M'LEAN APPROVES REWARDS MARTIN COUNTY CITIZENS

Five Rewards of \$400 Each Be Paid Men for Assistance in Arrest and Conviction of Needleman Mob

Raleigh, August 26.—Payment of five rewards of \$400 each to five Martin County citizens for their assistance in bringing about the arrest and conviction of members of the mob which took Joseph Needleman from the Martin County jail and mutilated him, was approved today by Governor McLean. The rewards had been withheld because the Governor had offered them for delivery of the men convicted to state's prison, while they were delivered to the Sheriff of Martin County. The rewards were approved by the Governor on recommendation of Solicitor Don Gilliam of the Second District. The Solicitor gave assurance that no further applications for rewards would be made and that no others would be recommended by him.

The check for the total amount of \$2,000 will be made payable to Solicitor Don Gilliam, it was stated at the Governor's office today, and he would distribute the rewards.

Needleman was taken from the jail and mutilated by members of the mob early in the spring following his arrest on a charge of an attack on a young girl. 28 of the 34 members of the mob were convicted, while the charge against Needleman was dropped. The citizens whose applications for rewards were approved were Tony T. Taylor, John F. Thigpen, John B. Bernhill, William T. Stone, and Edward D. Dodd, all of Martin County.

Suggests Germany Open Negotiations For Security Pact

Paris, Aug. 26.—The French note to Berlin on the security question suggests that Germany open negotiations for a security pact passed on membership in the League of Nations, and execution of the Treaty of Versailles.

The note insists upon obligatory arbitration in all cases "to make further recourse to arms impossible."

It rejects the German proposal for limited arbitration which might be applied to the Western German frontiers.

While convinced that the agreement is impossible, French emphasized that the Treaty of Versailles must not be tampered with.

"The entrance of Germany into the League of Nations is the only solid basis for mutual guarantee for a European accord," the note says.

Held Without Bail Charged With Murder Connection Death Sister

Burlington, Aug. 26.—Although Leslie Bass, 18 or 20 year old girl, died in a hospital here more than eight months ago, from blood poisoning caused, it is alleged, by an attempted illegal operation, the arrest of her sister, Beulah Bass Mariette, East Burlington woman, was not made until a few days ago. The latter is being held in the county jail at Graham, without bail, charged with the murder in connection with her sister's death.

The death bed statement of the young girl is said to have mentioned the name of her sister as the one in whose hand was used the crude instrument that is alleged to have caused the infection. Beulah Mariette has denied that she was responsible for any malicious action in connection with her sister's death.

Oak Island Military Reservation Will Be Sold September 16

Washington, Aug. 26.—The historic Oak Island military reservation located in the mouth of Cape Fear River of North Carolina, will be sold by the War Department on September 16. It was offered to the public today and sealed bids for its purchase will be opened on the date fixed for the sale.

Oak Island was acquired in 1835 and comprises an area of 2,750 acres. The Fort was first used in the Revolutionary War and was occupied during the war between the states by Confederate forces. Later it was taken by Federal troops and the government made a number of permanent improvements there.

SPECIAL OFFICERS GUARD CHINATOWNS EIGHT LARGE CITIES

Wide Spread Precautions Being Taken in Attempt Cut Short New Chinese Tong War

New York, Aug. 26.—Wide spread precautions were being taken by the police in nearly every large city of the east and middle west today in an attempt to cut short a new Chinese Tong war in which four Chinese have been killed and three wounded in the last 24 hours.

Extra details of police guarded the Chinatowns of eight cities. More than 100 Chinese have been arrested, some being held in connection with the murders, and others on suspicion.

The death toll seems to stand at four to nothing in favor of the Hip Sing Tong men. Police here learned that 75 telegrams to this effect were sent out from New York, and Boston to Chinese leaders of all the cities. On Leong Tong men have been murdered in New York, Chicago, Minneapolis and Pittsburgh, one in each city, while a former Hip Sing King of Chinatown in St. Louis, has been wounded. 75 Chinese were rounded up in Philadelphia on orders from General Butler, and 15 are being detained for further investigation.

After telephone conversations with Washington immigration authorities, General Butler intimated that all Chinese without government credentials would be deported. 30 were rounded up in Newark while Minneapolis police were ordered to disarm all Chinese in anticipation of further trouble during the National Hip Sing meeting for next month. Efforts to transfer the convention to Cleveland were described by the Secretary of the Cleveland On Leongs as an excuse to import a crowd of gun men to fight the On Leongs.

More than 150 extra police patrolled New York's Chinatown, while influential Chinese merchants sought to bring about peace. In Boston, where two Chinese and one white man were wounded, police succeeded in calming the Chinese quarters. Boston, Philadelphia, Washington, Newark, Baltimore, St. Louis and Pittsburgh, are strong On Leongs quarters. New York and Chicago are evenly divided, while the Hip Sing are strong in Cleveland and on the Pacific Coast.

Requests Governor To Give Hearing "Lost Land" Trouble

Tallahassee, Fla., Aug. 26.—The Governor of Florida has received information touching upon the Marco Island "Lost Land" controversy from but one of the parties concerned in the dispute. Sheriff William R. Maynard, of Collier county defender of the claim of the Island of Baron G. Collier, of New York, presented to the executive yesterday two petitions which ask that Governor Martin support the efforts of the Sheriff and disregard any charges brought against him by the opposing party.

William G. Williams, spokesman of the old settlers faction of the Island, has telegraphed the Governor requesting a hearing. Governor Martin telegraphed his consent yesterday, but nothing further has been heard from the rival claimants to the Collier holdings.

One of the petitions presented to the Governor was signed by all officers of Collier county, in which Marco lies. It declared the Collier claims were legal and the party involved should be protected. 400 citizens of Collier county signed their names to the second petition.

New Crop Cotton in Gaston County Has Already Been Sold

Gastonia, Aug. 26.—(AP)—All new crop cotton in this county has been sold. This is the statement of Frank A. Costner, city platform manager. No cotton is being sold on the local market, he says, and brokers have made tours of the county, but have failed to secure any new sales.

