FIFTY KILLED AND HUNDRED INJURED AS RESULT OF TERRIFIC STORM AND FLOODS SWEEPING THROUGH ILLINOIS

Millions of Dollars in Property
Damage Also Reported
Today

**HUNDREDS HOMELESS
AS FLOOD CONTINUES
TO INCREASE IN FURY**

Scores Also Reported Killed
Much Damage in State of
Indiana

Chicago, April 18.—Fifty persons are known to be dead, more than three hundred injured and hundreds homeless as result of the most severe storm and flood that has visited this section in fifty years or more. Property damage alone is estimated at millions of dollars, and the toll continues to increase with every report received here.

The flood danger continued to increase rapidly today. Beardtown and other towns of Illinois, are menaced by swollen streams and rivers, which threaten to break the levee of the Mississippi south of here. Tremendous pressure is reported by the floods sweeping from the north.

TWENTY KILLED IN INDIANA
Twenty persons are reported to have been killed and more than a hundred injured and more than a million dollars in property damage from the storms that swept across Indiana yesterday.

**LEWIS GEORGE SAYS
RUSSO-GERMAN TREATY
SHOULD NOT BREAK
GENOA CONFERENCE**

Genoa, April 18.—"I can see no reason why the Russo-German treaty should break up the conference," declared Lloyd George to members of the International News Service today. He wouldn't discuss the issue any further, but it was learned from a member of the British delegation that Lloyd George believes he can continue even if the French bolt the meeting.

ROAD PAVING IN AYDEN IS BEING PUSHED FORWARD

\$225,000 to be Spent in Improving
Streets of Thrifty
Town

The road paving project for the city of Ayden is being rapidly pushed forward. Thursday of this week will see the gutters and the curbing work started and within a short time the actual work will be well on towards completion. In all \$225,000 will be spent by the city and some \$20,000 by the State Highway commission.

R. G. Lanier Co., of Oxford, has the contract for the paving. In all three miles of concrete base, asphalt surfaced roads will be built. All of the streets will have wide stretches and no street will be less than 24 feet in width. The state will pave the five blocks, which constitute the portion of the Greenville-Kinston road, a part of the state-county connecting highway system. Those five blocks will be paid for by the state entirely, but the gutter and curbing work will be charged against the property holders and the city.

By early fall, the whole street system of Ayden will be completed, it is expected and another town, nearby to Kinston, will have a fine system of streets. The city will then be one of the smallest towns in the state with modern, up-to-date roadways. Ayden, suffering in the past with sand and poor streets, will come out of the sand and mud and renewed progress will be the result for this enterprising little Pitt county community.

WOODROW WILSON HAS NOT RETIRED FROM POLITICS

He May Be Sick, But Hasn't
Forgotten Senator Reed's
Recent Opposition

(By International News)
Washington, April 18.—Woodrow Wilson, although sick hasn't retired from politics and has no intention of so doing. This fact stands out in solid relief as result of Wilson's letter to a St. Louis newspaper scathingly taking to task Senator Reed, standing for re-election.

The letter was interpreted as meaning that though retired from the political spotlight, it is not Mr. Wilson's intention of forgetting his political enemies. He has shown himself ready to sustain allegiance to any period or cause.

The feud between Wilson and Reed, almost continuous through the eight years of Wilson's administration, became still more bitter when Reed opposed the league of nations, which at the time was the pet subject of the president.

STATE DRAINAGE ASSOCIATION TO BE IN GOLDSBORO

President J. H. Small Urges
Largest Attendance at
Next Session

The North Carolina Drainage Association will hold its next meeting in Goldsboro on April 28th and 29th. The drainage problem is so important particularly in Eastern North Carolina, where there are so many areas of wet land, it is hoped that a large number of intelligent and progressive citizens will attend this meeting.

Drainage is important, not only for our un reclaimed and cut-over lands, but also for lands in cultivation. There are many hundreds of farms, some of which have been cultivated for many years, which are uncertain in crop production because of insufficient drainage. Every wet season means reduced crop production, and not infrequently entire destruction of growing crops. As a rule these farms cannot be drained independently but must unite with other landowners in construction of large canals to a common outlet in order to secure cheap and effective drainage. This carries with it the necessity of organizing drainage districts under the general drainage law.

The existing depression in agriculture, which by the way is nationwide, should not operate to curtail unduly this drainage movement. Drainage is essential for crop production.

The North Carolina Drainage Association which was organized in 1908 has been a large factor in the progress of the state. More than half a million acres of cut-over swamp lands have been drained and thereby increased the taxable wealth of the state by many millions of dollars.

This good work must be continued by the same progressive methods. Full information may be obtained by writing Col. Joseph Hyde Pratt, director, Chapel Hill, North Carolina.

MANY ACTIONS TO FEATURE IN COURT HERE THIS SESSION

Several Important Actions to
Be Heard During Two
Week Term

The regular April term of Pitt county superior court for the trial of criminal cases opened in this city yesterday morning for two weeks' session with Judge F. A. Daniels, of Goldsboro, presiding. The docket contains many cases of more than ordinary interest, including the second appearance of Bonnie Andrews, young white man of the Stokes section, sentenced to the electric chair last December for alleged assault on Estelle Briley, twelve year old school girl. Andrews will face the court this time for reduction of sentence. The case will probably come up next week.

