

TWO HUNDRED MOORS KILLED AND INJURED IN TERRIFIC FIGHTING ALONG THE COAST OF ALTUCEMAS

Spanish Warships are Shelling Moors on the Coast With Heavy Casualties.

HEAVY LOSSES ARE EXPECTED TO RESULT FROM BOMBARDMENT

Dispatches from Fighting Zone Greatly Delayed the Past Several Days

(By International News). London, March 22.—Two hundred Moors were killed and three hundred were wounded in a battle with Spanish troops near Altucemas, said a Madrid dispatch received here this afternoon. Spanish warships are shelling the Moors on the coast near Altucemas and further casualties are expected to be reported within the next several hours. The Spaniards are gaining ground in many sections, and the operations of warships is expected to result in further losses among the Moors. Dispatches have been delayed from many fighting zones, and information is vague.

BASEBALL TEAM TO BE ORGANIZED BY HIGH SCHOOL

Much Interest Manifested in Training Period to Begin With Good Weather.

The Greenville high school is going to organize a baseball team this season, and training will begin as soon as the ground dries off and the weather gets warmer, according to an announcement made this morning by the school class. The coach, H. H. Duncan, high school coach, said that the team will be organized by the high school. This is the first season the high school has attempted to put out a real ball team, but Mr. Duncan believes he has sufficient material to make a winning club. Many of the boys attending high school have been playing ball several years, but this is the first time they have every attempted to put out a team in competition to other teams.

Subscriptions probably will be taken for the purpose of purchasing suits for the team, and the public is urged to contribute liberally in case this is done. Baseball is one of the best means of developing the growing boy, Mr. Duncan said, and the public should do every thing possible to encourage the game.

The school has made a fair record in football and basketball this season under the direction of Coach Duncan, and it is believed the baseball team will be equally successful. The boys have exhibited considerable interest in the preliminary plans for organizing the club, and when training season begins there is every reason to believe a competitive spirit will be in evidence for every position. The public is urged to support the boys and help them put out one of the best teams in this part of the state.

LARGE AMOUNT OF LIQUOR ESCAPES PROHIBITION NET

Miami, March 22.—Liquor valued at two or three hundred thousand dollars escaped the prohibition net when owners were tipped off about coming raids, according to Colonel Nutt, who said he knew owners of the liquor and when they arrived with the large shipments.

Catholic Church. Stations of the Cross at 8 o'clock Wednesday night.

The days and nights stand on an equal footing today, with the days to be drawing the longest end for the next three months.

TARBORO PEOPLE READY TO ENTER EASTERN LEAGUE

Town Wants to Know Conditions of the League Before Joining However.

UMSTEAD DECLARES TARBORO IS ALRIGHT IN FINANCIAL WAY

Action of Tarboro to Also Determine Participation of Washington.

Tarboro is willing to join the Eastern Carolina league as soon as they have been informed regarding conditions under which the organization will be operated this season according to a statement received from Tarboro today. Tarboro people are ready to back a team to the limit of their resources as soon as they are satisfied the league will measure up to expectation, and will get in touch with officials immediately to determine what action will be taken. Mr. John Umstead, who has been associated with baseball in Tarboro several years, told members of the league they wanted to join, but desired to have complete understanding of the league before going too far. They desire to eliminate as much wrangling and indecision as possible, and be in position to put out a winning team when the season opens. Mr. Umstead said Tarboro felt an arbitrator should be appointed by the league to settle all disputes arising during the season, and would propose this at the next meeting of league officials. The matter has already been under consideration by the directors, and it is probable something definite will be done in the Washington meeting soon. Tarboro will hold a meeting with the Kiwanis club Thursday night of this week, and matters looking to participation in the league will be taken up at the time. There are six or eight men ready to guarantee the proposition, Mr. Umstead said, and no trouble is anticipated in raising sufficient funds to make the club possible. Tarboro people merely want to be satisfied that all dissemination will be eliminated this season, when assured of this will be ready to come in.

Washington has been ready to join league sometime, and now that Tarboro has definitely decided the public may be assured of a six team organization this season. Both Tarboro and Washington are capable of supporting their teams in splendid form and will give a good account of themselves. The sentiment prevailing in Tarboro will be received with much interest in every town comprising the league, as the participation of Washington will be determined by this action.

FARMVILLE WINS LOVING CUP AT ROTARY MEETING

Farmville, the smallest town in the world with a Rotary club, was today presented a loving cup for one hundred percent attendance at the district convention of Rotary now in progress in Winston-Salem, according to advices received by The Reflector this afternoon at three o'clock. This information will be received with genuine interest in Pitt county, as Farmville and Greenville went to the convention claiming two distinctions the entire organization is proud of. Greenville is the only city in the world having a Rotary building of its own and Farmville is the smallest town in the world having a club. The two towns went to the convention expecting to make a showing, and the loving cup for Farmville is a good beginning. Greenville had the honor of winning the attendance record some time ago.

