FIRST DISORDER REPORTED TODAY IN STRIKE ZONE

Wires Carrying Current to the Mines in Pennsylvania Cut by Miners

POLICE CALLED OUT TO DISPERSE CROWD GATHERED AT MINES

Another March of Strike Breakers Expected to Bring Disorder Today

Pittsburgh, April 5.—First disorders in the western Pennsylvania coal district were reported from Fayette and Washington counties this morning, where, the authorities, stated, high tension electric wires, carrying current for coal mines, coal mines, had been cut, and a detail of the state police had been called out to disperse a crowd endeavoring to induce non-union men to leave their work.

The fifteen state troopers who have been on strike duty in Fayette county will be reinforced before nightfall, it was announced in Uniontown.

First indications that mine property had been attacked was found at the Mathers Mine in Washington county, across the Monongahela river from the Fayette field. High tension wires of the West Penn Power Company, providing the plant with power, were cut and the miners who reported for work, were compelled to return home.

Underground wires of the trolley system which carry the men of the Maxwell mine in Fayette county to their work also were cut, and the cars were unable to operate.

The state police were called from their station at New Salem and dispersed a large body of men who had marched to the Palmer mine from Masontown. The authorities said the strangers were endeavoring to induce the men who did not belong to the union to quit work. After stated.

Another march today was on the Lambert mine of the H. C. Frick Coke Company by a large party of men said to have moved from the Leckrone and Edenton mines of the same company, which were closed by the strikers late yesterday. The Lambert men, it was reported in Uniontown, refused to join the march and continued at work.

HAMLESS, JOINTLESS, TALESS TWO LEGGED HOG ON DISPLAY HERE

Mr. C. C. Barfield, of Mount Olive, disabled ex-soldier, has a large automobile truck stationed on the Munford lot at Five Points, containing one of the greatest freaks in the way of a pig ever before seen in this city. The animal is a Red Duroc Jersey, weighs approximately 170 pounds, has only two legs, no hams, no hip joints nor tail. His two front legs and legs are perfectly natural, but in the rear of the body where the other two feet should be, there is nothing but the body. The animal has been trained to such extent that he will get up and walk around in his home on wheels after being urged by his master.

Mr. Barfield is one of the many soldiers who contracted tuberculosis during the war. He is making a tour of the country with his pig giving exhibitions in practically all towns. He will remain in Greenville the rest of the week.

New York gunmen have started their spring target practice. Three dead and several wounded the first day.

CONTINUE SEARCH FOR MISSING NEGROES IN FREIGHT TRAIN WRECK

Birmingham, April 5.—Search has been renewed for bodies of two unknown negroes believed to have been buried in the wreck of a Birmingham Southern freight train which wrecked yesterday near Pratt City as result of a broken rail. Officials say Harvey Smith, conductor and W. O. McRae, traveling engineer were killed.

Some people imagine a run runner in an intoxicated sprint.

Daytona, Fla., April 5.—To protect themselves against theatre owning organizations operating in the south forty-seven men controlling fifty-two Florida theatres have formed an 'independent producers' association, it was learned here today.

JUDGE SAYS DIVORCES SHOULD NOT BE FINAL FOR AT LEAST ONE YEAR

By JUDGE THOMAS F. GRAHAM, (Written for the International News Service).

San Francisco, April 5.—The present law denying the final or true decree of divorce until a year shall have elapsed after the granting of the temporary or interlocutory decree works excellent results. It blocks the impetuous "affinity" marriage, giving the erring couple time to realize what they are doing and the penalty of flying into the face of decency. Since in the meantime the action may be discussed at the motion of the plaintiff, it affords a year's time in which past grievances may be forgotten.

A part from its contradiction, selfishness, cowardly baseness and cruelty, divorce is to be condemned because it leads to the decadence, the shame and destruction of the family. Marriage is the bond that holds the family together. It is the foundation and the rampart of the family. Divorce sunders this tie, shatters this foundation and overthrows this rampart; and as a last consequence, degrades society, if it does not ruin it entirely.

Dissolution of Family. The very word divorce implies the dissolution of the family. Now, the living bond of the family consists in the conjured union of a man and of a woman. From this union the family emerges and becomes an integral part of society.

The perpetuity of the family lies in the permanence of the union of the spouses. Take this permanent union and the family dissolves, breaks up and perishes. Chaos and anarchy reign under the roof whence unity and stability have flown.

