## ROTARIANS HELD INTER-CITY MEET IN FARMVILLE TUES.

Maynard Fletcher Elected Group Chairman for Year; Day's Session Proved Most Interesting and Was Largely Attended

Farmville, Nov. 4.—The inter-city meet of Group Seven of North Carolina Rotarians, was held in Farmville Tuesday, with approximately 75 Rotarians and Rotary-Anns present. The morning session was presided over by President R. H. Wright of the East Carolina Teachers College of Greenville. Walter Sheppard welcomed his fellow Rotarians, first, for where they were, who they were and what they were. In the absence of Luther Hamilton of Morehead City, one of his fellow clubmen, Dr. Kemp Battle Bonner, most happily responded to the address of welcome. At a short business session, Maynard Fletcher, president of Washington Collegiate Institute was elected group chairman for the coming year. Ayden extended a cordial invitation for the May fourteenth group meeting, which was unanimously accepted. District Governor C. J. Smith made a most helpful, informal speech, emphasizing the importance of the position of the president and secretary of the individual club, and offering some very kindly and constructive criticisms of the general. At 10 o'clock, Walter Sheppard invited the Rotarians and their Anns to the basement of the new Methodist church in which a splendid turkey dinner was served by a circle of the Woman's Auxiliary of that church.

After dinner a prize fight was staged by members of the Ayden club. Walter Sheppard of Farmville and Paul Frizzell of Snow Hill, being the contestants. J. E. Winslow was used to "egg on" and it was a battle royal. The referee called it a tie. Dave Whichard and Cis Elen of Greenville then put on a stunt demonstrating the purpose and plan of Rotary as conceived by Paul Harris, twenty years ago. The stunt was very effectively pulled off. One of the outstanding talks of the day was made by Maynard Fletcher of Washington. Paul Frizzell was the next speaker and his subject "The Rotarian and His Business," was well handled. Stephen Gardner held his audience breathless as he sang "A Winding Road," by Gilbert Spross. The Rotarians and the sixth object of Rotary was next on the program and was interpreted by Dist. Gov. Chas. Smith in a way that caused the convention to sit spellbound as he admonished the members to be true to the highest principles of Rotary.

## VESSEL SUNK IN CHINO-JAP WAR TO BE REFLOATED

## Series Auto Accidents Occurred Last Night Green-Wash. Road

A white man was arrested, a negro man received painful injuries, a Ford car and a cart, bringing tobacco to town, were damaged as the result of a series of accidents which occurred in rapid succession on the Greenville-Grimesland road last night.

According to reports a car driven by Mr. Jim Hines of this city in an attempt to pass the cart struck the Ford car. After Mr. Hines and the driver of the Ford had adjusted their trouble, a Ford truck driven by Otto Lewis, white man, came from over a hill, ran into the cart and turned over on the Ford car. The negro occupant of the cart received a broken collar bone. About this time Officer Manly Sellars appeared on the scene arrested Lewis and brought the negro to town where he was given medical attention. Lewis is under bond for his appearance in next week's session of court.

Reports today stated that one or two other cars were wrecked in same place following Officer Sellars' return to Greenville but the reports have not been substantiated.

## CIVIL SERVICE EMPLOYES IN CHICAGO MUST MOVE TO TOWN

Chicago.—Home moving day for many city employes may be a political sidelight in a change of city administrations. Employes under the civil service code have been told by the corporation counsel that they should live within the city limits. As a result, hundreds of them are confronted with losing their jobs or moving their homes from the suburbs back to the city. The city's legal adviser reversed an opinion handed down under a previous administration.

## DEFENSE ATTEMPTS PROVE AN ALIBI FOR ALVIN MANSEL

Case Expected to Reach Jury Late Tonight or Tomorrow; Victim of Attack Positively Identifies Mansel as Her Assailant

Asheville, Nov. 4.—(AP)—Attempt to prove an alibi for Alvin Mansel, 17 year old negro on trial for his life charged with a criminal attack on a white woman, was being made by the defense today. Mansel, who was employed as orderly at a Sanatorium contended he was on duty at the time of the attack on the woman.

It is anticipated that the case will reach the jury late tonight or tomorrow morning. A night session was held last night and another will be held tonight if necessary to conclude the case. The victim of the attack positively identified Mansel as her assailant last night. Testifying behind locked doors after all spectators had been excluded from the court room, the woman told how she had started from her mountain home with flowers for sale and she met Mansel and asked him if he knew where she might sell some flowers. He directed her to a house and then followed her. She testified he seized her and dragged her off into the woods to commit the attack and that she lay on the ground for about two hours before recovering sufficiently to give the alarm. Sheriff Mitchell testified that Mansel was arrested a few hours later and positively identified by the woman at the hospital where she had been taken.

