France is faced by a serious problem
in marketing her potential cotton
surplus. She isn't in the boat by
herself either, as America sees, to
have a surplus hard to get rid of.

Official Washington says conditions
are improving rapidly, and also that
prices are climbing upwards in several
cities. We like the improvement,
but trust they can hold prices down
some what.

The visible improvement in the
employment situation will be received
with interest in all parts of the country
as it denotes better times.
Factories and other large industries
operating at full time the old
mass complainer must feel he
has played a losing game. People
ought to be ashamed to complain in
a prosperous country like this. They
ought to get down to work and see how
their view of things will change.

BY KENTUCKY CO-OPERATIVE ASSOCIATION.

Outlook is Bright.
After thorough discussion of the
outlook, with a review of sales already

prospect, the directors were told
that they could assure their constituents
that those who had joined the
association would receive more
net money per pound for their tobacco
than those who refused to join,
besides paying expenses and the
payments on the warehouses which are
to be deeded to the association by
June 15th.
