PRIVATE SITTING LEAGUE COUNCIL TO DECIDE ISSUE

Signatures Of Rhine Pact Transfer Question Of Enlarging Council To Private Sitting.

Geneva, March 10.—The signatories of the Rhine pact negotiated at Locarno decided today to transfer discussion of the question of enlarging the council of the League of Nations to a private sitting of the council.

The decision was the culmination of negotiations begun on Sunday and continuing this morning at the hotel where Sir Austen Chamberlain, British foreign secretary, is staying.

Call for harmony and conciliation are appearing in the local papers. The Journal Geneve, a political organ, declared today that nothing hindered the spirit of concession as much as threats by some nations to quit the league unless their aspirations for influence were satisfied.

"Let us not forget the doctrine laid down at Geneva peace protocol," it adds, "that an aggressor country is one which refuses to arbitrate. This applies to Germany, even if she is not yet a member of the league, but it is inadmissible that decisions will be reached by intimidation or threats."

"Geneva has witnessed a bizarre spectacle, which cannot be prolonged, where a great nation is invited to enter the league and then forced to wait at the door until the people inside the building have finished their private quarrel."

United States Liner Badly Damaged By Fire

Newport News, Va., March 10.—(AP)—The United States liner, America, formerly the German steamer Amerika, was gutted by fire today as she lay at her berth in the Newport News Shipbuilding and Dry Dock company, where she had recently been reconditioned. At midday the flames were not yet under control.

The fire started on the sea deck of the liner, which is one of the largest flying the American flag, and spread rapidly throughout the craft. At one time it appeared the flames had been gotten under control, but they broke out anew soon afterward and assistance of fire boats and tugs from nearby points was requested.

The passengers' quarters above the ship were virtually destroyed. The America was to have had her trial today and was scheduled to be delivered to her owners tomorrow. She has been at the ship yard several months and had been reconditioned and put in first class shape throughout. The fire loss is covered by insurance, said officials of the yard.

Newport News, Va., March 10.—(AP)—The United States liner, America, was badly damaged by fire today as she lay at her berth at the plant of the Newport News ship building and dry dock company, where she had just been reconditioned. The blaze is reported to have originated from a gasoline torch.

Kinston, New Bern Withdraw From The Golf Ass'n.

Rocky Mount, March 10.—With Kinston and New Bern having withdrawn from membership, a male vote of the four remaining cities in the Eastern Carolina Golf association, was being taken today on the admission of Henderson into the association. Rocky Mount, Greenville, Tarboro and Wilson are the remaining cities.

Your Rich Uncle,
War Times, War Heroes,
Death Can't Be Got,
A Great Miracle.
ARTHUR BRISBANE

NATIONS and individuals have financial troubles, but not your Uncle Sam. Secretary Mellon will sell for him, above par, five hundred millions of bonds, bearing 3 1/2 per cent interest. Owing more gold than all Europe, paying his war debt nearly a billion a year, Uncle Sam is in "easy circumstances."

If only he were allowed to remain at ease not dragged into the League of Nations through the World Court.

That League of Nations, planned for peace, already has a fight of its own.

Britain wanted Germany in the League. Germany was willing. France declared that Poland, Spain and Brazil should come in, with a full vote, as allies and sympathizers with France. Thus a "Latin bloc" would oppose and outweigh the Anglo-Germanic bloc.

The desire is to make Uncle Sam line up in the League with Germany and England, against the French bloc. Wouldn't it be more sensible for Uncle Sam to stay over here, pay his debts and mind his own business?

Men that should know better, say our entering the World Court has nothing to do with entering the League of Nations. But in Europe, where they know, all statesmen and newspapers of importance affirm United States entry into the World Court is equivalent to entering the League AND IMPOSES ON AMERICA THE OBLIGATIONS OF THE LEAGUE.

A National Council for the prevention of war asks children to name the world's twelve greatest heroes. Prizes of \$100 for each hero, are open to pupils in secondary and higher elementary schools everywhere.

Pathetic for the prevention of war council is this. All young people will mention military heroes first. Alexander, Caesar, Napoleon will be in every list. British boys will drag in Wellington. American boys will choose Washington. General Grant, Robert E. Lee, German boys will put Frederick the Great and Von Moltke at the top of the list.

Not one child in ten thousand, without prompting from his elders, would mention Pasteur, who gave his life to science. Galileo, who went to prison and risked torture for the truth, or any of the other great heroes. We live in a war age, so our heroes are all war heroes.

You won't change that in one generation, or with prizes of \$100 each, unfortunately.

