

LONDON REPORTS RESIGNATION OF GEORGE HARVEY

London Herald Declares Ambassador Has Been Recalled by President Harding.

LONDON POST AND HARVEY VIGOROUSLY DENY THE REPORTS

White House Also Denies That Anything Has Been Said About Resignation of Ambassador.

(By International News.)

Washington, March 4.—London newspaper reports that President Harding has asked for the resignation of George Harvey, ambassador to Great Britain, has caused great surprise in this country.

The London Post today published an article stating that Ambassador George Harvey, after reading the report in the Herald saying that President Harding had asked for his resignation, stated "I have nothing to say."

Harvey was confined in bed with a severe cold when the message reached him, and denied half a dozen interviewers. His secretary said the ambassador had no knowledge of the Herald's report and had made no plans for a trip to America.

The Herald reported that Harvey had definitely decided to ask for his resignation.

POOR MEXICANS OF COLORADO ARE TO BE SENT HOME

15,000 Stranded Workers, Some Unpaid, Will Soon Be Sent Across Border

(By International News.)

Denver.—Despite assurances from Governor O. H. Shoup that "everything possible would be done to alleviate their condition," early withdrawal of the 15,000 old Mexican laborers now in Colorado and their return to the motherland before the Rio Grande is predicted by Vincente Rendon Quijano, Mexican consul in Denver, following his investigation of the impoverished condition of thousands of his fellow countrymen as a result of economic depression.

Senor Quijano recently appealed to the Mexico City government for financial aid in transporting Mexican laborers in Colorado to their native land, to be repatriated and allowed acreage of their own for cultivation.

Consul Quijano declared that his investigation, especially in the best centers of the southern and eastern sections of the State, convinced him of the advisability of the Mexican laborers returning to their homeland and declared that they will be welcomed back.

The condition of Mexicans in Colorado is critical, Consul Quijano declared. In many cases they have not been fully paid for their work owing to lack of funds of the farmers. This is one of the chief reasons why Mexicans are destitute this winter.

PASTOR TELLS STAND OF JESUS ON LABOR

(By International News.)

Columbus, Ohio.—If Jesus visited this earth this year, He would emphasize the world unity started at the Armament Limitation Conference which met at Washington, would try to inspire love of honest toil and seek reform in large city governments according to Rev. Dr. Daniel F. Rittenhouse, pastor of First Baptist Church here.

"He would tell the capitalist he cannot gain permanent wealth by refusing fair wages and just working conditions any more than the workers can gain the most desirable returns by endless demands for shorter hours and more pay," continued Rev. Dr. Rittenhouse.

ACCUSES CHINAMAN OF TAYLOR MURDER

Harry N. Fields, held by police in Detroit, declares that William D. Taylor, noted film director, was murdered by a Chinese member of a party of four drug addicts with whom Fields drove to the Taylor bungalow at Los Angeles. Following his "confession," Los Angeles detectives immediately instituted a search for a revolver Fields said was hidden by Taylor's assassin. The Chinaman accused of murder has not been found.

WEEVIL CAMPAIGN IS CARRIED INTO SCHOOL DISTRICT

Moving Pictures Shown by County Agents at Lang's School House Despite Large Attendance

Despite inclement weather a fairly large number of cotton and tobacco growers gathered at Lang's school-house last night and witnessed the moving pictures shown by members of the county agricultural department in an effort to combat the boll weevil. Pictures giving an accurate description of what other sections have done to exterminate the pest were produced in a particularly interesting way, and farmers who take advantage of them will have greater success with the season's crop, it is claimed.

W. B. Pace, county demonstration agent, and K. T. Futrell, of the welfare department, explained the necessity of concerted action against the pest this season, and also showed several charts telling how the environment of the farming communities may be made better. The charts also contained many interesting facts relative to the health campaigns throughout the country, showing the need of sanitation, increased supply of milk for children, and how to successfully combat the house fly.

The two county officials were gratified at the splendid spirit in evidence last night, and are of the opinion the campaign will be a great success. They will visit other communities from time to time, giving demonstration with the movie machine recently purchased by the county, and from all indications, the work is destined to be successful. The members of both departments firmly believe better conditions will be the result of their activities and many to get down to work in earnest.

WORLD WAR VETERANS TO APPEAR IN THE STATE COLLEGE BAND

The band plays a wide range of musical selections, from the snappiest marches on the drill field to the newest waltz or dreamiest fox-trot in concert. Grand opera overtures are capably performed.

Three members saw active service overseas during world war. Carl Taylor, chief musician; Prof. P. F. Manard, a saxophone player; and W. S. Ware a baritone.

Mr. Norris, a clarinet player, plays several selections to delight any Southerner.

Besides being able musicians the bandmen must be scholars also. A member who cannot keep up with his college work is automatically dismissed. Several of the bandmen get on the honor roll each month. They also take active part in school activities.

BELHAVEN BEATS FREMONT CLUB IN FAST GAME HERE

Fremont Eliminated From Championship Series by Score of 28 to 26.

BOTH CLUBS SHOWED REMARKABLE STRENGTH AND DETERMINATION

Coach Mahler Highly Elated at the Fine Showing Made by His Club.

