MEDICAL SOCIETY DISCUSSES PLANS FOR SANATORIUM

Also Pledge to Co-Operate With the Merchants Association in Collecting Delinquent Accounts

The Pitt County Medical Society held the first meeting of the new year in Ayden last night, the guests of Drs. M. T. Frizzelle and Guy Sumrell. The session was most interesting and largely attended. The February meeting will be held in Greenville with Drs. Joe Smith and Jennie Morrill, hosts.

Dr. C. L. Outland told of the proposed plan for a tuberculosis sanatorium for Pitt, Edgecombe and Wilson counties. This matter, which is indeed an important one, was discussed by several members of the Association and a committee was appointed to ascertain facts concerning such organization, and the necessary steps to take in order to secure same.

The members discussed the steps which the Merchants Association is now taking to collect delinquent accounts, and pledged their co-operation in this undertaking.

Dr. J. C. Greene read an interesting paper on "What Have You Done For This Society—And This Society For You?" The paper was well written and it was voted that every member of the society be supplied with a copy.

The Society was delighted to welcome a new member, Dr. R. S. Smith, of Ayden. Dr. Smith, in a few appropriate words, expressed his pleasure in becoming a member of such a wide-awake organization, and promised his undivided support in all its undertakings.

Dr. A. M. Schultz read a paper on "Impacted and Unruptured Teeth." This proved most instructive and interesting.

The program for the February meeting will be featured by papers by Drs. K. B. Pace and G. S. Dixon.

Those attending last night's meeting were: Drs. L. C. Skinner, C. O'H. Laughinghouse, W. L. Wooten, K. B. Pace, C. L. Outland, Malcolm Thompson, R. E. Williams, C. J. Elven, M. B. Massey, Guy Sumrell, G. G. Dixon, J. C. Greene, B. McK. Johnson, M. T. Frizzelle, Joe Smith, Dr. Whitfield, A. M. Schultz and R. E. Smith.

Service Station Badly Damaged By Fire Today

The Greenville Service Station located on Dickinson Avenue, owned and operated by Mr. H. D. Carson, was badly damaged by fire early this morning. The estimated loss is around \$4,000, partially covered by insurance.

According to information, Mr. Carson opened for business this morning between six and seven o'clock. He started fire in the heater with oil and waited upon one or two customers. In some way the oil leaked out on the floor and caught fire. Mr. Carson made a desperate effort to extinguish the flames and in so doing, the oil can was knocked over. About this time the fire company responded and the flames were brought under control but not before the station had been badly damaged.

Greenville to Have Automatic Traffic Signals

The Board of Aldermen has purchased the Automatic traffic signals for Greenville and the same will be located at Five Points. As considerable construction work will be necessary to meet the requirements of the location, the signals will be erected at the earliest possible moment. The automatic traffic signal is the most modern system manufactured and Greenville is assured of absolute satisfaction in its installation.

FIFTEEN RUSSIAN RIP VAN WINKLES HAVE JUST FOUND OUT THE WAR IS OVER

Vladivostok, Jan. 15.—(U.N.S.)—Sequestered on a tiny island in Bering Straits for ten years, fifteen Russians learned with amazement of the overthrow of the Czar, the outcome of the war, the Bolshevik revolution and the present government of their country when the Soviet cruiser "Vorovski" touched at the island during an exploration cruise just ended with the arrival of the "Vorovski" here.

Through the destruction in a storm of their boat with which they had been keeping in contact with the mainland, the inhabitants of the island had been completely cut off from the outside world since 1915. The officers and crew of the Vorovski found them in skins and living the lives of Eskimos.

The fifteen men they were survivors of a crew of thirty hunters. Their Siberian rearing enabled them to dig in, make themselves snow shelters during the winters, and live off the country for the ten years of their exile. The island was a refuge for sea fowl in the summer and the surrounding waters teemed with seal in winter.

After their ammunition gave out, they fished and hunted like Eskimos, using bone fishhooks and spears. The Vorovski transported the fifteen modern Rip Van Winkles to the mainland.