GOV. MORRISON TO DELIVER ADDRESS HERE APRIL THIRD

Chief Executive to Speak at County Commencement Exercises at 11 O'clock

OVER THREE THOUSAND SCHOOL CHILDREN TO ATTEND GREAT EVENT

Eight Thousand People Expected to be in Attendance During the Day.

Governor Cameron Morrison will deliver the principal address of county commencement day here Monday, April 3rd, according to an announcement made this morning by committee members. The address will take place at the Teachers College promptly at 11 o'clock and it is expected a large crowd will be in attendance. Plans for the county commencement are rapidly swinging into shape, and at this time every school in the county is preparing to be represented. The literary contest will be held at the Teachers College from ten to 12 o'clock, after which the large crowd will go to the fair grounds for athletic contests.

It is estimated that some three thousand school children will be in Greenville during the day, and that the entire attendance will total six or eight thousand people. Preparations are continuing at every school, and contestants are making an effort to get in readiness for the day. The address of Governor Morrison is looked forward to with much interest, and it is expected he will be one of the greatest drawing cards of the day. He is a forceful speaker, acquainted with all conditions affecting the state, and should bring a message of timely interest. This is the first time a county commencement program has ever before been promoted in Pitt county, and members of the Rotary Club, who proposed it, are doing everything possible for its success. The Rotary Club has offered a silver loving cup to the school winning out in the athletic contests, and the Kiwanis club has offered a cup to winners of the literary race. Preliminaries have already been held by many schools and everyone will be ready when the day comes.

TWO MARRIAGE LICENSES ISSUED SINCE YESTERDAY

Two marriage licenses have been issued by the register of deeds since reports of yesterday afternoon, both applicants being colored.

Fred Williams to Dora Lee Graham, both of Ayden township; Thurston Council to Roberta Barnes, both of Martin county.

MISSISSIPPI RIVER CONTINUES TO RISE

Vicksburg, March 22.—The Mississippi river rose four tenths of a foot, the past twenty-four hours, registering forty-two and a tenth feet with a crest stage of slightly over fifty feet predicted. Lands on the outside of the levee system are daily being inundated.

DIVORCE ISSUES PLAY PROMINENT PART IN COURT

Two Divorces Granted Yesterday After Disposition of Two Long Issues

NORFOLK CONCERN WINS VENUE IN SUIT FOR ACCOUNT

Additional Surveys Ordered to be Made in Whitfield Crandall Controversy

Two divorce actions were disposed of in yesterday's session of the civil term of Pitt county superior court which has been in progress in this city since Monday morning. These were the only two cases disposed of during the day, and a verdict in suit for an account and a land controversy issue. N. M. Dickinson, white man of the county, was granted divorce absolute from Ella Dickinson. Arthur Williams, colored, was granted divorce from Lou Williams on grounds of alleged immoral relations. In the case of the Southern Iron and Metal Company of Norfolk vs. the Ayden Lumber company, a jury early yesterday morning returned a verdict awarding the plaintiff the sum of \$150 and breach of contract. Suit was entered for \$2000, but after much deliberation the court failed to find claim for more than awarded. The Norfolk concern charged that the Ayden firm had previously signed a contract for the shipment of railroad rails, and refused to pay for same. The defendant company admitted having received some scrap iron, but not the rails and contended they did not owe the entire sum. The case was begun shortly after the noon hour Monday, and was finally disposed of shortly after adjournment yesterday morning. In the land controversy case of J. L. Whitfield vs. Leslie Crandall, C. A. Crandall and others the court ordered that a new survey of the estate be made in the case could be heard in an independent manner. Two surveys were presented in the hearing yesterday, but were so confusing that no definite decision was possible. The case has been pending final action several months, having resulted in a mistrial after a long drawn out hearing last fall. It is expected the remainder of the week will witness the disposition of a greater number of cases than the first three days, as it is hardly probable that so many long drawn out issues will be in evidence. Judge Cranmer is making an effort to clear the calendar if possible, and from all indications he will come mighty near doing it if nothing out of the ordinary transpires.

LOCAL WOMEN TO ORGANIZE LEGION AUXILIARY SOON

Meeting to be Held in Rooms of Chamber of Commerce Saturday Afternoon.

A Woman's Auxiliary to the Pitt county Post of the American Legion will be organized at a meeting to be held in rooms of the chamber of commerce Saturday afternoon at three o'clock. Every mother, wife, daughter and sister of all ex-soldiers or sailors of the county are urged to be present and do their part by the movement. There is a crying need for the help of every woman in work that the American Legion is now carrying on. No service is really far-reaching and greatly beneficial unless organized, so show your true selves and real interest in the welfare of those who fought so heroically for us in the great world war which we have just passed through. The meeting will be held Saturday, March 25th, at three o'clock in rooms of the chamber of commerce, and all women are urged to attend and do their part by this great organization. Crimson was the color for bridal robes in the Middle Ages.