Kelsey Bartlett, negro spectator, was last night ordered jailed by Judge Stack after persons in the court room testified that Bartlett had made the statement that white men were telling lies about Mansel on the stand.

# ARLISS POINTS OUT WHOM TO BLAME IF STAGE QUALITY LOW

New York.—If the stage is going to the dogs, and according to existing records it has been going that way for at least 200 years, it seems to George Arliss, the actor, that the only people who can be arraigned on suspicion are the Public, the Actor and the Manager.

The public is most generally blamed, said Mr. Arliss. Whenever any particularly insane play is produced the students of the drama are apt to raise their high-brows and say "This is the sort of thing the Public wants nowadays."

"When anything unusually vicious attracts attention, we hear, 'This is what the Public demands,'" Mr. Arliss said. "The poor, long-suffering Public! How can they demand any specific entertainment? If any one of the Public knew what to demand, he could become a theatrical manager and make a fortune. It would mean that he knew the public taste."

"The public does not know what it demands any more than I do. I have had a good deal of experience, but when an author asks me what kind of a play I want, I have to confess that I do not know. I want a good play that is all I can say. And that is what the

Public is continually saying. It wants the best that we can give it. "If you look over the list of the greatest successes the stage has had you will find that the Public has taste judgment and a nice sense of morality. The Public is a gentleman and should be treated as such. But the Public does not know what it wants until it gets it. It can, therefore, hardly be held responsible for the nature of the production. The Actor is engaged by the Manager and broadly speaking, has to do what he is told. The Manager then would appear to be responsible for the guilty act.

"But who shall blame him? Who is going to cast the first stone. New York is the great producing center—the great mass of the theatregoers there are not a normal Public; they are passing through; they are holiday makers, their attitude of mind towards entertainment is likely to be quite different from that of a settled resident. The manager is in the business primarily to make money. Why, not. He says 'The Public demands nudity. I give it to them.' He means that he places nude women on exhibition and the Public comes to see them. But there will always be a public in New York for anything sensational. It is not the Public; it is a public, an ephemeral public.

"Not long ago this public was attracted by shocking bad language, such as had never been spoken on our stage. Today the performers might swear till they were blue in the face and it would not be worth a dollar. Legs have had their day; and other anatomical attractions are going the way of all flesh. When they go the manager who has peddled these

commodities will have nothing left to stand upon. "That is where he has been commercially unwise. He has been running his New York theatre as a side show as a fair. He has catered for that public and not for the Public. He has merely sought the 'nimble shilling.' He has built up no reputation that will be an asset to him throughout these great United States—as he might have done. My experience has taught me never to underrate the understanding of an audience, to give them credit for at least as much intelligence as I have myself and to go for the great mass of normal theatregoers of this country, rather than the seething crowd of amusement seekers that throng any metropolitan center."

## AN INABILITY TO KILL A MAN FIRST GENEVA AUTO DRIVER'S TEST

Geneva.—If one hopes to get a license to drive an automobile in Geneva you must first of all be unable to kill a man.

The police examiner plants himself stoically in the middle of some unfrequented thoroughfare and orders the candidate for a license to drive swiftly down upon him with the injunction to stop and stop only when the front rim of the car touches the waistband of the waiting official. Many a woman and yes, many a man, their nerves shattered, fail in this feature of the driving test.

The two Geneva examiners have developed into crack dodgers and crooks. They have to be if they to keep their jobs—alive.

## JOCKEY CLUB STAKE CLOSES KENTUCKY'S RACING SEASON

Louisville.—Fresh from eastern and middle-western racing centers, King Horse has come back to the throne of the thoroughbred—Churchill Downs—for a final fling before being deposited by winter.

For a prize of approximately \$25,000, ten or more sterling two year olds tomorrow will race for the Kentucky Jockey Club Stakes. This race will be "Kentucky Derby" of the fall racing season here. Two races with \$5,000 added also are on the cards for the 15 day meet which closes November 7.

Entries for the Jockey Club Stakes closed with 421 nominations. Final payments were made last July 1 on 94 eligibles for the mile race. Heading the list is Pompey, whose winnings have brought the Shoshone stable, E. R. Coe, owner \$121,000 this year. Bubbling Over, the two-year-old son of North Star III; Beaming Beauty, for which E. R. Bradley refused an offer of \$100,000; J. E. Griffith's Canter and Mrs. Payne Whitney's Lancaster and Navigator, are among those expected to challenge Pompey's right to rule.

