MRS. L. R. MEADOWS DIES FOLLOWING A LONG ILLNESS

Funeral Services Will Be Conducted at Her Former Home in Darlington, S. C., On Wednesday

Mrs. Leon R. Meadows, died at her home in this city on Monday evening after an illness of several months. Funeral services will be conducted in Darlington, S. C., on Wednesday, May 13.

Mrs. Meadows, formerly Miss Lida Hill, was born on April 5, 1890, a daughter of Dr. and Mrs. A. M. Hill, of Darlington, S. C. She was educated in the Darlington City Schools, and was a graduate of the Peabody Conservatory of music, Baltimore, Maryland. For five years she was head of the Department of Music of the East Carolina Teachers College, giving up this work in 1918 to enter Red Cross work during the World War. On September 3, 1919, she was married to Professor Leon R. Meadows, head of the English Department at the East Carolina Teachers College. As a member of the Emmanuel Baptist church, she has been most active in every phase of the church work and as long as health permitted she always attended its services.

Since coming to Greenville several years ago, Mrs. Meadows has endeared herself to a host of friends. While a member of the faculty of the Teachers College she was very popular with the hundreds of students who were members of her classes and her strong personality and strong Christian character made her a most beloved member of the faculty of that institution.

During the world war when she gave up her work to enter the Red Cross service, her unselfish disposition and sympathy for the suffering endeared her to everybody with whom she came in contact.

Mrs. Meadows will be greatly missed and her passing has caused much sorrow throughout this and adjoining states where she is well known.

The deceased is survived by her husband, three children, Leon, Jr., Elizabeth and May, her parents, Dr. and Mrs. A. M. Hill, of Darlington, S. C., one sister, Mrs. E. Harrison, of Jacksonville, Fla., and five brothers, Mr. Carl Hill, of Tampa, Fla., Mr. Harry Hill, of Philadelphia, Mr. Arthur Hill, of Clarkdale, Miss., and Drs. C. C. and A. M. Hill, of Darlington, S. C.

NEW PROCESSES MAKE MILLING LOW-GRADE ORE PROFITABLE

Seattle. — Ten years ago mining companies had to send ore valued at \$10 a ton of more to the mill to receive a profit, but new methods make it possible to mine and mill ores at a small fraction of the former cost. Falcon Joslin, a Seattle mining operator, has explained the innovations. "New milling methods permit the working at a profit of low-grade ores that are to be found throughout certain sections of the United States in almost unlimited quantities," said Mr. Joslin. "A large gold mining company operating near Juneau, Alaska, is taking out and milling gold ore at a net cost of 49 cents a ton, and expects within a year to reduce the cost to 40 cents. This demonstrates the practicability of working low-grade ores that have not been regarded as worth development."

ENGLAND LETS CONTRACTS TO IMPROVE AIR DEFENCE

London. — Contracts have been placed by the air ministry for ten new airdromes in various parts of the country. These are part of the amplified scheme of air defense and will be equipped for the use of squadrons of day and night fighters and long-range bombers. The plans now being developed provide for a series of zones of defense. Immediately around London is to be a ring of airdromes provided with every new device to facilitate night-flying. From these airdromes squadrons of steel-built fighters for the defense of the capital will be sent up.

FRENCH CABINET APPROVES MINISTER BRIAND'S NOTES

One Replies to German Officer of a Security Pact While Others Lay Requirements for German Disarmament

Paris, May 12.—The French Cabinet today unanimously approved Foreign Minister Briand's two notes, one replying to the German officer of a security pact, and the other laying the requirements for German disarmament before the Cologne Area will be evacuated.

These principal demands are supposed to be such that they can be executed within a few months so that Cologne might be evacuated as soon as, or directly after, the Ruhr. Supervision of German Armament would then be turned over to League of Nations, which is prepared for the task.

Little is known of the terms of the direct reply to the German Security Pact proposals. The French have been steadily against allowing Germany any loop hole for a change in her eastern boundaries, so it is believed here that M. Briand's reply will be along those lines, although calculating to keep the subject alive pending developments.