Judge Daniels' charge to the grand jury yesterday morning was most impressive and forceful. He said it was unnecessary for him to go into detail concerning law enforcement. Every member of the jury should know what the law requires. Commensurate, he declared, should be used in every case, as it is this that is necessary in every issue, whether in court or elsewhere. His charge was brief, and urged the jurors to enforce the law as they see it.

Quite a number of cases were not pressed during the day's hearing. About thirty persons appearing on charge; of failure to dip their cattle as required in this county were included in the nol pros proceedings. The others were of minor importance, or had been pending consideration from term to term without anything definite being accomplished.

Buther Dunn, Drema Teel and Ernest Randolph, white men residing on the other side of the river, charged with stealing automobile tires from the Thomas store, were given hearing. Dunn and Randolph being found not guilty. Teel pleaded guilty at the outset, but Judge Daniels failed to render a decision in his case during the day, sentence being withheld until later.

The grand jury for this term is composed of E. W. Braxton, Lonnie Smith, D. J. Branch, J. W. Turnage, W. S. Hudson, Noah Baker, E. S. Hobgood, J. J. Stokes, S. I. Dudley, A. G. Thigpen, J. C. Gardner, V. E. Staton, Furney Smith, J. A. Griffin, E. B. Thomas, C. W. Lancaster, A. M. Wooten, W. S. Galloway.

SENATOR SIMMONS SAYS TARIFF BILL WILL TAX PEOPLE

Public Will be Taxed More by
Proposed Measure Than
Ever Before

(By International News)
Washington, April 18.—People will be taxed by the new tariff bill even more than under the present revenue bill, Senator Simmons, of North Carolina, member of the finance committee declared today.

He asserted the measure will be more of a "manufacturers bill than the notorious Payne Aldrich law" and that the farmer will wake up as soon as he finds he has been handed a gold brick despite the claim that the agricultural rates will benefit him.

**AMERICA NOT TO
ATTEND ANY MORE
BIG CONFERENCE**

Washington, April 18.—Hints of allied statesmen that a second international gathering may follow the present conference has fallen on barren ground, especially so far as the United States is concerned. It has been made clear in administration quarters that the government has no intention of participating in further conferences at the present time.

GERMAN TREATY WITH RUSSIA IS A GREAT SURPRISE

Action Causes Profound Surprise
and Resentment
Among Allies

**SIGNING UNKNOWN
TO MEMBERS OF THE
ALLIED COMMISSION**

Situation Said to be so Critical
That Opinions Are
Withheld

Genoa, April 18.—The signing of a treaty between Germany and Russia which nullifies the Brest-Litovsk treaty and reestablishes full diplomatic relations between those two countries on a basis of equality, has caused profound astonishment and resentment among the allied delegations. The ministers of the powers which convened the conference decided at a meeting held tonight to have a committee of experts examine this treaty tomorrow morning, to determine whether it conflicts with the Cannes resolutions or the treaty of Versailles.

Subsequently the convening powers will meet with Poland, Czech-Slovakia, Rumania and Jugo-Slavia to ascertain the views of the lesser powers and deal with the report of the experts.

The British and French delegates declared tonight that they considered the signature of the treaty a disloyal act. Apparently it may imperil the conference.

It is stated that the signing of the treaty, which took place at Rapallo yesterday, was unknown to the allied leaders, when Lloyd George, Barthou, Schanzer and Thomsen met this afternoon to consider the treaty which the Russians might make to the conditions imposed on that country, but as soon as the delegates learned of the treaty, their program was changed, and the situation, which is considered extremely grave, fully discussed.

M. Barthou, head of the French delegation, is seeking further instructions from his government at Paris, and declared that he would not sit beside Russians in semi-official meetings, while M. Colrat, French under-secretary of state, speaking to the correspondents, said: "I have taken all necessary measures to cancel the meeting of the third commission, over which I preside, as the members of the present one do not want to sit on the same commission as the Germans and Russians."

The only rent a tramp has is in his pants.

Now is the time to begin resting up for a vacation.

SCHOOL TEACHERS ENJOY PICNIC ON BANKS OF THE TAR

College and Public School
Teachers Included in The
Gathering Yesterday

A jolly picnic crowd composed of the teachers of East Carolina College and the city school teachers who live at the Vines House went down the river yesterday on the boat "Annie Fair." They left early in the morning stopped at Grimesland and Washington a little before noon and spent two and a half hours there. They then came back to the seine beach at Grimesland and had a fish fry, coming home at the hour to see the sunset on the river, reaching Greenville about dark.

The day seemed ideal for the trip as it was just cloudy enough to prevent a glare. There was nothing to mar the pleasure of the day. Mr. G. A. Justice had charge of the boat and did all in his power to make the trip agreeable.

SPLENDID SERMON FEATURES REVIVAL AT CHRIST CHURCH

Dr. Edwards Delivers Powerful
Sermon on the "Old Hitching Post"

Dr. Edwards last night delivered a particularly interesting and forceful sermon at the series of revival services now in progress at the Eighth Street Christian church, using as his subject the "Old Hitching Post." He addressed himself almost directly to members of the congregation, driving home his message in a way that carried more than usual force and power.