And divorce brings about this very effect. It dissolves permanent unity, untwists the foven cable that holds

BELHAVEN NEGRO RUSHED TO JAIL AT CAPITAL CITY

Negro Charged With Criminally Assaulting Woman in Safe Keeping

Washington, N. C., April 5.—Edward Dillis, colored, was brought to this city yesterday afternoon via automobile by Deputy Sheriff C. B. Jordan and A. B. Wallace. The negro will be carried to Raleigh on the afternoon train and placed in the state's prison for safe keeping.

Dillis is charged with criminally assaulting Mrs. Samuel Williams, who resides with her husband near Belhaven on the Dr. Mariner farm.

While the crime is alleged to have been committed last Thursday morning near the home of Mrs. Williams, the real facts did not come to light until yesterday morning when a warrant was issued for Dillis and his arrest followed.

When the crime was supposed to have been committed Mrs. Jordan, being of a nervous temperament, refrained from telling her husband of the affair. Nothing that his wife appeared to be excited and ill and he began questioning her so closely that she gave her husband enough information for him to have a warrant issued for the negro.

When the negro was taken to Belhaven and after hearing threats being made the officers decided to bring the prisoner here and thence to Raleigh where he will be confined in the penitentiary until his trial.

FIRE DEPARTMENT CALLED TO EXTINGUISH BURNING GRASS EARLY LAST NIGHT

The fire department was called to Greenville Heights last night to extinguish some burning grass on a vacant lot. The fire whistle blew number 41, but the indicator at the station registered only 31. Going by the indicator, the fire truck went to box 31 but no fire was in evidence. Thinking that a mistake had been made somewhere they raced on to the vicinity of 41 where the burning grass was found.

together the little domestic fraternity, and loosens the chain that binds conjugal society. Divorce, then, is dissolution, rupture, schism, which, sooner or later, brings about the total ruin of the family.

Shatters Family Basis. Divorce not only sunders the family bond but shatters the family basis. Duty is the basis of domestic order, as it is of public order. If this elementary idea be removed the family is left foundationless. To say that divorce is sanctioned by some laws and consecrated by some religions is to say that duty is powerless to sustain the family and to govern souls.

To proclaim liberty of divorce is implicitly to proclaim that duty is secondary, and that sentiment is the prime essential for the family. In effect, sentiment, sensibility and emotion, laid down as a rule and supreme explanation of marriage, are advocated in all those disclosures and books that boldly preach the unlimited facility of divorce, and that insolently declare that marriage is a servitude, and that duty is a tyranny. Such doctrines make marriages depend upon chance or passing whim.

COMPLETE PLANS FOR JUNKING BATTLEMENTS CONDEMNED BY POWERS

Washington, April 5.—Details of plans to scrap battlements condemned by the armaments conference are nearing completion by the special board of naval officers. Assignments are said to be staggering to industry, as it is estimated that eight hundred thousand tons of ships will be reduced to metallic junk.

ANOTHER SPLENDID SERMON DELIVERED AT CHRIST CHURCH

Dr. Edwards Spoke on Heavenly Vision in Services on Yesterday Evening

SONG SERVICES LED BY THE POLLOCKS SPLENDID FEATURE

Services to Begin Every Evening Promptly at Seven-Forty-five O'clock

Another splendid crowd last night attended the series of revival services which have been in progress at the Christian church since last Sunday morning, and again heard Dr. Edwards deliver one of his most powerful sermons. The music, which was led by the Pollocks, proved another big feature of the evening, and was joined in heartily by the large congregation.

Dr. Edwards used as his scripture lesson a part of the 26th chapter of Acts, using the 19th verse as a basis for his theme, from which he chose the "Heavenly Vision" as his text.

He brought out the character of Saul of Tarsus, when Jesus came unto him and said, "Saul, Saul, why persecutest thou me. It is hard for thee to kick against pricks."

At this point Dr. Edwards showed where Jesus revealed the Heavenly Vision unto Saul, who at that time was anything but a man of God, and it was not until these things had been revealed unto him did he become a consecrated follower of Christ.

He brought out the fact that it is necessary for all men in every walk of life to have great visions, especially men engaged in great branches of industry where strength, courage and resource are requisites. He told of the strong personality of Paul after Jesus had revealed these things unto him, and said it is the duty of everyone to except the teaching as the humble Saul.