SAYS FRANCE MUST BE PREPARED MAKE HEAVY SACRIFICES

Caillaux Declares That Three and One Half Billion Francs Must Be Raised to Balance 1925 Budget

Paris, May 12.—Finance Minister Caillaux announced today that the Dawes plan annuities that revert to France must be used for completion of the reconstruction of devastated regions and is the amortization of inter allied debts under some form to be determined later. He will make a statement to the Finance Committee of the Chamber in outlining his finance plans. Caillaux declared that three and one half billion francs must be raised to balance the 1925 budget, and he added that France must be prepared to make heavy sacrifices, which he hoped would be only momentary.

President Coolidge Will Not Attend Charlotte Celebration

Washington, May 12. — President Coolidge has found it impossible to arrange for his attendance in the Mecklenburg County Celebration to be held at Charlotte, N. C., on May 20, in honor of the 150th anniversary of the Declaration of Independence by that county. An official delegation to represent the government, however, will attend.

STARS LESS SCARCE THAN COMPETENT FILM EXTRAS

Hollywood, Cal. — Fifty thousand applicants for positions in motion pictures present to studios a great problem in the selection of competent, experienced extras, B. P. Fineman, studio manager, declared here. Many, unused to work before the camera, often spoil expensive scenes which have to be discarded.

A plan has been evolved, Fineman said, whereby the extra problem will be solved, at least for his studio. He has arranged to guarantee groups of 50 experienced extras at least 12 days' work a month.

Few extras average more than six or seven days' work a month, Fineman asserted. The great problem of the beginner in the film game is to get enough to pay bare living expenses. Leads and minor roles are cared for by experienced actors, competent to fill their roles, thousands of which are available, but the extra is the greatest casting problem of all.

Young Orators Received at White House

PRESIDENT COOLIDGE and YOUTHFUL ORATORS

The finalists in the national oratorical contest held at Washington, D. C., made a round of the capital's places of interest, starting at the White House, where they were first received by Mrs. Coolidge and then by the President, who posed with them on the lawn. Left to right with the President are: Philip Glatfelter, of Columbia, Eastern champion; George Stansell, of Chicago, Central States champion; Miss Asenath Graves, Washington champion; Miss Flora Longenecker, of Ilion, N. Y., Northeastern champion; Max Kroloff, of Sioux City, Ia., Midwestern champion; E. F. McElmeel, Pacific champion, and Robert Sessions, of Birmingham, Ala., the fifteen-year-old champion scholastic orator of the United States and a "born orator" since his ninth year.

TRIAL OF MONTAGUE IS NEARING ITS CLOSE

The Victim of Attack, Through Interpreter, Testifies Against Negro; Case Expected to Go to Jury This Afternoon

Morganton, May 12.—Taking of evidence was concluded shortly before midday in the case against Arthur Montague, a negro, charged with an attack against a thirteen year old deaf and dumb inmate of a local orphanage. The child was put on the stand today and testified through an interpreter that she was awoken on the morning of April 24, by a negro, who placed his hand on her mouth. Physicians testified that the negro had attacked her. Montague told the jury that he did not remember anything after he left the dance on the night of April 23, admitting that he was intoxicated at the time. The negro was found in the child's bed on the morning of April 24. The case is expected to go to the jury this afternoon.

Epworth Leagues to Launch Special Social Service Campaign

Nashville, Tenn., May 1.—With a slogan "Say it with Service," Epworth Leagues throughout the territory of the Methodist Episcopal Church, South are planning to launch a special social service campaign at all Epworth League assemblies during this summer, it was reported today to the General Epworth League Board meeting here by the Rev. R. E. Nollner.

Mr. Nollner stated in his report that practically every League chapter and union is now carrying on some form of social work and it had been planned, following the summer gatherings, to make an intensive study of this subject.

As director of the summer assembly for Western Epworth Leagues, held each August at Mount Sequoyah, Ark., Mr. Nollner reported that 250 had attended the 1924 session. He added that many features of the gatherings which proved to be attractive and beneficial would be repeated in 1925. He also reported encouraging results from the campaign for new buildings at the Mount Sequoyah retreat.

Woman's Club Holds Interesting Meeting

The Woman's Club held a very enthusiastic meeting on Thursday May 7th. In the absence of the president, Mrs. H. E. Austin, vice president, presided. Mrs. L. H. Bowling, as treasurer, showed us very plainly the need of a club house, whereby we might have some place to raise funds to swell our treasury. All standing committees, without one exception, show that our club is taking on new life. We hope the women who are not members of the club will see the good work that is being carried on and come out and join us.

