Sixty-two Points**

**FOUNTAIN TIES WITH  
WINTERVILLE SCHOOL  
FOR SECOND POSITION**

**Thirty-nine Schools and 517  
Contestants Participated  
In Contests**

Literary contests of county school commencement day exercises held at the Teachers College in this city from 10 to 12 o'clock yesterday morning were probably the outstanding features of the day's program. The contests held in the classrooms of the college got under way promptly at ten o'clock, and when the points had been determined Farmville graded school was declared the winner of the silver loving cup presented by the Kiwanis club of this city.

Thirty-nine schools and five hundred and seventeen contestants of the county participated in the contests under the direction of Miss Macie Southall, county supervisor of schools. The standing of each contestant was determined in the following manner: First place, five points, second place, three points and third place, one point.

Greenville schools did not participate in the literary contests, although they were entered separately in the field events held at the fair grounds in the afternoon. The literary contests embraced such subjects as reading, writing, arithmetic, spelling, phonics, hygiene and included students representing grades from first to the seventh.

The standing of each contestant, and subjects represented in the literary contest follows:

**First Grade—Phonics.**  
First place, Edwina Baker, Farmville graded school; second place, Elizabeth Lewis, Fountain graded school; third place, Leoline Manning, Pactolus graded school.

## REPUBLICANS PLAN TO SIDETRACK FORD MUSCLE SHOALS OFFER

Washington, April 4.—Uncle Sam will not let Henry Ford operate Muscle Shoals and his offer will be quietly sidetracked, according to plans laid by Republican leaders of the senate committee when hearings were resumed here today.

Senator Norris, chairman, said it would be at least six months before congress would decide on the Ford offer. It will be a full year before legislation can get through, even if the body favored the offer.

Leaders contend the nitrate plant should not be allowed to slip into hands of a private individual. Democrats today were preparing to renew their fight in Ford's interest.

## BEGIN REFLUTATION OF CHARGES AGAINST THE BIG RAILWAY SYSTEMS

Washington, Apr. 4.—Reflutation of charges by William McAdoo and Walker Hines, former director of railway, that breakdown of rail transportation in 1917 forced government control, was begun by railroad executives here today before the Senate interstate commerce commission.

Daniel Willard, of the Baltimore & Ohio railroad, emphatically denied that such was the principal reason for federal control, but was due to financial conditions and caused by mounting costs.

## GOVERNMENT PLANS REPUBLICAN MUTINEERS CLASH WITH FREE STATES

Washington, April 4.—Mutineers of the Republican army and Irish free states loyal troops clashed when the rebels attacked them in two separate districts today. They fired their revolvers at the Royals who returned the fire with appalling losses. Casualties of the rebels have not been determined. It is not believed any members of Irish free state troops were wounded.

Washington.—A tariff bill dictated by the producing west and middle west is today confronting the consuming and industrial east.

A bill written by a Republican "Tariff Bloc" far more influential and formidable in congress than the non-partisan "agricultural bloc" has over succeeded in being.

Most of the Republican leaders of the "agricultural bloc" have joined in the "tariff bloc" movement for the avowed purpose of writing into the bill schedules which will virtually act as an embargo against the importation of those things upon which the farmer and the livestock man of the west and middle west depend for their bank accounts.

The executive committee of the "Tariff Bloc" consists, in the sen-

## TEXAS EVANGELIST DELIVERS ANOTHER SPLENDID SERMON

**Dr. Edwards Last Night Used  
As His Theme "All At It"  
At Christian Church**

**URGED CHRISTIANS  
TO OBSERVE LIVES  
OF THE DISCIPLES**

**Music By The Pollocks Another  
Great Feature of Evening's  
Services**

A fairly large crowd attended the series of revival services at the Christian church here last night and heard Dr. Edwards, of Texas, preach one of the most powerful sermons since opening of the revival Sunday morning. The music which was led by Mr. and Mrs. R. W. Pollock was again another outstanding part of the services and created the greatest interest. The solo by Mr. Pollock was one of the principal musical features of the evening.

Dr. Edwards based his sermon on the fourth verse of the eighth chapter of Acts, which reads "Therefore that they were scattered abroad, went everywhere preaching the word."