McMillan Arctic Expedition Resumes Southward Voyage

Washington, Aug. 26.—The McMillan Arctic Expedition has resumed its southward voyage after having been weather bound for several days on the north western coast of Greenland.

Backs Andrews

Wayne B. Wheeler, general counsel for the Drys, says the newly appointed Federal prohibition administrators will make good if given a fair chance.

WASHINGTON ROAD TO BE RE-OPENED MONDAY

Announcement was made by Mr. W. H. Rogers, of the Pitt County Highway Commission, this morning that he had been informed by officials of the State Highway Commission that the section of the Greenville-Washington hard surfaced highway just east of this city now under construction, would be re-opened for traffic on next Monday morning, August 31. There have been rumors that this road would not be opened in time for the opening of the local tobacco market, hence Mr. Rogers said he desired the public to have the correct information.

Jardine's Appointment Cooper Cannot Hold

Washington, Aug. 26.—The civil service commission announced today that it would hold an "open competitive examination" for the post of Chief of the Bureau of Agricultural Economics, a position to which the Agriculture Department had announced that Thomas P. Cooper, of Kentucky, had been appointed.

The Commission declared the place could not be filled in the manner chosen by Secretary Jardine, but it consented to a temporary appointment of Mr. Cooper pending an examination.

The appointee, who is Dean of the College of Agriculture at the University of Kentucky, was named to succeed Dr. Henry C. Taylor, whose tenure of office was abruptly terminated recently by the secretary. There have been threats of a congressional investigation of the matter, but today's announcement by the Civil Service Commission took no direct notice of that feature.

Sec. Davis of Labor Department Returns From Trip Abroad

Washington, Aug. 26.—Secretary Davis, of the Labor Department, returned to Washington today from a six week's trip abroad and immediately went into conference with Hugh L. Kerwin, the department's director on conciliation to acquaint himself with the present status of the Anthracite controversy.

Throughout the negotiations in Atlantic City between the miners and operators the conciliation bureau has had observers on the ground, and has made up a complete report for the information of Secretary Davis.

The conference today revived reports that the Federal Government might take a hand to prevent a tie-up when the present wage contract expires on August 31, but there were no developments today to support such a supposition.

French Agrees With Coolidge's Principle Capacity for Payment

Paris, Aug. 26.—The French Foreign Office appears to be in entire agreement with President Coolidge's reaffirmation at Swampscott of the principle of capacity for payment as a fair and just rule to apply to American's European debtors.

NAVAL HEADS STUDY CURTAILED PROGRAM OF BUDGET BUREAU

Navy Department Slices its Original Estimate by More Than \$40,000,000 at Request of Bureau

Washington, Aug. 26.—Budget paring and its possible requirements as to a curtailed program is engaging the study of Naval heads as well. Acting at the request of the Acting at the request of the Where \$535,000,000 was originally for the fiscal year 1927, the Navy Department has sliced its original estimates by more than 40,000,000, by arrangements to curtail activities all along the lines and perhaps abandon a number of eastern shore stations. War Department officials, at the same time, fear that the Army's budget, although there has been no authoritative indication of what the Bureau recommendations will be, will be limited to a figure that will necessitate dropping from 7,000 to 10,000 enlisted men and possibly 1,000 to 2,000 officers.

Where \$535,000,000 was originally asked, the Navy program is now understood to represent an outlay for the next fiscal year of approximately \$310,000,000. This compares with an appropriation of \$323,000,000 for the present fiscal year. Inasmuch as officials regard \$300,000,000 as about the minimum necessary for maintenance and operations purposes, it has been necessary in meeting Budget requirements to cut into plans for new construction as well as aviation developments in addition to curtailing the shore stations.

While conferences have not been concluded at the Navy Department on the situation, it is understood the revision estimates provided for closing of the Boston Navy Yard, the Charleston, S. C., Navy Yard, the Supply base at Brooklyn, N. Y., and either the Great Lakes or the Hampton Roads Naval Training Station. In taking this stand it is pointed out that recommendations of the board headed by Rear Admiral Rodman three years ago on the Shore establishment situation will be followed. The move also would be in line with the general trend of recent years in basing naval activities in the Pacific and thereby eliminate the necessity of so many stations on the western coast.

The present strength of 86,000 enlisted men is expected to be maintained but the original plan to utilize \$47,000,000 for new construction, most of which was authorized last year by Congress for new cruisers and other craft, but not appropriated, faces the prospect of sharp revision.

Automobilists Enjoy Lowest Gasoline Prices of the Year

New York, Aug. 26.—Automobilists of the country are enjoying the lowest gasoline prices of the year. In scores of cities motorists are paying from three to five cents a gallon less than the year's top price during the middle of July. The price in 30 respective cities however, is still about five cents a gallon above the low level last summer during the trade depression. In New York leaders in the oil business deny that a trade war is on, though they admit that there is a fight to obtain all the business offered. Price slashing is ascribed solely to over production, despite the heavy demand. The export demand fell off sharply during the recent high price levels, it is said in trade circles, and even now is far below normal.

French Agrees With Coolidge's Principle Capacity for Payment

Paris, Aug. 26.—The French Foreign Office appears to be in entire agreement with President Coolidge's reaffirmation at Swampscott of the principle of capacity for payment as a fair and just rule to apply to American's European debtors.

Battled Eel

FLORENCE MURRAY

A four-foot eel wrapped itself around the neck of Florence Murray, seventeen, off Lynn, Mass. She would have been strangled but for the aid of a youth. Before the eel gave up the fight it bit her on the left knee.

IMPERIAL TOBACCO PLANT IN OPERATION

Local Plant Busy With Georgia Tobacco Pending Opening of Local Markets

While there is still a week before the opening of the local tobacco market, activity in the tobacco industry here is already under way and the Imperial Tobacco Company's plant here is at present running at almost full capacity. The local factory is now employed in handling the purchases being made by the company on the Georgia markets and the work is being speeded up in order to have the Georgia crop out of the way before the opening of the market here. Shipments from the Georgia market are being received daily and the plant is working approximately 600 persons in its present operations.

