## HEARINGS ON FARM RELIEF IS POSTPONED TODAY

### Last Minute Shift In Plans Cause Postponement Long Anticipated Hearings.

Washington, March 2.—(AP.) The long anticipated opening of hearings of farm relief legislation by the house agricultural committee failed to materialize today. A last minute shift in plans of farm organization leaders led to postponement until tomorrow or possibly Thursday.

Washington, March 2.—(AP.) Congress turned to the growing problem of farmer relief legislation today with the house agricultural committee opening hearings on a number of measures including the Dickinson bill designed to aid in the disposal of surplus crops. The committee and congress were warned beforehand that if no relief legislation is enacted at this session "new political alliances" could be expected to come from the "common economic interest of the south, west and central agricultural states."

The warning came from George N. Peek, chairman of the executive committee of 22 of the north central states' agricultural conference, which has charge of the program adopted recently at the farmers' conference at Des Moines. In turn the farm leaders were cautioned against "handing a remedy to us and telling us to 'take this or we'll know the reason why'." Specific plans to remedy the situation is what the committee wants, the farm representatives were told at a conference last night by Representative Parnell, of Indiana, ranking republican on the committee. He said two republican associates on the committee, Representative Williams, of Illinois, and Anderson, of Minnesota, joined in assurances that they would do all possible to help agriculture, while Senator Brookhart, republican of Iowa, advised the farmers of more modest in their demands for final assistance.

## Wholesale Merchants Meet In Wilson, Mar. 18

Wilson, Mar. 2.—(AP.) Wholesale merchants of Eastern North Carolina will gather at Wilson on March 18. The annual occasion will be the annual convention of the Eastern Carolina Wholesale Dealers and Manufacturers Association. The association will entertain a number of guests at the one-day convention and a number of speeches pertinent to the assemblage will be made.

The shipping of sugar and other commodities to New Bern in an effort to build up that inland port's business, the development of the ports of Eastern North Carolina and the deepening of the inland waterways will be among subjects which will hold the attention of the convention. At least one hundred men are expected to attend.

On the eve of the meeting it has been announced that L. Thornton, Jr., secretary of the organization, has filed a complaint with the Carolina corporation commission asking that body to institute proceedings before the interstate commerce commission with the purpose of having the carriers revise their rates on vegetables. The rates on which revision is sought are those north and south from Eastern North Carolina territory to eastern and interior eastern, Buffalo and Pittsburgh territory. The complaint alleges discrimination and injury to the agricultural interests of Eastern North Carolina because of an inequality in the rate schedule. This matter probably will be considered at the convention.

Among those who will address the convention are J. B. McLaughlin, of Washington City, president of the American Wholesale Grocers association; Fred Maass, vice pres. of the American Sugar Refining company of New York, and Congressman Charles L. Abernethy of the First North Carolina district.

## BAPTIST WOMEN'S MISSIONARY UNION CONVENES RALEIGH

### First Session Will Be Opened Tonight With Sermon By Dr. John J. Jester.

Raleigh, March 2.—The state is all set for the opening session of the Woman's Missionary Union of North Carolina, auxiliary to the Baptist State Convention in the First Baptist church of this city this evening at 7:30, when Dr. John J. Jester, pastor of the First Baptist church of Winston-Salem, will preach the annual convention sermon. The choir of the First Baptist church under the direction of Dr. Dingey Brown, will render a special musical program.

Some 600 names have been sent to the committee on entertainment, of which Mrs. J. Wilbur Bunn is chairman, and perhaps as many more visitors, who are not delegates, will come. Already the advance guard is beginning to arrive. By 7:00 tomorrow several hundred are expected. At 2:30 this afternoon the executive committee of the convention and the associational superintendent, will hold a conference in the main auditorium of the First Baptist church and at the same hour the young people's leaders will hold a conference in another room of the church.

One of the outstanding features of the convention will come Wednesday afternoon out at Meredith college when President Charles E. Brewer will entertain the delegates to the convention at a lunch in the college dining room at 1:30 o'clock. Following this the Meredith girls will give a pageant, "The Light of the World," specially setting forth the history of Meredith college. The civic clubs of the city have offered to transport the ladies out to the college some three miles from the capitol. This will afford many of the ladies an opportunity of seeing for the first time the beautiful Meredith site and new equipment.

Dr. E. Y. Mullins, Louisville, Ky., a world figure, will speak Wednesday night, and Mrs. W. J. Cox, Memphis, Tenn., elected president of the W. M. U., of the Southern Baptist convention last May, will speak Thursday morning about 11 o'clock. This is her first visit to this convention. The ladies of the missionary societies of all denominations are especially invited to attend the sessions of the convention at the First Baptist church.

## BERGMANN OFFERS SCHEME TO SETTLE REPARATIONS

Berlin, Mar. 1.—(AP.)—A campaign for a definite settlement of reparations payments as supplementing the Dawes Plan has been started by ex-Secretary of State Bergmann in a book entitled "The Way of Reparations," in which he lays down the following scheme: At the end of the next two years the Transfer Committee should fix by arbitration the definite amount of reparations to be paid by Germany. The Transfer Committee should undertake to place this loan on the international market. What ever cannot be placed within ten years should lapse so that after ten years Germany has paid her reparations debts and has incurred a private debt in the shape of a loan. Bergmann claims that his scheme offers a definite, but elastic solution enabling Germany's creditors to raise the installments in proportion to a growing German credit.