The light of the Heavenly Vision, Dr. Edwards said, penetrates the lives and souls of men and causes them to find themselves in relation to God and man. The need for the vision was never greater than today, as it helps everyone to grapple with problems easier than ever.

The Heavenly Vision causes one to recognize the voice of duty, and to be able to live a higher plane of life. He closed the sermon by making a powerful appeal to church members to listen to the call of the Heavenly voice and to do everything possible to live by the teachings of Christ.

Services will be held at seven forty-five each evening, and at seven-thirty a short prayer service in interest of the revival is held by members of the Christian Endeavor society.

CAPTURE LARGEST STILL EVER BUILT IN FLORIDA IN PROHIBITION RAIDS

Jacksonville, Fla., April 5.—Colonel Nutt, who is in charge of Florida prohibition enforcement, after conferring with Florida East Coast railway officials, said he was pleased with arrangements to stop the liquor traffic from the coast, in a report to Washington headquarters. Colonel Nutt reported the capture of the largest still ever seized in this section.

BRITISH GOVERNMENT CALLS ON ALLIES TO CASH IN IMMEDIATELY

London, April 5.—Great Britain has notified all debtors among the allies that she expects an early effort towards payment of war loans due her, it was learned today. The British pointed out that they were in need of money to pay the United States.

MRS. R. R. COTTON TO BE HOSTESS TO WOMAN'S CLUB

Even if Friday will be a busy day every member of the Woman's Club is urged to go to Cottendale. The hostess will have all her arrangements made for an early dinner and excuse all those who desire to hear Dr. Barker, in time to reach home before the speaking. Those that do not have a way to go are requested to report at the meeting tomorrow and a way will be provided. It is a great treat to spend the day at Cottendale.

L. L. KITTRELL DIES FOLLOWING LENGTHY ILLNESS

Funeral of Well Known Citizen Held at Ayden This Afternoon

Mr. L. L. Kittrell, about 65 years of age, prominent citizen of Ayden, passed away at his home yesterday afternoon after being stricken with apoplexy the day before. Mr. Kittrell had been, in declining health, however, for the past year or so and death was not unexpected.

The deceased was one of the best known men of the county, having lived in this section practically all of his life. He was prominently identified in business and political circles of Ayden, having served as mayor in a most efficient and satisfactory manner several years. It was during his administration that Ayden experienced its most remarkable growth, voting bonds for the establishment of water, light and sewerage systems, and other improvements.

Mr. Kittrell was connected with many branches of business during his life, but during the past two years he was forced to retire almost entirely from active service. He was held in the highest esteem by hundreds of friends throughout every section of the county, who will regret to learn of his death.

Funeral services were conducted from his home at Ayden this afternoon, interment being made in the Ayden cemetery.

Surviving him beside his wife are three daughters and five sons, Mrs. B. G. Taylor, of Ayden, Mrs. R. T. Cox, of Winterville, Mrs. Allan Cannon, of Ayden, and Messrs. Leon, J. B. and Ola of Greenville, Wilbur, of New Bern and Linwood of Ayden.

SENATE COMMITTEE FAVORS OPERATION AT MUSCLE SHOALS

Agricultural Committee Approves Bill Providing for Seven Million Dollars

(By International News). Washington, April 5.—The senate agricultural committee today approved the bill providing approximately seven and a half million for immediate resumption of work at Muscle Shoals.

The bill will be offered as an amendment to the army appropriations measure, and contains provisions for permitting immediate use of the appropriations.

Senators informed regarding the issue said work would be started within a month after the appropriation has been authorized.

"This action can't be interpreted as opposition to acceptance to be Ford offer," Senator Harrison, of Mississippi said. Senator Norris, of Nebraska, said the committee felt that to delay resumption of work would cause heavy loss to the government.

YOUNG WOMAN SHOT IN MOUTH WHEN PISTOL IS ACCIDENTALLY FIRED

Nashville, Tenn., Apr. 5.—Shot in mouth accidentally when her fiancé, Lucian Woods knocked a revolver to the floor, discharging it, Roberta Young may yet live through a delicate operation. Her speech, however, will be impaired forever because part of her tongue was shot away. Woods is in the same hospital with Miss Young, suffering from prostration.

