WILL INVESTIGATE THE LEGALITY OF EXECUTIVE ORDER

The Senate Judiciary Committee Will Investigate Coolidge's Dry Enforcement Order

Washington, May 26.—(AP)—The controversy raging over President's Coolidge's order authorizing extension of Federal authorities to state, county and city police officers working on prohibition cases, had advanced today to the point where its legality will be investigated by the Senate Judiciary Committee.

In addition unless it is revoked within a few days, Representative Hill, Republican, of Maryland, the wet leader in the House plans to call up his resolution introduced yesterday to prohibit employment of Federal officers by state, or of state officers by Federal Government.

The general inquiry, which will be conducted under a resolution by Senator King, Democrat, of Utah, will have as its purpose to ascertain the legal status of the order "to enable the Senate to determine whether legislation is advisable or necessary" in connection with enforcement policy it embodies.

Meanwhile those opposed to the order are awaiting with considerable interest to see whether any different action will follow the White House pronouncement that while the President did not regard it as an invasion of state's rights nor as inconsistent with the national enforcement policy he was willing to modify it if its operation threatened to lead to harmful consequences.

Seven Nations Figure in Magna Charta Day

St. Paul, Minn., May 26.—(AP)—An American has furnished most of the stimulus for observance of the anniversary of Magna Charta Day this year in several English speaking lands. He is J. W. Hamilton of St. Paul, now in England directly concerned with arousing interest in the International Magna Charta Day association, of which he is founder and secretary.

It was principally through Mr. Hamilton's efforts that the first observance of the day was held at the site of the signing of the Magna Charta at Runnymede, England, which was granted on June 15, 1215.

The association was organized fifteen years ago "as an instrument of world peace and to promote the unity of all English-speaking nations." President Coolidge is honorary president for the United States.

"Magna Charta is the background of all that we have," the President said in giving his endorsement to the movement.

The main purpose of the association, Mr. Hamilton said "is to bring about an annual commemoration by the English speaking nations of the common origin of their liberties in the observance of June 15 as Magna Charta Day."

Prominent Capitalist Dies in Asheville

Asheville, May 26.—(AP)—Tench C. Cox, prominent capitalist of this section, died suddenly here early today at his home. He suffered a cerebral hemorrhage. He was 49 years old.

Mr. Cox, who was accounted as one of the wealthiest citizens in this section of the country, suffered a sudden attack of illness at midnight and improved slightly thereafter when a physician was called.

Another attack was suffered early today from which he did not rally.

FRENCH PROFESSORS RECEIVE SMALL PAY

Paris, May 26.—(AP)—No professor at the University of Paris is paid as much as \$150 a month. The highest salary at recent exchange was \$1200 a year, which is paid only to first class professors. Second class gets \$1100, and third class, \$650.

TODAY

(Copyright 1926) Coolidge's Strength. Gov. Smith Hard at Work. Foch Wants Fortresses. King George Will Last. By ARTHUR BRISBANE

The defeat of Senator Stanfield in Oregon, persuades the New York Times that President Coolidge is weaker today than he was two years ago.

The Times is wrong, and Coolidge is stronger today than he has ever been.

McKinley in Illinois. Pepper in Pennsylvania, and now Stanfield in Oregon are defeated because the people do not want any world court nonsense, or any indirect approach to the League of Nations.

The administration ought to have known that, since the people voted twice, with seven million votes to spare, against the League.

The President's advisers paid little attention to what was told them by newspaper men that knew something about public opinion. They will listen now that they get the news direct from primary voters.

The people know that the President has been unduly influenced by noisy sentimentalists that want Uncle Sam to depend on the kindness of others instead of depending on his own strength and by quietly working international financiers that want this country tied up with Europe for the sake of the "bankers' rackets."

You remember how the League of Nations was to end war forever, and lately you have been reading about Marshal Pilsudski, the Polish leader, who plans to do for Poland what Mussolini has done for Italy.

Twelve years ago at a meeting in Paris, the same Pilsudski, ardent Polish patriot, said: "Today, the sword alone weighs in the destinies of nations." Pilsudski still recognizes the man that comes up, sword in hand.

The hopes of optimistic dreamers are far from reality, yet Foch knows war. Commanding the Allied armies, he put an end to the last big one. To the demand for general disarmament in Europe, he replied that France should begin now a ten-year programme of fortress building on the frontier between Alsace and Germany.

Governor Smith, of New York, according to Louis Selbold, who knows, strives to do away with the Democratic two-thirds rule. If he succeeds, Democrats will nominate their president by a majority vote of the delegates, as Republicans do. Governor Smith's friends think such a change would make it easy for him to rush through a majority vote and get the nomination in 1928.

But that isn't certain. While Governor Smith's friends are perfecting their plans, others opposed to the governor are doing the same. Mr. McAdoo, or some other candidate might step in and hastily get that bare majority vote. It is going to be a hot and angry fight.

Count Von Bernstorff is right when he says the German knitters won't come back, wrong in his belief that fifty years hence there will be no kings anywhere "except on playing cards."

The British Empire will hold on to its king and emperor, not that it objects to democracy, for Britain's government is more thoroughly democratic than any other on earth, but because a king is a valuable figure head.

If the British chose a president in place of a king, the empire would not hold together long. One of the first results might be the loss of Canada. Canadians would say, "since you have decided to have a republic on those little islands, we shall have one of our own here in North America."

The British royal family, which has common sense and uses it, is popular in Great Britain and in all the English speaking colonies. If any Britisher is more popular in the empire than King George, it is his son, the Prince of Wales. While we wait for King here, we are bound to admit that royalty is a valuable figure head. (Continued on page 6)

DROUGHT, HEAT COMBINE RUIN CROPS OF STATE

Virtually No Rain Has Fallen in Central Carolina for 44 Days

Raleigh, May 26.—(AP)—Unrelenting drought and mid-summer heat today were combining to ruin the crops of Central North Carolina, according to reports from the Department of Agriculture. For 44 days virtually no rain has fallen in the section and yesterday and today excessive heat has been added to make the farmer's outlook even darker. In many localities prayers were being offered for rain, it was reported.

The local weather bureau, however, declared that no rain was in sight unless it might come in the form of local thunder showers.

Tobacco plants were reported to be dying almost as fast as they were planted in the careed fields and some damage was reported to the cotton, corn and peach crops. In a few more days the crops will be damaged to such an extent that rain, should it come, will be too late, it was stated today in the Department of Agriculture. Rain has been fairly plentiful in the Coastal Plain section, the Department said.

Currituck Man Takes Own Life

Elizabeth City, May 26.—(AP)—Lee Dunton, 65, formerly Currituck County Representative in the General Assembly, and long active in the business affairs of the county, took his life at his home on Pine Island, Currituck county, yesterday afternoon, it was learned here today.

Mr. Dunton is said to have been despondent as a result of ill health. He is reported to have arisen from the dinner table, walked into his front yard without hitting at his intention, and then shot himself through the head. Death resulted immediately.

SWARM OF BEES LED TO ARCHAEOLOGICAL FINDINGS

Anahelm, Cal., May 26.—(AP)—Milton McMillan, geologist, saw a swarm of bees entering a small aperture in the wall of a canyon near here. He set off a dynamite charge expecting to uncover a honey cache.

Instead he blasted into a tomb contained a well preserved human skeleton and other objects of archaeological interest.

In a clay jug, hermetically sealed were thousands of vegetable seeds. On many of the largest there were hieroglyphics, presumably carved by members of an early race.

The skeleton was farther back in the large cavern, seated upright on a niche in the rock. A footprint in the rock measured fifteen inches in length.

Buenos Aires Arrives Miami

Miami, Fla., May 26.—(AP)—Piloted by Senor Bernardo Dugan, the sea plane Buenos Aires arrived here this afternoon at 12:15 o'clock on its 6,100 mile flight from New York to Buenos Aires.