What tune would you select for your funeral? There might be a thousand answers to that, ranging from the funeral march in "Aida" to "When Johnny Comes Marching Home Again."

A. M. Carlsle, British ship builder, who had his body cremated while he waits for "The Merry Widow" was played, wanted a cheerful funeral. "Nobody to grieve," no hymns, no prayers, no religious ceremony. Carlsle's daughter, Baroness Von Verden, fainted when the music started. No wonder. It is not easy to make a joke, or even a pleasant party of death.

Add one to the miracles of science: last Sunday morning, between 8 and 12 men in New York and London talked through the ether by wireless. The miracles recorded in various religions require complete faith.

Christians question the miracles performed by Mohammed, who threw handfuls of dust into the air and changed it into troops of cavalry, and Mohammedans question some of the Christian miracles. But nobody questions the greatest of recorded miracles, sending the human voice three thousand miles across the ocean.

There is something very convincing about positive science.

A Montreal scientist plans to burn up ice in the Allegheny River and free the gorge. Mysterious ice chemistry. Ice, like water, is one third oxygen. Oxygen is necessary to fire. No oxygen, no fire. Yet

combine two parts of hydrogen with one of oxygen and two gases become one liquid, and the "water" thus produced puts out fire.

GOVERNOR NOW OPTIMISTIC OVER RADIO QUESTION

Gov. McLean Confident That Wave Length Can Be Arranged For North Carolina Station.

Raleigh, March 10.—(AP)—"There is no question but that we will ultimately be able to arrange for a wave length for North Carolina's proposed radio broadcasting station," Governor McLean said today, upon his return from Washington where he conferred with officials of the Department of Commerce concerning the matter.

The Governor explained that there is now pending a bill which would give the Secretary of Commerce greater latitude in granting licenses to broadcast and that it was decided to await the passage of this bill. Should the bill in question not be passed the state will go ahead in pressing for action on its application for assignment of the wave length which is now won file in the Department of Commerce, Mr. McLean stated.

The Governor is optimistic of the outcome in any event and is that it is "just a matter of time" until the state will be in a position to go ahead with its plans for construction of a state owned and operated broadcasting station.

New York's Comptroller Spends Only 66c Per Week For Lunches

New York, March 10.—(INS)—Major General Charles W. Barry, who as comptroller of New York city, heads the world's largest corporation, lunches daily on a pint of milk, nutmeg and more. His luncheons cost 66 cents a week—11 cents a day.

The general, who formerly was a physician as well as a soldier, has a decided aversion to heavy meals. He refuses party invitations each week to banquets and formal dinners.

"I walk across Brooklyn bridge each day and then climb the five flights of stairs to my office," says the general. "I'm healthy and intend to remain that way."

2,149 NEWSPAPERS LISTED IN ENGLAND AND IRELAND

London, March 10.—(INS)—Great Britain and Ireland has 2,149 newspapers at the present time, according to the "Newspaper Press Directory," just issued here.

London has the largest number of newspapers of any individual town in the country, with 406, of which twenty-three are morning and five are evening newspapers. The English and Welsh provincial newspapers number 1,330, thirty seven morning and seventy nine evening, the rest being weeklies.

Scotland has 235 newspapers, including seven morning and nine evening, while Ireland has 162, including eight morning and six evening.

MOSCOW'S PERFECT IMPORTS ARE ONLY FROM AMERICA

Moscow, March 10.—(INS)—Of all the goods bought by the All Russian Central committee of Consumers Co-operatives, during the last year abroad, only those from America were 100 per cent perfect.

The committee announces that a check up of their purchases, which ran into millions of dollars, shows that American goods were uniformly good, while English commodities were next best, rating 99 per cent. French goods lacked 7 per cent of being perfect, while Austrian, German and Czechoslovakian supplies were 10 per cent bad.

MISSOURI FARMERS BUY MORE RADIOS THAN TRACTORS

St. Louis, March 10.—(INS)—More farmers in Missouri have radio sets than tractors on their farms, according to figures just made public by the United States department of commerce.

Of the 260,484 farmers in the state, only 12,091 own tractors, but 17,592 are equipped with radio receiving outfits, according to the department's figures. This is an increase of 4,553 in the number of tractors and 9,703 in the number of radio sets.

Airphone Links U. S. to England

Exactly fifty years from the day that Alexander Graham Bell (in center) invented the telephone, engineers of the American Telephone and Telegraph Co., the Radio Corporation and the British General Post Office talked across the Atlantic ocean for four hours over a wireless telephone. WEST HONORED STATE TOURNEY

Basketball Star Selected On The Second Team Of Class "A."

