WORK TO SUCCEED POSTMASTER HAYS ABOUT MARCH 4TH

First Assistant Postmaster General to Assume Duties When Hays Retires to Enter Movies

LEADERS DECLARE SELECTION IS NOT CONSIDERED FINAL

Nomination Will Go to the Senate as Soon as Hays' Resignation is Received

(By International News) Washington, Feb. 8.—Dr. Hubert Work of Colorado will succeed Will Hays as postmaster general, March 4th, when the latter retires to go into the movie business, according to Republican leaders here today.

Dr. Work now holds the position of first assistant postmaster general, and is said to be a favorite among the leaders who have been in close touch with the White House. The selection is not final, it was said, but unless unforeseen difficulties arise the nomination will go to the Senate as soon as Hays' resignation has been received.

The announcement has set aside considerable speculation as to who would succeed Hays, and for the time being has definitely closed an issue which has attracted much attention.

REPUBLICANS PLAN TO CUT THE NAVY IN HALF ACCORDING TO LEADERS

(By International News) Washington, Feb. 8.—Republican leaders of congress, especially those who handle the money bags, informed the International News Service today that the navy is just about twice as big as necessary under existing conditions and that before congress finishes its work this session the navy may be reduced by approximately one half, all along the line. Appropriations of the personnel, or both existing and commissioned ships and shore stations go to make up the navy today, it was said.

DEMAND FORD TO MAKE FERTILIZER FOR NINETY YEARS

Government May Demand Manufacturer to Make Cheaper Grade Fertilizer During Lease

(By International News) Washington, Feb. 8.—Before the government continues its negotiations with Henry Ford for development of Muscle Shoals, assurance should be given by the Detroit manufacturer that he will produce fertilizer during the entire term of his lease, Secretary Weeks told the House military affairs committee when hearing was opened today. Requests for completion of the great project comes from people who demand that fertilizers be manufactured cheaper now, declared Mr. Weeks.

The House agricultural committee voted it should have jurisdiction over the contract instead of the military affairs. Congressional authorization will be offered within the next ninety days. This was the definite objective of the agricultural bloc when it opened hearings today.

Leaders hope to obtain approval within the next sixty days, but insist on action before the summer begins.

MEMBERS OF SUNDAY SCHOOL TO MEET WITH TEACHER

The members of the young Men's Class of the Methodist Sunday school will meet with their teacher J. B. James at his home on East Fifth street, Thursday evening at 8 o'clock.

Mrs. Nobles Dead.

Mrs. Elias Nobles died last night at her home in the Ballard's Cross Roads section after long confinement. The deceased was about 35 years of age, and greatly beloved in the community in which she resided.

NORTHERN PACIFIC REPORTED BURNING 100 MILES AT SEA

(By International News) New York, Feb. 8.—The former army transport Northern Pacific is burning about a hundred miles off Sandy Hook, and the crew has abandoned it, according to latest reports received here today. Members of the crew are reported to be drifting. The Northern Pacific, which is known in army and navy circles as the "hoodoo ship" has been in an atmosphere of disaster ever since placed in service during the war. Its first accident occurred on a trip from Brest in 1919 when she went ashore on Fire Island. In May, 1921, the vessel again went ashore, this time in San Juan bay, Cuba, with General Pershing aboard.

ROTARY CLUB TO BE ORGANIZED IN FARMVILLE SOON

Granted Privilege of Proceeding With Organization Plans; Charter Has Not Yet Been Issued

Although no charter as yet has been issued the town of Farmville has been granted the privilege of proceeding with work looking to organizing a Rotary club, according to information made public this morning by Dr. C. J. Ellen, representative of the district governor through whom negotiations are under way.

Dr. Paul E. Jones has been appointed chairman of the organizing committee to proceed with the work of securing charter members and organization of the club. The report will be received with a good deal of interest in all parts of the country as Farmville will be the smallest town in the world with a Rotary club, while Greenville is the only club in the world with a permanent Rotary home. This is considered an unique distinction for Pitt county and will cause its members to receive more than ordinary consideration by other clubs.

Farmville several weeks ago applied for a charter through the Greenville club. The district governor happened to be here at the time, and negotiations were immediately commenced. Farmville proudly boasts one of the most progressive bodies of business men of any town in the State, and their desire to support a permanent Rotary club is additional evidence of their thrifty spirit.