In the Canadian beauty contest judges selected Miss Muriel Greer, of Montreal, as the fairest daughter of the Dominion. She is just sixteen and now is in New York looking things over in the highest city in America.

SENIOR PLAY TO BE PRESENTED AT COLLEGE IN APRIL

"The Merchant Gentleman" To Be Presented After Easter

The Senior Play at East Carolina Teachers College this year will be "The Merchant Gentleman," a French farce comedy, one of the finest, richest comedies ever written. It will come in April, soon after Easter.

Adele Gutman Nathan, manager of the Lyric theatre in Baltimore, who coached the play last year and the one three years ago, will coach the play this year. She will arrive next week and begin regular rehearsals. The Seniors have been busy, the cast is selected and the girls are learning their parts so that when she comes everything will be ready for putting the play across.

The play is different from anything ever given in the school. It is the most popular one by that greatest of all comedy writers, Moliere. It is that rarest of combinations, broad farce humor and romantic beauty with spectacular effects.

The star comedian from the class seems to have been born for the part she is to play. In the try-outs there was no question whatever as to who would take the part of the Merchant Gentleman himself. Others in the class seemed to fit as well as the characters in the play.

The class and members of the faculty have organized themselves into committees to work in co-operation to make this the most successful Senior play ever given in the school.

WOULD SUPPLANT STRANGE BELIEF ON THE CHILD BIRTH OF THE NATION

New York, April 5.—To aid in dispelling one of the most tenacious and group of superstitious beliefs the world has ever known—those pertaining to child birth—the Maternity Centre Association is inaugurating in New York a campaign for the benefit of the entire country.

Through education it is hoped to acquaint mothers everywhere with the real factors determining the life and health of mothers and infants. Through research more facts will be given to science for the benefit of women preparing for motherhood. The Maternity Centre Association is regarded as a leading authority in the United States on matters of maternity protection. The routine or method of nursing procedure, it has worked out is widely accepted as the standard. Mrs. Mabel Choate, daughter of the late Joseph H. Choate, is president of the association. Practically every large hospital in New York county is represented in its medical advisory board.

To Fight Superstition

The superstitions surrounding maternity are dangerous, the association feels, because they affect mother and baby lives. Thousands of women in this country, it is said, are relying upon tales that have come down from the middle ages. These beliefs must be supplanted by knowledge of the appalling mother and baby death rate in the United States to be cut down. Take the old idea of "marrying" a baby through an unscientific craving on the part of the mother. If a woman longs for strawberries, for example, and does not get them, the supposition is that the child will be born with a strawberry mark. Scientists declare there is no relation between cravings and birthmarks. They do assert, however, that worry and fear and anger exert most unfavorably upon the baby that is to be.

KNIGHTS TEMPLAR PLAN PILGRIMAGE IN WINSTON SALEM

Greenville Drill Team to Open Commandary at the State Meeting May 10th

GRAND COMMANDER TO BE IN THE CITY ON 14TH OF APRIL

Commander to Drill With Local Team in Readings For State Meeting

Members of the local organization of Knights Templar are busy these days preparing for the pilgrimage to Winston Salem May 10th. A drill team composed of twenty-four men is drilling regularly every night in preparation for the great meeting, as it will be their honor to open the Commandary at Winston-Salem. This is an honor the entire lodge is proud of, and that they will make a great showing goes without saying.

Members of the local order will leave Greenville in two palace cars at 7:40 o'clock on the morning of May 10th, arriving in Winston-Salem at five o'clock. Immediately after their arrival the drill team, under the direction of J. H. Waldrop, who has the drilling in charge, will prepare for opening of the Commandary.

Mr. R. C. Dunn, grand commander of Knights Templar, will be in town,ville April 14th for the purpose of taking his part in the drill. The day he is here will probably be one of the most important of the entire drill period, as the boys will make an effort to show up to the very best advantage while being viewed by the state commandary.

While only 24 men are participating in the drill, the local lodge has a total of sixty members. Greenville is represented one hundred percent strong at the Winston-Salem meeting, which means that every member will make the trip. The Commandary was granted permission here only a few months ago, but since the time has been granted by leaps and bounds.

Drill work will continue at Robinson & Foxhall's warehouse every night until 8 o'clock or so before the meeting at Winston-Salem. During the final days the boys will be busy for training, but the meeting, and it's a sure bet they will make a showing there, especially when performing the opening of the Grand Commandary.

