

OUR CHAUTAUQUA BEGAN SPLENDIDLY BEST PROGRAM YET

Henry's Magicians and Pooles Chinese Travelog Tomorrow; Russian Sextette This Evening

Notwithstanding the fact that few knew the time at which chautauqua was to officially open...

After Sup't. Wayman had announced that the sessions will start promptly at three and eight...

Capt. Dietrich's lecture "Uncle Will's Window" was a delight to old and young. This evening the Russian Sextette will be presented...

Tomorrow afternoon Dr. Frederic Poole and six assistants will present a descriptive travelogue of the marching hordes of China...

Tomorrow evening the most novel entertainment of the whole Chautauqua will be presented. Mr. S. S. Henry and his two aids will offer a program of magic, sand painting, illusions and mystery...

There are three ways of boosting this great entertainment and the committee hopes that all will be used. The three ways are broadcasting, friend grasping, and ticker clapping...

Miss Marie Shaw the Junior leader will be assisted in her work with the Juniors by several local ladies and two of the young college men who are Superintendent Wayman's assistants.

One feature of the ticket selling campaign which calls for comment is the way in which some of the committees assisted others less fortunate in disposing of their quota...

It is expected that next year a better plan of ticket selling will be inaugurated and that the whole quota will be well disposed of before Chautauqua starts. It is considered quite a tribute to the committee that such a fine showing was made on the opening evening.

Next Sunday evening there will be a co-ordinated community service in the tent, for all denominations, a committee of seven comprising all the churches in Greenville is actively working on this plan...

"One Foreign Life for Every Chinese Life" Slogan of Chinese

Shanghai, June 16.—One foreign life for every Chinese life taken in the Shanghai riots was the slogan adopted by Chinese in posters distributed today after the killing of William W. McKenzie, an English subject, yesterday. Otherwise the situation remained unchanged and Shanghai was a seething city of indignation and unrest.

Moroccan Envoy

SI KADOUR BEN-GHABUT

His Excellence Si Kadour Ben-Ghabut, named new Minister Plenipotentiary from Morocco to France, hoped to exert influence to bring about cessation of hostilities between Riffs and French.

LIGHTNING TWISTS TRACKS CAUSING TRAIN TO WRECK

29 Persons Dead and 60 Injured as Result of Train Wreck Near Hacketts-town, N. J.

Twenty-nine persons are dead, and 60 injured are in hospitals as the result of the wrecking early today of a Delaware-Lackawana and Western railway special emigrant train near Rock Point, N. J. 21 of the dead succumbed to their injuries after being taken to hospitals and it was said some of the others may die.

The wreck was caused, railroad officials said, by an earth slide during a storm last night.

Hacketts Town, N. J., June 16.—At least 15 persons are believed to have been killed and scores injured in the wreck of a special seven car Delaware Lackawana and Western train a mile west of here early today. Twisted by lightning and undermined by heavy rains, the tracks gave way beneath the train and the cars and engine piled up on one another. Reports said the train carried 132 passengers, mostly aliens from Chicago, enroute to Hoboken, where they were to sail for Europe today. Most of them were asleep in their berths when the coaches pounded upon one another and steam and boiling water burst from the locomotive. The engineer, fireman, and conductor, are among the ones dead. Fifteen bodies have been taken from the wreckage, and others are believed to be buried beneath it.

531,471 Bales of Lint Cotton Consumed During Last May

Washington, June 16.—Cotton consumed during May totaled 531,471 bales of lint and 61,187 of lint-free compared with 487,104 of lint and 59,036 of lint-free consumed in April this year, and 413,967 lint and 42,661 of lint-free in May last year, the census bureau announced today.

Denies Report That Secret Notes Had Been Sent Mexico

Mexico City, June 16.—Foreign Secretary Saenz today denied the truth of reports from the United States that secret notes had been sent to Mexico by the American Government, and that Secretary of State Kellogg's recent statement had been issued because these conditions had not relieved the situation.

CIVIL WAR NOW IMPENDING IN NORTHERN CHINA

Troubles in China Divide into Three Distinct Phases to Washington Observers

Washington, June 16.—Three distinct phases of the troubles in China have taken form as the result of study of the Washington Government's mass of reports from that country, and a canvas of expert opinion in government circles.

Canton has been recaptured from the Yunnanese Mercenaries by Cantonese soldiers representing the radical wing of the forces of the late Dr. Sun Yat Sen. An anti-foreign agitation springing from troubles in Shanghai has spread up the Yangtze river causing disorder in all scores of cities.

A conflict, which Washington observers think may overshadow all other developments before the end of 1925, impends in Northern China, between rival military powers with Peking and the armed domination of most of China as the prize. There is no direct connection among the three phases. The battle for Canton, and the impending conflict in the north, primarily are the outgrowth of domestic politics.