The Imperial Tobacco Company's plant here is second to none in the company's entire system of plants. With its large redrying machines the plant is able to redry nearly a quarter of a million pounds of tobacco daily while the stemming machines can stem 60,000 pounds, in addition to the nearly 15,000 pounds stemmed by hand. When running at full capacity the plant employs more than 700 persons.

Among other improvements put in this year by the plant is the installation of oil burners for the boilers where formerly coal has been used. With this new improvement the boiler system is so arranged that the plant is assured against any shut down as a result of boiler trouble.

Troy Johnson May Teach to Support His Invalid Mother

Gastonia, Aug. 26.—(AP)—Troy Johnson, captain-elect of the 1926 baseball team at the University, may teach school during the coming winter, in order to support his invalid mother, instead of returning to Carolina as captain of the baseball team. Information from Bessemer City is to the effect that Johnson has been elected to a position in the Bessemer City Graded schools and that the position appeals to him. A home run from Johnson's bat last year won the first Virginia-Carolina game at Charlottesville.

EVERYTHING READY FOR OPENING CITY SCHOOLS MONDAY SEPTEMBER 7

School Administration Bringing to the City the best Equipped Teaching Force in History of Schools; First General Teachers Meeting Will Be Held on Saturday, September 5

The Greenville City Schools will begin their 1925-'26 session on Monday, Sept. 7. This date marks the formal opening of the schools. However, a great deal of school work will be done during the week preceding. The first general teachers' meeting will be held on Saturday, Sept. 5 at eleven o'clock in the morning in the present High School building. Following this general meeting of the teachers, there will be meetings of the teachers with their principals in the various buildings of the city.

The patrons and pupils of the various schools are asked to keep in mind the following announcements because they are very important. The High School. All members of the freshmen class of the high school and all pupils entering the Greenville High School for the first time, regardless of class, are to meet the high school principal, Mr. Keach, in the auditorium of the present high school building, Monday morning, August 31 at 9 o'clock. The Sophomores will meet at the present high school building Tuesday morning, Sept. 1. The Juniors will meet at the same place on Wednesday morning, Sept. 2. The Seniors will meet at the same place on Thursday morning, Sept. 3. Then the Freshmen class will report again on Friday morning, Sept. 4. All High School pupils who are going to take any examinations must meet at the High School building, this coming Friday morning, Aug. 28, at 9 o'clock. As far as the lower grades are concerned the following one announcement will suffice: All beginning first grade children who have not already been registered for entrance, and all other children entering the Greenville schools for the first time are to meet at the Evans Street School on Friday morning, Sept. 4, at 9 o'clock. Again all pupils who are entering the local schools for the first time, are urged to bring with them their report cards or transfer cards from the schools which they formerly attended. The parents are asked to remember that the law requires children to be vaccinated before entering school. As far as the teaching force is concerned, the local school administration feels that it is bringing to Greenville this year the best equipped force in the history of the schools. There is not a teacher in the school who has had less than two years of college work plus summer school work. The majority of the teachers are graduates of "A" grade colleges and have done graduate work in addition. During the past summer six of the teachers were at Columbia University while a number of others were in summer schools in various sections of the country. Miss King, head of the Science Department received her Masters degree this summer from the North Carolina College for Women. Miss Keeter, principal of the Intermediate school did work at Peabody this summer. Miss Christine Johnston of the Evans Street School was also doing work at Peabody. Miss Eugenia Thomas did special work in Public School music at Columbia University. Miss Evelyn Howell, teacher of Piano, spent the summer studying at the Peabody Conservatory, Baltimore. Miss Elizabeth Moore, of the high school math department, worked on her Masters degree at Columbia University. Misses Reid and Purvis spent the summer in study at the Asheville Normal. Miss Lillian Walker did special work in her line. Miss Ruth Graham at Columbia University. Miss Marian Lytle spent the summer in Europe, while Miss Hillhouse studied at the University of California. Mrs. W. W. Casey, Elizabeth City, (C. A. Bowen, of the high school

English department spent the summer at Columbia University doing special work in her line. Miss Ruth Townsend also spent the summer at Columbia University studying Primary Methods. The list of the teachers and principals follows: High School (in New High School Building). Principal, Mr. James A. Keach. English, Miss Irene Hand, Terry, Miss; Mrs. C. A. Bowen, Greenville. Science, Miss Katie J. King, Wilmington; J. B. Crater, Cycles. Civics, Miss Rachel Scarborough, Kinston. History, Miss Julia Franck, Fayetteville. Commercial Subjects, Miss Mary Huggins, Hopkinsville, Ky. French, Miss Mary Glenn Lloyd, Chattanooga, Tenn. Mathematics, Mrs. Luther Herr, Greenville. Latin, Miss Elizabeth Moore, Tupelo, Miss. Home Economics, Miss Kathleen Brown, Albertville, Ala. Piano, Miss Evelyn Howell, Oxford. Band and Orchestra, Mr. Eugene Robeson, Greenville. Intermediate School (in Present High School Building). Principal, Miss Eva Keeter, Marion. Grade 6, Miss Ernestine Forbes, Greenville. Grade 6, Miss Marie Reid, Rutherfordton. Grade 6, Miss Frances Wahl, Paris, Ark. Grade 6, Miss Moselle Jones, Elberton, Ga. Grade 7, Miss Lorrie Walker, Bedford, Va. Grade 7, Miss Helen Tomlinson, Smithfield. Grade 7, Miss Annie Laurie Hudson, Salisbury. Grade 7, Miss Louise Goggin, Shelbyville, Tenn. Piano, Mrs. Eltie Foxhall, Greenville. Evans Street School (Grade 1 to V Inclusive). Principal, Miss Eva Keeter, Marion. Grade 1, Miss Evelyn Smith, Ocala, Fla. Grade 2, Miss Christine Johnston, Greenville. Grade 3, Mrs. Elizabeth Savage, Greenville. Grade 3, Miss Janie Lysterly, Hickory. Grade 4, Miss Virginia Suther, Goldsboro. Grade 4, Miss Hazel Kennedy, Norfolk, Va. Grade 5, Miss Lillian Purvis, Scotland Neck. Model School (Grades 1 to V Inclusive). Principal, Miss Fannie McClelland, Memphis, Tenn. Grade 1, Miss Dora Coates, Smithfield. Grade 2, Miss Ruth Hillhouse, Waynesboro, Ga. Grade 3, Miss Ruth Townsend, Beaufort. Grade 4, Miss Marian Lytle, Detroit, Mich. Grade 5, Miss Fannie McClelland, Memphis, Tenn. West Greenville School (Grades 1 to V Inclusive). Principal, Mrs. W. C. Vincent, Greenville. Grade 1, Miss Pattie Smith, Greenville. Grade 2, Miss Laura Foley, Greenville. Grade 3, Miss Clossie Pickren, Folkston, Ga. Grade 4, Miss Urna Lewis, Vidalia, Ga. Grade 5, Mrs. W. C. Vincent, Greenville. Supervisor of drawing in all grades, Miss Dorothy Chamberlain, Ridgewood, N. J. Piano in all elementary schools, Mrs. Elsie Roxhall, Greenville. Public School Music in all grades, Miss Eugenia Thomas, Clayton. Matron of the Vines House, Mrs. W. W. Casey, Elizabeth City. (Continued on page six)