SENATE AGRICULTURAL COMMITTEE WILL INSPECT MUSCLE SHOALS PLANT

Members of the Senate Agricultural Committee soon will go to Muscle Shoals, Ala., to make an inspection of the government nitrate plant there. The inspection trip will cover five days. About twenty Senators will be included in the party. Here are five of the most prominent members of the committee, who will be largely responsible for a report favoring or rejecting the offer of Henry Ford, Detroit multimillionaire, to purchase the project from the government.

HENRY FORD WILL OPEN HYDRO PLANT ON HUDSON RIVER

Detroit Manufacturer Tells of Deal in Interview to Atlanta Georgian.

TO SPEND AWHILE IN FLORIDA WHERE HE WILL REST UP

Expects to Gain Favor With Muscle Shoals Opponents Through New Plans.

(By International News). Atlanta, March 22.—Henry Ford through government agencies will announce June 1st the opening of a hydro electric power plant on the Hudson river opposite Try, New York, it became known here today through an interview the Detroit manufacturer gave the Atlanta Georgian while on his way to Florida where he will rest several weeks. The opening of this project, Mr. Ford said, is basis for his hope that congressmen representing eastern states may be swung to view with favor his offering Muscle Shoals, now subject to congressional inquiry. Mr. Ford declared the plant would be ready to start operation June 1st. It will develop eight thousand horsepower, he estimated. Beginning work there has been made possible through his success of obtaining lease of Green island on the Hudson, it was said.

CONGRESS PLANS TO PUT MERCHANT MARINE ON MAP

Senator Jones Explains Features of the Ship Subsidy.

SHIPS CANNOT BE SOLD TO PUBLIC FOR ANY PROFIT

Up to the Nation to Provide Some Plan to Use the Vessels.

By WESLEY S. JONES, United States Senator from Washington.

Written Expressly for the International News Service. (Copyright, 1922, by the International News Service.) Washington.—For fifty years before the World War foreign ships carried most of our import and export commerce. Efforts made from time to time to aid in the building up of an American Merchant Marine came to naught. The plea that those who could do the carrying the cheapest should be allowed to do it was given great weight. That was good for the time, but proved most expensive in the end. When the war came our commerce was almost wholly dependent on foreign shipping. Only about 9 per cent of our large foreign trade was carried in ships flying our flag, and there were only fifteen of them. When the war began ships were withdrawn from commerce for war use and our trade and our people were the first to suffer. The farmer is said to be against means to promote our shipping. Not if he remembers the lesson of the war, and I don't believe he has forgotten it. Our experience there showed most clearly that the agricultural sections of the county are more dependent upon shipping than any other. What occurred? Ocean freights mounted skyward on the products of the farm. The charges on grain rose "sky high" to 300 to 900 per cent; on flour per cent, and on cotton as high as 1,150 per cent. During the first year of the war our people paid in increased ocean freights, because of a lack of ships, over \$500,000,000. The loss to business was far greater. Surely this is not forgotten. "We Built Ships, but Hastily and Wastefully." This was not all. Under the stress and need of war we built ships hastily and wastefully. Nearly \$3,500,000,000. (Continued on page four.)

BAPTIST REVIVAL SERVICES DRAWING SPLENDID CROWDS

Sermons by Rev. Lee McB. White Filled With Great Bible Truths.

POWERFUL SERMON ON LIFE OF PAUL PREACHED TUESDAY

Services morning and Evening Draw Large Crowds of Church Goers.

The revival services which are in progress at the Memorial Baptist church are receiving wide attention and large crowds are attending each service. Rev. Lee McBride White, pastor of the First Baptist church of Kinston, N. C., has charge of the services and his sermons are splendid and filled with the great truths of the Bible. Last night Mr. White read for his scripture lesson the third chapter of the Epistle of Paul, the apostle, to the Hebrews. Taking for his text two words from the first paragraph, "Consider Him." Mr. White developed his sermon by first giving an account of the life of Paul. Telling how his parents trained him, in his early days, to follow in their faith and then how, when he was a man, he accepted the Lord and gave all his talents and wonderful personality to those things which helped promote the kingdom of God on earth. The speaker then emphasized the importance of parents educating their children for the work of God, instead of instilling in them a desire to be some great leader in the business and social world. Considering Him, declared Mr. White, should always be paramount. Jesus Christ suffered, and died on the cross that we might have everlasting life. In order to help those less fortunate than we and to help promote the kingdom of God on earth, we must forget self and remember that Jesus says "Inasmuch as ye have done it unto one of the least of these ye have done it unto me." He told several interesting stories of people who had been helped and blessed by considering Him. Earthly pleasures, after all, never give happiness. It is only those things which help us to be better and stronger Christians that bring everlasting joy and happiness. Prior to the sermon Mesdames Earle Carter and W. Z. Morton sang a duet, "My Father Knows."