Following the basketball tournament held at the State College in Raleigh during the latter half of last week, in which the Greenville Ilhgs together with more than fifty other quints participated, in the first of all-tournament teams which there were two chosen from each of the three classes, Doug West, the local star forward, received the honors of being selected on the second team of Class "A."

For three years in high school athletics West has featured in and started in practically every event in which the locals have participated, and he had already received recognition among coaches of the eastern part of the state as a winner in baseball, football and basketball, and especially in the latter two. As a football back field man "Doug" is rated as far ahead of any player of the east in his forward passing, and his punting was equaled only by college stars.

This being West's last year in the local school, the athletic department will suffer a great loss, not only because of his absence in the lineup as a player, but he was recognized by his teammates as a leader and this has been one of the principal factors in the remarkable showing of the Greenville Ilhgs in athletics.

DRYS AIM GUNS ON PITTSBURGH'S CLUBS

Pittsburgh, March 10.—(INS)—Big guns of the federal prohibition agents and Pittsburgh police are trained on cabarets and supper clubs in this city.

Within a fortnight only seven or eight of the twenty cabarets here will be doing business, according to Safety Director James Clark, who plans to revoke their licenses.

On the other hand, Prohibition Administrator Frederick C. Baird has started padlock proceedings against nineteen cafes and supper clubs for alleged violation of the prohibition law.

"Riotous night life subsisting on liquor and indecent after the theatre parties must go," said Clark and Baird in announcing their joint anti-vice campaign.

UNCLE SAM WILL MARK GRAVE OF PATRICK GASS

Washington, March 10.—(INS)—Uncle Sam has been asked to erect a suitable marker over the grave of Patrick Gass, the last survivor of the famous Lewis and Clark expedition which blazed a trail a century ago into the Pacific Northwest.

Gass, who died at Wellsburg, W. Va., during the middle of the last century, has an unmarked grave in a local cemetery there. Several historical societies have urged that a monument be erected over the grave to carry out this plan, was sponsored in the senate by Senator Guy Goff, republican, of West Virginia.

LAST CALL TO PURCHASE COIN

"We Are Writing Our Record," Declares Mayor Clark. "And We Want It To Be 100 Per Cent."

The Stone Mountain Confederate Memorial belongs to the south. Every southern state is represented on its board of directors. Every southern state has designated five men of distinguished service to the Confederacy to be carved on Stone Mountain. The proceeds of the sale of coins in each state will go toward the carving of the heroes of that state.

Greenville will not be satisfied to have its name entered in this record with anything less than a hundred per cent response.

Memorial Hall, where these records will be kept will be hollowed out of solid granite. It will be the most imperishable safe deposit of records that was ever created by the hand of man. I urge you in the name of the Old North State to buy these coins, so our record will stand for all time as the measure of the south's response to a tribute bestowed upon the south's heroes, which has no parallel in the history of this or any other country.

D. M. CLARK, Mayor.

Delegates Named Attend Meet Of Women Voters

Charlotte, March 10.—Unanimous agreement was reached here at the morning session of the state organization of the League of Women Voters to hold an interest conference and school of citizenship at Asheville June 25 to July 2, inclusive. The convention without debate also adopted the report of the nominating committee of the organization.

Five delegates were named to represent North Carolina at the National convention of the League of Women Voters to be held in St. Louis, April 14. They are Mrs. Phil McMahon, of Charlotte; Mrs. Gertrude Weil, of Goldsboro; Mrs. Julius Conner, of Greensboro; Mrs. C. F. Gold, of Rutherford; and Mrs. M. D. Eitting, of Durham.

Henry Ford has gone to Florida, but we will wager he didn't make the trip in one of his cars.—Fayetteville Observer.

QUEEN'S ROSTER IS INCREASING

Queen Will Be Crowned Friday Night Of The Exposition April 9th.

Three more queens for the exposition came in this morning who will compete for the diamond rings to be given for the two winners, in the contest, which will open April 5 and continue through Thursday night, April 8. The queens will be crowned Friday night of the exposition, April 9.

Miss Margaret Horne will be "Miss Rocky Mount"; Miss Ruth Dunning will be known as Miss Anulander; Miss Ruth Whitfield will be Miss Robersonville. All of these young ladies are coming to the exposition with a strong following and will make the contest interesting along with the others who will be there from the many towns in Eastern North Carolina.

Orders for Will Rogers Tickets Coming In

Every mail is bringing orders for tickets for Will Rogers, Anna Case. Another block from Asheville came in this morning. It looks now as if the Beaulieu Chamber of Commerce will have a good sized section all to themselves. Where towns want to be blocked together the management will do this, if requested. Kinship: people will have an opportunity to get their tickets Thursday of this week at Skinner's from 9 a. m. to 1 p. m. The floor plans will then be carried to another town.