That the three courses of concern for Western Nationals do interlock, however, is evident through the fact that every official report received in Washington for months has emphasized the influence of Soviet Russia, first in the anti-foreign agitation, second in the fight to recapture Canton, and third in the preparation for civil war in the north.

The anti-foreign movement is of long and steady growth, and reports reaching Washington have emphasized the probability that it may result in seriously curtailing the extra-territorial rights and immunities now enjoyed by foreign residents by virtue of decades old treaties.

Government observers have foreseen this manifestation of a new nationalistic work in China for several years and more than a year ago an estimate of this situation contained in an unpublished government report said in part "It is probable that the future status of the white man will become, as regards safety of white man and property at much above that of the Chinese themselves."

FEUD BETWEEN TWO FAMILIES RESULTS IN PITCHED BATTLE

Four Men Wounded When the "Jones" and "Pilots" Engage in Battle at Saw Mill

Monetta, S. C., June 16.—Four men are in hospitals as a result of a pitched battle near here yesterday at the John D. Parrish saw mill, said to have been the outgrowth of a feud between two families.

John Jones, lumber man and farmer, has a bullet wound in the body which renders his chances of recovery slight, and his two sons are wounded. Joe Pilot, head of the family which clashed with the Jones family, has an ax wound in the forehead.

\$8,200 Allotted to Scuppernon River in North Carolina

Washington, June 16.—The Department announced today the allotment of \$8,200 from the current fund for Scuppernon River in North Carolina.

Olds Appointed As Assistant Secretary State

Washington, June 16.—President Coolidge today appointed Robert E. Olds, of St. Paul, as Assistant Secretary of State. He succeeds John V. A. McMurray, who is enroute to his new post as minister of Peking.

Kidnap Victim

MISS ERNESTINE BEAN

Miss Ernestine Bean, a stenographer of Kansas City, Mo., after disappearing for several days, returned and said she had been abducted by a strange young man who forced her to marry him. Police sought Joseph M. Phillips, twenty-three, of St. Louis.

ITALY IN SYMPATHY WITH THE PROPOSED SECURITY PACT

Considers Negotiations Purely Tentative and Will Make Known Its Attitude at Proper Time

Paris, June 16.—The Italian reply to the French note answering Germany's Western European Security Pact proposal, was received today. Italy expressed sympathy with the general principle of the proposed accord.

The note said that Italy considered the negotiations at the present purely tentative and did not feel called upon to state specifically the opinion of the Italian government on all features of the security pact. It said that when the time came for a decision, Italy will make known its attitude.

NEW FINANCIAL POLICY OF STATE TO BEGIN JULY 1

Making Preparations for the Executive Budget Daily Deposit and Budgetary Account

Raleigh, June 16.—Members of the field force of the State auditors office are checking up state institutions preparatory to putting into effect the executive budget daily deposit and budgetary account legislation enacted by the last General Assembly, Governor McLean announced today.

The Governor stated that he had held a conference with the auditors, who are to undertake this work, and had gone over with them in detail, the legislation referred to. The auditors will instruct institution heads on points to be taken into consideration under the state's new financial policy, which will become operative with the beginning of the next fiscal year on July 1st.

Governor McLean is holding daily conferences with representatives of state institutions on fiscal matters. Today he was in conference with Representatives of the University of North Carolina and State College.

Van Orman's Claim as Winner of Balloon Race Being Considered

Brussels, June 16.—The claims of the American Balloonists, Wade T. Van Orman, that he won the recent Gordon-Bennett Cup Balloon Race from Brussels, apparently will be seriously considered by the Commission which will decide the question. A decision will be announced Friday or Saturday.

VISITORS' NIGHT GREATLY ENJOYED AT ROTARY MEET

Program Featured by Short Addresses by Guests; Local "Roters" to Have Charge of Washington Club Thurs.

Last night's Rotary meeting here was featured by several addresses by the guests of the evening and proved to be an enjoyable occasion.

In the absence of D. L. Turnage, president of the club, who is attending the International Rotary Convention, in Cleveland, last night's meeting was presided over by W. H. Dail, vice president of the club. Following the evening meal the vice president called on D. J. Whichard who made a short talk on "Our Flag." In a few words he gave a brief history of the American Flag, what it stands for and urged proper respect for it at all times. This part of the program was in connection with the annual celebration of Flag Day June 14.

The next number on the program was a number by the club quartette and was greatly enjoyed.

