BOYS' WORK THEME PROGRAM ROTARY MEET LAST NIGHT

Mr. Frank P. Meadows, Rocky Mount, Calls Attention Necessity Co-operation Between Rotary Clubs and the Scout Movement

Boys' Work, was the theme of the program of last night's Rotary meeting and there were several short addresses on the subject. Following committee reports and other routine business the meeting was turned over to J. H. Wilcox, of the Boys' Work Committee, who made a few remarks on the club's activity among the boys of the community and then called upon R. H. Wright for a talk on the subject. Mr. Wright's talk dealt with the needs of the boy and the citizen's duty toward the boys of the community. Mr. Wright was followed by Mr. Frank P. Meadows, of Rocky Mount, Scout Commissioner of the Tar Heel Council Boy Scouts, composed of Nash and Edgecombe counties. Mr. Meadows delivered an illustrated lecture on the work of the Boy Scouts and called attention to the necessity of co-operation between the Rotary Clubs and the Scout movement in order to obtain the best results for the growing boys of this and every other community. These addresses on boys' work were a great inspiration to the Rotarians to increase their efforts in behalf of the future citizens of the community.

Yard Conductor Southern Railway Instantly Killed

Salisbury, N. C., Feb. 9.—(AP)—C. Ray Iddings, 28, of this city, extra conductor on the local yards of the Southern Railway, was instantly killed at 3:30 this morning while working as a brakeman on the yards. He fell from the tender of a shifting engine and was run over. The body was not mangled, however. He is survived by the widow and one son, also his parents.

Associated Press Bureau Will Be Provided Raleigh

Greensboro, Feb. 9.—(AP)—Eighteen afternoon papers of North Carolina, at a meeting here last night, affected an organization with a view to providing a press bureau at Raleigh, the better to distribute among this group the views of the state Governmental office and agencies and to cover state news more effectively from all points and distribute it.

Small Denied Rehearing Today By Supreme Court

Springfield, Ill., Feb. 9.—(AP)—Reaffirming its previous decision, the Supreme Court of Illinois today denied a rehearing and directed Governor Len Small to account for \$1,100,000 interest money alleged withheld by him while he was state treasurer in 1917 and 1918. It was a divided decision, two justices repeating their original dissension.

Declares German Govt. Must Decline Reply Mussolini

Berlin, Feb. 9.—(AP)—The German Government must decline to reply to Premier Mussolini in a tone which is better suited to mass meetings than to diplomatic conversation with other nations. Foreign Minister Stresemann made this declaration in the Reichstag today in opening his reply to Saturday's broadside from the Italian Premier regarding the situation in South Tyrol.

Another fellow who isn't doing any bragging is the fellow who caught the Prince of Wales to ride—Nashville Banner.

U. S. WILL HAVE WORLD'S BIGGEST BOMBING PLANE

Super Dread Naught of the Air "Cyclops" Being Put Together Secretly for Government

Bristol, Pa., Feb. 9.—(INS)—A superdreadnaught of the air, the largest in the world of its kind, will soon be in the possession of the United States Government, as will several highly advanced bombing planes. These are being secretly built by the Huff-Daland Airplane Company here. They are jealously guarded from prying eyes. The super-bomber will be named the "Cyclops." This terror of the air will be capable of carrying a burden of four and a half tons at a speed of approximately 135 miles an hour. It is said. Six rapid fire guns will be mounted fore and aft, especially designed for this type of air craft. It will be the largest single engine bomber in the world. The War Department is carefully hiding the secrets of the "Cyclops." The skilled mechanics in the large shops here, working on its various parts will never have the opportunity of seeing the large bomber assembled until the Government has sanctioned its public appearance. When the parts are finished, they will be secretly crated and shipped to McCook Field, Dayton, Ohio, where a special Government unit will assemble and test it. When carefully tested and examined by authorities of the Government it will be put on public exhibition.

The propeller blades measure six feet each. This gives an idea of the size of the mighty "Cyclops."

The Government airplane inspectors are stationed at the aircraft company here in order to insure perfect plans. Nothing can be placed in position without the supervision of Federal authorities. Government experts nor workmen will say anything concerning their important work.

The special fleet of 24 bombers are being completed in another part of the plant.

Pesne's Painting of Christ Found in Church Attic

Berlin, Feb. 9.—(AP)—Attle exploring a new popular pastime in Germany, has resulted in the discovery by Dr. Karl Walter, art historian, of Gabrielle Pesne's painting "The Birth of Christ" which 150 years ago was removed from St. Hedwig's Roman Catholic church in Berlin because the congregation objected to the low-cut robes of the Virgin.

Small Denied Rehearing Today By Supreme Court

He searched the castles of the atheistic monarch in Potsdam and Rheinsberg, but did not find the painting. It finally was discovered in the attic of St. Hedwig's covered with cobwebs and dust.

Evolution Topic of Discussion At Miss. Capitol

Jackson, Miss., Feb. 9.—(AP)—Evolution was the principal topic of discussion at the State Capitol today as the House of Representatives prepared to vote on a motion to reconsider the passage yesterday of a bill prohibiting the teaching in state supporting schools of the theory that man ascended or descended from a lower order of animals. It is generally believed that the motion would be defeated and the bill passed to the Senate.

A strong mind and a loud mouth seldom go together.—Fayetteville Observer.

TODAY

(Copyright, 1925)
Invest Here.
Golden Rain.
No Backdoor.
Religion in Politics.
ARTHUR BRISBANE

Mr. Hlman, who writes soundly on finance, speaks of "foreign bonds backed by tangible security," that may be offered to United States investors. The wise American will invest in the United States. Opportunities are not lacking here, and Europe "tangible security" may become a sickly memory the day after tomorrow.

The Russian government was powerful and "tangible." Silly American financiers bought Russian bonds. Then came Bolshevism and the bonds were waste paper. Germany was powerful, with great wealth and golden industries. The war went the wrong way, German bonds, bought to the tune of millions here, were waste paper like German marks.

American investors know, by bitter experience, that buying foreign government bonds is like taking a ride on a whale's back. Very nice until the whale dives. As for "tangible assets" bonds on railroads, factories, etc., bear in mind that no security of any kind is better than the government bonds back of the security.

How would you like your American investments, if United States bonds should suddenly become waste paper? Think that over.

Baptism, as a religious rite, started in Asia where water is precious, and the lack of it disastrous. Water and religion went hand in hand. So say students of religious history. European nations with plenty of rain got their idea of baptism from the east. No baptism in Pagan Greece or Rome, where they spilled wine to honor the gods.

Here in California, water is precious, worth untold millions and fortunately there is plenty of it, guaranteeing 1926 prosperity.

The Los Angeles Examiner calculates the recent golden rainfall in California is worth one hundred million dollars. Agricultural crops that the state sells, are worth on thousand millions. The average rainfall is ten inches. One hundred million dollars an inch.

What will be the value of the great dam at Boulder Canyon, saving for American power and American farms the waters of the Colorado that now go to waste.

President Coolidge is assured that the World Court is not a back door to the League of Nations, and Uncle Sam will not be pushed through the back door into the League, and every American knows that it is given with absolute sincerity, however nobody can predict with certainty the result of a "first step."

Woodrow Wilson "kept us out of the war" for a little while and meant to stay out. Few men in history have ground out finer phrases than he did about making everything safe for Democracy, etc. But, we landed in the war, and this Democracy was "stung" to the tune of more than a hundred thousand million dollars, for foreign loans and home profiteers. "It is the first step that counts," says a French proverb. Uncle Sam has taken his dangerous first step toward European entanglement against which Washington warned him, and whether that step will lead, no one knows.

Colonel House shows that William Jennings Bryan objected vigorously to Dr. Charles W. Elliott's appointment as Minister to China. Elliott, as a Unitarian did not believe in the Divine birth of Christ. The "New Chinese Civilization" according to Bryan was founded on the Christian movement in China, so Elliott was the wrong man.

