SPEAKER FLAYS LAWMAKING ORGY SWEEPING AMERICA

Says "Laws Which Confer Favor Are Always at the Expense of the General Public"

Durham, June 9.—(AP)—The "orgy" of law making that is sweeping America piling up "untold thousands of useless statutes" was flayed by Senator Joseph T. Robinson, of Arkansas, in an address today at the commencement exercises at Duke University.

The Democratic minority leader of the Senate declared that a common fallacy prevailed that for every social and political ill which mortal flesh is heir to a complete remedy may be found in some new statute.

16,000 written enactments on diversified subjects already exists for the regulating of the average man's conduct, he added.

"Laws which confer favors are always at the expense of the general public. Such laws give birth to groups and encourage them to claim special consideration on the ground that it has been extended to others.

"The country needs and must have a restatement of political philosophy. Public opinion is divided between Jefferson and Hamilton. The first challenged the right of organized capital to control the government while the second challenged the course of the thrifty, the prosperous and successful."

The Arkansas leader also deplored the threatened break-down of long established standards of morality.

"Undoubtedly radical changes have occurred in the social system of the United States resulting in confused conception of private responsibility and of public duty."

Rocky Mount Man Elected Head of Knights of Pythias

Goldsboro, June 9.—(AP)—W. C. Coghill, of Rocky Mount, was elected Grand Chancellor of the Grand Lodge Knights of Pythias of North Carolina at the morning session here today of its 55th annual convention. Other officers elected were Grand Vice Chancellor O. B. Carpenter, of King Mountain; Grand Prelate Rev. Isaac W. Hughs, of Henderson; Grand Keeper of the Records and Seal George W. Lovell, of Charlotte; Grand Master of Exchequer George W. Mountcastle, of Lexington; Grand Master of Arms N. M. Patton of Morganton; Grand Inner Guard H. L. Weeks of Winston Salem; Grand Outer Guard J. E. Slaughter of Canton.

The grand lodge convened at nine o'clock and received reports on various committees. This afternoon the third rank was conferred on a class followed by the Duke ceremonial of Ziza temple. A banquet will be served tonight to the visiting grand lodge officers and representatives. A watch was presented to the retiring Grand Chancellor R. J. Meares of Wilmington. Tomorrow the new officers will be installed and a meeting place chosen for the next election.

Charlotte, Asheville and Concord have extended invitations.

Believe Brookhart Nomination Help Farm Relief Bill

Washington, June 9.—(AP)—The equalization fee plan of farm relief has been given a big boost in the opinion of insurgent Republicans, and some Democratic members of Congress by the victory of former Senator Brookhart in the Republican Senatorial primary in Iowa.

Western senators have been working for sometime trying to round up votes for the principle as incorporated in an amendment to the Administration co-operative marketing bill now before the Senate and Brookhart himself plans to come to Washington to join forces with the Corn Belt Committee, which advocated it before the House members prior to its defeat in that chamber when the Haugen bill was voted down.

Struggles to Reach Children

LOCAL NEGRO WAS ELECTROCUTED WHILE AT WORK ON POWER LINES

Will Dixon, negro, employee of the local Water and Light Commission, was electrocuted about two o'clock this afternoon while working on the city power lines on Dickinson Avenue, opposite the Norfolk-Southern passenger station. From available information, it appeared that while working on the lines, Dixon's foot came in contact with a line carrying about five thousand volts. His feet entangled in the lines and his body swung in mid-air until aid could be summoned. When Dixon was removed from the pole efforts to revive him were of no avail.

MORE INTEREST IN CAMPAIGN BEING SHOWN

Eastern Section Becoming Active in the Drive for Funds to Establish Jefferson Memorial

The various towns of this section of the state are beginning to take an interest in the Jefferson Memorial Fund campaign and Miss Hennie Long, of this city, Eastern Carolina's nominee in the campaign, is in receipt of very encouraging reports from various places.

Information from Goldsboro, Kinston, New Bern, Washington, Williamston, Robersonville, and practically all the towns of Pitt county, is to the effect that the people are waking up to the real meaning of the campaign and that Eastern North Carolina will go over the top in its quota. In the various communities, special benefits have been arranged to raise funds for the Jefferson Memorial and at the Kinston country club tomorrow, there will be staged a special benefit bridge tournament at which Miss Long has been invited as honor guest. An open invitation to the tournament has been extended and several Greenville people will no doubt take part.