Man O'War has a likely looking chestnut daughter, Swanee, out of Honey Girl, ready for the issue. The filly was one of six runners nominated by Audley farm, Johnson N. Camden, President of the Jockey Club, had two good fillies eligible in Mary Kinkead and Daark Phantom.

The East's representatives in the nominees included Walter J. Salmon's Ursula Major by North Star III out of Superwoman, and H. F. Sinclair's, Rancocas Stable by Inchaque Belle, \$5,000 added, feature event of get-away day November 7, had attracted The Godard Handicap, with 93 nominations.

## PARK TO SHOW PRE-HISTORIC NEIGHBORHOOD OF HOLLYWOOD

Los Angeles.—The saber-toothed tiger and the imperial-tusked elephant once roamed through a jungle just south of what now is Hollywood. A glimpse of southern California as it was then will be afforded when the pre-historic park planned by the Los Angeles Museum of History,

Science and Art becomes a reality. Years ago scientists found in some asphalt beds on the Rancho La Brea, fossil bones of animals of the pleistocene period. Exploration indicated that probably hundreds of thousands of years ago these jungle inhabitants had blundered into the sticky asphalt. Unable to extricate themselves they had died. Other victims followed them.

The bones of these animals were pressed into the clutching pits until the passage of many centuries built up a veritable storehouse of fossil skeletons. Here the scientists have found the bones of many prehistoric jungle animals skeletons of which may be seen at the museum.

Twenty-seven acres in which the pits were found were donated for a public park. The park plans call for the planting of trees and shrubbery as nearly as possible like those which existed at the time of the saber-toothed tiger and his contemporaries. Reproduction of the animals in stone will be mounted and placed in the reconstructed jungle.

## HUNGARIAN PARLIAMENT FACED WITH CREATING NEW CURRENCY

Budapest.—Creation of a new currency, the establishment of the federal budget on a gold basis and the adjustment in reevaluation, are three problems to occupy the attention of the Hungarian Parliament when it reconvenes this fall.

Decision as to what shall be the unit of currency must be made first. Some favor the shilling, now used by both Danzig and Austria, as the monetary unit. Others believe that the crown should be brought back to its pre-war value.

The budget question will be easily satisfied after the new currency has been selected. For the present the budget, while balanced, is still on a paper crown basis.

In re-evaluating the war loans and other securities in which the people invested before and during the war, the Hungarians will be guided in a great measure by the experience of Germany with her re-evaluation loans.

## Who Is Your Cleaner?

Good Housekeeping Institute says deal with a responsible Cleaner. Read in the November issue of Good Housekeeping, "Can It Be Dry Cleaned?" Below is a quotation from it.