This shows that Mr. Bryan knew more about other things than about "China's New Civilization." That civilization is founded upon the teachings of Confucius, mixed with new ideas that Chinese students have brought back from Eastern Universities, and upon intense hatred of foreigners, especially the British that establish their courts and territories on Chinese soil.

To say that Christianity governs "Chinese civilization" is about as accurate as to say that Theosophy governs civilization in the United States.

MEM. EXERCISES BE HELD FRIDAY JUDGE CONNOR

Bar Association of Wilson County Will Hold Exercises in the Court House, at Wilson, Friday Afternoon

At a recent term of the Superior Court of Wilson county, a committee from the Bar Association of the county was appointed to arrange a memorial program for the late Henry Groves Connor, who, during his career, was a Superior Court Judge, Speaker of the House of Representatives, Associate Justice of the Supreme Court and United States District Judge.

At the afternoon session of the Superior Court of Wilson county on Friday, February 12th, 1926, beginning at three o'clock in the afternoon, the exercises will be held in accordance with the program arranged by the committee. Judge Frank A. Daniels, of Goldsboro, a life-long friend of Judge Connor, will deliver the principal address.

It is expected that a large number of Judge Connor's friends throughout the State will be present on the occasion, as it is understood that the public generally is invited.

Ponzi to Give Himself Up At Sheriff's Office

Jacksonville, Fla., Feb. 9.—(AP)—Charles Ponzi is in Jacksonville and intends to give himself up at the sheriff's office as soon as he can retain counsel to defend himself. Friends of the financial wizard said this afternoon.

Ponzi was indicted by a Duval County grand jury late yesterday on charges of violating the state laws regulating business under a declaration of trust.

Jacksonville, Fla., Feb. 9.—(AP)—A state wide search for Charles Ponzi, indicted here yesterday for alleged violation of a state law, was instituted today when he failed to arrive in Jacksonville on morning trains.

Ponzi was said to have left Tampa late yesterday for Jacksonville. A close watch for all incoming trains failed to reveal the man, and authorities expressed the belief that he may have left the train in the railroad yards here.

Bennett Escapes From Honor Camp At State Prison

Raleigh, Feb. 9.—(AP)—Floyd Herman Bennett, white man, serving a sentence from Mecklenburg County for kidnapping and abduction, escaped from the Honor Camp of State Prison at Tarboro on Sunday afternoon. It was learned at the State Prison here today. He was one of the prisoners serving at that camp without guard and was not required to wear stripes.

Bennett had about one year more to serve.

If you believe race and religion play no part in our politics, read the letter that Colonel House wrote to President Wilson, quoting William J. Bryan, Wilson's Secretary of State. "He (Bryan) is very earnest in his advice that a Catholic and perhaps a Jew be taken in to the family (the cabinet). I told him I thought Tamm's appointment as secretary would cover the one (the Catholic) but he thought not."

Col. Mitchell, fighting flier, will go away to kill lions and tigers, taking his wife. That's the report. He could stay at home and kill things more important, including for instance, the idea that the expensive battleship still has value, and the other idea that swivel chair dodos should be allowed to control the flying "force" of the United States. It would be more accurate to call it the flying "feebleness" of the United States, for that's what it is.

In the News of the Day

Giovanni M. Di Silvestro has been re-elected commander of the Sons of Italy in America. Senator George E. Williams, Missouri, was a recent White House caller regarding pending legislation. Rear-Admiral William A. Moffett, naval air chief, outlined a five year programme for expenditure of \$137,744,750 for new heavier-than-air equipment before the House naval committee. Senator Pat Harrison, Mississippi, chided President Coolidge for his failure to act in the anthracite coal strike.

BRYSON WILL NOT BE A CANDIDATE RE-NOMINATION

Now Completing His 8th Year As Superior Court Judge; Present Term Expires Next January

Salisbury, N. C., Feb. 9.—Superior Court Judge T. D. Bryson, of Bryson City, whose residence is the 20th who is presiding over Rowan Superior Court here this week, made the statement for publication this morning that he would not be candidate for re-nomination.

This action was in answer to a question relative to his probable resignation. He said that published reports of his intended resignation were not authorized by him. He further stated that when he retired from the Judiciary he did not intend to devote his entire time to the Smoky Mountain Park project as had been intimated in published reports. Judge Bryson is now completing his 8th year as Superior Court Judge. His present term expires next January.

Training Class Begins Immanuel Baptist Church

The Officers' and Teachers' Training Class, which was begun Monday evening at 7:30 o'clock in the Pastor's Study of the Immanuel Baptist Church, was well attended on the first evening. The record showed that twenty-three had availed themselves of this rare privilege to better fit and equip themselves for Sunday School work.

The class meets each evening at 7:00 o'clock and continues for one hour. The pastor is in charge of the School and is giving the Sunday School Manual. The School will continue two weeks, with a possible interim of two weeks intervening. The subject this evening will be "Sunday School Officers." Not only should officers and teachers be in attendance, but everyone who really would like to know better how to do the work of building up a Sunday School. Visitors will be welcome.

WADE V. BOWMAN SENTENCED ONE YEAR ON ROADS

Appeals Under Bond of \$4,000; Found Guilty of Simple Assault

Newton, Feb. 9.—(AP)—Wade V. Bowman was sentenced to serve one year on the Buncombe County roads, according to judgment announced here by the court this morning at 11:05 o'clock. He filed notice of appeal and the bond was fixed at \$4,000.

The sentence was pronounced by Judge James L. Webb this morning after it was withheld for further consideration since yesterday. Bowman was found guilty last Saturday on a charge of simple assault on a twelve year old Hickory girl, after he had been tried for criminal attack.

He took the stand last Friday in his own defense and in a straight forward manner admitted handling the little girl, but denied that his action had any element of criminal attack. When a verdict of attack on female was returned Judge Webb commended the jury, saying that he would have been forced to set aside any higher verdict. Charles W. Bagby, counsel for the defense, replied curtly that he had no statement to make regarding the judgment of the court.

For the first time during the long trial Bowman showed some emotion when Judge Webb began by saying that the conduct of the former army officer was ugly in the sight of man and the law, and then he came to the point of passing sentence.

Bowman's hands slipped from the table, which he had been holding, and his head dropped. Since the jury's verdict last Saturday and the comment from the bench, there has been much hope within the ranks of the defense. They were inclined to expect a fine from the court. The two months on the county roads came as a shock.

Notice of appeal was promptly filed by defense attorneys and the manner of the attorneys indicated that the appeal would be carried right on through. The attorneys however would not make any statement.

CHIEF EXECUTIVE ASKED INTERCEDE HARD COAL STRIKE

Request Answered by the Reiteration of the President's Policy of Non-Intervention

Washington, Feb. 9.—(AP)—The Senate appealed to President Coolidge today to seek a solution of the anthracite controversy, but the request was answered almost immediately by the reiteration at the White House of the President's policy of non-intervention. The Senate action, it was officially said, had not convinced Mr. Coolidge that there was any change in conditions which would justify a change in his policies.

He does not consider the Senate advice in any way binding upon the Federal Government, although he regards it as a valuable expression of opinion. He also feels that passage of the coal resolution was more or less necessary in order to save the time of the Senate and permit it to center attention on the pending tax bill. The author of the measure, Senator Copeland, Democrat of New York, had given notice he would insist on a vote of the proposal every day and much time was being consumed in roll calls.

Washington, Feb. 9.—(AP)—President Coolidge was asked today by the Senate to intercede in the anthracite controversy.

After having twice refused to consider such a step the Senate succumbed to the growing pressure for action and adopted the resolution by Senator Copeland, Democrat of New York, asking the Chief Executive to call the operators and miners into conference at the White House.