Dr. Hassell Hurt In Auto Accident

Dr. S. Hassell, of this city, received painful injuries last night in an auto accident, which occurred while he was enroute to this city from Plymouth. According to information Dr. Hassell had attended the funeral of a relative in Plymouth and was returning to this city, when a negro, driving at a rapid rate of speed, forced the car of Dr. Hassell off the road into a ditch. Dr. Hassell received a fractured rib and hand and lacerations of the face.

STORM DOES MUCH DAMAGE IN COUNTY LATE YESTERDAY

High Winds Uprooted Trees, Blew Down Telephone Poles and Destroyed Several Barns and Out-Houses

According to reports coming in today from various sections yesterday's wind and rain storm did considerable damage throughout the county, while hail was reported from some sections and damage by lightning in the Stokes section.

Lightning entered an open window in the home of Mr. Jim Fleming at Stokes, struck an iron bed and set fire to the bed clothing. The fire however, was quickly extinguished. No members of the household were injured by the bolt. A report from the Bethel section stated that considerable hail accompanied the high wind and rain but there was no report as to the amount of damage. On the farm of C. Heber Forbes, south of this city, a shed adjoining a packhouse was destroyed. On the Brown farm owned by W. J. Hardee, of this city, a large packhouse was blown from its foundation and several tobacco barns were blown down, one report stated. Along the Cox Mill road, several telephone poles were blown down and from various sections of the county there have come reports of uprooted or broken trees and other damage.

St. Louis to Change Course Mississippi

St. Louis, June 9.—(INS)—A stupendous undertaking of changing the course of the Mississippi River, along the eastern edge of the northern part of the city, to beauty St. Louis' river front to make it comparable to Chicago's lake front, is under consideration by the City Plan Commission.

PITT ATTRACTING WIDE ATTENTION ON THE OUTSIDE

The Eastern Carolina Chamber Commerce Tells World of Pitt County's Advantages

Pitt county has become the most populous of the local group by a good margin, according to the Eastern Carolina Chamber of Commerce, which is now supplying information to hundreds of "home seekers" in other parts of the country regarding the advantages of this section. Pitt now boasts more than 50,000 inhabitants. Pitt is one of the richest agricultural counties in the South.

The county has 13 banks, and these, according to the last statistics reported to the commercial organization here, show the following resources: Capital, surplus and undivided profits, \$1,108,277.86. Deposits, \$6,474,142.79. Total resources, \$8,298,333.86. The steady increase in population is shown by the fact that in 1850 Pitt had only 13,400 inhabitants. In 1900 there were about 30,100. The gain in 26 years has been approximately 20,000.

The highway system is a "fitting tribute" to a progressive citizenship, embracing 90.5 miles of hard surfaced roads. There are 500 miles of serviceable highways, paved and unpaved. The schools are among the best in the section, including 109 grammar schools with a total enrollment of more than 15,000, and 11 high schools. A State teachers' college is located in the county.

There are three branch lines of the Atlantic Coast Line Railroad and the main line of the Norfolk Southern crossing the county. Tar river provides water transportation. The value of crops in a single recent year exceeded \$21,400,000.

Hardly a town in the section has had a faster growth than Greenville, the county seat. It promises now to be in the 10,000 population class. Other thriving places are Ayden, Farmville, Fountain, Grimesland and Bethel. In one recent year nearly \$2,000,000 was expended for construction in Pitt. The assessed valuation of real and personal property is well past the \$50,000,000 mark and the tax rate has been comparatively low. There are more than 50 white churches in the county, or one for each 500 or 600 of the white population.

Drop Plan to Put Officers Under Federal Control

San Francisco, June 9.—(AP)—Because its "usefulness is likely to be practically destroyed" by opposition of state and local officers, the federal government's plan to deputize local peace officers as prohibition agents will probably be dropped in California, Colonel Ned Greene, district administrator, said here today.

The opposition expressed by state officers has caused county officers who otherwise favored the plan, to shy at it, Colonel Greene said. "Some are afraid they will lose their jobs if they take federal appointments."

The administrator declared the legality of the plan had been ascertained before it was launched but state officers have decided that county officers can not expect federal appointments to non-lucrative appointments.