Dr. Edwards used as his text, "All At It." He based his theme on Jesus' commission to the disciples that they go into all the world and preach the gospel. He told of the active response of the disciples in obeying the command of God.

He called attention to the persecutions which came into the paths of the disciples. They were not stopped, however, but confided with their good works, believing in the greatness of the Master. They realized they had a definite purpose in view, and went about their work believing implicitly in it's.

The great good which was accomplished by the united efforts of the disciples was brought out in a forcible way Dr. Edwards, who at this point compared that with united effort of christianity of today. It should be the willingness of every disciple at all times to tell and preach the world of God, he said, as there never was a time when the world needed it more than today.

He placed special emphasis on the word "Go" of his text, and that when the people united they would experience greater results. Jesus should stand back of everything, for in this way alone can the true greatness of his work be realized.

He called attention to the promise of Christ that everything done in His name shall not return void. He also spoke of the great privilege to work in the interest of Christ. We should all be willing to go and do a good service in the interest of our Lord.

He concluded the sermon with an earnest appeal for a higher plane of living, urging his hearers to closely observe the lives of the disciples in endeavoring to live as Christ directed them.

## NOTED LECTURER TO SPEAK IN CITY SUNDAY MORNING

## Anti-Saloon Speaker to Speak On Law Enforcement Program of Nation

Rev. G. M. Hammond, of Kentucky, national lecturer anti-saloon of America, widely famed for eloquence, will speak at the Methodist church Sunday morning at 11:30 o'clock on the subject of "The Challenge of the Times." This is a great law enforcement address and should be heard by a large audience.

R. E. Smith, president, Ruskin-Cave College, Ruskin, Tenn., says: "I have known Rev. G. M. Hammond for several years and can cheerfully testify to his sterling character and unusual ability. Of fine address, winsome personality, pleasing delivery, he captivates his audience and drives home the truth with sledge-like force. Hammond is direct and different."

Mr. Hammond will also speak at the Memorial church Sunday night. Several of the churches will unite in the evening service in order that all may have an opportunity of hearing so noted a lecturer on so important a topic.

Washington, April 4.—More than a quarter billion dollars in uncollected and contended taxes will be garnered by the government this year and devoted to relieving the fall off of this year's returns, according to estimates of treasury officials. This was stated, will be one of the chief benefits of the general shakeup now progressing.

Secretary Mellon estimated this morning that tax deficits this year will amount to three hundred million dollars.

## DR. BARKER WILL LECTURE IN CITY ON FRIDAY NIGHT

**Noted Lecturer to Speak Three  
Times During Visit to  
This City**

The coming to Greenville on Friday of this week of Dr. Charles Barker to deliver three addresses, will give to the people of Greenville and the surroundings the opportunity to hear something extraordinarily good. Dr. Barker is from Battle Creek, Michigan, and has spent practically all his life in the study of the human body. His one desire is to teach people how to make the most out of life, how best to safeguard the lives of the next generation. He not only knows what he is talking about, but he also knows how to express his thoughts. In fact, he is one of the most attractive speakers on the American platform today. He is coming to Greenville under the auspices of the Greenville Rotary Club. This club is bringing Dr. Barker here solely for the good of the people of this community. He will deliver three addresses at the following hours. All of the addresses will be delivered in the High School auditorium. At 10:30 a. m., he will address the student body of the High School and then the general public. At 4 p. m., he will address the women only, using as his subject "A Mother's Responsibility to Her Daughter." At 8 p. m., he will address the men of the town using as his subject "A Father's Responsibility to His Son."

## LEAGUE MEMBERS TO HOLD MEETING IN TARBORO SOON

**Meeting at Washington Last  
Night Resulted in This  
Decision**

**TARBORO PEOPLE  
SAID TO BE READY  
TO JOIN LEAGUE**

**Telephone Message Last Night  
Gave Much Encouragement  
for Future**

The meeting of representatives of the Eastern Carolina league held at Washington last night resulted in a decision to meet at Tarboro, Monday night, April 10th. Nothing of any definite nature was accomplished at the meeting last night, and only the four towns already represented had delegates present with exception of Washington.

Although Tarboro was not represented last night, it is believed they are about ready to enter the league. Tarboro business men made an attempt to get in telephonic communication with representatives of the meeting last night but were unable to do so until a late hour after the meeting was over. It was stated then that interest was increasing daily, and that something definite may be decided upon at the meeting April 10th.

