MEDICAL SOCIETY HELD SPLENDID MEET LAST NIGHT

Program Featured By Several Short Addresses and Papers; Reports Show Progress Along All Lines

The Pitt County Medical Society held a delightful meeting in the basement of the Memorial Baptist Church last evening. An interesting program was enjoyed, followed by a chicken dinner, served by a circle of the Aid Society of the church. Drs. Joe Smith and Jennis Morrill were hosts.

The meeting was presided over by the president Dr. L. C. Skinner, and the following members responded to roll call, Drs. Garretton, Dickinson, Basnight, Hemingway, Laughinghouse, Dixon, Frizelle, Johnson, William Pace, Greene, Smith, Outland, Wooten, Ellen, Nobles, Dawson, Smith, Hooker and Schultz.

Dr. H. Frederick Jones, pastor of the Memorial Baptist Church, was a guest of the society and he made a most interesting talk.

Dr. J. S. Hooker, of Farmville, who recently joined the society, was introduced, and in a few appropriate words, expressed his pleasure at being a member of such a live and active organization.

After some discussion it was decided that the Medical Society would not join the Merchants' Association in collecting delinquent accounts.

The committee for the Tri-County Tuberculosis hospital made a report on what has been accomplished, and reported that other plans are yet to be made before any definite information can be given out.

Dr. Grady Dixon, of Ayden, read an interesting paper on "Ulcers Below the Knees". The paper was discussed by Drs. Dickinson and Smith.

Dr. K. B. Pace read a paper on "Acidosis," and this was discussed by several members.

Dr. Dickinson reported an unusual case of stone in the kidney which has come under his observation.

The March meeting will be held in this city with Drs. Dixon and Massey, hosts. Papers by Drs. Garrington and Massey will feature the program.

NATION OBSERVES 117 BIRTHDAY OF ABRAHAM LINCOLN

Commemorative Speeches and Services Held Throughout Country; Texas for First Time, Observes Event

Chicago, Feb. 12.—(AP)—Abraham Lincoln was in the minds of many throughout the nation today on the 117th anniversary of his birth. Lincoln, the emancipator, President and Statesman, was honored in commemorative speeches and services, nor were these confined to the section which gave him birth. Texas, for the first time in its history, closed its state house at the request of Governor Miriam A. Ferguson, to observe his birthday.

But it was Lincoln as "honest Abe"—the man, the citizen, and neighbor—who was portrayed in stories of life and character, told and retold by those still living who had known him.

Illinois, which gave him to the nation, furnished many of those. That the word at large might hear, Station WGN, Chicago, arranged to get all who had seen him, or had shaken his hand, before the microphone to participate today in a Lincoln Radio Service.

Deportation of Aliens Sought
Chicago, Feb. 12.—(AP)—Deportation of aliens, who figure as gun men and gangsters in rum wars and factional terrorism will be sought by local officers working with Federal authorities.

Protests of jurymen that they feared reprisals if they served and voted conviction in the trial of John Scallisi and Albert Andelmi, members of the Genna gang, who already have been convicted of one killing, brought about the action.

Secretary of Labor, Davis, who instructed the immigration commission her to make a survey of gangsters and to deport all those subject to the immigration law.

Veteran Naval Monitor Is To Be Floating Hostelry
Charleston, S. C., Feb. 12.—(AP)—Built as a floating fortress, the navy monitor Amphitrite is destined to finish her days as a floating hostelry.

The one-time "goddess of the sea" is now in dry dock being transformed into a fully equipped hotel which will be used to supplement the crowded housing facilities of Florida.

It is understood the sea-going hotel will be established off Miami. A fleet of launches will be used to transport guests to and from the hotel.

In the hull of the ship, provision has been made for a balcony, dining room, dance hall, barber shop and quarters for the crew. In the three stories being erected will be accommodations for 200 guests.

Many Clubbed in Police-Striker Clash

Passaic, N. J. police used their clubs on the heads of striking mill workers when they tried to parade to Clifton, N. J. where there are many other mills. The strikers fought back viciously. Inset shows a woman striker who put up such a fight it took three policemen to arrest her.