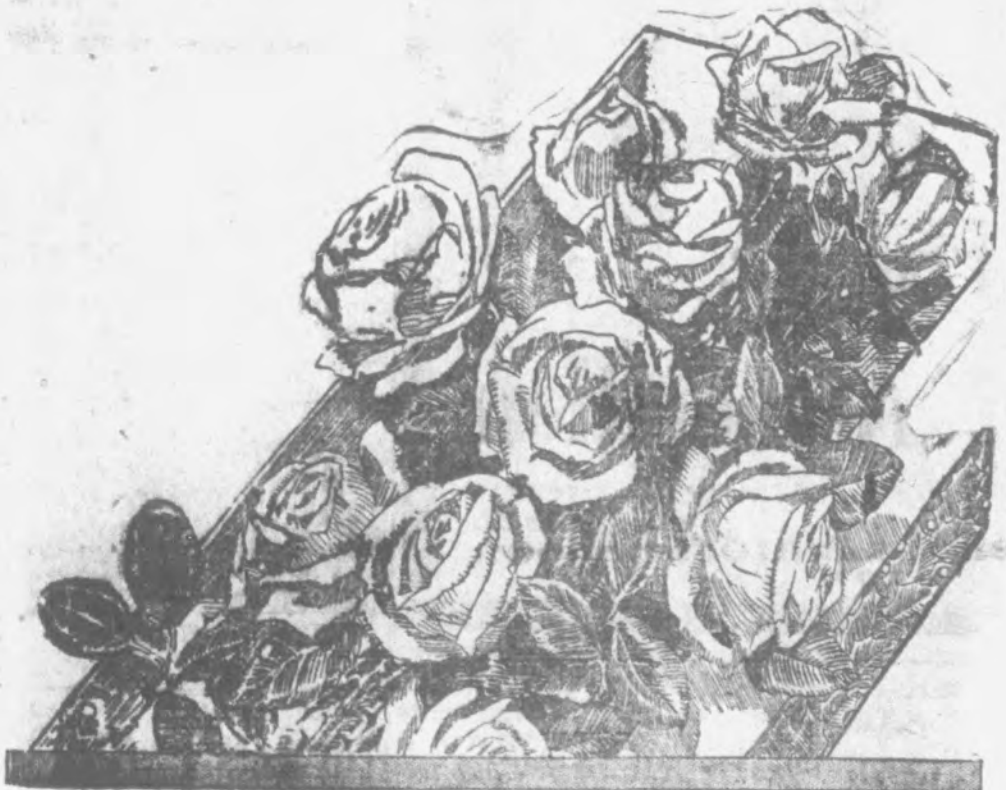

" \* \* \* It seems best to deal as directly as possible with the Cleaning Plant. If the dress or coat, left at the corner tailor shop to be cleaned, turns out unsatisfactorily it may be difficult to secure a fair adjustment. Who was the cleaner? Is he equipped for hygiene cleaning? Large plants usually provide a call and delivery service either direct or through branch shops."—Good House Keeping Magazine.

Plans for Christmas were discussed and if they materialize many people will be made happy during the Christmas season.

The following officers were elected for the ensuing year: President, Mrs. R. L. Smith; First Vice President, Mrs. Hortense Moye; Second Vice President, Mrs. J. H. Boyd, Jr.; Secretary, Mrs. Lizzie Griffin; Treasurer, Mrs. J. L. Little.

### Grimesland Entertains A Group of the Pitt County Teachers

On Monday, November 2nd, teachers surrounding Grimesland came together for a group teachers meeting. The morning program consisted of several lessons demonstrated. They were Oral English, written English, Fundamentals in Arithmetic, Problems in Arithmetic, and Spelling. They were taught by the Grimesland Teachers and the visiting teachers made observation of them, taking down points which would help them in the afternoon discussion. Several of the parents of the community also

joined with the visiting teachers in observing the lessons.

At noon, members of the Civic Club served a light lunch and directed some social stunts.

The afternoon program was a discussion of the lessons that had been observed in the morning. One unique phase of the days program was that several of the parents visited and enjoyed the days work. The elder parents who attended the afternoon discussion declared that methods had changed since the time they went to school. They spoke of how much they enjoyed seeing the way that their boys and girls were taught today.

This same type of program has been carried out at Falkland, Bethel, Grifton, Winterville and Greenville, each of these schools have lended hospitality in a similar way to the visiting teachers. A group teachers meeting is to be held at Stokes on Friday, November 6th and will conclude all of the group teachers meetings to be held during the fall for the purpose of improving classroom instruction.

### Field Trials Central Car. Field and Kennel Club Be Held Dec. 4

Raleigh, Nov. 4. — (AP) — The field trials of the Central Carolina Field and Kennel Club, to be held at Mount Vernon Springs, Chatham county, beginning Monday, December 14, will consist of four separate

events, the all-age stakes, the all-age derby, the members' stakes, and the members' derby.

Ten thousand acres of land, that for years is said to have attracted sportsmen has been secured for the event, it is stated, and is under lease by former Sheriff L. T. Lane and Judge W. L. Shaw. It consists of rolling fields, with plenty of cover; grain has been planted, and birds are said to be found in plenty. Officials of the club expect the event to attract a large number of sportsmen from this and other states. They expect a good array of fine dogs.

In addition to the field trials, a bench show is also to be held in con-

nection with the event. All dogs entered in the field contests will be eligible to compete in the show, to be held on Monday night, December 14. Loving cups will be the awards in the show.

### GAY AND LUCRATIVE SEASON EXPECTED FOR MONTE CARLO

Monte Carlo. — Monte Carlo has finished its summer house-cleaning and brighter, gayer than ever is ready to receive the thousands of visitors during the coming season.

Important alterations have been made in the casino, the most striking of which being the enlargement of the popular "roulette" rooms at the expense of the exclusive "baccarat" salons. The new management which took charge a little over a year ago has realized that more money would be made from the fashionable inner rooms, where a 1,000 franc wager is looked upon with some disdain by the blasé groupiers.

Out of the gross receipts of 110,500,000 francs taken in at Monte Carlo Casino during the last year, more than 70,000,000 came from the cheap roulette tables.

