do so quickly.

The whiskey, seized in a big raid last spring, was put in a commercial storage house and the charges are piling up. United States Marshal John F. Short is worried about this whiskey and he has sought a bidder in vain for months. If he doesn't get a bid soon he intends to get a court order permitting him to dump the whiskey in the river.

WOMAN CANDIDATE FOR GOVERNOR IN S. DAKOTA

Pierre, S. D.—"I'll make 'em behave!"

This is the promise of Miss Alice Lorraine Daly, Nonpartisan League nominee for governor South Dakota. She refers to the crooked politicians and their bosses, who, she says, have made political conditions in her State "intolerable."

Politicians, she asserts, are very much like a class of bad school boys. As a former school teacher, she says she will know how to make them sit up straight and pay attention. When they are incorrigible there is nothing like a sharp rap across the knuckles, she says.

U. S. HELPS PAY GERMAN DEBT BY IMPORTS

(By International News)

New York.—How Germany is forcing American importers to pay part of the reparations indemnity is revealed by the new schedule of German export regulations, which has just reached here.

For each German industry there is now a ratio of prices for export in every case higher and in most cases considerably higher, than the domestic price for the same merchandise, and the exportation of any kind of merchandise is strictly prohibited except after proper licensing.

MONKEY JACKETS & SKIRTS WITH BIG BOTTOMS DECREED BY FASHION

New York. Little Jocko, who helps the organ grinder earn his daily show, is also assisting the fashion dictators this season.

The newest fashions will show Jocko's influence.

Of course, women must have something new to wear. What shall it be? What shall it be? asked the fashion dictators in a more or less frantic manner. Then one of them thought of Jocko, the organ grinder's little aide. And lo! the monkey jacket.

It is the very latest thing—the monkey jacket.

It looks exactly like the tiny jacket the organ grinder's monkey wears.

The coat suit is coming back, those who say what's what in fashion have decreed, and the woman who wants to look smartly gowned must have one with a monkey jacket.

Paris is already wearing the coat with monkey jackets and all. Bisque and gray, it is announced, will be the most fashionable colors.

And now prepare for worst! The latest communiques from the fashion front announce that the new skirts are four yards around the bottom.

WHIPPING POST FOR MORONS URGED BY JUDGE

(By International News)

Chicago.—Whipping posts for morons!

This is the recommendation of Judge Marcus Kavanagh of superior court.

In Canada, said Judge Kavanagh, so called morons are sentenced to serve a term of years in the penitentiary. One month after they enter prison they are given twenty lashes on the bare back with a cat-o-nine-tails.

One month before they are discharged the lashing is repeated. The second whipping is called a refresher.

The punishment apparently works, because there are very few morons in Canada.

Judge Kavanagh said that last April the Delaware legislature authorized the whipping post for holdup men and there since have been practically no hold ups in the State.