JAKE SKINNER ATTAINS RANK OF EAGLE SCOUT

Qualifies As Greenville's First Eagle Scout, Highest Rank a Scout May Obtain

Jake Skinner, Senior Patrol Leader of Troop No. 3 qualified as Greenville's first Eagle Scout, which is the highest rank a Scout may attain, at the Court of Honor held in the local Scout headquarters yesterday afternoon.

Sam Underwood, also of Troop No. 3, was advanced to Star Scout rank and fifty Merit Badges were awarded a'so.

To attain Eagle rank a Scout must be a First Class Scout in good standing and must pass examinations in First Aid, Athletics or Physical Development, Personal Health, Public Health, Life Saving or Pioneering, Cooking, Camping, Civics, Bird Study, Pathfinding and any eleven subjects he may select from the Merit Badge program.

Eagle Scout Skinner is the sixty-sixth North Carolina boy and the second boy in the Pamlico Council to reach Eagle rank. Ernest Huffines, of Troop No. 1, Farmville, having qualified as an Eagle Scout early last year.

Merit Badges were awarded as follows: Sam Underwood, in Pathfinding, Civics, Electricity, Life Saving and Swimming; Murray House, in Bird Study, Handicraft, Civics, Electricity, and Pathfinding; Ray O'Brian in Athletics, Bird Study, Pathfinding, First Aid, Electricity, Civics; Billy Brown, in Interpreting; Zack Vandyke, in Cycling, Carpentry, Conservation, Safety First, Electricity, Handicraft, Cooking, Life Saving, First Aid to Animals, First Aid, Public Health and Bird Study; Edward Thomas, in Pioneering, Electricity, Cooking, Pathfinding, Bird Study, Conservation, Hoover Taft, Electricity, Safety First, Cooking and Civics; Jake Skinner, Athletics, Bird Study, Safety First, Electricity, Cooking, First Aid, Poultry Keeping, Handicraft, Interpreting, Pathfinding, Carpentry, and Camping.

Dr. C. L. Outland acted as chairman of the court, assisted by K. T. Futrelle, Jas. A. Keech and Scout Executive J. H. Wilcox.

TODAY

A Mouthful of Teeth. Honor to Spain. Flying Maps. Gorilla's Club Feet. ARTHUR BRISBANE

Trouble may come of Mussolini's threat to advance Italy's frontier further into German territory, his promise to make the Germans feel "a whole mouthful of teeth for a tooth."

Stresemann, replied to Mussolini in a speech before the Reichstag yesterday, earnestly and solemnly. His audience was worked up to a high pitch by a serious effort from a supposedly friendly neighbor.

Mussolini fortunately doesn't want any war with Germany now. Too expensive. The League of Nations wouldn't allow Germany to make war if she wanted to for peace with financial recovery is even more important than the irritation that other nations feel toward Mussolini's powerful government.

The Italian-German situation will be taken before the League of Nations, at the request of the Tyrolean Diet, and the League will solemnly discuss it.

In Mussolini's case this doesn't mean much. When the League tried to settle the quarrel between Italy and Greece, Mussolini went ahead, seized Corfu, demanded and got an enormous cash indemnity, announcing that he "didn't accept orders from the League."

It is a troubled situation over there and if President Coolidge can keep the United States from going any farther into it, the United States will be much obliged.

GREAT PROGRESS MADE LAST YEAR BY INDUSTRIES

Greatest Growth Experienced in Building Industry; Record Breaker From Standpoint Industrial Production

Washington, Feb. 12.—(AP)—The year 1925 stands as a record-breaker from the standpoint of industrial production, the Federal Reserve Board declared today in its periodic survey of business conditions. Trade and industrial activities generally, the board said, were in considerable larger volume than in 1924, and production as a whole was in larger volume than any previous year.

The greatest growth was in the building industry, the board found with production of commodities used in construction and equipment of new buildings standing out above all others.

Notwithstanding the increased activities in almost every line of commercial effort, the board declared there had been a correspondingly increase in the use of bank credit for commercial industrial or agricultural purposes. There was an important growth in credit in the demands for loans or securities, and this, it was said, may have been a factor in advancing money rates from the low levels of 1924.

It is a troubled situation over there and if President Coolidge can keep the United States from going any farther into it, the United States will be much obliged.

Early yesterday morning Raymond Franco, the "Columbus of the Air" left Rio De Janeiro for Buenos Ayres, on the last "leg" of his flight from Spain to South America.