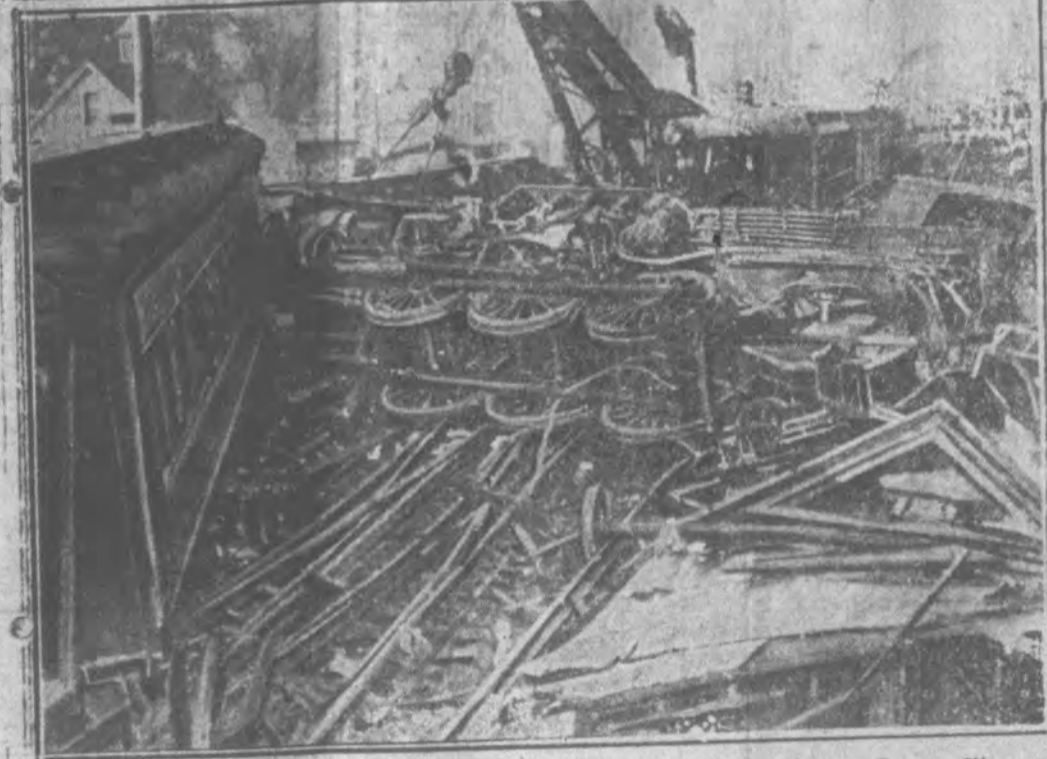

The plane tucked head winds during the greater part of the journey here after hopping off at six o'clock this morning from Charleston, S. C.

One Dead, Six Seriously Injured In Auto Accident

Knoxville, Tenn., May 26.—(AP)—One dead and six seriously injured, several of whom are not expected to live, was the toll of an automobile wreck this morning at Whitehead Hill, between Roane Mountain and Elizabethtown. The party was enroute from Marion, S. C., to Johnson City, Tenn., to work in a box factory.

Geometry: A mathematical science affected by the high school boy to reveal his father's ignorance.—Danville Bee.

Boston-New York Flier Wrecked, 25 Hurt

This picture shows the wreckage resulting when the "Owl," New York to Boston flier, ran into a freight train at Mansfield, Mass. One trainman was killed and twenty-five persons were injured.

Capture Five Stills in Past Two Weeks

Deputy Sheriff W. B. Paramore and officer Hodges have, during the past two weeks, conducted five successful raids and captured five stills. The first was located in Pacto township and the other four in Chicod township. Two were steam plants and the capacities of the five ranged from 60 to 125 gallons.

Only two of the stills were in operation, 1,200 gallons of beer were poured out.

Three Noted Cornhuskers End College Sports

Lincoln, Neb., May 26.—(AP)—The final event of the Missouri Valley Conference Track and Field championships today will see three of Nebraska's greatest athletes remove the scarlet of the Cornhuskers forever.

They are Roland Locke, record-breaking sprinter, Edwin ("Big Ed") Weir, for three years an all-American, football tackle, and John ("Choppy") Rhodes, a record athlete.

hunker eleven, played a great husker eleven, played a great part in twice upsetting Notre Dame's wooden teams. Weir has been so highly regarded that he was elected captain of the football team two seasons in succession, breaking a forty-year precedent. As a hurdler, he defeated the Olympic stars, Taylor and Riley, and set a new Kansas relay record last year.

Locke's fleetness of foot was but one of his assets on the gridiron. His ableness in the sprints however, has been unfettered on the cinder path as records in the century and 220 dashes now evidence. He is a great student and lover of books. He will be a lawyer.

Rhodes, star back on the eleven, also has been a baseball pitcher and basketball player. As an all-around track scorer he became champion in the Illinois indoor games this year.

ENGLAND IS CRICKET MAD AS POPULAR SPORT STARTS

London, May 26.—(AP)—England is cricket mad this summer. A team representing Australia is here to defend the mythical "ashes" or win the rubber of five Test Matches to be played between the "Aussies" and English. Interest taken in these games can only be compared to that which grips America during the progress of the World Series.

The term "ashes" was the invention of a newspaper in 1882 after England had lost a memorable game against the Australians by seven runs. Arising out of that defeat the newspaper published an "In-Memoriam" as follows: "In affectionate remembrance of English cricket which died at the Oval on August 29, 1882. Deeply lamented by a large circle of sorrowing friends and acquaintances. R. I. P. N. B.—The body will be cremated, and the ashes taken to Australia." The game will last for three days from 11 a. m. until 6:30 p. m. with forty-five minutes interval for lunch and fifteen minutes for tea.

MOUNT TOKAICHI CEASES FLOWING

100 Dead and More Than 200 Injured Recovered From Mud and Lava

Tokyo, May 26.—(AP)—Mount Tokaichi, the long slumbering volcano in the island of Hokkaido which erupted Monday with disastrous results both in lives lost and material damage, ceased flowing, but voluminous clouds of smoke still issued from the crater. Tokyo advices last night said that 100 dead and more than 200 injured had been recovered from the mud, lava and rock sent down the side of the mountain during the eruption and that about 1,000 farmers in the agricultural district were missing.

Interest Growing In Revival Cannon Swamp School

A practically full house greeted Rev. F. B. Brandenberg at the Cannon School House last night, where he is holding a revival meeting, and more interest is manifested each night as the services go on. The subject for tonight's sermon will be "The Righteous Giving Way to the Sinner."

Rev. Brandenberg in his sermon, last night, "The Power of Prayer," urged the Christian people to ever be connected with the great power house of God, which is maintained by prayer, and in this way defy Satan and sin.

On Thursday night a large delegation from Greenville is expected to be present and the subject for the evening will be "Sin." The public is urged to attend the meeting each evening at 8:15.

SEEKS TEST THE CONSTITUTIONALLY INHERITANCE TAX

Will File Application With Court for Permission to Test the Law

Tallahassee, Fla., May 26.—(AP)—Governor John W. Martin today authorized Attorney General Johnson to institute proceedings in the United States Supreme Court to test the constitutionality of the Federal inheritance tax law.

The Governor in a letter gave the Attorney General authority to join the collection of such taxes in the state of Florida. The Attorney General announced he expected to leave for Washington Monday to file application with the court for permission to test the law.

Tobacco Men to Hold Annual Meet in Kinston

The annual convention of the Eastern Carolina Warehouse Association will be held at the country club, Kinston, on Wednesday, June 2, at 11:30 o'clock. Every auction warehouseman is urged to be present.

An interesting program has been arranged and will be followed by a barbecue dinner.

Supreme Court Decisions Be Handed Down Tomorrow

Raleigh, May 26.—(AP)—The regular weekly batch of opinions handed down ordinarily on Wednesday will not come down this week earlier than tomorrow afternoon, it was stated at the Supreme Court today.

Throughout the term opinions came down every Wednesday, but the court concluded hearings for the spring term last week when cases from the 20th Judicial District were argued and will hand down the remainder of the opinions whenever the decisions are written.

GRADUATES CREATE FUND FOR FIRST SENIOR CHILD

Northfield, Minn., May 26.—(AP)—Back in 1914 a group of students at Carleton college here collected a fund and turned it over to the college for investment until a son or daughter of one of their number is a senior at Carleton.

Meanwhile the fund is growing as interest on the investment accumulates and the originators of the fund, scattered throughout the country, are vying in a good natured contest to see whose son or daughter shall win the prize.

If two seniors qualify for the fund at the same time, the sum will be divided. Sponsors of the fund now are scattered from Washington state to Washington, D. C. One of the number is a missionary in Transvaal, South Africa.