As adopted however, the resolution was amended so as to leave it to the President to decide when the conference would be called. The vote for adoption was 54 to 21. On last Friday the Senate refused 48 to 28 to take up the proposal and on the following day it repeated the refusal 43 to 28.

Mrs. W. R. Bullock Dies After A Long Illness

On Wednesday, February 3rd, the death Angel visited the home of W. R. Bullock, residing near Whitehills, and claimed his much beloved wife, Beulah. The deceased had been suffering with diabetes for several years. She was a member of the Primitive Baptist Church at Briar Swamp and was a faithful attendant. She had a brave ambition to bear her suffering patiently. She was beloved by many friends who regret her loss to her bereaved family.

She is survived by her husband, W. R. Bullock, mother, Mrs. Sarah Leggett; four children, Annie Belle, Mabel, Ernest, Joseph Murphy; two sisters, Mrs. Guther Crandall Stokes; Mrs. Huldah Warner, Rebersoville; five brothers, Joe Nobles, Greenville, Edwin Nobles, Whitehills, Grover Leggett, Bethel; Uriah Leggett, Bethel, Murphy Leggett, near Stokes. The Rev. Ben Carrawan, pastor of the Primitive Baptist Church, near Bear Grass, conducted funeral services at the home of the deceased on Thursday at 1:30 o'clock. The body was then taken for burial at the family burying ground, located on the old Leggett farm near Gammon's Bridge.

"Mother's white hands are folded in rest. Jesus has claimed her for the best. Dear children, be cheerful, be happy and free, Dear mother is waiting for thee. May love's ones be protected, May loving hands guide thee, So, when they cross that great sea of darkness, Mother's arms may meet thee."

Washington, Feb. 9.—(AP)—The bill to increase the salaries of all Federal Judges was approved today by the House Judiciary Committee.

Approves Bill to Increase Salaries Federal Judges

Washington, Feb. 9.—(AP)—The bill to increase the salaries of all Federal Judges was approved today by the House Judiciary Committee.

GEN. PERSHING RETURNS FROM ARICA TODAY

Says He Is Not On the Sick List But Will Enter Walter Reed Hospital Upon Arrival in Washington

Key West, Fla., Feb. 9.—(AP)—General John J. Pershing arrived here shortly before noon today and the cruiser, Denver, en route to Washington, D. C., from Arica, Chile, where he served until recently as neutral chairman of the Tacno-Arica Plebiscitary Commission. General Pershing appeared in very poor health, but announced that his condition was "fair," declining to confirm or deny persistent reports that ill health has prompted his resignation in South American Boundary disputes and his immediate return to the United States.

"I am not on the sick list, but I suppose my health for the past few months would entitle me to be taken on active military duty. It is true that I have been under my physician's care. I intend to enter the Walter Reed Hospital on my return to Washington, but can't say how long I'll stay there."

This statement was made after Major John G. Quekemyer, General Pershing's aide, had characterized the condition as "bad." He was said to have left below decks during the entire journey here except for brief intervals during clear days when he walked about the ship.

Two Murderers Pay Penalty On Gallows Today

Winnipeg, Feb. 9.—(AP)—Two murderers paid the extreme penalty on the gallows here today. John Stanton, internationally known criminal, was executed for the murder of John Penny 70-year old recluse, in December, 1922. Steve Nazar, 19 year old farm worker, was hanged for the killing of Louis Landy, a local taxicab driver, last October. Robbery was the motive in each case.

Weather Bureau Adds "Smog" Forecast Talk

Indianapolis, Feb. 9.—(AP)—United States Weather Bureau has given a new word, "smog," to the American language. It is used to describe a combination of smoke and fog which occurs chiefly over cities of the central states. Indianapolis has popularized the word because of the fight being waged to eliminate the smoky condition. "Smog" prevails when smoke and fog unite at the same density. The smoke particles crystallizing in a chill air and being carried along in a fog blanket, said J. H. Arington, weather forecaster.

Benevolent Aid Society, Goldsboro Issued Charter

Raleigh, Feb. 9.—(AP)—Among the charters issued by the Secretary of State today was one to the Benevolent Aid Society, Inc. of Goldsboro. It is non-stock. Among the incorporators are Richard W. Pate, Annie E. Fort, William H. Thompson, Sally J. White, and others, all of Goldsboro.

Negro Sentenced to Be Hanged On February 26

Georgetown, Del., Feb. 9.—(AP)—The populace of this county sent which yesterday caused Delaware National Guardsmen to use tear bombs during the trial of Harry Butler, 21 year old negro, had quieted down today. Butler, who attacked a 12 year old white girl, was convicted and sentenced to be hanged in the jail yard on February 26th.

AMERICANISM ON THE OCEAN

The President Roosevelt, which has just enriched the heroic chronicle of the sea with one of its most brilliant pages, is in more ways than one a typical vessel of these waters. She is American not only in her name, her flag and her gallant upholding of the noblest traditions of the ocean; she is representative most strikingly in the make-up of her personnel. By the law which governs our merchant marine every one of her men is a citizen of the United States. But, like every characteristic group of Americans, from a regiment in the army to an audience in a theatre and from the President's Cabinet to a college cloyer, the crew of the Roosevelt is a cross-section of mankind.

Among the officers and men in her deck department, which was principally concerned in the rescue, no fewer than half are naturalized aliens, whose homelands compass pretty nearly the entire globe. Of the two who offered up their lives that others might not perish, Witanen was of Finnish and Heltman, of German origin. And among those who carried the work to its splendid conclusion there are names like Diaz, and Wilke, Abertz and Arenda, Franelich and Fugelsang, Hahn and Jacobowitz. Americans all in citizenship and ideals, but owing to their ancestry or birth to Russia and Argentina, to Germany and Jugoslavia, to Ireland and Holland, to Denmark, Sweden, and Finland, as well as to many of the States of this Union.

The tablets which commemorate the contribution of America to the late war for the world's freedom have accustomed us to the fact that courage is the monopoly of no single racial strain. In contemplating the stirring feat of the President Roosevelt, we are made aware that the heroism of peace is likewise part of the common tradition of mankind. Those who are prone to see in our immigrant peoples some danger to American ideals may well ponder the names of the gallant men who to the honor of America saved the Antioch's crew.—N. Y. Times.

BRINGING JOY TO THE BLIND

There are times when radio oversteps its bounds of entertainment and education, and becomes a veritable angel from heaven.

Los Angeles county, California, maintains a school for blind children.

Then into their lives came radio. What a change. Expressionless faces became animated. The world of broadcasters lay all their pleasures at their door.

One of the older boys had been blindly tinkering for months to contrive a radio. It worked, but only one child could listen at a time. Then the head of a firm distributing radios heard of their case. He gave the school a single dial receiving set which is so simple to operate that even a blind child could tune it. There was only one dial to turn and it could be tuned as easily without sight as with it.

If persons able to make such gifts could see the expression of joy on the faces of these children, radio sets would be given to every orphan's home, blind school, children's hospital or similar institution in the land.

In addition to giving entertainment the radio will be used to teach music, history, horticulture and current events at the school.

Music Clubs Offer Another Award Music

Columbus, O., Feb. 9.—(AP)—Chamber music is to receive a new recognition in America through a prize composition contest announced by Mrs. Edgar Stillman Keller, president of the National Federation of Music Clubs.

Through the Federation, C. C. Birchard offers a prize of \$1,000 in the name of the Carolyn Beebe New York Chamber Music Society and the agreement to publish the successful composition. This must be submitted prior to the Biennial convention at Chicago in the spring of 1927.

The prize-winning composition must be scored for the following instruments: Piano, first and second violins, viola, violoncello, double bass, clarinet, flute, oboe, bassoon and French horn. The work is not to require more than 15 or twenty minutes in rendition.

