CRIPPLED TRANS PACIFIC SEA PLANE FOUND WITH ALL MEMBERS CREW ALIVE

United States Submarine R-4, Finds Sea Plane PN-9 No. 1., Which Had Drifted 450 Miles From the Point Where it Dropped Into the Sea

Honolulu, Sept. 11.—(AP)—Commander John Rodgers and his intrepid crew of four of the lost trans-Pacific air plane PN-9, No. 1 are alive and well. The crippled eagle with its precious burden of trail blazing adventures, was found late yesterday riding atop choppy seas by a monster of the deep, the United States submarine R-4. Lost 218 1-2 hours after a plung from the air on a non stop flight from San Francisco to Honolulu, the brave little force in every sense except officially had been given up as lost martyrs to most efforts to overcome the elements.

Today their tiny craft was in tow of the submarine and they were enroute to the Island of Kauai, off the Hawaiian group, toward which the United States destroyer McDonough was rushing with medical officials to give any attention necessary. That Commander Rodgers and his crew were in good physical condition was attested by the brief message reporting the rescue. The first message was brief. It was devoid of details and merely gave to a waiting world the information that the five men had been dragged back from the sea; that they were well, and that the plane had been taken in tow by the R-4.

The second message stated that the vessel was expected to reach the Island by 8 p. m. Since the big plane reported that its gasoline supply was gone and that an emergency landing probably would be necessary, it had drifted approximately 450 miles in a line almost due west from the point where it had dropped into the sea. Exactly where that point was and just far the floating air craft drifted can never be known.

The PN-9, No. 1 was found fifteen miles off the Island of Kauai and 64 miles northwest of Oahu, upon which is Honolulu, and toward which the sea plane was headed. After her wings were clipped by the exhaustion of her gasoline supply, the plane made progress slower than calculations of the searching navy forces had indicated. It was sighted yesterday at a position over which the flotilla of naval craft had cruised last Saturday near that in which the line sweeper Whimperwill reported two days after the search started that she had seen a white flare and two red rockets. The big plane forced down within an hour's flight of its destination, was captained by Commander John Rodgers, a Veteran of the flying forces.

Receipts of the news of the safety of the plane, which had carried its burden of five men safely more than nine days on an allies element, caused a scene of rejoicing among the people of Honolulu, and the men and officers of the fleet here after its visit to Australia and New Zealand, which compare only with the celebration at the time of the signing of the world war armistice. At a hotel where numerous dinner parties were being attended by officers of the visiting fleet, the news was announced. Silence fell and then some one broke into "Praise God From Whom all Blessings Flow," and a hundred or more guests joined in the psalm of thanksgiving.

At 11:25 last night joyous message 11:25 last night the joyous message of the arrival in port was intercepted. The sea plane landed at 11 p. m. three hours after it was towed into the harbor by the submarine. The air craft dropped anchor and small boats went to her assistance. When the happy crew reached shore the men were taken to a hotel where doctors inspected the men. Commander Rodgers was the last man to leave the plane, thereby upholding one of the Navy's oldest traditions. (Please Turn to Page Two)

MEDICAL SOCIETY HELD INTERESTING MEET LAST NIGHT

Program Featured by Several Addresses; Dr. W. H. Dixon Tells of Work of Caswell Training School

The Pitt County Medical Society held its regular monthly meeting on Thursday evening at the Rotary Club with Drs. Joe Nobles and T. G. Basnight, hosts. The supper which was one of the most tempting ever served was indeed a treat, and was thoroughly enjoyed.

The program for the evening was featured by an entertaining and practical paper by Dr. Joe Smith, discussed by Dr. Grady Dixon. Both the paper and the discussion proved helpful and enjoyable. Dr. Thompson, of the Pitt Community Hospital spoke interestingly on "Gas Gangrene," while Dr. Dickinson, also of the hospital, told of a "Gall Bladder Case." Both talks were instructive and were listened to with a great deal of interest.

The following members were in attendance. Drs. Dawson, Nobles, Hemmingway, Williams, Outland, Smith, Pace, Skinner, Garrington, Dickinson, Greene, Thompson, Ellen, Wilson, W. H. Dixon, Grady Dixon, Basnight, Wooten, Laughinghouse and Schultz.

The society was delighted to have with them Dr. W. H. Dixon, formerly of Ayden, now Supt. of the Caswell Training School, who told in a few words of the work of the school and other interesting facts connected with same. Dr. Crisp, of Falkland was a guest of the society.

The next meeting will be held in Ayden with Drs. Dawson and Grady Dixon, hosts.

Says Crop Conditions Not Nearly As Bad As Were Painted

Raleigh, Sept. 11.—(AP)—Crop conditions in western North Carolina are not nearly so bad as they have been painted, Frank H. Jater, editor of Farm publication for the extensive division of State College, said today on his return from a trip to the mountains.

Mr. Jater visited three counties, Buncombe, Henderson and Pennsylvania, and he reports some good crops in those three.

"While the crops are short, of course," said Mr. Jater, "the people up there are not starving by any means." In fact he said he found considerable optimism among the farmers that the season would turn out better than had been expected.

Some good crops are reported in Pennsylvania, and in all three counties Mr. Jater said he saw some good fields of bottom corn, good sorghum, good crops of potatoes and considerable hay.

Alfred Ross Is Shot and Injured By Dick Dail

Dick Dail, white man, residing in the Cotton Mill section, on last evening shot Alfred Ross, white, inflicting painful but not serious injuries. Dail is being held in jail on a charge of assault with deadly weapon.

According to Dail, Ross with a strange woman alleged to be married and a resident of Elizabeth City, had been calling at his house. He had warned Ross and told him to stay away. On last evening when he, Ross, approached the house accompanied by the woman, Dail became exasperated and shot him, the entire load of bird shot entering the left side of Ross. Due to the two men being a distance apart, the shots proved ineffective. Ross was taken to the hospital and the shot removed. He is getting along nicely. (Please Turn to Page Two)

SCOUT TROOPS TO HOLD JOINT SESSION HERE THIS EVENING

Promises to Be Largest Session Local Court Has Held; Big Number Scouts Ready to Advance

Scout troops of the city are holding a joint session in connection with the September session of the court of Honor in the High School auditorium at 7:30 tonight. This promises to be the largest session the local court has held and a fine attendance of Scouts and parents is expected.

When a Scout wishes to advance from one rank to another he appears before one of the monthly sessions of the Court of Honor and the members of this court make sure that he has satisfied all the necessary requirements and is qualified to be promoted. This court is made up of leading men of the city who are deeply interested in boys and in what are doing.