This morning Mr. White preached the second of a series of sermons on the first epistle of John, developing his thoughts from the second chapter. "We have an advocate with the Father, Jesus Christ," quoted Mr. White and if we do plead with the Father for us. The speaker then declared that no one can be a child of God that has not in his heart towards his fellowman. We say that we know Him but God says "Love One Another," and if we do not do as commanded, we are liars and the truth is not in us. Love not the world, neither the things that are in the world. In developing the question, what is the world? Mr. White used three points, the lust of the flesh, the lust of the eyes and the pride of life. The lust of the flesh is a weakness and he pleaded with his hearers to keep their bodies clean and their minds on higher, nobler and better things. The lust of the eyes. Make a person envious, hateful, jealous, etc. The lust of the three, pride of life, deals with the man who thinks that he is better than his fellowman. He can't mingle with people less fortunate than himself, as related to earthly things. He can't visit the power sections of his city because he must either give of his means to help the poor, or he must give up all his wealth and become poor with them. It is a tragedy, declared Mr. White to see the young men and young women as well as the older ones giving their talents and personality to the things of the world instead of the work of the church. Services again this evening at 8 o'clock and tomorrow morning at 8 o'clock. The morning services are being attended by large crowds who are receiving blessings which help them in their daily work. The public is cordially invited to the services. Stockholders in private banks in Sweden must be native Swedes.

"Notorious negro shot by officers accidentally"—headline. That's all right. It doesn't matter how he was shot just so he got an idea that it doesn't pay to be quite so notorious.

The man that married eleven times and now wants to become an evangelist must be preparing to go to the right place in, event he gets the 12th wife.

Reduction of wages seems to be taking place everywhere, so we don't see why the anthracite coal miners should raise such a howl because they can't get a raise. They should be glad to work for the good wages received at the present, and thank the stars they are able to earn them.

Joseph Daniels is scheduled for a commencement address at Red Spring. The "Little" North Carolina editor, a northern paper were prone to call him when he first became a member of Wilson's cabinet, seems to be gaining quite a reputation as a speaker as well as a statesman. First thing we know he'll be running for something and using his power of speech for developing his chances for office.

The fact that North Carolina issued more than \$50,000,000 in 1921 for road bonds is sure everyone our system will be one of the most complete to be found anywhere when completed. The amount is only a third development, as the government of what is really being spent a road matched this amount. The electorate voted large sums to match that of the state. The investment will provide a connecting link for each county seat in the state. This will be a great help to industry, and place the state in front ranks of production along every line.

North Carolina at present time ranks fifth in the value of agricultural products. The next two or three years, however, will see us move up nearer the top. The reclamation of land in a number of counties should greatly increase production of farm products, and give us a lead which other state will find hard in overcoming. Unemployment reported in some parts of the state is short lived. There are too many industries in operation for any working man to remain without work long at a time. The farms offers interesting opportunities to any man willing to do honest labor, and those who go back to the farm will find life much better than in the cities. We are proud of our record as a farming center and hope it will be bettered an early date.

The department of commerce estimates that a million homes will be erected in the United States this year. This announcement will be received with general interest everywhere. The house shortage has been acute in all parts of the nation since the war ended, and the promise of relief in the near future is most inviting. While a million new homes will not completely relieve the situation, it will help to no little extent and probably inspire others to build also. It is said home owning is essential to the prosperity of every section, and if this is so it is to be hoped every house erected in the future will be the property of some deserving laboring man.

Compensation for the former American soldier is favored by the majority of people, because they realize there are thousands of fellows suffering from wounds received during the war and unable to look out for themselves without government aid. The government owes its soldiers a debt that can never be paid, and the administration so far has exhibited mighty poor regard for the feelings of these veterans by trying to defeat the bonus measure. If England and France can provide a bonus for their men America can do so. Compare the vast debts of England and France to our own, the condition of each country, and it is easily seen the bonus paid can never be missed. The soldiers sacrificed many months of their life that the world might be saved, and it is only just they should be rewarded, even though in a small way. The compensation is insignificant in comparison to the service they rendered the world, and it is shameful to even think of not meeting the demand.

North Carolina leads Southern state in the number of wage and salary earners. This seems almost incredible. But it goes to show our industries are more fully developed than other states. Our resources are unlimited, and there is no reason in the world for people to complain of hard times. This is truly the greatest state of the union and when our educational system is more fully developed and good roads completed we should come mighty near leading the world in everything.