## HAMBURGER AND ONIONS NOT IN IOWA

Des Moines, March 2.—(INS.) Hot dog, what next! Now the veil of suspicion is being cast over the humble hamburger sandwich and no more can you get your "hamburger and onions" in Iowa unless it has a certificate of food character. The state of Iowa is hard on the trail of butchers who are adulterating hamburger or selling an impure article by that name. State inspectors have collected hundreds of samples, and analyses have revealed the use of injurious preservatives. Every dealer selling such adulterated meat is to be placed under arrest. Dozens have already been fined.

## Roosevelts on Way Home

THEODORE ROOSEVELT AND MR. AND MRS. KERMIT ROOSEVELT on their arrival at Cherbourg where they boarded a ship for home after an extensive hunting trip in the White Mountains.

## CHASE TO REMAIN HEAD UNIVERSITY

Raleigh, March 2.—(AP.)—Dr. Harry W. Chase, president of the University of North Carolina, will retain that post. At a called meeting of the trustees of the University here today, Dr. Chase informed them that he had decided to decline the offer of the presidency of the University of Oregon. Dr. Chase addressed the trustees after a sub-committee appointed to confer with him on the matter had made its report.

Dr. Chase's decision was announced to the board after the meeting of trustees had received a report of its special committee, which yesterday conferred with Dr. Chase. At the meeting of the trustees a resolution was adopted in which the trustees expressed their appreciation and support of Dr. Chase and the hope that he would not resign his post.

A committee then was named to inform Dr. Chase of the trustees' action and to invite him to appear before the trustees. His appearance was greeted with applause, and greater applause greeted his statement a few minutes later that he had decided not to leave North Carolina.

In a prepared speech Dr. Chase paid tribute to the work of the University and the opportunity of the University in the future and to the loyal support which had been given him by officers, student body, alumni, faculty, trustees and public in general. He declared that a great opportunity laid before the University, which now he said was the leader of universities, and the first state in the south to have a real university comparable in standard with the great state universities in other sections of the country.

He then pledged himself to give his best service in the future to the University. At the conclusion of Dr. Chase's address Governor McLean, for the trustees, expressed his appreciation of Dr. Chase's decision and a few minutes later the trustees formally adopted a resolution thanking Dr. Chase and expressing their gratification at his action.

## FIRE COMPANY TO MEET TONIGHT

There will be a call meeting of the Home Fire Company tonight at 8 o'clock.

## TODAY

(Copyright, 1925)  
See Arizona.  
Big Boom Coming.  
The Yuma Mesa.  
A Place for Workers.  
ARTHUR BRISBANE

See America first, last and all the time. See Europe, Africa, Asia (Australia and New Zealand if you can). SEE AMERICA.

That advice is taken by the writer, who at the moment is crossing the continent for the fourth time within eight weeks.

While you are seeing America, see the great state of Arizona. This is written just east of the sign that marks the Arizona divide. More than 7,000 feet above the ocean. In spite of vast size and comparatively small population this is a very neighborly state. A snow covered mountain fifty miles away, looks so near, you think you could walk to it in fifteen minutes. There is health enough here for fifty millions of people, and wealth enough for that number also waiting to be developed.

Go west, by the Southern Pacific sometime when you have time. DON'T GO WITHOUT MONEY. Stop at Yuma. Your ticket will let you stop over, you can continue your journey later to any part of the coast. See the Yuma Mesa. Malford Winsor, president of Arizona Seniors, says truly: "There is only one Yuma Mesa in the world." You have heard of farming countries, where the rich soil is ten feet deep or more. The soil is extraordinarily rich and a great deal more than one hundred feet deep on the Yuma Mesa. On that land, if you take a 10 or 20 acres for a little while, those acres will take care of you as long as you live, if you know how to work. The land of itself won't make you rich.

Arizona doesn't want a boom, it would rather grow steadily, powerfully. But a boom is inevitable, throughout the state, at Yuma, Douglas, Bisbee, Phoenix, Prescott, Flagler, Tucson, everywhere.

The great Boulder canyon dam on the Colorado river will supply Arizona with unlimited power, to distribute the waters of the Colorado, work the mines, farms, and factories.

Take money with you, enough to invest, or at least to pay your expenses for a reasonable time. Get information before you go. Write to Senator Ashurst, or Senator Cameron, of Arizona, addressing your letter to the Capitol, Washington, D. C. or to Malford Winsor, president of the Arizona state Senate at Yuma, or write to the Board of Management of the Arizona Gazette, Phoenix, Arizona.

You have read about "wide open spaces." This is where they are. They are not for gentlemen that cannot bear to be more than five minutes from a jazz orchestra or a "reliable bootlegger." This is the place for men, and women that want work and health, together. A real country. Here you find every kind of good climate in winter, from that of Canada to that of Southern California.

Remember that when ever you go you can buy good real estate, with the help of reliable men and personal observation.

Also wherever you go, you can buy worthless land, and find plenty of people to sell it to you. See the land, before you buy.

Richard Gilliland, former guide in charge of W. C. Hearst's camp at the edge of the Grand Canyon, has twenty acres on the Yuma Mesa—and while he works at the Grand Canyon, somebody else is planting grapefruit on his mesa land. "That grove," says he, "will pay me yearly, from five to eight hundred dollars per acre when it gets started, and that's more money than anybody ought to have, more than I want."

Here in the west men do not consider themselves unhappy, unless they have too much money. W. B. Andrews, lives at Fair Oaks in the Sacramento valley, where Finchalet's giant dredge tears up rocks and sand, washing out the gold dust. He says with deep conviction: "There is more happiness in these hills than anywhere else in the world, only some of us are getting too rich, that's our only trouble."