A large number of Scouts are ready to advance in rank and still a larger number of First class Scouts have qualified for Merit Badges in various subjects so tonight's meeting promises to be both interesting and instructive. Parents and friends of boys are cordially invited to attend.

OLD FAVORITES ENTER AGAIN IN AUTO CONTEST

Several Strong Contenders Start First Day in Reflector's Circulation Drive; Fair Play to All Will Be Watchword

The Daily Reflector's \$2,700 circulation and prize campaign had its opening day yesterday. Several workers came in with their own nomination while two or three nominations came from friends who sent in the name of their favorite. Persons interested can nominate themselves or they can be entered by a friend.

Among the self entries yesterday were Miss Lillian Hooker and Mrs. Frank Denier, both of Greenville, Miss Hooker being the winner of the Buick car which was first prize in the subscription contest staged by The Reflector a year and a half ago. Mrs. Denier on that occasion won second prize which was a new Ford Coupe.

The entry of both of these ladies again in our campaign this year should be ample testimony for fair play which we pledge will prevail all during the campaign as it did before. To those who hesitate about entering fearing that something other than hard work is connected with the winning of the automobiles, we want to say once more, that nothing will enter into the winning of any one of the seven prize listed other than ambition and good hard work.

The prizes are well worth anybody's time and attention. A Hudson-Six Coach that sells delivered from Lang Motor Co. for \$1,335 heads the list. A new 1926 Ford Coupe from the Flanagan Buggy Co. comes second; a \$250 3-piece Living Room Suit is third, \$187 Dining Room Suit of 10-pieces is fourth. Both sets of furniture are purchasing and may now be seen at Quinn-Miller Co. A Radio Set that comes complete and installed anywhere here in Pitt County is the fifth prize. Smith Electric Co. of Greenville is the place where the radio may be seen.

Two cash prizes of \$50 and \$30 complete the list of seven prizes. After these prizes will come the commission winners who will be given a ten per cent cash commission on all subscription money turned in.

Everyone thinking about entering should bear in mind the fact that all taking part will win something. There can be no losers. All you need to win is the ambition and energy to devote a little of the time you usually devote to other things. (Please Turn to Page Four)

TEACHERS CONFAB CLOSES AFTER TWO DAYS' SESSION HERE

Closing Session Featured by Address by Superintendent A. T. Allen on "Pitt County's Place in the Progressive Educational State Program"

The Teachers Conference which has been in session in this city for the past two days came to a close this afternoon. At the noon hour today ice cream was served the teachers through the courtesy of Horne-Station Drug Company. This afternoon's session was featured by an address, "Pitt County's Place in the Progressive Educational State Program," by Supt. A. T. Allen.

Yesterday afternoon's session of the conference was given to sectional meetings, which followed an address by President R. H. Wright on "Is Teaching an Art?"

This morning's session was largely attended and the program was both interesting and instructive. The general topic was Checking Results of the Year's Work. Miss Bertha Lee Ferguson told of the "Wholesome School Lunch," while Mr. L. C. Brogden spoke on a "Worthwhile Group Teachers Meeting." The music feature of the program was rendered by the Model School Children.

In addition to Supt. Allen's address this afternoon's program consisted of talks, "Definite Data on the Pitt County Schools," R. G. Fitzgerald, "Presentation of some facts shown by Standard Tests," Miss Myrtle Brogden; The introductory and concluding remarks were made by a member of the Board of Education. Supt. Allen said in part:

"One of the first things that I would apply to a county school system is whether or not furnishes all of the children on a county wide basis, a minimum school term of eight months. When we apply this test to Pitt county, we find that it provides an eight months school term or a longer term for 58.7 of its white children. The other 41.3 go to school a shorter term than that. That is considerably better than the average in the state. The state as a whole, only 45 per cent of its white children go to school this long. The one teacher school is another test that we apply. There are certain counties and certain situations in which we will never get rid of one teacher schools. The average teacher in Pitt county has had one and one half years of training beyond graduation from the standard high school. That is more than above the average in the state, which is very commendable. In the building program, this county has spent \$90 per white child in building. The average in the state is \$63. According to reports in our office, it will take about \$150 per child to complete the building program in a county unless he is a very fine business man. Another test we apply is the matter of high school attendance. I find, from looking over our record, outside of Greenville and Ayden, four standard high schools in the county 8 1-2 per cent of the white school population is enrolled in some sort of high school. There are more non standard high schools than standard. Pitt county has added to its supervisory staff a very competent person for the improvement of class room instruction and for other purposes. This has been in effect for five years. You do not appreciate how much that means unless you have taught in a county that doesn't have a superintendent. (Please Turn to Page Six)

JOSEPHUS DANIELS PAYS TRIBUTE TO WILLIAM J. BRYAN

Member of Wilson Cabinet With the Commoner Addresses Thirty Men Who Plan a National Memorial to Mr. Bryan

Washington, District of Columbia, Sept. 11.—(AP)—Tribute to William J. Bryan as a "Man who loved his country more than himself and worshiped God in the beauty of holiness" was paid here by Josephus Daniel editor of Raleigh, N. C., and a member of the Wilson Cabinet with the Commoner. Mr. Daniel was addressing a group of 30 men gathered from all sections of the country to plan a National Memorial to Mr. Bryan to be located at Washington.

Mr. Daniel declared that the movement to found a memorial to the Commoner was not confined to the latter's friends who desire to honor his memory, but was an unorganized and voluntary feeling for a permanent shrine on the part of hosts of Americans and "some other countries, as well and wherever men and women long for liberty and the outlawry of war." He spoke of the gratification it was to friends of the late Democratic leader "that many who held views diametrically opposed to his political and social and religious creed, wished to share in the erection of a permanent memorial."

"It is their thought, and ours too, that the memorial, or monument, or statue now to be erected to Bryan the Commoner who hased [has] done Khaki to bring justice to Cubans; Bryan the orator who employed his incomparable gift to spur the hearts of men to holy aims; Bryan the citizen who illustrated and inculcated a deeper consecration to Government untouched by class or creed or selfish purposes; Bryan the statesman whose leadership did much to secure four amendments to the Federal Constitution and to substitute reason for forces in the settlement of international differences; Bryan the patriot whose faith in his country was unclouded; and finally Bryan the Christian whose pure public and private life was the fruit of an unclouded faith and whose chief aim was to uphold the religion that shaped all his actions."

Friends of Bryan Confer on Plans for Suitable Memorial

Washington, Sept. 11.—(AP)—Friends of the late William J. Bryan gathered here today to confer on plans for the erection of a suitable memorial to the Commoner.