J. J. White, the next speaker used as his subject "Daily Opportunities For Service." He pointed out a number of instances whereby the Rotarians could render a great service to the community and stressed emphatically the present need of Greenville for a Chamber of Commerce or Merchants' Association. He also urged the hearty co-operation of every business man in the weekly half holiday which will be observed for the first time in Greenville tomorrow afternoon.

Alfred Schultz was in charge of the start of the evening and after a brief explanation of his newest invention, the oxometer, whereby it was possible to determine just how much energy was being wasted in the form of hot air he called on Dave Whichard, Julian White and Bob Brunson to assist him in experiments with his new invention. White proved the best hot air artist and was declared winner of the contest.

The club last night received an invitation from the Washington Rotary Club to take charge of the program of that club at its regular meeting to be held on next Thursday night. The invitation was accepted by the club and probably two dozen local Rotarians will be present.

FOUR CANDIDATES FOR GOVERNORSHIP OF NEW JERSEY

Prohibition, Religion and Politics Figure Prominently in Today's Primary

Newark, N. J., June 15.—Prohibition, Religion, and United States General Walter E. Edge, leader of the New Jersey Republican Organization, figures most prominently in today's primary. Senator Edge, whose leadership is at stake, is backing former Attorney General Thomas S. McCrane, of Passaic, for the Republican gubernatorial nomination. McCrane is a Roman Catholic. Against him are pitted State General Arthur Whitney, who has the support of the anti-saloon league, and former District Judge Cornelius Doremus, who is running as a "bone dry."

Whitney has charged Senator Edge with setting up Doremus as a "dummy candidate" to split the dry vote and bring about the election of McCrane.

Doremus has said he will clean up the state as effectively as the Federal Government has cleaned up rum row. McCrane, in his campaign, has denounced the Klu Klux Klan. Commissioner Arthur H. Moore, of Jersey City, is opposed for the Democratic nomination for Governor.

Scopes Lawyer

JUDGE GODSEY

Judge Godsey, counsel for Prof. John T. Scopes at Dayton, Tenn., presented a motion to quash the indictment charging violation of the State anti-evolution-teaching law. The motion was based principally upon constitutional guarantees of freedom of religion and upon vague wording of the law.

COOLIDGE TO HAVE FREEDOM AND REST DURING VACATION

Will Be Kept in Constant Touch With Gov't. Affairs, But Will Be Given Relaxation From Cares of Office

Washington, June 16.—While President Coolidge will be kept in constant touch with governmental affairs during his summer stay at Swampscott, Mass., arrangements are being made to afford him as much relaxation and freedom from the cares of office as is possible.

A clerical force of sufficient size only to handle matters that need the President's personal attention, will be transferred to Lynn, where executive offices will be maintained. This will be Secretary Sanders' headquarters, but it is likely that the President will rarely, if ever, go there. At White Court, the summer White House, Mr. Coolidge will be isolated and guarded by secret service men, and a detachment of marines. Persons desiring to confer with him will first be required to consult Mr. Sanders, and it is planned to keep the President's engagement list to a minimum.

McMillen to Leave Wednesday on Ninth Trip to the Arctic

Boston, June 16.—Lieutenant Commander Donald B. McMillen, who will hop off tomorrow on the first leg of his 9th trip to the arctic, was invited today to be the guest of honor at a farewell luncheon given him by the Boston City Club, where the explorer makes his home while in the city. Wednesday noon he will get away from the Charlestown Navy Yard in one of the three planes to be used on the trip.

YOUNG LADIES ARRIVE IN MOREHEAD TO COMPETE IN BATHING BEAUTY CONTEST

Morehead City, June 15.—Five of the twelve young women who are to compete in the Ocean Beach bathing beauty contest have arrived. The other seven are expected to be here today or tomorrow. The five are Miss Rosamond Flanagan, Greenville; Miss Dorothy Davenport, Washington; Miss Amelia Jones, Belhaven; Miss Tommy Johnson, Goldsboro; Miss Frances Cherry, Mount Olive.

Mrs. Hogan Gaskins, of Greenville, who is to chaperon the party, also is here.

Plea for Commutation for George Love Will Be Made Today

Raleigh, June 16.—A plea for commutation for George Love, of Hayward County, sentenced to electrocution was scheduled to be made to Governor McLean today. Love, a negro, was convicted of first degree murder. He appealed twice and the first time was granted a new trial. The Supreme Court handed down an opinion sustaining the action of the lower court at his second trial, when he was convicted, and sentenced to be electrocuted.

The Largest Office Building in N. Y. Struck by Lightning

New York, June 16.—The 37-story equitable building in the finance district, the largest office building in New York, was struck by lightning early today during an electric storm. The bolt struck a coping on the roof and showered stone fragments to the streets 485 feet below. The crash echoed and re-echoed through the canyons of sky-scrapers like an explosion. No one was injured.