REGARDS DISCUSSION OF DEBT SETTLEMENT AS END "NEGOTIATIONS"

President Coolidge Hopes Discussion of French Debt Will Lead to Plan for Refunding Agreement

Washington, May 12.—President Coolidge regards the discussion, on the French debt settlement now in progress in Paris and in Washington, as having at least ended the stage of "negotiation," a term applied in diplomacy to describe only definite and concrete international conferences.

The President hopes that the conversations this time will lead to some definite plan for a refunding agreement, although it is apparently too early to make public predictions whether this hope is to be realized.

White House and other officials would not say today whether they regarded the statement made by Finance Minister Caillaux, to the French Parliamentary Finance Committee, as indicating that the negotiations had entered a more definite phase.

ELECTRIK MAID BAKE SHOP DAMAGED BY FIRE THIS MORNING

Mr. Tom Ricks Suffocated By Smoke, Receives Painful Burns

Mr. Tom Ricks is suffering from burns which he received early this morning when the Elektrik Maid Bake Shop was badly damaged by a fire of unknown origin. Mr. Ricks, the only occupant of the bakery at the time, was suffocated by the smoke and as the fire company arrived he managed to reach the front entrance and fainted. He is suffering from burns about his arms, hands and the left side of his body.

Just how the fire originated is not known. Baking was in progress and Mr. Ricks in an effort to check the flames was over come by the smoke. The fire company responded quickly. It is estimated that the damage will amount to between \$1,500 and \$2,000, partially covered by insurance.

The Bake Shop was visited by a second fire at noon today but it was discovered and extinguished before much damage resulted.

Not Willing to Hamper Permanent Policy in Muscle Shoals Property

Washington, May 12.—President Coolidge is not willing to make any temporary disposition of the power product of Muscle Shoals Dam until it is shown that by so doing he will not hamper the establishment of a permanent policy which the government can follow in its dealings with this property, it became known today.

FRENCH HERO OF VERDUN DIED TODAY

Charles Mangin Was One of the Military Leaders in Repelling German Invaders During World War

Paris, May 12.—General Charles Mangin, the French hero of Verdun, died today.

Charles Marie Emmanuel Mangin was born on July 6, 1866, and was one of the military leaders who proved a bulwark in strength for France in repelling German invaders during the world war.

Shortly after the outbreak of the world war he was placed in command of the Fifth Infantry Division, and later of the Eleventh Army Corps. His temporary rank as General made permanent just before the brilliant attack on Verdun in October, 1916, which resulted in the recapture of the Germans, of Fort Douaumont. Later he became involved in a bitter controversy, which followed the costly victory on the Aisne in the spring of 1917, and was deprived of his command of the Sixth Army. The commission of inquiry, however, exonerated him from blame, and he was reinstated by Clemenceau in July 1918 in conjunction with General De Goutte. He carried with the great counter offense against the German right flank, which brought the first of the final series of ally victories. He was one of those who favored the creation of a Buffer state between France and Germany along the Rhine.

General Ludendorff, war comrade of Field Marshal, Von Hindenburg, in charge of Germany's military affairs, was in his place as a Reichstag member, the first time he had been present since the new Reichstag assembled.

Doubts Advisability Making November 11 Annual Defense Day

Washington, May 12. — Although President Coolidge has reached no decision on the recommendation of the War Department that Defense Day hereafter be made part of Armistice Day observance, he has some doubts as to the advisability of making November 11 the occasion for the proposed annual Military Muster.

SMOOTH RUNNING KITCHENS AIM OF WOMEN INVENTORS

London.—Women as inventors have applied for more patents in England during the last few months than at any other period in history. Most of these devices are labor saving machines for use in the ordinary household where there are no servants. Among them is an electrical dish washing machine which will clean the dishes of a family of 12 within a few minutes at the cost of 1-12 of an English penny.

One of the best known British women inventors is Mrs. E. M. Bolton, member of a family of inventors and who recently organized a company which will manufacture labor saving devices. She is a grand niece of Sir Humphrey Davy, who conceived the miner's safety lamp. One of her inventions is a complete laundry which may be operated by a housewife who has no maid, without getting so much as even a drop of water on her fair hands.

FRANCE ASKS SPAIN FOR ASSISTANCE IN RIFFIAN ATTACK

Tribesmen Make Preparation for Attack While on Spanish Side of Border; Requests Made in Form of "Conversation"

Paris, May 12.—France is asking Spain for authority to bombard her attacking the concentrations of Spanish Morocco of the Rifian Tribesmen, now engaged in the invasion of the French zone. The Spanish are further asked to stop the supplies now going through the Port of Agadir to Abd Krim, the Rifian leader.

