Fair tonight, Saturday increasing cloudiness with rising temperature diminishing northwest winds becoming southerly Saturday.

CONGRESS RENEWS DEMAND GOVT. ACT IN THE COAL STRIKE

Coolidge Maintains That Such Step Must Originate With Law Making Bodies

Washington, Feb. 5.—(AP)—Renewed demands that the Government act in the anthracite suspension come from Congress while President Coolidge is maintaining his position that such a step must originate with the law-making bodies.

While the subject was under discussion on both sides of the capital yesterday the new York Democratic delegation in the House unsuccessfully sought an appointment with the President to confer on relief measures.

Representative Somers attempted to arrange the meeting but was told by Secretary Sanders that it was impossible for Mr. Coolidge to confer with them on that subject at present.

In the House were a number of members who offered relief bills, Representative Black, Democrat of New York, in a general criticism of the President remarked that Mr. Coolidge seemed unable to get Chairman Parler, of the Commerce Committee to hold hearings on any of them.

On the other side of the capital Senators Copeland, Democrat of New York, Harrison, Democrat of Mississippi, and Norris, Republican of Nebraska, urged action by the Chief Executive, while Senator Reid, Republican of Pennsylvania, suggested that legislation is necessary. He promised his support for any measure to end the suspension, but believed the proposals offered thus far would prove useless.

Senator Norris suggested that the President advise the miners and operators that unless work was resumed the Government would seize some of the mines to provide the country with coal. He believed the President lacked authority to act without legislation by Congress, but he thought the proposal to take over the mines would be effective.

20,000 Cubic Feet Removed From Stone Mountain

Atlanta, Ga., Feb. 5.—(I. N. S.)—Hollins N. Randolph, president of the Stone Mountain Memorial has issued a statement on the progress of work at Stone Mountain. Since December 10, when actual carving was resumed, more than twenty thousand cubic feet of granite has been removed from the central group of figures, the report states.

The granite removed was from the neck, shoulder and flank of "Old Traveler," General Lee's horse.

This is an average of about four hundred cubic feet per day since the work was resumed, fifty days ago. So far per cubic foot for the carving has been substantially less than in previous operations, according to the statement. The working force on the mountain will be substantially increased during the next thirty days.

It is planned, and by March, the carving operations will be going forward at top speed. It is planned to push the carving forward at utmost speed until the central group is finished. This group will be completed within two years, according to the opinion of architect Lukeman, who has charge of the carving operations.

The association has raised enough in cash and pledges to assure the complete carving of the central group, first unit of the project.

Negro Attempts to Jump Fence Breaks Both Legs

Durham, N. C., Feb. 5.—(AP)—With two officers in hot pursuit to his rear, and an unyielding five-foot steel fence facing him, Robert Smith, 21-year-old Raleigh negro, faced a dilemma here.

He choose, as his best chance, an attempt at leaping the fence, but his efforts met with distinct lack of success, and he lies in a Durham hospital, with a leg broken in two places. He is charged with the theft of merchandise from a local store.

OFFENSIVE FOR SEPARATE AIR SER. RENEWED

Mitchell Declares the Present Status of Aviation as "A Terrible Mess"

Washington, Feb. 5.—(AP)—The offensive for a separate air service was renewed before two Congressional Committees today by Major General Patrick, chief of the Army Air Service, and Colonel William Mitchell, once General Patrick's assistant, and more recently the center of the quarrel over policies which led to his court martial and resignation from the army.

"A terrible mess" was the way Mitchell described the present status of aviation to the House Military Committee. Patrick appearing before the Senate Military Committee declared the recommendation of the President's Air Board did not go far enough and renewed his advocacy of the army air corps separately organized and with a dependent status like that of the marine corps.

The air chief interposed no objection to the Wadsworth Bill drafted by the War Department along the lines of the air board's findings.

Senate Fighting Repeal Income Tax Publicity Resolution Would Request President to Call Anthracite Miners and Operators Into Conference

Washington, Feb. 5.—(AP)—The Senate today was called into session an hour earlier than usual to fight out the question of repeal of the income tax publicity provision of the tax reduction bill. The early session was voted yesterday over the objection of Senator Somers, of Michigan, and Norris, of Nebraska, both Republicans.

Alimony is "Gold Digger" Method Separation

Chicago, Feb. 5.—(I. N. S.)—Separating a man from his money by the process used by the "gold diggers" in divorce and alimony suits is one of the greatest evils of our time and should be remedied, Harry Edward Freund, director of the American Research Foundation, said in an address here.

"A great number of women are emancipating themselves and becoming independent by joining the ranks of paid workers, but there are many who have adopted the principle of marrying a man, leaving him after a few months, obtaining alimony in the courts and living easily for the remainder of their lives," said Mr. Freund.

"Various plans have recently been advanced to remedy this evil. These range from the radical the one in Glen B. Winship's novel, 'Volonor,' where he would use a 50 per cent tax to support the women and children of the nation, to a statement made by Superior Court Judge Harry Lewis of Chicago.

Judge Lewis announced that those women who contract marriages in haste at such places as Crown Point, Chicago's Gretna Green, and then apply for alimony a few months later, can expect nothing in his court.

Preacher Declares Radio Is An Aid to Christianity

Wilmington, N. C., Feb. 5.—(AP)—Rev. A. D. P. Gilmour, pastor of the First Presbyterian church of this city, has taken issue with those ministers who believe the radio to be an obstacle to church attendance and a detriment to the spread of Christianity.

The minister, speaking before the Wilmington Radio Club, quoted the Biblical injunction—"Go ye into all the world," that is to broadcast. Whatever may be of assistance in spreading the gospel of Christ is an aid to Christianity, he declared. The minister cited the printing press as one of the inventions which has greatly aided the spread of the Christian religion.