Josephus Daniels, who as Secretary of the Navy, served in the Wilson Cabinet with Mr. Bryan and who has taken a prominent part in the movement to erect a memorial to Bryan, acted as chairman of the group. It is expected that the memorial will be erected in Washington, although there has been no definite decision as to location.

Negro Graded School Will Open Monday

The Elementary and High School for Negroes begins registration Saturday morning at 8:45 a. m. Work in the class rooms begins Monday morning 8:30. Principal and teachers promise to do their very best for the children and the community.

FEATURE FOR FARMERS ADDED

Attention, especially of all farmers in this section, is called to the "Farmers Appeal" section of this issue which in the future will be a regular Friday feature of this publication.

We have secured the services of Mr. O. L. Joyner as editor of the Farmers' Page and he will have entire charge of same and will furnish material therefor. At this particular time the feature will deal with tobacco conditions throughout the belt together with timely information and advice to the farmers. Mr. Joyner is one of the pioneer tobaccoists of Eastern North Carolina and is thoroughly familiar with conditions. In former years he has been connected with the publication of farm papers and his experience will mean much toward the success of this feature and the information to the farmers will no doubt prove invaluable.

EXPLOSION OF BOILER WRECKS GIN NEAR HERE

STEALS TOO MANY AUTOMOBILES NOW BEING HELD IN JAIL

Rudolph Smith of Falkland Township Arrested Last Night on a Charge of Temporary Larceny

Rudolph Smith, a white man of Falkland township, is in Pitt county jail under \$1000 bond charged with temporary larceny.

For the past several weeks in the afternoon about 5 o'clock an automobile would disappear and be returned about eleven o'clock in the evening. The officers have been on the look out trying to catch the guilty parties. On yesterday afternoon, however, the Coupe belonging to Sheriff Jackson, and being the ninth car taken, was missing. Chief of Police Jones determined that he would watch the roads leading into Greenville and see if it would be possible to apprehend the guilty party. About eleven o'clock he was rewarded by seeing the car come into town. He watched and saw the young man park the auto on Fourth street near Dr. Nobles' office. For a while he succeeded in evading the officer but after a while as he started walking toward his home which is on the Falkland road, as he neared Gates Feed Store he was stopped by Officer Jones, arrested and placed in jail.

It was learned that the young man had a girl friend living near Farmville and that he had "borrowed" the cars to go to see her. Officer Jones after placing Smith in safe keeping, went to see the young lady who told of the large number of automobiles in which Smith had been to see her. Upon the return of the officer, Smith confessed his guilt.

Among the cars missing have been those belonging to J. W. Cobb, C. W. Hearne, Coy Forbes and several traveling men.

Scattered Showers Brings Relief From Oppressive Heat

Atlanta, Ga., Sept. 11.—(AP)—The morale was revived in the south today with moderation of temperature following scattered showers last night and yesterday, which brought some relief from the oppressive heat wave that has gripped Dixie for the past several weeks. With the precipitation, which has started at many points, is expected to come the virtual end of the drought which has wrought havoc to the crops in a large area of the south during the 45 days session.

American Aviators Reported to Have Killed 100 Warriors

Ouezzan, French Morocco, Sept. 11.—(AP)—The American aviators in their bombardment of the Rifian stronghold are reliably reported to have killed more than 100 warriors.

Passes Bill Abolishing Capital Punishment

Sidney, N. S. W., Sept. 11.—(AP)—The Legislative Assembly today passed a bill for the abolition of Capital punishment.

Robert S. Reinhart Died Early Today

Lincolnton, N. C., Sept. 11.—(AP)—Colonel Robert S. Reinhart, 63, manufacturer and former President of the American Cotton Manufacturers' Association, died at his home here early today of heart disease. Funeral services will be held tomorrow.

William Parker Probably Fatally Injured; Five Ton Boiler Lands in Field Two Hundred Yards Away

William Parker, negro, is in a local hospital probably fatally injured as a result of a boiler explosion that occurred about noon today at Randolph's Cotton Gin on the north side of the river a short distance from this city. Other persons working at the gin at the time of the explosion escaped without injury. The car driven along the nearby highway by Whit Han's local R. F. D. mail carrier, was damaged by flying debris but the occupants were uninjured.

Parker was the fireman and was in the boiler room at the time of the accident. According to those who were working in the gin Parker had shut down for water a short time before the explosion, had examined his gauges, declared them O. K. and had again started running. The explosion completely wrecked the boiler room and scattered debris over a wide area completely covering the Atlantic Coast Line Railroad Tracks just west of the gin and the hard surfaced highway to the east. The boiler which was of a hundred horsepower capacity and weighed about five tons, was hurled several hundred feet into the air and fell in the cotton field a distance of about two hundred yards from the gin. Telephone lines along the highway were torn down by the flying debris.

Following the explosion Parker was found completely buried under a nearby pile of cord wood. He was badly scalded and sustained serious injuries to his face and head and one of his arms was almost torn off.

No cause for the accident could be given, but it was stated that it was probably due to a weak spot in the lower part of the boiler. According to information the boiler was an old one and had been in operation for several years without inspection.

Rodgers Appointed Assistant Chief of Bureau Aeronautics

Washington, Sept. 11.—(AP)—Captain John Rodgers, rescued after 9 days afloat in the mid Pacific in his plane PN-9, No. 1, today was appointed assistant chief of the Navy's Bureau of Aeronautics.

He will report to Washington as soon as possible to assume his new duties. Secretary Wilbur decided on the appointment late last night when he learned of the rescue of the PN 9, No. 1 and its crew.

Commander Rodgers will train for the time being, at least, his present rank and pay, although he succeeds Captain Arthur W. Johnson, who has asked for sea duty.

Reports Indicate No Abatement in Spread Flames Forest Fires

Bristol, Va.-Tenn., Sept. 11.—(AP)—With meager reports to the local Government Forestry Office indicating no abatement in the spread of the flames, Unaka Mountain forest officials of the Forestry Department are arriving on the scene to relieve the local officers who have battled with the fires for the past two weeks. Additional equipment was sent from here to the fire fighters and a call has been sent out to all National Forests in District Number 7 comprising the entire eastern section of the United States to send all available trained fire fighters here at once.

Naval Sea Plane PB-1 Will Attempt Flight to Hawaii

Washington, Sept. 11.—(AP)—The naval sea plane PB-1 will attempt flight from San Francisco to Hawaii soon after October 1.