The requests are being made in the form of "conversation."

Although there is no great confidence here in the results to be expected, the French feel that they are entitled to some help from Spain in the present situation, as they say they are placed at great disadvantages in repelling the Rifian invasion through the ability of the tribesmen to make all preparations for attacks while safely on the Spanish side of the border.

VON HINDENBURG WAS INAUGURATED PRESIDENT TODAY

Field Marshal Sworn in Office as President of the German Republic Before a Crowded House

Berlin, May 12.—Field Marshal Von Hindenburg was inaugurated President of Germany today.

"Down with monarchism; long live the Soviet Republic," was the shout raised by Communist Deputies as president-elect entered the Reichstag Chamber. They withdrew immediately afterwards, however, and the rest of the ceremony proceeded without a hitch.

The Field Marshal was sworn into office by the President of the Reichstag Hali, Loabe, before a crowded house. The inauguration took place in the presence of members in the Reichstag, whose Socialist members wore red carnations. Many of the other Republic members also wore the Republic colors. The entire diplomatic corps was present and the galleries were packed.

General Ludendorff, war comrade of Field Marshal, Von Hindenburg, in charge of Germany's military affairs, was in his place as a Reichstag member, the first time he had been present since the new Reichstag assembled.

The President elect, speaking in a clear voice, was heard throughout the large Chamber, and made his address in response to the welcome extended by Paul Loabe, President of the Reichstag.

DULL WITS OF OLDEN DAYS WASTED TIME OVER CARDS

London.—Card games of the middle ages required much more time than the card games of today because the brains of the popel of that period were much slower than the modern mind, according to card playing experts who have inspected a rare old collection of cards shown recently at the City of London Guildhall Library.

The collection consisted of 18 varieties, the earliest pack being that of the 13th century. It has crude fanciful figures etched on thin plates of horn, backed with paper.

Several decks date between 1714 and 1765 and are known as geography packs. They have complicated maps and much information concerning the countries of the world. The cards of 1780 are adorned with sketches showing incident in various fables with verse.

Five hundred years ago people's brains worked so much slower than they do at the present time that it was natural there should be interesting matter for the players to read while awaiting their turn to play, in the opinion of modern card experts.

JOSEPH NEEDLEMAN, VICTIM OF ATTACK IS CRITICALLY ILL

Suffers Relapse and is Not Expected to Live; Case Goes to Jury at 2:57 O'clock This Afternoon

Williamston, N. C., May 12.—The case of the State against Claytor Heath, F. W. Sparrow, Sr., Henry D. Griffin and Julian Bullock, charged with the mutilation of Joseph Needleman, on March 28th, was given to a jury in the Martin County Superior Court this afternoon at 2:57 o'clock.

Williamston, May 12. — Joseph Needleman, for whose mutilation four men are being tried in Martin county Superior Court, is in a serious condition at a Washington hospital, it was learned here today, and his Attorney Lindsay Warren, expressed the belief that the young man would not recover.

A long distance call by the Associated Press to the hospital at Washington, where Needleman is confined, confirmed the fact that he had suffered a complete relapse, and that his condition was serious, but that it was said that he was slightly better early this morning.

Williamston, May 12.—The case of the state against Henry D. Griffin, Julian Bullock, F. W. Sparrow, Sr., and Claytor Heath, charged with the mutilation of Joseph Needleman on March 28, after the victim had been forcibly removed from the Martin County jail where he was awaiting trial on a charge of attacking a young girl, was expected to go to the jury this afternoon. All addresses to the jury had been made when Martin County Superior Court opened today, except one of John G. Dawson for defendant Heath, and Solicitor Don G. Gilliam for the state. Mr. Dawson was the first to address the jury today. He argued to the 12 men that Heath was not at the scene of the crime, and in support to his statement outlined evidence offered by various witnesses to the effect that the defendant had been in Kinston at the time the crime was committed. He sighted the defendant's excellent character, as testified by a number of witnesses, as evidence designed to show that the man had told the truth on the stand, and had not taken part in the actions of the mob.