Belhaven High defeated the Fremont tilters in a fast and exciting court contest here last night in Forbes and Morton's warehouse, by a score of 28 to 26. The game was nip-and-tuck throughout, the second half ending 12 to 12, and three times in the last half the score was tied.

The game was full of thrills, and the large number of ardent fans and fanettes that squared the field cheered and cheered, the support accorded either side being about even. Yells for both Fremont and Belhaven were given by boys and girls, and it can truly be said that the game was played on neutral territory, judging from the even support given either five.

Jones, Belhaven's center, played a wonderful game, and the playing of Davis, of the Belhaven five, was also excellent. Captain Lane, left forward for Fremont was outstanding star for the Wayne quintette.

The line-up follows: Voliva, right forward; Dawson, left forward; Jones, center; Windley, right guard; Davis, capt., left guard; Fremont: Yelverton, R., right forward; Lane, capt., left forward; Lelvertn, C., center; Hooks, right guard; Dees, left guard.

Belhaven summary: Voliva, one field goal and six fouls out of 10; Jones, four field goals; Windley, 3 field goals, Davis, 3 field goals.

Fremont summary: Yelverton, R., two field goals and two fouls out of four; Lane, five field goals; Yelverton, C., three field goals and two fouls out of four; Hooks, one field goal. Total, 26.

Officials: Referee Carter, (Citadel); Umpire Kennedy; timekeeper, Wilkinson and Yelverton. Scorers, Mahler and Cobb.

Coach Mahler, of the victorious quintette, was highly elated over the outcome of the game, and said he felt certain his team would give an excellent account of itself in the next game between the winner of last night's Durham-Benson contest in which Durham won.

Enthusiasm was rampant, and opinions expressed by many local followers of the court here was that the game last night was one of the best that has ever been staged in this city.

The Fremont boys put up a sturdy battle, and their elimination from further participation in the state championship series came about in a manner in which they have a just right to feel proud. Manager Moore expressed himself as being highly pleased with the playing by his team members, and the margin of victory by Belhaven over Fremont, that of only two fouls, attests the excellent manner in which the Fremont boys valiantly fought a losing battle.

Some of the Fremont boys failed to show real sportsmanship after the game last night.

HISTORY REPEATS ITSELF IN NEWSPAPER REALM

In the absence of anything else to do, the boys in the shop who make this paper fell into a discussion of the scarcity of news this week and the difficulty in finding good news stories. "Oh, its just history repeating itself," said the Twenty Years Ago man who happened to butt in on the confab. "I have been rummaging the files of the paper for the first few days of March 1902, and find the same thing then as now, nothing doing but bad weather and high water in the river."

Dr. Smith Ill. The many friends of Dr. Joseph Smith will regret to learn that he is confined to his home by illness.

Mr. Ed. Williams, of Tarboro, spent the day in Greenville on business.

Rival Leaders Review Harding's First Year As Nation's Leader

Senators Watson and Harrison Give Views of Administration Pro and Con.

By Senator James E. Watson (R) United States Senator from Indiana. (Written Expressly for International News Service.)

Washington, March 4.—Americans may well be proud of the achievements recorded in one year by the Harding administration.

The Republican party was confronted with Herculean tasks when it came into control of the Government March 4, 1921. The administration's success in carrying out its platform can be measured only by the magnitude of the obstacles it overcame in its attempt to achieve normalcy.

An era of public expenditures on a scale staggering imagination prevailed in the Wilson administration. Public service was habituated to extravagant measures. The country was burdened under a national debt, the interest alone of which was greater than the total public debt prior to the World War.

The disarmament conference, called by the Harding administration, has been an extraordinary success. It has dealt with questions of the most difficult character and all of them have reached agreement that will have most beneficial results. This conference was the greatest single step taken to eliminate war in the history of mankind.

"Success Due Genius."

Its success is due to the genius and inspiration of those who directed the policy of the United States. It is a tribute to the leadership of President Harding and to the wisdom of the policies which he has followed to represent the United States in the conference.

The Democratic View.

By Senator Pat Harrison (D.) United States Senator from Mississippi. (Written Expressly for International News Service.)

Washington.—A trail of broken

promises, misrepresentation, apologies and an absolute failure to reduce the high cost of living mark the first year of Republican administration of the government.

The only achievement the Republican party can possibly claim was the passage of legislation at culture group—a group made up of Democratic and Republican and Progressive Republican Senators. The amendment to the war finance corporation act, granting credits to farmers and relieving banks holding agriculture paper, would never have passed had not the agriculture group been insistent in its demand that the measure be passed.

"Bitterly Opposed by President."

This legislation when first suggested was bitterly opposed by President Harding and administration forces in the Senate and only accepted when the agriculture group, backed by the militant Democratic minority, forced it through the Senate. This legislation is the single achievement of the present administration.

Those who now claim credit for the results of the disarmament conference as an administration achievement seem not to realize that the conference was held not because of President Harding but in spite of him.

The idea first was suggested in concrete form in Article 8 of the League of Nations covenant. Senator Borah, a Progressive Republican, introduced a resolution in the Senate that was championed by the united minority in congress calling for such a conference. It was opposed at first by President Harding and the Republican leadership in both House and Senate. It was killed twice in committee and only allowed to be passed when some progressive colleagues of Borah and the militant Democratic minority aroused such a storm of public opinion that the calling of the conference could not be denied any longer.