Prince a Hero

CROWN PRINCE GUSTAV

When a sailor fell overboard in Stockholm Harbor, Crown Prince Gustav of Sweden plunged in and saved his life. The two then repaired to a nearby grog shop and averted pneumonia with several stiff drinks of brandy.

SENATE REFUSES TO CONSIDER THE COPELAND BILL

Resolution Would Request President to Call Anthracite Miners and Operators Into Conference

Washington, Feb. 5.—(AP)—By a vote of 48 to 28 the Senate refused today to consider the Copeland resolution requesting President Coolidge to intervene in the anthracite suspension. Twenty Democrats, seven Republicans and one Farmer Labor Senator voted to take up the resolution, while nine Democrats and 29 Republicans voted in the negative. The Senate's action was the first to be taken in Congress with respect to the coal controversy and the vote was followed by opponents of President Coolidge's non intervention policy after many previous attempts for a show down had been defeated in both the Senate and House.

Under the resolution presented by Senator Copeland the President would have been requested to call representatives of the miners and operators into conference. Before moving to take up the measure Senator Copeland appealed to the Senators from New England to stand with him because their states were now bound and in need of fuel, but all of the New England Senators present voted against the motion.

Lind Awarded Nichols Medal

Lexington, Va., Feb. 5.—(AP)—Samuel Colville Lind, Washington, D. C., chief chemist of the bureau of mines, who has been awarded the Nichols medal, highest pure chemistry honor attainable in the United States, began the study of chemistry because it was required for graduation, when he was a student at Washington and Lee University.

During his career at Washington and Lee from 1897 to 1899, Mr. Lind specialized in languages, especially Greek. He did not take chemistry until his senior year, when he took it as a requirement for graduation. That year he stood first in a class of 27 students, averaging 97 for the year. He was awarded the chemistry scholarship and returned next year, this time to devote himself to chemistry.

His studies in chemistry were continued, and the award of the Nichols medal was recently announced here. The medal is awarded to "that investigator whose contribution, published in the Journal of the American Society, shall have been judged of outstanding merit."

Sometimes what you consider strong-mindedness turns out to be merely thick-headedness.—Fayetteville Observer.

OBJECTS SAPIRO APPEARING SUIT AGAINST CO-OPS

Person's Suit to Dissolve the Tri-State Co-operative Ass'n. Gets Underway Today

Raleigh, Feb. 5.—(AP)—Vehement objection to the appearance of Aaron Sapiro, of Chicago and California, General counsel for the Tri-State Co-operative Association in the suit begun here today before Judge Thomas H. Calvert, to dissolve the Association, was voiced by William M. Person, who brought the suit. Judge Calvert took the objection under consideration and announced that he would rule on it later. The defense then began reading its first paragraph of the complaint and the corresponding paragraphs in the answer. The answer in general denied most of the allegations of the complaint.

"He is not defending the association, but is defending himself," declared Mr. Person, in objecting to Mr. Sapiro's appearance in the case.

"He is charged with taking from the association nearly \$100,000. An ancient rule of chance says the counsel must come into court with clean hands—he is charged with fraud."

The court recessed at one o'clock for lunch and shortly before two resumed its session with the continuation of the reading of the complaint and answer paragraph by paragraph.

The suit instituted against the Tri-State Tobacco Growers Co-operative Association by Wiley N. Person of Franklin county, North Carolina, seeking dissolution of the organization and the appointment of a receiver, was the culmination of internal troubles which had bothered the organization for a considerable length of time. In addition to asking the court to dissolve the Association and wind up its affairs by the receivership method, Mr. Person alleged in his complaint that there had been paid to officers excessive salaries constituting "waste" which should be returned to the Association's assets and that profits made by the officers in redrying operations also would be returned to the assets.

For several years the association, which is composed of tobacco growers in Virginia, North Carolina and South Carolina has had considerable difficulty in securing deliveries of tobacco by all its members. The trouble appeared to be caused by the fact that on the auction markets growers were able to obtain the full cash payment for tobacco while the association members received part payment at time of delivery and the balance at a later date. The association claimed that its entry into the field had caused a general increase in the price which the grower obtained for his tobacco but this increase was reflected as well on the auction floors. Inability to obtain full payments caused unrest among the members and resulted in contract-breaking.

Institution of court proceedings, however, failed to check the discontent or defections among some elements of the membership and a number of meetings were held, chiefly in North Carolina and Virginia territory, which had for their purpose protesting against the subsequent withdrawal from the association. In 1923 a test case was tried in Superior Court at Greenville, N. C., in which a grower named Pittman charged mismanagement by the association and sought release from his contract, offering this plea as a defense for having violated its terms. This case, indirectly, involved the existence of the association for had this grower been released from his contract, others would have had the same recourse on the same grounds. Evidence on salaries and expenses was submitted and it was held and sustained by the Supreme Court of the State that there was no evidence of mismanagement to uphold the plea of the grower.

The issue of redrying next agitated the membership when it was learned that certain officers of the corporation had made large profits from redrying the Association tobacco in their private plants. The officers involved were R. R. Patterson, general manager, and T. C. Watkins, Jr., a director in

Hoover's Opportunity.
Fords and Rockefeller.
The Heaviest Baby Lamb.
"Hush" in the Schools.
ARTHUR BRISBANE

Secretary Hoover proposes a system of inland waterways, totaling ten thousand miles in length. If he puts that plan through, and makes the canal real, with real water, he will have rendered a service to this country equal to Roosevelt's digging of the Panama Canal, even greater, for the flying machine has diminished the canal's importance.

To keep and use, for navigation, irrigation and power the waters that now rush, wasted to the ocean, flooding vast districts, carrying rich soil out to sea, is a task worthy of the greatest ability and patriotism.

Secretary Hoover is said to have great influence with the President. Between them, if they choose, they can have their names "written in water" in a way that will outlast stone or bronze.