It is rather startling to know that North Carolina pays more than one-fourth of tobacco taxes of the Union, but it goes to show the great magnitude of the industry in this state. Pitt county is one of the greatest tobacco producing counties of the state, and its people have reason to be proud of the great record their farmers have made. Tobacco is probably

SPECIALISTS IN TIN

CONGRESS PLANS TO PUT MERCHANT MARINE ON MAP
 (Continued from page one.)
 000 were taken from the people through the treasury and put into ships. That was more than the book value of all the commercial ships in the world in 1914. We have those ships on hand now, many of them tied up at added expense and none can be sold. They are not considered worth more than \$1,000,000,000 and could not be sold for that now to

Americans. We might sell them to foreigners, who could afford to buy them and tie up or sink them so as to keep us from competing with them. They would soon take the money back out of our pockets, in increased freights. Our failure to encourage an American Merchant Marine before the war has cost us during the last seven years four or five billions of dollars at least, a large part of which has come from our farmers and all from the taxpayers. We saved a few dollars by not aiding the building of a Merchant Marine by private capital and wasted hundreds of millions by such saving.

any advantage, if at all. If we pass this act we can sell them for far more than we will have to pay out under it for many years. New and up-to-date ships will be built without expense to the government and our shippers will be assured just freights in peace of war.
 The bill in brief provides as follows: The ships we have are to be sold at current world market prices consistent with good business methods. An ample loan fund is provided to be used in building up-to-date ships, the borrower to put up at least one-third the cost of the ships to be built with the loan and ample security to be given for the amount borrowed with interest.

SEVERAL DEEDS FILED HERE SINCE YESTERDAY
 The following deeds of transfer have been filed in the office of the register of deeds for registration since reports of yesterday afternoon: T. W. Lang to T. M. Dail, consideration \$10; Haywood Chestnut to Moses Carr, consideration \$2250; R. L. Davis to Jimmie Wallace, consideration \$10; Higgs Brothers to J. S. Ross, et al, consideration \$900; M. A. Woolard and wife to J. L. Perkins, consideration \$10; A. G. Cox to Jamie Gray \$50; J. W. Whitfield and wife to T. A. Whitfield, consideration \$500; F. J. Forbes and wife to W. J. Clark and wife, consideration \$600; J. L. Horton and wife to Walter Hart, consideration \$10; E. B. Allbrook and wife to S. B. Currin, consideration \$10; Mrs. Jamie Edwards to A. C. Jackson, consideration \$2,000.

The Proctor seine at Grimesland began operating yesterday and should be more plentiful.

By the shipping bill lately introduced we seek to supplement the Marine Act of 1920 as to make the loss of our fleet less, get our ships in private hands and save the taxpayers, build up and maintain a well-balanced fleet and save ourselves from another 1914 situation.
 "Our Ships Cannot Be Sold Now to Advantage."
 Our ships cannot be sold now to

This week has put plows to running and they are going in for full time.

"Where Quality Reigns Supreme"

H. L. Hodges & Company

"HAUNTED HOUSE," WHERE SCIENTIST SEEKS MYSTERIOUS "GHOST."

Dr. Prince at ghost house.

In this famous "haunted house" at Caledonia Mills, Nova Scotia, Dr. Walker Prince, New York scientist, endeavored to trap a "ghost" which is said to have slayed detectives, killed cattle and burned furniture. Dr. Prince believes that the mysterious depredations have been caused by human agencies, he declares. From left to right you see Alexander McDonald, farmer, who says the "ghost" ran him from his home, Dr. Prince, A. Chisholm, Messrs. MacRitchie and Whiddan and Mary Elen McDonald. Another explanation of the strange happenings is credited to radio waves, the house being between two sending stations.

DAVIS ANNOUNCES HIS CANDIDACY FOR DISTRICT SOLICITOR

J. H. Davis, of New Bern, Present Incumbent, to Run For Fifth District Office

Through the medium I desire to announce to the electorate of the Fifth Judicial district my candidacy for the nomination of solicitor. In November, 1920, I was appointed by the lamented Governor Bickett to fill the vacancy caused by election of the Honorable J. Lloyd Horton to the superior court bench. Since that time I have sought zealously to carry out the duties incumbent upon me by virtue of the office. My constant endeavor has been to allow no motive or influence to swerve me from the plain path of duty that has been before me. To what extent I have succeeded in this endeavor can be ascertained very largely from the public records themselves. Disclaiming any stewardship of excellence and admitting that lack of perfection to which all men aspire, I can say frankly and candidly that I have tried to represent in a true sense the people of the state and the cause for which they stand. My opponents are worthy and honorable men. My appeal is not being submitted upon the demerits, if any, of their contentions, but upon the merits of my past administration and upon the faith I have in the people of the district that they will approve that administration by the popular expression to be given by them in nominating me on the regular ticket for the coming election. I shall conduct my campaign on a high plane and if there is any misleading I am determined it shall not come from me.

