PRESIDENT CALLS SPECIAL BOARD IN CONFERENCE TODAY

Will Organize and Make Plans for Investigating Adequacy of American Air Power

Washington, Sept. 17. (AP)—The much debated question of the adequacy of the American air power entered another stage today with the convening at the White House of the special board appointed by President Coolidge to investigate the subject.

Washington, Sept. 17. (AP)—The special board appointed by President Coolidge to inquire into the air craft situation organized today is the selection of Dwight W. Morrow, New York financier, as chairman.

After holding its first meeting at the White House, the nine members of the board conferred briefly with the President, who presented his views.

In a statement issued after the morning conference, Mr. Morrow said further announcements would be made after the board had an opportunity to discuss the scope of its work and had adopted definite plans for conducting its investigation.

President Coolidge gave the board the widest latitude in deciding the course it is to pursue. He holds that the nine members must determine largely for themselves the witnesses to be summoned and the nature of the testimony to be received.

"Safety Week" Being Observed in Durham

Durham, Sept. 17. (AP)—A state-wide accident prevention campaign, launched here Monday by the Carolina Motor Club, to continue throughout the week, has the co-operation of more than a dozen civic, commercial and educational organizations, under the direction of the municipal recreation and playground commission.

"Safety week" here is the first serious, sustained effort in North Carolina to cut down the accident toll that reached 22,600 in America last year, according to C. T. Matthews, director of accident prevention of the club, who has delivered a number of addresses here.

Mr. Matthews quoted United States government statistics disclosing that Durham ranks next to Wilmington for fewest traffic accidents per 1,000 population.

In 1906, Mr. Matthews said, there were only 300 automobiles in the United States while this year there were more than 17,000,000. City streets, it was suggested, have not been widened sufficiently to absorb this huge increase in traffic.

Mrs. Fielding L. Walker, Jr., chairman of the recreation and playground commission, and C. R. Wood, executive, arranged the local safety week program. Safety-first literature was distributed, posters were billed, talks were made at industrial plants, schools, and luncheon clubs, safety movies were screened, and the police

DECLARES HYLAN'S RETIREMENT BLOW TO DECENT PEOPLE

Possibility of An Independent Ticket Against Walker, Successful Candidate, Being Discussed

New York, Sept. 17. (AP)—While Mayor Hylan, defeated in the primaries, has announced he will retire to private life, some discussion continues over the possibility of an independent ticket against James J. Walker, who beat Hylan for the Democratic nomination, and against Frank D. Waterman, the Republican nominee.

The victory of Walker, backed by Tammany Hall and Governor Smith, over Hylan, who was supported by William Randolph Hearst, has caused much gratification to followers of Governor Smith, especially in view of some comment to the effect that the result has enhanced his National prestige.

Today's issue of the American, owned by Mr. Hearst, accepts Mr. Hylan's retirement as a "sad blow to the vast majority of decent men and women of this city."

American Gov't. Draws Up Bars Against A Communist Member

Washington, Sept. 17. (AP)—The American government has drawn up the bars against Shahrji Sakla, aka, Communist member of the British House of Commons, who sought to visit the United States as a British delegate with the interparliamentary union to convene here next month.

"I do not believe in curbing free speech, nor do I believe in making this country the stamping ground for every revolutionary agitator of other countries," Secretary Kellogg declared in announcing the decision to bar the House of Commons member from American shores.

The administration's decision, which is in flat conflict with the expressed view of Chairman Borah, of the Senate Foreign Relations Committee, was announced immediately after Secretary of State had conferred at the White House late yesterday with President Coolidge and Representative Theodore E. Burton, of Ohio, a member of the Arrangement Committee for the interparliamentary meeting.

The Secretary's announcement quoted from recent utterances of the Communist member in Parliament and elsewhere, from which it was concluded that his mission to this country was in fact to spread revolutionary propaganda.

LOCAL BANKING HOUSE RECEIVES UNIQUE DEPOSIT

Farmer's Hoard of Silver Totaling \$1,515.21 Sent to Bank in a Bushel Bag

The Greenville Banking and Trust Company received quite a unique deposit yesterday when an official of the bank was handed a bushel cement bag filled with silver together with a few pennies and nickels with the statement "here's a bushel." The deposit was made by a farmer of Martin county and represents, no doubt, the hoardings of many years.