FRANCE HAS ONE MOVIE FOR EACH 13,000 PEOPLE; MANY CITIES HAVE NONE

Paris, June 9.—(INS)—France has but one movie theatre for each 13,000 inhabitants, according to statistics published by the movie industry. Paris is worse off than the provinces, having but one picture theatre for each 16,000 of its population. There are 175 moving picture palaces in Paris. The first ward has none, but the twentieth possesses nineteen, according to the statistics.

DEATH WARRANT SIGNED 3 TIMES IN FIVE YEARS

South Carolina Youth Again Faces Trial for Life for Crime of Five Years Ago

Sanford, Fla., June 9.—(INS)—Jaded after wearily seeing his fate swing pendulum-like back and forth in the courts for nearly five years, while his counsel waged probably the hardest fought legal battle on Florida court records to save him from the electric chair, Aubrey Lee Nickels, charged with assault on a married woman of DeLand, Fla., faced trial for a third time in the Seventh Judicial Circuit Court here today.

Warrants for the South Carolina youth's death were signed three times by the Governor of Florida, but in each instance a reprieve was granted. The case has dragged through the courts since December, 1921.

At his first trial Nickels pleaded not guilty to the assault charge, but changed his plea to guilty on the following day and was sentenced to death. When an appeal was taken by his counsel, a reprieve was granted, but when the appeal was refused, the youth was re-sentenced to die.

The Supreme Court later upheld an extraordinary motion for a new trial when the defendant maintained that he entered his plea of guilty under fear of mob violence.

The youth was convicted at a second trial at DeLand, and again doomed to death, the higher court reversing the lower court's finding, and ordering a new trial. When the case came up for a third trial, a change of venue was granted on the ground that Nichols could not obtain a fair trial in Volusia county.

SLAIN IN EFFORT TO ESCAPE PRISON

After Serving 27 of 30 Years' Sentence, Convict Drowns in Dash for Liberty

Raleigh, June 9.—(AP)—With 27 years in prison, and the shots of the guards behind him and the swirling waters of the Roanoke River and possible escape ahead, Elijah Larimore gambled on the chance of escape—and lost.

A trusty hearing the shouts for help from the river reached its brink as the man went down for the last time. That is the news received today by George Ross Pou, superintendent of State's Prison.

The incident occurred at the prison farm at Caledonia yesterday. Larimore, a white man, was sent up from Cumberland county in January, 1923, for murder with the sentence of 30 years. He was one of three of a squad which attempted to escape yesterday. The other two returned when the guards began firing but Larimore raced for the river and a chance for escape.

Senate Hearing On Prohibition Present Session

Washington, June 9.—(AP)—Prohibition will come before the Senate prior to adjournment but not at its most controversial form if the Republican steering committee has its way.

In mapping out a program of measures the committee has sidetracked the administration bill designed to put more teeth in the Volstead Act, but has given a place to the measures to raise the prohibition unit and the customs services to the status of bureaus and to bring enforcement agents to civil service regulations.

Threats to call up the sidetracked bill immediately were heard however among the most ardent dries and the wet leaders countered with a declaration of readiness to fight it out with the national referendum on prohibition and a vote on their modification bills as their objective.

TODAY

He Wouldn't "Sell Them." Life Is Movement, Fireworks and Med Vests, Wet-Dry Flight In N. Y. By ARTHUR BRISBANE

A well informed stock exchange person remarked yesterday: "I wouldn't be short of them, with counterfeit money."

By "them" he meant stocks and other pieces of paper representing American values.

We are having queer weather, but the sun is shining in the fields of prosperity. Beware how you sell short in the United States. Rather prepare for such a boom this fall as will make other booms seem feeble.

The surest sign of life is MOVEMENT and the American people certainly do move. Sales of gasoline and lubricating oil are up in many cases, forty to seventy per cent, compared with May, 1925.

Akron reports sale of automobile tires twenty per cent.

The only menace to the automobile industry—it isn't much of a menace—is greater efficiency manufacturing. The life of the average automobile now is eight years, three years longer than ten years ago.

There is an automobile for every six people in the United States, about half as many as there ought to be. Before long, in hundreds of thousands of families, there will be a separate car for each person past sixteen years of age. Each bird needs its own wings.