The meeting in Washington was one of the most interesting held in sometime, and representatives were optimistic concerning the outcome of the season. Washington, of course, expressed keen interest in Tarboro's action, and is hoping followers of the sport in the latter place will get busy and do what they can to put the deal across.

Kinston business men, according to a statement in The Daily News this morning, were in touch with Tarboro last night, and received right much encouragement. They were told that Tarboro people are becoming interested in the proposal to join the league, and will look for definite and probably final action in this direction next Monday night.

## MINERS DECLARE THEY ARE READY FOR WORK AGAIN

**John Lewis Declares Bituminous  
Workers Are Ready  
For Business**

Washington, April 4.—Union coal miners who suspended work Saturday in the nation's bituminous and anthracite fields were declared today by John L. Lewis, president of the United Mine Workers of America, to be desirous of ending "the suspension of mining operations at the earliest possible date" but "the resumption of coal production entirely depends upon the future attitude of the coal operators."

Mr. Lewis made this declaration before the house labor committee which is holding hearings on the Bland resolution to direct appointment by the President of a commission to investigate the coal industry.

Discussing the resolution under consideration, the United Mine Workers' president asserted that his organization would welcome "any impartial and judicial investigation of the general conditions in the bituminous and anthracite coal industries and especially the facts relating to investments and profits, operating practices, conservation of fuel resources, application of uniform methods of safeguarding the life and limb of the workers, and industrial relations and conditions."

"Such an investigating body," he added, "should be clothed with full power to ascertain the truth, to send for persons and papers and to take testimony under oath. The personnel of such a commission should be free from political equations and the mine workers should be given adequate representation thereon."

Features of Track Events**

The silver loving cup offered by the Greenville Rotary club to the school making the greatest number of points in the field day exercises of the commencement day program staged at the fair grounds in this city yesterday afternoon, went to Greenville high school, which made a total of 54 points. It was not well known, however, until the very last event had been finished whether Greenville or Farmville would win as close was the score.

The events were witnessed by several hundred people who crowded around the track in great numbers. Many of the races were filled with the most intense excitement and cheering at times was deafening. Each school received hearty support from delegations from their respective centers. Greenville school was entered separately in each contest.

**Final Scores.**  
The following scores were made by the various schools, according to official records of the judges:

Greenville high school, 54 points; Farmville high school, 47 points; Bethel high school, 44 points; Ayden land high school 37 points; Ayden high school, 25 points; Fayetteville high school, 24 points; Grifton high school, 23 points; Arthur high school, 22 (Continued on page six)

## THOUSAND MASONS TO HOLD MEETING IN WINSTON SALEM

**Four Bodies of York Masonry  
Masonry Will Attend The  
State Meeting**

Extensive preparations are being made for the entertainment of the state bodies of York Masonry in Winston-Salem on May 9, 10 and 11. The four bodies meeting at this time are the Anointed Order of High Priesthood, Grand Chapter of Royal Arch Masons, Grand Council of Royal and Select Masters and Grand Commandery of Knights Templar.

More than 1,000 men, representatives of the four bodies mentioned, will be guests of Winston Chapter, No. 24, the presiding officer being W. E. Leak, High Priest; Eugene Council No. 15, Royal and Select Masters, the presiding officer being J. W. Hylton, Illustrious Master; Piedmont Commandery, No. 8, Knights Templar, of which the principal officers are Raymond G. Porter, Eminent Commander; Clarence T. Lineback, Generalissimo, and Robert D. Shore, Captain General.

The sessions will be held in the spacious and beautiful lodge rooms used and occupied by the above mentioned local bodies. Winston-Salem Masons and those who are not members of the order feel highly honored in being given the opportunity to entertain over 1,000 of the best craftsmen of the state of North Carolina.

Local Masons, who have attended these meetings from year to year, say that they never knew more than 200 to be present on any one session of this kind. Attendance has already been given to the effect that the attendance this year will be nearly five times more than has ever been known.

The last time these bodies met in Winston-Salem was in the year 1912, just after the completion of the new temple, and they have been wanting to come back ever since. It is stated.