DECLARES PRESENT WINTER HAS BEEN GENERALLY MILD

Washington, March 10.—(AP)—The present winter has been officially declared by the weather bureau to have been "generally mild to abnormally warm with mostly light to moderate fall of snow."

One hundred and fifty-six of the 188 first order weather bureau stations in all sections of the country the temperature averaged normal or above, while it was the warmest winter in 50 years in some sections of the northwest. The average daily deficiency in temperature at the 32 stations enjoying sub normal temperatures was only one degree. The south had relatively the coldest weather.

The bureau declares that more than the usual number of gales occurred along the north Atlantic coast and the steamship lanes, while along the northern border generally high winds were frequent.

RADIO COMFORTS LAKE ERIE ISLANDERS MAROONED FROM LAND BY ICE

Sandusky, O., March 10.—(INS)—Between two and three thousand residents of the Lake Erie archipelago are confronted with isolation. The "ice bridge" that made travel between the islands and the mainland during the winter months possible has "gone out," having been broken and scattered by recent high winds. The broken, floating ice will not permit foot travel and prevents navigation.

Until the boats start running, and that may be several weeks, mail carriers must take their lives in their hands daily. Strong currents run and huge fields of broken ice threaten constantly. In the old days when the mail men failed to arrive, the islanders were cut off entirely from the rest of the world. But today the radio keeps the islanders' period of pre-spring isolation endurable.

The islands temporarily segregated from the mainland are Put-in-Bay, Keleys, Middle Bass, Green and several others, settled on the American side, and Pelee on the Canadian side.

NEW BERN AUTO TAX ORDINANCE HELD INVALID

Ordinance Imposed a City Tax Of \$5.00 Upon Auto Owners When Tax Should Not Exceed \$1.00.

Raleigh, March 10.—(AP)—The New Bern automobile tax ordinance today was held invalid by the state supreme court. The ordinance imposed a city tax of \$5 upon automobile owners. The court held it was in contradiction of the statute which provides that such municipal tax shall exceed \$1.00.

The case came up on an appeal by the state. Z. V. Jones was convicted of violation of the ordinance and Judge Abner Dunn held the law invalid. The court appealed to the higher court.

In making its decision the court points out that the tax is clearly one upon automobiles since it is levied upon the owner of a car rather than a driver's valid.

Decisions Of Supreme Court

Raleigh, March 10.—(AP)—Among decisions handed down by the supreme court are the following: State vs. Horne, Pitt county, no error. Overton vs. Highsmith, Pitt county, no error. Hicks - Taft Furniture Co. vs. Clark, Pitt county, no error. Greenville vs. Munford, Pitt county, affirmed. South Bros. vs. Edwards, Pitt county, affirmed. Commercial Banking and Trust Co. receiver, vs. Leggett, Pitt county, action dismissed.

CO-OPS ORDERED APPEAR ANSWER CHARGES OF FRAUD

Virginia Members Declare Signatures Were Obtained By False Representation.

Raleigh, March 10.—(AP)—The Tri-State Tobacco Cooperative association which operates in Virginia and the two Carolinas was today ordered by Federal Judge Isaac Meekins to appear in federal court on March 22 at Fayetteville to show cause why a receivership should not be appointed to take charge of the concern. Meanwhile the association is restrained from selling any tobacco.

The complaint was filed in the Federal court for the Eastern district of North Carolina today and a marshal of the court left shortly after the order was issued to serve the papers on Geo. A. Norwood, of Goldsboro, president.

The complainants in the case were listed as I. B. Farmer, J. H. Butcher, C. F. Lovelace, J. E. Gosney, J. H. Williams, all citizens of Virginia, and members of the association.

Wiley M. Person, of Franklin county, North Carolina, P. W. Gidwell, and the firm of Jon J. Horton appeared for the plaintiff. The plaintiff alleged that they signed co-operative contracts, which specified that by January 1, 1922, the association should secure one-half of the eligible growers as members in the three states or the contracts could be voided by any grower withdrawing who desired to do so. They further charged that such purported to be such a sign up included thousands of signatures which were obtained by false and fraudulent representation of the various agents sent out through the said three states by the organizers of said defendant association.

It charged the representatives made promises with reference to the amount of advances to be made on crops, that agents of the agricultural department of North Carolina were paid \$3 for each signature they secured while the tax payers of North Carolina paid them salaries for their regular duties and that other signatures had been bought for \$1 each. They charged that there were thousands of duplications in the sign up, "an effort to carry out the false and fraudulent scheme."