Only recently, Lord Northcliffe in New York told how he had offered \$50,000 to anybody that would fly across the English Channel. Boys twelve years old, and girls, too, could win that prize now, and flying across the Atlantic is becoming commonplace.

Flying around the earth will soon be a matter of course, and regular family trips through the air from New York to California, will replace parlor car travel.

GREENVILLE HIGHS DEFEAT FARMVILLE BY SCORE 15 TO 11

First of the Elimination Series Played in Ayden, A Neutral Court

The basket ball team of the Greenville High School defeated Farmville last night 15 to 11. The game was the first of the elimination series of group two in the eastern division for the State championship, and was played in Ayden it being the wishes of both quints that they meet on a neutral court.

The game was featured by close guarding on the part of both teams amid the over anxiousness of the individual players resulted in twenty fouls being called, eleven being registered against Greenville and nine on their opponents. In the first two periods of play, the game was interesting and the players used only clean tactics in their efforts for supremacy, but the scene shifted in the third and fourth quarters when roughness appeared the principal objective, especially was this true of the Farmville boys in resorting to such some of the locals suffered injuries which curtailed their speed to a noticeable degree.

Farmville immediately took advantage of the occasion and exerted every possible means to overcome the lead Greenville had rung up, but they were able only to score eight points which was not enough. Holmes, for Farmville, having had four fouls called on him, was out of the game in the third period.

Fred Forbes, of the locals was high scorer with five points, one field shot and three baskets from the foul line out of four attempts. Brown and Curry were responsible for four points each, and one of the features of the contest was a field goal by Curry from the center of the court which was the first point made by Greenville.

Hinson, for Farmville, led his team mates with four points. The next game of the elimination series will be played in Kinston on Tuesday night of next week when the locals will meet the winner of the Maysville-Oriental game which will be played tonight.

Last night's victory gives Greenville a perfect score for the reason, having won eight games in as many played, and none of their opponents have scored more than sixteen points on them in any of the contests.

The following shows the scoring of last night's game:
Greenville: F. Forbes (5), Hinson (4), West (2)
Farmville: Joyner (0)
Right Forward: F. Forbes (5), Hinson (4)
Left Forward: Brown (4), Smith (2)
Center: Curry (4), Holmes (1)
Right Guard: Jones (0), Lewis (2)

Gives Up Hope of Obtaining Vote Tax Bill Today

Washington, Feb. 12.—(AP)—Hope of obtaining a final vote on the tax bill at today's session was given up by Senate leaders because of the unexpectedly long time required in considering amendments.

MINERS HAVE AGREED PLAN ENDING STRIKE

Head Will Be Examined From a Pathological Standpoint by Experts From Colleges

Chicago, Feb. 12.—(AP)—Chicago scientists have admitted that the head of Francisco Villa, described as "the greatest criminal of the age" is on its way to Chicago for examination by experts.

The disappearance of Villa's head at the bandit chieftain's grave near Parru, Mexico, the night of February 5th, was followed by a story published in Mexico City, that an eccentric Chicago millionaire interested in criminology, had financed the theft.

The Chicago millionaire has not been identified, but Dr. Crandall F. Scott, prominent Chicago specialist, has announced that he expected the head would arrive here within a few days.

The head will be examined from a pathological standpoint by experts from Universities and colleges," he said, but stated he was not at liberty to give any other information and refused to discuss whether any Chicagoan had been involved in the affair.

Another Chicagoan, Dr. J. W. Hall, noted alienist and criminologist, also expressed interest, admitting there had been considerable talk of getting hold of Villa's skull and brain for study.

"We want to see what the bumps are. I suppose Villa was the greatest criminal of this age."

League of Nations Council In Special Session Today

Geneva, Feb. 12.—(AP)—The League of Nations council at its special session today convened an extraordinary League assembly for March 8th to act on Germany's application for membership.

France will insist that the disarmament preparatory commission meet in a place which will insure the participation of Soviet Russia, newspaper men were told today by the French Ambassador, Jean Hennessy, prior to the opening of the special session of the League of Nations.

Russia, angered over the assassination of the Soviet envoy, Varovsky, at Lausanne in 1923, has refused to attend any meeting on Swiss soil.