Respectfully submitted,
J. H. DAVIS,
Solicitor Fifth Judicial District.

CLAIMS MAN HYPNOTIZED HER INTO MARRIAGE

Nellie Udovias

George E. Lopiatto, hypnotized her, spirited her away and married her, claims Miss Nellie Udovias, of Roxbury, Mass. Charging that her family took her away from him after a brief honeymoon, Lopiatto is suing the family for \$50,000 for alienation of his wife's affections.

OHIO AND INDIANA ARE CALLED THE "UNITED STATES POLITICAL COCKPIT"

By O. GEORGE R. HOLMES, International News Service Staff Correspondent.

Washington.—"The political cockpit of America."

That is the way national political leaders of the Capital are sizing up the scheme formed by the sister states of Ohio and Indiana. It was so in 1920 they say, and it will be so again in 1922 unless all signs fail, and all political forecasters fall down utterly. Off-year elections, with control of congress at stake, are still eight months away. Yet in this battle scarred cockpit the party tocsins are already being steadily beaten to attract the wary voters, and things are lining up for still another "battle of the century." Scarcely 400 miles in length and 200 miles wide, this irregular square furnishes more political fireworks than any other section of the country three times its size. It is truly the political battleground of the nation.

"As goes Maine so goes the nation" is a political axiom that does not always hold true. Sometimes it fails. But if Indiana and Ohio once get on the same side of the political fence, history proves that the ballot counters might as well throw down their pencils and quit figuring. Occasionally they differ, but not often. Only four times in recent political history have Indiana and Ohio split politically, and on these widely-sep-

rated occasions the differences have been very slight.

History is Cited.
In 1876 Indiana gave Tilden a slight majority, while Ohio scratched out a bare victory for her native son, Rutherford B. Hayes.

In 1884 Indiana gave a slight lead to Cleveland, while Ohio granted Blaine a narrow majority.

In 1922 Cleveland won Indiana by 7,000, while Harrison took Ohio by the extremely uncomfortable margin of 1,000.

Again, in 1916, these two sister states split—Hughes carrying Indiana and Wilson taking Ohio. But the margins always were narrow, and in the main Ohio and Indiana can be said to back in the same political shade.

Always the campaigns are heated, and usually they are close. The coming elections, toward which congressional lawmakers in Washington already are turning their eyes, promise to be no exception.

OUCH! BACKACHE! RUB LUMBAGO OR PAIN FROM BACK!

Ah! Pain is gone! St. Jacobs Oil acts almost like magic.

Quickly?—Yes. Almost instant relief from soreness, stiffness, lameness and pain follows a gentle rubbing with St. Jacobs Oil.

Rub this soothing, penetrating oil right on your painful back, and relief comes. St. Jacobs Oil is a harmless backache, lumbago and sciatica cure which never disappoints and doesn't burn the skin.

Straighten up! Quit complaining! Stop those torturous stitches. In a moment you will forget that you ever had a weak back, because it won't hurt or be stiff or lame. Don't suffer! Get a small trial bottle of Old honest St. Jacobs Oil from your drug store now and get this lasting relief.

If Your Daughter Were In Paris

Possibly your growing daughter has decided to omit the item of a corset from her wardrobe.

If she could but stand in the Rue de la Paix near the Place Vendome where the smartest women in Paris pass, she would receive a shock that would change her manner of thinking entirely.

The Parisiennes are smartly gowned but in most cases gone are the figures that historians have recorded and poets sung—for Paris plunged deeply into the corsetless fad and its women are now seeking the way out.

That women should rebel at the stiff uncomfortable corset of yesteryears is not remarkable. The remedy, however, is not in the discarding of corsets but in procuring a corset that is light, pliant, and thoroughly comfortable.

Such a corset is the Modart—designed from the broadest experience in producing front laced corsets, flexible, light in weight, and comfortable to the last degree.

It provides just the gentle support required by the growing figure.

Bring your daughter to our corset section and let one of our expert fitters fit her to a Modart. Both you and she will then appreciate the fine points of this wonderful corset for which our most discriminating patrons have only words of praise.

Dr. B. T. Cox, of Waterville, spent a short while in the city this morning.

JUNIOR SENIOR RECEPTION GIVEN AT TEACHERS COLLEGE

The Junior Senior Reception at East Carolina Teachers College on Saturday evening one of the most beautiful and attractive ever given in the school. St. Patrick's day decorations were used, as the color of the class are green and white. The dining hall was festooned with streamers green and white. The Irish harp and the shamrock were in evidence at every turn, growing plants and ever greens intensified the color scheme. Over two hundred girls dressed in light evening dress made the scheme festive.

The receiving line was composed of the officers of the class and chairman of committees, with President and Mrs. Wright, Mrs. Beckwith, Mrs. Jeter and Misses Lewis and Jenkins representing the faculty.