ERUPTIONS CAUSE OF JOY NOT SORROW, IN HAWAII

Honolulu, May 26.—(AP)—There are several sure signs of volcanic activity in Hawaii. One of them is quakes. A second is sulphur fumes. A third is a rise in taxi rates.

Dr. T. A. Jaggar, eminent volcanologist, does not regard eruptions in Hawaii as alarming, no do the citizens. In fact, by and large this phenomenon "sets people wild with joy." The steamship agencies, the hotels, the taxi-drivers and everybody else begins to grin.

The reason is that quakes, although they often number 150 a day in the vicinity of Kilauea, are so gentle that no one is annoyed. The taxi-drivers do a tremendous business taking tourists to view the impending eruption or the one already under way and the hotels and steamship companies get their share of the business.

This is one year when "Red" Grange should be able to give up delivering ice and buy some.—Durham Sun.

PRESBYTERIANS TAKE UP QUESTION FOREIGN MISSIONS

Interest Centers About Report of Standing Committee on Stewardship to be Made Tonight

Pensacola, Fla., May 26.—(AP)—With the home missions report ed disposed of, the General Assembly of the Presbyterian church in the United States today returned to the question of foreign missions. The report of the standing committee on this subject was brought before the Assembly yesterday but was not completed.

The General Assembly reaffirmed its right and intention to make at any time an official examination through its credited representatives into the teaching in Nanking Seminary with a view to being assured of the conservative character and sound teaching of the seminary.

Reports of standing committees on Bible Class and Theological seminaries were made today and adopted without debate. Interest centered about the report of the standing committee on Stewardship, which is to be read tonight by Dr. J. S. Foster, of Winston-Salem, N. C. That portion of the report dealing with special gifts was expected to provoke the greatest discussion tonight. It was understood that majority and minority reports would be presented.

BAPTISTS VOTE TABLE AMENDMENT TO BY-LAWS OF THE CHURCH

Washington, May 26.—(AP)—The Northern Baptist church convention here today voted to table an amendment to the by-laws of the church requiring immersion as a pre-requisite to membership in the church.

Modernists and those favoring compromise of the Fundamentalist-Modernist controversy supported the motion to table the amendment which was proposed at the Seattle convention last year. It would have defined the Baptist church as one composed only of those who had been immersed.

Riffian Chief Coming Into the French Lines

Fes, French Morocco, May 26.—(AP)—It was officially announced this afternoon that Abd-el-Krim, the Riffian chief, was coming into the French lines.

Krim will be taken to Taza where the instructions of the French Resident General are awaited. Krim, it is announced, put himself and his property under the protection of France.

Prior to notifying the French of his surrender the Riffian chief returned all French, Spanish and native prisoners who had been held in the Riffian country.

Half of Town Swept Away, Reservoir Bursts

Tokyo, May 26.—(AP)—The Mayama Orregato reservoir in Northern Japan has burst its banks and swept away half of the town of Kitora, according to reports received here today. The town has a population of 7,000 and it is feared that the casualty list may be heavy.

TO MAKE SHRINE OF HOUSE NOTED IN COLONIAL DAYS

Newport News, Va., May 26.—(AP)—An old square brick house in Surrey county, reputed to be the oldest in the United States, has been purchased by the Surrey chapter, Daughters of the American Revolution, to be converted into a shrine to perpetuate memories of this section where American history had its beginnings.

The land on which the house stands was the original grant from the King of England and the home was built for John Rolfe, husband of Pocahontas.

The building is in a remarkable state of preservation. For many years it has been owned and occupied by a negro man.

SAYS CARROLL'S REPUTATION FOR VERACITY GOOD

Al Jolson, Black Face Comedian, to Be Questioned Concerning Party at the Theatre

New York, May 26.—(AP)—Augustus Thomas, playwright, was the first witness today in the perjury trial of Earl Carroll, theatrical producer, in connection with the grand jury investigation of the Carroll "bath tub" party. He testified that Carroll's reputation for veracity was excellent. Carroll appeared in court with his wife and eight members of the Vanities chorus, who were expected to be called as defense witnesses. Herbert C. Smythe, chief counsel for the defense, announced that after Mr. Thomas had been questioned he expected to call Al Jolson, the black face comedian.

New York, May 26.—(AP)—Testimony in the perjury trial of Earl Carroll in connection with grand jury investigation of his "bath tub" party ended this afternoon when the defense rested. The Government rested its case yesterday.

Immediately after resting counsel started summing up the case and it was believed possible it might reach the jury by tonight. Herbert C. Smythe, chief counsel for Carroll, moved for a direct acquittal and the motion to dismiss the remaining indictments against him. Both motions were denied.

Ladrones Prosper Under Japan's Rule

Tokyo, May 26.—(A.S.)—High praise for Japan's administration of the Ladrones Islands was spoken by H. G. Hornbostel, who was a recent visitor in Tokio after spending three years in the Ladrones in the service of the Bishop Museum of Honolulu. The Ladrones were placed under Japanese mandate by the Versailles peace treaty.

Since Japan took over the islands, Hornbostel declared, a vast amount of work has been done to modernize agricultural and industrial conditions. Cultivation of coconuts and sugar plantations has reached a degree of productivity unknown during the pre-war regime of German control. Many Japanese immigrants are coming to the islands, Hornbostel said.

The shorigines of the Ladrones according to Hornbostel, were Polynesian and their language and folklore are very similar to the Hawaiians. The inhabitants now, however, are mainly Caucasian, due to the influx of people from Western nations after the discovery of the islands by Magellan.

During his stay on the islands Hornbostel made many interesting excavations, discovering many relics that throw an interesting light on the ancient customs of the natives. Evidences of an old Chinese civilization were seen in the finding of a statue of Buddha undoubtedly many thousands of years old.

Summary Says Weather Conditions Cotton Unfavorable

Washington, May 26.—(AP)—The Department of Agriculture's summary of weather conditions in Southern states for the week ended yesterday says the weather is unfavorable for cotton in the Carolinas, Virginia and Tennessee. Tobacco transplanting also has been generally delayed in the South Atlantic district, due to lack of moisture and it was also too dry for satisfactory growth.

Conditions by states include that for North Carolina as follows: Truck, corn, tobacco, potatoes and other crops improved by rain over most of the lower half of the Coastal Plain, but drought is having a serious effect over much of the state. The cotton deteriorated generally except for fair conditions in small areas. Germination very poor.

PALESTINE GETS 40,000 JEWS IN LAST 18 MONTHS

Number of Immigrants is Regulated by Work and Business Opportunities

Jerusalem, May 26.—(INS)—Palestine is again rapidly becoming the country of the Jews.

For the last eighteen months Jews have been coming into the Holy Land at the rate of 3,000 to 4,000 a month. Last year witnessed the entry of some 40,000 people. These came mostly from Eastern Europe, especially from Poland, where economic pressure is forcing the Jews to abandon their homes.

This great stream of immigrants has made Palestine the largest absorber of the wandering Jew. Almost three times as many Jews as entered the United States settled in Palestine during the immigration year ending June, 1925. America admitted just over 10,000 Jews, Palestine absorbed over 30,000.

Although there is no quota in Palestine, the number of immigrants admitted is regulated strictly by the opportunities for work and business. The Government issues a certain number of certificates bi-yearly upon information furnished by the Zionist Organization. These numbers are determined by Palestine's changing capacity for labor; when employment chances are high, immigration is allowed peak limits; when, due to seasonal unemployment or any passing economic depression, the chances of work shrink, there is also a proportionate diminution in the number of immigration certificates applied for.

A remarkable feature of the Jewish development of Palestine is that it is being achieved with no appreciable Government aid.

The Jewish National Home is being built by the Jewish people. The two Zionist funds, the Jewish National and the Palestine Foundation, have together invested about \$20,000,000 in Palestine, the former during its twenty years' existence, and the latter during the last five years. Other Zionist bodies have invested almost \$10,000,000.

In addition, Baron Edmond de Rothschild, Palestine's greatest single benefactor, is estimated to have put into the country about \$20,000,000 during the last thirty years. He was the first to establish Jewish colonies in all parts of Palestine.

Jewish capital is making of Palestine a great industrial center. Heavy industries have been built around Haifa, including a cement factory, a flour mill, an oil and soap works. Factories of every description are fast springing up in Tel-Aviv, the only Jewish municipality in the world, with a population of about 40,000. Tel-Aviv is situated near the ancient Jaffa, the orange-growing center of Palestine.