Roulette is the main reason that attracts visitors to Monte Carlo. The Casino at Cannes, under the management of Eugene Cornuche, the "boss" of Deauville, has been competition for Monte Carlo since the war. The Cannes Casino's receipts reached a little over 60,000,000 francs last year, but Cornuche has given up hope of ever catching up with Monte Carlo.

"Players get tired of baccarat and boule," Cornuche said. "They will spend two or three hundred francs to run over to Monte Carlo from Cannes and Nice just to get a chance at the roulette."

Casinos in France are not permitted to operate roulette wheels and like Cornuche, the proprietors of the gambling plants at Nice, Menton and other Riviera resorts feel that no real competition can be made to Monte Carlo, as long as the little principality enjoys the exclusivity of the roulette privileges.

The Monte Carlo expenses in the last fiscal year amounted to less than 50,000,000, leaving a net profit of 63,876,310 francs, two-thirds of which only were paid out in dividends to the shareholders. They received 600 francs as a dividend for a 500 franc share, nominal value.

The balance of the money was expended in the construction of a new building for the installation of the Sporting Club; a few cinema houses and theatre and the erection of a summer casino at Larvotto. Ten new tennis courts have also been set out, six at the Festa Tennis Club and four at the Condamine.

### RABBITS IN CASCADE MOUNTAINS JUT ON SNOW SHOES FOR WINTER

Tacoma, Wash. — Rabbits in the high Cascade mountains are putting on their snowshoes for the hard winter ahead. Soon they will be able to go over the snow without difficulty, thanks to this arrangement with nature.

The creatures are called Snowshoe rabbits, sometimes known as Varying hares. Their hind feet have long, spreading toes, which in winter are covered with coarse hair, giving the ear feet fully four times the area of the fore feet. This natural snowshoe enables Mr. Rabbit to travel in snow in which the ordinary bunny would flounder.

The Snowshoe rabbit also changes color in winter. In summer he is brown to match the landscape, but in winter he becomes entirely white.

### CENTER OF CIGAR INDUSTRY IN TAMPA ALSO ARE MOSTLY SPANISH

Tampa, Fla. — Ybor City is the center of the cigar industry in Tampa and of its population more than 25,000 people are of the Spanish race. A great many of them use the Spanish language almost exclusively.

Ybor City was named after one of the progenitors of the Ybor family, early settlers in Tampa. It appears as a city transplanted from Spain. The traditional love of the Spanish for music and drama resulted in the erection of the Centro Austuriano, a handsome opera and club house, where Metropolitan stars have frequently entertained.

Other Latin elements also are found in Ybor City, notably the Italians, who have built a beautiful auditorium as an adjunct to their club. Local activity in real estate has affected Ybor City and resulted in

the displacement of some landmarks, but the Latin element pursues its way unimpeded by such material matter as land values.

**Sails Tried in Ploughing.**  
Brightlingsea, England. — Sails were introduced as an aid to ploughing in a soil tillers' match near this little seaside resort of which many of its residents are yachtsmen as well as farmers. The wind at times aided the horses in dragging the plough along but at other times puffs blew the implement to one side and spoiled a straight furrow which hindered the contestant's chance of winning first prize. Men as well as women participated in the contest, which the judges decided was a great success but thought there was little possibility of sails ever putting horses or motors out of business when it comes to ploughing.

### OXFORD VOICE WORST VICE OF BRITISH STAGE, ERVINE SAYS

London. — The Oxford voice, "that lamentable thing that is worse than Oxford trousers," is the worst vice on the English stage today, in the opinion of St. John Ervine, dramatic critic and playwright. This voice, he said, was more revolting than the Cockney accent.

Swinging to comment on the American stage, Ervine declared Boston was a town where the poorest plays got the largest audiences and the best plays the least, while he described Chicago as one of the worst places in America for theatre production.

He has just returned from extensive travel.

### PROHIBITS CHINESE COEDS TO MARRY WITHOUT THE PARENTAL OKAY

Peking. — Marriages between coeds of the various government colleges and universities without the consent of parents has been prohibited.

Governor General Li Ching-fu, of Chihli province, asserted that the social custom of the West has penetrated China to such an extent that many young men and women contract marriage without parental approval. As the General viewed free marriages as detrimental to the ancient doctrines, all professors and students will be dismissed and punished without mercy if they persist in the practice.