## Assails Drys

SENATOR EDWARD J. EDWARDS, New Jersey, termed prohibition a "mockery and hypocrisy" at the opening of the "face the facts" convention of anti-prohibitionists at Washington.

MISSISSIPPI A. & M. UNIVERSITY OF N. C. PLAY FINALS TONIGHT  
Atlanta, March 2.—(AP.)—The present title holder and a former basketball champion of the southern conference meet tonight in the finals of the annual tournament here. Victorious in three previous battles during which 14 representative quints of the conference were eliminated, the University of North Carolina plays the dark horse of the 1926 tournament, Mississippi A. & M. If the Tar Heels win it will be the fourth time they have captured the title, while victory for the Aggies will give them the crown for the second time.

## Search Is Being Made For Plumber

Salisbury, March 2.—(AP.)—A search is being instituted by relatives for George Melchor, 23, who disappeared from his boarding house here shortly after the new year began and has not been heard from since. Melchor was a plumber.

## New Princeton Hotel Opens

Mr. and Mrs. T. T. Hollingsworth have assumed management of the new Princeton hotel located in the Young building on the corner of Dickinson avenue and Greene street. The hotel is modern in every particular and Mr. J. K. Young and Mr. Hollingsworth have put forth every effort possible to make the rooms cheerful and attractive. The lobby is at the entrance from Dickinson avenue.

## Counsel For Chapman Will Ask For Appeal

Washington, March 2.—(AP.) Counsel for Gerald Chapman, convicted of slaying a New Britain Conn. policeman, and who is under sentence to be executed April 3, completed preliminary arrangements to file in the supreme court a petition asking for appeal from the decision.

Just east of Flagstaff, a little way back, a lady living in a small unpainted house, had all her washing out on the line, shortly after the sun rose this morning (and it will be thoroughly dry before noon) then, after she has fed the men, there will be nothing to do before preparing supper, except to iron the wash and put it away.

You don't know much about life, if you pity her. Everything that she does is praised, every word she says receives respectful attention. She is infinitely more happy than some New York woman that dangles her lips thick with red paint, then goes to "jobs" to buy for fifty dollars a pair, ten dollars an ounce dancing slippers that will pinch her poor toes. Come West, and see Arizona on the way.

## REGULATIONS TO GUIDE TAXPAYERS BEING DRAFTED

### New Revenue Law Declared Effective February 26th; Many Changes.

Washington, March 2.—(AP.)—With the time within which the public must file its tax returns rapidly expiring, treasury department experts are speeding up the drafting of regulations to guide tax payers. As the first step the new revenue law is declared effective as of 10:25 a. m., February 26th, when President Coolidge signed the measure. The change in inheritance tax rates also are effective as of that hour as are many other repealed or modified taxes while the income tax provisions are applicable to incomes of last year on which payments will be made this year.

Provisions of the automobile passenger tax from five to three per cent will become effective at midnight March 28, along with the increased exemptions on admissions at and even will include tickets of 75 cents and less. On that date also repeal of the stamp taxes on deeds of conveyance and customs warehouse entries, and withdrawals will go into effect. Repeal of the taxes on capital stock, tobacco manufacturers, brokers, bowling alleys, billiard rooms, shooting places, riding academies and automobiles for hire will become effective June 30th.

## MUSIC, PARADE, FLIRT, NOW ONLY FUNCTION GERMAN MILITARY GROUP

Berlin, March 2.—(GNS.)—"Music, parades and flirts are the functions of the Nationalist militant leagues. That's all there is to them. They give the people what, in the old times, the cook maid expected from the soldiers of the Kaiser's army." With this quotation of the remark of an active officer of the Reichswehr, Minister of Defense Dr. Gessler, in a speech at the Reichstag ridiculed the charge that there still existed a "Black Reichswehr," an illegal military formation secretly supported by the authorities.

## MAN POSING AS WOMAN MARRIES ANOTHER MAN

Edinburgh, March 2.—(INS.) An amazing story of how a man posed as a woman and married another man comes from the small Scottish town of Dalkeith. His real name is understood to have been David Parke, and he came to town dressed as a woman in the height of fashion, with high heel shoes, open neck waists and bobbed hair. His pose as a woman was so successful that he managed to attract the attention of a young local man, who courted him and finally married him.

## LORADO TAFT TO CARVE HOME TOWN MONUMENT

Elmwood, Ill., March 2.—(INS.)—Elmwood, birthplace of Lorado Taft, famed sculptor, is to have a gigantic memorial to the pioneer who carved the state of Illinois out of the wilderness. His parents were among the first arrivals in the state. Taft has agreed to carve the monument out of green stone. The residents would pay for the material, estimated at \$17,000. The people joyfully raised \$17,540.

The group, which will be placed in Elmwood Park, will weigh 120 tons for completion. The group will represent settlers and Indians in the virgin prairies and the dedication of the statue will be made a notable event.

## 20 POUND LIMIT PUT ON CHARLESTON DANCERS BUT FLOOR SAGS ANY HOW

Columbus, Ga., March 2.—(INS.)—Although no one over 200 pounds in weight was allowed to pass through the gates of the Charleston, officials of the Alphi Chi Rho house found the floor had sagged almost an inch under the weight of the dancers. The floor had performed the southern wobble. The floor is now being replaced by a mixture proportioned, Rock Democrat.