Out of curiosity the bank had the deposit weighed and it was found that the bag contained 143 1-2 pounds. It required three experienced counters more than three hours to assort and count the hoard which was found to total \$1,515.21.

In commenting on the unusual occurrence one of the bank officials declared that the practice of hoarding is a very dangerous one and persons who do so, especially those who live in isolated rural districts are inviting disaster.

Methodist Conference Will Determine Success or Failure of Unification

Nashville, Tenn., Sept. 17. (AP)—The fifteen conferences of the Methodist Episcopal South, which met in October and the Holston and Louisville conferences, which convene on September 30, will largely determine success or failure of the pending plan of Methodist unification.

With the adjournment of the Missouri conference September 14, the vote of unification took 211 in favor and 370 against the measure. The Missouri conference holds the largest votes of any conference, which has met to date, and voted 196 to 14 in favor of unification.

In addition to the vote on unification approaching conferences will be notable because this in the last year of the present church quadrennium, and therefore is the time for election of delegates to the general conference, the supreme organization of the Methodist, which meets May 126.

The appointment of the preachers for the ensuing year will be among the matters of interest and the conferences will be further marked by the presentation of the appeal in behalf of missions in an effort to raise the present rate of missionary giving from 25 cents per member to 40 cents.

Among the conferences, which will be the western North Carolina conference at Statesville, on October 14.

ROBBERS CONVICTED OF MURDER GIVEN THE DEATH PENALTY

Two of Five Robbers Who Staged Pistol Battle in Drake Hotel Found Guilty of Murder of Hotel Cashier

Chicago, Sept. 17. (AP)—Joseph Holmes and Jack Woods, two of the five robbers who a few weeks ago invaded the fashionable Drake Hotel and staged a pistol battle in an attempted hold-up, were convicted early today by a jury for the murder of Frank B. Rodkey, hotel cashier, and given the death penalty.

The jury deliberated for more than nine hours until nearly dawn today, and several times were reported deadlocked at nine to three and ten to two for a hanging verdict, the minority holding out for life imprisonment on the grounds that the men were insane.

The defense relied on an insanity plea and in the closing argument declared there were many instances in which persons accused of murder had pleaded guilty and had been sentenced only to life imprisonment.

Two of the party of robbers were killed after the hold up, while the fifth member escaped with \$3500 after the cashier had been killed. The defendants' attorney presented to the court a motion for a new trial, which was argued October 3. Robert E. Crowe, State's attorney, nailed the verdict as evidence of a return to law and order.

Tobacco Prices Stronger Today

With more than half million pounds of tobacco offered on the local market today, sales will be finished early with all warehouses sold. Buying today was the most spirited since the opening of the market, and as a consequence prices were better on all grades. Especially was this true of the medium tobaccos, and even the common lugs were given more attention. There were several growers here from a far distance including the bright belt of Virginia.

Negotiations for Funding France's Debt Will Begin Next Week

Washington, Sept. 17. (AP)—Negotiations for the funding of France's \$4,000,000,000 debt to the United States will begin here one week from today.

According to Secretary Winston, of the treasury, the Secretary of the American Debt Commission, issued a call today for a meeting of the American Commission at ten o'clock next Thursday morning, by which time the French mission, headed by Finance Minister Caillaux, will have arrived in Washington.

The President has asked Mr. Winston and Myron T. Herrick, American Ambassador to France, to the French Mission in New York. France's Ambassador Daeschner also will be there. Plans contemplated are for an immediate trip from New York to Washington and this will permit the French delegation to have next Wednesday to prepare for the formal meeting the next day.

Meantime Treasury experts and members of the American Commission are gathering all data for the hearing on the French economic and fiscal position. The Treasury now has ten volumes representing individual and unofficial studies on the French capacity to pay.

CHOOSING OCCUPATIONS

Years ago fond parents devoted winter evenings to deciding the futures of their numerous offspring. Johnny was to be a teacher. Mary would be a trained nurse. Willie would be tutored in ministry, and perhaps a fourth progeny would be placed in business or kept on the farm. And in the day time the school instructors of Johnny, Mary, Willie

and so on believed they had fulfilled their duty if they prepared them for graduation. Few teachers realized that theirs was an exceptional opportunity to help young men and women to pick their life's work on the basis of their individual qualifications and peculiar abilities.