COMMUNITY SING PLANNED IN AYDEN AGAIN POSTPONED

Inclement Weather Last Night Again Caused Postponement of Attraction.

The community sing which was to have been held in Ayden last night was postponed on account of inclement weather and impassable condition of the roads. When the sing will be held has not yet been determined, but it is believed everything will be in readiness within the next three weeks.

The principal speaker of the sing will be F. M. Wooten, member of the Pitt county bar. Other men well acquainted with conditions in this section will also be on the program.

This is the second time the sing had to be postponed by unfavorable condition of the elements. However, every effort will be made to hold it next time, and it is hoped everyone will attend in large numbers.

SEVERAL DEEDS FILED HERE SINCE YESTERDAY

Several deeds of transfer have been filed in the office of the register of deeds for registration since reports of yesterday afternoon:

G. F. Dall and wife to A. L. Jackson, consideration \$11,750; Toney Tyson to A. G. Cox, consideration \$1,000; J. F. Barwick and wife to A. G. Cox, consideration \$200; J. F. Barwick and wife to Mamie Barwick, consideration \$1500; J. F. Barwick and wife to J. D. Johnson, consideration \$2,000; G. T. Gardner to W. W. Dawson, consideration \$7,000; W. W. Dawson and wife to J. C. Gardner, consideration \$7,000.

WOODROW WILSON LIVING QUIETLY AT WASHINGTON

Ending of Twelve Months Out of Office Finds President Almost Isolated.

(By International News.) Washington, March 4.—Woodrow Wilson returned to private life one year ago today after eight years at the White House. For twelve months he has lived quietly, almost isolated from Washington.

When he announced that he had bought a house, here to be occupied after leaving the presidency there was general criticism. It was declared he would prove an embarrassing problem to the Harding administration as well as to political leaders of the party generally.

When this criticism was conveyed to the president he is understood to have said "I'll welcome the opportunity to live here in the capital and demonstrate how an ex-president ought to live."

GOVERNMENT PLANS TO STOP EUROPEAN RAIDS ON MONEYS

Washington, March 4.—The American government has decided to put its foot down squarely on the steady growing practice of some European countries as result of raiding American investment market through flotation of low priced bonds. The administration believes the practice has grown to such an extent that taking huge sums of money is becoming of ordinary occurrence.

REVIVAL SERVICES TO BEGIN IN CITY SUNDAY MORNING

Presbyterians Complete Preparations For Series of Revival Services.

The special services at the Presbyterian church, will begin tomorrow morning at 11:00 o'clock, and will continue for a period of ten days, with one service each night during the week at 8:00 o'clock. Rev. George Mathis of Clinton, N. C., will bring the messages, and those who plan to hear him will not be disappointed. Plain and practical, yet fluent and earnest, Mr. Mathis is the type of preacher who causes people to see the way to a happy, helpful life. There will be special music at each service, and the congregation will be led in those songs which have stood the test of the ages and lift the souls of men nearer to God. The way to get a blessing from any series of services, is to start with the first service and follow them through, and the public is cordially invited to follow this plan. The pastor, Rev. Sam K. Phillips, is not asking any of the other churches, to dispense with any of their regular work or services, as he realizes that Greenville is no longer a "little town," and that all her churches would not be large enough to seat our people, if all who ought to attend church, should do so; but he is extending to the Christian forces of every denomination a cordial invitation to take a part in these special services, as often as they can, without interfering with their own religious program. We have the greatest town slogan in America, "Our Greenville, Yours if You Come," and just in the proportion in which our citizenship rally behind our churches and put their message beneath the life of our city, are new-comers going to remain with us, and feel that Greenville is the best city in the world in which to live.

Several Cases Before Mayor This Morning

The following cases were disposed of in mayor's court this morning: Jim Early, Russell Early and William Hill, trespass; paid fine of \$10 each and one-third cost. J. K. Young, building an iron clad building in fire district without permit; ordered to remove building not later than March 7th, and to pay cost of action. R. L. Smith, repairing wooden building in fire district without builders' permit; paid the cost of action. Napoleon Womack, concealing stolen money, knowing same to be stolen; bound over to superior court under bond of \$200.

TAR RIVER AGAIN RISING RAPIDLY IN THIS SECTION

Sluggish Water Expected to Reach 15 or 18 Feet by Monday or Tuesday.

Tar river, which was on a rampage several days ago, was rising rapidly again today and is expected to reach a height of fifteen or eighteen feet by Monday or Tuesday, according to information made public here today by Observer Clark.

The gauge at the water and light plant this morning showed that the water had mounted about three inches within the last forty-four hours. It is believed, however, it will rise more rapidly today and tomorrow and probably reach its crest the middle of the week, in case of no further rainfall.

Mr. Clark this morning received a telegram from Raleigh, advising him of the rapidly rising waters, and warning people to get all cattle out of the low grounds.

The river rose approximately eight inches during the month of February.

Mount Itanier climbers have discovered at an altitude of 900 feet a frost plant that grows three feet a day.

THIRTEEN KILLED IN COLLISION AT PAINSVILLE, OHIO

More Than Dozen Also Injured When New York Central Train Crashes Into Bus.