Musicians say that the promise of publication is quite as valuable as the money consideration. Only through publication of a prize winning composition does it have an opportunity to become generally known. The costs of publishing a symphony or a chamber music composition is so great that many of them never get beyond the manuscript stage.

A prize of \$1,000 for a new symphony also will be given at the convention. The presence of two prize winning compositions on the program constitutes an epoch in American musical composition federation officials said.

Those chaps who claim they never make mistakes carry rubbers in the end of their pencils like the rest of us.—Fayetteville Observer.

What we can't understand is why Henry hasn't hired a few of the old-timers to play some tunes on a "juice-harp."—Little Rock Democrat.

NOTICE OF SALE

Under and by virtue of an order of the Superior Court, of Pitt County, made in the action entitled The Bank of Fountains, vs. R. E. L. Graham, Executor of W. R. Graham, the same being a special proceeding before the Clerk of said Court, the undersigned Commissioner will, on Monday, March 8th, 1926, at 12 o'clock, Noon, before the court house door in the Town of Greenville, N. C., offer for sale to the highest bidder for cash, the following described tracts of land:

A one-half undivided interest in a certain lot or parcel of land, situate, lying and being in the Town of Farmville, Pitt County, and State of North Carolina, and described as follows—Beginning at the N. E. corner of the intersection of May and Belcher streets, and runs with Belcher street Easterly 200 feet to R. E. Belcher's line; thence with Belcher's line Northerly about 200 feet to the Hookerton Terminal Company Right of Way, thence with said Right of Way Westerly about 325 feet to May Street; thence with May Street in a Southerly direction to the beginning.

Also one other tract of land, situate, lying and being in said Town of Farmville, County of Pitt, State of North Carolina, and described as follows: Beginning at a stake on the North side of Belcher Street, corner of Hookerton Terminal Company, R. E. Belcher lot, and runs with said Belcher street corner of Hookerton Field's Street; thence with Field's Street Northerly about 300 feet to the Hookerton Terminal Company Right of Way; thence with said Right of Way to Hookerton Terminal Company and R. E. Belcher line, thence with their said line to the beginning.

This the 3rd day of February, 1926.

John Hill Paylor, Com.

8th-11w-4w.

Sixty Years Ago

A young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce, who finally made up his mind to place some of his medicines before the public, and moving to Buffalo, N. Y., put up what he called his "Favorite Prescription" and placed it with the druggists in every state. Dr. Pierce's Favorite Prescription has long been recognized as a tonic for diseases peculiar to womanhood. After suffering pain, feeling nervous, dizzy, weak and dragged-down by weakness of her sex, a woman is quickly restored to health by its use. Thousands of women testify that Dr. Pierce's Favorite Prescription has entirely eradicated their distressing ailments.

Put in both fluid and tablet form. Send 10c to Dr. Pierce, Buffalo, N. Y., for trial package of tablets. Write for free confidential medical advice.

WE WILL PAY 5 CENTS A COPY for The Daily Reflector, dated January 14th, brought to this office. 9-2t

Dividends Regularly for 40 Years

Constant war on waste
Products of first quality
Uninterrupted dividends
Stability of earnings
Small profits per pound on large volume

The life history of Swift & Company's operations is thus briefly summarized.

The chemical laboratory and the constant search for improved methods have reduced waste to a minimum. They have also enabled us to improve greatly the quality of your meat.

Thrift and conservative policies have made it possible to pay dividends without interruption for 40 years, although our profits have averaged only a fraction of a cent per pound of product.

Swift & Company thrift has benefited others beside Swift shareholders. A portion of the gains resulting from thrift is passed along to the producers of live stock and to the consumers of meat. Competition sees to that.

Swift & Company

Gentlemen Listen!

CONSULT US before placing your order for your 1926 fertilizers.

WE ARE RIGHT HERE ON THE GROUND of the best agricultural section of the state and that means of the nation.

WHY DO WE STUDY YOUR NEEDS? Because our business is so closely related to your business that we have to study your business in order to promote ours.

A HOME INDUSTRY doing business with our HOME PEOPLE we are helping each other develop our section.

OUR PRICES ARE IN LINE WITH STANDARD LEGITIMATE GOODS. But **WE ARE NOT** in the field of cut-throat competition and inferior goods.

WE KNOW your needs and problems.

WE ARE PREPARED TO SERVE you as no one else can. A trial will convince you.

COME TO SEE US and we will talk it over together.

SHERIFF OF PITT CO.

Oldest U. S. Agricultural Districts Have Fewest Rent Paying Farmers

Boston, Feb. 8.—(U. S. S.)—Oldest areas of farm settlement in the United States have the smallest percentage of non-owning farm tenants. Only 8.9 per cent of the farms in New England, or 11,962, are in the hands of renters while the other 91.1 per cent, or 144,982, are operated by their owners, according to an agricultural survey. Maine has the lowest average of farm tenancy in the Union with only 4.4 per cent, says a bulletin. Georgia has the largest with a total of 67.1 per cent of its farms rented out.

Show Big Advances in All Phases Aviation

Durham, N. C., Feb. 9.—(AP)—Aviation, both military and commercial has been advanced along several lines during the last year by experimentation and research at the engineering division headquarters of the army air service at McCook field.

The developments have pertained to improvement of metals and other materials used in airplane construction, to more economical airplane construction, to improvements in designs of planes, and inventions and adaptations of accessories and methods in connection with aviation, says a report of the year's progress.

The predominant trend in military aircraft development has been a marked reduction in the number of types of planes required for military purposes. Formerly ten standard types of aircraft were considered necessary to fulfill all military functions. Today only five general types are required to accomplish the same purposes. The reduction was brought about by designing aircraft in certain instances to perform two or more functions, through interchangeable equipment.

The five general types to which planes now conform to meet military requirements are: Pursuit, bombardment, observation, training and transport.

The first plane built in the United States exclusively for ambulance purposes made its appearance during the year. It accommodates a pilot, a flight surgeon, and two patients. After being carried in on the fuselage, medical supplies are carried.

Reliability of the Loening amphibious plane for land-water-air travel was proved by the MacMillan expedition and the photographing of the Minnesota watershed in the report.

Assemblies developed during the year included pneumatic landing shock absorbers and the air plane brake. The shock absorbers are telescoping cylinders containing oil and water. The brakes decrease by about one-third the distance of roll on the ground after landing.

Engine development has progressed toward its ultimate goal of one pound per horse power. New water-cooled engines weigh one and a small fraction pounds per horse power. A valuable contribution to this branch of air navigation was the air-cooled Liberty engine.

Bombing under conditions formerly considered unfavorable both as to height and clarity of the atmosphere was improved by a new bomb sight. Effective results can now be obtained at a height of from 10,000 to 20,000 feet, well above the present actual danger zone of anti-aircraft guns.

Highpowered incandescent lights have been developed to supplant carbon arcs in aerial beacons, air-

with 78.1 per cent rank high among the states in this respect. Percentage of farm tenancy is highest in some of the Southern states, where the proportions of negroes who rent land for farming is large.

"While some of the farm authorities regard the increasing trend toward farm tenancy as an alarming factor, figures show that it has not reduced from income. As a matter of fact, the revenue of American farmers including owners and renters has registered a gain of 33 per cent in the last decade. Moreover, many modern conveniences in the luxury class, such as radios, electric lights, telephones, automobiles, and musical instruments formerly regarded as exclusive to the city, now are common features on the average farm."

drone floodlights and landing field illumination.

Three new instruments, the earth induction compass, the drift sight and the flight indicator are being perfected for course flying through fogs and above clouds. A sensitive altimeter has been developed for aiding in aerial photograph work.

New aerial map-making cameras have been invented and developed. Night aerial pictures are now being taken with the aid of flashlight powder dropped from planes. Mapping of air mail lines and photographing of agricultural fields for crop reports has been successfully undertaken.