Through the destruction in a storm of their boat with which they had been keeping in contact with the mainland, the inhabitants of the island had been completely cut off from the outside world since 1915. The officers and crew of the Vorovski found them in skins and living the lives of Eskimos.

Governor, Mrs. McLean Visit Press Institute From Mine Halted

Chapel Hill, Jan. 15.—(AP)—Governor and Mrs. McLean pleasantly surprised the members of the North Carolina Press Association in the closing session of the mid-winter institute here this morning by "dropping in from Raleigh" to bring greetings, as the governor expressed it, to the newspaper folks.

Grim Work of Removing Bodies From Mine Halted

Wiburton, Okla., Jan. 15.—(AP)—The grim work of removing 91 bodies from the Degan-McConnell mine near here, which was wrecked by a gas explosion early Wednesday, halted temporarily late last night when eighty-one bodies had been removed. The remaining bodies are in the debris and the passage-ways will have to be cleared before they can be reached.

Ralph Seyboldt Executed Today

Salt Lake City, Utah, Jan. 15.—(AP)—Ralph W. Seyboldt was executed for the murder of patrolman H. D. Crowther before the firing squad at the State Penitentiary this morning. Cool until the end the youthful murderer walked from his cell and faced the firing squad without assistance.

PRESS INSTITUTE AT CHAPEL HILL TO CLOSE TODAY

Weekly and Daily Sections Meet Simultaneously; Featured With Three Sessions Today

Chapel Hill, Jan. 15.—(AP)—The three days state newspaper institution here will come to a close this afternoon after three sessions during the day. The weekly and daily sections met simultaneously this morning. At the former Ben Lee Weathers, of the Cleveland Star, of Shelby, presided. Oley Buck, filed manager of the Nebraska Press Association, E. C. Peacock, professor of accounting at the University of North Carolina, and M. V. Atwood, managing editor of the Observer-Dispatch, of Utica, N. Y., were the speakers before this session.

J. A. Parham, of the Charlotte Observer, presided at the morning session of the daily section. On the program were addresses by Gerald W. Johnson, professor of Journalism at the University, Mr. Atwood and U. L. McCall, Superintendent of the Southern Division of the Associated Press, were the speakers before this session. Following the address of Mr. McCall was an open discussion of co-operation for better Associated Press service.

At the afternoon session two addresses were on the program, one by Nelson Antrim Crawford, author and member of the staff of the United States Department of Agriculture, and the other by James O'Shaughnessy, executive secretary of the American Association of Advertising Clubs.

HAUGEN BILL IS APPROVED TODAY

Measure Would Establish Division Co-operative Marketing Dept. Agriculture

Washington, Jan. 15.—(AP)—The House Agricultural Committee today approved the Haugen Bill to establish a division of co-operative marketing in the Department of Agriculture.

The measure, backed by the administration, would appropriate \$225,000 to carry on the work of the new division. It duties would include aiding co-operative marketing associations in disposing of crops and spreading agricultural information among the farmers.

The Department would employ experts on grain, livestock, fruits, vegetables, cotton, tobacco and other staple crops. The fourth national co-operative marketing conference went on record today as unanimously in favor of the Haugen bill providing for a division of co-operative marketing in the Department of Agriculture and recommended the creation of a special committee to consider the surplus crop problem.

Escaped Convict From Edgecombe Arrested Here

James Moore, negro, escaped convict, from Edgecombe county, was arrested here on Wednesday by Officer J. L. Whitchard, and returned to Tarboro today. The negro escaped sometime during last year and the officers have been on the lookout for him. A few weeks ago Officer Whitchard was notified that the negro was in Greenville, and after following a few clues, etc., he succeeded in locating and arresting him.

TODAY

(Copyright, 1925) The Pay of Judges, The Right Air Ports, Soup Is Good For You, Our Land Is Booming. ARTHUR BRISBANE

Congress should not neglect at this session the question of decent pay for federal judges. All of the judges in the national service are underpaid. For justices on the supreme bench and all through the federal judicial service, the shamefully inadequate pay is a disgrace to the richest nation in the world. It is impossible of course for the judges to make any campaign on their own behalf but the country that depends upon them for justice and protection should pay them at least enough to live decently.