The class officers are as follows: President, Mary Baggett, vice president, Miss Lucy Goodwin; secretary, Miss Nina Rogers, treasurer; Clara Dowdy, chairman of committee, Refreshment, Miss Mabel Wooten; decoration, Miss Mabel Montague; Entertainment, Miss Louise Diggs, Miss Elizabeth Hammel introduced the guests both live and Misses Lucy Uzale, Pattie Smith, and Rose Penegar received them at the door. Misses Millah Peele, Katherine Brown, and Grace Thompson presided at the punch bowl.

Miss Mary Baggett president of the class, made the announcements for the different entertainment features.

A Group of Juniors dressed in Irish costumes danced the old fashioned square dances, while Miss Hildah Duke played for them. This was followed by the minute, danced by a group of Seniors dressed in colonial costumes.

This was followed by a fortune-telling game in which members of the faculty and Seniors were required to read their fortunes to the crowd. This caused a great deal of merriment.

Refreshments were served in a most attractive and unique manner. Fifty girls, dressed in Irish green aprons and caps, led by the Irish dancers in peasant costume, came in bearing plates of green and white.

Mr. Jesse Smith returned last night from Norfolk where he attended a better lighting demonstration of the Westinghouse Lamp Co. Mr. Smith reports a splendid trip.

ice-cream and cake, with a penky little shamrock standing up on each plate. After this the Seniors received their souvenirs. Streamers of green ribbons suspended from the fans in the center of the room had attracted attention all the evening. The seniors were told to pull these ribbons, and from each one came down a little shamrock decorated box filled with lime mints.

The prizes for the best dancers in the costume dances were presented by Mrs. Beckwith. Misses Maggie and Grace Dixon received the prize in the square dancing contest, and Misses Ruth Swinney and Virginia Rhea in the minuet.

At the close of the evening music throughout the evening.

The Junior-Senior reception is always the leading social event of the year among the students and each class tries to keep up with the standard set by preceding classes. The class this year has reason to feel proud of the success of their evening.

MRS. HARRY HARDING DIES AT HOME IN SOUTH CAROLINA

A telegram was received in this city today announcing the death of Mrs. Harry Harding which occurred in Camden, S. C., early this morning.

Mr. Harding, nee Miss Estelle Cotton, of Baltimore, Md., was the wife of Rev. Harry Harding who several years ago was rector of St. Paul's Episcopal church. She possessed a host of friends in Greenville who will regret to learn of her death. She is survived by her husband and two daughters.

The remains will reach Washington tomorrow morning and interment following in the Washington cemetery.

Resolutions of Respect

Whereas, Almighty God, who is all wise, and infinite in wisdom, who doeth all things well saw fit to remove from earth to a more lofty and angelic sphere our beloved brother, J. W. Bryan who served as teacher of our Baraca Class of the Immanuel Baptist church for quite a number of years, whereas we esteem him as a man who walked close to God, and who was tender hearted kind, loving and very gentle in all his ways, who loved his church, his class and his neighbors, and most of all his God.

Therefore Resolved:

First: That we, the members of The Baraca class of the Immanuel Baptist church, bow in humble submission to Him who doeth all things.

Second: That we extend to the bereaved wife and children our deepest sympathy and respect, and trust the God of all comfort may sustain and keep them.

Third: That we feel that his mantle falls back on us and that we should endeavor to carry on the work with patience and pleasure.

Fourth: That a copy of these resolutions be spread on our minutes, a copy sent to the Daily Reflector, and Biblical Recorder, copy sent to the bereaved family.

BURNEY WARREN,
F. A. EDMUNDSON,
Committee.

MR. WASHINGTON ABLE TO BE OUT AGAIN

The many friends of Mr. Clement Washington, who suffered a stroke of paralysis some time ago, will be glad

to learn that he was able to be at his store a while today.

Spring Suits

Have You Selected Yours Yet?

Easter is going to be right here on top of us the first thing we know and it is high time to be planning our Easter wardrobe.

A smart suit is the one essential garment in the Easter wardrobe, and nowhere will you find a more complete showing of suits for style, variety and value than at "The Ladies' Store."

Whether your taste is for a smart Tweed suit of the more dressy Tricotine or Poirer Twill, you will find what you want on our racks.

Prices From **\$22.50** up

Just a "Tip" --

In the numerous little accessories to a perfect attire, you will find a pleasing selection of hose, neckwear, girdles, etc.

Home Made Candy Sale. Remember the sale of home made candies, at the Princeton Club, Friday afternoon.

PARENT-TEACHERS MEETING EVANS STREET SCHOOLS

In spite of the rain there was quite a number of the members of the Evans street school parent-teachers association present for the March meeting. Mrs. E. W. Harvey, president of the association, presided.