PASSENGERS HURLED HUNDRED FEET FROM SCENE OF ACCIDENT

Train Was Running at Sixty Miles an Hour, Hurling Crowded Bus Into Oblivion.

(By International News.)

Painville, Ohio, March 4.—Thirteen persons were killed outright, another died at a Painville hospital here this morning and three were so seriously injured that they cannot recover as result of a collision of the New York Central express and a crowded motor bus late last night.

The bodies of passengers were hurled hundreds of feet along the right of way when the train, running at sixty miles an hour struck the bus. Three persons horribly mangled were taken from the locomotive pilot when the train stopped more than four hundred yards from the point of collision.

Eleven of the dead were taken to the morgues at Painville, and it is understood that two bodies were taken to Fairport. Five of those killed were women.

Just how the crash occurred was still undetermined this afternoon. Joe Adams, driver of the bus, was unconscious at a Painville hospital and physicians say he may probably die.

The wreckage later caught fire when the gas tank of the bus exploded. It could not be learned whether any bodies were burned.

ITALIANS WOULD JOIN U. S. EXPLOIT THE NEAR EAST

Fiume Episode Forgotten By Romans Who Would Expand the Nation's Commerce

International News Service Staff Correspondent

Rome.—Italian industrialists are anxious to go into business with America for the exploitation of the Near Eastern market. A plan which is common to many of the big manufacturers and Italian exporters is to purchase raw materials in America, manufacture them in Italy and sell them to Turkey and the neighboring countries. Italy is without doubt the first Western power in the hearts of the Turkish nationalists.

Italian ill-will against America, which rose to such a heat during the Fiume incidents, has entirely died down. The Italians explain that their demonstrations were against Mr. Wilson, and not against the American people. But it is quite probable that their difficulties since with other nations have helped to efface the memories of Fiume.

Generally speaking, Italy's attitude to her neighbors may be described as follows:

America—Very friendly and anxious for close relations.

England—Indifferently friendly, with a recognition of the necessity of getting along with England, and of a limited economic dependence on the British Isles.

France—A very keen dislike, which in many quarters would merit an even stronger expression.

Germany—Italy has a keen appreciation that because of her own depreciated currency she must do business with Germany, whose low mark makes commercial relations possible. Fear that Germany is attempting to secure an economic domination of Italy keeps alive a distrust of her former enemy. But there is no feeling of hate such as is found in France.

Austria—Italy feels that Austria is down and out and is rather sorry for her former foe. The healing of the ancient score is best evidenced by the fact that thousands of Australian children were brought to Italy last summer and given care and good nourishment in Italian homes.

### SUBSCRIPTION RATES.

One Year \$4.00  
Six Months 2.00  
One Month .35  
One Week .15

Saturday, March 4, 1922.

The ending of the first year of the Republican administration finds them apparently not knowing whether they are going or coming.

People who subscribed to the white way funds should pay up as early as possible so the committee can begin construction work. Material is already here and everything is ready to be placed in position, but delay is inevitable unless subscriptions are paid in to the committee at once.

If Judge Landis was capable of rendering such great decisions in federal court, he ought to measure up to expectation of baseball moguls. The judge has a clear insight into conditions through his long experience on the bench, and should do much towards placing the popular sport on a higher plane.

Kinston newspapers are urging a white way system for Kinston and contend that if Greenville and New Bern can have them, Kinston can. The argument seems to be a good one, as Kinston is among the most progressive tobacco towns in the state and is financially able to keep abreast of times. The papers should continue to boost and after awhile have the pleasure of seeing dreams come true.

Cotton growers of Pitt county, instead of planting the usual size crop, should plant no more than they can personally supervise. In fact if every crop was so the grower could personally inspect every stalk the boll weevil or any other pest would play a losing game. This is an important matter, and it is up to the grower to fully consider the situation and plant accordingly.

The baseball meeting to be held Monday night should be well attended, as our people at this meeting must determine whether they are going to actively participate in the Eastern Carolinas league this season. Most everybody is in favor of having a baseball team, and very few will be unwilling to support the club. A summer without baseball is something we so doubt like to contemplate so it is hoped every fan will throw his weight behind the movement.

Ayden is to have a community sing. This is one of the best indications of progress we have observed in some time, and it really looks like Ayden is going forward the right way. Community sings have a tendency of bringing people together in closer co-operation than under ordinary conditions, and every community is doing the right thing in promoting the sing idea. Pitt county has not held over two or three sings, but this summer no doubt will find them more in evidence everywhere.

Development of Muscle Shoals will have a great influence in lessening the cost of living in the south, and especially for the farmer. Henry Ford discovered the fact and now others, desiring to beat Mr. Ford to the project, claim to have discovered the same thing. The public believes Mr. Ford will come nearer making the proposition productive than others, and it is this fact that has caused the people of Alabama to appear in his behalf. If he gets the project it will go, but in event others get it, there seems to be much doubt about its success.

There are some who still contend that it isn't necessary to reduce cotton and tobacco acreage this year, but such people it is generally noticeable have not studied the situation as carefully as they should. The boll weevil is not playing by any means, and the man that plants a large crop of cotton will have cause for regret. Infested districts experienced greater loss than they thought possible by the pest, and the coming of the weevil here finds many farmers thinking the same way. The tobacco market is glutted beyond hope of relief in the next several months, and another large crop would mean nothing more than ruin. The advisability of reducing acreage is evident, and it is to be hoped the farmers will not listen to that class of people advising them otherwise.