## 5 BRIDGES WILL BE CONSTRUCTED SOUTHERN STATES

### Recommend Expenditure Of \$2,000,000 For Improvement Of Savannah Harbor; Federal Fund To Be Used.

Raleigh, March 2.—(AP.)—The general prosperity of the south was singularly reflected in the passage by the national house of representatives yesterday of bills authorizing the construction of 35 bridges by use of the federal funds in five southern states. In addition the expenditure of \$2,000,000 for the improvement of Savannah harbor was recommended by Major General Taylor, chief of engineers of the United States army.

Alabama came off with the lion's share of bridges at yesterday's legislation; that state drawing 16 of the 25. Arkansas came next with three, Virginia and Louisiana tied with two each, while Mississippi and Tennessee were awarded one each. The legislation was regarded in Washington, dispatches from the national capital said, as indicative of the federal government's response to the south's demand for quicker mail services in the rural districts, and a greater opening of avenues to markets for the farmers.

Students of economics pointed out, however, that the real value was not to be computed in the terms of dollars, and certain though the bridges will run into hundreds of thousands of dollars, but rather in the general prosperity of the regions that they are to serve. In several instances where new bridges are to be built, it has been necessary for many years for the farmers to make ten and fifteen mile hauls with their products in order to reach a bridge a few miles away, while the actual distance was a much shorter distance from the starting point.

## Decides Attitude Respect Increasing Seats In League

London, March 2.—(AP.)—The British government has already decided its attitude with respect to increasing the number of permanent seats in the League of Nations council, it is stated in well informed quarters. It opposes granting Poland, Spain or any other country other than Germany a permanent seat at present, leaving a question of probable increase for future discussion.

## Sees No Reason Why Controversy Can't Be Settled

Washington, March 2.—(AP.)—President Coolidge sees no reason why the controversy between the United States and Mexico over protective and confiscatory provisions of the anti-alien land and extraterritorial laws cannot be satisfactorily adjusted.

## LONDON MILKMAN USES SHORT MEASURE INSTEAD OF WATER IN THE MILK

London, Mar. 1.—(INS.)—The average London milkwoman obtains dishonestly, by giving short measure, not less than \$7.50 weekly; some make as much as \$12.50 in this way. This was one of the pieces of evidence given to the Food Council by Wilfred Buckley, formerly National Director of Milk Supplies. Many employers connive at the practice, said Buckley, and gratefully give short measure in their sealed milk bottles. Lord Bradbury, chairman of the Food Council, claims that this body has done wonderful work in regard to the price and quality of milk and bread sold in Britain. In this he may be getting on. In that some of our Goldfish eat three or four aspirin tablets a day, and that some of our politicians are not much better off.

Let's choose our Queen. Don't put off until tomorrow what can be done today.

A GENEROUS GIFT

The Kiwanis club in giving to Greenville a playground cannot be too highly prized for such a wonderful gift. Play develops children and as children make the men and women of tomorrow, they cannot be denied those things which make them stronger and nobler citizens of this great state and nation. The Kiwanians with their great work realize that in the childhood of our city lies the future of the city and in giving to them a place wherein they can play and have exercise, they are giving to them not only joy and pleasure, but also a development which will make them strong for the tasks and undertakings of tomorrow. Let's all extend thanks to the Kiwanians.

WE CAN DO IT

Yancey county is certainly establishing a record which is unprecedented and very unusual. Think of a jail being empty since the first week in January. Truly the people of that section are becoming law abiding citizens, and are making themselves a record which any county would do well to emulate. Pitt county citizens are just as intelligent and educated as any people in the state and if they would decide to be law abiding, and make an earnest effort to do the right thing, we could keep our jail empty for months to come. There is no need for crime. "Do unto others as you would have them do unto you," and we will have the best and most law abiding county in the state.

BUILD A FOUNDATION

There was a sign in a savings bank window the other day which said: "If you dream castles in the air, save and put a foundation under them."

Once there was a young man who had always dreamed of being wealthy. As a boy he pictured himself dressed in the height of fashion, snappy cut to his clothes, and all that, walking down Main street. People on the sidewalk would point him out, saying, "Yes, there's Sam...

Green, young fellow, but smart. Yes, sir, smart. Owns that big house on the hill, and has got a good pile of money down already. Must be worth \$100,000."

So Sam, as an initial step toward wealth, saved, and after a time reached his first goal, the \$1,000 goal, after which, 'tis said the money just grows.

But about this time Sam got a girl, and then he wanted to make a splurge. He wasn't going to take her into any little two by four house; he was going to have that house on the hill. So Sam, looking around for way to help that \$1,000 grow, and like many a thrifty, but too impatient young man, bought wildest stock. And the \$1,000 was gone and with it Sam's dream of the house on the hill and all the rest.

To return to the ad in the bank, "If you dream castles in the air, save and put a foundation under them." But be sure the foundation is a solid one.

OPEN FORUM

To the Editor: Will you please allow me to publish a notice that I think the good people of Greenville would like to have.