You are informed that Britain, at the League of Nations, navy conference means to regain her job as mistress of the world's oceans and seas. The 5-5-3 Battleship Ratio, arranged at Washington, when this silly nation's sillier "statesmen" consented to scrap our new and half finished battleships, was a makeshift, to hold us back, while Britain regained her financial breath.

Britain has real statesmen, give them time, and they will get for Britain what she wants. However, she is welcome to the big floating fleet, to protect her commercial navy.

What we need, is command of the 24th ocean. We shall never get it from our army and navy gentlemen, whose ideas fly no higher than a roll top desk. But, commercial flying machines, that interest the Fords and Rockefeller, and that Henry Ford is building, can be transformed into effective fighting airships in three hours.

And, fortunately, the Rockefeller and Ford families which happen to be among the most public spirited, as well as the richest in America, have power to solve the flying problem for America, without Uncle Sam's help. They could do for Uncle Sam, on a ten times greater scale, what Jacques Coeur did for the old French king. May they not be repaid as Jacques Coeur was repaid, by his ungrateful sovereign.

Once flying really STARTS in America, it will develop as rapidly as the automobile.

The plain truths that Colonel Mitchell is telling will help.

The heaviest new born lamb on record arrives on the farm of Robert Magee, in Michigan, weighing fourteen pounds.

The new born cub of a 500 pound bear weighs only a few ounces, and the mother is usually sound asleep, in late winter, when her baby is born.

Why should nature inflict in delicate human mothers, infants weighing twelve pounds and more.

An Italian doctor believes that the right diet for the mother would make the new baby much lighter and stronger, and children much easier.

The fattest, heaviest baby is not necessarily the best.

The faculty of Ohio's State University is NOT guilty of teaching communism, or other "red radicalism" to tender undergraduate minds. Investigation proves it very comforting to those that see things behind them on the stairs, and believe you can kill an idea, good or bad, by saying nothing about it.

There is no danger in communistic talk here, where there is enough for those willing and able to work. Anyhow communism would not work or last anywhere, while human beings retain selfishness, as their mental mainspring.

College professors, underpaid in cash gratitude and honor, would have the best excuse for favoring communism. It would be sensible to let them tell classes about the communistic idea, and all other ideas, from Zoroaster and Gautama to Gandhi and Mary Baker Eddy, on the "prove all things hold fast that which is good idea."

Keeping boys in ignorance of any Little's Rock Democrat.

STORM SPREADS SNOW BLANKET NORTHEAST

Most Severe Storm of Winter Lasts Twenty-Four Hours and Causes 32 Deaths

New York, Feb. 5.—(AP)—Northeastern United States today was struggling to free itself from the most severe snow storm of the winter that lasted 24 hours and caused 32 deaths.

Eight were killed in a building collapse under the weight of the snow at New Britain, Conn., and eight perished at sea. There were other deaths in various cities. Trains were hours late and wire communication was interrupted.

Five ships were indistinct at sea and 3,000 passengers were on boats afloat between New York and New England points when the vessels had to anchor in Long Island Sound near New York.

The storm spread a snow blanket varying from a few inches to two feet. Driven by the wind it formed a blockade of the country highways through Pennsylvania, New York, New Jersey and New England. At the lowest estimates it will cost New York \$1,000,000 to dig out of the storm. 20,000 workmen are trying to keep the main streets passable. Five persons died in the storm in New York City, and schools were suspended in the afternoon and the air mail services between New York and Chicago were halted.

The gale swept out to sea late yesterday toward the Grand Banks and the Ship Lanes. Only two of the five passenger vessels due to dock at New York dared to enter. Tons of ice in the Hudson River jammed against the Lower Orduana and kept her from docking until the tide turned.

COMMUNITY CHEST FOR GREENVILLE

Will Eliminate Special Drives and Give Sufficient Funds for Needy Cases

The committee of five appointed by a group from the Ministerial Association and the Charitable organizations of the city, two weeks ago, met in the office of K. T. Futrell, Welfare Officer, on Thursday afternoon, and after considerable discussion as to the advisability of organizing an Association of Charities for Greenville Township, decided that what is most needed is a Community Chest Campaign for all of the charitable organizations now organized, and appointed a committee of three to go thoroughly into the matter, make out tentative budget, and submit it to a mass meeting to be held February 28th, at a union service, if possible, at which time final arrangements are to be made for the campaign if approved by the people of Greenville Township.

The Community Chest idea seems to be the most successful way of securing and dispensing the charities of a town, and is being adopted by all of the larger places over the country. Its main idea is to make out a budget which includes the needs of all charitable organizations for a year and to make a canvass of the entire community for subscriptions from individuals and firms for a whole year, and to divide what is secured among the participating causes as it comes in, according to definite percentage.

This will eliminate special drives throughout the year, and give each cause sufficient funds to take care of the needy cases which they have in charge.

The committee of three is composed of K. T. Futrell, Mrs. Richard Williams and W. S. Harden. They hope that all charitable organizations of the town will be able to make out a budget of their needs as soon as possible and hand it in to the committee that they may be included in the chest.

It takes a lifetime for some men to get an education. Others attain it as soon as they are asked to express an opinion in public.—Little's Rock Democrat.

Ends Life

William M. Wood, former head of the \$60,000,000 American Woolen Co., ended his life by shooting himself at Daytona, Fla. He had been in poor health for some time.

POLICY FAVORS MODIFICATION VOLSTEAD ACT

New Announced Policy of Church Temperance Society Brings Violent Storm of Opposition

New York, Feb. 5.—(AP)—The newly announced policy of a church temperance society of the Episcopal Church favoring modification of the Volstead Act and legalizing the sale of light wines and beer, has brought a violent storm of opposition and defense from clergymen throughout the United States.