OUR LAST SUMMER HOLIDAY

Today's half holiday marked the end of Wednesday half holidays for the present season and after this week the businesses of this city will be open all day every week day. This summer is the first time that the business houses of this city have observed a weekly half holiday but the plan has worked out very satisfactorily according to opinions expressed by business men of the city and no doubt the custom will be observed again next summer and in all future summers. In return for the recreation and rest afforded employees by the half holiday the business houses have received better services and as a whole the plan has worked to the advantage of all.

Why all the squabble over whether or not the word "obey" shall continue to be a part of the wedding ceremony? Whether or not it is a part of the marriage vow little heed is paid to it thereafter and it only furnishes another point for those who seek grounds for divorce.

On next Tuesday all roads will lead to Greenville for those who desire to witness the opening of the Eastern Carolina tobacco markets. Greenville, with its central location and hard surfaced roads leading in from every direction, affording easy access will no doubt be visited by thousands of people.

President Coolidge now expresses the belief that propaganda is being spread in an effort to discredit his efforts at economy. No doubt the public believes that propaganda is being spread by the administration in an effort to make the country believe that the government is being operated along economical lines and that the tax payers are getting value received for the burdensome taxes they are paying.

Ford cars, according to announcement, may now be procured in colors. It has been suggested that each be of different color in order that local owners may rid themselves of the trouble they now experience in finding their car among the large number parked on our streets.

Announcement

The Cash and Delivery Store Adds Market

We wish to announce to the public that we have installed an up-to-date Market in our store located at 111 East Fourth Street and will be ready for your market business beginning tomorrow morning, Thursday, August 27.

We take this opportunity to thank our many customers and friends for the liberal patronage they have given us in the past and trust that we will be allowed to continue to serve you by supplying your needs in everything good to eat.

Remember—we deliver anything, anywhere, at any time.

LATEST STYLES SEEN IN MOVIES

Striking Costumes Are Worn by Virginia Valli in New Production. Virginia Valli proves a veritable fashion plate for fall and winter styles in her forthcoming production, "In Every Woman's Life," a First National feature at White's Theatre.

Miss Valli, appearing in this picture through the courtesy of Universal, wears a stunning array of evening gowns, afternoon frocks, suits, coats and hats. They were created specially for her by Clare West, designer for many of the motion picture stars, and are from designs especially selected by Miss Valli in New York.

Among the most striking things shown by Miss Valli is the introduction of a parasol that found favor during the racing season abroad. It is of green silk with gray lace over that, and opens outward on one side only. It forms a convenient sunshade without obscuring the view of those around you. It is also used when motoring in an open car.

COAL PLAYS LEADING PART IN INTERNATIONAL POLITICS

Berlin.—Coal still rises in Europe as an important political factor, being involved in many of the political and economic negotiations between the nations. Around it revolve many problems of industry, unemployment and diplomacy, with Germany, France, Poland, England and the Saar district all affected to a greater or less extent.

Recently coal proved the most important factor of a German-Polish controversy. Poland insists upon Germany taking a monthly allotment of 350,000 tons of Polish coal, whereas the German government has emphatically fixed the maximum of Polish coal imports at 100,000 tons.

The semi-official Deutsche Diplomatische Correspondenz pointed out recently the significance of coal as a political factor and cited how, in the economic negotiations between France and Germany that commodity had become the central object for consideration; how the problem of the Saar coal mines, the deliveries of war reparations coal, the growing importance of German coal in solving the acute ironore problem of the Lorraine mines, and many other similar developments all tended to place coal in the center of political discussions.

Unemployment in England has been attributed here, to a considerable extent, to the reaction that set in after their period of coal prosperity, enjoyed while competing fields in Germany's Ruhr district were involved in settlement of war reparations.

Temperaments Shake Hungary

The beautiful actress, Sari Fedak, wife of the Hungarian playwright, Franz Molnar, is fighting his suit for divorce in which he names forty-two correspondents.

CANADA LABOR BODY WANTS PROVINCES VOTE 8 - HOUR DAY

Ottawa.—An eight-hour day, enacted by legislation, will be urged at the 41st annual convention of the Trades and Labor Congress the first week in September. This organization is to Canada what the American Federation of Labor is to the United States. In addition to the eight-hour day other matters to come before the convention include old age pensions, immigration and unemployment.

The eight-hour day at present is extensively in force in Canadian industries but by agreement rather than as a result of legislative action. There is a question as to whether this legislation should be enacted by the Dominion Parliament or the legislature of the different provinces. Dominion law officers have held that the eight-hour day was a question for provincial and not federal legislative action and

when the question went over to the nine provincial governments. British Columbia was the only one to take action, contingent on the rest of the Dominion following suit.