Solicitor Gilliam closed the argument for the state. He summoned up testimony that had been offered, and asked for a verdict of guilty as for each of the defendants. He explained evidence given by Needleman and the identification of Henry D. Griffin as the man who he alleged had performed the operation and his discription of other alleged members of the mob responsible for the outrage, which had been supported by other witnesses. He drew a vivid picture for the jury of the events leading up to and following the mutilation of Needleman.

Judge Sinclair's charge to the jury was expected to be delivered before the dinner recess of the court, and in that event the case against F. W. Sparrow, Jr., charged with participation in the mutilation, was to be immediately followed by the trial of Needleman on a charge of attack.

Destruction of 500 Gallon Capacity Still in Falkland Township

Deputy Sheriffs Sam Whitehurst and C. P. Pierce visited Falkland Township on Saturday and located a 500 gallon Cypress, Juniper steam plant. The still was not in operation but had been bricked up preparatory to the manufacturing of "fire water." The officers poured out 2000 gallons of beer and captured five vats with a capacity of from 500 to 800 gallons.

SCOTCH SOCIALISTS AND WORKERS PUT JAZZ DANCING ON BLACKLIST

Glasgow.—Scottish trade unions and Socialist organizations have started a movement to bar jazz dancing at their social functions on the ground that they are not only immodest but result in altogether too much wasted energy as well. Farm workers also are being urged in some circles to retain the "good, old-fashioned dances which the city folks have forgotten all about."

## FOREST FIRE PREVENTION

American Forest week should annually become one of the most important events in each of our states. This nation's future depends upon an everlasting supply of timber.

For four years the United States Forest Service has directed observance of Forest Protection Week. This year it felt that the best interests of forestry would be served by transferring observance of the week to non-governmental agencies. As a result, various organizations all over the United States are taking an interest in the matter. Lumber manufacturers associations have rendered particular assistance.

The American public is one of the greatest offenders in forest destruction because of its carelessness with fire. If it can be awakened to its responsibility as the best guardian of its own to rest resources, the first big step will have been taken in reforestation, as the young trees will have a chance to grow without being blighted by thousands of forest fires which this nation now has annually.

## PROGRESSIVE THINKING

Nothing gives us more genuine pleasure than to carry news items from other towns in

the county. We appreciate the smallest contribution and it places your town, city or village, whatever it may be before the public. Some towns consider themselves too small to send news items, but this is a false impression as every town, no matter how small, has happenings of more or less interest to the public. In commenting on the small towns and necessary steps for their growth, the Southern California Business has the following to say:

"Because a town is small there is no reason why its citizens should feel that it is small, for when a people have that feeling they never do much to make a small town grow. Los Angeles would not be Los Angeles today if her people 50 years ago had concluded that this was only a small place and would never amount to much. That sort of sentiment has held back many a town. The Chamber of Commerce in a small town has just as important business to perform as has a civic organization in a larger city.

"This magazine publishes news items concerning development work in outside communities. Only too frequently the editor receives a communication from some secretary in a small town saying, 'As you realize, this is only a small place and there is not much doing here in the way of news.' That expression creates two impressions. One is that there is something sadly lacking in the make-up of the civic organization that should be pushing ahead, and the other impression is that the people living in that town do not appreciate what they have. If they did appreciate their surroundings they would be getting down to work and work produces results and results produces news. In looking through this magazine there will be found items of interest concerning some very small communities, because the people of those communities are active and have faith in their towns and as a result those small towns some day are going to be large towns while other small towns whose citizens have no faith in them will always remain small. Big things were never produced on a foundation of small ideas."

## HELP FOR POOR OLD FOLKS

Old Age Should Be Happy—Not a Time of Sickness and Suffering

Too many people begin to suffer at middle age with constant backache, urinary ills and rheumatic pains and aches. Weak kidneys are usually the cause and, if neglected, there is danger of hardened arteries, dropsy, gravel or Bright's disease. Help your weakened kidneys with a stimulant diuretic before kidney disease gets a firm hold! Use Doan's Pills. Thousands of old folks recommend Doan's. Here is Greenville proof:

T. R. Moore, retired farmer, 918 Evans St., says: "I was troubled with a lameness in my back and my kidneys didn't act as they should. I got a box of Doan's Pills and used them. They gave me splendid relief. I know from personal experience Doan's are just as represented."

ALMOST 11 YEARS LATER, Mr. Moore added: "Time hasn't changed my opinion of Doan's Pills. They have never failed to give me good results."