Salon Where Donkey Exhib'd. Faces Crisis

Paris, Feb. 9.—(AP)—Nine of the twenty members forming the committee of the Independents' Salon have resigned, bringing the body's existence into a critical state.

The "Independents" have gathered most fame and perhaps notoriety as the home of every freak school of painting and the haunt of the "fauves" or savages who recognize no rules and observe no traditions. It was at their salon that a picture painted by a donkey once was shown.

Several young artists tied a paint brush to the donkey's tail and encouraged the animal to swish it over a canvas, conveniently placed, the brush being dipped into various paints, from time to time.

Such a trick was possible as no jury passes on the picture shown by members at their annual salon, so that the donkey's effort only had to be sent in as the work of "Monsieur Albifon" whose subscription and the small fee exacted from exhibitors were duly paid.

There are some 3,000 inscribed members and an Independents' Salon presents between 6,000 and 7,000 works. A leading critic has said that of 6,000 pictures at this Salon, 5,900 can be left aside as of no real interest and then the remaining 100 should be carefully sorted.

But if freak artists from the noisiest section of the Independents they are not the most numerous. The bulk of the members are with the French call "harmless Sunday artists," that is worthy individuals who work at all sorts of callings all the week and devote themselves to picture painting on Sundays.

There is a surprising number of such people in France, even if not so many as those who devote that day to a suburban garden or allotment or trying to beguile a fish with a worm.

The present split has come on the question of how the hanging of pictures at the Salon shall be regulated. At the annual meeting it was voted by 390 against 7 to retain the rule adopted last year that works shall be hung in the strict alphabetical order of the painters' names, a rule that was

Lost in Storm

Rose Delena was found wandering, half frozen, during a blizzard in Newark, N. J. She said she had been sold to gypsies in Italy and deserted them in America because they forced her to beg.

not entirely observed last year. The minority wished that works should be grouped by affinities, so as to allow a certain selection, and when defeated its nine members resigned.

NOTICE OF THE SALE OF PERSONAL PROPERTY
Under and by virtue of the authority vested in me by certain contract of sale executed by Joe Braxton and W. J. Braxton on February 5, 1925.

Default having been made in the payment of same, I will offer for sale at public auction in the town of Winterville, North Carolina, on Saturday, February 27, 1926, at 12 o'clock, M., the following described personal property:

One Overland Touring Car—Engine No. 123889. Terms of sale: CASH.
This 5th day of February, 1926.
Mrs. E. T. Burzette,
Owner of Debt.
9th-11w-3wk.

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon me in a deed of trust executed by A. L. Jackson, on the 20th day of April, 1925, and recorded in Book V-15, page 152, Pitt County, I will on Saturday, the 6th day of March, 1926, at 12 o'clock noon, at the court house door in Greenville, sell at public auction for cash, to the highest bidder, the following land, to-wit:

Bounded on the north by the lands of J. S. Holton and B. T. Heath; on the east by the lands of Nancy Jackson and Guilford Jackson; on the south by the lands of Nancy L. Jackson and S. K. Jackson; on the west by the lands of Nancy L. Jackson and described as follows:

Beginning at a pine stump in the branch, B. T. Heath corner;

running S. 50 1-2 W. 2 1-2 poles; Again running the following calls and distances; N. 69 W. 6 2-5 poles; S. 80 1-2 W. 20 2-5 poles; S. 84 1-2 W. 13 poles; N. 81 W. 9 1-5 poles; N. 85 W. 8 3-5 poles; S. 81 W. 9 4-5 poles; S. 72 1-2 W. 10 poles; S. 85 W. 9 2-5 poles; N. 80 1-2 W. 12 2-5 poles; S. 65 1-2 W. 12 4-5 poles; S. 72 W. 9 poles; N. 78 W. 12 poles; S. 84 W. 6 4-5 poles; S. 65 1-2 W. 28 poles; S. 88 1-2 W. 7 poles; N. 87 W. 8 poles; S. 81 1-2 W. 8 poles; S. 51 1-2 W. 8 4-5 poles; N. 55 1-2 W. 10 3-4 poles; S. 63 1-2 W. 9 2-5 poles; S. 46 W. 10 1-2 poles; N. 68 W. 12 poles; N. 55 W. 12 2-5 poles; N. 76 1-2 W. 8 4-5 poles; S. 70 1-2 W. 8 poles; to Little Contentnea Creek; thence with the Creek as follows: S. 61 1-2 E. 8 poles; S. 14 E. 6 poles; S. 4 1-2 E. 10 3-5 poles; S. 8 1-2 E. 8 2-5 poles; S. 4 1-2 E. 9 2-5 poles; S. 14 1-2 W. 10 poles to an old oak stump on Creek; thence South 2 12 E. 140 poles to center of Gum Swamp Run, near an ash; thence as follows with Gum Swamp ditch; N. 73 E. 9 poles; N. 81 E. 8 1-2 poles; N. 41 E. 18 1-2 poles; N. 29 E. 16 poles; N. 3 E. 18 poles; N. 1 1-2 W. 8 3-5 poles; N. 42

1-2 E. 10 poles; N. 74 1-2 E. 17 poles to gum; thence N. 1 W. 36 8th, 1925.

This sale is made by reason of the failure of A. L. Jackson and wife Rose Lee Jackson, to pay off and discharge the indebtedness secured by said deed of trust to J. B. Holloway.
This the 29th day of January, 1926.
W. S. Lockhart, Trustee,
Durham, N. C.

Don't! No Need to Take that Raw and Drastic Calomel

Now—Calomel in New and Pleasant Form
TEST FREE
Three times as effective as "raw" calomel, yet no nausea, griping, or other ill effects. "Follow-up" salts unnecessary. Free test will prove!

New-Type Calomel Breaks Up Cold in One Night! Drives Out "Flu" Germs While You Sleep

Never again need you take a dose of old-style "raw" calomel. Now there is a more pleasant and agreeable form of calomel—one that is three times as effective as old-fashioned calomel. It is calomel combined with pepin—"Pepin-ated" Calomel, it is called, and it has all the beneficial effects of old-style calomel and more, and without any sickening or violent effect on the system. "Follow-up" salts are not even necessary.
One tablet of "Pepin-ated" Calomel lets you rest well, and yet while you sleep drives cold and "flu" germs and the poisons out of your system. Prove this to yourself at no cost. A

sample of "Pepin-ated" Calomel sent free. Let the free test convince you—then get a package at your druggist to keep handy for use. Write today. Address: Pepin-ated Calomel Company, Atlanta, Ga., Dept. (Key 16-C).

Universal Recommendation

FOR INCREASED YIELDS USE **JOSEY'S** OPEN-FORMULA FERTILIZERS

It is a universal recommendation from every user. These letters tell of the wonderful success of crops where JOSEY'S is used under them. Quality crops are returned by the use of quality fertilizer. Bigger prices are paid for JOSEY-grown crops because they are of a higher grade. There is also a larger yield where JOSEY'S is used. JOSEY'S pays big dividends in every way. More farmers find this to be a fact every year—when are you to take success into your crops by using JOSEY'S fertilizers?

THESE ARE THE MEN IN EVERY DOB OF JOSEY'S FERTILIZER

See our nearest dealer, or write direct to **N. B. Josey Guano Company** WILMINGTON, N. C. Tarboro, N. C. Scotland Neck, N. C.

JOSEY'S has given our customers the best results of any fertilizer we have ever sold. From the inquiries, we will sell more in 1926 than in the past two years. For the past fifteen years we have sold JOSEY'S and have yet to find a dissatisfied customer.

Conquers Bad Breadth and is Popular Again

"The day I started taking Carter's Little Liver Pills," says Mr. John A. Perry of New York City, "my habitual bad breath and bad stomach stopped. I strongly recommend them to all those afflicted with these nasty troubles. I assure you that my own case was a bad one, causing me untold embarrassment, and Carter's helped me right from the start."