It has been called to my attention that two persons, one an afflicted man, one a woman, are using the affliction to sell to the people of Greenville, books and pamphlets purporting to be commentaries on the books of the Bible, devotional books, books of prophecy, etc., which are really being sold for the purpose of appropriating the funds of the Seventh Day Adventists and to not what it is supposed to be at all. Of course if the people want the literature of these books, they can get it from their own sources, but if they are being deceived, they ought to know it. These people are using the same methods as those who always use everywhere that they know that if they come out bold in the open, they cannot sell their deceptions. If our people want devotional reading, they can get it from their own sources, and will find it far more profitable than these books. I would advise those who have not out, have been deceived by books, to be advised not to refuse to take them when they are delivered, but to do as they have good sense to do, and not be deceived by these books. (Signed) W. S. HARDEN

Conquers Bad Breath and is Popular Again "The day I started taking Carter's Little Liver Pills," says Mr. John A. Perry of New York City, "my habitual bad breath and bad stomach stopped. I strongly recommend them to all those afflicted with these nasty troubles. I assure you that my own case was a bad one, causing me untold embarrassment, and Carter's helped me right from the start." Bad breath comes from sour stomach and can usually be relieved quickly by Carter's Little Liver Pills. They are wonderful for constipation, sick headache and indigestion and they physic the system in a mild and gentle manner, no bad after effects. Recommended and for sale by all drug stores.

State of North Carolina, County of Pitt, TO THE TAX PAYERS OF PITT COUNTY You have made for yourselves a record as having paid taxes more promptly than the tax payers of any other county in the state. Dr. Brooks stated in the papers of the state last summer that Pitt County was the best governed county in the state, and that in his opinion the other counties would profit by instituting the same system. We are all real anxious to keep up the record we have made for ourselves. As sheriff I am unable to do so without your cooperation. Kindly see that your 1925 taxes are paid at once and save me the embarrassment of having to levy on your personal property. Thanking you for the courtesy of your attention, I am, Very truly yours, A. Gas, Oil and Coal Lands Being Tested

vention of the Canadian Institute of Mining and Metallurgy. Testing of fields has already established the existence of valuable petroleum deposits in the province. "Gasoline is being produced at the rate of 500 barrels a day in one field near Calgary. Wells in Northern Alberta five years ago are now being tested here before the annual con-

Six years after he had opened his first venture, Laemmle moved to the Pacific Coast and built a small producing plant in Hollywood. That location became too restricted, and he shifted to Universal City, which took its name from his production plant.

Presence of vast deposits of natural gas and coal in Alberta, which occur almost invariably with petroleum, make it seem likely that the province will be a great future source of oil supply. Alberta's coal reserves constitute one-seventh of all the coal reserves in the world. Most of the rich farm land in the province is underlain with coal. Alberta has 72 per cent of all the known coal in the British Empire.

ANOTHER SALES RECORD BROKEN

Retail deliveries of 4116 passenger cars and trucks by Dodge Brothers dealers in the United States during the week ending February 13th, as shown by official figures just released at Detroit establish another record, surpassing all previous February weeks in the history of the company.

Signed, unfilled orders for future delivery held by the concern have increased from 6320 at the first of the year to 14,244 on February 13, a gain of 125 per cent. "These retail delivery figures show clearly," said Mr. Chapman, the local Dodge Brothers dealer, "the quickness with which the automobile buying public recognized the exceptional values now offered by Dodge Brothers, Inc., and Graham Brothers. Greatly reduced prices have been made possible by the completion of a ten million dollar plant expansion program. Production now is in excess of 1500 cars a day and it seems absolutely certain that before warm weather the company will be under the necessity of making still further increases."

CARL LAEMMLE TODAY VIEWS 20 YEARS IN MOVIE WORK

Universal City, Cal., March 1. (AP.)—Carl Laemmle, who forty years ago landed in America from Germany alone and friendless, is celebrating here today the twentieth anniversary of his entrance into the motion picture business.

The young immigrant Carl found odd jobs and eventually landed in Chicago. There on February 26, 1906, he opened a small place of exhibition known as the White Front, devoted to the then new fangled motion pictures. Through many vicissitudes and much competition the White Front prospered and added others to its ownership.

CONFLICT OF WOMEN CAREERS STUDIED BY STORM JAMESON

New York, March 1.—(AP.)—Women of the present generation are to have called to their attention the conflict between a career at home as a wife and mother and a career in the business world, believes Storm Jameson, the author, who devotes much of her writing to the problem.

"Too many of the best of modern women undertake to make a success of all three phases of their life without realizing that they must sacrifice at least one of them and usually they sacrifice the most important, a successful mother," she says. "The results are of course more than just an individual tragedy here and there for they affect the future of the race. We find that the women who might be the best mothers and might give us the finest children are prevented from fulfilling their duty because they enter upon the struggle for a career without realizing the conflict that exists between success in business and success at home."

In her latest book, Miss Jameson as one child, considers this one, who is herself married and content.

### Spring

Green is the grass upon the ground;

Green are the forests all around; Purple are the violets, breath our feet. And the birds above us sing, "Tweet, tweet, tweet."

By these signals, we know spring is here.

The liveliest season of all the year. Daffodils are blooming yellow and gold.

A sign that tells us 'tis no longer cold. Blue in the sky, and from a tree Robins sing to us, "See! See!" All the maples are shining green; Oh, what could be a lovelier scene.

### Mothers' Night With the Senior Girls' Club

On the night of February 24 the Senior Girls' Club of Greenville mothers at a banquet. The Club entertained them with a banquet. The girls, whose mothers could not come, invited another guest.

The chairman of this meeting was Doris Hardee. Louise Phelps, Dorothy Ward and Edna Smith were on the entertaining committee. Beatrice Earhart was collector. Verna Dare Corey, Olive Clark, and Jessie Baker were on the dinner committee. Louise Hicks was the transportation committee.