661 ENROLLED FOR SUMMER TERM AT TEACHERS COLLEGE

Student Body Consists of Teachers of Every Public School Class, Primary, Grammar, High School

The second week of the summer session of East Carolina Teachers College opened with an enrollment of six hundred and sixty one, the largest number of students ever in attendance at a term of the college. The plan of operating the summer term for twelve weeks and making this term the equivalent of a regular college term was tried out last summer for the first time and has proved an unqualified success. The student body consists of teachers of every public school class, primary, grammar grade and high school teachers. Some are here for the purpose of raising their certificates to a higher class, some are pursuing their regular college course, and many are graduates doing special work. Every section of the state is represented, from the mountains to the sea and from the Virginia to the South Carolina line, with a sprinkling of students from the neighboring states.

In order to take care of the large number the dining room and kitchen are compelled to run double shifts, serving six meals a day instead of the usual three, and the teaching force is taxed to its full capacity.

Prof. Leon R. Meadows, head of the English Department, and who is serving his fourth year as director of the summer school, has established for himself the reputation of being one of the best and most successful summer school directors in the south. His organization runs with remarkable smoothness and most satisfactory results. He has, for the summer term, a remarkably strong and well equipped faculty: In the Department of Education are Professors R. G. Fitzgerald, Carl L. Adams, Hubert C. Haynes and Miss Miriam MacFadyen, in the English Department, Misses Mamie E. Jenkins and Ella O. Wilkes and Professors L. H. Baer and Samuel Holton. The History Department is in charge of Professors Henderson and Deal. Professors H. E. Austin and R. G. Slay and Misses Betty White and Maggie Denison are doing the work in the Science Department. Miss Martha Armstrong is teaching cooking and Miss Mary Carter Tatum is teaching sewing. The mathematics work is handled by Misses Graham and McKinney and Prof. Mills is teaching Latin. Mr. W. A. Potter, Miss Mary Berbolet and Miss Lois Gorrell are the music teachers. The Physical Education courses are given by Miss Pauline Bowman. Miss Louise Coggins is principal of the Practice school and is assisted by Misses Lucia Featherstone, Ines Furniss and Ethel Merrill. Miss Miss Gray is librarian.

PEACE TIME RED CROSS

When mothers' sons, fighting for the glory of our flag and the preservation of democratic principles, lay wounded and bleeding on the far-flung battlefronts of the World War, hard indeed was the heart that did not appreciate and sympathize with the great objective of the American Red Cross.

The public, however, may be prone to forget the invaluable aid rendered by this organization, which is an arm of the government itself, in its less spectacular but equally humanitarian service in times of peace.

Every citizen of the country should interest himself in the activities of the American Red Cross. The present organization is a product of the International Treaty of 1864 to which forty-eight leading nations bound themselves. Each of these has a separate organization and the several bodies are united in the federated League of Red Cross. President Coolidge is the head of the American Chapter, the War Department audits its accounts, and its charter granted by Congress clearly defines and makes obligatory its duties.

War-time activities of this organization are familiar to all, but doubtless many overlook its philanthropic service rendered in normal periods. Today, through its thirty-five hundred subordinate chapters, personal assistance is being rendered disabled soldiers and

their families. Every community faces this task. It will require a long time and the outlook is often discouraging, but it must be undertaken, and although the government is caring for the veterans and their families in the mass, the Red Cross extends that personal sympathy, that individual comfort which we as a nation owe in fullest measure to these men who have given all they had to give for our safety and well-being. For its goal, the Red Cross aims at the complete re-establishment of the individual or family as a happy, healthy, self-sustaining unit.

Disaster relief forms a major part of the peace-time work. Ten millions of dollars was raised for the relief of the earthquake sufferers in Japan. Immediate succor hurried from all parts of the country to the aid of the tornado-swept sections of the Mid West, prevented many of the horrors and sufferings that usually follow such tragedies. During the terrible forest fires on the San Gabriel mountains in California last summer, the Red Cross rendered first aid to the fire fighters camps even in the most distant and difficult places. In fact, a national program of preparedness is maintained so that not an hour passes between news of any great catastrophe and action for relief of the attendant suffering.

A national program of Life-Saving and First-Aid is also carried on to the end that the ghastly toll paid to speed mania, reckless carelessness and criminal lawlessness may be reduced. Child health demonstrations are conducted, and numerous minor, but none the less worthy services rendered to the public.

Popular support is needed to maintain the Red Cross. Last year there were about three million enrolled. In speaking of this phase of the organization, D. C. MacWalters, chairman of the Los Angeles Chapter said: "That it depends on voluntary subscription and membership is because more formal and impersonal organization would tend to defeat its purpose. The alleviation of human suffering can be accomplished only through human sympathy. Encouragement, friendliness, mercy; these cannot be secured through government fiat, but they must be attributes of Red Cross Service."