Dr. Edwards at the outset read the seventeenth verse of the third chapter of Exodus and the fifty-seventh verse of the ninth chapter of Luke upon which he based his theme. He said so many people get into the church and stop right there. Without the proper Christian-like environment thrown around them, the ordinary person finds himself ready to go back to the old hitching post, where greed, jealousy and sin predominate. A man can't stand still and live the proper kind of Christian life. He must push out and take hold for God. He used numbers of illustrations to prove his subject, and brought out many points of more than ordinary significance to his hearers.

Dr. Edwards made an earnest plea that the people turn away from the old hitching post of sin. There is only one life, and that is the way blazed by Jesus Christ and his followers. To follow him, the old way must be abandoned, and things found at the hitching post must be given up.

The song services were another feature of the services last night. Mr. and Mrs. Pollock sang probably as they never sang before, and the congregation joined in spiritedly.

The revival will continue probably a week or ten days longer, it was announced Sunday, and it is believed the closing day will see even greater interest than heretofore.

MANY KILLED IN TERRIFIC STORMS WESTERN STATES

Property Damage Today Estimated at More Than
\$40,000,000

**RIVERS AND STREAMS
COMPLETELY FLOODED
BY DOWNPOUR OF RAIN**

Dozen Persons or More Reported
Killed in Colorado
And Kansas

Indianapolis, Ind., April 18.—Twenty-one persons met death and more than 100 were seriously injured in a series of wind and electric storms which passed over Indiana today. Property damage was estimated at more than \$41,000,000.

Communication means are meagre tonight, railways and highways are flooded and it is believed the deaths and property damage may be higher when more complete details are available.

Heavy rains continued in all parts of the State today and in more than a dozen instances high winds developed into tornadoes, leaving death and ruin in their wake.

Relief was being rushed to stricken districts tonight. Most of the damage was in rural districts. Farms, trees, silos and homes fell before heavy winds and hundreds of acres of wheat were damaged by high water. There was scarcely a single business street that was closed in Indianapolis tonight. Flood stages resulting in high winds of 1918 were reported from several points.

Two belts were struck by tornadoes. In Southern Indiana they were no loss of life, north of Indianapolis, however, from Danville, Ind. to Springfield, Ind. the stormy tornadoes killed several persons.

MRS. NATHAN TO DIRECT PLAY FOR TEACHERS SCHOOL

Manager of Baltimore Theatre
Already Here Getting
Things in Shape

Mrs. Adele Gutman Nathan, manager of the Little Lyric Theatre of Baltimore is the coach of the Senior play, "The Merchant Gentlemen," which is to be given on the 22nd of this month.

Mrs. Nathan is well known in Baltimore by the wonderful work she does in the Little Lyric Theatre for children. The Little Lyric Theatre is for the amusement of children and is an especially arranged theatre inside of the great Lyric Theatre. Five plays are put on by the children a year under Mrs. Nathan's supervision.

Mrs. Nathan is a graduate of Goucher College, Baltimore and has spent several summers at John Hopkins.

It might be of interest to know she was the only woman that spoke at the conference in Philadelphia in favor of theatres for children.

This is Mrs. Nathan's third year as coach of the Senior plays at the College. The plays given under her management here were, "A Thousand Years Ago," and "Monsieur Beaucaire," and both were great successes. The present Senior class feel indeed fortunate to have been able to secure her for their play this year.

**ANTI-COOPERATION
WON THE DEBATE**

On Friday April 7th the Halifax and Dawson Schools of Halifax County held a debate. The subject was "Co-Operative Marketing of Tobacco versus Auction Sales of Tobacco." The Dawson school representing the negative side won the debate. Great credit is due Miss Virginia Perry for the able manner in which she presented her argument against co-operative marketing.—Wilson Times.

Trouble expected in Ireland Easter
didn't happen. Another case of cross-
ing the bridge before it is reached.

Business is rounding the corner
towards better times, so we are told.
But after it gets around, what are
we to expect then.

Republicans figure on splitting the
senate in the tariff issue now up be-
fore them. But figuring isn't doing
it by a long ways.

New York is planning to launch a
great campaign against the criminal
element. The campaign is all right,
is where the rub really comes in,
probably, but making proper arrests

Miners are not to blame for the
strike now in progress, according to
John L. Lewis, of the United Mine
Workers. No, they are not to blame,
probably, but then that's no excuse
for them walking out and subjecting
the country to one of the greatest
tempes the nation has ever known.

Pitt county tobacco growers should
not make the mistake of planting a
big crop this year, as there are many
things against them. The greatest
of these is the glutted condition of
crop would only accentuate the situa-
tion, and cause the farmer to lose to
a greater extent than ever before.

Russia and Germany it is pleasing
to note have come to terms regard-
ing future relations. They have
agreed to set aside existing debts be-
tween them, and to begin the future
on an equal footing. Germany no
doubt would be glad to have the al-
lies do the same thing.