The Reverend Terisus "Van Dyke," son of the extremely able Dr. Henry Van Dyke, quit his fashionable New York church for a small town pulpit. "The people of New York want their religion with a jazz tempo," he says, and he doesn't intend to shoot off fireworks or wear a red vest, to save men's souls.

Mr. Van Dyke's complaint is just. When you have bare-footed young ladies dancing in the church aisles to "express religion" you push competition far. But pulpit sensationalism is not new. It was old when in Brooklyn Dewitt Talmage raved up and down his long platform or Henry Ward Beecher said a good looking mulatto slave girl at public auction in his pulpit.

Wets and dries will watch the prohibition split in New York's Republican Party this fall. Franklin W. Christmas, extra party, has been selected to run for the Senate against Senator Wadsworth, who is frankly wet and means to be re-elected. This is to be the national test of prohibition's power in the east.

New York City is trying to clean up indecent theatrical exhibitions. The results will be slight. Indecent plays, like small pox sores, come from within. The trouble is not with theatres and managers, but with the public. The theatre, like the newspaper, is a mirror. Look into it and you see the people.

Our young ladies are becoming sophisticated, almost cold. A young man in love with Miss Clara Bow, who did not care much for him, slashed his wrists with a razor. Her comment was "gentlemen usually prefer guns, when they commit suicide for love."

Professor Moscicki, new president of Poland, sends friendly greetings to the American nation, calm amid serious disturbances at home. In Eastern Galicia, Polish troops are used to hold down rebellious Ukrainians. Various places are in a state of siege.

Communist agitators are arrested. Newspapers temporarily suppressed.

Great indignation in the Argentine because of Sacco and Vanzetti's sentence to death. Taxi drivers of Buenos Aires announce that they will go on strike if the men are executed.

RACE FOR JUDGE IS STILL UNCERTAIN

Official Returns Give Clark, Jesse Davis First and Second Place in Solicitorship

Raleigh, June 9.—(AP)—All doubt as to whether Lee S. Overman had been renominated as the Democratic ticket for the United States Senate appeared to have been removed today. With what is believed to be approximately three-fourths of the total vote reported, Mr. Overman was leading his opponent, Robert R. Reynolds by close to 40,000 votes. If the vote is as heavy as that of the primary of 1924 Reynolds would have to carry all but 2,000 of the outstanding votes, estimated at 45,000 in order to win.

59 complete counties and partial unofficial returns from 21 others gave Overman 114,244 and Reynolds 75,075. Of the complete counties the incumbent carried 43 while Mr. Reynolds obtained majorities in 16.

Congressman A. A. Bulwinkle and Zebulon Weaver appeared to have safely won renomination in the ninth and tenth Congressional districts respectively.

Judge A. M. Stack has secured re-nomination to the Superior Court bench in the 13th district. The issue is yet to be decided by the official court between Judge Romulus A. Nunn and Julius Brown in the fifth, and second races will be necessary to nominate in the seventh and twentieth districts. In the twelfth races for solicitor the complete returns will be necessary in some cases to determine the results.

In the seventh the incumbent has been defeated by Leon S. Brassfield, and in the first, fourth, eighth, tenth and fifteenth the incumbents have been returned to office. Vote on solicitor in the fifth district with 51 of 93 precincts, M. L. Davis 89; Clark 3090; Paylor 878, J. H. Davis 2308, and Barden 2236.

Supreme Court Adjourned Spring Term at Noon

Raleigh, May 9.—(AP)—The State Supreme Court concluded its spring term and adjourned sine die at 12:35 o'clock this afternoon after handing down a batch of decisions. The court will reconvene August 23 for the purpose of examining applicants for law offices.

counted out in favor of a Democrat, says he is entitled to vengeance, and wants the place of Senator Cummins, seventy-six years old. There are five candidates. The wet and dry question counts mildly. The low price of corn should help Brookhart.

Newton Wins Its Case Against State Highway Comm.

Raleigh, June 9.—(AP)—The city of Newton won its road case here this afternoon when the State Supreme Court handed down an opinion affirming the judgment of the lower court. As a result the Highway through Newton must pass the court house. Justices Stacey and Adams dissented from the majority opinion.