Patrick H. Kelly Died Today After a Prolonged Illness

Washington, Sept. 11.—(AP)—Former Representative Patrick H. Kelly, of Michigan died here today after a prolonged illness.

## FIRE PREVENTION WEEK OCTOBER 7-10

Since it is to his home that every man instinctively goes in quest of absolute safety there is grim irony, more than a little, in the revelation that somebody's dwelling suffers attack by fire every three minutes, approximately—that the average yearly destruction of homes approaches \$66,000,000. Plainly, the safety that he seeks is not to be found around the average American hearth.

It appears from the published record that four of the six leading causes of fire in the home—Defective Chimneys and Flues; Sparks on Roofs; Stoves, Furnaces, Boilers and their Pipes, and Matches—Smoking—indubitably are preventable by the exercise of proper care and common sense.

The August issue of Safeguarding America Against Fire presents complete plans for community observance of National Fire Prevention

## TRIPLE TRANS PACIFIC SEA PLANE FOUND; ALL MEMBERS ALIVE

(Continued from page 1)

He was ordered to bed. All the men bore a haggard look. They plainly showed the strain which they had been under for nine days. They were heavily bearded and their faces were tanned by the tropical sun. The wings of the sea plane were badly smashed by the crash, but the hull was all intact.

Food and water were exhausted on the fifth day after the plane was forced into the sea by lack of fuel. They were therefore without food for four days.

The fabric was torn off the plane while it was being buffeted about the sea and used to catch water when the air craft was tossed through providential showers. "This saved their lives," they said.

The radio messages sent by the searching planes and ships were

all picked up by the sea plane, but it could not put messages on the air in response. This was due to the fact that its drooping antennae was under water.

"Our plane was able to pick up messages from a merchant vessel which we sighted five miles off, but which refused to divulge its name. It drifted to the north west. After that no searching ships or planes were sighted until last Tuesday when we saw a plane off the coast of Oahu," said a member of the crew. Commander Rodgers will remain for plane experienced rough weather for only one day at sea. And the rain and heavy seas made matters uncomfortable, but the plane was sea worthy and stood the weather well.

USE OUR WANT ADS

Week. The National Board of Fire Underwriters, New York, stands ready to do everything within its power to facilitate the Campaign and will welcome communications from fire chiefs, local agents, municipal officials, school authorities, the membership of business organizations and all others who will participate in the event.

Surely a people virile and far-sighted enough to found a nation can muster sufficient intelligence and strength of will to preserve it from the wasting of fire—starting with their homes.

## OIL OUTLOOK REASSURING

Commenting on our future supply of oil, the Standard Oil Bulletin, published by the Standard Oil Company of California, says:

"Predictions of failure of the American supply of oil have been made almost from the beginning of the oil industry. All have proved fallacious. When the production of old fields has dropped off, the oil industry has found new fields."

A committee of eleven members of the Board of Directors of the American Petroleum Institute has just issued a report on the future of the industry. The report draws particular attention to two impending developments of very great importance. One is the extension within the industry of "cranking" crude oil, a process which increases the yield of the all-important gasoline. The other is a change in motor construction which, roughly speaking, will double the mileage of the automobile per gallon of gasoline. Herein is true conversation.

Altogether, the findings of the committee are reassuring. There may be passing periods of shortage of petroleum but there is no danger in the situation.

## Tennessee's War Memorial Bldg. to Be Dedicated 14th

Nashville, Tenn., Sept. 9.—(AP)

—Tennessee's war memorial building, used as an annex to the state capitol, will be dedicated with formal ceremonies September 14, during the annual meeting of the Tennessee Department of the American Legion.

The convention will be held in a magnificent auditorium located in the south wing of the building, which cost \$3,000,000, and was erected to the memory of Tennessee soldiers who lost their lives in the World War. The auditorium seats 2,500 persons and is said to be one of the finest assembly halls to be found in this section.

The building committee of the state memorial commission gave in-

structions that no pains nor expense should be spared in the artistry and beauty of the building. The hall contains \$21,000 worth of handsome fixtures of special design and its ornate ceilings and mural decorations are Grecian style, with gold, blue, and rose predominating.

The architecture follows out the Parthenon style, with rows of giant columns at the entrance to an open and spacious court, where will stand a huge, allegorical statue typifying the valor of Tennessee soldiers on land, sea, and air.

Many state departments are housed in the north wing, while the executive departments are retained in the old historic capitol on Capitol Hill.

Constructed of Indiana limestone, the building is one of rare beauty, occupying an entire city block. Just in the foreground will be located the

Memorial park, contract having been awarded for \$136,500 for the grading of the gardens, erecting stone balustrades and improvement of walks, while at the south end will be located a smaller garden spot.

Across the entire front of the court entrance the words of Woodrow Wilson, before Congress in 1917 are engraved: "America is privileged to spend her blood and her might for the principles that gave her birth and happiness and the peace which she has treasured.

On the back wall to the court, in the massive corridor which connects the two great wings, will be engraved the names of all the Tennessee soldiers who made the supreme sacrifice in the war. There are 3400 of them, which will be engraved on bronze tablets to stand there as a memorial to posterity.

The funds for the erection and equipment of the building were appropriated jointly by the state of Tennessee, Davidson county, and City of Nashville.

## Wilson County Will Not Lon Highway Comm. \$400,000

Wilson, Sept. 10.—(AP)—Wilson county will not loan the State Highway Commission \$400,000 for the construction of Route No. 22, it became apparent a few days ago.

The Wilson County Highway Commission's request to the county commissioners that that body issue short term notes for the amount named, be loaned to the state, was tabled by the commissioners. The reason for the action of the commissioners was given as follows:

## An Old-Fashioned Beauty Recipe

The old-time application of Butter-milk and Cream to whiten and preserve the skin and remove harsh little wrinkles and ugly sallowness is grandmother's recipe and women throughout the country are again using it to ensure a beautiful complexion and snow-white hands and arms.

Buttermilk, however, is not always obtainable, but a specialist has at last perfected a method of concentrating buttermilk and combining it with a perfect cream, which you can buy in small quantities ready for use at any first-class drug store by simply asking for "Howard's" Buttermilk Cream.

There is no secret about it nor is there any doubt about the result—it's just a common ordinary buttermilk in the form of a wonderful cream, gently massaged with the finger tips around the corners of the eyes and mouth.

If you have not yet tried this simple, easy way to beauty get a small quantity and let your face be the judge. Your favorite toilet goods counter can supply you. Pitt Drug Co., is selling lots of it.