Palestine has a population of less than 900,000, of whom only 150,000 are present day Jews. By the present rate of immigration Jews will in the course of a generation equal the Arabs in number, when the Jewish Homeland will become a fact.

REJOICES DAUGHTER CAN RESUME STUDIES

"Everything my little 12 year old girl ate distressed her; even a glass of water would cause her to belch gas and she was unable to go to school for nearly a year. I bought her a bottle of MAYR'S and since taking it she is eating an out of house and home and is attending school again." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold by all druggists.

TO KEEP ILL-HEALTH AWAY FROM YOUR DOOR IS JUST WHAT MODERN PLUMBING'S FOR

S. T. HICKS
Dickerson Avenue, Phone 603

Dear Voter:

I take this method of informing my many friends throughout the county, and the general voting public, that I will be a candidate for re-election to the office of Sheriff of Pitt County in the Democratic Primary to be held in June.

In addition to this announcement I wish to express my sincere appreciation for the honor conferred upon me by electing me to this office at the last election, and, if again nominated and elected, I promise you a continuance of my best services.

Sincerely yours,
A. C. JACKSON

German Railways In Favorable Showing

Berlin, May 26.—(INS)—Most of the German railway passengers now travel in the fourth class.

Statistics issued by the Reich Railways, which is being managed by a Dawes Committee, show a steady increase of fourth-class passengers at the expense of third-class passengers. Second and first class is much less frequented now than before the war.

Otherwise the report of the German Railway is very favorable. Passenger service has increased by 33 per cent as against the war time, although Germany, under the Versailles Treaty lost 10.4 per cent of her territory, and with it, 14.9 per cent of her railways. Altogether 2,106 million passengers have been conveyed on German railways during 1925. The revenues have steadily increased as compared to 1924 figures. Total of revenues in 1925 was by 48.3 per cent higher than in 1913-14. It is also remarkable that passenger traffic to foreign countries has doubled during the last year.

Teh report on goods traffic is unfavorable, due to the decrease of German exports.

divided into two categories; those who come to study and take the time to appreciate and love the country; and those who come simply because the exchange is low, depend upon it in automobiles, eat delicious meals for five or six times less than what they would pay at home and leave it without ever seeing or learning anything worth while. The former are the students coming principally from Portugal, Brazil, Roumania and the Balkans, all of which are fast disappearing from the universities and schools because of lack of means to live in the capital. The latter are North Americans, English, Dutch and rich Spaniards.

Two kinds of identity cards should be furnished, giving right to two different tariffs: one of a bright golden tint for foreigners who on the gold standard; another in white for the Frenchman and poor foreigner who is still using paper money. The elite of the tourists would still continue to visit France because they love the little country and all that she contains. The elite of the poor friends could also thus retreat.

Paris to Save Franc by Charging Double

Paris, May 26.—(INS)—Two prices for everything is the best method suggested by Maurice de Waleffe in the Paris Midl for combating the depreciation of the franc.

Foreigners visiting France, according to the writer, should be

13 YEAR OLD PRESIDENTIAL CANDIDATE PLANNING HIS STUDIES FIT WHITE HOUSE

Chicago, May 26.—(INS)—Modeling his life after that of Abraham Lincoln, Milton R. Moskow, 13 years old, of San Francisco, is a candidate for President of the United States. He announced his candidacy when five years old.

"This Pacific coast boy has just been nominated for the American Youth Award, by the Sesqui-Centennial International Exposition which will be held in Philadelphia from June 1 to December 1, in celebration of 150 years of national independence," said Frank R. Mulford, representative of the exposition in Chicago.

His sponsors are Mayor James Rolph and City Attorney J. J. O'Toole of San Francisco, taking Lincoln as his ideal, he intends, according to his sponsors, to study law and fit himself for public office as a stepping stone to the White House.

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of S. A. Evans, deceased, late of Pitt County this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned within twelve months from this date or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This 26th day of May, 1926.
John T. Evans, Adm.

New Again!
—these oxfords stay snug at the ankle

REMEMBER, there is more to preserving an oxford's good looks than keeping the leather rich and lustrous. Because NUNN-BUSH Oxfords are ankle-fashioned, their first-day neatness endures as long as they are worn. Ankle-fashioning banishes unsightly gapping at the ankle and slipping at heel. The final stroke of the polishing cloth settles the fact that they are new again!

For the Third Time

Commander Donald B. MacMillan has ordered from Swift & Company the meat products for his latest Arctic Expedition.

Commander MacMillan's scientific studies in the Polar Regions have brought him world-wide recognition.

The noted explorer realizes the necessity of having the best foods and supplies in order that members of his party may enjoy the good health necessary to carry on their labors.

In 1923 Swift & Company was proud to be called upon to furnish the supplies for the expedition.

In 1925 a repeat order for the Geographic Society trip was a satisfaction.

In ordering for the trip scheduled to start from Wiscasset, Maine, on June 1st, Commander MacMillan said: "We want supplies such as you have furnished before, the best as always and packed with the usual Swift care."

When the Bowdoin and the Schem sail, Swift's Premium Hams and Bacon, Brookfield Butter and "Silverleaf" Brand Pure Lard, and other products will help to furnish many appetizing Arctic meals.

Swift & Company, U. S. A.

LOCALS

Mr. and Mrs. C. A. White have returned from Beaufort where they have been spending the past few days.

Rev. and Mrs. W. H. Moore and little daughter, and Mrs. Keeter, of Kinston, were here yesterday.

G. A. Barden, of New Bern, was a Greenville visitor yesterday.

Miss Hannah Dixon returned yesterday from a visit in Winston-Salem.

S. D. Hooker, of Virginia Beach, spent yesterday in this city.

Dr. and Mrs. C. O'H. Laughinghouse have returned from Atlantic City and Lynchburg, Va.

Mr. and Mrs. R. C. Stokes, Jr., and children, of Lynchburg, Va., are visiting Mrs. Stokes' parents, Dr. and Mrs. C. O'H. Laughinghouse.

E. H. Foley, of Warsaw, was a Greenville visitor today.

MRS. A. J. MOORE
HOSTESS TO BRIDGE CLUB

Mrs. A. J. Moore was hostess to the members of her bridge club this morning at her home on Fourth street. The home was attractively decorated with spring flowers.

Mrs. L. H. Bowling, making the top score, was presented a deck of cards.

Mrs. J. J. Summerell and Mrs. L. G. Cooper were guests of the club.

After a number of interesting progressions, the hostess served a tempting luncheon.

ATTEND REVIVAL SERVICES VANCEBORO

Messrs. Wiley Brown, W. L. Best, K. W. Cobb, R. C. Flanagan, A. G. Walters, Henry Renfrew, J. F. Brinkley, Sr., Frank Johnston, J. J. Harrington and George Bland attended the revival services in Vanceboro last night.

W. O. W. TO MEET THURSDAY EVENING

The Woodmen of the World will hold a meeting in the Woodmen's Hall Thursday night at 8 o'clock. All members are requested to attend. Visiting members are cordially invited.

S. A. Clark, Clerk

PRAYER SERVICES AT CHRISTIAN CHURCH

Prayer meeting in the Christian church tonight at eight o'clock. Everybody welcome to the services.

The Woman's Auxiliary of the American Legion will sell poppies Friday and Saturday.

WHITEHURST-GRIFFIN

Fairmont, May 25.—Miss Kathleen Griffin and Mr. Luther Whitehurst of Greenville, N. C., were married in Greenville Saturday, May 8. Mrs. Whitehurst is a daughter of the late Mrs. Mollie Griffin and was a member of the senior class of E. C. T. C. Greenville until Easter. She will live at her home here until their home is completed in Greenville. Mr. Whitehurst is employed by the government.

FLOWERS FOR MEMORIAL DAY

All who will give flowers with which to decorate the graves of the soldiers of the World War will please send them to Miss Henna Whitehead Saturday afternoon or early Sunday morning. The members of the American Legion will take the flowers to the various parts of the county Sunday.