KARNAK MORE PRECIOUS TO HIM THAN OWN BLOOD

That's How Winston-Salem Men Value This Great Medicine That Is Taking The Country by Storm

Still they come on amazing reports after another concerning the results being obtained by 'Carolina people from the remarkable medicine, Karnak.

Some of these statements are hard to believe and if it were not that they are from people whose word cannot be doubted and made where every claim can be checked and verified the truth might be questioned. But no one can possibly argue against the mass of evidence piling up in unprecedented praise of Karnak. Every body seems to be saying the same thing about it.

A few days ago Thomas R. Shull, formerly of Shelby, N. C., and now living at 223 N. Spring St., Winston-Salem, N. C., made one of the most remarkable statements about Karnak that has yet been heard.

"Two bottles of the medicine have been more precious to me than that much blood from my own veins," is what Mr. Shull said he thought of Karnak.

"Why, since I took this wonderful medicine I am eating sausage and other things that would have been next thing to suicide for me to touch for three years. I am a perfectly well man now and I can't say anything too strong I can say for this medicine.

"Karnak just seemed to give my stomach a new lining because I can now eat things and digest it without the least bit of trouble afterwards. Before, for three years, everything I ate would sour on my stomach and bloat me up with gas until I thought I would burst open. I tell you I was miserable.

"I had heartburn all the time and the most agonizing pains all through my chest. I tell you, I suffered. And I would get up in the morning feeling sluggish and all tired out. I was badly constipated, too, and had to be taking some kind of strong purgative all the time.

"But that's all past now thanks to

Karnak. Every one of my troubles vanished like magic, and I began to feel like myself again in no time. I am brimful of life and energy and enjoying life again after three years' misery.

"You can't wonder that I value Karnak so highly. Why, I haven't said half enough about a medicine that will do what it has done for me. I just wish everybody in town would come and ask me about it. I bet if they will take Karnak like I did they will think the same as I do."

Karnak is sold in Greenville by B. S. Warren's, and by leading druggists everywhere.

NORTHWEST INDIANS ADORN TRIBAL GRAVES IN TACOMA

Tacoma.—Graded, lawned and decorated with spitable monuments, the old Indian cemetery adjoining the Cushman veterans' hospital here has been completely transformed through the efforts of local Indians, assisted by a government appropriation.

The cemetery contains the remains of some of the leading Indians of the northwest, and about 2,000 aborigines have been buried there since it was established in 1853.

One of the graves especially sacred to the Indians is that of Chief Leschi, who was hanged in 1856 on a charge of killing an American army officer who was on his way to a parley with the Indians. The Indians have al-

ways considered Leschi a martyr. RED CROSS TRAINING SCHOOL TURNS OUT POLISH NURSES

Warsaw.—The Warsaw Nursing School, founded by the American Red Cross and still supported in part by it has celebrated its third commencement exercises. Twelve diplomas were issued to young girls who had finished a two year's course.

Chief Salatat, who ruled the Indians of this region from 1851 to 1866 is also buried in the cemetery. He was a great friend of the early white settlers and was a convert to the Christian religion. In addition to Indian chiefs of the Nisqually, Puyallup and other tribes, the cemetery contains the bones of Tom Thompson, noted as a great Indian judge. He handled legal matters for the Indians for many years.

Miss Bridge, the head of the school, spoke in Polish, which she has mastered since 1921. The work of the school is so highly appreciated that the Polish government has set aside a sum of money for a new building.

Robert M. Koenig Found Remedy For Pimply Skin

For years my skin would break out every once in a while—and ointments did very little to help me.

I read a doctor's article stating that pimply skin usually comes from the stomach—and bowels not getting rid of the poisons.

I tried Carter's Little Liver Pills for a few days—and since that time my skin is smooth and clear. Now I tell my friends the right way of getting rid of broken out skin—and also

of steering clear of upset stomach and sick headache. Carter's are all you claim for them.

VISITORS' NIGHT GREATLY ENJOYED AT ROTARY MEET

(Continued on page 2)

arians will be on hand for the meeting in Washington.

The guests of the evening were Rev. Leland O'Brien, Rev. J. E. W. Cook, Dr. Matthew Wayman and Mr. M. K. Blount. The talks made by the guests were the feature addresses of the evening and were greatly enjoyed. The Rev. Mr. O'Brien, pastor of the Immanuel Baptist Church, expressed delight at having chosen Greenville for his home and at the genial hospitality that has been accorded him since his recent arrival here. The Rev. Mr. Cook, who has been absent from the city for several weeks due to his critical illness, expressed much joy at being able to return home to the welcome he found waiting for him here. He urged upon all Rotarians the daily practice of the principles for which Rotary stands and the Christian virtues and pledged his loyal support to any and every undertaking for the advancement of the community and the glory of Our Redeemer.