# 666

## Drain the petcocks once in awhile

"SOONER or later you are liable to get some water, scale or dirt into your gas tank. You ought to get rid of it before enough of it collects to give you trouble with your carburetor. It only takes a moment to drain the petcocks and clean the gas strainers. There's probably one in the sump of the gas tank or in the gas line under the car. If you have a vacuum tank, drain the petcock under it and clean the strainer in the inlet pipe. Also open the petcock under the carburetor. The most you'll get out of them is a few drops of rusty water, but never let it gather if you want to avoid trouble."

Just a little stunt worth knowing, but it is the sort of thing the Fleet Boss has learned in a lifetime of automobile experience. We have been refining petroleum for two generations so it is natural that we have learned many things that help us to make lubricating oils better and better every year. When you use "Standard" Motor Oils you are profiting by 55 years of the accumulated experience of many thousands of expert refiners.

# FARMERS APPEAL

By O. L. JOYNER

**TO THE PUBLIC.** bacco market in Georgia until two days before the opening of the market here we were not able to begin matter some months ago of devoting a page of each Friday's issue of The Daily Reflector to farm topics and have not been in position to give the subject much thought, or attention for it and while I am kept right and therefore I ask the kind indulgence of the public in overlooking the short comings of this issue. It is our intention at that time my intention to try to make this a to begin publication of this page, worth while feature of the paper. incident with the opening of the There is much, very much con- tobacco market, but owing to the cerning the things affecting the weal fact, that I was detained on a to- and woe of the farmers that needs to

be brought to the attention of the public while the purpose and interest of this page will be primarily and principally to publish matter of immediate and intimate interest to tobacco farmers. We should endeavor weekly to publish accurate and truthful tobacco market reports from all over the eastern belt in order that the reader may be informed, and not misinformed, as is often the case in exaggerated reports published for public consumption by private interests for personal gain.

I shall endeavor to the best of my ability to make this feature of sufficient attraction and importance to make every tobacco farmer at least in eastern North Carolina a subscriber to The Friday's issue of The Daily Reflector.

O. L. JOYNER.

## EASTERN CAROLINA TOBACCO MARKET REPORT.

From the best information obtainable farmers have slowed up marketing during the last few days on all the eastern markets.

Information is that Wilson put on five sets of buyers last Monday and suspended sales Tuesday on account of insufficient factory facilities for absorbing the purchases of the extra set of buyers.

Prices the Greenville market strengthened considerably, especially on all tobacco of body and character. Low grade primings remain about the same.

## WILL FOUR SETS OF BUYERS HELP OR HURT THE GREENVILLE TOBACCO MARKET AND THE FARMERS WHO SELL TOBACCO ON THE GREENVILLE MARKET.

Agitation of the question of four sets of buyers for the Greenville tobacco market has been going on for some time and several meetings have been held by the warehousemen to try to determine whether they would ask the companies buying tobacco here to put on the fourth set. Nothing very definite has yet been agreed upon, but I have been informed that at a recent meeting (at which the writer was not present) it was decided to appoint a committee to ask for four sets of buyers.

It seems the principal reason for four sets of buyers is because Wilson has five sets. If I had no other reason for opposing four sets of buyers for Greenville I would point to the condition of the Wilson market this week and the awful mess there the second day they put on five sets of buyers. But I have a better reason, I think we are selling the farmers tobacco low enough without putting on four sets of buyers to still further lower the price.

## RECORDS BROKEN BY EASTERN MARKETS.

Over 7,000,000 Pounds Handled On Opening Day in the Bright Leaf Belt, Prices Lower Than in 1924.

Raleigh, Sept. 2.—Between 7,000,000 and 8,000,000 pounds of tobacco were handled in the business of the opening day of the markets in the bright leaf belt in Eastern North Carolina yesterday, bringing an average of about 16 cents per pound for an aggregate value of the day's sales at more than \$1,250,000. All records for opening sales were broken in several of the larger markets.

The price average of the opening day is from 3 to 5 cents under the opening figures of last year, but compared to the ten-year average, they are well above it, and show a healthy increase over the disastrous drop registered five years ago when the biggest crop in the history of the state was sold at figures far under the cost of production. Yesterday's prices, while somewhat disappointing, are accepted hopefully by the growers.

Everywhere markets were overwhelmed with the rush of tobacco. In

many markets block sales are reported, and in many thousands of pounds were held over for the opening of the markets this morning. In Wilson, Kinston, Greenville and Rocky Mount, the four largest markets in the bright leaf district, even the greatly increased facilities for handling the offerings for the opening were wholly inadequate.

Prices, according to statements issued, ranged from 15 cents at Goldsboro to 22 cents paid for smaller offerings at Wendell. The four great markets ranged in the neighborhood of 16 cents as against an average of 20 cents on the opening day a year ago. The earlier sales on all markets were lower than the closing sales, it was said. The market was stronger in the afternoon.

Grades offered yesterday appeared to be below the grades offered on the opening day last year. Much of it was of the first curing, and of a generally poor quality. Few markets reported sales of the better grades. The highest price paid, from reports available, was 38 cents.

Sales reported unofficially last night follow:

Wilson, 1,700,000 at 16c.  
Kinston, 1,285,000 at 16c.  
Greenville, 1,000,000 at 16c.  
Rocky Mount, 650,000 at 21c.  
Goldsboro, 500,000 at 15c.  
Washington, 250,000 at 16c.  
Warsaw, 300,000 at 18c.  
Farmville, 263,000 at 16.47.  
Smithfield, 250,000 at 16c.  
Tarboro, 150,000 at 16c.  
Wendell, 20,000 at 22c.

In reference to exaggerated reports often seen in the publication of tobacco market reports in commerce the above as a fair sample. Does any one suppose there is a man at all familiar with the sales of tobacco who does not know there was not anything like the amount of tobacco on the above markets? Yet these reports are re-published all over the land, thus creating a false impression of conditions and for what purpose and what possible injury.

## WORLD TOBACCO PRODUCTION

Last year in all the countries of the world for which figures are available the total production of tobacco was 2,686,000,000 pounds. This was a decrease of 2 per cent over the preceding year, but the production, according to the United States Department of Agriculture, is still larger than it was in the same countries before the war. Most of the decrease

in production is accounted for by shrinkage in the United States and Greece. This country produced 272,000,000 pounds less than the preceding year, and in Greece there was a drop of 85,000,000 pounds. Turkey and the Dutch East Indies increased their production and made up part of this loss.

## PREVAILING MARKET PRICES

Farmers, business men, men and men in all walks of life are going about with the spirit of dejection. They seem depressed and cheerless since the opening of the tobacco markets.