HARDING MEMORIAL TOMB

President Harding's Memorial Tomb at Marion will be Dedicated With Appropriate Ceremonies on Decoration Day, May 30. When Vice-President Dawes, Using the Same Trowel Which President Harding Used in Laying the Masonic Cornerstone at Ketchikan, Alaska, in 1923, will officiate. Many Notable Are Expected to be Present.

Richest Indians Host Other Tribes

Pawhuska, Okla., May 26.—(INS)—What is forecast as the greatest archery tournament ever held in the West will be a picturesque feature of the Indian convention here the week beginning June 7, when delegates from all the North American tribes will be guests of the Oklahoma Osages, the world's richest red men.

Though the bow and arrow as weapons have been somewhat outdistanced in popularity since the native Americans rode the plains country, the Indians still retain their familiarity with them. This was disclosed by the responses that came from tribesmen throughout the country when J. G. Sanders, secretary of the Society of Oklahoma Indians, sponsoring the convention, offered to put prospective contestants in touch with expert bow and arrow makers.

An amazing number replied that not only were they equipped, but in practice too.

Because no other American tribe is so well qualified to entertain, the Osages feel justified in expecting the biggest gathering of red men in the history of the nation. They will welcome their

brothers through the lips of Bacon Hind, former chief, always a notable orator, but now, at 72, full of experience at the possession of a new bride.

GRAY-HEADS AND NOT YOUTH HAUNT LONDON, NIGHT CLUBS

London, May 26.—(AP)—Gray heads, or heads that would be gray if nature had not been assisted, are so numerous in London night clubs that newspapers generally agree with the statement of the late Sir Squire Bancroft that the "young-man-about-town" no longer exists in England.

The Kit-Cat and other well-known London night clubs are the haunts of the middle-aged and aged. Practically none of the dancers are really young. This is true of the women as well as the men.

Youth has its fling in the popular dance halls where the cost is less and it is not necessary to be so formally dressed.

Divorce records indicate that many a man discovers after marriage he has been hugging a delusion.—Tampa Tribune.

DIRECTOR OF "SONG AND DANCE MAN" WAS ONCE A VAUDEVILLE ARTIST

It is told that when Herbert Brenon read the film script of George Cohan's "The Song and Dance Man" to his cast, a tear trickled down his cheek. This Mr. Brenon denies, but he owns that the story, which he has just finished picturing, appealed to him tremendously—and for more than artistic reasons.

Twenty-five years or more ago Mr. Brenon was office boy for Joseph Vion, the biggest booking agent of the day for vaudeville, or variety acts. There he had his first insight into the lives of song and dance teams and made the early acquaintance of such great exponents as Weber and Fields, McIntyre and Heath, Fred Niblo, and Ross and Fenton. At the same time he was earning extra money and learning the theatre as an usher in the old Weber & Fields Theatre, which stood next to Daly's famous house at Broadway and Twenty-eighth street.

"The Song and Dance Man" comes to White's Theatre Thursday.

The River Amazon has the widest mouth of all rivers, but there are other Amazons whose mouths need no extension.—Greensboro Record.

ELEPHANT HUNT IN KENYA IS A SPORT FOR WEALTHY

New Orleans, May 26.—(AP)—Stories of quests by Americans for big game in the jungles of Africa have been brought to New Orleans by Arva Melvin Warren, United States consul at Nairobi, Kenya, who is here on leave of absence.

"When I left there had arrived ten parties of Americans eager to shoot," said Mr. Warren.

The consul explained that the sport is one for the wealthy. The average cost of a month's shooting is \$2,000. The license to shoot is \$500 and a special license must be procured to kill elephant and rhinoceros.

OZONE AND NOT CUPID IS SPRING'S LOVE TONIC

London, May 26.—(AP)—Cupid has nothing to do with the epidemic of lovelomaking which comes with spring.

It is ozone, and not the god of love, so British scientists told the Royal Society, which fires poets and lovers at the passing of winter.

There is no sense in psychoanalyzing frisky youth to determine why it acts differently in the spring as these scientists said in the spring months there is the maximum amount of ozone in the air, with the result that lezels, frisk and all nature has more energy than in any other season.

FAMOUS DOCTOR SAYS U. S. MEDICS HAVE REACHED PAR WITH EUROPE'S BEST

Los Angeles, May 26.—(INS)—American medical men need bow no longer to the supremacy which Europe has held so long in surgery and medical science, for the United States is now on a plane with Europe in these respects.

This was the declaration here of Dr. R. Bouwer, professor of clinical neurology at the University of Amsterdam, Holland, who with his wife is here on his way to the East, where he will deliver the famous Herter and Harvey lectures at Baltimore, New York, Washington, D. C., Boston, Philadelphia, Chicago and other large cities.

The practice of calling in alienists in criminal cases was a forward step, but it has been horribly abused, Dr. Bouwer declared. "Some attorneys plead insanity when their client is charged with stealing," he said.

NEW HAWAIIAN HARBOR TO AID FREIGHT TRAFFIC

Honolulu, May 26.—(INS)—Dredgers working on the Kallhi channel project have recently cut that waterway through from Honolulu harbor to Kallhi harbor thus opening up additional harbor area approximately as large as Honolulu harbor proper.

The new channel will be immediately put to use to allow the bringing in of steel barges loaded with fresh pineapples from the islands of Molokai and Lanai. For the present the channel will be kept at 100 feet width, but plans for harbor development call for its widening to 300 feet. Kallhi harbor under these plans will be used mainly for freight vessels.

No land was found in the Arctic by the Amundsen expedition. A blow to realtors.—Mobile News Item.

ENVELOPE LININGS NEWEST OBJECT FOR COLLECTIONS

Chicago, May 26.—(AP)—Four weeks business mail received in one Chicago office yielded 105 different envelope linings of distinctive color and decorative design. This statistical note was made by Miss Yolanda Schaurberger, who has devised a new hobby—the collection of such linings.

Her collection discloses an evidently thriving branch of industrial art. These linings are like the modest violet but none the less elaborate. They range from gold and old rose to dried grey. Some reproduce the artistic form of King Tut's era. Upon others caper, fadists and gentlemen in the flowered brocade of Pompadour's day.

Feet Are as Varied as Faces

No. 2

This is one of a series of twenty illustrated advertisements explaining the difference between the many types of feet, and suggesting the proper footwear for each.

THE VEINS OF THE FOOT

Poor circulation of blood through the veins of the foot is often cause of improper fitting shoes, and may be said to be the direct cause of cold feet.

Too narrow a shoe, too short a shoe; laced too tight around instep and ankle; an improper last for the foot (that is, a straight last on a crooked foot, or a swing last on a straight foot) are some of the causes of retarded circulation which in turn produces numbness and cold feet.

This trouble is avoided when the shoe fits so that the foot may have perfect freedom of motion in the shoe. It's this freedom of motion that permits circulation.

Pitt Shoe Co. salespeople have studied feet; they know feet; they know how to fit shoes so that you may enjoy complete foot comfort and resulting better general health.

Let us fit you in a pair of Arch Preserver Shoes. The shoe that we can recommend to cure most foot troubles. Pretty styles for men and women carried in stock all the time.

Pitt Shoe Co.

The jury system would be ideal if jurors knew which set of liars to believe.

Self-control, in some men, is limited to complete control of the conscience.

"Rain that begins at night seldom lasts long." Same way with good resolutions.

He hasn't the true reform temperament unless his normal state is one of indignation.

There are times when every normal boy thinks he is an intelligent minority of one.

No office can confer more dignity than that possessed by the smallest man who ever held it.

Still, despite the multiplicity of laws it doesn't require a bit more effort to be a decent citizen.

MAKING USE OF VACATION

The United States public health service offers some advice that is timely at the inception of the vacation season. For indoor workers it indorses the open air change, and for those whose occupation keeps them outdoors, it would reverse the prescription. This seems logical if vacation means a change. That certainly is what it should mean. There is rest in doing something different from what we do every day. There is recreation in doing for a small part of the day something different from what we are engaged in doing most of the day. A vacation is desirable in the way of change to keep one in good shape for the regular vocation.

The health service also urges the vacationist to get new ideas. Therein is the advantage of seeking new environment in vacation time, meeting new and strange people and getting the point of view of others. All folks are interesting if touched on the right side. Few indeed but have some information of value to impart if it lies only in the cocksureness of the speaker that he has plumbed the depths of human knowledge. The information that isn't true often is as interesting as something that it. In the smoking room of a Pullman one may hear much delivered as by an authority that has little foundation but it is entertaining and not less enlightening as specimens of public opinion. On the other hand one may hear much of truth developed as the result of ex-

perience. The vacationist who keeps eyes and ears open and is as friendly as other are willing to be with him, short of lending money, will be able to pick up information that will be enlightening in various ways. None has more knowledge than one needs and there is none but needs more.