## DELINQUENTS NEED STUDY.

"A much larger proportion of mental defectives is to be found among delinquents as they appear in court than in the ordinary population, perhaps ten times as many," says Dr. William Healy, director of the Judge Baker Foundation in Boston, in a report just made public by the U. S. Department of Labor through the Children's Bureau. But Dr. Healy points out that individuals mentally normal are misdoers quite apart from matters of mental capacity and that many feeble-minded people live decently and do their work well. Determining the cause of criminal tendencies and "deciding treatment that is tremendously influential at the formative period of life," Dr. Healy says, "vastly outweighs in importance any decision of a criminal case that may take weeks in court or perhaps fill pages of the newspapers."

The report, entitled "The Practical Value of Scientific Study of Juvenile Delinquents," declares that all delinquent children need scientific treatment, and that mental tests alone do not suffice to give a true picture of the child's personality without study of his home, companions, play, employment, special temptations and bad examples, quality of schooling and other conditions of environment, taken together with his whole mental life, his lack of knowledge or his misinformation, his habits, secrets, grudges, and ideas.

This report is one of a series issued by the Children's Bureau with the purpose of furthering discussion and development of juvenile court standards. Scientific work in juvenile courts, it declares, is a natural expression of the modern demand for results, since imprisonment alone does not check crime. Numerous examples of cases are given in which complete scientific study, including that of social environment, aided to change the career of a so-called "born criminal."

While this form of study is not confined to the usual technical limits and while its consideration is recommended to "aid the everyday judgments of any who wish to deal understandingly with juvenile delinquents," it is not to be supposed, Dr. Healy says, that it can be carried out "by anybody except someone with interest and training," and he concludes that if lack of scientific studies impedes progress, more workers must be trained in this field. And if the expense deters from individual studies in the courts, it must be considered what the cost of diagnosis amounts to in the light of the heavy cost of a delinquent career.

## GROWTH IN IMPORTATION OF COFFEE.

Whether prohibition has anything to do with it or not, it is at least a fact that the quantity of coffee imported into the United States goes on increasing year by year irrespective of the fall off in nearly everything else. The quantity of coffee imported in 1921, says the Trade Record of the National City Bank of New York, is the "biggest ever," totaling 1,341,000,000 pounds, aside from that brought from our own islands, while tea and cacao show big decreases. The tea imports of 1921 show a fall of 14,000,000 pounds as compared with 1920, and cacao a fall of 40,000,000 pounds. The tea imports are the smallest in quantity in 20 years, and the cacao imports the smallest since 1917, while coffee not only shows an increase of 44,000,000 pounds, but is, in fact, greater than in any earlier year. Whether or not the public agitation and increased purchasing power of the war period had anything to do with the consumption of coffee, it is at least a fact that the importation of coffee began to increase immediately following the opening of the war, jumping from an average of about 875,000,000 pounds a year in the pre-war period to 1,000,000,000 in the first war year and steadily increasing until imports now average fully 50 per cent greater than the average of the four years preceding the war. In fact, the United States, has sent out of the country more than \$1,000,000,000 for coffee in the last 7 years, while the average prior to the war was but about \$75,000,000 a year.

Nearly all of the more than a billion dollars sent out of the country for coffee in the past 7 years has gone to our Latin American neighbors; of the \$143,000,000 worth of coffee imported in 1921, \$77,000,000 worth was from Brazil, \$37,000,000 from Columbia, \$12,000,000 from Central America; nearly \$7,000,000 from Venezuela; \$43,500,000 from Mexico, \$1,500,000 from the West Indies and a little less than \$2,000,000 from the Dutch East Indies. Possibly some part of the increase in the imports of 1921 may have been due to the fall in prices, for the average price of the coffee imports of 1921 was less than 11 per cent per pound against 19 1-2 in the calendar years 1920 and 1919. The per capita consumption of coffee

## BETHEL NEWS

(Special Correspondent.)

Bethel, N. C., March 4. — The Sweet Potato Growers association was made absolute sure here today. At a meeting of interested growers, the committee on the housing problem reported that the two local banks would finance the building and equipment for a period of five years, the growers to pay back one fifth of the amount invested each year. The association will build a house to hold ten thousand bushels. A splendid lot has been secured for the location of the ware house. The committee on the soliciting of the acreage reported that the work was progressing and that the required number of acres would be signed up in the next four or five days.

On Tuesday of this week, Mr. Jessie Carson, driver for the Cherry Blossom Bottling Co., of Greenville, got stuck on the Greenville road near Bethel. It being near dark and impossible to get out left the truck and load there till he could get help next morning. On examination of his load at his return next morning he found several crates short. Following up some traces of evidence he came to Squire S. M. Jones and secured a search warrant, to try to locate his missing drinks. In the home of Charlie Vines, Charlie Highsmith and Earnest Hightsmith, all colored, he found considerable quantities of his goods. He brought these three before Squire Jones and he bound them over to the county court under a two hundred dollar bond each.