Frankly, tobacco has not sold as high as I expected to see it. In common with others. I was disappointed. I really expected to see the eastern markets open at around 20 cents, for it cannot be denied we have the best color in the primings in many years, while they are thin, light and chaffy, still the better grades with good color are not selling as high as most of us expected. But there seems to be no demand for these goods, and it is a certain thing you cannot sell a commodity if no one wants it and it is abundantly apparent that the primings this year are not wanted.

Hoping there is a brighter day ahead, tobacco is going to sell for a good price and unless I am very, very much mistaken we shall yet get good prices for this Eastern Carolina crop. So cheer up, the best is before us. The sun still shines, and God rules.

## Steals \$4,000 Worth Diamonds While Out Riding With Woman

Smithfield, Sept. 10. — (AP)—Charged with stealing \$4,000 worth of diamonds from Miss Margaret Parker, of Georgia, while the two were out riding, Charles Watts will be tried in the December term of Superior Court here. A true bill for grand larceny and embezzlement has already been returned against him.

While out riding with Miss Parker, it is said, young Watts, who is described as being very nice-looking, asked to see her rings. Before returning then to her, he left the automobile ostensibly to buy some drinks from a nearby country store. He did not return until brought back here by officers.

## RULES AND CONDITIONS

Any man or woman of good reputation, over sixteen years of age, residing in Pitt County or surrounding territory may become a candidate. No employe of The Greenville Reflector or member of his immediate family is eligible.

Candidates may enter their own names or be nominated by friends without any cost.

The name of a person who places a candidate in nomination will not be divulged under any circumstances.

The campaign manager reserves the right to reject any nominations without giving any reason for doing so.

Notes are obtained by either clipped from the paper or by procuring paid subscriptions to the Greenville Reflector.

Notes cannot be transferred or purchased. In the event of a typographical error it is understood that neither the newspaper nor the campaign manager shall be held responsible except to make the necessary correction on discovery of same.

Subscriptions may be procured anywhere. All subscriptions must be paid in advance in order to vote.

Every participant in the campaign has an equal chance of winning any of the seven prizes on the list.

No candidate will be allowed to pay for any subscriptions or any part of any subscription in order to secure the same in competition with another candidate.

Subscriptions must be turned in to the campaign manager at least once a week. Penalty for holding subscriptions past this limit will be a heavy fine in votes.

This campaign will and must be a fair and square proposition with those securing the most votes according to the rules of the campaign winning the prizes. No sharp practices will be allowed under any circumstances.

The campaign manager reserves the right to make any ruling which may be in his opinion, necessary for the success of the contest.

The campaign manager reserves the right to eject any candidate from the campaign at any time if after being given due warning such candidate continues to violate any rules of the campaign or to circulate any unfounded rumors which may tend to mislead the public or the other participants. In such a case votes will be cancelled.

The campaign manager will decide all questions which may arise during the course of the campaign and his decision must be final. Contestants in entering this campaign thereby agree to abide by the rules of the campaign and all rulings which the campaign manager may make.

No money will be accepted for votes under any circumstances unless accompanied by a bona-fide subscription to The Greenville Reflector.

This is an individual campaign. No lodges or other organizations will be allowed to take part as a body.

## VOTING SCHEDULE

The following schedule applies on subscriptions secured in Greenville. Double the number of votes for subscriptions secured outside of Greenville.

FIRST PERIOD FROM SEPT. 10TH, TO, OCT 8TH, INCLUSIVE			
		Greenville	Outside
3 years	\$15.00	25,000	50,000
2 years	10.00	15,000	30,000
1 year	5.00	6,000	12,000
6 mos.	2.50	2,500	5,000
SECOND PERIOD FROM OCT. 9TH, TO OCT. 23RD, INCLUSIVE			
3 years	\$15.00	20,000	40,000
2 years	10.00	12,000	24,000
1 year	5.00	4,400	8,800
6 mos.	2.50	2,000	4,000
THIRD PERIOD FROM OCT. 24TH, TO OCT 29TH, INCLUSIVE			
3 years	\$15.00	16,000	32,000
2 years	10.00	9,600	19,200
1 year	5.00	3,600	7,200
6 mos.	2.50	1,600	3,200

## EXTRA VOTES

During the campaign the following Extra Votes will be given on each \$25.00 worth of subscriptions turned in. The \$25.00 does not have to be turned in all at one time in order to count for extra votes.

Sept. 10th to Oct. 8th	25,000
Oct. 9th to Oct. 23rd	20,000
Oct. 24th to Oct. 29th	15,000

# Joyner's Warehouse Report

THE MARKET REPORT WILL BE FOUND ELSEWHERE ON THIS PAGE

We are gaining in pounds and new customers every day. And while we do not expect to lead the market in pounds, we are leading in prices paid for the tobacco we sell. Don't take our word for it. Come and see for yourself and if you bring a load similar to one you sold elsewhere on any market in Eastern Carolina, we will prove it to you. There are no better sets of buyers in the state than those on the Greenville market. COME ON,

JOYNER'S WAREHOUSE

# LOCALS

Mr. C. L. Weil, representing Karpen Manufacturing Co., New York, was here today.

Mr. F. R. Elmore went to Simpson today.

### ASSOCIATION ADDS NEW MEMBERS TO ROSTER

The Greenville Merchants Association has added the following new members to its roster.

D. Pender two stores; Atlantic and Pacific Tea Company, three stores; Greenville Storage and Battery Company; Farmers Bank.

Secretary C. B. Rowlett is making every effort possible to increase the membership and make it the very best organization of its kind in this section of the state.

### TO MY FRIENDS.

I have entered the Daily Reflector Subscription Contest and will greatly appreciate your support. Please hold your subscription for me until I see you, which will be at the earliest possible date.

HELEN JOYNER.

### THEATRE PARTY.

Mrs. F. R. Elmore was hostess at a theatre party on Thursday evening in honor of Miss Georgia Scott, of New York, house guest of Mrs. J. B. Cherry, having as guests members of the '12 graduating class of the East Carolina Teachers College of which both the hostess and honoree were members.

After enjoying the pictures the guests were invited to Horne-Station Drug Store where they were served

an ice course. The center pieces were bud vases of daisies, the class flower, tied with yellow and gold ribbons, the college colors.

The honoree was remembered with a box of Hourbigant's dusting powder.

An interesting feature of the evening was a picture of the class taken a short while before leaving college. The picture belonged to Mrs. Seales and afforded quite a bit of amusement.