Dr. Wayman, superintendent of the Chautauqua, praised the community and its great accomplishments but "what is most needed," he said "is co-ordination." With a touching war story in which he was a part he illustrated how through co-ordination of forces the allies were enabled to accomplish what was apparently impossible and with like co-ordination the people and organizations of this community can gain the heights that now seem unattainable, he declared.

TURKISH LAWS IN SYRIA HEADED FOR SCRAPHEAP

Beirut, Syria.—The Ottoman code, which has been the law of the land in Syria for several centuries, soon will be replaced by the French system. Under what is known as the judicial fusion decree, comprehensive changes are to be introduced into the legal system substituting French procedure for Turkish.

M. Vergelot, sponsor of the judicial fusion decree, has arrived here from France. Assisted by six other French magistrates he will codify the new laws. Upon completion of the work he will assume his office as the legal adviser to the high commission-

Mr. Herman Carrow of Washington was here today.

Mrs. H. L. Joyner and sister, Mrs. Johnson, of Ayden are spending the day in Vanceboro with their mother, Mrs. I. J. Broadhurst.

WOMAN'S FEDERATION MEETS ON TOMORROW

The Woman's Christian Federation will meet tomorrow morning at ten o'clock in the Sunday school rooms of the Methodist Church. A large attendance is urged.

Tinto Gravure

The Sunday World presents its readers with a novelty and treat in the Tinto Gravure Section every Sunday. This wonderful work is done on an imported European press, the finest piece of newspaper machinery in existence. A whole corps of specially trained technicians, photographers, etchers, pressmen, &c., have been experimenting and have succeeded in operating this mechanical triumph with results as striking as beautiful. Number ten of the sixteen best stories published during the year will appear next Sunday in the Magazine Section of The New York Sunday World.

ANNUAL COMMUNICATION GREENVILLE LODGE ON THURSDAY AT 10 O'CLOCK

Annual Communication of Greenville Lodge No. 284 A. F. and A. M., will be held in Lodge, Thursday, June 18th, at 10 o'clock, A. M. F. W. BROWN, W. M., J. J. GILBERT, Sec.

CARD OF THANKS.

We, the Patient Circle, of the King's Daughters wish to thank all the people of Greenville for their liberal contributions in aiding us to meet a pledge, and further carry on our work. We also greatly appreciate the courtesy extended to us, and the spirit in which the donations were made.

THE PATIENT CIRCLE OF THE KING'S DAUGHTERS.

Local Man Drowned Sunday at Morehead

Morehead City, June 15. — The surf of Ocean Beach claimed its first victim Sunday morning when Harry Tellas, 24, Greek, of Greenville, stricken in the water died before aid could reach him. Heart failure is believed to have been the cause of death, since Tellas is said to have been an expert swimmer and the water was not more than four feet deep at the point where he went down.

Nearby swimmers recovered the body within a minute after Tellas sank, and Life Saver Joe Rose and Dr. J. F. Eaton, of Albemarle, worked over the body for more than an hour. But life was extinct before it was brought to the shore, it is believed.

Tellas came to Morehead City Saturday morning with a party of friends, among them being his employer, Tom Goor, a shoe dealer of Greenville. He had, it is said, been drinking. His friends asked him not to go into the surf, but he would not heed their warning. Five minutes later he was a corpse.

This is the first casualty experienced here since the beach was first used for bathing 35 years ago.

Funeral services will be conducted in Greenville Tuesday. The body was carried there last night.

Advocates Music at a Treatment for Tuberculosis

Minneapolis, June 16.—Music as an aid in the treatment of tuberculosis was advocated before the American Sanatorium Association at its annual meeting here today by F. D. Bell of the New York Tuberculosis Association.

Mr. Bell described the experience of the New York Tuberculosis Association during the past year in bringing singers, violinists, pianists, harpists and others to the wards of 16 hospitals in and around New York where tuberculosis patients are being treated. In addition to musicians various vaudeville actors and other entertainers were used. The value of this, Mr. Bell pointed out, is to divert the minds of the patients from themselves and their illness to other channels, and the effect in producing contentment and actual improvement in health has been marked.

According to Mr. Bell, the subjects for entertainment selected must be light, diverting and hopeful. The musical numbers were not classical, but were tuneful, melodious and for the most part something familiar. Hundreds of musicians and entertainers of all types donated their services for the entertainments given under Mr. Bell's direction.