The boll weevil menace won't be
quite so bad in Pitt county if advice
of the farm department is followed
by the farmers. Constructive advice
is being broadcasted in many differ-
ent ways by the department and
growers who take advantage of it
may rest assured of coming out at
the big end of the horn.

The public is watching develop-
ments in the coal strike as patiently
as possible, hoping against hope the
great tie-up will be brought to an
end in the near future. Statements
by the government that the reserve
supply is sufficient to last several
weeks yet are received doubtfully,
especially since others claim condi-
tions aren't quite so favorable. The
strike is to be developed in every sense
of the word, and the sooner it comes
to an end the better everyone will
feel about it.

Political leaders responsible for de-
feat of Henry Ford's plan to gain con-
trol of Muscle Shoals may have cause
to regret the part they have played,
according to a judge in another state.
That he is right goes without saying.
There are lots of people who believe
Mr. Ford could have done more with
the project than the government. And
those helping to defeat him may yet
have to incur public displeasure.

Greenville is to have a clean up
campaign this week, according to the
chamber of commerce and everybody
should get busy and help make it the
great success it is so deserving of. A
clean city is something everybody
should desire, but a certain amount of
hard work will be necessary in reach-
ing this ambition. Clean up while
the campaign is in progress and rest
assured of having done your part.

The epidemic of robberies and fires
we have been reading about so much
of late appear to have reached
Greenville. That they won't amount
to much is assured by the vigilance of
the police department and improved
fire department. The ban on va-
grancy is one of the greatest means
of keeping down robberies in Green-
ville and the public has the police de-
partment to thank for this.

That Greenville really lost one of
its best citizens in the death of Mr.
Ed. Harris is evidenced by the res-
olutions prepared by various insti-
tutions of the city. Mr. Harris served
the city and county in a sincere and
faithful way and those who came in
contact with him and learned of his
generous disposition really feel
stronger by having known him. The
loss of such a citizen is keenly felt,
but the knowledge of having pro-
duced such characters is a solace to
everyone who had an opportunity of
recognizing his true worth. His deeds
of kindness to those really in need
will be long remembered, and these
deeds have prepared him a place
where his reward will be in keeping
with his generous hearted dealings
on earth.

The Greenville fire department will
be about one of the most efficient
in the country when the new truck
is received. This information will
be received with pleasure on all
sides, as the present system is much
too inadequate. Adequate fire pro-
tection is one of the greatest assets
any town can have, and money spent
in this direction is properly appro-
priated.

One way to make an enemy is by
agreeing with a man when he says
he looks bad.

JAPANESE FLOOD SHANTUNG WITH SEVERAL TONS OF SMUGGLED OPIUM

Tons of Drugs, Degrading Vast Section of China, Swell Nippon's Profits

By EDNA LEE BOOKER, International News Service Staff Correspondent. Shantung shrld emfwyf; cfwy pp complete demoralization and hideous slavery as a result of the tons and tons of opium, morphine and cocaine which are being smuggled into the province via Tsingtao and the Shantung Railway by the Japanese.

Since the Japanese acquired Tsingtao and the Shantung Railway zone in 1914 immense quantities of drugs of all kinds have been shipped into China. So clever are the Japanese at the smuggling game that the Anti-Narcotic Society, with headquarters in Tientsin, and the International Anti-Opium Society, with headquarters in Peking, have launched nation-wide campaigns against the evil—but have been powerless to combat its influence.

The Japanese are making great fortunes by the illicit drug traffic, and the Chinese in Shantung and other provinces are sinking deeper and deeper into degradation caused by the ever-growing use of the drugs.

The smuggling of opium and morphine into Shantung is comparatively simple. Boats coming down from Dairen arrived at Tsingtao with great quantities of drugs packed away in the bowels of the ship. Perhaps the opium, if in the round, dryball stage, is hidden in the great Chinese wine jars which are sealed and labeled wine. Perhaps it is in bottles marked with the stamp and seal of well-known oil companies. If in the paste form the opium is very likely to be shipped in canned-goods cans. According to an officer of the International Anti-Opium Association, a can—say, of milk—is opened. The milk is poured out and the opium poured in, and the top is soldered so carefully that the inspector passes the cases and cases of milk without a second glance.

Arriving in Tsingtao it is placed in a Japanese "godown" and then shipped on the Japanese Shantung railway to stations all along the line, where the Japanese are said to carry on tremendous business in opium.

The Japanese in the tea houses, hotels, rag stores and barber shops sell the opium to the Chinese smugglers who flock to these stations, and they, in turn, sell the opium at a goodly profit throughout Shantung and nearby provinces.

A PROCLAMATION.