Lieutenant Colonel Foulis, commanding air forces at Mitchell Field, says there should be a great "terminal" for airships in the east, located on the Newark meadows, west of Jersey City, close to New York, connecting with New York airways. The idea is sound, including the suggestion of an elevated landing field, connected with it there could be arranged at minimum expense a waterlanding for the navy's hydroaeroplanes, thoroughly sheltered. This plan had previously been discussed by Dwight Morrow, head of the president's air committee.

Newark, Jersey City, Hoboken, Elizabethport, and New York City are destined to be one great city with forty millions of people, equaling in population England or France. An adequate air terminal, in the center of that future city should be bought and built by the government now, for postoffice and commercial flying in peace. The other thing in war. There wouldn't be any war, if we had the right commercial fleet. That's why President Coolidge constantly urges the development of commercial aviation.

Similar great combination landing fields for hydroaeroplanes and other airplanes should be established in the principal cities of the nation, Chicago, New England, San Francisco, Seattle, Los Angeles, New Orleans, Galveston, etc.

Corn prices are low, "hogs are high." This puzzles farmers and packers. Corn and hog prices should go up and down together, since the pig is really corn, changed into meat. There is always something to puzzle and distress the farmer. He has no sufficient national organization, and after election day, he hasn't much influence in government, compared with railroads and other big financial units.

At the midday luncheon club in New York you can see eating at the same time, those that control ten thousand millions of dollars. Farmers are scattered all over the land, and if you could get them together, there wouldn't be any hall that could hold them.

Our British brothers, have also, their worries. The year just closed is the worst for trade in Britain's modern history, the balance being almost two billions of dollars against the British. Forty-five million additional pounds of imports, a loss of thirty-three million pounds of exports, make the British unhappy, but they "muddle" through in the British way, and will come out on top.

Uncle Sam is riding along on velvet. Severe competition abroad in the world's market at home is said to be ahead of our producers. But everything, including providence, seems to be with us now.

In real estate, condition throughout the country are astounding. Frederick Brown of New York, perhaps the biggest real estate operator in the world, was called reckless two or three years ago when he said, "Real estate values in big cities are more in the air than on the ground. Henceforth, a 112 story building in New York must be considered a 'taxpayer' waiting to be torn down to make way for a real building."

Now they tear down 17 and 19 story hotels, to make room for 49 and 50 story buildings. When you buy the ground and the air above it, the air is more valuable than the land.

The city of Carlisle, in England, makes a wise experiment, fighting it (continued on page 4)

BRANCH BANK OF FEDERAL RESERVE AGAIN DISCUSSED

Application Before Board Again and Hearings On Question Expected to Close Today

Washington, Jan. 15.—(AP)—The application of the Richmond Federal Reserve Bank for authority to establish a branch before the Federal Reserve Board again today and arguments expected finally to come to hearings on the question were presented by representatives of a dozen cities in North and South Carolina as to the necessity for the institution.

Today's hearings were in the nature of supplementary proceedings as the reserve board heard the views of the Richmond Bank officials some months ago. In the previous hearing much of the argument given again today was made in an effort to prove that the business interest of this district would be better served if a branch bank were authorized. No decision of the board appeared in immediate prospect as the hearing got underway and it was predicted that the board would indefinitely delay the announcement of a conclusion in the case.

Series of Sermons Which Will Be of Interest Women

Beginning January 17, and continuing through the morning services, the pastor of the Emmanuel Baptist Church will deliver a series of sermons which should be of special interest to women.

The general topic will be "Bible Women." There will be an effort to study together a few of the lives of the great women of the Bible and draw from their characters such helpful spiritual food as will strengthen any present-day life.

A special invitation is extended to the public generally as well as to the young women of the college. The topics to be discussed are as follows: The Woman of Decision, The Steadfast Woman, The Far-seeing Woman, The Drastic Woman, The Woman of Sacrifice.