Controversy Settled With Contract for Five Years With the Wages to Continue at Present Level; Negotiations Can Be Reopened if Either Side Desires Such

Philadelphia, Feb. 12.—(AP)—Final agreement for ending the anthracite strike was reached today at 1:47 p. m. The following official announcement was made: "At a meeting of the anthracite conference the tentative agreement was adopted. This agreement will be submitted to the tri-district convention for approval after which a contract will be formally executed by both parties."

The convention will be held in Scranton beginning Tuesday morning. Briefly, the terms are as follows: "Work to be resumed at once under the old contract subject to certain modifications, and to remain in effect until August 31, 1930. Once a year each party may, after January 1, 1927, propose modification in the wage scale."

"A board is provided for which shall have obligated within 90 days after appointment to arrive at a decision at all issues in connection with wage adjustment."

"To that end the board shall formulate its own rules and methods of procedure and may enlarge the board to an odd number in which even a majority vote shall be binding," read the agreement.

Philadelphia, Feb. 12.—(AP)—The anthracite coal strike was virtually settled here today when announcement was made at one o'clock that the proposition of the operators to return to work immediately in a five year agreement had been formally approved by the miners.

Harrisburg, Pa., Feb. 12.—(AP)—Governor Pinchot announced today that the Anthracite strike has been settled. When the announcement was made the miners and operators scales committee were still in separate sessions in Philadelphia with no indication that a settlement had been reached.

Washington, Feb. 12.—(AP)—Governor Pinchot's announcement in Harrisburg that the coal strike had been settled, was declared by Secretary Davis, of the Labor Department, to be "entirely correct."

"The announcement that the strike is settled is entirely correct," said Secretary Davis, "and since it seems to have become a public matter we can say something about its terms."

"The contract is for five years with wages to continue at their present level and with a provision for an opening of negotiations within the industry whenever either side desires such reopening."

"There is also some arrangement for the collecting of dues for the union, the exact details of which is not clear in my memory."

"As to the method by which an agreement on the terms of the wage scale is to be brought about should the industrial representatives fail among themselves to agree, I cannot say at this time. But, so to speak, the issue of arbitration seems to have been laid aside."

BUILDING COMMITTEE STUDIES PRESENT NEEDS OF TEACHERS COLLEGE

The building committee of East Carolina Teachers College, composed of Messrs. F. C. Harding, L. W. Tucker, D. S. Boykin and Robert H. Wright, met yesterday for the purpose of making a study of the building needs of the college preparatory to a report they are to make to the board of trustees of the college at its next meeting.

This committee was instructed at the last meeting of the board of trustees to go into a full study of the needs of the college and make a written report of the college needs as to buildings and equipment. This is the first meeting they have held for this purpose. They spent yesterday going over the college from building to building with a view to getting information for the report. The report will probably be made about the middle of next month.

NO "OVER-POPULATION"

Many times in recorded
history the populations of
countries have overgrown
their boundaries and famine
or territorial conquests have
followed but the time is still
to come when the whole
world will be over-populated.

At those times in the past
when nations overflowed
their boundaries it was not
merely coincidental that
famines, plagues or wars occurred
to deplete the population
and relieve the situation.

What the political economists
particularly fear is that
civilization is depriving
itself of its former quite
efficient safety valves.

The war remedy may also
be denied that future generation
which is to experience
the situation of an
overcrowded Earth.

Professor Fairchild of
New York University suggests
that man might breed
for smaller size to reduce
the consumption of food.

For the assurance of the
present generation, however,
let it be remembered that a
relatively small part of the
inhabitable portion of the
earth is populated, that if
need be, many nations could
live on their present waste
and that science with its
synthetic foods, substitutes
for natural resources and
other creations and inventions,
is already crossing the bridge.

SKINNY MEN GLAD

"Doctors and good pharmacists
know that Cod Liver Oil is full of
vitamins that make flesh, create
appetite, build up the power to
resist disease and puts good solid
flesh on skinny men and women.
But it's horrible tasting stuff

Ten-Acre Tobacco Crop Brings \$6,000
(Clipping from the Raleigh News & Observer)

"Kinston, N. C., Nov. 12th—A ten-acre crop of tobacco on the farm
of J. E. Mumford, of Pitt County, has paid him more than \$6,000 this fall. He
has received more than \$600 per acre for the production in spite of the
early season slump. Most of the \$6,000 represented profit to Mumford, ac-
cording to warehouse acquaintances here, since he is a "live at home" grow-
er, producing his own pork, grain and other necessities."