## N. C. Branch Congress Parents, Teachers to Meet Nov. 10th

Asheville, Nov. 4.—(AP) — The three day program of annual convention of the North Carolina branch of the congress of Parents and Teachers, which will be held in Wilmington November 10 to 12, has just been announced here by Mrs. Curtis Bynum, of Asheville, president of the organization.

The pre-convention meeting of the board of managers will be held on Tuesday morning, November 10, but the convention proper will not begin until the evening of November 10. On Wednesday and Thursday, morning, afternoon and evening sessions will be held.

The convention will open at the Wilmington high school building on Tuesday evening at 8 o'clock. Addresses of welcome on behalf of the city, the schools, and the local Parent-Teacher association will be responded to by Mrs. Frank Castlebury, of Raleigh. The first session will be featured by addresses and music. After the session itself, the delegates will attend a reception in the high school.

The morning and afternoon sessions on Wednesday will largely be taken up with reports of various officers and committees. In the latter part of the afternoon session, however, following the report of the nominating committee, officers of the organization will be elected, to be followed by addresses. The afternoon session will be followed by a social hour and an automobile ride. Music, addresses, and discussion will feature the evening session. After its adjournment, the newly elected officers will convene to elect chairmen of standing committees.

The morning and afternoon sessions will be occupied largely with round table discussions, conferences, reports, etc., although these will be interspersed with music and brief talks. The evening session on Thursday, the last session of the convention, will be marked by the presentation of two plays, report of the resolutions committee, and other matters.

## WHO HAS NAPOLEON'S DEATH BED ANTIQUARIES AGAIN ASK

Paris.—Who possesses Napoleon's death bed again is a question that is making antiquaries forget war debts and taxes.

The Countess of Lajerouse, great granddaughter of General Montholon, to whom Napoleon was supposed to have willed his death bed, attests to the genuineness of her possession by documents duly verified by notaries.

Prince Murat is said to have the real relic, which came into the Murat family by will from Caroline Bonaparte, Queen of Naples. Supporters of Montholon contend that this bed is only a camp bed to which the remains of the Emperor were transferred after his death.

Now comes an American amateur collector on the trail of the "real" death bed. It was offered for sale at Deauville last summer. French admirers of the Little Corporal became anxious lest this precious piece be exported from France. They started a subscription for its purchase. While waiting its final disposition in Paris, someone started a controversy as to the authenticity of the bed.

The owners of two other Napoleon death beds are keeping dark for the moment, waiting to see how the controversy turns before deciding what line to take.

## Makes Fat People Slim

**New York Physician Perfects Harmless Method of Reducing Weight**

The loss of as much as a pound of excess fat a day with no harmful results is the record made by many patients of Dr. R. Newman, a licensed practicing physician of 286 Fifth Avenue, New York, who announces that he has perfected a treatment which has quickly rid fat people of excess weight. What is more remarkable is the Doctor's statement that he has successfully treated thousands of patients for fat reduction without change of diet or unnecessary exercise. It is also said that fat people who suffer from chronic rheumatism, gout, asthma and high blood pressure obtain great relief from the reduction of their superfluous flesh. Realizing that this sounds almost too good to be true, the Doctor has offered to send without charge to anyone who will write him, a free trial treatment to prove his claims, as well as his "Pay-when-reduced" plan. If you want to rid yourself of superfluous fat, write him today, addressing Dr. R. Newman, 286 Fifth Avenue, New York City, Dept. R-1.

## BULGARIAN NEWS REPORTERS RECEIVE ABOUT \$8 A MONTH

Sofia.—News reporters here presumably exist on what many newly married couples always feel they can fall back on—love and fresh water. The average reporter receives about \$8 a month and, an important edito such as Nikola Milef, who was assassinated, receives less than \$50 a month. Sofia has 14 daily newspapers and they sell for about three-fourths of a cent each.

## COMPLETES COPY OF BIBLE ON STRIP OF PAPER, THEN SWOONS

Tokyo.—A complete copy of the Bible on a single strip of paper has been made by a Japanese Christian missionary, Dr. Ishizuka. The paper scroll is about 110 inches long and 30 inches broad. The strip can be read, but only with the aid of a magnifying glass. The text is in Japanese, more than 1,000,000 characters covering the scroll. It required four years and three months to complete. As it sconclusion, Dr. Ishizuka fell into a long swoon.

## Spend One-Third on Movies.

Paris.—Patrons of the "Seventh Art"—as the French call the cinema—contributed one-third of the entire amount spent in 1924 by the theater going public of Paris to the movies. The box offices in the 100 and more cinema houses in the capital and suburbs last year took in 100,500,000 francs.