Prohibition leaders, Episcopal organizations and individual clergymen have challenged the statement of Rev. Dr. James Empringham, National Secretary of the Society, who in announcing the new policy asserted that the Volstead Act had failed. That the society, the challengers maintained, has no authority to speak for the Episcopal Church is relatively unimportant and is an error in its reversal of policy. Even members of the organization itself have been taken aback by the announcement, and the board of directors will call a meeting soon to consider the situation.

Defenders of Dr. Empringham, including several church dignitaries, asserted that his conclusion, after a year's investigation of prohibition, is correct. Dr. Empringham stands by his guns and reiterates that a pole of 20,000 members of the society showed a preponderance in favor of modification by law.

Dr. Empringham admits his telephone has been kept busy by Bishops and others who disapproved. He minimized most of the protests saying they were largely from members who had not paid their dues to the society for years.

Rep. Madden Taken Ill At Capitol Today

Washington, Feb. 5.—(AP)—Representative Martin B. Madden, of Illinois, one of the Republican leaders in Congress, was taken ill at the capital today and moved to his home in an ambulance. He suffered a severe chill and developed fever. He has not been in good health for several months.

Chile and Peru Appealed From Election Law

Arica, Chile, Feb. 5.—(AP)—Both Chile and Peru have appealed from their election law adopted by the Commission in charge of the coming plebiscite to determine the sovereignty of Tacna and Arica.

WADE V. BOWMAN TAKES THE STAND IN OWN DEFENSE

Admits Indecencies With Girl But Denies the Charge of Attack; Wife and Mother Testify

Newton, N. C., Feb. 5.—(AP)—The trial of Wade V. Bowman, in Catawba county Superior court proceeded here today with the defense presenting additional witnesses. Bowman, a former major in the North Carolina National Guard, is on trial charged with an attack upon a twelve year old girl. The court room was not nearly so crowded today as during yesterday's session. Mrs. F. O. Boch and Mrs. William P. Bowman, sister and mother, respectively of the defendant, took the stand and testified today to events leading up to the entrance of the child in the house where the attack is alleged to have occurred. Mrs. Boch swore that she saw the little girl enter the house and then leave it in about ten minutes and then ride toward Hickory on her bicycle. Both the women said the major came back to Mrs. Boch's house where he and his wife lived at the time of the alleged attack, and sat down on the porch with his wife. Neither of the women heard any outcry or saw anything unusual.

Bowman then took the stand in his own defense. On direct examination he told his story of the events leading up to the time the girl entered his unoccupied residence in Hickory.

He admitted putting his arm around the shoulders of the girl and walking up the stairs. He said he sat down on a stack of chairs and that the girl came up to him. Bowman admitted to unprintable indecencies with the girl but denied the charge of attack. He left the stand at 12:45 after testifying for two hours and a half. The defense immediately rested its case.

Egypt Puts A Limit On Her 1926 Crop

Washington, Feb. 5.—(I. N. S.)—Cotton, Egypt's chief crop, is to be restricted during 1926, according to dispatches from Cairo, which announce a new law there which will prohibit the planting of more than one-third of the arable land with cotton this year.

Although Egypt covers much territory in northern Africa, only a narrow strip of land along 900 miles of the River Nile is arable or habitable, a bulletin from the National Geographic Society points out.

In an area about equal to that of Maryland, more than 12,000,000 people live and must be fed. The government, therefore, finds necessity for making stringent regulations concerning the use of this fertile strip.

Tobacco-growing in Egypt already has been prohibited in the face of the fact that Egyptian tobacco is a highly advertised commodity. Farming land is too precious to be used for growing luxuries, and most of Egypt's many cigarette factories, secure the leaf generally from Levant, or from the islands of the Aegean archipelago, according to the bulletin.

HOLLYWOOD ACTRESS, 90. ENTERED MOVIES AT 80

Los Angeles, Feb. 5.—(I. N. S.)—Hollywood's most additional "extra" is 90 years old. She is Mary Holden, born in Rutland, Vt., in June 1836. Every day she appears at casting offices looking for "odd bits" in motion pictures and more often than not she obtains employment. "I never thought about acting until I was passed 80," she said. "Now I think it is wonderful. I want to play in 100 pictures before I get parts. In my case, the older I am, the better."

Chile and Peru Appealed From Election Law

Arica, Chile, Feb. 5.—(AP)—Both Chile and Peru have appealed from their election law adopted by the Commission in charge of the coming plebiscite to determine the sovereignty of Tacna and Arica.

REDUCES TAXES LOCALLY

Examination of tax tables leads to the conclusion that in crying out for lower federal taxation, the people of this country have not fully realized that the tax burden in cities and states has been increased.

During the war, states and municipalities were compelled to practice rigid economy in expenditures, but since that time, while demanding economy and an easing up in national taxation, local governments have loosened the purse-strings.

Taxpayers include all citizens. Many are not aware that they pay any taxes, but heavy taxes make higher rents and increased cost of all necessities of life.

To get real tax relief, it is necessary to reduce local as well as national taxes.

DON'T BE A MISER

The Treasury Department estimates that there are 8,000 misers in America, who keep their hoardings merely to gloat over them. The estimate is that \$400,000,000 in cash is hidden away in mattresses, holes in the wall, in socks, in various clever or foolish places...

IMAGINARY DIVISERS

Oliver Wendell Holmes divides people into four classes: "Nice people who live in big houses and horrid people who live in big houses. Nice people who live in little houses and horrid people who live in little houses."

We hear today from well defined quarters that all of the nice people live in big houses and all of the horrid people live in little houses, and we also hear today from just as well defined quarters that all of the nice people live in little houses and all of the horrid people live in big houses.