Chas. W. Priddy & Co., Inc.
Norfolk, Va.
Gentlemen:—

I made ten (10) acres
of tobacco this year, on
which I used your VELVET
TOBACCO GROWER, ap-
plied at the rate of 1000
pounds per acre.
I harvested from this 10
acres of land 12,500 lbs. of
tobacco, which is an average
of \$1250 pounds per
acre.
I have just finished sell-
ing this tobacco, and it
brought me in a net return
of \$6,004.00; this is an av-
erage of a little over \$600.00 per acre.
I attribute the satisfactory prices received from
my tobacco crop to its fine quality, and I attribute
this fine quality in a great measure to the Fertilizer
I used, namely VELVET TOBACCO GROWER,
which, in view of my experience, I consider the
best Tobacco Fertilizer sold in this community.
This Fertilizer was bought from MESSRS.

Eskimos Save Fuel Supply Which Is Threatened

Seattle, Wash., Feb. 12.—(AP)—A desperate fight by Eskimos to save a winter's supply of coal from elements has been reported by W. A. Newhall, pastor of Point Stinson in the vicinity of Point Barrow, northernmost tip of Alaska.

The fuel had been landed on the ship from a supply ship when a storm, described as the worst in the area, broke. Rain accompanied

by snow and hail fell, and wind drove sand and fine pebbles before it. The rising sea soon was lapping against the mammoth pile of sacked coal.

Without waiting for suggestions or orders, the natives, men, women and children fell to work moving the heavy bags to safety. For four hours, until well past midnight the labor continued. The men carried the sacks on their backs, while the women and children tugged and dragged them through the shifting sand until the more than a hundred tons of coal had been placed out of reach of the waves.

Lovers of Robert Burns in Atlanta Have Own "Hut"

Atlanta, Ga., Feb. 12.—(AP)—The memory of Scotland's famous bard, Robert Burns, is commemorated here by a club formed of admirers and lovers of the great Scotch poet.

An exact replica of the cottage at Ayr in which Burns lived, was built by the club where it holds monthly literary meetings. The cottage walls are covered with ivy brought from Scotland. The interior, plainly furnished to show how Burns lived, contains numerous relics, mementos and pictures.

The club first came into existence in 1896.

Auction of Britwell Court Books Set For Next Month

London, Feb. 12.—(AP)—Another section of the famous Britwell Court Library will be offered at auction in March and further competition between American, Continental and British book buyers is expected when the 1,000 volumes now being catalogued are put up in the sale room.

Sales of books from this library have been going on during the past 14 years, and the total so far realized is between \$500,000 and \$600,000.

Among the books to be offered during three days beginning March 15, are said to be volumes not to be found in any other private collection in the world.

Radio College Overcoming Many Educational Problems

Iowa City, Ia., Feb. 11.—(AP)—Information at the University of Iowa reveals that almost any kind of an obstacle to education can be overcome by radio.

Married women with families to look after are among those enrolled in the university's "college of the air" which gives regular university credit in a number of subjects, taught via radio.

A doctor at Stacyville, Ia., who got behind in his studies while working 18 hours a day during a scarlet fever epidemic, has been allowed to make up his work over the air. A woman who had not been in school since 1902 and who later was confined to a hospital as a result of an automobile accident, was enabled to carry on her work during the semester just closed.

In all, about ninety persons were registered for the semester. About half of the number were women, some of which are more than 50 years old.

Another thing some of us can't understand is how the reformers know the magazines are so dirty.

"I" Favorite Word Primary Children

Chicago, Feb. 12.—(AP)—A study of the vocabulary of the child of five, in an attempt to work out a basic work list for primers, shows the word "I" is by far the most frequent word used. It is shown by a survey of the National Kindergarten and Elementary college of Chicago.

A record of the conversations in thirty kindergartens in the United States and Canada, during a period of four weeks, and tabulation of the results, show the word "I" was used 1,044 times while "the" which comes second, was used only 616 times. In the list of the 1,000 most commonly used words.