The members of the class present were Miss Georgia Scott, Mrs. Carey Warren, Mrs. C. B. Rowlett, Mrs. L. W. Gaylord, Mrs. W. M. Seales, Mrs. A. E. Hobgood, Mrs. S. L. Bridgers, Miss Estelle Greene.

Besides the class members, Mrs. L. H. Bowling, Mrs. Leland Hardee, Mrs. P. G. Luper and little Miss Ruth Luper enjoyed the hospitality of the hostess.

### MRS. R. D. HARRINGTON ENTERTAINS BRIDGE CLUB

Mrs. R. D. Harrington was hostess on Wednesday afternoon to the members of her duplicate bridge club. The home was decorated with summer flowers.

Mrs. W. M. Seales making the top score was presented a box of Hubigant's dusting powder.

After a most pleasant afternoon the hostess served a salad course.

Mrs. W. W. Phelps, Mrs. D. E. Taylor, of Norfolk and Mrs. Bruce Wilkinson, enjoyed the hospitality of the club.

Miss Mae Washington Out. Miss Mae Washington who has been confined to her home the past several days is out.

## FALKLAND NEWS

Falkland, Sept. 11.—Sheriff and Mrs. Whitehurst, of Greenville, were the guests of Mr. and Mrs. C. P. Pierce on Sunday.

Jeness Morrill, Jr., has returned from Morganton where he went to attend the re-union of his class at the school for the deaf. His brother David Morrill is having a longer vacation than he expected, since the opening of the School for the deaf has been postponed on account of the lack of water supply.

Dr. Sellers M. Crisp, Jr., is visiting his parents, Mr. and Mrs. Sellers M. Crisp, having recently returned from Brevard, where he spent the summer as camp physician at Camp Sapphire.

The people of the Presbyterian church and all the community were glad to welcome Rev. Cook Campbell, their pastor, into the Falkland church pulpit on Sunday. Mr. Campbell has just returned from a delightful vacation spent in the mountains of Virginia.

Misses Mattie Little, Annie Mayo,

### TO MY FRIENDS.

I wish to announce that I have entered The Daily Reflector subscription contest. It will be impossible for me to see every one personally and I take this method to ask that you give me your support. I will appreciate any help which you give.

MRS. LUCY J. MOYE.

Anna Pearl Edwards and Lucy Crisp, and Richard H. Crisp attended the Session of the Presbyterian Young People's League held in the Presbyterian church at Greenville on Friday night.

Miss Ruth Pittman has returned home after visiting in Ayden and Greenville.

The Falkland School will open on Monday morning, Sept. the 14th. Mr. David T. House, Jr., who will be principal of the school again this year, has been on the job for several days, getting ready for the opening day. All other members of the faculty arrived on Wednesday, in time for the Pitt county Teachers' Conference to be held in Greenville on Thursday and Friday. Members of the faculty for this year are as follows: Miss Olive of Chapel Hill; Miss Gilkerson, of Staunton, Va.; Miss Patterson, of Manteo, Va.; Miss Brown, of Macesfield; Misses Worthington and McGlohorn, of Winterville; and Miss Hart, of Reelsboro.

Geo. B. Crisp returned to N. C. State on Tuesday. His brother Richard H. Crisp, who enters State for the first time this year, will leave on Thursday.

### Wilmington Will Be Represented Atlantic Deeper W. Way Assn.

Wilmington, Sept. 10.—(AP)—When the Atlantic-Deeper Waterway Association meets at Miami, Fla., November 23, this city will be represented by L. W. Moore. Promotion of the deeper waterway between Wilmington and Beaufort will be Mr. Moore's main object it is announced.

### OLD FAVORITES ENTER AGAIN IN AUTO CONTEST

(Continued from page 1)

waste by voting for yourself.

Prizes will be awarded on the number of votes secured at the close

of the campaign, October 29th. It started yesterday and will run just exactly seven weeks. Votes are clipped free from the paper each day in the form of a 25-vote coupon. Have your friends save these coupons for you too for there is no limit to the number you can vote.

A more faster way to secure votes is to have your friends subscribe and pay in advance for The Reflector. On each subscription you will be given a certain number of votes as shown by the Voting Schedule which appears following this story.

Several good workers have already

entered their names. Mrs. H. C. Davis, Miss Lillian Hooker, Mrs. Frank Denier, Miss Helen Joyner, Mrs. W. G. Rush, Miss Margaret Cook, Mrs. R. C. Abee and Miss Lucy Stokes, of Parmele, are those who have entered their own names so far.

Folks living outside of Greenville should not hesitate about entering their name for they have a wonderful opportunity to win this year. For every subscription secured outside of Greenville there will be given twice the number of votes as will be given on one secured here in town.

## A Flare in Fall Coats

IS THE NEWEST NOTE

So different from last year! That's what makes these fall Coats so interesting. Last year's Coat was slim and straight. This year's is slim but flaring, and much of the charm of these new models depends upon the subtlety with which slim lines are retained even though flares are featured. Patches of fur often accent circular side sections while shirred fronts bordered in fur are another smart version.

**Something New in Education to Begin Perquimans County**

Hertford, Sept. 10. — (AP) — Something new in education is to be begun in Perquimans county. It is new, at least, so far as North-eastern North Carolina is concerned. It is known as the platoon system, and is designed to make it possible for a school to accommodate 25 per cent more pupils than are now taken care of, under the present system. In addition, it makes it possible to add to the curriculum music, art, physical education, and many branches of vocational education. All this is said to be without additional cost, except for the initial outlay for equipment.

Edgar Bundy, recently elected superintendent of schools, is making plans for introduction of the system, which he hopes to have in actual force by next year. Mr. Bundy comes to this county from Wilmington, where he has been engaged in school work.

The platoon system is described as an arrangement whereby the elementary school makes the fullest possible use of its facilities. The auditorium instead of being utilized only for perfunctory opening exercises and occasional special events, and occasional special events, is occupied throughout the school day. A physical instructor is busy all day long, either on the playground or in the gymnasium. The children are divided into platoons and move from room to room as their study hours change. Under this system, the child, in addition to the three r's, is given instruction in carpentry, mechanics, printing, and the fundamentals of electrical engineering, as well as a variety of other practical subjects.

**"RUGGED WATER" FINE CAPE COD SEA STORY**

Joseph C. Lincoln "Best-Seller" Filmed by Paramount.