WORLD MINING SLUMP HITS ALASKAN FIELDS

(By International News) Washington.—Alaska's mineral output for 1921 had the lowest annual value since 1904, according to an announcement by the Geological survey of the Interior department. The mineral output of Alaska for 1921 was valued at about \$16,100,000, as compared with \$23,307,757 in 1920. The decrease was attributed to a decline in all forms of lode mining, especially that of copper. The stagnation of mining in Alaska, officials assert, is but a reflection of the world-wide depression of the industry and is not caused primarily by local conditions. Minerals to the value of \$478,000,000 have been produced in Alaska during forty two years of mining, the Interior department's statistics show.

SURROUNDED BY FISH BUT PRICE IS HIGH

Honolulu, T. H.—Time was when the native of Hawaii could subsist upon his favorite foods, fish and poi, in almost unlimited quantities, at a cost to him of only the trouble of pulling a fish or two from the shoal waters over the reef and of dipping into the old family poi bowl which graced every Hawaiian home.

At present he pays 7 to 10 cents a pound for poi and from 50 cents to \$1.50 per pound for fish.

These startling figures, which, as far as fish is concerned, affect all residents of Honolulu, were brought out in the course of a probe of retail prices. It is stated that high prices have been brought about by the weather class paying whatever is asked for fish.

WILL INHERIT FATHER'S ESTATE

Miss Ethel Daisy Deane-Tanne, a home body in Los Angeles, will inherit her father's estate. The estate is estimated at \$60,000, plus jewelry worth \$2,500.

POTATO STORAGE HOUSE QUESTION TO BE DISCUSSED

Meeting to Be Held in Bethel Friday Looking to First Plans For Warehouses

Under the auspices of the Pitt County Chamber of Commerce, a meeting has been planned for Bethel at 2 o'clock Friday afternoon for the purpose of taking up the sweet potato storage house question. Several of the Bethel business men are very much interested in this project and will lend their support toward the erection of a storage house in that place.

Mr. M. O. Blount stated this morning that the meeting would be given full publicity so as to have as large attendance as possible.

Mr. Norman Y. Chambliss, secretary of the Rocky Mount chamber of commerce, stated this morning over long distance telephone that he and their county agent, Mr. George Burroughs, would be over at the Bethel meeting to render such assistance as they could.

It will be recalled that the Rocky Mount people took the initiative along this line and erected a creditable 15,000 bushel house during the past year.

Mr. W. B. Pace, chairman of the diversification committee, is very enthusiastic about the possibilities of the sweet potato industry and is doing all he can to further the movement throughout the county.

It is to be hoped that this is but the beginning of several houses for Pitt county. Citizens from Ayden, Farmville and Greenville are considering this matter at the present time. Every piece of constructive work of this nature that can be launched this season will bring dividends in the near future, not so much from the standpoint of huge profits, as from the standpoint of a bridge to span the period of transition from the one-crop system to diversified crops, which equals prosperous system.

AYDEN MAN'S BROTHER INJURED IN HOTEL FIRE

Information was received here this morning stating that W. H. Howell, of Ayden, had gone to Richmond in response to a message that his brother, E. P. Howell, travelling salesman of Norfolk, was one of the victims in the Lexington hotel fire. His brother, according to reports, received a wrenched back and is severely bruised as result of jumping from a third story window.

HARRIS GROCERY STORE DAMAGED BY FIRE TODAY

Stock of Goods in Flanagan Building on Evans Street Seriously Damaged Early Today

The grocery stock of H. L. and C. J. Harris, Jr., who occupy the Flanagan building adjoining Young's store, was seriously damaged by water when fire was discovered in the roof of the building this morning about seven o'clock. The damage to the stock, both by fire and water is roughly estimated at approximately \$2,500, which is partly covered by insurance. The roof and fixtures of the building were damaged to the extent of about \$2,000 which is also covered by insurance.

The fire was discovered by a negro man passing along the sidewalk, who heard glass cracking on the inside of the building and immediately investigated. The fire department responded immediately, but was unable to fight the flames effectively on account of the dense smoke which filled the building when the doors were thrown open.

The origin of the fire has not yet been determined, but it is believed it originated from defective wiring or rats. Flames had gained fair headway in the roof in the rear of the building, and were spreading over the entire building when the fire department arrived.