MR. A. R. AVERETT DIED EARLY TODAY

Funeral Services Will Be Conducted Wednesday Afternoon at 2:30 O'clock

Mr. A. R. Averett, 52, died this morning at 8 o'clock after an illness of several months. Funeral services will be conducted tomorrow afternoon at 2:30 o'clock by Rev. W. A. Woolard, with interment taking place in the family burying ground at Mr. Louis McLawhorn's.

Mr. Averett was a well known and prosperous farmer and was held in high esteem by a host of friends throughout the country. He was vitally interested in the progress of his county and as long as health permitted took an active part in every phase of work for the betterment of his community. Shortly after coming to Pitt county he was married to Miss Sallie Braxton of Winterville township. He is survived by his wife, two daughters, little Misses Christine and Mary Alice, nine sons, George, Ernest, Philip, Willie, Joe, Albert, Amos Russell, Larry and Eugene.

SLIGHTLY INJURED WHEN CAR OVERTURNS DISMISSED FROM HOSPITAL

Mr. A. L. Murphy and Mr. Frank Davis of Farmville who received minor injuries on Sunday when their automobile overturned on the Farmville-Greenville road were dismissed from the Pitt Community hospital yesterday.

Birth Announcement.

Rev. and Mrs. F. B. Brandenburg announce the birth of a daughter on Monday, June 15th.

Girl Scouts Enjoy Week's Outing At Pamlico Beach

Among those who registered at Pamlico Beach Hotel for the weekend were: From Greenville—B. T. Rose, W. S. Galloway, W. H. Galloway, C. E. Gardner, Gentry Galloway, J. H.

Wilcox, J. B. Carter, C. H. McGowan favorite sport in the waters adjacent to the beach continue to report large catches. The prize for the past week for the largest string goes to Bob Brunson, Dave Turner, Roscoe Cox, and Happersberger, who landed 130 nice croakers in about three hours. Mike Mayo's party was a close second with over 100.

The Greenville Troup of Girls Scouts, under the direction of Miss Scarborough are enjoying their annual weeks outing at Pamlico. They are staying at the hotel and report a most pleasant time, bathing, fishing, eating, and sleeping are their favorite diversions, with several cases of sunburn to worry with. About twenty-six of the boy Scouts who were located at Camp Leach made the twenty-five mile hike from there to Pamlico Beach last Friday. They all came in in good shape, with the exception of a few blistered feet, and after a supper cooked over the camp fire and a good night's sleep were ready for the return journey. The hotel's truck gave them a lift as far back as Bath.

60,000 Insured In One \$150,000,000 Policy

The largest life insurance deal in history has been concluded by the underwriting, in Louisville, Ky., of 60,000 railroad employes for the staggering sum of \$150,000,000.00. The PRUDENTIAL INSURANCE CO. OF AMERICA will issue this enormous joint policy.

No medical examination will be required regardless of age. The giant policy will be effective July, provided 75 per cent of the employes accept the plan. The amount of protection afforded individuals is based upon their salaries, the lowest being \$1,000.00 and the maximum \$3,000.00.

It would pay you to investigate THE PRUDENTIAL policy before buying.

Notice!

In connection with a movement brought about by the local banks, business houses and offices, to take Wednesday afternoon of each week through the summer months as holiday, and after consulting the Pitt County Board of Commissioners, a conclusion was reached that the offices in the Court House would also be closed at this time.

As we serve the general public and do not want to inconvenience anyone, this additional notice is given.

Says Foreign Visitors Will Visit This State During the Summer

Raleigh, June 15.—"In an opinion that there will be a number of foreign diplomats to visit North Carolina during the present summer," said Governor McLean, who recently issued a proclamation calling upon officials to show these visitors every courtesy and consideration. They will bear identification cards, printed on which will be the coat of arms of the United States, printed in gold.

"It is highly probable," said the Governor today, "that a number of these gentlemen plan visits to our State, especially to the mountain sections. I think that is what the Secretary of State of the United States had in mind when he asked that I remind our people to extend them the proper courtesies."

Governor McLean added that he was highly gratified at the increasing popularity of North Carolina resorts, both in summer and winter.

Stock Letter
Yesterday's hesitation in stocks was more technical than anything else although the bearish made the most of the foreign news to bring about reactions. The oils were affected by the Pan American div., but will probably start up again today. Look for a higher closing all around.

Sterling 486 1-8. Frances 478. Lire 386.

Tribune of Grain
Crop conditions are regarded as too favorable for bulges in grain prices to hold, as seen by a majority of the trade. Whereas a week ago bears were decidedly in the minority, conditions are now reversed despite the fact that wheat values have declined seventeen cents from the high point of last Wednesday. With harvesting of wheat on in the Southwest and making rapid progress, and with generally excellent conditions in the North west, many operators can see only temporary upturns until there is a change in the crop outlook.