Envy, ignorance and pride construct these class barriers which make human beings hate each other and condemn that which the other

stands for. Not every rich man believes every poor man is without value and not every poor man says all rich men are without good. Reasonable and intelligent people believe in that age-old maxim:

"There is so much good in each of us and so much bad in all of us that it little behooves any of us to speak ill of the rest of us."

Civilization climbed a step upward when it taught mankind that all social classes were essential to existence of a whole people, that capital needed labor as much as labor needed capital; that the employer works for the employe as much as the employe works for the employer; that the poor of today will be the rich of tomorrow.

True charity is seeing the good in others whether above or below you on the artificial ladder of society.

SEAT SALE OF THE "BOHEMIAN GIRL"

The seats for the big musical event is now on. Manager Marcus announces the rise of the curtain at 8:15 sharp, and it will be impossible to seat patrons during the first half of the opening act, owing to the subdued electrical effects, used in the beginning of the production, necessitating the auditorium of the theatre to be in semi-darkness. Those holding tickets will kindly try to be on time. Those contemplating attending and have not made their reservations, may do so now, and same will be held until 8 P. M., but unless called for on or before that time will be cancelled and resold. Manager Marcus started the day off with a smile so we may judge what it's all about.

Arch Cannon, America's own tenor, is back in the cast after a few days' illness, and will be heard in the role of "Thaddeus of Warsaw," his pure liquid tenor notes, in that dear old ballad, "Then You'll Remember Me," will linger long in the memory of the vast audience that will spend an enjoyable evening with Miss Valentine and her magnificent organization. Phone orders are now permissible. Call No. 19, or call at the Greenville Drug Co. It looks like it's going to be a big night in Greenville tonight.

RED PEPPER FOR RHEUMATIC PAINS If Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once. When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone. Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package. For a sample mail this advertisement to Whitehall Pharmaceutical Co., Inc., 208 Madison Ave., New York, N. Y.

Ten-Acre Tobacco Crop Brings \$6,000

(Clipping from the Raleigh News & Observer) "Kinston, N. C., Nov. 12th-A ten-acre crop of tobacco on the farm of J. E. Mumford, of Pitt County, has paid him more than \$6,000 this fall. He has received more than \$600 per acre for the production in spite of the early season slump. Most of the \$6,000 represented profit to Mumford, according to warehouse acquaintances here, since he is a "live at home" grower, producing his own pork, grain and other necessities."

Chas. W. Priddy & Co., Inc. Norfolk, Va. Gentlemen:- I made ten (10) acres of tobacco this year, on which I used your VELVET TOBACCO GROWER, applied at the rate of 1000 pounds per acre. I harvested from this 10 acres of land 12,500 lbs. of tobacco, which is an average of \$325.00 pounds per acre. I have just finished selling this tobacco, and it brought me in a net return of \$6,000.00; this is an average of a little over \$600.00 per acre. I attribute the satisfactory prices received from my tobacco crop to its fine quality, and I attribute this fine quality in a great measure, to the Fertilizer used, namely VELVET TOBACCO GROWER, which, in view of my experience, I consider the best Tobacco Fertilizer sold in this community. This Fertilizer was bought from MESSRS. FURNACE BROTHERS CO., AYDEN, N.C. J. E. MUMFORD, Hanrahan, N. C. Nov. 25th, 1925.

WE MAKE FERTILIZERS ADAPTED TO THE CULTIVATION OF DIFFERENT CROPS IN ALL SECTIONS. OUR FERTILIZERS ARE SOLD BY THE MOST RELIABLE DEALERS IN EACH LOCALITY. IF THEY ARE NOT SOLD IN YOUR VICINITY, WRITE US DIRECT.

LOCAL NEWS

**FRENESKA KASPAR
LAWSON TO SING FOR
WOMAN'S CLUB FEB. 9th**

Among the vocalists of Wash-
ington, D. C., who have gained
fame at home and abroad is Fre-
neska Kaspar Lawson, soprano.

Mrs. Lawson is a member of the well known Kaspar family, musical through three genera-
tions. Her tours have been ex-
tensive and successful, and she
is constantly in demand by those
who have previously heard her.
She is a woman of culture and
refinement, who easily captivates
her audience by her beautiful
voice and personal charm.
She has sung as soloist five
times with the Philadelphia Sym-
phony Orchestra; in recital at the

White House, twice at the Na-
tional Headquarters of the Gen-
eral Federation of Women's
Clubs in Washington; and for
many colleges, clubs and church
societies throughout the country.
Mrs. Lawson will give a recital
on Tuesday evening, February
9th, in the auditorium of the
High School, under the auspices
of the Woman's Club. This will
be her third appearance in Green-
ville, having been heard twice at
the East Carolina Teacher's Col-
lege, where she won many admir-
ers. She will be accompanied by
Miss Mary Bartolet of the College
Faculty.

MEETING OF WOMAN'S CLUB
The regular monthly meeting
of the Woman's Club was held on
Thursday afternoon in the Model
School annex.
The various departments are
functioning well, and the two
new departments are proving in-
teresting and interesting to all
attending and interest at each
meeting.