MISS DOROTHY WHITE IMPROVING FROM RECENT OPERATION

Miss Dorothy White, little daughter of Mr. and Mrs. H. A. White had her tonsils removed last Saturday. Although she has been very sick from the operation, she is improving rapidly and was able to sit up today.

ARMAMENT CONFERENCE ADJOURNS, REALIZING SHORTAGE IN FINANCES

(By International News) Washington, Feb. 8.—The armament conference finished up and "broke", it was disclosed at the State department today. An appropriation of two hundred thousand dollars will be expended. Officials said they might have to ask congress for more money, although they are hopeful of meeting the efficiency by using the department contingent fund. It was suggested the deficit might be made up by selling minutes of the parley.

OFFICERS PROBE SECRET LIFE OF MOVIE DIRECTOR

Investigation Into Killing of Director Taylor Continues to Gain Momentum

THREE WOMEN MAY BE CONNECTED WITH TAYLOR'S PAST LIFE

Another Code Letter Without Writer's Name Attached Unearthed by the Officers

(By International News) Los Angeles, Feb. 8.—While attention of officers working on the Taylor murder today centered on unearthing secret life stains of the director and women so widely known in the film world, it is understood that still greater activity features be search for Edward Sands, former secretary. Reports that officers have made progress by developing clues tending to show that the missing man may have had business relations with two or possibly three women, in the cinema world gained circulation today.

The district attorney's office is taking great interest in the investigation. This is regarded as a sure sign that the grand jury will begin its probe soon. Another code letter has been found in the personal effects of Taylor here. The name of the woman who wrote it, however, was not attached.

58 TRAINING PLACES TO AID WAR VICTIMS

Washington.—With their objective "the complete social recovery of the neuropsychiatric cases and recovery of health in tubercular cases," fifty-eight training centres, outside of hospitals under the United States Veterans' Bureau have been established throughout the land by the Veterans' Bureau.

A comprehensive study of the best types of vocations to be taught neuropsychiatric cases has been made by the Rehabilitation division of the veterans' bureau, and they confidently predict that every such case through the proper type of training, will make a complete "social recovery."

The newly created training centres are being brought up to the maximum grade of efficiency for the care of disabled veterans who fell victims to the dread tuberculosis.

SEARCH FOR BODIES IN RUINS OF HOTEL IN RICHMOND, VIRGINIA

(By International News) Richmond, Feb. 8.—Men went to work in the ruins of the burned Lexington hotel here today and dug for bodies which they feared may be buried in the debris. Three known lives have been lost while three other well known persons are missing, according to the police check. The police report shows that 22 persons are not accounted for.

SEVERAL DEEDS FILED HERE SINCE YESTERDAY

The following deeds of transfer have been filed in the office of the register of deeds for registration since reports of yesterday afternoon. The Bank of Ayden to J. A. Griffin, consideration \$6,000; Dr. M. T. Froz, to J. T. Frizzell, consideration \$2100; R. C. Flanagan and wife to Jerry Langley, consideration \$600; J. S. Ross and wife to H. S. King and wife, consideration \$302.50; J. G. Edwards and wife to W. D. Bland, consideration \$10.

BOY SCOUT CHAMP TO DEFEND BOXING TITLE

Denver.—Ted Hannigan of Denver, Boy Scout champion of the Rocky Mountain region, will defend his title in a ten-round bout with Don Loug of Colorado Springs, on the 11th.

A diamond studded gold medal emblematic of the Scout title, will be presented to the winner of the bout at its conclusion. They will box at catchweights. The boys have met several times previously with honors about even.

Of the American casualties due to gas in the war only 1 1-2 per cent were fatal.

ONE KILLED AND SEVERAL INJURED IN OHIO RIOTING

(By International News) Yorkville, O., Feb. 8.—One person was killed and a number injured in a riot occurring at the plant of the Wheeling Steel corporation today, according to news received here today. The plant has been idle since last July, due to a strike, and had resumed operation when a mob appeared and open machine gun fire on workmen.

CONTRACT IS LET FOR NEW ROAD TO BEAUFORT COUNTY

Bids Also Awarded For Building of Bridges and Culverts on the Bethel Road

Bids were let for the construction of hard surfaced roads from this city to the Beaufort county line and culverts and bridges on the Greenville Bethel road at a meeting of the State Highway commission at Raleigh yesterday morning.