All is different in the educational system of today. Vocational guidance is an established science. The public schools and the institutions of higher learning now strive to fit the curriculum to the student, not the student to the course of study. The student at the same time is directed into a life's work for which he is especially suited.

Many men and women now failures in life might have been preeminent in their professions or trades had an ounce of direction been exerted in their youth to the selection of a career. A boy with an aptitude for mechanics and the engineering branches should not be forced into a legal or literary career because a parent or an instructor is partial to those latter occupations, yet countless have been and many will be in the future.

There is a "destiny which shapes our ends" if it is the power which attracts the individual to that thing in life for which it is most fitted by nature.

ADVERTISING AIDS BOTH

Duck eggs are as edible as the egg of the chicken and are much larger but there is no market for duck eggs. The explanation for this as given by the advertising man is that every time a chicken lays an egg she cackles all over the barnyard, proclaiming her product to the world, but the duck lays her egg in seclusion and makes no noise about it.

Business is like the egg. Some merchants advertise their goods and sell them. Other merchants do no advertising and, consequently, little business. The wise merchant, when he receives a shipment of goods which he knows the public wants does not whisper the event down a bottomless well. He comes boldly forth in the newspaper pages and heralds his wares. When the general store filled every mercantile need in the embryo communities there may not have been much need for advertising. Only the bare necessities were obtainable and the consumer had only the general store at which to obtain them. All that has been changed. There has been specialization in business just as there has been in labor, the professions and industry and specialization has brought competition and expansion.

The inevitable outcome of the evolution, or revolution, of business has been the realization by both merchant and customer that advertising of its goods in the newspaper is a part of the service of every modern store which aims to serve the public.

Columbus, Ga.—Mrs. George S. Hunter, of this city, writes:

"After I married, thirteen months ago, I suffered with dreadful pains in my sides during ... My side hurt so bad it nearly killed me. I had to go to bed and stay sometimes two weeks at a time. I could not work and I just dragged around the house.

"I got very thin—I went from 125 pounds down to less than 100. My mother had long been a user of Cardui and she knew what a good medicine it was for this trouble, so she told me to get some and take it. I sent to the store after it and before I had taken the first bottle I began to improve.

"My side hurt less and I began to improve in health. ... The Cardui acted as a fine tonic and I do not feel like the same person. I am so much better. I am well now. I have gained ten pounds and am still gaining. My sides do not trouble me at all.

"I wish every suffering woman knew about Cardui." NC-150

Suits For Fall

Men are breaking away from the dull monotony of other days. You've seen it in the brilliant neckwear and golf hose. Now they're demanding more color in spits, too. Bracken is the shade for fall—the rich autumn brown of the Scotch fern; the colors of the Heathlands, with touches of red or glints of green in the patterns.

AMERICAN PROPOSAL FOR FREE VISAS HELD UP BY GREAT POWERS

Berlin.—(AP.)—Free visas for Americans throughout the world are being held up by the great powers of Europe. Great Britain, France and Italy have not agreed as yet to the proposal of the United States that there be a mutual cancellation of the visa fee for all tourists because the offer of the United States is not entirely reciprocal in that the State Department proposal did not waive the fees on emigrants from those countries to the United States.

As a nation to which there is a large emigration, the United States is in a different position from the nations of Europe, and because of the stringent immigration limitation in America, is not willing to waive fees in the case of emigrants coming to the American ports. Naturally there are few persons of American citizenship who migrate to other countries for permanent residence and the complete abolition of fees for immigrants and tourists alike which enter the United States would in practice be a one-sided arrangement in which the United States would get the worst of it. But it is the principle involved on which the larger European powers balk.

Germany voluntarily reduced visa fees to Americans, but the arrangement is purely temporary, and the German government has replied to the American proposal for mutual abolition of fees for tourists that Germany will be glad to consider a proposal which contemplates the abolition of fees for tourists and emigrants alike. This action on the part of Germany is in harmony with the position taken by other great European powers. If Great Britain were to accept the American proposal it is generally believed in diplomatic circles that all the other great countries of Europe would fall in line, but until England makes such a step it seems unlikely that other important European countries will act.