Bad breath comes from sour stomach and can usually be relieved quickly by Carter's Little Liver Pills. They are wonderful for constipation, sick headache and in

digestion and they physic the system in a mild and gentle manner, no bad after effects. Recommended and for sale by all drug stores.

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and Domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

WHEN it's farewell to fond home for another day. And you cheerfully join the busy world as it marches on to its duties. When with jaunty step you gayly face the work of another day—have a Camel!

For every morning Camel sends millions of successful men more confidently on to new triumphs. Camel's friendly goodness brings fresh cheer and courage to every auspicious day. Whether early in the light of a new morning or late at night, Camel never tires the taste or leaves a cigaretty after-taste. Camels are the perfect blend of the choicest tobaccos grown in all the world. Never, before Camel, was any cigarette made so good—and no other since.

So this day as you swing bravely forth to new achieving. As in your office you carry forward important work well done—know then the most gratifying goodness that ever came from a cigarette. Each successful new day, the world's best is rightfully yours.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price. R. J. Reynolds Tobacco Co.

LOCALS

Mr. B. R. Fields spent today in Raleigh. Miss Alice Ball, of Raleigh, is visiting at the Proctor Hotel.

MISS KATHLEEN COUSINS ENTERTAINS
Hostess At Bridge In Honor of Mrs. Waverly Cousins.

Honoring her sister Mrs. Waverly Cousins, of Danville, Va., Miss Kathleen Cousins delightfully entertained on Monday evening at bridge at the home of Mrs. B. S. Warren on Fourth Street. The home was attractively decorated with Valentines.

Thirteen tables for the games were arranged in the reception hall and drawing room and a number of interesting progressions were enjoyed. Mrs. E. S. Williams, making the top score, was presented a waste basket, while the honoree was remembered with a bouclé pillow. Attractive table prizes were also given.

At the close of a most pleasant evening, an ice course was served.

GREENVILLE VISITED BY HAIL STORM
Greenville was visited by a light hail storm today shortly after noon, which lasted for only a few minutes.

MERCHANTS ASSOCIATION ADDS ANOTHER MEMBER

The Greenville Merchants Association has experienced a wonderful growth in membership since its organization last August, and each month applications are passed upon by the Board of Directors. The secretary stated today

that the local plant of the Velvet Ice Cream manufacturers, of which Mr. W. C. Sandeford is manager, has been elected to membership, this being the third member within a week.

MERCHANTS ASSOCIATION ANNUAL MEETING TONIGHT

The annual meeting of the Greenville Merchants Association will be held this evening at 7:30 o'clock in the City Hall offices at the corner of Fifth and Cotanch streets. Every member is urged to attend as several matters of vital interest to the individuals and the Association will be presented.

"TO MY VALENTINE"

The Color Gravure Section of next SUNDAY WORLD will have a beautiful half-page painting representing one of the old-fashioned Valentines, reproduced in full colors by THE WORLD'S exclusive color-gravure process. Painted specially for THE WORLD by the noted artist Tengren. A valentine gift in the old-time spirit of the day. Worth cutting out and saving or mailing. THE SUNDAY WORLD is limited at advance orders. Tell your newsdealer today to reserve a copy for you.—(Adv.).

DEEDS OF TRANSFER

The following deeds of transfer have been filed since last report: David J. McLawhorn to Herman J. McLawhorn, 34 acres, \$2,000.00. Sallie Summerell to Claude W. Cox, 2 lots, \$400.00. J. I. Morgan and wife to John T. Thorne, 237.5 acres, \$10,000.

Ed. Blount and wife to Christian Church (col.) 1 town lot, \$125.00. L. C. Stokes and wife to J. R. Smith, 1 town lot, \$50.00.

LEGION AUXILIARY TO MEET WEDNESDAY

The Auxiliary of the Pitt County Post of the American Legion will meet Wednesday afternoon at 3:30 o'clock with Mrs. F. J. Deiner. A large attendance is desired.

U. D. C. TO CONDUCT CAMPAIGN RAISE FUNDS GETTYSBURG MEMORIAL

The George B. Singletary Chapter of the United Daughters of the Confederacy will conduct a campaign on Thursday, February 11, for the purpose of raising funds for the erection of a monument at Gettysburg to our Confederate dead.

Texas, Virginia and Maryland have already erected monuments on this battlefield to their dead. North Carolina's contribution to the Civil War is almost unparalleled in the history of warfare.

The U. D. C. is especially anxious for the public to respond most liberally to help make possible the erection of this monument upon the Gettysburg battlefield to memorialize our valorous sons of North Carolina who shed imperishable lustre and renown upon her name in the fighting there.

LITERARY DEPT. OF WOMAN'S CLUB MEETS

The Literary Department of the Woman's Club met on Tuesday afternoon, Feb. 2, at the home of Mrs. E. L. Henderson with Mrs. Henderson and Mrs. A. D. French as hostesses.

The recital was made unusually interesting by each member responding with a bit of information or fun concerning Africa, the topic of the afternoon's program. Attention was called to the increasing activity of the white man

in Africa, to the development of big business there, and to the progress of the natives. After the reading of the minutes by Mrs. Rouse, Mrs. W. H. Woolard, the president, introduced Mr. D. L. Mangum, who reviewed for the club Lewelyn Powys's "Black Laughter." From this discussion the members gained many vivid pictures of African life.

The next topic, "The Wild Animals of Africa," was well developed by Mrs. Ernest Forbes. The club members agreed that they were quite willing to get this information through the other person's experiences.

At the conclusion of the program, Mrs. Moore announced the entertainment to be given by Franceska Kaspar Lawson on February 9th, at the Intermediate School, and urged that all members avail themselves of this opportunity to hear one of our most gifted artists.

Assisted by Misses Beddingford and Dunn, and the winsome little Henderson son, Kenneth, the hostesses then served a delicious salad course and coffee, which completed a most pleasant and instructive meeting.

LIBRARY NEWS

Our Slogan: "Let the Library Serve Greenville."

Library Hours: 2 to 6 P. M. and 7 to 9:30 P. M.

On the reserve list of books "Keeper of the Bees" still ranks first, with a waiting list of seven. "A Bush That Burned" and "The Perennial Bachelor" are equally second with four each waiting to read them. "Vanishing American" comes next with three on the list and "Drums" has two on the reserve list.

Of the books for younger people the high school classics, "Seventeen," "Turmoil," "Anne of Green Gables," and "The Tale of

Two Cities" all are reserved from two to four weeks ahead. In non-fiction, History of America and of England have both been the most in demand, with Biography second. Remember, if we do not have the material you want we can procure it through the State Library Commission if given a few days notice. We had five requests last week and will fill all orders promptly within three or four days.

There are yet too many overdue books. For the first week in February there are sixteen books not yet returned, that's a lower average, by far, than any during the past three months, but it is too many, at that. Please return any book or magazine due last week and pay your fines of two cents a day unless a new book, which is five cents a day overtime.

Beginning next week we shall give one-half of our space in reviewing the books for Juniors and young people, for we feel that there are too many fine books idle on the shelves while the younger people sometimes feel they have read everything when the Tom Blade or the Zane Grey books are read which are both all right, but certainly ought to be mixed with other types. Next week we are going to review "Master Skylark" which is one the reserve list of high school classics, but is constantly being passed by because "It has fine print," etc., as are many others that are splendid types that ought to be read by everybody.