CONGRESS WAITING TO CORNIE WITH COAL NEW

Washington, April 5.—Congress is waiting in response to a message from coal operators to begin congressional overtures to a peace meeting with striking miners. The lower house committee continued to insist that conditions

are dangerous, the association feels, because they affect mother and baby lives. Thousands of women in this country, it is said, are relying upon tales that have come down from the middle ages. These beliefs must be supplanted by knowledge of the appalling mother and baby death rate in the United States to be cut down.

Take the old idea of "marrying" a baby through an unscientific craving on the part of the mother. If a woman longs for strawberries, for example, and does not get them, the supposition is that the child will be born with a strawberry mark.

Scientists declare there is no relation between cravings and birthmarks. They do assert, however, that worry and fear and anger exert most unfavorably upon the baby that is to be.

Wednesday, April 5th, 1922

The Republican senate is endeavoring to sidetrack Henry Ford's offer for Muscle Shoals, claiming the government should not dispose of the nitrate plant to any private individual.

John L. Lewis, president of the miners' unions in this country, predicts higher prices of coal after the strike is concluded. The public expects that, in fact, most everyone knows the strike is a result of operators to increase prices, although they are making earnings that would put them behind the bars if officials could prove it on them.

It is gratifying to note that crime in Greenville is nothing compared to other cities of similar size throughout the country. One cause of this is the vigilance of the police department in rounding up certain kind of criminals classed as vagrants. Idleness is one of the most direct causes of crime.

Work in widening Dickson Avenue is making splendid progress at the present time, and in the course of a few weeks the public will have the pleasure of seeing the improvements completed. This street is probably used to a greater extent than any other in the city, and it is pleasing indeed to know that next tobacco season will find relief desired so long.

The public will be gratified to learn that freight rates are to be investigated in the southern states. How long the south has been forced to pay exorbitant rates is not to be said at this time, but it would seem it has been forever. Railroads claim they are not paying expenses, but if they aren't now, then they can't expect to do so in the future when the country is connected with a splendid system of hard surfaced roads.

With county farmers should look after their orchards this week, according to an announcement sent out yesterday from the office of W. B. Pace, farm demonstration agent. Spraying fruit trees and other things necessary to the life of the orchard should take place this week and farmers interested in having plenty of fruit this summer should give their trees the required attention.

Where the New Bern afternoon paper obtained its information that Tarboro would not join and did not want to come into the East Carolina League, we are unable to say, but at any rate, we are very glad to be able to inform the people of this section of the county. Throwing out information of a false nature, as was done by the New Bern paper tended to offend making Tarboro feel that she was not wanted and came near making a falsehood a truth.

pects, and the unlikelihood of their own city getting into the league that they had nearly reached the decision that they were not wanted. However, the reaction came and resulted in Tarboro wanting to join the league more so than ever. With Tarboro practically assured as the sixth club in the East Carolina League, we feel relieved, as we wanted the Edgecombe city in the line-up of clubs.—Kinston Morning News.

LET'S HAVE IT AGAIN.

The commencement day exercises held in Greenville Monday brought thousands of people in town, and that they saw things they didn't expect to see goes without saying. Each school had been working for some time in an effort to make a commendable showing in the various contests, and results of their efforts were surprising. The county should make the commencement an annual occurrence. It produces a spirit of competition between the schools that should be beneficial in many ways.

SHOULD THE GOVERNMENT INTERFERE?

The miners are trying to make it appear they are ready to return to work at any moment. While this may sound all right, not many people believe they really desire to do what they say. If they did, they would accept present wages and go back to the mines without a murmur. It is of course tough to work and at the same time be aware of enormous profits by the operators. But what the operators are earning shouldn't trouble the miners. So long as production continues the country will not suffer, but when it stops the situation is likely to be serious.

But an inquiry is necessary. First, because the miners contend the operators are earning excessive profits, and because if they are they should be prosecuted. It is only just the miners should strike for higher wages, knowing as they do, the operators are getting everything out of what they produce.

The thing for the miners to do is return to work and demand the government to make a searching investigation of the situation, and abide by such findings. This, we believe, is the quickest and most satisfactory way of improving conditions, although the miners may feel they are sacrificing something in doing so. The sacrifice, however, is small in comparison to what the country must inevitably suffer.