Mrs. Woolard reported that the
literary department had a large
meeting on Tuesday. This de-
partment meets regularly on al-
ternate Tuesday afternoons, and
has a program on "Good Books"
prepared by the University Ex-
tension.
The Garden Club has quite a
program mapped out for the fu-
ture, one feature of which is co-
operation with the County Coun-
cil of Home Demonstration Clubs in
planting shrubbery on the Court
House lawn. "Better Homes and
Gardens" is the magazine used by
this department, and the North
Carolina Garden Year Book is
also in general use. Either of
these may be obtained from Mrs.
E. W. Harvey, chairman of the
department.
The Fine Arts department will
sponsor the music memory con-
test in the public schools again
this year, work on which has al-
ready begun under the direction
of Miss Eugenia Thomas.
The first lesson in basketry was
given to members of the House-
hold Economics department by
Miss Kate Lewis of the East Car-
olina Teachers College, last Fri-
day afternoon, the members show-
ing their enthusiasm of school girls.
Mrs. J. H. B. Moore, chairman
of Household Economics, repre-
sented the Club at the monthly
meeting of the County Council of
Home Demonstrator, Miss Bertha
here last Saturday. Our capable
Home Demonstrator, Miss Bertha
Ferguson, is directing the women
of the county in various contests
of household management, such
as "kitchen improvement" and a
"paint your house and name your
home" campaign. We expect Mrs.
Jane McKimmon, of Raleigh, to
speak at our March meeting.
One new member was elected.
The sympathy of the club was
sent to Mr. and Mrs. Cotten in
their recent bereavement.
It was voted to have a booth at
the Eastern Carolina Exposition
and to give our support towards
caring for the young ladies who
come to Greenville to enter the
contests.
Announcement was made of the
song recital by Mrs. Franceska
Kaspar Lawson on next Tuesday
evening, and tickets were given
out for sale. This is an event in
our club history, and the active
support of each member is expect-
ed. Tickets were placed at the
low price of 50 cents, to bring
them within reach of everybody,
and to insure a large attendance.
A nominating committee was ap-
pointed to report at the March
meeting.
Miss Sa'lie Joyner Davis, of the
East Carolina Teachers College,
gave an interesting and instruc-
tive talk on our duty as citizens
to inform ourselves about our
government—first, city, then the
county, the state, and national,
and suggested plans for study.
Two delightful soprano solos
were given by Miss Bessie Brown.

GRAHAM BROTHERS TRUCKS

A Dodge Brothers product. A body for every transportation need. Hearses, Ambulances, Fire Trucks, Busses, School Busses, Taxi Cabs, Low, High, Short and Long Chassis.

Dodge Brothers Products Repeats

It is a peculiar fact that when a Dodge Product is once used by keen business men, that when replacement is necessary, it is replaced by another Dodge product.

Here Are Some of Dodge Brothers' Repeaters

Judson H. Blount has been using a Dodge 3-4 ton truck for the past two years. To-day he has purchased a big Graham Brothers Truck and will use both. Mr. Minges, Orange Crush Bottling Co., is using two Dodge Trucks. Greenville Supply Company two trucks. Mr. A. V. Jackson, Distributor of Sinclair Gas and Oils, bought one Graham Brothers Trucks, liked the service so well that he recently purchased another still larger, and is thinking seriously about buying a third. Mr. W. G. Stokes, of Stokes, N. C., bought a Dodge Sedan, liked it so well he bought a roadster for his son. Men and women of rare business judgment throughout the entire country are boosters of Dodge Products.

Our quality is beyond question. Our present low prices surpass all competition, both only made possible by over two hundred and fifty millions of dollars.

"YOUR FACE IS YOUR FORTUNE"

Whether or not that old adage is true of the woman of today, cannot be said, but we DO know that every woman or young miss likes to appear at her best at all times.

Our facial treatments, by Ina del Mar, give to one that vigorous feeling that sets the blood a-tingling and brings the bloom of younger days back to the cheeks.

And not only that—WE HAVE A SPECIAL TREATMENT FOR EVERY SKIN AND SCALP AILMENT.

An expert is at your service at any time—and as near as your telephone. We will be only too glad to advise you in correcting those ailments that mar the beauty of the skin.

We have also prepared an attractive little booklet on the different treatments we give and will be glad to mail you one on request.

Mrs. B. F. McLemore has returned from northern markets, where she went to purchase spring goods for McKay-Washington Co.

MISS HODGES ENTERTAINS

Thursday evening Miss Eva Hodges delightfully entertained with ten tables of bridge, at the home of Dr. J. C. Greene. The house was beautifully decorated with ferns and cut flowers. At the beginning of the games, hot chocolate and sandwiches were passed. After several spirited progressions, Miss Margaret Fleming was awarded the high score prize, a novel table cover. The table prizes were dainty powder ruffs. These were won by Misses Estelle Greene, Ada James, Mary Warren, Helen Joyner, Margaret Cook, Alice Lee Hooker, Virginia Arthur, Dorothy Toyler and Mesdames Geo. Chapman and Alex. Blow. The hostess then served a delicious ice course, carrying out a yellow color scheme in a most attractive manner.

A LETTER FROM MR. HODGES RESOLUTIONS OF RESPECT

Greenville Ins. & Realty Co., Greenville, N. C.
Gentlemen:
Please accept my thanks for your check in payment of damages done by my car to car of H. A. White & Sons, being driven by Mr. W. W. Lee, on February 3rd. I appreciate your prompt settlement in this connection.
Very truly yours,
H. L. Hodges

Greenville, N. C. February 3rd, 1926
At a meeting of the session of the Presbyterian Church, held this evening, the following resolutions were unanimously adopted:
Whereas, God our Father, who loves us, and doeth all things well, has seen fit to take unto Himself a faithful and beloved member of our session, brother P. M. Johnston, who has served for many years as an honored elder in our church, Therefore Be It Resolved:
1. That we hereby record the sincere feeling of deep regret in the loss of our church and its session of one of the most valued and useful members; one upon whom we could always count to do his best for the Kingdom of God, and the church which he loved; one whom, according to his ability and beyond, gave himself to the work of God.
2. That we extend our most heartfelt sympathy and love to his beloved wife and family in the great loss they have suffered by his passing away; and we would prayerfully commend them to the love, comfort and consoling grace of our Great Heavenly Father, who alone can do for them what we wish for them in this hour of need, in lifting their burdens, healing their broken hearts, and bringing sunshine into the place of shadow and cloud.
3. That a page in our records be given to the recording of these resolutions; that a copy be sent to our local paper, and a copy to the family of our deceased friend and brother.
Adopted in session, this 4th day of February, 1926.
Moderator, W. S. Harden
Clerk of Session,
B. W. Moseley,
C. W. Harvey

JUNIOR KING'S DAUGHTERS WILL MEET SATURDAY

There will be a meeting of the Junior King's Daughters, Saturday afternoon at 2:30 o'clock, with Miss Mamie Ruth Fleming. Every member is urged to be on time, so the girls in the American Legion play can attend their usual practice.