"Christiana Alberta's Father," by H. G. Wells, is the best book we have read this winter. The author about equally philosophizes and romanticizes and directs just as equally their interest for the reader. Timid, artistically and philosophically minded Mr. Preemby married after a whirlwind courtship, started by a sharp faced spectacled fema'e bumping into him with her unmanageable bicycle. Mr. Preemby led a miserable life of nags from his strong minded wife, together with the unpleasant job of running a laundrette which was his father-in-law's business and which he entered after his marriage. But the daughter, Christiana Alberta, disliked their mode of living as much as her father and was enough like her mother to exhibit an independent rebelliousness that made the home rather unpleasant until after Mrs. Preemby's death. Then Mr. Preemby and Christiana Alberta agreed to move to London where Mr. Preemby could feed his dreamy imagination on beauty while Christiana Alberta could seek adventure.

Here Mr. Wells indulges his fancy by implanting Plato's philosophy of every act being only a memory or a former existence in our Preemby's mind and so Mr. Preemby becomes his former self, Sargon the Great, intending to reorganize the world under his rule, with the spirit of brotherhood his main aim.

His adventures alone with the real love Christiana Alberta shows for him makes one interesting and appealing story, and Christiana Alberta's own story of her true parentage revealed at the last and her failure to be happy in her rebellion against the conventional fundamentals of well organized society make another story that arouses sympathy for the girl but gladness for the protection of conventions that must be respected.

One thing about Cleopatra, she didn't go around shooting defenseless men.—Durham Sun.

Pen Watson as Danny Maloney in "A Bachelor's Honeymoon" will keep you laughing from time the curtain goes up. Don't miss the funniest show ever played in Greenville. 9th-11

GROWING OLD TOO FAST?

Many Greenville Folks Feel Older and Slower Than They Should

Are you weak, tired, all worn-out? Do you feel years older than other folks of your age? Then look to your kidneys! The kidneys are the blood-filterers and if they weaken, the effect is quickly felt. You have constant backache, headaches, dizziness and urinary troubles. You feel lame stiff and achy—all played out. Don't wait! Use Doan's Pills—a stimulant diuretic to the kidneys. Read what this Greenville resident says: "T. R. Moore, retired farmer, 618 Evans St., says: 'I was troubled my kidneys didn't act as they should with a lameness in my back and should. I used Doan's Pills and they gave me splendid relief. I know from personal experience Doan's are just as represented.'"

ALMOST ELEVEN YEARS LATER, Mr. Moore added, "Time has not changed my opinion of Doan's Pills. They have never failed to give me good results."

Get, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Permit Granted For Causeway More-h'd-Beaufort

Wilmington, Feb. 9.—(AP)—A permit has been granted by the United States Board of Engineers to the State Highway Commission to construct a causeway from Morehead City to Beaufort. It was announced at the United States En-

gineers office here today. The bridge, which is to span New Port girls? See the big beauty chorus River where it empties into Bogue. "A Bachelor's Honeymoon" Sound, will be about 8,500 feet long. You will know you have the prettiest girl in the state. 9-11

America's Best Dressed Woman

Selects a Spring Wardrobe for AMERICA'S BEST DRESSED WOMEN

Each Garment Made of or Lined With the Celebrated Corticelli Silks

Wylie
IRENE CASTLE
CORTICELLI FASHIONS

WYLIE—Irene Castle keeps a keen eye in the direction of Paris, and here she has captured a favourite gesture of Madame la Mode. A cape swinging blythely at the back of one's frock becomes doubly smart when it falls in a cascade of exquisite lace, as in this delightfully feminine frock of "Corticelli" Frances Ann. Bound to make an enormous appeal to the woman to whom chic means much.

Once each year, Springtime makes its appearance, bringing with it a colourful, new aspect to all our surroundings. Nowhere is this more delightfully apparent than in the wardrobe of the fashionable woman to whom the first budding crocus is a sign that it is time to desert the monotonous of Winter and turn to those charming and refreshing Costumes with which Fashion honours the advent of the new season.

This Spring, for instance, the vogue will sparkle with a profusion of newties. The silhouette skilfully reflects the modernist in gracefully molded creations that permit perfect freedom of movement and action. Skirts are constantly swaying with infinite tiers and clusters of pleats. For decoration, these fluttering skirts turn to riotously embroidered pockets that are outtrivalled only by the magnificent vestees that have recently entrenched themselves. Gallant little Spanish boleros are making a gracious bow, and are being hailed with enthusiasm by "les fashionables." Short capes are in high favour and are a very integral part of one's Spring Costume. At the top of the mode, we find a bewildering array of necklines which is led by the

demure Eton. The V collar competes successfully with the roll collar ending in a tie that is merely a continuation of itself in long scarf ends.

Sashes tie saucily in front and float off below the hem, thus achieving the voguish uneven hem-line. Belts and sleeves are gay with buttons and unusually clever, novel buckles. The tale of sleeves is long drawn out, with its climax just above the cuff in the form of bright embroideries and piquant flares.

As for the tiny whatnots that make the mode intriguing, we find exquisite lace beruffled with mid-Victorian charm, clusters of scallops and half-shells in a colorful sea of embroidery, a shimmering touch of gold or silver in simple stitchings, pipings in a blaze of colour, and appliques of contrasting fabrics ad infinitum.

The smart woman chooses from this colossal treasure box of the vogue only those modish-qualities which she can wear to the best advantage—just as Irene Castle, America's Best-Dressed Woman, did when she selected her Spring wardrobe, represented in the February "Irene Castle-Corticelli Fashions," which augment the vogue most expertly through the use of the distinctive "Corticelli Silks."

Each Genuine "Irene Castle Model" has this label sewed into the garment.

Rolande
IRENE CASTLE
CORTICELLI FASHIONS

ROLANDE—Irene Castle wore this youthful "Corticelli" Crepe Ensemble Frock on a recent motor tour. Everywhere she went, a great deal of attention was centered on the unusual design of her Frock in which the scallop motif so voguish just now is charmingly apparent on vestee, pockets, and the gracefully beruffled cuffs. A Frock that need but be shown to completely capture the fancy of the smart woman.

Jasmin
IRENE CASTLE
CORTICELLI FASHIONS

JASMIN—When Irene Castle attended the Commencement Exercises of a well-known college, several weeks ago, she showed her rare good style judgment by wearing this demure "Corticelli" Satin Sa-on Coat delightfully reminiscent of student days at Oxford. The eyes of more than one graduate present wandered to the rambling motif in gold and silver stitching that produces a charming, quilted effect, and many resolves were surreptitiously made to include such a coat in the Spring wardrobe.

Romiette
IRENE CASTLE
CORTICELLI FASHIONS

ROMIETTE—Just before she left for the South, Irene Castle enjoyed one of the popular hockey games at Madison Square Garden, New York. Her arrival in this gallant Coat with its jaunty cape artfully manoeuvring into loose, flowing sleeves created a furore. Every fashionable woman present made a mental note of the double pockets slit into the fabric and the "Corticelli" Crepe-Eldora lining that appeared when Miss Castle slipped her Coat over the back of her chair. A smart finale to any Spring costume!

Jessa
IRENE CASTLE
CORTICELLI FASHIONS

JESSA—It has been frequently said of Irene Castle: "She knows how to wear her clothes." What is meant is easily perceptible when Miss Castle appears in this ravishing Sport Coat. A sand weasel-fur collar may be buckled high or worn low and two capacious pockets are supplemented by miniature pouchlets designed to hold those alluring vanities so essential to Mademoiselle. It is predicted that this Coat sponsored by "America's Best-Dressed Woman" will be taken up enthusiastically this Spring by "America's Best-Dressed Women." Lined with Corticelli Crepe Eldora.

Whitson
IRENE CASTLE
CORTICELLI FASHIONS

WHITSON—For the informal dance, Irene Castle chooses this delectable Frock of "Corticelli" Francis Ann with its rhythmical tiers of pleats and its front panel of exquisite embroidery extending from a modish V neckline to the dashing little bow that ties at the waist. The Spring season will undoubtedly be gayer for the frequent appearance of this adorable Frock at the many swagger retreats of the smart set.