It further charged that the organization committee of the association on January 1, 1922 was aware that sufficient signatures had not been secured, that there were duplications, and that there had been fraud and misrepresentation, but that said organization committee reported to the growers, contracting that the signatures had been secured and the association was legally ready to proceed with business. The complaint further charged that there had been gross extravagance and waste in operation, making profits, estimated at \$827,000 and that because of the action of the association the prices of tobacco which it handled during the year 1922 through 1924 was \$16.28 a hundred pounds, while the real value was \$24.36 a hundred pounds.

The complaint concluded with the statement that the "unlawful and inefficient management by the directors has given rise to the greatest scandal in the industrial life of the state."

A GREAT ACCOMPLISHMENT

Truly this is an age of great invention and discoveries. The radio, one of the greatest wonders of the day, has been and will be a mystery for years to come. Now comes the real miracle, New York and London have talked to each other over the telephone. In commenting on this great accomplishment the New York World has the following to say:

"At last the miracle has been performed, and New York and London have talked to each other over the telephone. Four hours the circuit held, and conversation went on almost uninterrupted. And what lyrics went winging over the wires when the connection was set up? Did somebody read 'L'Allegro,' or Hamlet's soliloquy, or possibly an original ode composed especially for the occasion? Not at all. The parties to the colloquy of the century suddenly discovered that they had nothing to say. 'Good morning,' said one; 'Good afternoon,' said the other, cleverly alluding to the difference in time: 'It is raining here'; 'It is not raining here but it is rather foggy.' 'Can you get me a drink of Scotch if I visit your country?' And so on, for the whole precious four hours. Surely a sorry commentary on human triviality fills most of our waking hours. But was it? Ordinarily, such triviality fills most of our waking hours, and we do not think it oppressively trivial. Was it not that its seeming triviality was due to our own perception that something epic had been achieved calling for more than the usual amenities? Probably so. And probably, it was well that no effort was made to mark the event with rhymed hexameter; such things invariably miss their mark. Let the banalities stand on the record. In some vague way they are more appropriate than formal rhapsody. In proportion as they seemed inadequate, in just that proportion were we aware of the greatness of this latest feat of our engineers."

FIND OLD MARKET PLACE USED IN ANCIENT LONDON

London, March 10.—(INS.) The first definite clue as to the place of Roman London, which at the time supported a population of 100,000, has come to light during excavations in connection with rebuilding work in the city district of London. Three piers of what was an arcade and a section of outer wall were found fifteen feet below the surface, and experts confirm that they are part of the old forum.

NEW UNCLAIMED MAIL
New York, March 10.—(INS.) A trousseau, brand new, and for \$3, and thousands of other articles, ranging from glue to lipsticks, were auctioned off for a trifle of their original cost at an auction of unclaimed parcels just held at the main postoffice here.

There should be an intelligent study of city, county and state tax systems. Only by that can there come a fair distribution of the tax burdens. Some day, some man is going to present a proper tax law for the state, and thereby get his name written in the hall of fame. It takes courage, but there's hope that the courageous person will come along some of these days, kick the politicians out and write an equitable tax law.—Durham Herald.

MRS. N. W. OUTLAW SEEKS OFFICE

The many friends of Mrs. N. W. Outlaw in this city will be interested to know that she is a candidate for register of deeds of Wayne county. She has the best wishes of her friends here.

Mr. R. E. Corbett, superintendent of the county home stated this morning that 44 hogs weighing 9,745 pounds, had been killed at the home this year. This will more than supply the needs of the home. It is a curiosity to visit the smoke house and see the meat. Mr. Corbett is vitally interested in raising enough produce to supply the needs and save the county the expense of buying food.

SANS SOUCI BOOK CLUB MEETS

The following officers were elected for the coming year. President, Mrs. M. K. Blount; Vice Pres., Mrs. W. L. Hall; Secretary, Mrs. W. E. Hooker; Treasurer, Mrs. Frank Wilson; Librarian, Mrs. F. J. Forbes.

The club voted to have a float in the parade April 5th, when the Eastern Carolina Exposition opens here. Mrs. J. H. Blount, who has been an attractive guest of the club this year, was invited to become a member.

After the business session, books were passed, then followed the program. With Mrs. Marvin Blount leader we reviewed early North Carolina history, the unhappiness and turmoil among the colonists on the Cape Fear and their final rebellion over the Stamp Act.

Several club members read a short pageant portraying the unrest. Current Events, always an interesting feature of the program, were then given.