Ford manufactures cranks and is evidently using some of them in the Muscle Shoals proposition.

If the government can afford seven million for the development of Muscle Shoals, the soldier's bonus ought to be an easy matter.

A fourth bid has been presented for Muscle Shoals, but the only one the government has any business of accepting is that presented by Henry Ford. Employment of a million men is one of the most attractive features of his bid.

The British are preparing to reduce naval expenses in accordance with farm demonstration agent, is willing to make this reduction, they should remember that Germany has not been forced to reduce, and is as anxious to conquer the world as ever, if resources were available.

Adjustment of southern freight rates will be received with pleasure throughout the south. The south has been forced to pay excessive rates many years, and it is only just that the interstate commerce commission begin action looking to complete adjustment.

Nationalization of coal mines will be the only direct solution to present troubles if the strike continues for any length of time. This county has had to suffer as result of labor disorders too much, and the public is getting tired of it. If things don't brighten up, the government should take action.

The coming of Dr. Barker to Greenville Friday, April 7th, will be received with interest by every familiar

with his reputation as a lecturer. He is probably one of the best informed men in the country, and will bring three inspiring messages to Greenville people. The Rotary Club is to be congratulated upon its effort to bring such a distinguished speaker to the community.

BOLSHEVISM IN STRIKES

The coal strike is confronted by a very grave danger in the principles of bolshevism being preached to the miners by professional agitators. If the government can't find room for directly interfering in the strike it can place under arrest such persons engaged in plotting to corrupt the nation. Should the strike continue for any length of time the miners will become restive and dissatisfied, and in a short time the spirit of bolshevism may begin to flame in the souls of otherwise peaceful and law-abiding citizens.

Elizabeth City apparently is ready to join the Eastern Carolina league, in which case, Tarboro may do as they like. All we want is some town to come in and make Washington's entrance possible, and if Tarboro doesn't desire to do so, then everybody will be delighted to have Elizabeth City. The town is one of the liveliest in the state, and ought to be a stubborn contender for honors in event they decide to cast their lot with us. The meeting at Washington in all probability will decide the question, and here's hoping they act favorably.

This week is the time for farmers to begin to prune their trees, and those who do so may rest assured of having the best orchards in their respective neighborhoods. W. B. Pace, farm demonstration agent, is willing to do everything possible to assist in this work, and farmers desiring information should call on him. Mr. Pace is making an effort to improve the farming industry in Pitt county and by proper co-operation from the public will be able to accomplish even better results than expected. If you have an orchard needing attention, call Mr. Pace and let him put you on a permanent road to success.

The Greenville police department is to be commended for the low crime record prevailing in the city. The arrest and conviction of so many vagrants has had much to do with the splendid showing, as reports from other cities have shown. Other towns and cities have been rather lax in handling the vagrant question and have suffered as a result from this delay. Unemployment and idleness walk hand in hand with crime, for people situated in this way have nothing to confine their attention. It is hoped the department will continue the good work. It's one of the best advertisements the city could have, as others will vouch for.

bringing them together in competition a long stride in this direction will be realized, as nothing inspires ambition more than to see what others are doing. The competitive spirit is in greater evidence in America today probably than ever before. It is this that has produced a general desire for larger educational systems and more cultured and refined people. But to make it what it should be, we must have the opportunity of coming in contact with other systems, mixing with other people and seeing what they are doing. This is exactly what the county commencement does. And our people should see that it is made an annual occurrence.

The commencement spirit should produce competition among all schools. The literary and athletic contests showed in a pleasing kind of way what each school has accomplished and the pride which many teachers displayed in their charges spoke volumes in the spirit behind our educational system. The one and two room school houses are rapidly giving way in Pitt County to the better (one-story) buildings, and the children must keep pace with these improvements. By Michigan agricultural college professors have succeeded in taming wild ducks.

(Continued from page one) them jostled together than all the rest of these United States hold in the way of population. They and their employers pay the greater part of the taxes which pour into the treasury to keep the country running.

Their representation in the house far exceeds that of the sparsely settled west and middle west, but in the senate—where the new tariff bill is being made—they must remain content with two senators for each of their states—the same number as, for instance, the thinly populated states of Nevada and Wyoming enjoy.

IS OUR COAL SHORT?