Weigh 5 Pounds More in Thirty Days

Ask Denton Drug Co. or any druggist for a box of McCoy's Cod Liver Oil Compound Tablets. They cost but little, are sugar coated and as pleasant to take as candy.

Skinny men and women take them to speedily put on plenty of good healthy flesh and for this purpose they are so extremely good that thin men and women often take on 5 pounds or more in 30 days. As a matter of fact, your druggist is authorized to return your money if you don't take on 5 pounds in 30 days.

One thin woman gained 15 pounds in six weeks.

Be sure and ask for McCoy's, the original and genuine Cod Liver Oil Compound Tablets—60 Tablets—60c.

**New Princeton
Hotel to Open**

Mr. and Mrs. T. T. Hollingsworth have leased the hotel in the Young Building, corner Greene Street and Dickinson Avenue, formerly known as the Star Hotel, and will assume charge of its management on Wednesday, March 3rd. The new hotel will be known as the Princeton.

Mr. Hollingsworth stated this morning that Mr. J. K. Young, owner of the hotel is co-operating with him in every way possible in making the hotel modern in every particular. More rooms with private baths are being arranged. A lobby will be built on the ground floor and in fact, every other arrangement necessary to make it an up-to-date hotel will be provided.

Mr. Hollingsworth has been in the hotel business in this city for eight years and was owner and manager of the Princeton hotel, which was recently destroyed by fire. During these years both he and Mrs. Hollingsworth have won a host of friends who will be delighted to learn that they are to remain in Greenville in the hotel business.

**U. S. London
Embassy to Be
Completed July**

London, Feb. 5.—(I.N.S.)—Work is proceeding so rapidly on the new American Embassy at Princes Gate that Ambassador Houghton is hopeful that it may be ready for a big official reception and house-warming on the Fourth of July.

The two houses at Numbers 13 and 14 Princes Gate, donated to the United States Government by J. Pierpont Morgan, are being combined into a single mansion as a fitting home for the American Ambassadors to the Court of St. James.

Large bedrooms have been divided into smaller rooms, the old winding staircases have been torn out and a grand sweeping central stairway installed.

The dining room and the Ambassador's study look out on a noble terrace and a splendid panorama of Kensington Gardens and Hyde Park. Morgan has expended \$200,000 in ten years on the two houses, while the American Government will spend at least \$150,000 in turning the houses into a magnificent Embassy. When the Embassy is completed it will have a total of fifty-two rooms and will be one of the most luxurious diplomatic residences in London.

Sill water may run deep, but some men who talk little think less.—Mobile News-Item.

NOTICE OF SALE

Pursuant to an order of sale duly made by Hon. I. M. Meekins, Judge in the District Court of the United States for the Eastern District of North Carolina, on January 26th, 1926, in the case of Edwards and Davenport Trustees, the Undersigned Trustee, will on Tuesday, February 9th, 1926, at 12 o'clock Noon, in front of the Courthouse door in the Town of Greenville, N. C., offer for sale at public auction the following described tracts of land:

Tract No. 1.—Beginning at a stake the Southwest intersection of River Street and Access alley 220 feet, from the Southwest intersection of Pitt and River Streets, runs thence S 31 parallel with western side of River Street 153 feet, to a stake, thence in a Southwesterly direction 51.5 feet to a stake; thence in a Northwesterly direction 45 feet to a stake, a corner; thence in a North-easterly direction 200 feet, to a stake, a corner; thence in a Southwesterly direction 60 feet to a point of the beginning, for further reference see deed from L. E. Elks and wife to Edwards and Davenport, of record in Book V-14, at page 485, in the office of the Register of Pitt County.

Tract No. 2.—Lying on the South side of Pitt Street in the Town of Grimesland, North Carolina, beginning at a stake 140 feet from J. P. Buck, beginning corner on Pitt Street; thence Westerly course and parallel with Pitt Street 60 feet; thence a Northerly course and parallel Chicod Street 200 feet to Pitt Street; thence down Pitt Street 60 feet to the beginning stake, and is being the interest of the said Norman R. Edwards in and to the said tract of land deeded him by his father, D. R. Edwards. Reference being made to deed in Book J-13, at page 138.

Tract No. 3.—On the Western side of Chicora Street, adjoining the lands of Masonic Lodge Lot and J. J. Elks and J. H. Edwards, and more particularly described as follows: Beginning at a stake on Chicora Street, a corner of the Masonic Lodge lot and running with the Masonic Lodge lot line at right angles to the first line and parallel to Chicora Street 60 feet to a stake in Edwards (Formerly Gibson's) line; thence with said line 100 feet to Edwards (Formerly Gibson's) corner, on Chicora Street; thence with Chicora Street 60 feet to the beginning. For further information see Book S-14, at page 17.

land will be sold separately and as a whole. The last and highest bidder or bidders at said sale are required to make a deposit of ten per cent of their bid, to await further confirmation of the same by Hon. Marshall C. Staton, Referee in Bankruptcy.

This the 27th day of January, 1926.

John Hill Paylor, Trustee, Farmville, North Carolina

COME TO SEE US and we will talk it over together.

Greenville Oil & Fertilizer Co.

D. L. TURNAGE, Manager

FLORENCE Oil Range

Are You Cooking With Focused Heat?

You owe it to yourself and family to investigate what it really means—in saving—to cook with a Florence—THE OIL RANGE WITH FOCUSED HEAT.