WHEN YOUTH FARES FORTH

It is now only a matter of a few days until the usual army of boys and girls, eyes but recently freed from the strain of examinations and hands clutching diplomas or degrees, will "stand on the threshold of life," as the baccaiaureate speakers are so fond of saying.

The old folks are inclined to sit back in their comfortable chairs and smile at the youngsters as the latter confidently step forth to meet the new problems and associations, so suddenly thrust upon them. "Poor fledglings," one can hear them say, "here they are again, thinking they can reform the world—and the world will not be reformed."

But the older folks' smiles and criticisms contain more of envy than of pity. How often have they wished they had more of the idealism, nay, dauntless courage, of youth! But they have lost it through the companionship of those wary elders. Age and Experience; and their precious little ambitions have been obscured amid the growing responsibilities of taking care of the sick, educating the children and performing the other duties of maturity.

What a pity the youngsters cannot profit by the experience of the older folks and thereby avoid the countless pitfalls which drag down so many promising youths! And an equal pity that the oldsters cannot retain their former enthusiasm. Probably the world would see fewer failures then, fewer misfits. But the law of life demands otherwise. After all, each age has its compensations: Age its past, and Youth its future. And when all is said the present crop of youngsters will produce tomorrow's great men as well as its failures. May the latter be scarce.

TOM MOORE AND BESSIE LOVE IN THE HERBERT BRENON PRODUCTION "THE SONG AND DANCE MAN" A PARAMOUNT PICTURE

WHITES THURSDAY

The Stork Brings More Rural Babies Than in the City

(Chicago, Ill., May 26.—(INS)—The farm home.

The Sears-Roebuck Foundation, The Sears-Roebuck Foundation, which has just completed a survey under the direction of Mrs. Mary C. Puncke, reveals that seventy-one per cent of rural babies are born in farm homes. Twenty-nine per cent arrive de luxe in hospitals.

The survey, conducted with the aid of farm women themselves, covers 13,000 rural families. But despite fresh air, sunshine, and abundant milk the death rate of babies in the country is higher than that in crowded cities. Why this is true is pointed out by Mrs. Puncke in her report.

"The average distance between the farm family and the doctor," she says "is seven miles. The nearest hospital, on an average, is twenty-one miles.

"Of the seventy-one per cent of babies born in the home, a doctor was in attendance upon seventy-five per cent. A midwife attended seventeen per cent, and eight per cent of the little R. F. D. babies came into the world without benefit of either physician, midwife or trained nurse.

"Only thirty-two per cent of these isolated farm homes may have the services of a visiting nurse, and in but thirty-nine per cent is there any attempt at organized health work such as is carried on in towns and cities.

"The Range states—Montana, Wyoming, Colorado, New Mexico, Idaho, Utah, Nevada and Arizona, have the worst health handicap. The average distance a farm family must go, or send, for a doctor is sixteen miles, and the trip to the nearest hospital averages two-

ty-six miles. Nevertheless forty-two per cent of the Rocky Mountain babies open their eyes first in a hospital.

"Out of the fifty-two per cent born at home, however, only about half are welcomed by the doctor. Twenty-six per cent of the births are attended by a midwife, and the other twenty-two per cent are without any medical attention. Only fifteen per cent of these isolated communities employ a public health nurse.

"The farm homes of the New England States, Minnesota, Wisconsin and Michigan have easiest access to hospitals—an average of fifteen miles. The corn country families of Iowa, Missouri, Illinois, Indiana and Ohio have a physician within four miles, on an average."

Out where the tall corn grows according to the survey, the babies have the best chance to grow up into flappers or sheiks, or what have you. Only twenty-one per cent of the babies in five states in the corn belt are born in hospitals, but of the seventy-nine per cent born at home, ninety-three per cent are brought into the world under conditions sanctioned by medical science. Midwives attend six per cent of the births and one per cent of the babies have no outside help in entering the world.

SERIES OF BEETHOVEN WORKS TO FEATURE HIS CENTENARY

Cincinnati, May 26.—(AP)—With a season of Beethoven's music, the Cincinnati Symphony orchestra's fall concerts will commemorate the centenary of the great master's death.

It program will be featured by eight of Beethoven's symphonies and his triple concerto. The ninth symphony was rendered

AMERICAN INDUSTRY JOINS CO-OP. RESEARCH

Washington, May 25.—(AP)—American industries are estimated by officials of the Bureau of Standards to be spending half a million dollars a year in co-operative researches with the Bureau to promote high standards of products.

Under the Research Associate Plan, adopted shortly after the war when the increasing demand for highly trained technical men threatened depletion of the Bureau staff, a manufacturer places a graduate physicist, chemist or engineer, at the Bureau for one or more years to carry on, with government experts, an investigation of a particular industry.

The co-operative method, however, is looked upon as somewhat more certain of practical results since both the views of the government and private industrial experts are woven into the tests.

CAST IN MOVIE BRINGS OLD FRIENDS TOGETHER

Culver City, Cal., May 26.—(AP)—There are three members of the cast and the director of the motion picture production "Lovely Mary" here who are willing to admit time passes rapidly, but not too fast to reunite old friends.

About ten years ago, when Bessie Love was just becoming known in the movies, she played a melodramatic role in which she walked in with a small child to ask a father's forgiveness for past sins.

Mary Jane Irving was the child and today she has a part with Miss Love in the picture.

On the night of March 26, when Beethoven will have been dead one hundred years, the Symphony will produce the Beethoven opera, "Fidelio." The cast will be selected from the foremost of grand opera stars.

Fritz Renier, conductor, will open the season in September. Toledo, Cleveland and Washington will be visited by the orchestra for the first time in several years. The symphony also will return to New York, Buffalo, Philadelphia, Pittsburgh, Indianapolis, Dayton and other cities.

AUSTRIANS SUE TO COLLECT ON ROYAL PENSIONS

Servants of Old Emperor Starving on Small Pay in Valueless Money

VIENNA, May 26.—(INS)—The Hapsburg fortune left by the Emperor Francis Joseph has been attacked by the army of his pensioned retainers, who have brought suit to force the trustees to pay the pensions in gold instead of the almost worthless paper kronen they now receive. The loyal pensioners mostly depend on the estates of the Hapsburgs for their livelihood and are now poverty-stricken, for the money they receive has now only a small fraction of its former value and is not enough to keep them in food.

The grandchildren of the Emperor Francis Joseph, the Princesses Ghisla and Windisch-Graetz and the Prince Franz Salvator, who received the bulk of the royal millions, have steadily refused to increase the pensions or to give new subsidies. The fight of the minions who waited on the late emperor to go on a gold basis was started several years ago but only now they have succeeded in getting their case before the court.

Furthermore, the pensioners are claiming large sums of money which they say Francis Joseph left them and which it is claimed the Emperor Karl agreed to pay. The gifts amount to several thousand gold kronen and range in sum from a hundred to

ten thousand kronen, which is claimed by Eugen Ketterl, one-time valet to Francis Joseph.

The gifts, it seems, were not paid immediately after the death of the Emperor because of the light conditions of the Hapsburg excoquer. The abdication of Karl postponed again the payment of the gifts, for although he did not control the estates, his influence would have worked beneficially for the ex-servants. The value of the estates has decreased considerably since the war, which is given by the heirs as the reason they cannot pay more to the pensioned servants. The plaintiffs claim to have found out that the estates are now in a flourishing condition and capable of paying off the legacies and putting the annuities in gold.

Accordingly every afternoon Pope Pius descends by lift from his personal apartments to the Corillo di San Damaso, where under the porch of the grand staircase three awaits either a carriage or a motor car. On week days he takes a carriage drawn by two horses; ordinarily on Sundays he rides in a motor to the place where he begins his walk.

The Pope rides through the Corillo di San Damaso and the Corillo di Pappalli from which the way descends via a short tunnel into the Vatican Gardens. In passing he receives the salutes of the gendarmes and the Swiss guards, those picturesque soldiers garbed in the famous uniforms designed by Michael Angelo, and once in the garden, descends from his carriage or motor car, as the case may be to begin his daily stroll.