John Lewis, president of the miners' unions, says the public can do nothing more than expect high prices after the strike. There's no great surplus of coal on hand, as the government claims, Mr. Lewis asserts, and prices will soar upwards as surely as the coal is to be mined. This information will be received with some surprise after reading the government's emphatic declaration of enough coal to last sixty or ninety days. The operators evidently have things going exactly like the want them. They realize they can plead acute shortage after the strike and the public will never know the difference.

John Lewis, representing miners' unions ought to know as much about what he is talking as President Harding at the White House. There's been a grave mistake made somewhere, and it begins to look as if the president had better make some explanation about the situation.

If the situation is serious the public wants to be told the truth. Beating about the bush as in past issues won't be tolerated as in other instances, and the miners' representative or the president ought to see if they can't get things straight.

Here is the first authentic picture of coal miners walking out on strike at Scranton, Pa. Because they say the operators declined to negotiate new working agreements with them, they laid down their tools along with thousands of other workers. Practically 400 anthracite and bituminous mines in twenty States now are idle because of the strike. Approximately 550,000 men are affected. A sufficient supply of coal to last three months is above ground, officials of the mine have announced, and the effects of the strike probably will not be felt for some time to come.

RE-SALE BY RECEIVERS OF VALUABLE REAL ESTATE AND PERSONAL PROPERTY

By virtue of an order entered on the 18th day of March, 1922, by Hon. J. Lloyd Horton, judge of the Eastern Judicial District, in the cause of T. C. Moore, L. H. Worthington and B. M. Whitehurst et als, vs. Carolina Fertilizer and Phosphate Company, the undersigned receivers will offer for sale on account of raised bid on the premises near Greenville, N. C., on Tuesday, April 4th, 1922, at 12 M., the following real and personal property:

land recently occupied by the Greenville Cooperage and Lumber Company, and upon which their plant was located, more accurately described as follows: Beginning at an iron stake on the East side of the Atlantic Coast line R. R. Company right of way, at the N. W. West corner of the lot formerly deeded to the Greenville and Sheldermere R. R. Company by L. C. Arthur and wife, for a depot, thence running at right angles with said railroad eastwardly 260 feet to a stake, thence northwardly parallel with said A. C. L. Railroad right of way, a distance of 450 feet to a stake; thence westwardly parallel through L. C. Arthur's lands and with Ed Worthington's Southern line with the first line 260 feet to said railroad right of way, thence southwardly with the line of the right of the said railroad 450 feet to the beginning. It being the same property on which the Carolina Fertilizer & Phosphate Co. are now growing their fertilizer plant.

On said land is situated one frame building about 140 feet square. Also one printing machine used for the printing of sacks in connection with the fertilizer business. The said real estate above described will be sold first and the personal property described will be sold second. The said property will be first offered for cash, and then on the terms

of one-third cash, and the balance payable in one and two years, the deferred payments to draw six per cent interest, and at the conclusion of the sale, the receivers will accept the sale that appears to be to the best advantage of the said estate. # MELLON'S RIGHT TO REMAIN IN THE CABINET IS ATTACKED BY DEMOCRAT FROM GEORGIA

## Georgia Democrat is Latest To Assail The Secretary Of The Treasury

By WARREN W. WHEATON  
International News Service Staff Correspondent

Washington.—The eligibility of Andrew W. Mellon to serve as Secretary of the Treasury is becoming almost a daily bone of contention in Congress. Demand after demand has been made that the man who is credited with running John D. Rockefeller a close second as the wealthiest man in the United States—individually and not as Secretary of the Treasury—be ousted from his job in the President's Cabinet.

Representative Brand (Democrat, of Georgia) is one of the latest assailants of Secretary Mellon. Brand has served formal demand on the Senate that, while it is investigating the eligibility of Senator Smoot and Representative Burton to act as members of the Debt Refunding Commission, it include in the inquiry determination of the status of Mellon to act, not only on the commission, but as Secretary of the Treasury.