The ruling of Judge Webb, which was affirmed by the Supreme Court in today's decision, means that the highway from Statesville to Newton must pass directly by the court house of Catawba rather than one and one-half miles north of the court house. By the ruling the town of Newton wins its controversy with the State Highway Commission. The decision will cost the State approximately \$200,000 according to the Highway Commission, in this one case. Should other county seats insist upon a strict enforcement of the law requiring the connection of county seats, the case may have a far reaching effect.

The majority opinion citing the section of the highway law which provides for the connecting of county seats may be summarized in the succinct phrase found in the opinion. "What a statute hath joined together the defendants must not put asunder."

Show your appreciation of Thomas Jefferson by contributing to the fund being raised in this state to aid in the purchase of Monticello and its presentation to the government as a permanent memorial to Jefferson and Jeffersonian principals.

All talk of the electric traffic signals to be erected at Five Points has again apparently dropped out of existence. This is a needed safety measure for our city that should be put into effect as early as possible.

The weather has no monopoly on getting warmer. With prospects of a second primary politics is also coming in for its share of increased heat.

With howls of election frauds and demands for recounts it is evident that some system of voting and managing of polls than that now used must be put into effect in this state.

THE SEAT AT GENEVA

The League Council reconvened at Geneva yesterday to face a situation which is already greatly clarified. Last March the initial trouble-maker was Poland, which, with the support of France, sought a permanent seat to compensate her for Locarno. Poland's candacy immediately provoked Spain and Brazil to demand permanent seats, and though the ensuing tangle might have been cleared up on the spot the compromises proposed would have hurt the prestige of both the League and the great powers. Today the situation is far simpler. Poland has been eliminated by the recent revolution. Only Spain and Brazil remain to be dealt with, and the Advisory Commission which met recently at Geneva matured a scheme which is expected to deal with their obstruction.

All the deliberations of this commission had the effect of isolating Spain and Brazil, for their pretensions were universally opposed. But it must be made easy for them to withdraw, and this is adroitly planned. It is proposed that they be rewarded for good behavior. That is, each shall be told that it may retain indefinitely its present non-permanent seat, the regulation three-year term being waived. Other non-permanent seats may be added, so as to give China one and South America a total of three. But it is also proposed that a penalty be provided for

recalcitrance. If Spain and Brazil prove stubborn, according to this suggestion, the League will act to remove their power of vetoing Germany's admission. That is, the League Assembly will elect new members in their stead, to take their seats immediately instead of three months after election. Brazil and Spain would find themselves ousted.

The League cannot suffer a repetition of the deadlock of last March; it cannot tolerate a longer delay in admitting Germany; and majority sentiment is plainly against more permanent seats. Madrid and Rio Janeiro have the choice of backing down before October or of being summarily backed out.—N. Y. World.

Compound" you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for only 75c. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say everybody uses Wey's Sage and Sulphur Compound now because it deters so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

THE BUNION

Notice the shape of the great toe. See how it is thrown inward at the end and outward at the joint. The true articulation is destroyed at the junction of the metatarsal bones—inflammation results. It is at this point that the joint "bleeds" or the lubrication fluid oozes out,

in time to harden and produce the dreaded bunion. What should be done about this bunion? An orthopedic surgeon might advise an operation. A shoe salesman might recommend a change of foot-wear and back up his ideals with customers whom he has relieved without operations. Both opinions must be accepted. The best idea, of course is to wear shoe with "toe room" and avoid bunions. Pitt Shoe Co. salespeople have studied feet; they know how to fit shoes so that you may enjoy complete comfort and resulting better health.

PRINCE TORLONIA GIVES HIS HOME TO PREMIER MUSSOLINI

Rome, June 9.—(INS)—Prince Villa Torlonia will be, for life, the summer residence of Benito Mussolini. So has decreed the owner, Prince John Torlonia, who for the last two years has offered to the Premier the free use of his wonderful property and has now decided that up to his last day Mussolini should consider himself the lord of the gigantic park and stately building in the greek style erected by Torlonia ancestors.

ILLINOIS SCHOOL CLOSES ACCOUNT NO PUPILS

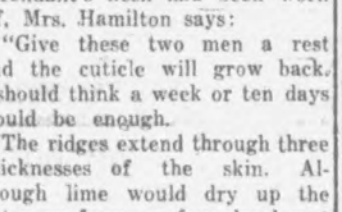

Armstrong, Ill., June 9.—(INS)—The Partlow district school, known officially as School No. 43, north of here, ceased to exist at the end of the school term recently after having operated for two years with just one pupil.