Tri-State Medical Ass'n. to Meet in Fayetteville 16th

Fayetteville, Feb. 12.—(AP)—Physicians from three states—Virginia and the two Carolinas—are expected to gather here on February 16 for the twenty-eighth annual session of the Tri-State Medical Association. The meeting will continue through February 17.

The two days are to be devoted almost exclusively to business sessions and technical discussion, and officers of the organization have asked that as little time as possible be given to entertainment.

At a business session to be held on Tuesday afternoon, a residency for the ensuing year will be elected from North Carolina. Vice-presidents will be chosen, one from each of the Carolinas and one from Virginia, and a secretary-treasurer will be chosen from one of the three states.

The 1927 convention will be held at some point in South Carolina, and on Wednesday afternoon the executive committee will receive invitations from South Carolina towns for the meeting next year.

The entertainment committee is composed of the Cumberland County Medical Association and medical officers at Fort Bragg, nine miles from Fayetteville. Visiting doctors will be invited to use the golf course of the Fayetteville country club, and will be given an special invitation to visit Fort Bragg, where the commanding officer, General A. J. Bowley, will welcome them.

One feature of the program will be the annual reunion dinner of former presidents of the association, which will be held on Tuesday evening.

Mothers and nurses are being invited to attend the sessions of the convention, it being felt that the discussions of medical knowledge among mothers is highly desirable.

Called to order by Dr. T. M. West, president of the Cumberland County Medical Association, at 9:30 o'clock on Tuesday morning the association will proceed with papers and discussions, following the invocation by Rev. J. S. Snyder, of the First Baptist Church.

A large number of papers on technical subjects will be read, and many of them illustrated by lantern slides. The reading of papers will be interspersed with discussions.

Movie Title Is Not Important During Filming

Hollywood, Calif., Feb. 12.—(AP)—Motion picture productions and the title under which they are shown occupy positions with relation to each other during the progress of development very similar to the proverbial cart and horse.

Sometimes a picture is produced with a definite "showing" title to start with, but often—perhaps in a majority of cases—the picture is produced before the ultimate name for it is chosen. Thus the horse, in this case the title, is found to be in the rear of its own vehicle. Most of the studios in this city of pictures take the view that the title of a picture is the important part of it. If the name of a play does not capture the public interest when it blazes out in electric signs, the play itself enters the race for popularity under a big handicap. Of course, say the wise

SCHOOL DAYS

By DWIC

ones, there is a large percentage of movie fans who follow their particular artist heroes or heroines, but they admit that the great bulk of the public does not specialize in artists. Therefore the title ascends to the important position of drawing or failing to draw this unknown percentage.

In the first ten years of active motion picture production, studio authorities say, titles were seldom written to fit the actual story, but solely with a view of lengthening the lines in front of the box offices. The public soon learned they were being deceived in many cases, and a clamor went up for more truthful names.

Now that so many stars have been developed in all classes of screen shows the studios rely on producers' reputations and the names of the stars in the cast, and write the titles to conform more closely to the story of the play.

No separate department of the studio is charged with the responsibility of determining the final title for a production. There are no judges or committees. Instead, suggestions are taken from department heads. The scenario departments naturally are more active in this work, but a vote usually is taken on various suggestions, to be passed upon by the highest authorities, before finally being decided.

One of the largest studios of Hollywood cites a picture started under one title—incidentally, the name of the stage play. When the picture reached a point where it was changed to one considered more appropriate to its actual theme. Under the impetus of the second name the picture progressed until three days before the legend, "The End" was in order. Then a third title was decided on and under this, the picture was shown.

Says Many Dunces of Today Will Be Great in Future

London, Feb. 12.—(AP)—Charles Darwin and Sir Isaac Newton were backward children. It is pointed out by Dr. A. F. Hredgold, a specialist, who contends that many school dunces of today will become great men.

"The dull boy who is made to wear the fool's cap in classes in the future will be able to beguile the tedium of his penance by reflecting that his stupidity may some day make him famous," declared the physician, addressing the Women's Sanitary Inspectors at Bedford College.

The backwardness of Newton and Darwin, he said, was due to late development of their mental powers. His studies have convinced him that the boy who is a dunce, and who has not much intellect or capacity for learning, often has a large amount of common sense and intelligence tucked away under his scalp, and gets on in life better than the scholarship boy.