"The question involved is one in which every taxpayer in the United States is interested," says Representative Brand. "It is a world-wide known fact that certain European nations owe the United States about \$11,000,000,000. It is generally known also that they owe a group of international bankers about \$5,000,000,000. This group of international bankers are bent on having their money and are interested in collecting it whether the United States ever collects a dollar or not. Here are two classes of creditors, with claims against a common debtor which is generally reputed to be bankrupt. Their interests are in conflict and are adverse. Therefore it becomes a very important matter to know whether or not Mr. Mellon is the owner of any of these obligations due these private bankers or whether any of his kindred within the prohibited degree are the owners of them or whether any of the great banking and financial institutions to which he belongs is the owner of any of them or interested in any of those debts."

Brand declares that there is a statute placed on the Federal books in 1879, which disqualifies the Secretary of the Treasury from acting if he is engaged in the business of trade or commerce or if he owns any State or national securities.

# LAKE REGION GROWTH IS SEEN IN THE ST. LAWRENCE CANAL PROJECT

## St. Lawrence Waterway To Ocean Pushed in Commercial Expansion Move

By W. H. ATKINS,  
International News Service Staff Correspondent

Washington.—A new era in the industrial and commercial development of the states and provinces of the Great Lakes region on both sides of the international boundary line is seen by members of congress in the proposed new deep-channel waterway to the sea via the St. Lawrence river, the construction of which has just been recommended in the report of the joint international commission of the United States and Canada.

Not only would the canal mean renewed expansion and growth in the great cities on the lakes such as Buffalo, Chicago, Milwaukee and Cleveland, but the growth of new great cities loomed, it was pointed out.

Senator Kellogg (R.) of Minnesota, pointed to the report of the joint commission, in which rapid development was predicted for Duluth, Minnesota and the twin cities of Fort William and Port Arthur, on the Canadian side of Lake Superior.

"Forty thousand miles of railway serving the great American West are tributary to Duluth, while Canada's

transcontinental railway systems serve Fort William and Port Arthur," the report declared.

### Might Rival Twin Cities.

The possibility that these two Canadian cities might rival the twin cities of St. Paul and Minneapolis as the result of the construction of the new canal system was pointed out by members of congress who stand sponsor for the project.

"The proposed new waterway to the sea from the heart of the American Continent would be very beneficial not only to the immediate lake region, but to all that Mid-Western country lying as far westward as the Rocky Mountains," said Senator Kellogg today. "It would afford an outlet to the markets of the world for the products of this region."

"The report of the commission seems entirely practicable and highly satisfactory." Senator Townsend (R.), of Michigan, another of the sponsors of the proposed waterway, declared it would be of tremendous benefit to the region served.

"It would afford an outlet to the seaboard, without transshipment of the products of this region, which at present can't stand the heavy freight rates charged by the rail roads," said Senator Townsend.

# LOW MARK CUTS THE NUMBER OF GERMAN IMMIGRANTS IN THIS COUNTRY

## But Other Nationalities Aided By Kin in U. S. Swarm To Our Shores

By HARRY WARD,  
International News Service Staff Correspondent

Washington.—When the peace treaty between the United States and Germany was signed it was the belief that Germans would flock to the United States in order to get away from the heavy burden of taxation imposed by the reparation demands of the Allies. Contrary to this expectation statistics of the Bureau of Immigration show that only 12,522 Germans have been admitted to the United States since July 1, 1921. Under the 3 per cent quota law 68,039 Germans are admissible to this country during the fiscal year ending June 30, 1922.

"It takes many thousands of marks to pay for the passage to the United States," said Commissioner Hubban, "and unless the matter is financed in this country, as is the case with some nationalities, it is almost impossible for the average German to raise the required amount."

"It is evident," continued Commissioner Hubban, "that the Germans in this country are not financing many operations to bring their brethren and friends from the Fatherland to the United States."

Kind Left Behind. Officials pointed out that many of the Germans now in this country had

come here "en famille" and had left few relations in the old country. This is not the case with a number of nationalities, including the Russians, Poles, Italians, Greeks, Hebrews, Syrians and others. The latter left many blood relatives behind when they emigrated to the United States, and most of the trouble of the immigration bureau in administering the 3 per cent immigration law are due to the efforts of these people to bring in their relatives when the quotas of the countries whence they originate are exhausted.

The countless appeals to the Secretary of Labor to disregard the law and let in these penniless immigrants make the problem not only heavy in the extreme but one continual tug at his heart. "Hundreds of these new arrivals have relatives already in this country who are ready to move heaven and earth to get me to act in my official capacity and let in some especially worthy or distressing case," said Secretary of Labor Davis, in discussing the problem.