Mr. and Mrs. H. M. Hardy, of LaGrange, N. C., left today for their home after spending several days in the home of their daughter, Mrs. W. M. Prute. They drove over in their car but found the roads so dreadful that they deemed it advisable to return by train and leave their car until the roads get passable.

While this form of study is not confined to the usual technical limits and while its consideration is recommended to "aid the everyday judgments of any who wish to deal understandingly with juvenile delinquents," it is not to be supposed, Dr. Healy says, that it can be carried out "by anybody except someone with interest and training," and he concludes that if lack of scientific studies impedes progress, more workers must be trained in this field. And if the expense deters from individual studies in the courts, it must be considered what the cost of diagnosis amounts to in the light of the heavy cost of a delinquent career.

## Twenty Years Ago

From Files of Daily Reflector  
March 4th, 1902

Bennie Bailey, four-year-old son of Mr. and Mrs. B. T. Bailey while playing with children in front of their home on Second street, accidentally set his clothing on fire with a match and was burned so severely that death resulted.

While on the river bridge looking at the high water, Blount Pearce and Kinchen Cobb caught a small fish that was swimming on the bridge where the water had overflowed it.

Miss Maggie Dougherty went to Paeletus for a visit. F. J. Forbes went to Baltimore to enter school there. C. S. Forbes went north after new goods.

fee in the United States has steadily increased for many years. The average consumption in the year just ended was about 12 1-2 pounds per capita against an average of slightly less than 5 pounds per capita in the decade ending with 1870; 8 1-2 pounds per capita in the period 1891-5; 9 1-2 pounds per capita in the period 1906-12, and has averaged since the beginning of the war over 10 pounds per capita, advancing to 12 1-2 pounds in 1921. Approximately one-half of the coffee produced in the world is consumed in the United States.

## LOOKS LIKE A FAILURE.

President Harding ends his first year as head of our government today, and never before has there been such divergent views as to his accomplishments. In a very few things he has pleased the public, but in most cases his ideas have been entirely contrary to what expected.

A pretty good idea how his administration is viewed may be gained from opinions of Senators James E. Watson, Republican senator from Indiana and Senator Pat Harrison, Democratic senator from Mississippi. Senator Watson says Americans may well be proud of achievement recorded in one year by the Harding administration. The Republican party was confronted by a Herculean task when it came into government control, he declares in summing up accomplishments of the administration, and its success in carrying out its platform can be measured only by the magnitude of the obstacles it overcame in its effort to achieve normalcy.

The view of Senator Harrison is entirely opposite that of Mr. Watson, and expresses, we believe, the consensus of opinion prevailing among the majority of southern people. The party's platform has proven a trail of broken promises, misrepresentations, apologies and an absolute failure to reduce the high cost of living. The only achievement the Republicans can claim, says Mr. Harrison, is

Pitt Shoe Company

the passage of legislation at instance of the so-called agriculture group—a group made up of Democratic and Republican senators. The amendment to the Finance Corporation act, granting credits to farmers and relieving banks holding agriculture paper would never have passed had not the agriculture group been so insistent in its demand that the measure be passed.

This legislation when first proposed was bitterly opposed by the president, but when he found he was losing ground by opposition to it he swung into line and helped put it across. This is not the only instance the public has noticed the side-stepping tendency, and those who first thought he would make good are the most doubtful concerning the administration's future.

The year closes in an unfavorable way for the party, and unless the country undergoes a mighty great change in the future the Republicans are destined to go out of office as fast as they came in.

THE DUDS FAMILY ARE A BRIGHT LOT

The Duds are dressed in clothes of class—Folks turn to look whenever they pass.

Personal

Mrs. M. D. Walker who has been visiting in this city at the home of her sister, Mrs. Leslie Jones, left this morning for her home in Southport.

Mr. J. R. Manning, of Bethel, spent yesterday afternoon on business.

Misses Hattie Peck, Lou Ellen Dupress, Bettie Yelverton and Jennie Aycock, of Fremont, attended the championship game of basketball in Greenville last night.

Mr. J. S. Manning, of Raleigh, was a business visitor here today.

Mr. J. M. Edwards, of Stokes, spent several hours in Greenville Friday.

Mr. A. O. Clark, of Grimesland, was a business visitor here this morning.

Messrs. Ralph Swindell, A. W. Carty, Ralph Wilkinson, Frank Little, D. L. Windley, of Belhaven, attended the championship game of basketball played here last night.

Mr. Harrell Clark, Rudolph Selby, Carlton Daw and Algar Fields, of Belhaven, who attended the championship basketball game in this city last night returned home this morning.

Miss Velma Venters arrived this morning from Richmond, Va., to be at the bedside of her mother, Mrs. H. C. Venters who will be at her home in Shelmerdine.

Mrs. A. T. Tippy left yesterday morning for a visit in Durham.

Dr. T. H. Plemmons, has arrived from Camden, Ark., to accept the pastorate of the Immanuel Baptist church.

Miss Louise Hubbard, executive secretary of the Pitt county chapter of the American Red Cross, who has been making a survey of conditions in Ayden, returned to Greenville this morning. She will return to Ayden again next week and complete the work. She was highly gratified at the splendid spirit exhibited by Ayden people, and believes the organization is destined to be a great success.