The hostess, assisted by Mrs. N. O. Warren, served a most delicious salad course with tea.

And they eat their rice and drink their tea; Oh, it is the people who live across the sea.

Who always pick tea. MARY GARRETT. Far Away in Italy

Far away in Italy, Across the dark blue sea, Are little girls and boys That have hair and eyes like me. Of course I'm not an Italian; Neither am I sorry to see Boys and girls that dance and shout

About their water lilies; They may play on land or on the sea, Or the large Vienna swan boats Where I would like to be. But you see I am an American, And they live far across the sea.

SCHOOL NEWS

Trinkle-toe, tinkle toe, When he does the Charleston, Oh! Oh! Oh! Toes turned in, Heels turned out. That boy knows what he's about.

With his hands in his pockets And his pockets in his pants, You ought to see that boy do the Charleston dance. He's the champion dancer of N. C. Gee! I wish I could be he.

Trinkle toe, tinkle toe, When he does the Charleston, Oh! Oh! Oh! I tell you that boy knows what he's about.

MY VISITOR

My friend, Margaret Cline, came to see me one day, And suggested that we go into the garden to play.

We climbed the bower, for we both loved flowers, And gathered the roses for hours and hours.

Mother served tea for Margaret and me, We sat down to drink it with hearts full of glee.

I want her again, for she is my friend, And thus my story will end. VERDA WILSON.

ECZEMA HEALED BY THIS SULPHUR

Any breaking out of the skin even fier, itching eczema can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist.

Because of its germ destroying properties, this sulphur instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. You can obtain a jar of Rowles Mentho-Sulphur from any good druggist.

Let a trial of Mentho-Sulphur show what this means to you. Send the coupon for it. Clip it now.

Consip of Staff Correspondents at World Centers of Population

By H. R. KNICKERBOCKER
INS Staff Correspondent
Moscow, March 10.—Because Gregory Kapan, superintendent of the Archangel Corporation, embezzled from an American firm and not from a government institution he was sentenced to only six months in jail instead of the ten years penitentiary usually given government embezzlers.

Kapan was given the job of organizing a branch in Archangel of the "Alamerica," an export firm operating as a concession in the Soviet Union. He was assigned 65,500 roubles forth at work. Three months after he went to work, and four found his books 7,302 roubles short.

Indicted under section 113 providing heavy punishment for dishonest officials, Kapan was sentenced under section 195 providing light punishment for private embezzlers. The court held that the Alamerica was operating on American capital, even though the government was a partner, and that therefore the crime was less heinous.

The Leningrad branch of the Allusion League of Athletes has taken over one of the central Leningrad churches. Installed seats, equipped an office and on the former site of the altar established a tribune for the dissemination of atheistic propaganda. The League report a growing membership, which has now reached 15,000 in Leningrad alone. The circulation of the League's organ "The Athlete" is now 25,000 in Leningrad.

The Peoples Commissariat of Trade has appointed a special commission to select 100 Soviet mechanical engineering students to go to America and study for one year Henry Ford's methods of production in his factories at Detroit. Ford is reported to have consented to the plan at the time the Soviets through the Amtorg, placed their recent order for 10,000 tractors with him.

The largest Soviet machine factory in the Northwestern district has introduced the Ford system, and reports an increase of production. The factory now produces 120 planes in 8 hours.

Organization is being completed for a Russo-German joint stock company, which together with the many Company Aero-Lloyd will provide a passenger airplane service between Berlin and Vladivostok. According to the Russian partners in the enterprise, the airplanes will make the 6,000 mile trip in about fifty hours, flying day and night at an average speed of 120 miles an hour.

Landing stations will be at Berlin, Koenigsberg, Smolensk, Moscow, Omsk, Irkutsk, and Vladivostok. Airplanes will be changed at Moscow, Omsk and Irkutsk.

Artic Relics Are Given To Museum

Chicago, March 9.—(AP.)—The pack of implements brought back from the north land by Eugene F. McDonald, in command of the S. S. Peary, of the MacMillan arctic expedition last summer, has proven inadequate to meet requests from universities and museums.

Here are some of the souvenirs he has distributed: Kiloute—A primitive musical instrument, made of walrus rib and walrus spleen. It can be played on by Angkok, miracle workers, and McDonald, who gave the Eskimos a radio concert, and MacMillan, who showed them moving pictures, were thus clasped.

Kayack—The Eskimauz one-man boat made of seal skin. Umiak—The women's boat, usually rowed by eight or ten women and steered by the oldest man in the village.

Unzook—Jointed harpoon, ivory tipped, harpoon line and float.