\$25,221,579 Net Income Reynolds Tob. Company

New York, Jan. 15.—(AP)—The net income of the R. J. Reynolds Tobacco Company for 1925 was \$25,221,579 after deducting interest, depreciation and federal taxes and was equalled with preferred dividends to \$7.44 a share on \$180,000,000 combined common and class B common stock. This compares with \$23,777,716, or \$6.99 a share on the combined stocks in 1924. Profit and loss surplus was \$39,154,393 against \$29,732,814 the year before.

Says Airships Can Weather Any Thing Over Water

Washington, Jan. 15.—(AP)—Advocating replacing the wrecked Shenandoah with a larger dirigible, Captain George W. Steele, Commandant of the Lakehurst Air Station, told the House Naval Committee today that air ships "can weather anything over water."

Investigation of Poultry Trust Now Underway

Washington, Jan. 15.—(AP)—An investigation of the "poultry trust" under the Sherman anti-trust law is under way by the Department of Justice, John L. Lott, a special assistant to the Attorney General, disclosed today before the Senate Judiciary Committee.

12 BODIES HAVE BEEN LOCATED IN WRECKED MINE

34 Men Still Unaccounted for in Farmington Mine Explosion

Rescue workers toiling in mine number eight of the Jamison Coal and Coke Company at Farmington in an effort to reach the men entombed by an explosion late last night recovered four additional bodies this morning. In all 12 bodies had been removed from the mine up to shortly after noon. Twenty-six men are unaccounted for.

Practically all hope had been abandoned that any of the miners would be found alive. The blast came on the eve of a state wide campaign for mine safety launched by the Chief of the West Virginia Department of Mines.

Fairmont, W. Va., Jan. 15.—(AP)—The bodies of eight miners have been located in the number eight mine of the Jamison Coal and Coke Company at Farmington, near here, which late last night was partially wrecked by an explosion. There are still 34 unaccounted for in the mine.

The condition of the bodies, badly burned and mutilated, lead miners and some of the rescue workers to express the hope that at least a few of the men are still alive.

DRUNKEN YOUTH THREATENS TO SHOOT UP TOWN

Arrested After All Residents Along the Main Streets Seek Cover; Two Men Victims of His Shots

Cherryville, N. C., Jan. 15.—(AP)—Jesse Vandye, who threatened to shoot up the town here last night and who cussed the residents all along the main streets to seek cover, was arrested at 11 o'clock last night after he gave his pistol to his wife. Chief of Police Painter, who the drunken youth shot before he could be arrested, lies dangerously wounded this morning in the Lincoln Hospital. Physicians fear for his recovery, a bullet having entered his forehead. Horace S. Hoursworth, another victim of young Vandye's pistol, is recovering from a wound in the abdomen. When Vandye was arrested in the home of his mother-in-law last night officers said he was under the influence of intoxicants. Vandye is in the Gaston county jail.

Ponzi's Finance Scheme Withstands the Acid Test

Jacksonville, Fla., Jan. 15.—(AP)—Charles Ponzi intends to continue to demonstrate his ability as a finance wizard by selling \$15 an acre Columbia County land for \$230 an acre despite the arrest of his branch manager in Boston on blue sky law violation charges. He is using as a base for his operations in Florida six tracts of land in Columbia county comprising a total of 1,000 acres. The land in question, described in Ponzi's advertising as being "near Jacksonville," roughly speaking is some sixty-five miles west of here. It is what is commonly known as "scrub oak and palmetto" land covered with the thick growth of palmetto and other weeds. At least one firm of Jacksonville realtors have land of the same caliber in Columbia county on sale in ten acre tracts at \$15 an acre.

Ponzi's finance scheme so far has withstood the acid test given by such agencies as the State Chamber of Commerce, the Jacksonville Real Estate Board, City authorities and State Government investigators.

BUSINESS WOMAN'S SMART WARDROBE COSTS LESS \$250 Yr.