Guatemala, Honduras, Costa Rica, Panama, Sweden and Switzerland have fallen in line with the proposal of the American State Department. Spain has agreed to accept a fee of only about two dollars on non-immigrants and Bulgaria has agreed upon a similar fee for non-immigrants. German temporary fee of about \$2 for a six-month visa or Americans preceded the

ports of the United States to save its citizens from paying 10 to each country they wish to visit.

Belgium long ago abolished all charges for visas. Holland makes no charge for foreigners who do not remain in the country longer than eight days. Most of the lesser countries of Europe, however, cling firmly to the ten-dollar fee for Americans, to the great annoyance of Americans who are unable to understand why countries smaller than many single states in America should demand such a fee when the American fee of \$10 enables foreigners to travel the length and breadth of the United States.

FREE STATE TO SPEND MILLIONS IN IMPROVEMENT OF HIGHWAYS

Dublin.—A new scheme for the improvement of Irish roads has been decided on by the Free State government at a cost of nearly \$20,000,000, to be spread over three years.

It is proposed to bring 1,500 miles of the country's 4,000 miles of trunk roads to a standard which will give a road life of eight to ten years. The laden weight of new motor lorries will be restricted to nine tons, under the plan, and owners of horse drawn vehicles will be compelled to use wheels with wide rims.

BULGARIA AND JUGOSLAVIA REACH AGREEMENT ON TRANSFER OF MAIL

Sofia.—Negotiations which have extended over a prolonged period have resulted in the signing of a railroad operating convention by Yugoslavia and Bulgaria. It involves the transfer of mail from Bulgaria to Serbian trains and vice versa. In the agreement reached, the railroad exchange center was left at Tzaribrod.

The railroad agreement was reached despite the fact that Serbia had suspended visaing or recognizing Bulgarian passports, owing to a protest lodged with the Bulgarian foreign office against the arrest of several Serbian subjects after the explosion in the cathedral of Sveta Nedelja. The controversy concerning the arrest has not yet been settled despite explanations and apologies offered by Christo Kalfoff, the Bulgarian Minister of Foreign Affairs.

McGirt Bridge Formally Opened

The formal opening of the "McGirt Bridge" over the Cape Fear River at Elizabethtown marks the completion of the fifth of the large bridges built by the State Highway Commission. The other large structures are the Swift Island Bridge over the Yadkin near Albemarle, the Williamson Bridge over the Roanoke at Williamston, the Wilcox bridge over the Yadkin at Salisbury, and the Winston bridge over the Chowan at Winton. Two other large structures are nearing completion, the Rocky River bridge, over the river of the same name, near Wadesboro, and the Scotland Neck bridge over the Roanoke near the town of the same name. These structures are permanent in construction and are considered investments by the citizens of the State. In almost every instance these bridges replace toll ferries or toll bridges.

Most Powerful Car of Its Size and Weight

—a One-Profit Value

THERE are (as you probably know) only two manufacturers who actually build their cars complete—make all their own bodies, engines, clutches, springs, gear sets, differentials, steering gears, axles, gray iron castings and drop forgings.

One of these is Ford—in the low priced field. The other is Studebaker in the fine car field.

This one-profit principle of manufacture makes possible four great advantages.

1. It eliminates the extra profits and overhead that many other manufacturers have to pay and include in the purchase price to you. This keeps Studebaker prices low.

2. It enables us to build a better car because the vital parts are designed, engineered and manufactured complete by one organization. Being built as a unit—Studebaker cars function as a unit, with all of the advantages of unit over assembled construction.

3. It makes possible finer quality because Studebaker, being an independent manufacturer, with no subsidiary or allied companies to favor, is free to buy on the open market, demanding the finest materials at the lowest possible price. Studebaker purchasing agents are unrestricted in their search for quality and value. Studebaker designers and engineers are unhampered by outside interests.

4. And, finally, because of these one-profit savings, Studebaker is able to offer you a sturdier, more substantially built automobile. We pay a premium for the finest steel. We use hard wood in body construction. Plate glass in the windows. The finest grades of upholstery. Genuine full-size balloon tires. Unusually fine interior trim with no exposed tacks, and heavy hardware. Throughout the entire car—in hundreds of hidden places—you find the same high quality of materials and workmanship that you see out in the open.