Conditions are serious enough as they are, but deception as to the coal supply will make them even more so. What we want to do is to convince the miners they should return to work, get them to do so and then deal with the operators and excessive prices, the cause of the walk-out.

WOMAN IN MOURNING FOUND TO BE CROOK. New York, April 5.—Brooklyn detectives are searching for the queerest crook, a woman who wears mourning and speaks several languages. Meeting her has been an expensive luxury to numerous "victims." She admits, upon approaching strangers, that she doesn't reside in Brooklyn and asks to be shown to a certain number on some street. Unsuspecting "Samaritans" who have accompanied her have been put to sleep by "knockout drops" in liquor and then robbed.

UNITED STATES IS FAR IN THE REAR OF EUROPE ON ITS ARMY EXPENSES

For Every Dollar America Spends France Spends Seven And England Four

By HARRY L. ROGERS, International News Service Staff Correspondent.

Washington, April 5.—For every dollar per capita which the United States is spending today on her army France is spending seven and Great Britain is spending four, according to figures made public by the general staff of the United States army.

Figuring the population of the United States at 106,418,000 and the amount expended on the army at \$343,155,33, War Department officials estimate the per capita expenditure at \$3.22. This contrasts with \$22.52 per capita for the French army, \$12.35 per capita for the British Empire forces, \$7.70 per capita for Italy, and \$3.38 for Japan.

Considered from the point of view of national wealth, the United States is far in the rear of other nations of the world in the amount expended for the military establishment. With an estimated wealth of \$350,000,000,000, the United States is expending ten hundredths per cent upon her army, while the British Empire, with an estimated wealth of \$800,524,500,000, is spending .45 per cent; France, with \$100,000,000,000, is spending .93 per cent; Italy, with \$0,000,000,000, is spending .82 per cent, and Japan, with \$25,000,000,000, is spending .7 per cent.

1920 is to be carried out, the report of the general staff says: "Any further reduction in the enlisted strength will at once force a decision as to which of the missions of the army must be altered, curtailed or abandoned altogether."

Officials of the war department are particularly concerned over suggestions that appropriations for the continuance of instruction to the National Guard and the Reserve Corps, both officers and enlisted personnel, of the army be heavily slashed. If these appropriations are cut down, they contend, the whole spirit of the National Defense act, which they regard as the first definite statement of military policy for the United States, will be lost, and the whole value of the experiences of the world war will be dissipated.

KING'S DAUGHTERS HOLD INTERESTING MEETING

The Patient Circle of the King's Daughters held their regular meeting with Mrs. Hortense Moye last evening at her home on Evans St. A large number of members were present and a most delightful evening was spent.

Mrs. Moye, the president, presided and conducted the devotional service. She read a poem "Service" which was enjoyed.

After the business session, in which many matters of importance were disposed of, Miss Louise Hubbard gave an interesting account of the welfare conference of social service which was recently held in Greenville.

Five new members, Mrs. R. A. Tyson, Jr., Mrs. Banks, Mrs. J. L. Little, Mrs. J. H. Boyd and Miss Nannie Bowling, were welcomed into the circle with an appropriate service conducted by Mrs. R. Williams. Miss Bowling was made reporter for the year.

The hostess assisted by Misses Clara Louise Moye, Virginia King and Mary Forbes served refreshments.

SUN FLOWER SEEDS SELL AT \$0,000 ROUBLES A GALLON IN STARVING RUSSIA

(By International News): Moscow.—The sun flower seed is the chewing gum and the peanut of Russia.

Wherever you go you will see some one with a pocketfull of these black seeds. People are always munching them. They are as thick as parrots in splitting the seeds with their teeth and swallowing the soft interior and spitting out the hulls.

The sun flower seed has always been a national habit in Russia, just as chewing gum and peanuts have been in America and in these days of food scarcity and enormous prices it has become a staple diet. There is only a very small amount of nourishment in these little black seeds, but they provide some bit and help to deceive the stomach into thinking it has had some real food.

Walking along one of the principal streets of Moscow, where everyone is trying to sell something, from wood and furs and cigarettes to samovars and embroidery and black bread and ragged boots, one will see many old women with baskets of sun flower seeds and small tumblers to measure them out for the purchasers.

The customary price observed in Moscow is 50,000 rubles a tumberfull. In the old days this would have been \$25,000, but now it is worth approximately five cents.