Royce
IRENE CASTLE
CORTICELLI FASHIONS

ROYCE—For the afternoon promenade, Irene Castle always insists on the very smartest of frocks, as, for instance, this "Corticelli" Crepe Ensemble Model that is the epitome of chic. The voguish bolero is accented by the same colorful embroidery that trims two pert little pockets. An overskirt gathered into side-pleats is charmingly coquettish.

Romney
IRENE CASTLE
CORTICELLI FASHIONS

ROMNEY—Among the eager participants in a much heralded Treasure Hunt, Irene Castle was the gayest pirate of all in this colourful "Corticelli" Francis Ann Frock that boasts two riotous little pockets perched above a rippling skirt of pleats. The boyish collar and jabot added a bright note to the vivacious gathering. Especially designed for the vivid personality of the American Woman of Fashion.

Monza
IRENE CASTLE
CORTICELLI FASHIONS

MONZA—Irene Castle was an interested spectator at a much-talked-about Fashion Pageant not so long ago. Although she did not actively participate, everybody present agreed that she was a brilliant exponent of the Spring Fashions of 1926 in this "Corticelli" Francis Ann Frock with its riotously embroidered vest and gay, Spanish bolero. The abridged pleated skirt which completes the chic of this Dress is pert beyond description.

Margot
IRENE CASTLE
CORTICELLI FASHIONS

MARGOT—This youthful, little Afternoon Frock of "Corticelli" Crepe Ensemble is entirely indicative of the spirit and personality of Irene Castle. Demure Eton collar; gleaming buttons and button-holes; smart, flaring cuffs; slim little belt—they all contribute their silvery twinkle to its shimmering beauty. A trim Frock that is flattering to most any type.

Wylma
IRENE CASTLE
CORTICELLI FASHIONS

WYLMA—When Irene Castle packed her trunks for the Southland, one of the frocks that she tucked away with great pride was this piquant little model in which the soft sheen of "Corticelli" Francis Ann and the delicate beauty of scroll stitching in gold and silver are ingeniously combined. A pleated overskirt fluttering in a gay circle just above the hem is one of the newest of the intriguing details that are always so eminent in the distinguished wardrobe of "America's Best-Dressed Woman."

Ming
IRENE CASTLE
CORTICELLI FASHIONS

MING—"Right about face," commands the vogue, and so Irene Castle, ever alert to the trend of fashion, concentrates her attention at the back of this "Corticelli" Crepe Ensemble Frock. The unique cluster of pleats that flare with gusto toward the hem and the buckle with its dashing, buccanearish air are a source of great delight to Miss Castle, just as they will be to her many modish followers throughout the country.

Daily News Letter
Gossip of Staff Correspondents at World Centers of Population.

By F. A. WRAY, I. N. S. Staff Correspondent.
London, Feb. 9.—The agitation against American apples is increasing throughout England. In every big center in the country the police are taking samples of American apples in view of the possibility of arsenical poisoning owing to the use of sprays by the growers to kill parasites. Samples taken in Port Talbot show 1-54th of a grain to the pound instead of 1-100th which is permitted. A police warning has been issued to sellers.

The Middlesex County Council has now placed "Newtowns" and "Newtown Ormonds" on the banned list of foodstuffs on the ground of their being "dangerously contaminated with arsenic." Other municipalities are issuing warnings for apple buyers to wash carefully all foreign apples before eating.

A month ago a number of fruit shops at Hapstead were heavily fined because they were selling "Jonathans" which had been sprayed with arsenic. Now the prohibition seems about to be extended to all American apples imported into England. English apple-growers are naturally delighted.

All "City" dinners in Dundee are to be dry henceforth.

At the last meeting of the Town Council, on the motion of the Lord Provost, it was resolved that in future no alcoholic liquor be provided by the Corporation at its public functions.

Glasgow and most of the other big centers in Scotland have already gone dry as far as city entertainments are concerned. Edinburgh remains the last municipality in Scotland where wines, etc., are served at public functions.

Government employees are to work eight hours a day instead of seven, according to an order just issued by the Treasury in the interest of economy.

This will mean a considerable diminution of the staffs in many departments. The order receives the enthusiastic support of the general public, but it is being met with fierce opposition in Whitehall.

"The eight hour day is a discredited and thrice-defeated device," says William J. Brown, secretary of the Civil Servants' Association.

"It means a reduction in personnel and consequently a reduction in the higher posts; and this means disappointment and financial loss to men and women who, after years of faithful service, are expecting promotion.

"There is no more peace-loving avocation than the Civil Service. Its whole tradition, training and environment make it so; but it will fight this business, involving as it will the breaking of contracts and agreement, to the bitter end."

The Norfolk authorities are trying to oust the Hermit of Gissing from his lair, a small building of brick and stone, where he has lived undisturbed for more than a quarter of a century.

The Hermit, whose name is Edwin John Colman, has declined to be disturbed and has appealed to the townspeople to let him stay. He is said to have not had his clothes off for twenty-six years.

Another thing about these balloon trousers. A lad can adjust his sock-sustainers without the necessity of disrobing.—Durham Sun.

37 Dist. Rotary Conference to Be Held in Durham

Durham, Feb. 9.—Extensive preparations are being made by the members of the Durham Rotary Club for entertaining the 37th District Rotary Conference here April 13-14, when approximately 1,500 Rotarians and many ladies will be in attendance.

The business sessions of the conference will be held in the new city auditorium, completed and opened on February 3. This auditorium will provide a comfortable and attractive meeting place, seating 2,000 people. The thoroughly modern Washington Duke Hotel, with 300 rooms, completed last fall, will be headquarters for the visiting Rotarians, many of whom will stop at the Malbourne Hotel.

District Governor Charles J. Smith, of Salem, Virginia, president of Roanoke College, has informed C. C. Council, chairman of the conference committee, that at least three international officers will be present and that the program will be completed soon. Associated with Mr. Council in making local arrangements are Dr. W. H. Wannamaker, president of the Durham Club, and M. E. Newsom, former district governor, in addition to a dozen committees having charge of various phases of the conference activities.

Fitting into the business program will be golf tournaments, trips over the Duke University grounds, on which are being started buildings to cost upwards of \$20,000,000, as a result of the endowment left by the late James B. Duke, and to the University of North Carolina, ten miles away, which is the oldest and one of the most historic state universities in the country.

Ladies accompanying the Rotarians will be extensively entertained, sharing with the men the trips and golf activities, in addition to a tea at the Forest Hill Club, receptions and other sight-seeing tours.

Presidents and secretaries of the 59 clubs in the district, comprising eastern North Carolina, and all of Virginia, write Chairman Council that their clubs will be well represented, some with half a dozen, other with larger groups of members.

Beans and Corn Staple Foods of Mound Builders

Cleveland, O. Feb. 9.—(AP)—The modern scientific dietitian would have had a great opportunity to practice his vocation among the mound builders of prehistoric times. Beans and corn were the only things about which they knew much.

Habits of the pre-historic peoples are described at length in a new history compiled by Harold I. Madison, curator of Education of Cleveland Museum of Natural History. Mr. Madison said there is little doubt that the mound builders were a race of American Indians.

Corn and beans were the staple foods of the mound builders, which they planted and cultivated in their gardens. They knew nothing of wheat, milk and butter. The men cleared a piece of woodland by cutting down the trees with stone axes, and burning the brush and debris, laying the ashes to fertilize the soil. The women then planted corn and beans in rows among the tree stumps. The larger was augmented by fruits, nuts and acorns, and by game and fish.

Stubborn Coughs Quickly Stopped This New Way

It is often surprising how the most persistent, hacking cough that not only robs you of strength and sleep, but often leads to more serious trouble, yields quickly to a simple but wonderfully effective treatment.

This treatment is based on the prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful at bed time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. So with the cause removed, coughing stops quickly, your sleep undisturbed, and the entire cough condition soon disappears.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for