Upon the insistence of labor men the question was referred to the Supreme Court of Canada, which decided that the only authority of the Dominion Parliament to legislate on the eight-hour day is in regard to servants of the Dominion government and to territory not within the bounds of any province. For the remainder, which comprises the industrial districts, authority to legislate lies with the provincial legislatures.

It is expected that the Trades and Labor Congress convention will take the stand that the Dominion government should enact legislation for an eight-hour day within the limited jurisdiction as defined by the Supreme Court ruling, which, it is argued would lead the way to similar action by the provinces.

CHANGEABLE WEATHER CAUSES THE LOSS OF NUMEROUS ARTICLES

Los Angeles.—Rain and sunshine play tricks on the average person's bump of forgetfulness and make

busy days for the lost-and-found department of the Los Angeles street railway. Alfred T. Clothier, manager of the department, said that 1,800 umbrellas left on the street cars in one day testified to this.

A rainy morning will find many street car patrons carrying umbrellas. Sunshine in the afternoon means a busy time for employees of the department, for hundreds of the workers and shoppers get off the street cars leaving their umbrellas still beside the seats they occupied.

An aggregate of 13,371 miscellaneous articles were turned in to the department during the first six months of 1925. Money found loose and in pocketbooks totaled \$3,883.57, of which \$1,282.18 was returned to the owners.

ROCKNE LAUDS FOOTBALL CHANGE GOVERNING KICK-OFF

Detroit.—Because the ball is to be kicked from the 40-yard line this season rather than from midfield, one of the greatest thrills in football, the return of the kick-off, will be more frequently experienced and the game will be a lot more fun for the

fellows in the stands and for players as well, in the opinion of Knute K. Rockne, coach of the Notre Dame eleven, writing in The American Boy.

A major result of the decision of the Football Rules Committee, in starting the kick-off from the 40-yard line without the tee, will be that teams will develop a strong kick-off return, said Mr. Rockne. He believes this play will take a big part in the 1925 campaigns. He will devote much time in drilling his team in the return of the kick-off.

Coach Rockne declares the recommendation of the Rules Committee that high school games be played in four 12-minute, instead of 15-minute quarters, "is a mighty wise one." The average high school team is not as husky and well-conditioned as a college or university team, he says, and elevens of younger fellows should profit by this advice.

MISS FRANCES WHEDBEE ENTERTAINS.

Hostess at Linen Shower in Honor of Miss Ruth Andrews, Bride-Elect.

On Tuesday afternoon at her home on west Fourth street, Miss Frances Whedbee delightfully entertained at a linen shower in honor of Miss Ruth Andrews, who will on Tuesday, September 8th, be married to Mr. Walter L. Whichard. The home, enroute, was decorated with summer flowers.

Upon arrival the guests were welcomed by the hostess, her mother, Mrs. H. W. Whedbee and Mrs. T. B. Wilkerson, of Durham. Six tables for bridge were arranged in the reception hall and drawing room and a number of interesting progressions were enjoyed. Mr. James Ficklen making the top score was presented an embroidered towel. The guest prize, a dornie, was given to Mrs. Jesse Hundley, of Durham, while the honoree was remembered with a beautiful negligee. The table prizes, hand painted vases of roses and smilax, were presented Misses Anna Long, Margaret Cook, Richmond Flanagan, Lillian Hooker, Bessie Brown and Mrs. Edward Foley.

After playing for an hour the guests were invited to the dining room where an ice course in green and white was served by Miss Ada James, Mrs. W. W. Lee and Mrs. Jesse Hundley. The table was beautiful. A large silver basket of bride's roses and smilax formed the center piece. A shower of Cupids fell from the lights over the table while streamers of masline were fastened to silver candlesticks containing green and white candles. Miss Whedbee brought the shower of linen in a large basket representing

dition is greatly improved and wish for him a speedy recovery.

Mr. John Karsnak, underwent an operation for appendicitis in the Park View Hospital, Rocky Mount, on last Monday. His many friends will be glad to learn that his con-

Trial of Negro Charged With Attacking Woman Called for August 31st

Wilmington, Aug. 26—The trial of Thomas Robinson, negro, charged with an attack on a young white woman, is expected to overshadow all others in the special term of court called for the week beginning August 31. The special term, in fact, was called as a result of the attack on the young woman.

The special term will take the place of the regular term which would have begun on September 14, it has been stated here. This is taken to mean that all cases docketed for trial at the regular term will come up two weeks earlier.

Sheriff Jackson, who will face the duty of bringing Robinson back from Raleigh for his trial has maintained complete silence as to the time, method, or manner in which Robinson would be brought from the capital. He said, however, that the negro would be in the court room when the case is called.

Water Shortage in Asheville Prevents Any Form Baptism

Asheville, Aug. 26.—(AP)—Asheville people who desire to be baptized must wait until after the water shortage is over here.

The city authorities have prohibited the use of city water for "baptism of sprinkling" so long as the shortage continues, and Dr. Willis G. Clark, rector of Trinity Episcopal church, has expressed his views of the action of the city authorities.

"The person who wrote that bulletin has no conception of the sanctity of baptism as a Divine Rite," Dr. Clark declares. If that is not the case, Dr. Clark continued, then "he is guilty of blasphemy."

In the former case, Dr. Clark concludes that "he is mentally deficient, and his placing the use of water for baptism on the same plane as the use of water for automatic toilets, cleaning floors, etc., is a clear index of such deficiency."

EDGECOMBE NEWS

Miss Mary Clyde Williams, of Williamston, Mary Louise Webb of Pineops, Julia Jenkins Dupree, of Rocky Mount, are the house guests of Miss Celia Mae Stalling at the home of her father, W. L. Stallings near Tarboro, N. C.

Mr. C. F. Dupree and family Mr. W. W. Stallings and family, Mr. Jimmie Reason and family, Mr. Stallings, Misses Ruth and Clyde Stallings of Tarboro, Mr. T. L. Harrison and son, T. L. Jr., were visitors at W. L. Stallings Sunday afternoon.

Mrs. T. L. Harrison, of Tarboro, is spending several days at Morehead City.