Whereas, the protection and perpetuation of our forests are vital to our continued industrial welfare and national strength, and to our individual health, comfort, and prosperity, and

Whereas, a period of fifty years has passed since, in April, 1872, there was instituted in the State of Nebraska observance of a day especially set apart and consecrated for tree planting, and known as Arbor Day, and

Whereas, both through widespread annual celebration of Arbor Day and through the increasing observance of Forest Protection Week public attention has been commendably directed to the value of trees, the unnecessary waste of our diminishing forests through preventable fires, the deplorable effects of forest devastation, and the need for remedial measures against depletion of an essential natural resource;

Therefore, I, Warren G. Harding, president of the United States, do urge upon the governors of the various states to designate and set apart the week of April 16-22, 1922, as Forest Protection Week, and the last day of that week, April 22, as the Golden Anniversary of Arbor Day, and to request officers of public instruction, of counties, cities and towns, and of civic and commercial organizations to unite in thought and action for the preservation of our

common heritage by planning such educational and instructive exercises as shall bring before the people the disastrous effects of the present waste by forest fires, and the need of individual and collective effort to conserve the forests and increase our tree growth for ornament and use. In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the City of Washington, this 31st day of March, in the year of our Lord one thousand nine hundred and twenty-two, and of the Independence of the United States of American the one hundred and forty-sixth.

OSER IS TIRED OF SENSATION GAINED IN HIS COURTSHIP

Swiss Riding Master Says His Sweetheart Must Come to Him, Soon

Zurich, Switzerland.—The courtship of 48-year old Max Oser and 16-year old Mathilde McCormick, granddaughter of John D. Rockefeller, is marking time for the present. Intimate friends of the former riding master say he is awaiting developments before making any further movement towards marrying the young Chicago heiress.

That Max is an independent wooer is indicated by the things his friends say about him. He is quoted by some of his intimates as saying that "I will take no further steps and that if Mathilde wants to marry him she should come to Europe to do it."

Major Oser—he was a major in the Swiss Army—has remarked to his friends that he is tired of the sensation that his romance with Miss McCormick has created. He wants to get on with the business. He has put all the furniture of his riding academy in storage and his favorite riding horses have been sent to Lucerne and Mangold. The others have been sold.

The Oser family is now the proud possessor of a motor car, a means of locomotion that was formerly held inferior to horses. The Osers have gone to Thun and later will leave on a long trip across Switzerland.

The American consulate states that Major Oser has not required a passport to the United States, thus refuting the report that he was going to America to put his request for Mathilde's hand up to the McCormick and Rockefeller families.

GERMANY SEEKS MADE SPURT IN RUSSIA DISTRICT
British Watch Tension Moves For Reviving Commerce Of Stricken Land

By DAVID M. CHURCH
International News Service Staff Correspondent.
London.—Germany is making most strenuous efforts to bring about a revival of trade with Russia, according to authoritative reports received here.

Numerous German organizations have been formed for the purpose of reviving Russian trade, and the operations of these organizations are being anxiously watched in British trade circles. One of the organizations created in Germany to bring about a Russian trade revival is the German Trust for the exploitation of Russia, headed by K. Muller, which is understood to be seeking American support.

One of the most important developments reported here is the conclusion of an agreement between the German Aero Union, the Zeppelin interests and representatives of Soviet Russia for the exploitation of aerial lines between the two countries. An aerial line is shortly to be inaugurated between Konigsberg, in East Prussia, and Moscow.

Seek Control of Ports
The German-Russian Navigation company has been created in Berlin by the Soviet delegation with the Hamburg-America line to control the Baltic ports. The Hamburg-American interests, the Stinnes group, and the British firm of Armstrong have formed a syndicate for the exploitation of Petrograd port, a concession for which has been promised by the Soviet government. It is proposed to transform Petrograd into a free port. German banks are in closest negotiations with the Soviet State banks relative to the extensions of credits, and it is reported that there are deals now in progress which may result in huge mining concessions on the part of Russia to Germany.

THINKS NEW YORK MEN TURN MONEY MARKET AS LIKED

Railroad Economist Charges Financiers With Controlling Things

SAYS MORGAN & CO. AT APEX OF PROJECT IN NEW YORK CITY Financial Conditions Troubling Railroads Instead of Operation

(By International News.)
Washington, April 17.—The economic destiny of the United States is directed by an "inter-industrial railway and banking combination" with power to stimulate or suppress industrial activity, Jett Lauck, consulting economist of the railway department of the American Federation of Labor told the Senate Interstate Commerce commission today. He placed blame of the present plight of the roads on financial rather than operating end and declared the control of railroads, manufacturing mining and finance credit centered, around a small inner group of New York bankers and financiers with Morgan & Company at the apex.

BETTER HOMES IDEA IN UNITED STATES BACKED BY HARDING

Plan to Educate People Into Having More Artistic Environment

(By International News.)
Chicago.—President Harding has given his personal endorsement to the movement inaugurated by the American Homes Bureau for a national "Better Homes Week" to be instituted next October as an annual event. "It gives me special pleasure," wrote President Harding, in reply to a letter from William B. Wreford, "to record my endorsement and approval of the 'Better Homes Week.' It may be trite, but it is everlastingly true that the home is the cornerstone of our civilization. Better homes, more attractive homes, homes whose occupants will find true refreshment and real inspiration to increased efforts for education and culture—such homes are the ones which assure the greatest stability to our institutions, greatest security to our society. I cannot but feel that the effort you are making is one which deserves a wider projection, and I would be glad if your example might presently be an inspiration to a nation-wide enterprise of the same kind."