No walk of life is more fraught with drama or danger than that of the United States Life-Saving Service on treacherous Cape Cod. Every thrill experienced by the courageous men, who daily gamble their own lives against the fury of the elements in an effort to save other lives, is depicted in "Rugged Water." Irvin Willat's new production for Paramount at White's Theatre today.

In the screen story Warner Baxter expects, as Number One man of the Setucket life saving station, to succeed the retiring captain, but politics result in the appointment of a man from another station, Wallace Beery, who arrives with his daughter, Lois Wilson, upbraids the crew

**Renew Your Health by Purification**

Any physician will tell you that "Perfect Purification of the System is Nature's foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, —once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package, containing full directions, price 35 cts.; trial package, 10 cts. At any drug store. (Adv.)

for no reason at all, insults Baxter and gets himself disliked generally. Baxter's rapidly developing interest in Lois Wilson causes him to remain at his post instead of resigning. When he rescues her from the incoming tide she begins to feel a deeper interest in him. He feels he cannot yet propose to her because, due to his lack of knowledge of women, he has permitted an ambitious girl in the neighboring village to make him think he has proposed to her.

**D. A. R. Issues '25-'26 Year Book**

Gastonia, Sept. 10.—(AP)—The Major Williams Chronicle chapter, Daughters of the American Revolution, has just issued its 1925-1926 year book. It is dedicated "In loving appreciation of her years of royal service, etc." to Mrs. Grace Alexander Johnston, "who organized the chapter in 1913.

**FRANK BROMLEY GAINED 35 LBS.**

Mr. Bromley of Bromley Bros., Granite City, Ill., writes: "I was sick for four years with what is called Polonitis in the Nerve Cells, caused from my kidneys. I went to Los Angeles & also to Tucson, Arizona, & spent about \$700 trying to get well, but did not get any better, so I came back to Granite City again. I then began to take PEP-ELIXO, in a short time this medicine took all of the acid out of my system & I gained 35 pounds in weight & feel that I am almost well again."

**IT'S A GOOD PLAN**

to have the plumbing of your home, inspected, throughout, at least once a year. Warm weather is the best time to have this done. A few minor repairs now, will prevent damage and greater expense later on.

Call us now and avoid the rush next Fall.

Liverpool wheat 11-4 lower.  
Stock Letter

New York, Sept. 11.—Yesterday's bullish activities were well maintained during the early trading of today. Most prominent place was occupied by Studebaker which changed hands in big volume at higher levels. This naturally had a sympathetic effect on other motors, and General Motors Mack Truck and White Motors were all active and higher. In the Rails group N. Y. and New Haven stood prominently by active trading in advancing over a point. As the trading

went along business continued to broaden and many additional stocks were actively advanced. Heavy trading took place in Hudson Motors and among the high priced specialties International Harvester and Coca Cola were outstanding features. The steel tonnage statement issued at noon was considerable under expectations and had a stimulating effect, which later in the day manifested itself in strong buying in the industrial stocks which showed higher levels, particularly American Cars Foundry, Baldwin and Pullman, Railway Steel Springs fin-

ished advance. Some unsettlements however set in the railroad issues due to the declaration of the regular Dix-Southern Railway with of course stock being the particular loser, later on rallying somewhat. There was further relaxation in recent tension in call money, which was reduced to 40 per cent. Market was active and strong throughout the General list well up to the close.

**Grain Letter**

The government report issued after the close yesterday intimated the few special traders who had been operating on the buying side of late and the market in consequence was unable to withstand the selling that came in for the account of hedges and holders of futures. The act that the report showed an excellent condition for wheat in the northern part of the United States gave color to the belief that the Canadian estimate to be made public this afternoon would show a substantial increase over the present figures. We continue of the opinion that the market must gradually work closer to the world basis. Corn showed some strength during the forenoon but apparently could not ignore the weakness in wheat and turned rather easy towards the close. Notwithstanding the bullishness of the government crop export influential buying however failed to appear.

**Cotton Letter**

New Orleans, Sept. 11.—Cotton was strong most of the day due to increased public interest, continued high temperatures and flood of deservingly reports from nearly all sections. Spot news was generally better. Large sales of dry goods reported from all large distributing centers and mills were reported fixing prices on a liberal scale. Official records showed very limited rains in the belt and temperatures from 1 hundred to 109 in central and eastern belt. Private reports of considerable in western Texas and Oklahoma encourage selling around midday owing the possibility that they indicated a rainy spell and breaking of the drought.

**HOLLYWOOD NEEDS IMMIGRATION LAW, DE-CLARES STUDIO MANAGER**

Hollywood, Cal.—B. P. Fineman, film studio manager here, declared recently that "what Hollywood needs is an immigration law." Fineman issued his pronouncements as comment on a statement recently broadcast that the picture field is wide open to newcomers. He said:

**TEACHERS CONFERENCE CLOSES AFTER TWO DAYS SESSION HERE**  
(Continued from page 1)

If 10 years ago, some one had stood up and proposed to do for the county what Mr. Fitzgerald has done, he would perhaps have been driven out of the county as a visionary. When you look through the Pitt county hand book and see the things proposed, and the things that have been done, the outlook for this county is very promising.

When we start out in a county to provide the kind of school system that a county ought to have, we meet a great many difficulties and Pitt County ought to be congratulated on having travelled two thirds of the journey.

I am trying to look into the future, and if I am able to understand the tendencies of the times, the people who live in the country, when they find out the kind of work that the right kind of schools and the right kind of institutions will do for their children, they will not be satisfied until they have the very best. Folks will not talk about high tax rate when they get value returned. The tax objectors will be willing to put their money in it when they see it function properly."

**The Gas Range With Oven Heat Regulator**

**COOKS THE WHOLE MEAL WHILE YOU ARE FAR AWAY**

Put the whole meal in the oven. Set the heat regulator at 250 degrees. Stay away from home three hours on some pleasant outing. When you return the meal is perfectly cooked.

**A LITTLE ABOUT THE HEAT REGULATOR**

First, we wish to say that it gives mother more time out of the kitchen. This keeps her feeling younger and happier for her family. Second, it cooks the food with a measured heat which makes the dinner more wholesome; for the heat that goes into the food should be measured just as the flour or milk is measured.

The Oven Heat Regulator is a small round wheel that can be seen at the side of the oven. It indicates numbers from 200 to 550. These numbers show the heat degrees. If you wish to cook something at 350° degrees just turn that number against the little arrow which serves as a guide. A chart of scientific heat measurement comes with these Gas Ranges and tells you how long to cook each dish.

YOU DON'T HAVE TO STAND BY AND WATCH THE COOKING, YET IT COOKS EXACTLY RIGHT.