Mr. Harry Hayden, former editor of the Greenville Daily News, left this morning for his home in Wilmington. Mr. Hayden made many

friends while here who wish for him great success in his new field of endeavor.

Aid Society to Meet.

The Ladies Aid Society of Memorial Baptist church will meet with Mrs. Berry Bostic Monday afternoon at 3 o'clock.

WOMAN'S WEEK OF PRAYER FOR HOME MISSIONS

The week of March 5-11 will be observed by the Woman's Missionary Union of the Southern Baptist Convention as a week of special prayer for Home Missions. In accordance with this plan the Woman's Missionary Society of Memorial Baptist church announces the following meeting:

Monday 3:30 p. m. at the home of Mrs. Berry Bostic, "Evangelism," Leader, Mrs. E. E. Pittman.

Tuesday 3:30 p. m. at the home of Mrs. J. B. Spilman, "Enlistment" leader, Mrs. C. S. Forbes.

Wednesday 7:30 p. m. at the church, "Enlightenment" Leader, Rev. L. W. Smith.

Thursday 3:30 p. m. at the home of Mrs. J. S. Smith, "Church Extension," Leader, Mrs. Earl Carter.

Friday 3:30 p. m., at the home of Mrs. J. F. Davenport, "Inter-Racial Interests," Leader, Mrs. Ned Laughlinhouse.

Attention, Daughters.

The King's Daughters will meet Tuesday evening at 8 o'clock with Mrs. R. J. Cobb. Every member is urged to be present.

Missionary Society to Meet.

The Missionary Society of the Methodist church will meet Monday at 3:30 o'clock in the church.

Attention, Memorial Baptist Young People.

All of the members of the B. Y. P. U. of the Memorial Baptist church are urged to meet promptly at 6:30 p. m. tomorrow. A matter of very great importance to the Union will come up for discussion and action. As your president, I urge a 100 percent attendance of the membership as well as those would like to become members.

DICK GORMAN, President.

The height of a horse is spoken of as so many "hands"—a hand measuring four inches.

COUNTRY NUT REPLIES TO MR. RED BROWN

My dearest "Red Brown": ticks! am glad I have found you are some where in Greenville hanging around.

I am out in the sticks, With the cows and the chicks, And I guess I should add With the redbug's and ticks.

I thank you for the interest you have taken in me, And am sure Willie Wimble is as pleased as can be.

For you have told us the secret which no one else dare, Just why you fellows stand on fine points and stare n

And now that it is out am sure we are all glad.

For after all it isn't so bad, Its getting so interesting, But of course as you know, We never can tell when the wind's going to blow,

So in behalf of the ladies that saunter on by, I wish that a wind would blow direct in your eye.

And keep from your views The lace hose and the shoes And cause you to have a bad case of the blues.

Of course I am not a poet But as yet I don't know it Am sure if I was

Would be too glad to show it. Please tell Willie Wimble I am too old for school, But am proud of the fact, I am nobody's fool.

—A Country Nutt.

COOKING IS BLAMED FOR WORKERS POOR HEALTH

(By International News)

East Lansing, Mich.—One third of all the workmen in the United States can't go to work every day because of poor health, and the blame lies with the American housewife, declared Miss Mary Sweeney, dean of the department of home economics.

Only sixty six percent of all the wage earners between the ages of fifteen and sixty are able to finish an eight hour day, says Miss Sweeney. Of these six percent are physically fit, according to medical science.

"It's the housewife's duty to remedy this condition. Poor food and bad health habits are the greatest factors in poor health and infirmity."

INJURIES WILL FORCE GRID STAR FROM GAME

Lincoln.—Joe Pucelik, all-around athlete of the University of Nebraska who made Walter Eckersall's 1921 all-American football team, may be forced to give up athletics entirely.

A shoulder which had been dislocated a score of times in the last three years is the cause of his prospective retirement.

Pucelik was amateur wrestling champion of Nebraska in 1919. His arm first was thrown out in a mat contest late in that year. It was displaced again in the Penn State-Nebraska football game in 1920. The injury was repeated in every grid contest in which Pucelik has participated since that time. But only once—in the final game of the 1921 season—did he abandon the field. The injury has been kept a secret.

NOTICE

By virtue of the power contained in a certain mortgage deed executed and delivered by John Dawson and wife Lula, to F. M. Wooten on the 30th day of December, 1919, and duly recorded in the register of deeds office of Pitt county, North Carolina in book C-13, page 153, the undersigned will expose to public sale, before the court house door in Greenville, to the highest bidder on Monday, March 6th, 1922, at 12 o'clock M., a certain tract or parcel of land lying and being in the county of Pitt and state of North Carolina and described as follows, to-wit:

It being that section of lot No. 8 portion of said land and which was in the division of the lands of Martha Louisa Cox that lies in the eastern allotment to Lonnie Stocks in said division. The same being of record in the office of the register of deeds of Pitt county in May Book No. 2, at page 57. The same containing thirty acres more or less and being situated on the Taft road and the New Bern road. For more definite description reference is hereby made to said plat.

Said sale to be made for the purpose of satisfying the terms of said mortgage deed. Terms of sale, one third cash and the remainder in equal installments payable in one and two years, to be secured by mortgage on said property.