The idea back of the "Better Homes Week" movement is to educate the American people to make the home beautiful and thereby create a home environment that will have a lasting cultural influence upon the nation. It is planned during the week set aside for the purpose to demonstrate in exposition and exhibits of model rooms and homes in towns and cities throughout the country the facility with which even people of small means may make their homes harmonious and attractive.

ANOTHER WAREHOUSE DECIDES TO CONTINUE

Rocky Mount, April 15.—As the result of action taken yesterday at a lengthy session of the stockholders, the Planters warehouse will be open for the sale of leaf tobacco at auction next fall, according to announcement made this morning. The decision was reached at a meeting which lasted several hours and which at times it is stated by those who attended the session, at times became spirited. This decision, members of the tobacco board of trade say, means that four warehouses under three managements will be operated here next season. These, it is stated, are Fenner's two warehouses, the Farmer's Mutual warehouse and the Planters' warehouse. Coper's warehouse is understood to have been tendered to the co-operative association, while any definite announcement is being held up in view of a pending sale which has been set for the near future.

FOREIGN RESERVE BANK TO STABILIZE MONEY OF EUROPE

Declares Genoa Conference Likely to Provide For Financial Ills

By J. BART CAMPBELL,
International News Service Staff Correspondent.
Washington.—While the Genoa Conference may prove useful in partly adjusting Europe's economic and financial ills, it is hardly likely to provide a permanent panacea for them until the irresponsible and haphazard monetary and exchange system prevalent in most European countries is thoroughly over hauled and re-established.

This is the opinion of Senator R. L. Owen, of Oklahoma, ranking Democratic member of the Senate Banking and Currency committee, and its chairman during the eight years of the Wilson administration. Senator Owen recently returned from a six weeks' visit to Europe for the purpose of studying its financial, industrial and commercial conditions and the possible application of them to a Federal Reserve banking system.

He has pending in the Senate a bill for the establishment of a Federal Reserve Foreign Bank. He was one of the authors of the legislation enacted during the Wilson administration for the creation of the present Federal Reserve system in this country. "Europe is improving," "It is true that Europe is steadily improving," said Senator Owen, "but it will take several years to get Europe back to full production. The dislocations of war have broken up tens of thousands of small business enterprises and have diminished the purchasing power of millions of people. Russia is at present almost entirely out of the market, and Eastern Europe generally is greatly weakened in the ability to buy.

"European industries were affected by the boycott in India directed by Gandhi. China is not buying European goods to the extent that it formerly did, but aside from these and similar conditions the worst feature of the European situation which I observed is the unwillingness and inability of many States to restrict their expenditures—to cut them down to their incomes. "And these States are paying their bills with paper money, which they print in an irresponsible manner. This paper is usually regarded as legal tender, as promises to pay, in gold, but without the possibility of redeeming it in gold.

"Found at a Discount. "Even the English pound sterling is not yet redeemable in gold. It is at a discount of about fifty cents, the French franc is also at a discount, in terms of gold, or about half; the German mark has gone down to a seventy-fifth part of its normal value; the Austrian crown to about a fifteen-hundredth part of its gold value; the Polish market is in a still worse shape, and the Russian ruble has dropped to a fifty-thousandth part of its gold value.

PUBLIC HEARINGS OF BONUS MEASURE PROMISE SUCCESS

Senate Factions Promise to put Issue Through if it is Possible

Washington, April 17.—With the public hearing of the soldier bonus scheduled before the senate finance committee Wednesday, administration forces will make definite attempt to carry out promise of enacting the bill at the present session of congress, it was stated.

The bill as passed by the house is likely to be changed by elimination of the last section, which authorizes issuance of forty million dollars worth of short term certificates expected to be funded from the interest paid on the British debt, it was stated. The fight is being watched with considerable speculation from all sections of the country, as its outcome will determine the future of many service men.

HOUSE PLANS TO TRY RECORD VOTE ON THE NAVY BILL

Enlisted Force of American Navy Biggest Issue to Come up

Washington, D. C., April 18.—Taking of a record vote in the house this week on the amendment to the navy bill increasing the enlisted force during 1923 from 67,000 to 86,000 was made certain today when Chairman Madden, of the appropriations committee and Representative Byrnes, ranking Democrat of the sub-committee which prepared the bill, announced themselves in favor of the bill.

"Regardless of the 47 margin by which the amendment was put through the House in committee of the whole Saturday," Mr. Madden said, "the issue involved is important enough to warrant a vote in the House proper."

Chairman Kelley, of the sub-committee in charge of the measure, already had made similar announcement. Half a dozen Republicans, aided by Representative Padgett, Tennessee, and Gallivan, Massachusetts, Democrats, who conducted the fight for the amendment, said they were agreed the vote Saturday would not be overturned. While the House was considering other business, which put the naval bill over until tomorrow, the factions for and against the personnel increase, were busy in lining up their respective forces. Members who were absent Saturday have been asked to return in time to vote.

The general opinion on both sides was that if the increase stands up it will be the figure to which the senate will agree.

When two lives are cheaper than one they feel that way.

CHRISTIANS MASSACRED

London, April 17.—A great fire and a massacre of Christians at Samsoun on the Black Sea coast of Asia-Minor were in progress nine days ago when the Italian steamer Barbita left there, the steamer's officers reported on her arrival at Patras, Greece, says an Athens dispatch to the London Times, dated Sunday.