THE BUNION

Notice the shape of the great toe. See how it is thrown inward at the end and outward at the joint. The true articulation is destroyed at the junction of the metatarsal bones—inflammation results. It is at this point that the joint "bleeds" or the lubrication fluid oozes out,

in time to harden and produce the dreaded bunion. What should be done about this bunion? An orthopedic surgeon might advise an operation. A shoe salesman might recommend a change of foot-wear and back up his ideals with customers whom he has relieved without operations. Both opinions must be accepted. The best idea, of course is to wear shoe with "toe room" and avoid bunions. Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

London, June 9.—(INS)—Communism will be the guiding principle of the new Labor College at Easton Lodge, Essex, according to a statement issued today by Lady Warwick, the donor of the property.

"I have given my home," she said, "TO Labor FOR Socialism. I want people to learn by education that our social system is based on a wrong conception; and that it is possible for human society to build itself upon a better system."

Leaders of the labor movement who are assisting Lady Warwick in getting the new college started, plan to bring together at Easton Lodge the students of both the London Labor College and Ruskin College at Oxford.

Explaining this effort at consolidation, Lady Warwick said: "I see no reason why students of all degrees of thought should not be able to study and have access to the fullest thought and knowledge in one institution. That was why I gave Easton Lodge to Labor."

Declaring that the new college was to be planned to make higher education available to the masses and not merely to train Trade Union leaders, Lady Warwick continued: "I have ever been and I remain an ardent advocate of independent working-class education, and shall be to the last agree that Easton Lodge should ever become anything than a mere institution for the training of prospective officials, towards only the palliation and perpetuation of the abominable and life-destroying economic and social system of today."

"I distinctly wish to emphasize here and now and for all time that the one predominant object of this college is to give every facility to develop true Socialists or Communists, otherwise I should not have dreamed of making the great sacrifice of my home. It is because we must make out-and-out Socialists that such a college is needed."

Professor Kenneth Bell, most learned and most popular of Oxford University professors, has been giving good advice to the National Students' Union, more particularly for those with ambitions.

"A spice of hate is necessary for a successful career," said Bell. "It gives the aspirant a chance of reacting against his environment. Carlyle had it, and was a more successful historian than Macaulay, who was only an ideal uncle."

"Buy your own experience," continued Bell. "Pay for it in cash if you can, but do not be afraid of getting it on credit."

"There is a place in the world for selfishness. One of the arts of life is to know when and how to be selfish."

"The only career worth having is a career of adventure. The right thing is to regard life as an adventure, and a tremendously long one at that."

"One of the curses of success is life must be to the effect it has on one's character. Great men cannot help posing, and learning the tricks of how to respond to all the adoration poured upon them."

"It is a good thing to have some revolutionaries in our midst; it takes the captain and some of the crew out of their self-complacency. Therefore, be revolutionary if you like."

Professor Bell added a series of "Don't" to those starting.

"Don't become engaged to be married in your last year."

"Don't get married at 24."

"Don't have six children. (Professor Bell has six children)."

"Don't get into an old established family business."

"Don't ask advice, if you have made up your mind."

"Above all," concluded the professor, "remember that unless you hate something fairly strongly it is very difficult to get a start in life. Christianity, if not wholly, is partly a religion of hate."

"It is a pacifist film, and as a racist I enjoyed it." This was Bernard Shaw's criticism of the film, "The Big Parade." Every film critic named the film because it was Chauvinistic, but G. B. S. summed it up as "Shavian"—of pacifist.

"It shows the excitement of

people before they go to war, and contrasts it with their subsequent discovery of its realities. I was astonished to hear a woman called out, 'shame.'"

LARGEST PAIR SHOES IN WORLD GIVEN MUSEUM

Shoes Sixteen Inches Long and Six Inches Wide Made for North Carolina Negro During War

Jackson, Miss., June 9.—(AP)—A gigantic pair of shoes, believed to be the largest ever made for a human, have been presented to the Mississippi Department of Archives and History and are on exhibit in the state museum. The shoes are 16 inches long and slightly more than 6 inches wide, weighing close to 10 pounds.