The contract for construction of the road to Beaufort county, a distance of 14.35 miles, was awarded to J. A. Morrow for \$28,245.26. The bid covered the erection of bridges and other structures.

Contract for bridges and culverts on the Greenville and Bethel road was awarded to B. J. Boyles, of Wilson, for \$29,403.

This information will be received with considerable interest in all parts of the county, as the road to Beaufort county is probably in greater use than all others and has been in bad condition for months.

The awarding of contracts yesterday reached a new level in the price of hard surfaced thoroughfares, according to information received here today, the price per mile aggregating \$24,700.

Improvement in the Bethel road will also be received with a good deal of interest, as this has also been in a bad condition and will be greatly improved by bridges and culverts.

KILBANE READY TO SAIL AND WILL NOT FIGHT

Featherweight Champion Anxious to Invade Europe as Title Holder, He Says

New York.—A rush of gold-seekers had nothing on the flock of fighting promoters who besieged Johnny Kilbane at his hotel when the featherweight champion of the world arrived here preparatory to sailing for Ireland.

"Why, gentlemen," said the champ "I am not here to talk fight, I came to New York to book passage for myself and a party of friend for Europe."

If someone had clouted each promoter on the head with a hammer it would have had no more effect than the champion's assertion. They gaped at him, each waiting for the other to begin the questioning. They saw visages of a bankroll which would culminate with a championship bout flying past them and some foreign sportsman pulling it down. Not only this, but supposing Johnny should lose his title on the other side.

Will Visit Ireland.

Kilbane relieved the situation somewhat when he explained that he was going abroad merely to visit and would not leave these United States right away.

"I have always wanted to visit Ireland," said Kilbane. "That is my real objective abroad, although I shall spend some time in London and Paris."

"I have been champion a long time now, but I think I showed in my recent defeat of Danney Frush that I think that anyone will find serious fault with me for not pausing to fight here on my way to Europe."

TO EXCEED QUOTA IN RELIEF DRIVE IN THIS SECTION

Committees This Morning Reported Over Seven Hundred Dollars of \$1,000 Apportionment

ALL COMMITTEES MAKE SPLENDID SHOWING IN EVERY PART OF CITY

Dr. A. M. Schultz is Greatly Pleased at the Outcome of the Campaign So Far

Subscriptions continue to roll in rapidly at Jewish Relief campaign headquarters in this city, and by the end of the week it is certain the \$1,000 apportionment for Pitt county will be raised. Three committees canvassed diligently yesterday and met with even greater success than at first expected. Very few persons the great cause, members declared today, and it is believed the goal can be easily passed by the end of the week.

Dr. A. M. Schultz, county chairman of the campaign, stated this morning that over seven hundred dollars has been raised, and the city is not been thoroughly canvassed yet. Committees will continue work today and it is believed the sum will be greatly increased by the afternoon hours.

No township committees had been heard from at an early hour this morning, Dr. Schultz said, but it is expected most of the important towns will send in a complete report by the end of the present week. Sunday each church will take up special offering for the campaign, and these should swell the total to much more than the thousand dollar quota.

The town is interested in the serious condition confronting the people in eastern Europe, and the way in which people are giving to the campaign shows the depth of this feeling.

Contributions received up to this morning follow:

- The committee composed of H. A. White and Rev. C. H. Bascom, reported: Albion Dunn, \$10; Harry Skinner, \$5; F. G. James and Son, \$5; F. C. Harding, \$5; H. C. Edwards, \$5; C. C. Pierce, \$2; F. If you haven't subscribed to the Jewish Relief campaign, get busy and do so immediately and rest assured of having done your part by suffering humanity.

The administration doesn't know what to do about the Genoa conference. That's strange. About the best thing to do is to send a delegation and give Italy the impression we are trying to do by other nations as we would have them do by us.

The boll weevil scare has seized the entire country, but his destruction won't be as great as expected if the farmer will heed the many suggestions of men well informed concerning campaign against the pest in other states.

The agricultural "bloc" has scored another victory in the senate, as Henry Ford's proposal to purchase Muscle Shoals has been turned over to its members. This action is gratifying, and may result in quicker action than at first expected.