MR. RICHARD GORMAN UNDERGOES AN OPERATION

Friends of Mr. Richard Gorman will be glad to learn that his condition is greatly improved following a tonsil operation which he underwent on Monday.

Says Week's Weather and Crop Conditions Not Favorable

Washington, Aug. 26.—The weekly weather and crop report of the Department of Agriculture today says that in the South the past week conditions generally were unfavorable. The severe drought in the southern Appalachian Region including most of the adjoining states, was intensified by record breaking temperatures and a continued absence of beneficial rains, and all late crops are suffering badly in this area.

The weather in the cotton region was droughty during the week, but was favorable for picking and ginning, which made rapid progress.

For North Carolina the report said there were beneficial showers in the north central and north east, but the drought was without relief in the west. The late corn, truck, and minor crops improved where showers occurred. Conditions of cotton mostly very good in the east and central sections, but some further deterioration during the week due to shedding and weevil damage mainly in the south. A number of first bales reported. A fine crop of tobacco is about ready for marketing in the east, while curing conditions elsewhere.

To the Tobacco Farmers of Eastern North Carolina

In engaging in the warehouse business in Greenville we have one fixed and determined policy, to which we shall endeavor to adhere at all times, and that is SERVICE TO THOSE WE SERVE.

We have secured as co-workers with us in this business as capable and well qualified men as ever handled the sale of a break of tobacco and the policy we have adopted will cover the entire range of the business from the trucker who unloads your tobacco to the office man who hands you your check. The same careful attention and courteous treatment will be shown the small farmer as the large one and likewise we propose to handle our business in such a way as to make every buyer who follows our sale feel a personal interest in doing so. In other words, we shall endeavor to so conduct our business as to make it pleasant and profitable alike to both the seller and the buyer.

On the strength of our ability as warehousemen and the merit of the policy we shall pursue we ask the patronage of the tobacco farmers of Eastern North Carolina.

Yours very truly,

O. L. JOYNER SONS CO.

CANAL, FIRST TALKED OF 418 YEARS AGO, BE COMPLETED SOON

Marseilles. — A project that has been on foot 418 years will be realized October 1, when the last rocks that keep water of the Mediterranean out of the Rhone-to-Marseilles canal will be blasted. Then will have been finished a continuous waterway navigable by the largest canal barges from the North Sea to the Mediterranean, by way of the Rhine, Doubs and Rhone rivers and the Rhone to Marseilles canal. The work will have cost 216,000,000 francs and besides the record for time consumed in its realization it will have surpassed all tunnels in Europe in rock and earth removed.

From the tunnel part of the canal which is only five miles long, 2,300,000 cubic yards of earth and rock were taken, beating the record of the Saint-Gothard and Simplon tunnels in Switzerland which are longer, but much smaller.

When Richelieu came upon the scene of European politics as minister of Louis XIII he found the proposals for this canal in the archives of the state awaiting action. Religious controversies occupied the attention of France to such a broad scheme. Richelieu and Louis XIII passed from the scene of action and all the rest of the French kings came to light. It was resurrected in 1820 for a brief inspection and again forgotten until 1840, when a functionary of the public works department drafted a plan for the realization of the project. It took 39 years more to get it before parliament and 24 years more to get it voted. Finally, the creation of a canal from the Mediterranean in the vicinity of Marseilles to the River Rhone at Arles, a distance of 81 miles, was authorized by law in 1903. It took eight years more to complete the preparations for the work, which was begun in 1911 and has continued uninterrupted since in spite of the World War.

The new waterway completed by the Rhone-to-Marseilles canal is the first effectively cut what is called "The European Isthmus" composed of Holland, Belgium, France, Spain and Portugal and furnish a short cut from the North Sea to the east by water to the Mediterranean.

FOREIGN TRADE OF KOREA SHOWS HEALTHY INCREASE

Tokyo.—Following up last year's advantage of nearly a 20,000,000 yen export surplus, the trend in Korea's foreign trade continued to show remarkable improvement during the first five months of the year. Statistics show that Korea shipped abroad and to the mainland merchandise valued at 142,000,000 yen as against the favorable condition is reflected in the trend of the money and finance markets where plenty of credit is available for legitimate requirements. The statement of the clearing house banks in the principal business centres of the territory shows deposits are ever on the gain, standing at 130,000,000 yen at the end of May, an increase of more than 15,000,000 yen over a year ago. A study of the details discloses that, while there was a slight decline in current deposits, there were notable increases in fixed accounts, which were larger by more than 7,000,000 yen than a year ago.

On the other hand, advances were down to 139,000,000 yen at the end of May as against 167,000,000 at the end of January this year.

Claude Holcombe and C. Z. Stevens, convicted of conspiring to kidnap Mary Pickford in Los Angeles, were sentenced to ten to fifty years at San Quentin Penitentiary. A jury considered the case for three weeks.

FRENCH LABOR WANTS LABOR GUARANTEE, SAID

Paris. — Finance Minister Caillaux's gold coupon loan has made guarantees against risks of loss thru depreciation of the franc the question of the day.

Labor agitators say that the workman is entitled to the same guarantee as the investor and that wages must be guaranteed in the same ratio as interest on bonds. The movement has extended to office employees, functionaries and state pensioners. Its supporters find the argument in the government's loan prospectus and some apprehension might be entertained as to the consequences if it were not for the reinsurance furnished by bankers and financial experts who believe the Minister of Finance has a safe margin in the rate of guarantee of 95 francs to the pound. They agree generally that the franc ought not remain long below that figure and that it may even rise above it slightly if the gold coupon loan turns out to be the success that it now promises.

With the floating loan reduced to innocuous proportions Caillaux, they predict will be able to put through parliament at the next session the new taxes with which he proposes to provide a sinking fund for debts, then there will be no longer any reason to apprehend disaster to the franc.