Ulu—Eskimauz woman's knife, which is buried with her when she dies.

Kapita—Man's reindeer jacket. Four bear skin pants and seal skin boots go with this costume.

The boys' suit of the eskimauz is made of blue fox with the polar bear pants, while the pants of the girls are made of seal skin. A beaded collar of an eskimauz girl is a beautiful example of primitive workmanship, each girl being her own dyer and designer. The feminine clothing includes a neck-ace and a hat.

The chief household utensil of the eskimauz, a soapstone lamp or stove, using a moss wick, is one of Commander McDonald's treasures. Others are an eskimauz pipe, ivory handled dog whip, soapstone dish, siverdown blankets, rut bird net, bullet mold and hand carved ivory.

Britishers Howl At Favor Of U. S. Pictures

London, March 10.—(AP.)—The "Hollywood Yoke" is the way the British film producers describe the American film ascendancy in Great Britain against which British interests are battling.

One billion persons are attending the 4,000 film houses in the islands each year and 85 per cent of the pictures they see are American made. In the British colonies American pictures have even a stronger hold.

Therein the British producers see a threat to British culture, even to British civilization, if one may believe all the fuss which the trade is making through the press.

Malaya's rubber yoke under which the people of the United States are sweating is not producing half the outcry that is emitted by press agents of the British film industry.

Hollywood manners, Hollywood slang, Hollywood morals—everything from Hollywood except the American accent—are being grafted on the British nation, these agents warn.

But far more temperate voices are heard. Lord Ashfield, who is head of the organization controlling more film theatres than any other in England, is official

spokesman for the majority of theatre owners who went on record in opposition to the plan to force British made films upon the public by means of legislation. He says the public cannot be forced to pay to see films which it does not like.

However, he is much opposed to the block system of booking, which ties theatres up to take a certain number of pictures in order to get features which it must have.

Colonel Vernon Willey, president of the Federation of British Industries, believes British films will never have a fair chance in British houses until this system is broken up and a special quota of British is required to be on every picture program. He has the backing of British film manufacturers who have not been able to compete in their home market with the American product.

Colonel Willey says a majority of the British theatres are now booked up fully for 12 to 18 months through energetic American agents and that British films have no chance to break in unless there be legislation in their favor. But many of the theatre owners reply that if British pictures are forced upon them they must face bankruptcy as the public will not go to see them.

Film regulation threatens to become a problem in party politics in Great Britain.

Increased Raw Rubber Values Save Britishers

Washington, March 10.—(INS)—While American foreign trade went ahead of 1924 by more than \$200,000,000 last year, the anticipated improvement in British overseas commerce was not entirely realized, according to advices from London received by the Department of Commerce.

While a number of industries of Britain and some export commodities showed marked improvement, a fact frequently lost sight of is the setback in coal and iron and steel, which had a marked influence on the entire commercial picture. It was pointed out by the American commercial attaché's office.

The value of goods imported into the United Kingdom in 1925 reached 1,322,838,000 pounds sterling, an

advance of 3.5 per cent over the preceding year.

The increase is accounted for by an expansion of 200 per cent in the value of raw rubber an advance in the combined values of non-ferrous metals and increase in automobile imports.

In the automotive import the United States probably had a big share. Figures on automobile value reached 11,200,848 pounds in 1925, ahead of the preceding year by over 3,000,000 pounds.

The raw rubber imports jumped from 8,270,967 pounds sterling in 1924 to 28,184,482 pounds last year, while non-ferrous metals and their products went from 32,717,304 pounds to 38,141,960 pounds.

The year was marked by two important restrictive tariffs, the restoration on July 1, of the McKenna duty of 33 1/3 per cent on automobiles, and a protective tariff of 33 1/3 per cent imposed December 22, on imports of cutlery, hardware, implements and instruments.

WHITE'S TODAY

"Three Women," now being shown at White's Theatre, shows how good a picture can be when made under the supervision of a faultless director, Ernst Lubitsch, director of "The Marriage Circle," has done his usual excellent work in the production of a picture that everyone should see.

He has chosen an exceptional cast to work with, a cast worthy of a great director, and an unusual plot. May McAvoy, Marie Prevost and Pauline Frederick share the tri-stellar honors. Lew Cody, Mary Carr, Willard Louis and Pierre Gendron are some of the other brilliant players.

"Three Women" is a perfect combination of unusual plot, excellent acting and great direction. Don't miss it.

NEW LAW FIRM IS ANNOUNCED

Messrs. M. K. Blount and Dink James, local attorneys, have announced a consolidation of their interests under the firm name of Blount & James, Attorneys at Law.