Liverpool wheat 2:15 p. m. down 2-1-2 to 3.

Cotton Summary
Cloth markets yesterday slightly firmer; inquiries more numerous, probably reflection of possibility of extended curtailment. Reports of increasing curtailment among yarn mills reached local houses yesterday from their southern connections.

German raw cotton weaving mills insured operation at full capacity for

Coffee
Although Brazil holds firm in the ideals for cost and freights and small sales are being made at their limits, future when foreign support is absent, show signs of decline. With present high prices it looks to us as if a sharp setback might be expected upon any unfavorable news being received.

Liverpool wheat opened down 3; at 1035 American wheat down 3 to 4 1-4 corn unquoted.

Stock Summary
Producers and refiners corporation earnings for year ending Dec 31, 1924 net income \$1,197,322 after depreciation and charges but before depletion vs. \$2,819,256 the previous year.

Katy declared regular quarterly div. of \$1.25 on pfd.

Car loadings in week ended June six were 994,874 increase of 74,360 over the preceding week.

Barnet leather declared regular quarterly dividend of 1-3-4 per cent on pfd.

Abuckee advance refined sugar 5 points to 5.60.

New Haven forms \$1,000,000 subsidiary to handle freight and passenger traffic over Bus lines.

Aggregate net income of class 1 roads for April \$74,428,216 vs. \$70,144,732 in 1924. Four months months \$301,088,033 vs. \$294,561,322.

Famous Players-Lasky Corporation signs 5 year contract with Ziegfeld for screen presentation of Ziegfeld productions.

General Motors retail sales in May were 87,531 cars and trucks vs. 97,242 in April and 84,715 in May 1924.

Average 20 industrial 129.48 off .95 20 rails 97.80 off .46.

The comfort and cushioning you get out of balloon tires depends on how soft you can run them with safety to the tire.

Even two or three pounds make a big difference.

It is therefore important for you as a car owner to know that U. S. Royal Balloons need not be over-inflated to save them from early and uneven tread wear or tread separation.

U. S. Royal Balloons are built of Latex-treated Web Cord. They have the new U. S. "Low-Pressure Tread."

This construction provides long tire service at even lower pressures than have been recommended in the past.

True low pressure means extra cushioning, added comfort and less wear and tear on your car.

Don't compromise to save your tires. Ride on U. S. Royal True Low Pressure Balloons.

Listen!

A report has been brought to my attention that it is being rumored throughout the city that I am closing down my Cleaning, Pressing and Dyeing Business to move to Florida.

THIS RUMOR IS UNTRUE!

My plant is in BETTER CONDITION NOW than since coming to Greenville to handle the work.

I am planning on opening a Branch in Florida—very likely that is the cause of the rumor, of my leaving town.

Just remember, I am at the same place, doing business in the same old way—except BETTER.

Let us have your cleaning, dyeing and pressing work. Hats cleaned and blocked.

Why we call them TRUE Low Pressure Balloons

THE comfort and cushioning you get out of balloon tires depends on how soft you can run them with safety to the tire.

Even two or three pounds make a big difference.

It is therefore important for you as a car owner to know that U. S. Royal Balloons need not be over-inflated to save them from early and uneven tread wear or tread separation.

U. S. Royal Balloons are built of Latex-treated Web Cord. They have the new U. S. "Low-Pressure Tread."

This construction provides long tire service at even lower pressures than have been recommended in the past.

True low pressure means extra cushioning, added comfort and less wear and tear on your car.

Don't compromise to save your tires. Ride on U. S. Royal True Low Pressure Balloons.

United States Rubber Company

The duties of the Department of Labor and Printing are: Collection, collation and publication of industrial statistics; supervision of the public printing; mine inspection and free employment.

The North Carolina Commission, created by the General Assembly of 1909, is composed of the Superintendent of Public Instruction, chairman ex-officio and four other members appointed by the Governor. Its functions are: to prescribe and enforce rules relating to the conferring of degrees by educational institutions;

Notes on Tarheelia
Up to 1870 tobacco grown in North Carolina moved to market largely through the earlier established Virginia markets of Petersburg, Clarksville, Danville and other centers. The growers would prize the tobacco into stout hogsheads and roll these hogsheads many miles to the distant markets.

The State Department of labor and Printing, established by the General Assembly of 1887, is one of the oldest State departments apart from those established by the Constitution. The duties of the Department of Labor and Printing are: Collection, collation and publication of industrial statistics; supervision of the public printing; mine inspection and free employment.