The number of deaths occurring from poisoning whiskey has caused federal officers to become so vigilant that even blockaders are trying to improve their production. The thing to do is to cut it out entirely; then there will be no more deaths and arrests for violation of the prohibition laws.

The proposal to purchase additional fire equipment should not be dropped now that it has been temporarily tabled by the aldermen. This is an important matter, and the future of the city is vitally concerned. An additional fire station is absolutely necessary. If this can't be established, then new equipment should be added to the old department.

The plan of the department of agriculture to instruct farmers how to fight the boll weevil by means of motion pictures is an excellent one indeed, and if it is taken advantage of the loss in this county should be comparatively small to other sections where no instruction has been offered. The motion picture machine and films have been purchased at a small sum, and should be a means of effectively informing the grower of what to do in his own defense. The county agent will be able to instruct several hundred persons at one time whereas by the old way he would have to take them individually. The plan should be adopted by other cotton producing counties as it is one of the most direct methods of combatting the pest yet presented.

The county highway commission is to be commended for the effort to improve the entire county road system. There are many unimportant roads to receive attention before the present campaign is brought to a close, and Pitt county eventually will have one of the best systems in the state. Good roads are the best assets any county could have, and this is especially so in a great agricultural section like Pitt county.

The armament conference has closed with all delegates feeling they have accomplished a great stride in behalf of permanent world peace. If they accomplished that much in the first trial it looks like the proposed conference in Genoa, Italy, might also result in something constructive. America at least would not be forced to bear all the expense at this conference. Welch, after all, is something to consider.

It is to be regretted that four lights of the white way are not to be placed on the court house square, as these would have added greatly to appearance of the building at night. The white way is an acquisition the city has needed many years, and the fact that it could be easily extended to the court house causes us to regret the commissioners' action more than ever.

It is hoped the county commissioners will reconsider their decision in the proposal to lower the streets around the court house and fill the lawn down even with them. This would improve the appearance of the place to no little extent and give the visitor a greater impression of thrift of our people.

A Goldsboro paper said the reason the ground hog went back into winter quarters was because he feared President Harding would give his hole to some negro. Which seems to be a highly satisfactory conclusion.

It is gratifying indeed to note the splendid way which Greenville people are rallying to the call for aid in eastern Europe. The campaign yesterday indicated the public is giving liberally to the cause. This should result in raising the county apportionment of \$1,000 much earlier than at first anticipated. The cause is a deserving one and should receive the support of everybody interested in the saving of civilization.

MRS. H. L. CARR ENTERTAINS THE ROUND TABLE

Most interesting and delightful was the meeting of the Round Table Club Tuesday afternoon with Mrs. H. L. Carr, who in her manner of sweet cordiality made every one glad to be with her.

And quite an addition to the happiness of the afternoon were the guests of honor: Mrs. V. P. Scoville, Mrs. C. S. Graves, Mrs. W. D. Pruitt, and Mrs. W. A. Darden.

The business for the most, consisted of the reading by the president, Mrs. Winslow, of several communications, upon which there was no need of immediate action, but these gave us an insight into some of the important questions of the day. In behalf of the Jewish relief work the club voted to send a check to Dr. Alfred Schultz.

Mrs. Claude Grant, chairman of program committee announced the topic for the day: "The Triumph of the National Spirit." The End of Sectionalism, was splendidly portrayed by Mrs. N. L. Fulford. The Americanism of Theodore Roosevelt, including many interesting events from early childhood and on by Mrs. T. A. Person.

Reading from Theodore Roosevelt, and also a clear enumeration of his achievements emphasizing his Americanism and his patriotism, by Miss Louise Goggin.

All enjoyed the discussion and were glad to be better acquainted with this great American.

The hostess, assisted by Mrs. Pruitt, Mrs. Graves and Mrs. Darden served a beautiful salad course.

BETHEL NEWS

(Special Correspondent)

Bethel, Feb. 7.—The recent heavy rains and snows have put our roads in such condition that part of them are practically impassable. The roads from here to Greenville are said to be impassable for all auto traffic. Owing to this condition, the trustees of the Bethel high school thought it advisable to close down school for the remainder of this week, since part of the school coming on trucks can not get here.