The dining hall was beautifully decorated with the colors of the Senior class, purple and gold. After the first course, Doris

Hardee gave a hearty welcome to the mothers, and the other guests. Mrs. R. C. Deal responded in behalf of the mothers.

The next speaker, Rev. L. R. O'Brien, of the Immanuel Baptist church, gave a splendid talk on Mother.

After the second course the guests were entertained by the Slocoper Orchestra, and a piano solo by Edna Smith. The prize for the jumping game was won by Miss Moore, the Latin teacher. After the third course all stood and sang "Good Night, Mother," and adjourned, declaring the banquet a success.

### Senior English Classes Ambitious

Several scenes from "The Tragedy of Macbeth" are to be presented to the high school soon by the two senior English classes.

The first class is presenting scenes two and three from act two. These are the ones which portray the killing of the king by Macbeth and the discovery of the dead body. Blanche

Clarke, Billy Brown and Davis

selected the scenes and assigned the parts. The following cast was chosen:

Lady Macbeth, Blanche Clarke; Macbeth, Westall Leggett; The Porter, J. Waddell Hodges; Macduff, Harry Perkins; Lennox, Queen Victoria, the shrill old Jack Tripp; Banquo, Dow Lassiter; Malcolm, Elbert Mobley; Lonelhan, Franklin Johnson.

The class elected Billy Brown as stage manager and appointed the following committees:

Boys' costume committee: Doris Hardee, Jake Skinner, Davis Lee Moore.

Girls' costume committee: Lucille Hearne, Jesse Baker, Mattie Vines Mayo.

Scenery committee: Elizabeth Deal, Shodie Parkerson, Nathaniel Stokes.

The ushers: Leroy Coward, Olive Clarke, Elba McGowan, Salm Holmes, Elizabeth Page, Ruby Hazel Jackson, Verna Dare Corey, Abigail Roberts.

These were selected from both classes and will be dressed as Scotch Highlanders.

The second class, whose scenes one and eight, act five, in which the final overthrow of Macbeth takes place. This includes a

thrilling duel. Louise Earhart, Joe Dresback and Kenneth

Whichard selected these scenes and chose the following cast:

Lady Macbeth, Florence Overton; Malcolm, Dorothy Ward; Doctor, David Proctor; Macbeth, Frank Brown; Macduff, Calvin Gorman; Malcolm, S. V. Mayo; Seward, James Albritton; Ross, Fred Forbes; soldiers, Douglas West, Joe Dresback, Kenneth Whichard.

The following committees were selected:

Boys' costume committee: Kizzy Dunn, Beatrice Earhart, Elizabeth Phelps.

Girls' costume committee: Elsie Puley, James Albritton, Clifford Godsey.

## DR. KING'S NEW DISCOVERY FOR COUGHS

It is not only dangerous but entirely unnecessary to let a persistent, hacking cough rob you of sleep and strength. For through a very simple treatment you can get almost instant relief, and very often break the most stubborn cough completely in 24 hours.

This treatment is based on the famous prescription known as Dr. King's New Discovery for Coughs. You simply take one teaspoonful at bed-time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and lessens soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. So the coughing quickly ceases and you sleep right through undisturbed.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups - no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

### Georgia Lady, Who Had Lost Too Much Weight, Was Advised to Take Cardui and Is Now Well.

Columbus, Ga.—Mrs. George S. Hunter, of this city, writes: "After I married, thirteen months ago, I suffered with dreadful pains in my sides during... My side hurt so bad it nearly killed me. I had to go to bed and stay sometimes two weeks at a time. I could not work and I just dragged around the house."

"I got very thin—I went from 120 pounds down to less than 100. My mother had long been a user of Cardui and she knew what a good medicine it was for this trouble, so she lent me to get some and take it. I sent to the store after it and before I had taken the first bottle I began to improve."

"My side hurt less and I began to improve in health... The Cardui acted as a fine tonic and I do not feel like the same person. I am so much better. I am well now. I have gained ten pounds and am still gaining. My sides do not trouble me at all."

"I wish every suffering woman knew about Cardui!"

# LIBRARY NEWS

Our Slogan: Let the Library Serve Greenville.  
Library is open from 2 to 6 p. m. and from 7 to 9:30 p. m.

We have twenty-six books now on our reserve list with Keuper of the Bees, Vanishing American, A Bush That Burned, and Perennial Bachelor, the most popular in fiction. The Biography of Queen Victoria and The Man Nobody Knows are the popular non-fiction.

Today begins a new month and we are anxious that March be as interesting for library service as February has been. February has been the best month since the beginning, November 1st. There have been 376 more books in circulation in February than any other month. We have had a very good record of reference work done in the library for there have been 153 persons who have done their reference work in the library. We have supplied 50 pieces from the state commission and from the State University on topics for which we were unable to supply from our own material.

In speaking of reference work it is interesting to note the different types of material. It includes American Insular Possessions, Court of Industrial Relations, World Court, Panama, Blockade Running During the Civil War, the Lincoln - Douglas Debates, Reconstruction of the South, Industrial Progress in Germany Since the War, Late Revolutions in India, Automobile Industry as an Economic Problem, Capital Punishment, Smoke, Corn, Longfellow, Gladstone, Queen Victoria, the Eskimo, and other subjects that make life interesting for the librarian, for

when one gets all "het up" over the Panama canal region and the wild, in India and then is suddenly pitched up in the Eskimo land of ice and snow without a minute's notice and then just as suddenly finds himself "sitting in" with the World Court, well, it's so interesting that we just invite all of you to bring us your troubles in finding material on your speeches, papers, or debates, and we'll do our best to help.