The Pontiff always wears a broad-brimmed red hat and according to the season, either a white Greek mantle with two capes or a red woolen cloak. He makes a round of three visits. First he pauses before a cage which is the home of a gorgeous American parrot. Having fed this bird he saunters on a short distance where he is usually accosted by a kitten which makes its home in the garden.

Then on to a fountain, the Pope may be seen feeding the various animals and birds. He is usually seen to watch, remembering perhaps that St. Francis of Assisi was not above preaching to the birds and that Francis' contemporary, St. Anthony of Padua, preached to

the fishes.

Having made his daily rounds, the Pope takes his carriage or motor car, at the turn where he left it and returns to his apartments.

GREENVILLE COTTON MILLS, INC.—Certificate of Decrease Of Issued and Outstanding Common Capital Stock.

To Whom It May Concern: Greenville Cotton Mills, incorporated, a Corporation duly created, organized and existing under and by virtue of the laws of the State of North Carolina, do hereby certify that pursuant to resolutions duly and regularly passed and adopted by its Directors and stockholders, and by appropriate action, as provided by law, has reduced the number of the shares of its common capital stock issued and outstanding from TWENTY-FIVE HUNDRED (2500) shares to ONE THOUSAND (1000) shares, which reduction was accomplished by the surrender by every holder of such common stock of his shares, and the issue to him in place thereof, of one share of common capital stock for every five shares so surrendered and by the sale of five hundred shares.

Nothing herein contained, however, shall be construed as a reduction of the authorized capital stock of said Corporation as fixed in its charter or certificate of incorporation as amended.

IN TESTIMONY WHEREOF, Greenville Cotton Mills, Incorporated, has caused this certificate to be sealed with its common seal signed in its name by its President, and attested by its Secretary, this 14th day of April, 1926.

Greenville Cotton Mills, Inc.
By J. A. Long, Pres.

Attest:
R. L. Harris, Secy.
North Carolina—Pitt County:

This is to certify that on this 14th day of April, 1926, before me a Notary Public of Pitt County, North Carolina, personally appeared R. L. Harris, to me known, and known to me to be the Secretary of Greenville Cotton Mills, Incorporated, the Corporation mentioned in and which executed the foregoing certificate, who being by me duly sworn on his oath, says that he is the Secretary of said Corporation, and that the seal affixed to said certificate is its common seal, the same being well known to him; that J. A. Long is the President of said Corporation, and signed said certificate and affixed said seal thereto, and delivered said certificate by authority of the Board of Directors and of the stockholders of said Corporation, as and for his voluntary act and deed, and the voluntary act and deed of said Corporation in the presence of said Secretary who thereupon subscribed his name thereto.

WITNESS my hand and notarial seal this 14th day of April, 1926.

Your Chance to MAKE MONEY on the Growing Popularity of VIRGINIA BEACH

Everyone knows that thousands of people from Washington, Baltimore, Richmond, Raleigh, and the Carolinas, as well as the residents of Norfolk, come to Virginia Beach every year—some make several trips a year. And hundreds of people come regularly from as far away as Ohio, Missouri and Canada to this already famous resort.

More and more people come to Virginia Beach every year and hundreds are making Virginia Beach their year round home. The climate is healthful, invigorating, and equable at all seasons. The annual mean temperature for the last 50 years has been 59°. Few places have so many wholesome attractions for amusement seekers. Good churches, schools, and a country club

and golf course nationally famed. In recent years the hotels at Virginia Beach have been so overcrowded that the United Hotel Company is now building the \$1,500,000 Cavalier Hotel. Many other new hotels are now being built, and in a few years Virginia Beach will get thousands of people that now go to Atlantic City.

More development is going on at Virginia Beach than at any spot along the Atlantic Coast, and OCEAN SHORES is near or adjoins everything worth while at Virginia Beach. Moreover, OCEAN SHORE DRIVE, a new \$500,000 concrete road, is now being constructed through OCEAN SHORES and it is certain to immediately enhance the values of OCEAN SHORES property.

CONTINUOUS INCREASE IN VALUES

Lots all around OCEAN SHORES have increased in value beyond the expectation of the most enthusiastic investors. Most of the lots around OCEAN SHORES have doubled in value. Some lots near OCEAN SHORES are now held at five times the cost six months ago. Population makes profits in real estate. Virginia Beach is the fastest growing spot in Virginia—one of the fastest growing spots in the East.

You will be glad that you took our advice and selected your lots on the Opening Sale day—Saturday, May 29th.

VAN PATTEN, INC.
Pioneers in Virginia Beach Properties

Executive Offices: Norfolk Sales Office: Virginia Beach Office:
812-814 Bankers' Trust Bldg., Norfolk, Va. Monticello Hotel Atlantic Avenue and 17th St.

The Opening Sale of Lots at OCEAN SHORES will be held on Saturday MAY 29th

OCEAN SHORES is adjacent to property where the new Hotel Cavalier is being built, and it is also alongside the Princess Anne and Cavalier Golf courses. So OCEAN SHORES is the place where land values are bound to be 'way beyond what they will be on opening day. Our large staff of representatives will be ready to show you OCEAN SHORES, and extend to you every courtesy without any obligation.

YOU'LL BE GLAD YOU CAME

But, if you cannot be at OCEAN SHORES on Saturday, May 29th, let us reserve your lots. Write on the coupon below how many lots you would like to have. We will make a selection and send you maps, prices and other data for your decision.

NOTICE OF SALE OF AUTOMOBILE

To Charlie Saulsbery, or any other Person, Firm or Corporation—at 12 o'clock noon, June 11th, 1926, I will offer for sale at public auction, one Ford Touring Automobile, Motor number 84, 1912 North Carolina State license number 262216, said sale to be made for the purpose of satisfying the Town of Greenville for the storage of said automobile. Said sale to be at the City Hall.

The above described automobile was picked up by the Police Department, of Greenville, N. C. March 20th, 1926, on Pitt St. and did contain a quantity of stolen goods which was claimed by the owner of said goods.

HANFORD'S Balsam of Myrrh

will help that pain

USE IT ON THE HARD CASES!

Relieve those strained muscles by a few applications of this wonderful healing liniment. It has often soothed away the pain where other liniments have failed. For strains or sprains, stiff joints or bruises, lumbago and lame back—use Hanford's Balsam of Myrrh.

For Cuts and Open Wounds—Hanford's Balsam of Myrrh is antiseptic. It covers a wound with a thin protective coating that prevents infection and has remarkable healing powers.

Hanford's Balsam of Myrrh is put up in 35c, 65c and \$1.25 sizes, especially suited for use on domestic animals.

35c a bottle. Keep a bottle always on hand.

HANFORD'S Balsam of Myrrh

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

London, May 26.—(INS)—The Countess of Westmoreland has been explaining a mysterious gift of healing possessed by her.

She says there is a curious, unknown power which enables a person to throw out color rays capable of healing a suffering man or woman score of miles away.

She claims to have exercised power successfully for years past. According to her the cure is not a matter of faith—in many instances the patient has been totally unaware of any treatment.

The Countess explains that when she first became acquainted with this power, she determined to try it on a friend suffering from a throat affection, who had been through several operations. She did not inform him of her intentions.

"For a few minutes each day," says the Countess, "I projected my imagination to his throat,

swathing it, in my mind's eye, in a gauze of beautiful blue, the color of hope and brightness, and endeavoring to will that it should vitalize and heal.

"In a week or two the sufferer was completely cured, and I learned that he began to get better on the day I started to use the powers which I possessed.

"It all seems mysterious, but there is no doubt in my mind that some of us do possess—probably without knowing it—the power to throw out color rays that heal.

"I have not attempted to cure organic disease by color rays, nor to mend broken limbs, but in both cases I have been able to give considerable help towards recovery. Perhaps some day we shall know more about this strange phenomenon, which is as baffling as, to some people, it will appear incredible."

Rev. James Barr, Labor M. P. for Motherwell, challenged F. A. Macquisten, M. P., and leading lawyer, to prove himself more efficient as a farm worker. Macquisten accepted the challenge.

The test is that each must spend a day in the fields mowing grass with a scythe.