Dr. A. M. Schultz gave a very interesting talk on "The Care of the Teeth."

The finance committee called for suggestions whereby money might be made for the necessary expenses. It was decided that a play should be given at an early date.

Every one enjoyed a sextette sung by Eva Lee Campbell, Marie Baker, Sallie Atkinson, Lula Speight and Gertrude Staton, members of 6b grade.

The 5a grade had the largest percentage of patrons present.

NOTICE! Persons having accounts against Pitt County will please present them to me, not later than Wednesday before the first Monday in each month. N. W. JACKSON, County Auditor 17 2wks.

Rheumatism Came To Live With Him at 14

(Wednesday Health Talk No. 12)
(By J. B. Ball, D. C., Ph. C.)

At fourteen J. P. Brown got his first taste of sciatica and muscular rheumatism and it was bitter as every sufferer from either of these troubles can testify.

He tried many things, including a trip to Hot Springs but nothing quite touched the cause. He

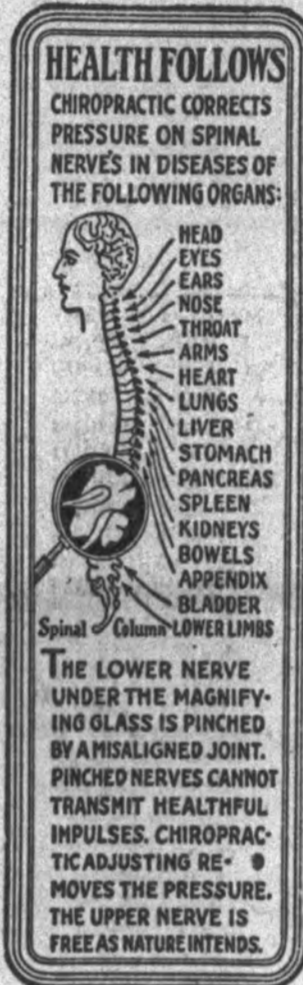

UNCLE BEN SAYS: "The fellow who thinks that his health will take care of itself is as optimistic as the baldheaded man who bought a bottle of hair restorer and a brush at the same time."

was unable to work and viewed his trouble rather hopelessly, until he heard of chiropractic spinal adjustments, and learned for himself that they do remove the cause and give Nature a chance to express herself normally, and that means healthfully, Mr. Brown says:

After the First Adjustment

"After the first adjustment I felt great relief from the pain along the sciatic nerve. Since taking several courses of adjustments I can now say that I am entirely pain free. I also had neuralgia of the eyes and head and this also has left me.

HEALTH FOLLOWS
CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:

HEAD
EYES
EARS
NOSE
THROAT
ARMS
HEART
LUNGS
LIVER
STOMACH
PANCREAS
SPLEEN
KIDNEYS
BOWELS
APPENDIX
BLADDER
LOWER LIMBS

THE LOWER NERVE UNDER THE MAGNIFYING GLASS IS PINCHED BY A MISALIGNED JOINT. PINCHED NERVES CANNOT TRANSMIT HEALTHFUL IMPULSES. CHIROPRACTIC ADJUSTING RE-MOVES THE PRESSURE. THE UPPER NERVE IS FREE AS NATURE INTENDS.

"I feel so much better since taking chiropractic spinal adjustments that I would not take any amount of money for the benefits already established." - J. P. Brown, Chiropractic Research Bureau, Statement No. 1306H.

What is in the bag?

A fertilizer may contain just the right elements of plant food, in just the right proportions, for your soil and the crop you want to grow.

But—is each element in such a form of availability that the plant is able to use it at the right time and over the proper period of growth? Are the three different elements thoroughly mixed? Chemically blended? Or, will one plant starve for lack of one essential element, and another be "gorged" with the second?

Since you can't see quality in fertilizers and must buy them on faith, your best guide is the reputation, experience and facilities of the people who make them.

A A C Quality Fertilizers have behind them the largest manufacturing organization, and are supported by the combined experience of such leaders as Bradley, Bowker, Stockbridge, Liebig, Wheeler, Coe, Lister, Crocker, Detrick, Zell, Hess, and others—probably the most noted group of fertilizer men the industry has ever known.

No man need ever guess what's in the bag if the brand is "A A C." It contains maximum fertilizer efficiency.

An important part of this organization is the Agricultural Service Bureau, conducted by Dr. H. J. Wheeler, formerly Director R. I. Agricultural Experiment Station. This Bureau carries on practical experimental work in all sections of the country, to determine just what fertilizers are best adapted to each crop and locality. WRITE to this Bureau, in care of the office nearest you, for suggestions on your particular crop problems. No charge or obligation. WRITE for free booklet "How to Get the Most Out of Fertilizers." WRITE for the A. A. C. agency if we have no dealer near you.