## Spring Floods Menace Traffic

St. Madison, Wis., Mar. 1.—INS.—With the unloading of the swift and treacherous currents of the Fathers of Waters by the mild winds of near-spring days, guardians of the Mississippi River traffic are making ready to insure safety of the steamers and smaller craft, plying north and south, during the coming months.

Officers and crew of the U. S. S. Dandelion, lighthouse tender, are busy getting in working order the buoys and buoys to steer boats away from menacing shoals and other trap of the tricky old river. Since 1874 the lighthouse patrol has covered virtually 2,000 miles of the river territory. On the upper Mississippi territory, comprising 686 miles there are approximately 1,200 aids to navigation, consisting of lights, buoys and floats between Minneapolis and the junction of the Missouri.

Many of these signals are acetylene lights secured to floats weighing nearly a ton which flash on and off with the motion of the waves.

River lights on shore are usually tended by persons living nearby, who see that the lights are set going at sunset and extinguished at sunrise.

These beacons are placed on high structures ending in a platform by day white "wings" set obliquely catch the sunlight and help the pilot to keep in the main channel

and avoid danger. One of the menaces to safe navigation is a spot, where there is buried the old guard wall of the Des Moines Rapids canal, built in 1870. It was rendered useless by the Kookuk dam and submerged under forty feet of water, and here one of the largest beacons is maintained.

## OLD HITCHING POST SOON IN POETRY WITH KNOCKER AND PUMP

Philadelphia, March 1.—(INS.) Now that the chariot on rubber tires and propelled by gasoline, has replaced the picturesque steed hitched to a phaeton or buggy, the old hitching posts have almost gone the way of antiques.

These hitching posts, used to adorn every street corner and graced the doorsteps of fashionable residences. The younger generation hardly know what is meant by hitching posts.

However, on Chestnut street, near Thirty-seventh street, in this city, on the grounds of a house that has stood there for many years, one may still see one of those landmarks. Not only is it a hitching post, but it is also artistic in that it is topped off with a horse's head, mane and all.

Poetry has been written about the disappearing knocker and the village pump. Perhaps a poet will soon immortalize the famous hitching post.

## ODD WEDDING AND PASSPORT TANGLE CONFUSE COUPLE'S STATUS

Cambridge, Mass., March 2.—(INS.)—Elizabeth Arnold, 30, and James W. Swindell, 29, of Cambridge, were married in England more than two years ago.

When they tried to do it all over again here they got themselves into a ring of complexities.

In applying for a marriage license the couple claimed to be single. City Clerk Burke began his customary checking up and discovered in the Cambridge city directory a "Mr. and Mrs. James W. Swindell."

When the clerk questioned the couple, the woman told the following story:

"Jim and I met in our town in England in the summer of 1923. We married in the harvest time, and I had been trying for two years to come to the states. 'I got my passport, I sail five days before my wedding. I had been twice disappointed in the emigrant quotas, so what was I to do?'"

"If I changed my passport to my new name it would have taken more time and red tape, so I sailed as Miss Elizabeth Arnold. Jim joined me here, and of course we lived as man and wife."

"Then we started up for our naturalization papers. Our passport, named us as single, so we thought we'd get 'spiced' all over again."

Mrs. Swindell shows an English marriage certificate to prove her story, but Clerk Burke would not allow them to marry again until he further investigated their story.

## WOMAN DANCING IN SNOW IS MYSTERY AT HOLYOKE

Holyoke, Mass., March 2.—(INS.)—The witch o'witching hour puzzles police of this city. A mysterious woman dancer, at midnight stages an eerie dancing act on the snow in different parts of the city. The woman has been seen using a broom in her gyrations.

Called to a vacant lot by a report that the woman was "at it again," police arrived in time to see her disappear.

The tired business man is usually the one who goes to the office at eleven and quits at three. —Mobile News-Item.

**RESOLUTIONS OF RESPECT**

On January 9, 1926, the Death Angel entered the home of Brother J. J. May and took him to his eternal reward in the age of 77. Brother May had been in ill health for several months and his death though not unexpected, came as a shock to his many friends and relatives. We know not less in his gain. We offer the following resolutions of respect:

- 1st. That we will ever cherish the memory of him and that we submit humbly to our Father's will.
  - 2d. That we extend our sincere sympathy to the bereaved family in this great loss.
  - 3d. That, in his going, Red Oak church lose one of its most faithful and loyal members and a most efficient clerk.
  - 4th. That a copy of these resolutions be sent to the family, and one each to The Daily Reflector and The Christian Standard for publication.

**Stop That Backache!**

Many Greenville Folks Have Found the Way

Is a dull, nerve racking back-ache wearing you out? Do you feel older and slower than you should? Are you tired, weak, and nervous? And it is impossible to be happy, or enjoy the good times around you? Then there's something wrong, and likely it's your kidneys. Why not get at the cause? Use Doan's Pills—a stimulant diuretic to the kidneys. Your neighbors recommend Doan's. Read what this Greenville resident says:

Mrs. Jacob Wilson, 1112 Evans St., says: "There was such a bearing down feeling in my back I had to rest occasionally. When I stooped, a severe stab of pain shot through my kidneys, many times I got dizzy and special floated before my eyes. My kidneys were annoying also as they didn't act as they should. I sent to the Greenville Drug Co. and got Doan's Pills. They soon relieved me."

Gossip of Staff Correspondents at World Centers of Population.