The challenge arose on a discussion in Parliament on the Burning of Heather Bill. Macquisten tried to pour scorn on the efforts of the Scottish farm

workers, and urged, that he, a middle-aged lawyer could turn out more work in a day than the average farm-hand.

Barr is a farmer's son, who spent his youth on the fields, and is therefore able to give a good account of himself.

Lord Dewar, the Scotch whist-knight, has become London's most famous raconteur and maker of epigrams.

Born in Perth, created a Baronet in 1917 and elevated to the peerage two years later, the first Baron Dewar is more sought after than any other man in London to inject gaiety into dinner parties and meetings of all kinds which, without his facile wit, might prove as dull as the product of Lord Dewar's distilleries—with the alcohol removed.

Lord Dewar has never yet failed those who are expecting him to provide sparkling verbal entertainment, bright remarks rolling off his tongue in never-ending streams and with no apparent effort on his part.

Here are some samples: Personality is the art of making people believe you.

With burglars, bolsheviks and income tax, the only way to save money is to spend it.

No matter what you do, someone knew you would do it.

If all of us knew everything about the rest of us, none of us would have anything to do with any of them.

If you are lavish, you are a spendthrift; if you practice economy, you are Scotch; if you preach economy, you are English.

TODAY

(Continued from page 1) is a cheap institution. It makes Englishmen do their best for their country all their lives for the sake of a title that costs nothing.

And the whole royal family doesn't cost, in a year, as much as any first rate grafter costs the United States.

Religious troubles continue in Mexico. The High Mexicaned Jose Zarate, Bishop of Huehula accused of sedition by the Mexican Government, was compelled by soldiers, to walk toward the end of the journey, an officer allowed the bishop to use an automobile, when the latter complained of illness.

Bishop Zarate says the charges cause him no uneasiness. The Mexican Government warns all clergymen, Protestants included, of foreign birth, that they will be deported if they fail to comply with the laws and the constitution. This means that no foreign priest or clergyman may exercise his religious functions in Mexico, hereafter.

Mexico charges that foreign priests have taught Mexican children and others to look upon outside authority as higher than that of the Mexican government. This is denied.

The American Society for the

Promotion of Aviation offers one thousand to the first boy or girl, under eighteen that flies from Boston to San Francisco.

Almost any normal boy or girl could win that prize, if the right flying machine were available. It is as easy to run a flying machine as an automobile, about one hour to learn flying, seven hours to learn how to land.

Young people, possessing perfect balance, will fly better than their elders. Before long, boys of fifteen will fly across the continent, to and from schools and colleges.

Show Boats Are Now Calling At Ohio River Towns

Cincinnati, May 26.—(AP)—Calliope's shrill musical blasts reverberate in the small river towns these warm days as the show boats, embarked on a promising season, pull along shore and cast anchor.

In the fleet of floating theatres, from the biggest and oldest to the smallest, there are nine of the flat-bottomed vessels in operation this year. They will cruise the rivers from the extreme points on the Ohio, the Allegheny and the Illinois to the lowest points on the south on the Mississippi.

Show boats have played the river settlements for nearly half a century. Some showmen virtually have made homes of them and grown old with them. Their business, many of the owners say, is as flourishing now as ever.

The largest afloat this year is the Cotton Blossom with a seating capacity of 2,000. The Cotton Blossom has replaced the Golden Rod, which formerly was the largest.

Then comes Franch's New Sensation. On its up-river cruise it anchored here for a brief lay-over, took on a number of new people engaged for the summer and went on its way.

The showboats usually pass by Cincinnati unnoticed. When occasionally they stop the calliope is silent and there are no crowds to greet them. Their repertoire never finds an audience in Cincinnati, although they do have patronage in some of the larger cities along the course.

It is mostly in the small river town, where theatres are few or not at all that the calliope awakens the countryside and draws the population for miles around to the river bank.

The larger boats that have bands unload the show and invoke a holiday. The stars come ashore and meet the crowd and the band spends the afternoon parading about town, collecting an audience for the evening performance.

There is nothing heavy about the drama in the river theatres but they usually have fair musical accompaniment to comedies and the melodramatic plays that thrive on mystery and romance.

The bigger theatres, after spending the winter south, as is usually their custom, have headed north and the fleet is augmented by smaller craft which operate only in the summer.

Among these are Bryant's Showboat, the Majestic, America, Water Queen, Columbia and The Princess. With accommodations for only 500 The Princess is the smallest afloat.

Pompey's Jockey Tries Figure How He Failed to Win

New York, May 26.—(INS)—They are still trying to explain the absurd race that Pompey ran in the Kentucky Derby and, up to and including the moment the boys are as far away as the horse himself. W. H. Karrick, his trainer, has given vent to a few thousand well-chosen words on the subject. What he meant to say was that he couldn't understand it.

He made the surprising admission that the colt was well-trained, among other things.

Meantime, Eastern turfmen, who shot the roll and very nearly themselves have been wondering about with a vacant stare and a mouthful of strange sounds, indicative of their belief that life is not what it used to be.

Laverne Fator, who rode the horse, has nothing to offer by way of accounting for the collapse of the two-year-old champion, but his statement at least has the attribute of first-hand information on the case. Fator was so certain that he was due to win his first Derby that he took his wife to Louisville. He felt the same way about it in the backstretch and then exercised a privilege usually accorded to women only. He changed his mind.

The young man's story of the race follows: "Pompey broke well and had a mouthful of speed. He could have stepped along with Bubbling Over during the first stages of the race. Down the back stretch he was pulling hard and I was just sitting comfortable, waiting to make my run with him. I thought

Owned Cloak

Dorothy Gordon, chorus girl, testified that it was her cloak that was draped around Joyce Hawley as Miss Hawley stepped into the bath tub at Earl Carroll's famous party. Carroll went on trial in New York, charged with perjury in his story of the party to the Federal Grand Jury.

to myself, this is custard pie—pretty soft.

"When hearing the turn out of the back stretch Rockman moved up from the rear and joined Pompey. As he did so I said to Pompey, 'Let's go,' and clucked to him.

"Now, up to that time Pompey had been pulling hard. Whenever I let him down, his other races he always moved forward with a rush. In the Derby he all but stood still. Then he began a twisting motion. I felt as if I was in a boat and somebody was rocking it. It was 'jig time and the jig was up.

"Pompey seemed to go all to pieces. He lost his action and never responded when I called on him. He did not seem tired, because when I said 'Let's go,' he was pulling hard on the bit. Every time I asked him to move last year he responded. But not in the Derby. I can't account for it."

ANOTHER RELIC OF 2000 YEAR OLD RACE IS FOUND

Tallahassee, Fla., May 26.—(AP)—Remnants of a race believed to have existed in Florida 2,000 years ago, have been dug up in Broward county.

Scientists found the burial mound about 500 yards from the Atlantic ocean. It is one of the highest spots of the country and the site of the first white settlers who came to Florida.

USE TINY AIRCRAFT IN WIND TUNNELS AS TEST

Newport News, Va., May 26.—(AP)—Some of the most interesting devices used in the study of science are employed daily at Langley Field where, hidden from the public, miniature airplanes and blimps fly and swirl in imaginary airs and convolutions under the expert eyes of members of the National Advisory Committee on Aeronautics.

Tiny craft are suspended in wind tunnels and the results of experiments are fore-runners of future aeronautic achievements. The wind tunnels are large horn-shaped structures not unlike the resonating horn of earl phonographs. In them are suspended model planes, against which currents of varying velocity are forced to be sucked through the tunnel.

This apparatus is enclosed in a

chamber surrounding a part of the tunnel where the observers and operators manipulate the balance controls by which the speed of the air flow is regulated and the data recorded.

The variable density tunnel, located nearby, is the most intricate of the equipment. This is a great steel tank, cylindrical in shape with hemispherical ends. The tank is one of the heaviest riveted jobs in the world and weighs about eighty tons.

A battery of compressors situated beside the tunnel inflate the tank to a variable pressure ranging up to 300 pounds per square inch. Observation windows enable the watchers to see the apparatus at work in the first tunnel, these being operated by automatic devices which perform all the movements done by man. The results of the tests in the atmospheric tunnel are checked in the variable density tunnel, in which no human being can exist due to the pressure necessary to offset the size of the model.

Another device is the special adaptation of a Diesel engine. Its perfection would eliminate the hazard of gasoline by using heavy oils.