It is pointed out in reply to the demand of labor that the workman is far better off generally than the small bondholder. His wages as compared with the prewar rates have been quadrupled while office salaries, government pay and pension rates have not been doubled on the average. They are in paradise, it is remarked, as compared to the small investor whose rate of interest on prewar investments has remained the same and whose capital has dwindled to half the original investment. The latter has no way of increasing his income or of preventing the scaling down of his capital, while the laborer has amply succeeded in solving the problem for himself, it is argued.

next next year will mark the 50th anniversary of the Bayreuth Opera House, there will be no Bayreuth festival to celebrate the event. Even the significance of such an anniversary cannot induce the powers that be to relax the custom of having the festival on two consecutive years with an intermission the year following.

In 1927, however, there will be a compensating festival with "The Ring" and "Parsifal," while "Rienzi" will be produced for the first time.

Three Sets Parents Having Dispute Over Graves of Children

High Point, Aug. 26. — (AP)—The city council of High Point has been called upon to help settle a dispute between three sets of parents over the location of the graves of dead children.

Each of the parents claims that his child was buried in a certain lot, and J. E. Stader has asked the council for permission to open the grave and establish the exact location of the grave of his child.

The dispute started when Mr. Strader erected a monument at the location of what, he says, is the grave of his child, and when the monument was removed by another parent, whose child was buried at the spot, he claimed. A queer part of the situation is that none of the parents have their children buried on the plots that their deeds called for, their plots being some distance away.

Plans Early Start for 1926 Football Season in Gastonia

Gastonia, Aug. 26. — (AP). An early start of the 1926 football season by the Gastonia high schools is being planned by Coach Pat Crawford. Twelve letter men, in addition to other candidates are expected to be on hand September 1, to begin work toward perfection of the 1926 machine.

WASHINGTON AND LINCOLN MEM. IS PROPOSED, DAKOTA

Rapid City, S. D. — A national shrine, modeled from one of nature's vagaries, and situated in the beautiful Black Hills of South Dakota is the vision of Gudrum Bodglum, the sculptor, and a group of South Dakota residents who view the Black Hills as the greatest undeveloped wonderland in the United States.

The shrine would be a monument of Washington and Lincoln, standing side-by-side, their figures carved from a huge needle-like piece of granite which towers 200 feet above its immediate base.

Bodglum has long held this vision. He expects soon to visit South Dakota to discuss details for raising the \$1,000,000 necessary to its completion.

In the Black Hills there is a group of rocks that rise perpendicularly as high as a 15 or more story office building. The rocks are known as The Needles. One of these has withstood the elements more than its neighbors and there remains a wide base from which ascends a shaft tapering almost to a point. This shaft rises to a height greater than any elevation east of the Rockies except Mount Harvey itself in the Black Hills.

Situated among virtual mountains of red, purple and gold, their slopes dotted with towering pines, the proposed memorial rock may be seen for miles before the long, slowly ascending trail finally brings the visitor within its shadow.

Here Bodglum found a setting for a national memorial.

With the advice of several South Dakota residents, Bodglum chose as the character for this memorial Washington and Lincoln, two outstanding figures in American history, whom he knew would appeal to the patriotism of every corner of the United States.

Information reaching supporters of the memorial in this state indicates that the financial problem will be met. Several wealthy persons have listened sympathetically to the plan and it is understood one New York multi-millionaire virtually has agreed to finance the project single handed.

One Killed, Another Wounded in Drill On Board Oklahoma

Washington, Aug. 26.—One man was killed and another seriously wounded yesterday during a turret drill on board the battle ship Oklahoma, enroute from New Zealand to Samoa.

Proprietor of Chinese Restaurant Shot and Fatally Wounded

Baltimore, Md., Aug. 26.—Louis Kwong, proprietor of a Chinese restaurant here, was shot and fatally wounded by two unidentified Chinese today. Kwong died enroute to a hospital while his assailants escaped.

Cotton
Sentiment is probably more bearish now than for some time and there seems to be little disposition on the part of either the trade or speculative, the market with buying orders, under the condition it likely to expect a graduated decline.

Cotton Summary
Local rains fell in east Texas and along South Coast yesterday. Fair weather indicated for today and tomorrow east of Mississippi. Generally part cloudy over southwest with local rains.

Weather Bureau reports a disturbance of slight intensity central about 200 miles east of Charleston, moving slowly north eastward.
David R. Coker, Hartsville, S. C., predicts largest staple crop since 1920 other central and eastern belt authorities also predict excellent staple cotton crop of unusually fine character.
Manchester says Russian textile syndicate now in Manchester has placed no orders.
Honolulu dispatch says 1925 Hawaiian sugar crop will exceed 781,400 tons, the largest harvest in history.
The Fairchild cotton yarns number for week end Aug. 22 is 40.63, against 41.01 on Aug. 15. Recessions due principally to low offers by dealers.
Spinners hold firmly for higher prices sales of 30,000 pieces print clothes made in local market. Cotton yarn buyers hesitating because of further decline.

Weather
Past week generally fair eastern and central belt. Moderate rains well scattered over Texas. Weather considered unfavorable eastern belt.

Weekly Weather
Fair weather helpful central belt. Arkansas and Oklahoma scattered rains Texas considered favorable. Spots increasing in large volumes. Considerable picking northern half belt.

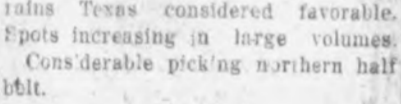

Liverpool
Sales 390, mid. 1289, Jan. 1218, Mar. 1232, May 1229, Oct. 1223, Dec. 1216. Dne, F. 12.18, H 15, K 33, V 31, Z 31. Liverpool wheat opened down.
The advance in yesterday's market was due to the apparent uneasy position of the short interest as owing the holiday in Santos and Rio no importance news was received. We see nothing in the situation to indicate other than a continued firm demand.

Sugar
The market yesterday having emerged on a firmer basis after the issuance of the stop page of notices, the enter situation appears clarified and we anticipate better prices.

Grain
The bearish sentiment was more pronounced among many traders last night and the impression prevailed in some quarters that unless he was a change in conditions a sharp break might be witnessed. Commission house opinion was divided. A majority of bulls were changing their position and anticipated a lower range, especially if the free selling of September is resumed again today.