Chicago, Jan. 15.—(I.N.S.)—Business women can have a smart wardrobe for less than \$250 a year, according to Miss Elizabeth Wilson, style expert of the Business Woman's Economic League, in an address here before the Business Woman's Club. "When a person thinks or speaks of the well-groomed woman nowadays, there is immediately conjured up a vision of loveliness, meticulously garbed," said Miss Wilson. "However, this is not only a far-fetched, but a false idea. One sees thousands of attractively dressed young business women today, who live on a salary of \$20 a week or less. They may be seen tripping along boulevards and from their work, lunching in restaurants, dancing at supper clubs. And they are as fresh and dainty as a debutante in her first season. "A style expert has figured out a well-balanced budget for the business girl. It includes five dresses at a cost of \$80. In this price is figured an afternoon dress, \$20; a party dress, \$25; a jersey dress for work, \$15; two summer dresses, \$20; a tailored tweed suit, \$20; three plain wash blouses at \$3 each. Three hats may be bought for \$15—one of felt, one of straw and one of silk. Two pairs of shoes will cost \$20, and a heavy winter coat, \$50. Twelve pairs of stockings will amount to \$15, and two petticoats may be purchased for \$5. Six suits of plain lingerie may be bought for \$20. A raincoat will cost \$8. Two pairs of gloves at \$2.50 each, and ten handkerchiefs at 25 cents each, will bring the total to \$249.50."

Too many who howl for  
freedom desire only a soft  
snap.

It must be a comfort to be  
rich enough to wear clothes  
until they wear out.

The art of splitting leather  
was beneficial until it was  
applied to the ham of sand-  
wiches.

About the only caste sys-  
tem in America is that indi-  
cated by the price paid for  
beads.

A home economics in-  
structor announces that dust-  
ing in the house is a peril to  
health. Husbands who never  
could see the necessity are  
vindicated, though on dif-  
ferent grounds, may be.

A French scientist who is  
reported to have stimulated  
plant growth by the use of  
an electric apparatus is de-  
nounced by neighbors in his  
little hamlet as "Santans  
Servant." Sounds like an  
encho from the fifteenth  
century.

**"INSTALLMENT" TOURS**

It was inevitable and it  
has arrived. Of course, it is  
the installment plan of buy-  
ing tickets for tours abroad.  
The public has long been  
buying automobiles, furni-  
ture, clothes, phonographs,  
pianos, radios, books and  
houses on this plan of defer-  
red payments, and the  
Christmas fund system is  
only the installment plan of  
accumulating funds for gift-  
buying needs.

Chicago is the first to in-  
troduce this new way of  
buying railroad and steam-  
ship passage. In that city  
railroad and steamship com-  
panies are selling travel  
stamps to prospective tour-  
ists. To the "pay while you  
earn" argument is added  
that most effective of all  
sales-booster, the bargain  
price, reduced rates being  
offered to those buying pas-  
sage under the plan.

The plan is beneficial to  
both parties involved. Some  
people can save by this  
piece-meal method and by  
no other. And it should  
serve to diminish the num-  
ber who decide to keep their  
savings after spending  
months or years in putting  
aside money for an "Amer-  
ica First" tour or a trip  
abroad.

There is only one danger  
in the plan. It may be the  
means of persuading the  
alarmists that travel is  
another national evil. Since  
the automobile has been  
sold on the "pay from in-

come" plan everybody  
whose income was too small  
to pay for even a small one,  
and those businesses which  
were hurt by the automobile  
industry, have prophesied  
national bankruptcy and  
panic.

## TREMENDOUS CAST COMING

The most high-gear cast of all those seen recently in pictures will arrive at White's Theatre when "Silled" comes to town for a run at that popular playhouse. Heading the bill is Vivian Martin, for four years a Paramount star, since then a musical comedy star in "Just Married," the Schubert attraction which played one year in New York and

two years on the road. Opposite her is Kenneth Harlan, star of "The Virginian," and other successful pictures without number, known as the screen's most manly leading man. Second lead of "Silled" goes to Mildred Harris (Mrs. Charlie Chaplin) whose amazing performance in "The Price of a Good Time" is still remembered by jaded theatre-goers.

"Purina" Made the Difference!  
EQUAL in laying ability. But the hen on the right was fed a common grain ration while the other was fed Purina Chicken Chowder and Purina Hen Chow. Grains have lots of material for yolks, but far too little for whites. As they can't lay yolks only, grain-fed hens lay fewer eggs.