So many wives or mothers have to do their own cooking, besides all the other duties of house-keeping, therefore they should have the privilege to use the stove that affords this to be accomplished with the least worry and loss of time.

The Florence—the oil range with focused heat will make cooking a pleasure. It saves time, money, allowing the housewife to always have her meals on time.

Look at the picture of the Florence above and see how the heat is right under the bottom of the pot, pan, etc.

The Florence is a nationally advertised product, nationally recognized as the Oil Range to cook with.

Come to our store today and see the wonderful advantages of this oil range.

TODAY

(Continued from Page One)
world movement, right or wrong, forbidding them to do their own thinking, is not the way to make efficient citizens.

One solemn Chicago editor, thinking swiftly backward, says "An elementary school room is not a forum for the discussion of problems that puzzle fully developed intellects." Why NOT? and where does the editor find his array of "fully developed intellects?" Does he mean adult minds? They are 90 times in 100 so many units of well set mental concrete, upon which a new idea makes as much impression as a rubber tire or a concrete highway.

CONSIDER

Your new ultra—modern dress. How much better you look. Your old fashioned wedding ring would show the same improvement. Outside a shell of Platinum or White Gold beautifully chased in genuine Traub Orange Blossom design underneath your same old ring with all of its sweet sentiment, even the engraving undisturbed.

W. L. BEST
Jeweler and Diamond Merchant

Any idea that does not enter the brain in youth, NEVER enters. From the age of 20, to the grave, 99 per cent of us are controlled by ideas absorbed in childhood, and few ever get rid of errors and superstitions thoroughly fixed, before the age of seven. Ask religious teachers about that.

"We are all murderers at heart" says Clarence Darrow, the murderer's ablest defender, as he attacks capital punishment. Zola said that each man "had in himself a hog asleep." Darrow adds the tiger to the hog.

Evolution, calling attention to your parental, polymorphic transformations, tells you that a whole procession of animal ancestors are locked up in you, from the Salamander, which contributed your five toes and fingers, and the mud-fish that gave you lungs, to unpopular Theanthropos, the ape-man whose skeleton is the same as your own—go to the museum and count, bone for bone.

Our job, as we carve civilization out of inferior raw material, is to conquer and dominate our entire inherited menagerie, Zola's hog, Darrow's tiger, the fox, hyena, snake, and all the rest. We have them all.

OBJECTS SAPIRO APPEARING SUIT AGAINST CO-OPS

(Continued from page 1)
charge of certain phases of the association work. It came to light that the directors by resolution had authorized its directors and employees to redry tobacco in private plants but has set a price of \$1.75 a hundred pounds to be paid for such operations. The directorate claimed that this was a lesser amount than would have been paid to outside concerns for the work.

Early in 1925 the association directors invited a committee of public men and officials from the three states to investigate its affairs. This committee reported it found some defects and recommended some changes. It held however, that the affairs generally were in good shape, their direction bona fide and honest and that the co-operative movement had rebounded to the benefit of the growers. Certain changes were made, chiefly in the reduction of overhead expenses and in leasing re-drying plants to handle the association tobacco.

During 1925 the Federal Trade Commission, at the order of Congress, made an investigation of the trade practices of the American and Imperial Tobacco companies in their dealing with co-operatives. An initial report of the Commission was withheld until it could go more fully into certain phases suggested by the co-operative management and the final report was issued about the middle of January, 1926.

The report dealt at length with the management of the Tri-State Association and charged that its principal troubles were caused from within by mismanagement. It criticised particularly the re-

dryng activities of R. R. Patterson and T. C. Watkins, Jr., where by each admittedly had profited.

On January 19, 1926, Wiley M. Person of Franklin county, North Carolina instituted a suit in Franklin county seeking dissolution of the association. He charged that waste and extravagance permeated the organization and cited the statements of the Federal Trade Commission as to redrying activities of officers. The plaintiff alleged that because of the actions of the Association directorate and officers many growers found themselves in desperate financial straits and some were practically bankrupt because of inability to collect for tobacco crops from the association.

The plaintiff appeared before Judge M. V. Barnhill in Edgecombe county Superior court at Rocky Mount, N. C., and presented his bill of complaint. Judge Barnhill signed an order for the association to show cause before Judge Thomas H. Calvert in Wake county Superior court on February 5, 1926, why it should not

be dissolved and a receiver appointed in accordance with the petition of the plaintiff.

Answering the report of the Federal Trade Commission, the association director, on January 30th issues a statement to its membership defending its re-drying policies and alleging that the Trade Commission had published in full facts and findings of its investigation where they favored the two tobacco companies in-

vestigated and were against the Co-operative Association but where they favored the association and were against the tobacco companies, all the evidence was not made public. In support of this charge a mass of evidence was cited which the association directors declared showed collusion between the tobacco companies to the detriment of the association. The statement also declared that by following the re-

drying policies which it did, in spite of the fact that the two officials under fire had made large profits from their private operations, the members had had their tobacco re-dried economically and more efficiently than if the work had been turned over to outside re-drying plants. It also claimed that a prospective alignment to boost the re-drying charge had been prevented by the association's action.

Just WHY is OAKLAND

WINNING and HOLDING GOOD WILL?

Why are so many motorists everywhere so genuinely enthusiastic over this car? Why are they favoring it above all others?

Is it because the Oakland Six is more beautiful—because it possesses more advanced features, including Air Cleaner, Oil Filter, Full Pressure Oiling System, Four-Wheel Brakes and The Harmonic Balancer? Or because it reveals greater speed, power, acceleration and smoothness of performance?

Each of these features plays its part; but there is an even stronger reason for Oakland Six popularity.

Oakland combines—not just one or two of these advantages but all them—at prices surprisingly low.

OAKLAND SIX \$975 to \$1295—Pontiac Six \$825, Coach or Coupe