Turkish nationalist bushi-bazooks headed by Turkish officers, surrounded the Greek quarter and set it ablaze shooting all who attempted to escape, the officers declared.

When the steamer sailed the large Greek church at Samsoun was ablaze and thousands of Greek women and children were rushing to the water front seeking refuge on steamers.

The Barbita sent a wireless message to an American warship in the neighborhood urging her to hasten to the rescue.

OLD CITIZEN IS CALLED TO REST

William H. Cox Suffers Fatal Stroke of Paralysis at his Home Yesterday.

Kinston, April 18.—William Henry Cox, aged 73, and one of Kinston's oldest citizens, died yesterday morning at 11 o'clock, following a severe stroke of paralysis earlier in the morning. The funeral will be conducted this afternoon at 3 o'clock, conducted by the Rev. Francis J. H. Coffin, rector of St. Mary's Episcopal church, and will be held from the residence at McLewean and Blount streets.

His death will be a distinct shock to his many friends, as he had been in apparently fine health up till the stroke. He arose yesterday morning in apparently fine health, but after the first coming of the paralysis he spoke to no one and finally died a short time later.

Mr. Cox was interested in the real estate business, owning several homes in Kinston. He had an office in the Spear Cycle Company, on Queen street, and was one of the city's most familiar figures. He was a farmer for many years. Several years ago he suffered a similar stroke and has been paralyzed in one side ever since.

The following survive—his wife, a son, Robert Cox, connected with the Kinston post office department, and daughter, Mrs. Mark Mewborn, with the T. W. Mewborn Company store. He was a man of fine character and known to a very large number of people in this county and in Eastern Carolina. He was a native of Pitt and had lived here since 1897.

Ed. Note—Mr. Cox will be remembered pleasantly by Greenville people, having been in business in this city several years ago. News of his death will be received with profound regret.

FAIRMONT WAREHOUSE TO SELL AT AUCTION

Fairmont, April 15.—Fairmont will this season sell tobacco at auction as has been the custom for many years. Likewise will Lake City, S. C., another of the largest and most successful markets in this belt. It has just been learned that the local warehousemen and Fairmont Tobacco Board of Trade are assured of a full corps of buyers from the leading manufacturers and exporters.

The Imperial Tobacco Co., Ltd., has made extensive repairs and improvements to their plant here and according to authoritative statements will operate their drying plant as usual here this season.

"When hubby plays golf and wifey plays bridge they only meet on payday."

NO, I HAVEN'T SOLD THE DARN THING YET.

Everybody I meet ask me, "Carter have you sold that Ford?" I have been going around with a hang-dog look, feeling just like a fellow that was trying to sell second hand Fords, only wasn't selling them. I quit going to any of the nice places in town where I might meet my friends, like Burney's or Key Brown's Drug Stores, because it is embarrassing to have to answer that question. No, I haven't sold the Darn Thing Yet.

Not very good language, but good enough for a tin can full of noise that won't sell with this much advertising.

And let me tell you something, this Two-Twin Lizzie I am offering for \$268.31 is a darn good little jolt wagon. What is the matter with the buying public any way? Some one in Greenville must need a cheap ride. Is it the 31c war tax I have added, or is it Dave Whichard's bum advertising that scares you off?

I have spent all the time and money I can afford to sell a Ford. I have some other used cars a whole lot better than this Fireless Cooker which I must advertise.

I got to use this space to tell the folks that we are going to have a few more of the New Buick Fours coming in next week because over one hundred people have asked me about this Buick that delivers for \$1065.00 in Greenville.

Then again, my tire man says if I will give him this space he will offer that good Yoke tire at a price

that will sell some, and he knows for that Yoke tire can't be beat. I have decided to give this space to Henry Ford's little daughter, Lizzie for one more day, and then if she does not sell, and insist on making the Hines Motor Co. her permanent home, I am going to insure her up to her ears with Brownie Smith and send her to the happy hunting grounds from which no female gasoline hound ever returns. I have one more scheme I am going to try tomorrow.

Miss Hortense Higgs Entertains.

On Monday afternoon at her home on Dickinson avenue, Miss Hortense Higgs delightfully entertained a number of her friends. The house was appropriately decorated with spring flowers. Music lent an added charm.

Four tables were arranged in the library for book, and upon each there was a light colored basket filled with diminutive candy Easter eggs. After several rounds of spirited play, table prizes of Colonial Josephs were presented to Misses Lillian Joyner, Margaret Cone Tucker, Allen Critcher, and Helen Joyner. A delicious ice course was served, the cream being in the unique design of Easter lilies.

Mrs. Manning will leave for home this afternoon accompanied by her son, G. D. Manning.

"SATURDAY NIGHT" IS WORTH SEEING ANY NIGHT

Cecil B. DeMille's Big Paramount Production Causes Confusion in Studio.

Cecil B. DeMille's big production "Saturday Night" was finished one Wednesday night. Sounds a bit confusing, doesn't it? But from the time Mr. DeMille announced the title of his latest Paramount picture, confusion was the order of the day around the Lasky studio at Hollywood, Calif.