Purina Poultry Chows  
form a complete ration, containing material for an equal number of whites and yolks. They get the most out of your hens, and cut the feeding cost per dozen eggs.

## Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

By H. K. REYNOLDS

I. N. S. Staff Correspondent.

London, Jan. 15.—An appeal for the restoration of the lost beauty of the English countryside is made by E. Guy Dawber, president of the Royal Institute of Architects. He is especially displeased with the introduction of large plate glass windows, glazed brick fronts and the gasoline filling stations in flaming colors.

"Unless we wish, as a nation," Dawber declared, "to lose the wonderful heritage left us by our forefathers, in the priceless countryside, immediate steps must be taken to preserve it."

"There are two things that attract people, in whatever civilized countries they may be, and those are scenery and architecture—the work of nature and that of man—and it is incredible that we in this country are wonton yawning this legacy of beauty and seamliness to be destroyed before our eyes."

Dawber recommended that the Minister of Health take steps to prevent the erection of ugly and unsuitable buildings.

"Wear less and be healthy," is the advice of Dr. W. G. Savage, medical officer of health to the County of Somerset, to local Somerset flappers.

He believed that the modern tendency on the part of women to wear less clothes is to be commended. "We are told," he says, "that women's dress today is immoral. I don't know why, but I do know it is healthy."

"Short skirts that do not pick up the sweepings of the streets, which don't drag on the hips and distort the body, are hygienic, and enable exercise to be taken without fatigue," he adds.

"The open neck and sleeveless arm give opportunity for the ultra-violet rays of the sun to be absorbed. Silk stockings are hygienic, even if some other reason is the object of their use. The tightly constricted waist, causing permanent deformity, has gone

the corset with it. "Man, with tight collar, and hot clothes, is far less hygienically clad; but in one respect is more sensible than woman. The pointed, high-heeled shoes of women are certainly not what science considers the human foot requires."

War between Laborites and Fascists is threatened in Battersea, where the Union Jack has been hoisted above the Town Hall against the order of Borough Council.

Six years ago the Labor Party secured control of the Council and thereupon decided that a municipal flag should fly above the Town Hall.

A number of British Fascists carried out a coup, however, by climbing to the top of the tall flag pole with a national flag, which was nailed fast. On the door of the town hall a notice was affixed as follows:

"The National Fascist will see that this flag remains supreme. The Battersea Council is warned not to fly the foul Red flag of Moscow. They will in future fly the British flag as all loyal citizens demand it."

Undaunted by this warning, the Battersea Council announced that the Union Jack would have to be "taken down as soon as possible."

Serious trouble is expected when the attempt is made to remove the national emblem.

## "WHEN KARNAK FIXES YOU UP YOU SURE STAY FIXED"

Sensational Medicine Ended Charlotte Man's Stomach Suffering Months Ago— "And I Haven't Felt A Sign Of It Since," He Says.

"Believe me I have given this Karnak a real test in my case, and can tell everybody it does all that's claimed for it and more, too," says F. L. Lindsay, world war veteran and a resident of 1105 N. Pogram St., Charlotte, N. C.

"I tell you indigestion just caused me all kinds of trouble before I got rid of it by taking Karnak," continues Mr. Lindsay. "Why, I had awful pains in my stomach after eating, had a sore feeling in my bowels, and just felt all out of sorts in every way. I was in a rundown condition, my appetite

was poor, food didn't taste right to me half the time, and I felt kind of down and out."

"A friend told me to try Karnak, and it was just the medicine I needed for my troubles. It began to show a great improvement in me right from the start, and five bottles completely relieved me of that indigestion, soreness and pains. My appetite came back stronger than ever, and I gained weight, and felt fine as could be."

"Now that was several months ago that Karnak fixed me up, and I still feel the good of it and haven't a sign of my former troubles to return on me. When Karnak fixes you up you sure stay fixed."

Karnak is sold in Greenville exclusively by B. S. Warren, and by the leading druggist in every town.