They were made during the World War for Thomas Williams, a North Carolina negro, who had never worn a pair of shoes in his life, according to Captain Arthur Fridge, of Jackson, commander of the corps in which Williams served, and who made the presentation. The pairs of the enormous shoes, of the army hob-nail type, were made for the negro, but they hurt his feet and were so heavy that he was unable to wear them, it is said. He served in the army in non-regulation uniform, consequently, with his feet wrapped in sacks in cold weather.

Williams, according to the information given to Dr. Dunbar Rowland, director of the department, is six feet four inches in height and weighs 210 pounds. Army officials could find no reason for turning him down in the service, as he was a perfect specimen of physical manhood. He told army officials it was said that he always wrapped his feet in sacks during cold weather, and asked to be allowed to serve in the army under those conditions.

The negro served in France in Captain Fridge's corps, the 232 Service Battalion, Q. M. C., at Cassey les Forges, Cote d'or, France. His record in the army is said to have been unusually good.

Captain Fridge related the history of the shoes to Dr. Rowland several months ago, and the director expressed a wish that they might be obtained. The unused pair was obtained by Captain Fridge and forwarded to the department.

"Boss, dese shoes is jest naturally too heavy and dey hurts my feet," Williams told the officers, according to the story. "If you jest lets me wrap my feet up in my sacks, I'll get along fine."

Porters in the state house were amazed when Dr. Rowland called a conference and offered the shoes to anyone who could wear them. There was no one who cared to try them on.

"What size are they?" one porter asked the director.

"They are measured by square feet and not sizes," Dr. Rowland laughingly replied. "They are so much bigger than any shoes ever put on the market that it is impossible to approximate the size."

The shoes have aroused considerable interest in the capitol.

British Debacle In Golf Marks Fall of Empire

New York, June 7.—(INS)—Jess Sweetser's victory in the British amateur golf championship just about closed the case of America versus Great Britain in the field of sport. The amateur title was the last prize left in England after ten years of international competition and, now that that has gone, the English are a nation without a major sport championship, not even their own.

Of course, with great golfers being sent out of this country on an average of every second year, it was inevitable that the British amateur title would fall some time. That it resisted the inevitable between Walter J. Travis in 1904 and Jess W. Sweetser in 1926 does not mean that another such famine will precede the next American victory. In fact, once having mastered the trick, it should become successively easier.

Opponents

Senator Frank B. Willis, of his (top), will be opposed in his efforts for re-election by Walter Hagen, former Senator Pomerene, who seeks the Democratic nomination.

This was true, in any case, of the British open, which was won by Jack Hutchison for the first time in 1921. Walter Hagen took

it over the following year, finished only a stroke behind the winner. Havers in 1923, and then came back in 1924 to win it again. Jim Barnes followed through to take the cup in 1925.

The British debacle in golf marked the fall of the entire empire on the sporting front. Its boxers, now, are possibly the worst in the world, Jimmy Wilde having been the last good one. Apparently, the day of Jim Driscoll, Owen Moran and Freddie Welsh is gone, never to return. As for heavyweights, the English breed is absolutely decadent. They once led the world.

So did the English tennis players in the days of Dohertys. Today, the British do not even make it close, only the French, Australians and Japanese contesting American supremacy.

America holds the international polo cup, and judging from the performances of Milburn, Hitchcock, Webb, Stevenson and Strawbridge and the inept play of the

President's Opponent to Be Honored W., L.

Lexington, Va., June 5.—(AP)—President Coolidge was honored with the degrees of L.L.D. by William and Mary College on May 15, and now another Virginia university plans to honor his democratic opponent for the presidency.

On June 7, during 176th annual commencement week, Washington and Lee University will initiate John W. Davis into Phi Delta Phi, honorary legal fraternity.

Mr. Davis was graduated from Washington and Lee in 1892, receiving the degree of bachelor of arts, and three years later the bachelor of laws degree. He also holds degrees from several other universities.

WHY OPERATIONS?

In many cases where women suffer from the various ills peculiar to their sex, operations are not necessary. Some of the highest authorities agree that many women's ills yield to proper therapeutic treatment. Remedies made of herbs have always been used by the Indians, among whom operations are rare. The nervous system when disordered develops many symptoms which can be greatly relieved by taking Dr. Pierce's Favorite Prescription, an old, reliable, reconstructive tonic, made of herbs brought to Dr. Pierce's laboratory by Indians from nearby Reservations.