The Standard Six Coach shown below is a splendid example of One-Profit value.

It offers greater power than any other car of its size and weight, based upon the rating of the National Automobile Chamber of Commerce. And luxurious riding comfort made possible by the big balloon tires, resilient springs, comfortable cushions and ample roominess.

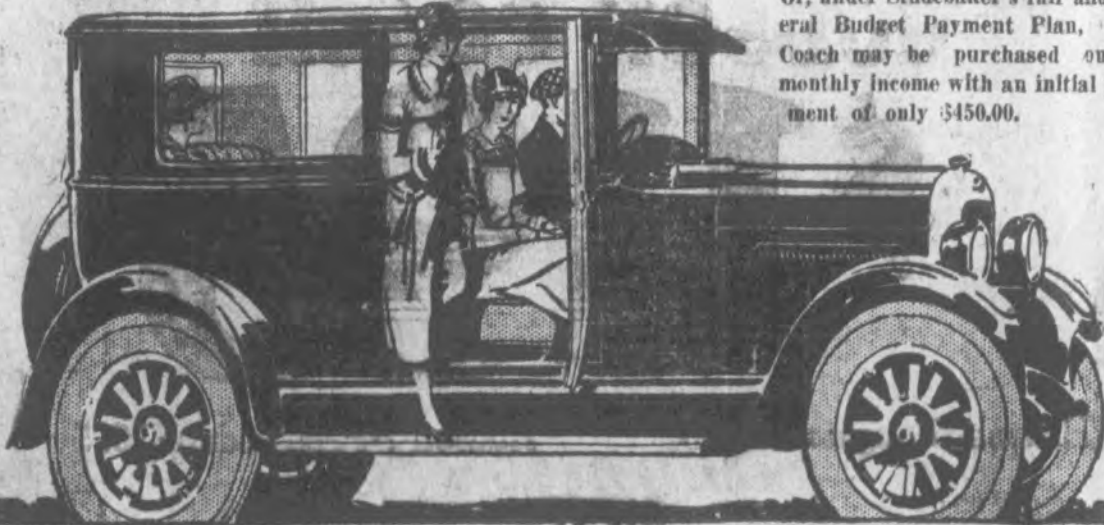

But the only way to judge this car is see it—drive it! Feel the luxurious upholstery. Sit in the deep, soft, comfortable seats. Experience the surge of its tremendous power. And then compare it with other coaches.

The recent Studebaker price reduction and policy of "no yearly models" only serves to emphasize the logic of this reasoning.

If you seek a bargain in a quality car—by all means see this One-Profit Coach.

Studebaker Standard Six Coach \$1350., delivered for cash in Greenville, N. C.

Or, under Studebaker's fair and liberal Budget Payment Plan, this Coach may be purchased out of monthly income with an initial payment of only \$450.00.

CRUSADE SEEKS TO RESTORE RELIGION IN U. S. HOME LIFE

Indianapolis, Ind.—Restoration of religion to its place as a factor in American home life will be the aim of the Christian Family convention to be held here October 1 to 10.

The convention is sponsored by the Christian Family Crusade, under the direction of Rev. William Garfield Holderby of Chicago. Gov. Ed. Jackson and U. S. Senators Samuel M. Ralston and James Watson of Indiana head a state committee which is arranging for local entertainment of delegates from all sections of the country.

After the keynote of the convention is sounded on the opening day with pleas from men of national repute for restoration of worship and religious training in the American home, the meeting will be divided into 3 periods, of three days each, devoted to consideration of the relation of the American family to the home, the church and the nation.

CURE CREDITED AT SHRINE OF NEWLY CANONIZED SAINT

Prince Albert, Sask.—A statement by the physician attending the family of Colin LePage, of Proudhon, Me. Sask., received here certified the cure of a daughter of LePage, aged three years. The child had been taken to a shrine at Wakaw, 50 miles south of here, to St. Theresa of Lisieux, France, established after the saint was canonized last May.

An operation last year failed to cure a serious affection of an ear of the child. At the shrine the LePage family prayed nine days. On the ninth day the cure appeared. The physician's statement did not refer to the tri pot he shrine. On a return visit at the shrine the family rendered thanks to St. Theresa.