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of authority conferred upon us in a deed of trust executed by Noah Moore and wife, Delia Moore, on the 27th day of December, 1922, and recorded in Book T-14, page 96, we will on Saturday, the 27th day of February, 1926, at 12 o'clock, noon, at the court house door in Greenville, sell at public auction for cash, to the highest bidder, the following land, to-wit:

bidder, the following land, to-wit: All of those certain tracts of land in said County and State, described as follows: Being tracts Nos. 1 and 4, situate near the Town of Pactolus in Pactolus Township, on Plat of property formerly owned by L. L. James and now known as sub-division of the W. H. Crawford farm as surveyed and platted by Harding and Rivers, which said map or plat is recorded in Map Book 2, page 2 of the Public Registry of Pitt County, reference to said map being hereby made for a more perfect description. Said Tract No. 1 contains 74.78 acres and said Tract No. 4 contains 23.40 acres.

All of those certain tracts of land in the County of Pitt, State of North Carolina, described as follows: Being tracts Nos. 2 and 3, situate near the town of Pactolus on plat of property formerly owned by W. H. Crawford, and Allen Crawford and now known as sub-division of the W. H. Crawford farm, as surveyed and platted by Harding and Rivers, which said plat or map is recorded in Map Book 2, at page 2 of the Public Registry of Pitt County, reference to said Map being hereby made for a more perfect description. Said tract No. 2 contains 27.68 acres and tract No. 3 contains 26.20 acres.

Beginning at a stake on Grindle Creek, the N. W. Corner of W. H. Crawford farm as shown by Map recorded in Map Book 2, page 2 of the Register of Deeds office of Pitt County; thence with chopped line S. 54 1/2 W. 45 1/2 ft. to a stake, R. D. Harrington's corner; thence S. 83 30 E. 110 1/2 ft. to a stake, being the S. W. corner of lot No. 5; thence N. 5 45 E. 2830 feet to a stake on the public road leading to Greenville; thence along and with the Public Road in a Southeastwardly direction to a stake, the S.  Francis Bacon wrote, "It hath been an opinion that the French are wiser than they seem, and the Spaniards seem wiser than they are." In flying at least, the Spaniards seem to be wise as any race. They know how to make flying machines that will last.

Compare this achievement of the Spanish flier with the ridiculous attempt of our navy, preparing three big machines, especially for the short trip from California to Hawaii, and making a miserable one hundred per cent failure of the enterprise.

We might send a few of our rotund navy gentlemen to study in Spain.

The royal air force of Canada, and the topographical survey, co-operating, have photographed and mapped more than forty seven thousand square miles of wild Canadian territory during the past season.

That is one more use for the flying machine hitherto used to plant seeds of trees on denuded mountain tops, spray out forest fires, spray cotton fields killing boll weevil, watching bootleggers on land and sea, carrying air mail, fast express and passengers.

The word "Canada" means "the house" in Indian language. The old Indians that lived in that big "house" would not, in five hundred years of life, have mapped out the territory that a man in the air can see and photograph accurately in a few days' flying.

The Mississippi House of Representatives, forbids teaching in any state school, that men come from lower animals.

That is satisfactory, since the majority wanted it.

What about teaching embryology in those schools? You can see with your own eyes in the dissecting room, that man in the nine months preceding his birth passes through many stages of animal development, beginning with a simple combination of two cells. Embryology might shake the arguments of those that declare against evolution. It is starting to find that every man in the prenatal stage has two club feet, which change before birth into normal feet, and to learn that every gorilla goes through life with two club feet. Perhaps that is arranged by Satan, just to puzzle us.

Cardinal O'Connell, one of the ablest, most powerful princes of the Catholic Church, says compulsory prohibition is "flatly opposed to holy scripture and Catholic tradition."

Recently Cardinal Hayes of New York said that it was wrong to teach children that wine used in religious services every day is vile and illegal. These two statements by the highest Catholic authorities in the United States would indicate a Catholic movement against prohibition as it now stands.

MINERS AGREE PLAN TO END THE STRIKE

(Continued from Page One)
 the anthracite problem to be announced at Philadelphia at one o'clock this afternoon.

How negotiations between operators and miners were conducted and how far the question of arbitration has been compromised between the two sets of interests, were points left for explanation in the expected Philadelphia announcement.