Mr. Blount, the senior member of the new partnership, is a son of M. O. Blount, of Bethel, and has enjoyed an enviable practice before the local bar for the past 12 years; the firm name of Marvin K. Blount. Mr. James is the son of the late W. B. James and the nephew of Col. F. G. James, of this city, and prior to this time has been associated with Mr. Blount in his office.

Both members of the new partnership are prominent and have a wide and valued acquaintance throughout this and adjoining sections and effected this consolidation for the better service to their wide clientele.

To Put Stop To "Floating" Of Oysters

Albany, N. Y., March 10.—(INS)—Bernie A. Pyrke, head of the state department of farms and markets, has a new task ahead of him. He is planning to prevent the watering of oysters following requests from seafood lovers.

Complaints have been lodged with Pyrke's department that when a person buys a quart of oysters he has to pay for too much water.

The practice of adding water to oysters is known as "floating" and means a greater profit on the sale, according to Commissioner Pyrke.

"As soon as oysters are taken from the shell they are washed, placed in containers and are then referred to as solid meats," said Commissioner Pyrke. "There is comparatively small percentage of liquid at this time, probably not more than 5 per cent."

A year ago the department of farms and markets launched a crusade to stop the "soaking" of scallops. Scores of dealers were fined, and Pyrke believes the practice was broken up.

48-Hour Week For Women Being Urged

Albany, N. Y., March 10.—(INS)—Women are taking more of an interest in the sessions of the legislature this year than ever before.

A bill providing for a 48 hour week for women and minors in industry has developed into a spirited battle, among the women. One group of women are for the measure while another group, claiming to represent the working women of the state, are fighting it.

The women have also decided to take part in the water power fight, which is raging between Governor Al Smith and the republican legislative leaders. They are opposed to the proposal of the state water power commission to lease the state's power sites on the St. Lawrence and Niagara rivers to private corporations for development.

Governor Smith favors state ownership and state development of the power sites.

Drake Estate Fund Finds Iowa Suckers

Des Moines, March 10.—(INS)—The "Drake estate" fund continues to find contributors, although postal inspectors have likened it to the famous Spanish prisoner fraud which for a score or more of years has drained the small savings of thousands of people.

Four citizens here who saw a chance for rich reward in contributions to a fund to enable

the "rightful" heir to win in the courts some of the most valuable land in England, land which the "good Queen Bess" gave to the bold and adventurous Sir Francis Drake for his services to the Crown, now are suing in the courts themselves, alleging fraud.

Postal inspectors, who began an investigation of reports that 1,200 people in Des Moines and vicinity were contributing \$1,000 weekly to the scheme, undertook their task wearily. They assert that people have been warned many times of the futility of their effort to get rich quick in this manner.

The subscriber is promised, it

is alleged, that he will share in the vast estate when it is finally awarded to the rightful owners, in proportion to the financial contribution to the fight.

CZECH ENGINEERS PLAN AN ARTIFICIAL LAKE

Prague, March 8.—(INS)—Leading Czech-Slovakian engineers have completed the outlines of an extensive project, which is supported by the Czech-Slovakian government, for the construction of an artificial lake in the barren mountainous district of northeast Bohemia.

Water drawn from the lake

will make productive some 45,000 acres of land suitable for agricultural purposes. The lake will be in a valley, and will be filled by the rivers Aupa and Mettau. About 250 farmers and peasants will have to give up their holdings to make way for the construction of the lake, but they will be given land in other localities.

GOOD NEWS

Nine Extra Years of Life

HEALTH is improving—disease is decreasing—life is lengthening. You and your family have a better chance to live long and happily than people ever had before in the history of the world.

Splendid gains have been made in the United States and Canada within the last thirteen years. Stated in an insurance man's language, five years have been added to the average expectation of life.

But more encouraging—in the same period, nearly nine years were added to the life expectation of Metropolitan Industrial Policyholders—a gain, over the general average, of four extra years.

How was this done?—Largely through the inspiring work of our Metropolitan men and women. They sent trained nurses to the homes of millions of sick Policy-

holders. They fought disease and taught the well how to keep well.

Your Health in 1926

Use the helps offered by medical science to prevent disease. You need never fear typhoid. Inoculation will prevent it. Your children need never have diphtheria. Toxin-antitoxin treatments will safeguard them. Smallpox will not touch your family if all are vaccinated when necessary. One by one, dread diseases are being conquered. In ten years the tuberculosis death rate has been reduced more than one-half. Five years ago the diphtheria death rate alone was higher than that today for diphtheria, scarlet fever, measles and whooping cough combined.