By H. K. REYNOLDS  
INS Staff Correspondent

London, Mar. 2.—Close co-operation between the Governments of the United States and Great Britain, and between the Bank of England and the American Federal Reserve Banks for the control of the world's gold supply is regarded in financial circles here as an imperative step in the re-establishment of the economic stability of Europe.

It is learned that discussion of this problem already has taken place among leading financiers of London and New York, and that there is an understanding in Lombard Street that there has been

approach toward an informal arrangement for the handling of gold reserves as a result of recent conferences in Washington between Governor Norman of the Bank of England and Secretary of the Treasury Mellon.

British financiers have been worried by the piling up of huge gold stocks in the United States. The American gold stock is said to amount to nearly four and a half billion dollars, and it is felt here that unless the future movement of this vast sum is not carefully planned and handled the economic equilibrium of the entire world might be seriously affected. At the moment, there is nothing else to do but to hold this gold, because other countries have not the financial power to draw upon the American stock.

Discussion of the complex financial questions involved in planning the movement of the American gold has brought forth the suggestion that the Government banks of France, Italy, Belgium and Germany should be brought into co-operation with the United States and Great Britain to the end that

an agreement could be reached for the creation of an international gold reservoir.

Should this suggestion be favorably considered by Secretary Mellon and Governor Norman it is conceivable that it could be carried through to accomplishment, and that it would mean the concentration in the hands of bankers and financiers of power probably greater and more extensive than any heretofore exercised in the history of the world. Once a definite agreement had been concluded for dividing the world's supply, any European nation desiring to draw upon the American banks would not be permitted to do so until the movement had received the approval of the Board of Governors, representing the leading Governments, and controlling gold stocks of American and other countries.

Such arrangement, according to London financiers would make it possible to prevent the depreciation of national currencies and would aid in the restoration of the gold standard as urged repeatedly by the American Treasury in connection with its demands to Europe for payment of war debts.

### Are Curve And Spit Ball a Lost Art?

New York, March 2.—(INS.) What will develop this season in the endless argument between pitcher and batter?

Will the lively ball be as much of a factor in the hitting this season now that the composition of the core has been changed, and will the easing of pitching restrictions in the National league reduce batting averages materially?

These are time questions now that the big leagues are limbering up in the southern training camps for the 1926 campaign.

What is the difference between the pitching of today and ten years ago. Talk to the old timers, who still follow the game closely, and they will tell you that the art of curve ball pitching has deteriorated. The passing of the spitball delivery has eliminated an element of deception that bothered the free swingers no little, but the veterans contend that good "hook" slingers can get by as well as ever.

The observation of men who have stood in the rifle pit facing the greatest hitters should have some weight. They are the real experts. We encountered one the other day when we ran into George Chalmers, who starred in the National league not so long ago as a member of the Phillies and the Giants.

"I don't like to criticize," said George, "but that old baseball used to whistle by my ears just as fast as it does by the youngsters now when they lay it in the groove. But a good curve ball till fools the batters. The records of Johnson, Rixey, Alexander, Vance and some others prove that."

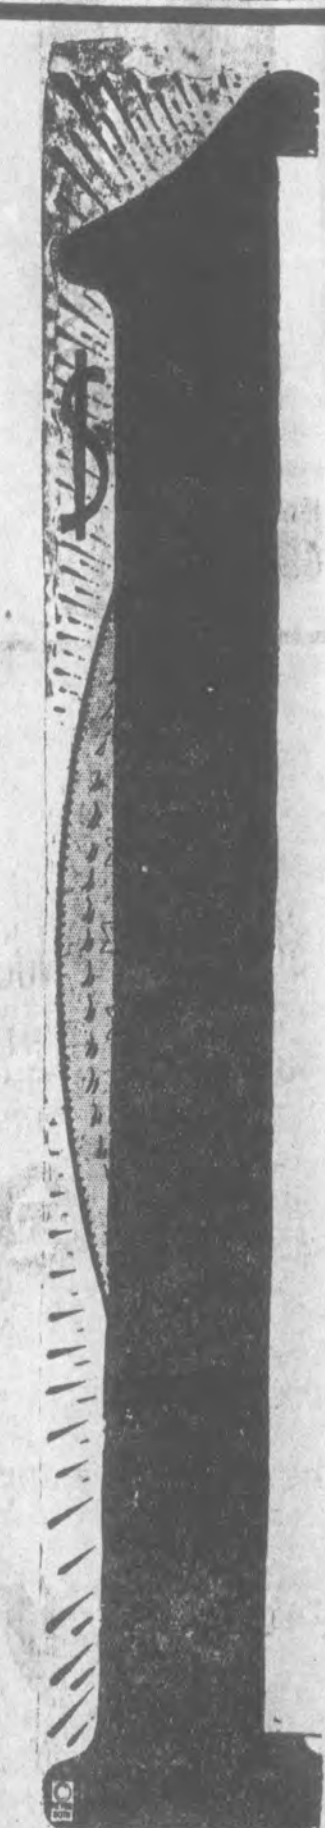

"You know," said Chalmers, "that there are not so many good curve ball hitters playing today. Where are the Donlins, Wagners, Schultes, Clarkes, Merckles and Doyleys who could hit them back past you as fast as the boys do now? We didn't have that lively ball then."

"A few old timers, know how to use the curve with speed, but in the main the young fellows dish up speed, ducks and trust to luck. No wonder the batters lay back and take toe holds."

Everyone is urged to conserve rubber. Of course, that places no restrictions on rubber necks.—Durham Sun.