## MOVIE TOREADOR HANDLES RAGING BULL CAUTIOUSLY

Hollywood, Cal.—A story of a bit of unfilmed humor that marked the production of a motion picture here recently is circulating about the studios.

A Latin type leading man was cast

for a role in a bull fight. The arena was built with a special handy exit for the actor in case the bull acted too realistically.

The actor was timid and didn't relish the scenes where he had to annoy the bull. He shield every time the bull even looked his way.

## BILIOUSNESS

Retired Minister Tells How He Keeps in Good Form With the Assistance of Black-Draught.

West Graham, Va.—The Rev. Lewis Evans, a well-known retired minister, now past 80, living here, has a high opinion of Black-Draught, which he says he has taken when needed, for 25 years.

"For years I had been suffering with my liver," he says. "Sometimes the pain would be very intense and my back would hurt all the time. Black-Draught was the first thing I found that would give me any relief."

"My liver has always been sluggish. Sometimes it gives me a lot of trouble. I have suffered a lot with it—pains in my side and back, and bad headache, caused from extreme biliousness."

"After I found Black-Draught, I would begin to take it as soon as I felt a spell coming on and it relieved the cause at once. I can recommend it to anybody suffering from liver trouble. A dose or two now and then keeps me in good form."

Made from selected medicinal roots and herbs, and containing no dangerous mineral drugs, Black-Draught is nature's own remedy for a tired, lazy liver. NC-166

# LOCALS

Hart, R. Williams, W. T. Lipscomb, but he was compelled to wait 12 months for a ship. He was accompanied by his wife and baby who was born on Tristan da Cunha two years ago. During the woman's stay on the island there was but one mail ship.

**COSTUME PARTY.** The Christian Endeavorers of the Christian Church invite the young people of Greenville to their party Thursday, 7:30 to 10:30 p. m. in the basement of the church. Masquerade and enjoy an evening of real fun. Adv.

**ISOLATED ISLANDERS ASK FOR MAIL ONCE A YEAR.** Southampton, England.—Natives of Tristan da Cunha in the South Atlantic, known as the loneliest island in the British Empire, petitioned the government recently to arrange an annual mail boat for them, declaring that if this were brought about they would be perfectly contented, otherwise they threatened to emigrate.

News of the settlement was brought here a few days ago by the Rev. H. M. Rogers, who for three years has been a missionary and schoolmaster to the islanders. Mr. Rogers made up his mind more than a year ago to return to England.

director of agriculture, Southern localities are more promising than Rhodesia. "The widespread desire to experiment," he says, "and be willing recognition of the experimental character of plantings in 123 led to a general trial being given to cotton such as has never occurred in Rhodesia in respect of any other crop. The year proved favorable for cotton. No district as yet can be condemned for cotton, although obviously some acreage planted to cotton for 1925

There is little prospect of a local spinning industry, he adds, as the climate is unfavorable and the native population otherwise are as fully occupied as they care to be.

**FRENCH CLUB MEETS.**

Friday evening, May 8, "Le Carle Francaise" held its last meeting of the year—Max Revelise president. The following program was given in French:

"La Marseillaise" — Pont le Monde Lecture by Hugo—Elizabeth Deal Le Rosaire—Louise Phelps La Bonne Fie—Elba McGowan Scenes V. VI, VII from Act I of La Poudre Aux Yeux—Albert Jones, Polly Fulford, Allene Johnson, Annie Shields Van Dyke, Olivia Forbes, Milton Harrington.

Allene Johnson, Shafick Hatem, and Dow Lassiter were initiated into the club and make "impromptu" talks in French.

The most interesting feature of the program was a talk made by Prof. R. C. Deal, head of French Department, of Teacher's College. He told some interesting French Legends and emphasized some of the humorous characteristics of the French people. Prizes were awarded to Albert Jones and Polly Fulford who did exceptionally well in their parts on the program. An ice course was served. Those present were: Misses Polly Fulford,

## Dad's Barber Shop Opened With Services By Men's Federation

The Sanitary Barber Shop, Mr. B. M. Lehue manager, has moved into new quarters on Dickinson Avenue, and will in the future be known as Dad's Barber Shop. The Laymen's Christian Federation, Mr. J. G. Clark, leader, conducted the initial opening last night with most inspiring services.