Miss Jenkins Ill

Miss Vivian Jenkins, one of the teachers in the graded school here, was taken seriously ill last Thursday. She was taken to the Park View hospital, Rocky Mount, this afternoon for an operation for appendicitis. Her home is near Rocky Mount.

Lodge Gives Oyster Roast

Bethel Masonic lodge No. 589 gave their monthly oyster supper in the dining room adjoining the lodge room last night. In spite of the inclement weather and bad roads a goodly number of the lodge with their wives were present.

Saves Time - Less Work - Better Meals "A Servant in the Home"

No one can appreciate what a help a Sellers Kitchen Cabinet is like mothers and wives who have trotted about the kitchen taking miles of steps, three meals a day, seven days in the week and so on.

Bear in mind, a Sellers is not sold simply as kitchen furniture, as a place to store food, but rather as a time-saving, labor-saving piece of equipment. It is the central station from which all kitchen and mealtime tasks are directed. It organizes all of your kitchen work, hands you the utensils, and all are within easy reach, not scattered to four corners of kitchen and pantry.

Remember the fifteen features connected with the Sellers Kitchen Cabinet that surpass those of any other make cabinet.

So don't put off looking at these cabinets another day. Let us demonstrate these features.

RESOLUTIONS OF APPRECIATION

On February 3, 1922, God in His all-wise providence, removed from our midst our beloved teacher and friend, Prof. C. W. Wilson.

We loved him, but Jesus loved him best. The senior class mourns with those who mourn and yet rejoice for having known this cheerful servant of the Lord.

Therefore, be it resolved: 1. That we, the senior class of East Carolina Teachers college, give expression to our feeling of deepest sorrow and loss and our appreciation of his useful Christian life.

2. That we extend to his wife, aged mother and relatives our deepest sympathy and love and commend them to our Lord, whom he loved and trusted.

4. That a copy of these resolutions be sent to the family, Biblical Recorder, papers for publication, also one to be placed upon the minutes of our class.

SCHOOL NEWS.

We now have three Fourth Grades at Evans street school. The music room has been converted into a classroom with Miss Mary Hart, of Greenville, teaching the new Fourth Grade.

There will be a meeting of the Parent-Teacher Association at Evans street school on next Friday afternoon at 3:30. All parents are urged to attend as some very important business will be brought before the association at this time.

The school attendance for January has been very good in spite of the bad weather. We were indeed sorry to hear of the accident Mr. Rose experienced on Sunday afternoon and glad to know it was not a serious one.

Why Suffer With Goitre?

(Wednesday Health Talk No. 6) (By J. B. Ball, D. C. Ph. C.)

Goitre is due to abnormal gland activity. It causes a disfiguring enlargement of the neck, and claims both men and women among its victims, but in a majority of cases women are the sufferers. No disease is more of a scourge to women because of its disfiguring possibilities.

UNCLE BEN SAYS: "Good health, Nervy, is rather to be chosen than great riches."

HEALTH FOLLOWS CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS: HEAD, EYES, EARS, NOSE, THROAT, ARMS, HEART, LUNGS, LIVER, STOMACH, PANCREAS, SPLEEN, KIDNEYS, BOWELS, APPENDIX, BLADDER, SPINAL COLUM, LOWER LIMBS. THE LOWER NERVE UNDER THE MAGNIFYING GLASS IS PINCHED BY A MISALIGNED JOINT. PINCHED NERVES CANNOT TRANSMIT HEALTHFUL IMPULSES. CHIROPRACTIC ADJUSTING RE-MOVES THE PRESSURE. THE UPPER NERVE IS FREED AS NATURE INTENDS.

Whether the goitre is of the watery or the fibrous type, the cause lies in the disturbed action of spinal nerve impulses due to pressure upon the spinal nerve openings at the spine. This pressure is removed by chiropractic spinal adjustments and Nature being given a chance restores normal glandular action. The watery type responds more quickly to adjustments. The fibroid or hard goitre responds more slowly.

HARD GOITRE IS GONE

"It was big and hard, but now my neck looks normal. I think it is a miracle. My heart does not trouble me any more and the ovarian trouble which I had for nine years is gone, much to my surprise. I had spent a fortune doctoring but never got relief until I began with chiropractic. I thought my days were numbered, but now I feel like a new person." —M. A. Pinnow, Chiropractic Research Bureau Statement No. 1294H.