This 2nd day of February, 1922.  
F. M. WOOTEN,  
Mortgagee.

A quarter of a teaspoonful of baking powder added to mashed potatoes while beating them will make them light and fluffy.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples Are Impurities Seeking an Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next

best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It stimulates the kidneys to normal activity, thus causing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithium. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

We Will Answer Them

Next time you come in, be sure to ask us these questions: What is Willard Threaded Rubber Insulation? Why does it add to battery value? How does Bone-Dry shipment keep a battery new? Why do batteries wear out? We don't know everything about batteries, but we'll be mighty glad to answer as many of your questions as we can.

Epworth League devotional at 6:45 in Baraca class room.  
All are cordially invited to these services.

**CHINESE FIND EGGS OF PIGEON "STOP SMALLPOX"**  
Shanghai, China. — According to the Chinese press Chinese here have discovered an infallible safeguard against smallpox. Some genius has found that pigeon's eggs are a "tonic food" and that a person dieted with the same is in no danger of contracting smallpox.

The rumor has spread around town and there is a rush to purchase pigeon's eggs, and the same are now in great demand at the extraordinary price of seven cents apiece.

"Truly," as one editor observed, "the spectacle of the public gullied by a silly rumor is enough to make an intelligent man laugh."

Especially, it may be added, the man who has pigeons' eggs for sale.

**NOTED ARTIST TEACHES TRADE TO EX-SOLDIERS**  
(By International News)  
Denver.—Every phase of art work, from fancy sign writing to portrait painting, is taught in Denver's Rehabilitation Art school, established nearly two years ago by the government vocational training bureau for disabled ex-service men.

The school is under the supervision of William Knapp, noted artist, and the pupils include incapacitated soldiers from various sections of the United States. The course requires three years' study.

## LITERACY TEST IS CALLED FAILURE AS TO IMMIGRATION

Expert Finds That the Law Tends to Keep Sturdy Foreigners From America

By W. H. ATKINS,  
International News Service Staff Correspondent.

Washington.—The literacy test in American immigration laws is a failure and operates to keep out of the United States the more sturdy and industrious classes of European laborers, according to Dr. John J. Conatas, Washington surgeon, who returned here recently from a four months' tour of Europe in a survey of immigration problems for the government.

Dr. Conatas made a special study of conditions affecting immigration in Southern European countries, though his observations covered many other countries in Central and Western Europe.

A vigorous stand by the United States to force the adoption by other countries of higher medical standards to govern those who seek passage on ships bound for the United States is recommended by Dr. Conatas, in a report which he will submit to secretary of Labor Davis.

**Suggestions Are Made.**  
Secretary Davis invited Dr. Conatas for many years a close student of immigration and Americanization questions to suggest modifications in present immigration rules and regulations on the basis of his investigations abroad.

Dr. Conatas asserted today that the health of America's future immigrant population can only be assured, and in turn the health of American communities safeguarded by imposing severe medical tests abroad. He believes the United States, by joint action with foreign powers can so tighten the inspect on rules at foreign ports that transportation of mental or physical defectives out of those countries to the United States can be stopped.

The suggestions of Dr. Conatas may later be laid before President Harding. Before his departure for Europe, Dr. Conatas discussed with the President the object of his mission abroad and the latter expressed a desire to learn the results of the

survey both of labor and immigration conditions as they now exist.

**Europe Needs Labor.**  
Europe now struggling industrially needs practically all of her surplus labor to help in rehabilitation. Dr. Conatas declared. In some few of the countries of Southern Europe, including Italy wherein the large population do not permit of much expansion there is a surplus of laborers who might make useful citizens in this country if they were admitted he declared.

**CONGRESSIONAL AID FOR MERCHANTMEN IS SOUGHT**

Washington.—The annual convention of the National Merchant Marine Association, which convened here today for a two-day session, will have as a leading subject for consideration President Harding's plans for securing aid through congress for American shipping.

At least one full session of the convention will be devoted to an open discussion of the needs of the American merchant marine and how to meet them, it was stated, and prominent leaders in the shipping and allied industries, including the heads of some of the largest ocean lines, prominent figures in shipbuilding, officials of commercial and foreign trade organizations and representatives of government departments directly concerned in shipping activities will participate in the discussion.

Senator Joseph E. Ransdell, of Louisiana, presided over the convention's sessions.

The opening session today was featured by an address by Albert D. Lasker, chairman of the Shipping Board. He discussed the activities

of the board and indicated plans for the future.

Heads of the organizations of ship owners and ship operators were included among the speakers who addressed the convention. Among them were, H. E. Raymond, president of the American Steamship Owners' Association; Charles H. Potter, president of the U. S. Ship Operators Association, and Stevenson Taylor, president of the American Bureau of Shipping. Ex-Senator George E. Chamberlain, one of the commissioners representing the Pacific Coast on the Shipping Board, was also expected to speak.

**WHITE-ROBED FIGURES VISIT GRAVE OF MAN**

Jacksonville, Fla., March 4.—Shortly after the funeral party had left the grave of a young man here today, twelve white-robed figures bearing the insignia of the Klux Klan appeared, knelt over the body, offered a prayer and then departed.

Several negro caretakers fled in terror at their appearance.