The new barber shop is modern in every respect and presents a beautiful and sanitary appearance, the entire room including walls, fixtures and furniture being white. There are eight chairs with five lavatories, all having the automatic mixer. The walls are made of mirrors while over them is a latticed wall painted white. The eight chairs are operated by polite and efficient barbers who are ready at all times to render the best of services. It is without a doubt one of the most beautiful barber shops in this section of the state.

Every success is wished for Mr. Lehue. "Dad," as he is known to his friends, in his new quarters.

## ATTEND MEETING OF GRAND COMMANDERY IN GASTONIA

Messrs. W. H. Horn, E. B. Ferguson, H. S. Ragsdale, Charles Wicham, V. E. Wells, Frank Wilson, H. E. Austin, Wiley Brown, W. Z. Morton, S. G. Wilkerson, F. J. Deiner, J. N.

## Chicago's Best

MISS OLIVE PELLAGE

The title, "Chicago's Healthiest Girl," was given pretty Miss Olive Pellage, 13, in a bitterly contested competition with several hundred other girls. Baseball is her favorite sport.

**GOOD PLUMBING IS THE VERY THING TO MAKE YOU HAPPIER THIS SPRING**

**PLUMBING**

## Congleton's Little Plumber

In the springtime everybody and his brother and his cousin Bill are looking for happiness. One way to make certain that you're going to enjoy this season of the year is to install some good, dependable plumbing. If you're going to build this spring it would pay you to talk over the specifications with us.

## THAT COUGH! TAKE IT IN TIME

MRS. SUSIE METTS

Columbia, S. C.—"A couple of years ago I had the 'flu' which left me with a deep-seated, heavy cough and I could not raise the phlegm. I could not gain in strength and was becoming discouraged. Finally I sent to the drug store for Dr. Pierce's Golden Medical Discovery. I took two bottles and was restored to absolute good health, but it was while taking the first bottle that my lungs were cleared of the phlegm and the coughing spells ceased."—Mrs. Susie Metts, 1724 Thompson Ave.

Sold by all druggists. In liquid or tablet form, or send 10 cents for trial sample to Dr. Pierce's Invalids' Hotel, 605 Main Street, Buffalo, N. Y., and write for free medical advice.

## Summer Fabrics ENLARGE THE SPRING THEME

Spring brought forth the printed fabric, and summer has sponsored the idea in even more brilliant and colorful patterns. Chiffon and light silks are gorgeous in flower and geometrical design, and cotton materials also bloom with printed motifs. Our new assortment offers a wide choice of the finest textiles.

We also have arrivals of new Voile Dresses in Floral designs. Just the thing for the hot days coming.

**McKay - Washington & Co.**  
"The Ladies' Store"

## Summery Frocks OF COOL SILKS

Comfort and seauty combine to make these new summer Dresses doubly attractive, for they are of cool looking pussy-willow or crepe de chine and in an unusual number of clever styles.

Simplicity characterizes the prints, for the brilliancy of their flowered, dotted, or striped patterns leaves little need for decoration.

There are also some lovely models in plain toned silk, charmingly pleated or tucked to achieve the fashionable silhouette. In all of the season's smartest colorings—including navy and black, at unusually low prices.

New shipment of Tub Silks at—

Sterling 485 11-16, Francs 522  
L-4, Lire 410 3-4.

**Grain**  
Selling of July wheat buying of September is advocated by one of the big commission houses who have been bullish on both months. The idea is that the high price will induce free selling of new wheat by farmers in July and values will decline to even with September.

**Coffee**  
An official cable from Santos says shipments will probably be adversely affected by a strike of coffee warehouse workers. This information coupled with the fact that heavy short interest is believed to exist in the market here, had a good deal to do with the short covering yesterday, although sentiment still ruled unsettled and nervous.

**Sugar**  
The rapid closing down of Cuban centrals may have played some part in the more optimistic feeling in sentiment yesterday around the sugar ring. Cables reported 128 centrals now in operation vs. 183 at the peak of the season and \$5 at this date last year. Shorts covered, and there was considerable buying of September as a hedge against sales of raws to Europe.