Ford Announces Improved Line of Body Types

Body changes and chassis refinements more pronounced than any made since the adoption of the Model T chassis were announced here today by the Ford Motor Company. There will be no advance in price, it also was stated that production at the Norfolk Branch should start by the first week in September.

Outstanding features of the improvements in both open and enclosed types are lower, all-steel bodies on a lowered chassis, complete new design in most body types, a change from black to color in closed cars, larger, lower fenders, newly designed seats and larger, more powerful brakes.

Longer lines, effected through higher radiator and redesigned cowl and bodies are apparent in all the improved Ford cars, but are especially pronounced in the open types. Wide crown fenders hung close to the wheels contribute to the general effect of lowness and smartness.

While Runabout and Touring Car remain in black, the closed bodies are finished in harmonic color schemes, enhanced by nickel radiators. The Coupe and Tudor bodies are finished in deep channel green,

while the Fordor is rich Windsor Maroon.

Greater comfort is provided for driver and passengers in both open and closed cars by larger compartments, more deeply cushioned seats and greater leg room.

Many new conveniences are also incorporated in the improved cars. In the Runabout, Touring Car, Coupe and Tudor, the gasoline tank is under the cowl and filled through an ingeniously located filler cap completely hidden from sight by a cover similar in appearance to a cowl ventilator. One-piece windshield and narrowed pillars in the Tudor and Coupe offer the driver greatly increased visibility and improved ventilation.

Driving comfort is materially increased by lower seats, scientifically improved brake rests, and lowered steering wheel. Brake and clutch pedals are wider and more conveniently spaced.

Four doors are now provided on the Touring Car and two on the Runabout permitting the driver to take his place from the left side of the car. Curtains, held secure by rods, open with the doors.

Most important in the mechanical changes are the improved brakes. The transmission brake drum and bands have been considerably increased in size which gives the foot brake softer and more positive action as well as longer life. The rear wheel brake drums are larger and the brake of self energizing type.

Cord tires are now standard equipment on all Ford cars.
FORD MOTOR COMPANY,
Detroit, Mich.

Ladies! Complexion Worries Ended At Last

This Delightful New Vanishing Cream Containing True Buttermilk Cream Make You Look Years Younger Or Money Back—Just Try It

Get a small quantity at any pharmacy or toilet goods counter, simply asking for Howard's Buttermilk Cream, and massage it daily into the face, neck, arms and hands. The directions are simple and it costs so little that any girl or woman can afford it. Your complexion must quickly show a decided improvement or your dealer is authorized to return your money without question should you be dissatisfied.

No matter whether you are troubled with wrinkles, hard little lines around the mouth and eyes, coarse, sallow, faded looking skin, or simply roughness and redness caused by wind and sun, you will find that all these trials quickly disappear with the use of this old-fashioned beauty recipe brought up to date.
Howard's Buttermilk Cream is only sold by Pitt Drug and all good druggists on a positive guarantee of satisfaction or money back.

Messrs. Moseley Bros., City, Gentlemen:

I am in receipt of your check, covering full amount due me under my accident and health policy, on account of my recent sickness.

I certainly appreciate the prompt and business-like manner in which you handled this claim.

Very truly yours,
JAMES L. LITTLE

EVERYTHING IN READINESS FOR OPENING CITY SCHOOLS MONDAY, SEPTEMBER 7TH

(Continued from page one)
Mr. Keech, the principal of the high school, comes to the City Schools from East Carolina Teachers College where he has been Head of the Department of Chemistry. He is a thoroughly trained man, having already received his Master of Science degree from Columbia University. This summer he has been back at Columbia University doing work on his Ph.D. degree. In addition to his work at Teachers College where he made a splendid record as teacher, he has also taught two years in the high school of Bristol, Conn., and three years in the high school at Yonkers, N. Y. In all of these places he has had marked success and the local school board feels itself unusually fortunate in being able to secure a man with such a record. Mr. Keech and family will occupy the Christian Parsonage on Eighth Street.

Mrs. W. C. Vincent, the principal of West Greenville School, is a graduate of North Carolina College for Women. For a number of years she was principal of one of the largest consolidated schools in Edgecombe county, the Dixie High School. She has substituted in the local city schools for the past two years where she has done excellent work. She has had unusual success in organizing a community around the school, making the school mean something to the adults as well as to the children.

Miss Keeter, already well known to all Greenville people, will have charge of both the Evans Street

R. T. COY.

Bus leaves Greenville every day:
4:30 p. m.—For Tarboro, Rocky Mount, Bethel, Williamston, and Norfolk.

School and the Intermediate School. She will also act as supervisor of instruction for the West Greenville School. She has been at Peabody College during the summer still further equipping herself for her larger work.

Miss McClelland, who will return as principal of the Model School, has done a very fine piece of work since she assumed charge of this school, and its patrons will be glad to know that she is returning.

High School athletics will again be in charge of Mr. J. B. Crater who did so well with this work last year. A new football field has been prepared behind the new West Greenville School. This field will be in ideal shape by the opening of school, and since it is so much nearer in than the Fair Grounds, Mr. Crater feels that he can put out a much better team this year than last. In the past the problem has been how to get the boys out to the Fair Grounds for practice.

Both of the new buildings will be ready when school opens. Concrete walks have been laid at the West Greenville School. The site is being plowed up so that grass and flowers and shrubs can be planted. This building and grounds will be the most attractive elementary school in the city.

The new High School building is one of the finest in Carolina. And when the ravine in front is beautified, and when the third building is finally placed in between the two buildings, there will not be a finer school plant anywhere.

The parents of the town are urged to remember the geographical lines by which the city is zoned for schools. The West Greenville zone includes all that territory west of the Atlantic Coast Line Railroad and south of Fifth street and its extension. Also all the school district outside of the corporate limits of the city west of the said railroad. The dividing line between the Evans Street and Model Schools is a line running north and south in the middle of Evans street. All the sixth and seventh grade children of the town attend the Intermediate School. In some cases, the schools will find it necessary to "transfer" children from one building to another in order to avoid putting "on" another teacher, thus saving expense, but all such cases will be taken up with parents first.