Apparently the rough outline proposed for a settlement is based on a five-year working contract for the miners during the first two years over which wages would remain as they were last August before the suspension began.

In the determination of the wage scale after two years, a conference of the industry itself through a special board would function. Supplementing the work, this body would be a tribunal of three impartial public men who would advise the negotiators in case they themselves failed to agree.

Government officials, who had been intimately associated with the progress of the long series of negotiations, declared the tremendous cost to all concerned had been fully estimated and appreciated by both sides. How great the figures on the close will run is evidenced by a compilation at the Labor Department today that operators alone have been obliged to spend more than \$16,000,000 to keep the mines from flooding and caving in while the workers stand idle.

Wittenberg College Yielding Influence of the Old South

Springfield, O., Feb. 12.—(AP)—Stalwart Wittenberg College here is yielding to the influence of the Old South.

The first show of Southerners came in 1923 when students from the "Old Dominion" formed the Virginia club to sing the praises of their native hills.

Now Boost "W" Association, whose membership annually is composed of student leaders, has become a chapter in Blue Key, national booster fraternity, founded at the University of Florida. More recently Pi Alpha Epsilon, local fraternity, has been granted a charter in Pi Kappa Alpha, national Greek letter fraternity with headquarters in Atlanta, Ga.

Faculty members have come from the Old South. They are: Dr. Paul F. Bloomhardt, of Newberry, S. C. college, and Dr. G. P. Voltz, of Lenoir-Rhyne, Hickory, N. C. College.

Meredith Baumgartner, graduate of Wittenberg in 1923, is instructor at the University of Alabama, which this year defeated Wittenberg here in basketball, 22-21.

A number of recent and early Wittenberg graduates have answered the call of Florida and are citizens there.

So Wittenberg, it is pointed out here, is feeling the influence of the Old and the New South.

 London, Feb. 12.—Tired of howling to the tyranny of Paris in the matter of originality in dress, fashionable London women are seriously attempting to establish Regent Street, the fashion center of London, as a rival of the rue de la Paix.

Headed by the Duchess of Portland, who is one of the leaders of the fashionable element in London, a number of well known women have undertaken to sponsor the venture, and have gathered together a group of fashion designers famous throughout Northern Europe.

The necessary capital for the undertaking has already been subscribed, and it is expected that by this spring London will be producing her own fashions and exclusive models on almost as large a scale as Paris.

Endeavors are to be made to interest American dress buyers in this venture. During the past two years American buyers have been making more and more of their purchases in London, and it is hoped that the establishment of this new fashion business will make them unloose their purse-strings even more.

King George is looking for a new chef to command the kitchens at Buckingham Palace, the royal residence in London. The king's present chef is shortly to retire after twenty-five years as royal cook, and his successor has not yet been determined upon.

No Excoffier is needed for the royal kitchens, however. Except on the more formal occasions the cooking at Buckingham Palace is very plain. The king's cook must be a chef able to provide a plain or a noble meal, and be able to satisfy every whim of his royal mistress, Queen Mary, who chooses all the menus.

As an indication of the simple meals usually served at the royal residence, it may be mentioned that on Sundays, providing there are no special guests, the royal luncheon is almost invariably soup, roast beef and apple pie and cream.

Week-end aerial parties to Switzerland and the French and Italian Rivera promise to be the latest fad in English society, for owing to the doubtful weather and sport prospects prevailing in Switzerland this year, a service of airplanes from London to St. Moritz is to be started.

The airplanes will leave the London air station in the morning making a halt at Paris en route to pick up intermediate travelers. The whole journey will take about seven hours, the landing at St. Moritz being made on the ice.

By this means Londoners will be enabled to make a quick dash to Switzerland when sport prospects are good. Flights to the Rivera are being arranged on the same principle.

Mrs. George L. Emmott, a prominent London-American hostess, will be among the first to give one of these parties, which will consist of from eight to ten persons.

The prospect of King George and Queen Mary making another Mediterranean cruise in the royal yacht is foreseen due to the strenuous time socially awaiting them during the season.

It is felt here by the King's advisers that he needs this rest to bolster up his strength.

The Jap and the Chinaman are being pressed into service by London hostesses as a means of solving the acute servant problem here.

Chinese and Japanese additions to the domestic staffs of many of the London houses are becoming increasingly numerous.