**Stock Summary**  
Annual meetings scheduled for today include General Electric, Willys-Overland, Kansas City Southern, Mo. Pac. Gulf Coast Lines, Maryland, New Orleans Texas, and Mex. and Frisco. Spicer Mfg. earned 81 cents on common first quarter of 1925 vs. \$1.01 same quarter of 1924.  
Famous Players declared regular quarterly dividend of \$2 on common. Car loading first week in May were 981,711 largest for any 1925 week to date.  
Mack Truck gets competitors contract from Buenos Aires for 80 trucks valued at \$400,000.  
Buffalo General Electric, Niagara

Falls power and Niagara lock port and Ontario power merged.  
Government to withdraw \$8,500,000 from member banks in this district May 15.  
British import surplus in April 49, 481,000 pounds vs. 42,558,000 in Mar. Average 20 industrial 124.14 off .50; 20 rails 96.43 off .86.

**Liverpool**  
Wheat opened down 2 to 2 1/4 at 10:35 a. m., down to 2 1/2; corn unquoted. B'Aires close wheat down 2; corn 2 lower; oats 1 down.  
Liverpool cotton came 2 to 4 lower than due.

**Cotton Summary**  
Chicago retailers have opened textile drive and say the May campaign is showing good results in cotton goods.  
April cotton movement into New England dropped approximately 33 per cent from previous months rate, but was still in excess of normal April

flow of cotton into that section. Showers occurred in the Atlantic states and scattered points in East Gulf states. Today's outlook for showers in South Atlantic states and scattered points along east Gulf coast, and showers tomorrow in portions South Atlantic states. Southwest forecast generally fair today and tomorrow except Arkansas, part cloudy.  
Temperatures much cooler over belt, especially Arkansas and Mississippi Valley. Rainfall reported Chattanooga district .70 inches, Montgomery .38; Ft. Smith district .22. Forecast today eastern belt partly cloudy; central belt generally fair, northern half partly cloudy, southern half Western belt generally fair.

Fall River reports say print cloth market unusually quiet yesterday.  
Tariff Commission says world production of rayon soon will greatly exceed world production of silk.  
Liverpool cables London and continent selling old crop. Spinners brokers sold October covering by local

commission houses. Reactionary buying by American houses; moderate demand from spinners; fair export demand.  
Of 12 opinions 7 bullish, 5 bearish.

**Cotton Letter**  
New York, May 12.—Ideal rains over Sunday in the central belt had a very depressing effect on Liverpool and our market has been dull and uninteresting with efforts for rallies proving practically futile.  
Liverpool cables that business was very slow and manufacturers were discouraged while Fall River wires local textile paper that business had failed to show any improvement at all and the divided record for the first quarter of 1925 was the smallest of record. During the latter part of the week a good deal of short covering took place on account of the lack of rain in the central belt where complaints were increasing of delayed germination. Now that this section has been favored the technical condition may not play any part of prominence in the immediate future.

It is a question whether the trade realizes the potential possibilities of an acreage between 43 and 44,000,000 acres with an increased use of fertilizer together with more intelligent effort in the fight against the weevil. It seems necessary that some distinct setback to the present conditions must occur before the market will receive the volume of support which it has enjoyed for 3 or 4 years past.

**Stock Letter**  
New York, May 12.—The stock market opened active with the main body under pressure, which was particularly directed against the railroads, cast iron pipe and Baldwin locomotive. Cast iron pipe was for sale on renewed reports of foreign competition. After issues particularly the low priced ones were in heavy demand, due mostly to cheap money. Trading in Willys Overland reached huge proportions and at one time showed an advance of over 3 points, reflecting earnings for the second quarter of over \$11,000,000, according to its president. Freeport, Texas, was again very active and advanced about two points, subsequently losing one. Motor stocks were also strong and active, particularly Studenbaker and Chandler Motors, but it was noticeable that the strength of the motors did not reflect motor accessories shares, which were rather dormant. The different cross currents gave the market an appearance of irregularity. Steel made a remarkably good showing in spite of the unfavorable tonnage report issued after the close Saturday, and most of the stock changed hands at higher prices than at the previous close. A particular advance took place in American Sumatra pfd which during the day was advanced about 20 points in a drive against the shorts. Towards the close strength manifested itself in Gulf states steel and Colorado Fuel and Iron. This latter stock seems to us to be in line for a good upturn.

**GRAIN.**  
Primary:—Receipts, Wheat 537,000 vs. 566,000; corn 284,000 vs. 527,000; oats 409,000 vs. 584,000. Shipments, Wheat 660,000 vs. 985,000; corn 307,000 vs. 753,000; oats 897,000 vs. 640,000.  
19,000 total exports cotton.