"What are you doing Friday night? one actor would ask another. "I'm working on 'Saturday Night'!" "I don't care what you do Saturday night. I am talking about Friday night."

WAR PLANNED TO ROUT RENT HOGS OF THE COUNTRY

Federal Legislation Will Be Sought Against Home and Mortgage Sharks

By WILLIAM K. HUTCHINSON
 International News Service Staff Correspondent.

Washington.—The "tenant's bloc," centering its efforts on legislation favoring the man who pays rent for his home, is being formed in the senate for war on rent hogs. Senator King, D., of Utah, leader in recent legislative tilts on behalf of district of Columbia tenants, probably will lead the new affiliation.

The "bloc" now in its infancy, will seek legislation outlawing the padding of mortgages, stricter laws governing the marketing of second mortgages and interlocking directorates in real estate and construction companies.

"Pitiless publicity for rent hogs" is one of the slogans which the champions of rent payers will seek to have broadcast. The department of commerce has already taken steps under direction of Secretary Hoover to curb excessive rents in many communities, but the "bloc's" chief efforts will be directed more toward men engaged in the construction of homes.

A shortage of 1,000,000 homes throughout the country, it was stated, has brought the building need to a crisis. Remedial legislation to protect the man building a home or at least monetary aid in paying construction costs are set forth as the two most imminent needs.

Profiteering in Mortgages.

Senator King has declared that profiteering in mortgages on new homes has done more to prevent resumption of building than any one other thing.

"There are real estate companies in which the directorships are the same as in affiliated construction companies," said King. "The mortgage given by the real estate company to cover the construction company's costs is many times as much as 100 per cent more than its true value. These inflated mortgages are discounted, the contractors and promoters split their profits and the man who gets the mortgage is caught. He can never realize on the paper he holds. In many instances I have personally found that the interest and discount on these mortgages amount to 50 per cent of the physical cost of construction. In other words, a building which can be erected for \$10,000 has mortgages on it for \$15,000. Eventually the man holding the second mortgage finds his paper worth only half as much as its face value."

King declared that a movement was under way to organize second mortgage companies for handling building paper for people desiring to build their own homes. Such companies, he added, would need Federal laws to protect them. It is for this purpose the "tenant's bloc" is coming into existence.

PLANS ARE URGED TO MAKE FARMING MORE PROFITABLE

Warehousing, Marketing and Credit System Advocated To Bring Benefits

(By International News).

Washington.—Concrete suggestions for placing the business of farming on a basis of permanent economic strength and of bringing about uniformity in the sale and distribution of farm products are given by Representative Hutton W. Summers, of Texas, to his agricultural colleagues in congress.

These are:

1. That agricultural products be standardized with reference to requirement for use as distinct from equipment for future board transactions, so that such considerable quantity, possessing distinctive characteristics determinative of the use for which it is best adapted, shall be given a separate grade term.

2. To have a warehouse system under uniform regulations where these commodities may be graded, stored and have receipts issued for them which will carry a general assignable guarantee as to physical protection, title, quantity and grade.

3. To have a marketing agency through which these standardized commodities may be sold by their respective grade classification and through which perishable commodities may be sold by telegraphic communications and delivery effected from the warehouse of original or secondary storage.

4. An adjusted credit system supplementing but not supplanting existing credit-extending facilities, so as to make possible a longer time credit at fair interest rate when necessary to carry commodities for orderly marketing.

5. The co-ordination of all these so that they may function as a unit in facilitating the sale and distribution of farm products.

Relatively unimportant expansion, development and adjustment of existing facilities, says Summers, is all that is required to put into operation the reforms he suggests. The government would be required to adjust its activities in a field long occupied by it to meet new conditions which have developed.

NOTICE—SALE OF VALUABLE LAND.

Nervous Women Destroy Happiness

(Tuesday Health Talk No. 16)
 (By J. B. Ball D. C.)

Women apparently are more given to "nerves" than men, though women have no monopoly of the trouble. The woman who has suffered a nervous breakdown is irritable lacking in strength or reserve, and apparently always about to give out. The condition is often the cause of much family discord for which disease rather than the woman should be blamed. A nervous breakdown often is directly due to irritating pressure on spinal nerves to the stomach and the solar plexus region. Other points of irritation are usually found.

UNCLE BEN SAYS: "Provided there's health, Nervy, old people have sweet memories and young folks pleasant anticipations, and that is what makes life wonderful."

The chiropractor adjusts the joints of the backbone that are causing this irritating pressure back to their normal position and the relief that is experienced enables the victim to relax and sleep, often this sleep is the first really restful sleep since the inception of the disease. Recovery is always slow, but with the irritating pressure removed, there is a chance.

Suffered with "Nerves" for Eleven Years

"About fifteen years ago my health broke down completely. I gave up school, in fact everything. Every doctor of medicine within twenty miles was consulted and treated me. But I remained a nervous wreck. Four years ago I tried chiropractic (Ki-ro-prak-tik). There was a change from the start. Today I am enjoying work and health. I want to commend chiropractic." (Ki-ro-prak-tik) — Miss Emma Johnson, Chiropractic Research Bureau, Statement No. 1312H.