In the vast famine area of the Volga there is not a sun flower seed left. Everything that a human being can possibly put in his mouth and chew has been used for food. Elm bark has been found one of the most satisfactory food substitutes, for it does not make one sick to eat it.

In one town on the Asiatic border of Russia where the American Relief Administration men were working they saw muddy slime being sold on the street for food.

MISSISSIPPI WOMAN IN RACE FOR U. S. SENATE

(By International News): Peishatchio, Miss., Apr. 5.—Mississippi's first woman Senatorial candidate, Miss Belle Kearney, of Flora, who is campaigning for the United States Senate in opposition to former Senator James K. Vardaman and Hubert D. Stevens, is expected here soon to speak in behalf of her candidacy.

She began an active campaign some time ago, with Mrs. John A. Clark, of Jackson, as her campaign manager, and is considered a gifted woman of much learning.

Miss Kearney is the daughter of Colonel Walter G. Kearney, famous as an officer in the old Eighteenth Mississippi Regiment of the Army of

If the rain shrinks me adjust me back to normalcy. I am the "SURE-FIT" CAP. Always adjustable to "normal" head comfort. I'll bet that President Harding wears me when he plays golf. If he does, he knows that I am fitting company for even the "head that wears the crown". He knows I can be made tighter for the windy days at Chevy Chase; or loosened up for real head-ache after a "windy" session with Senator Lodge! My whole secret is in a simple invisible, adjusting strap—like your belt. (Illustrated below.) Yes Sir: I'm your exact head size—no matter what your size is. Spring Corset Showing Prepare yourself for a most agreeable surprise when you inspect our Spring Corset Showing. We have gathered here for your approval the best and the newest of the foremost makers. Prominent in this collection are examples of the new "phantom" type. Some of these corsets are so light and flexible that they can almost be drawn through a finger ring. Skillful design in them has taken the place of heavy boning. The materials used are lighter, the boning is more flexible, and fewer bones are used. Properly fitted these corsets will support the figure perfectly, keep their shape, and wear as long as any corset you ever had. These models may be had in various qualities and a wide range of materials. Our expert fitters to have made a special study of fitting these new models. The natural and pleasing effects that skillful fitting can bring out with this type of corset causes us to predict for it a wonderful vogue. Corset Section C. Heber Forbes

Lost Voice After "Flu"

(By J. B. Ball, D. C., Ph. C.)

(Wednesday Health Talk No. 14)

After the "flu" there invariably follows some weakness. The lungs may be weakened. Perhaps there is a bronchial trouble. With some a heart flurry is noticed. Quite often the kidneys are affected. Usually when there is loss of voice, the loss is permanent unless the victim turns to chiropractic (Ki-ro-prak-tik) spinal adjustments.

UNCLE BEN SAYS:
"If you're sick, Nervy, there's no day like the day you get well."

HEALTH FOLLOWS
CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:

HEAD
EYES
EARS
NOSE
THROAT
ARMS
HEART
LUNGS
LIVER
STOMACH
PANCREAS
SPLEEN
KIDNEYS
BOWELS
APPENDIX
BLADDER
LOWER LIMBS
Spinal Column
THE LOWER NERVE UNDER THE MAGNIFYING GLASS IS PINCHED BY A MISALIGNED JOINT. PINCHED NERVES CANNOT TRANSMIT HEALTHFUL IMPULSES. CHIROPRACTIC ADJUSTING REMOVES THE PRESSURE. THE UPPER NERVE IS FREED AS NATURE INTENDS.

When there is a noticeable chronic weakness following the "flu" it is a clear indication of a primary weakness, something that is interfering with the transmission of mental impulses by way of the spinal nerve openings at the spine. By chiropractic (Ki-ro-prak-tik) spinal adjustments this disorder of the spinal vertebrae is righted, and the spinal nerves freed of pressure deliver 100 per cent volume of mental impulses.

Lost Voice Comes Back

"In the first place I want to apologize for not showing that I appreciate what you did for me before the Christmas Holidays.

Today I talk and sing and my voice is perfectly natural again, and I want to thank chiropractic (Ki-ro-prak-tik) for this. I am indeed grateful to you for my present condition."—Mrs. G. D. Murray, Chiropractic Research Bureau Statement No. 1310H.