"Naturally, in the eyes of these aliens themselves and in the judgment of their relatives, every case among them is that especially worthy or distressing case," he added. "Of course, some of these cases are genuinely distressing. Wherever I could I have stretched a point. It has been my aim to administer the law humanely and let the doubtful alien stay with us wherever it was possible

**THE RAIN**

Across the furrowed field,  
The stalking crow  
Plucks up the sprouting corn;  
Sedately marches, row on row,  
Then flaps into the dripping woods  
To mourn.

It rains.  
And o'er his lazy fire  
The invalid sits with low  
An fretful cures for his pains;  
And in his peevish mood  
Bewails the wet and gloom.

High in a little turret-room  
A lonely heart laments  
Beneath the eaves.  
The slow, still drops  
Strike 'gainst the pane;  
The dull drab drags on.  
The sad heart grieves and grieves,  
Shut in with loneliness and rain.

Deep down in coloring woods  
It rains.  
And all the little bluebells  
Lift their thirsty lips.  
And every thirsty fern sips,  
Joyously, the gift of life;  
While all along the lanes  
Each tiny blade of grass tells,  
Rapturously, the blessing,  
Lo! it rains.

—Jane Groome Love.

The above verses which appeared in the April number of Pictorial Review, will be of especial interest in Greenville people, as they were written by Mrs. Jane Groome Love, formerly Miss Ruth Jane Groome, who taught French in the local High School a few years ago. Mrs. Love will be favorably remembered by numbers of people who became attached to her because of her friendly disposition and charming personality.

**The Expert Personnel of  
Our Corset Section**

Nothing is easier to give than advice  
Few things are harder to give than good advice.

—and good advice is one of the things women seek when there is a new corset to be purchased.

The personnel of our corset department comprising a group of expert corsetiers whose special training and experience in fitting qualifies them to advise with the utmost reliability, expresses our keen recognition of this responsibility to our patrons.

A visit to our corset section will serve to acquaint you more fully with the advantages of scientific fitting and the possibilities it offers for comfort and a better figure.

Your visit at this time will be particularly opportune as you may now see our first complete showing of the very newest spring models.

**Thousands of Masons to Hold Meeting in Winston Salem**

(Continued from page one)

Greensboro, is Grand High Priest of the Grand Chapter of Royal Arch Masons. John H. Anderson, of Fayetteville, is most illustrious Grand Master of the Grand Council of Royal and Select Masters. Raymond C. Dunn, of Enfield, is commander of the Grand Commandery of Knights Templar. All of these high officers have been putting forth every effort possible to make the coming meet the greatest in the history of Masonry in the state and their efforts already appear to be crowned with success.

On a recent visit to Winston-Salem Grand High Priest John P. Phoenix and Grand Commander R. C. Dunn met the executive committee and the chairmen of all the other committees and carefully went over all plans for the meeting.

Grand Commander Dunn has visited all commanderies in North Carolina during the past few months and he has furnished an itemized estimate of how many Sir Knights are coming from each commandery, the total being well over 1,000.

Reduced rates will be given on all railroads. A special train of Pullman cars is coming from the eastern part of the state. Other Pullmans will be attached to regular trains arriving from all parts of the state. There will probably be other special trains of Pullmans. Large delegations from nearby cities will come in automobiles.

**BIG JAIL DELIVERY AT GOLDSBORO LAST NIGHT**

Goldsboro, April 3.—Twenty-five of the 28 prisoners confined in the Wayne county jail escaped early tonight as a result of the biggest jail delivery in this section in many years. An investigation after the delivery tended to show that an automobile truck was seized in assisting the prisoners to escape. Two of the 25 who made their escape were being held on charges of burglary at Kinston recently.

to be a mystery. It appears that Cox was not intoxicated. The shot was fired when a friend of Cox was asked to have a colored girl come out of the dance hall to talk to him and she was not the girl he wanted to confer with. Cox had previously been ejected from the place by those in charge. Cox fled following the shooting but later surrendered to officer Bursell and was locked up in jail. Little hope is entertained for the recovery of the girl.
