

ENGINEER AND FIREMAN KILLED IN WRECK

PASSENGER TRAIN GOES THROUGH BURNING BRIDGE NEAR HERE EARLY TODAY

J. R. Slade, Engineer, and Bill Harrington, Fireman, Lose Lives As They Go Down With Engine; Fire Destroys Entire Train Except One Pullman

Two persons were instantly killed early this morning when the eastbound Norfolk-Southern night express crashed through a burning trestle over Chicod creek about ten miles east of this city. The dead are: J. R. Slade, engineer, 42, Norfolk; and Bill Harrington, fireman, 30, of Berkeley, Va. Passengers and other members of the train crew escaped without injury. The entire train, with the exception of the lone pullman coach, was precipitated through the trestle to the marshy lowland twenty feet below. Wrecking crews have been working frantically for the last several hours in an effort to clear away the twisted mass of wreckage and rebuild the bridge for resumption of service. Until this is accomplished, all trains will be diverted to the Coast Line tracks. The trestle is located just around a sharp curve. The train was rounding the curve when the engineer perceived smoke rising from beneath the trestle. It is believed that he realized the danger confronting him, as emergency brakes were applied, and every effort made to bring the train to a standstill. This could not be accomplished until practically the entire length of the train, with the exception of the pullman, had passed from the solid road bed. The train was carrying five cars. Virtually the entire equipment was either destroyed or badly damaged. The bodies of engineer Slade and fireman Harrington were brought to this city early this morning and prepared for burial. A thrilling story of heroism and devotion to duty centers around the tragic death of the engineer and fireman. Both remained at their posts when they knew that certain death lay beneath the scree of smoke obscuring the burning trestle. They were thrown clear of the cab as the engine hurled through space to the lowland beneath. The body of the engineer was caught be-

SENATE TAKES ACTION AGAINST FARM POLICIES

Second Note Now Being Considered By Members of the Cabinet

Washington, June 11.—(AP)—The Senate tide apparently has turned against the equalization fee plan of farm relief and its advocates now concede that the vote expected last week will be close. Proponents of the McNary measure, embodying the principles of the program incorporated in the Haugen Bill voted down by the House, had counted on support from the Democratic ranks in the Senate, but leaders in that body expected most of the colleagues to oppose the plan. The Democratic objection to the proposal lies in the feeling that its enactment would establish tariff protection Government policy. The argument that the plan would help northern cotton producers apparently has little weight with the Senators from the section.

Senator George, Democrat, of Georgia, drew from one of the leaders' supporters of the fee, Senator Gooding, Republican of Idaho, a concession that stabilization of world prices is a necessary prerequisite to stabilization of cotton prices in the United States.

Senator Robinson, the Democratic floor leader, meanwhile, is prepared to offer a substitute bill, which its sponsors hope will gain the support of Democratic and other opponents of the McNary measure. Under this plan, a \$2,000,000 federal fund would be administered by a farmer's export corporation, which would make loans to farmers and in emergencies, pay export bounties.

Jamali, Hindubandit, Captured by British

Bombay, June 11.—(INS)—A career crowded with cruel achievements, unrelieved by any act of clemency or nobility, has come to an end with the surrender of Miran Sirkali Jamali, a notorious Baluchi dacoit, to the police in Sind, Bombay Presidency.

Starting as a headman, Jamali entered upon his career as a bandit before he was 20 and he had established a reputation for ferocity and callousness second to none before he was 30.

At the head of a gang of wild Baluchis on the frontier of Sind, Jamali would swoop down from the hills, murder everybody he could catch, loot shops, burn stations, forcibly take away women, and go back to his hideout with contempt at the pursuing police.

During the past three and a half years he has caused more trouble to the British Government than any one other man in India. He has ravaged villages, burnt several railroad stations, looted arms and ammunition from police stations in daylight, and generally terrorized the whole district.

RICH DOG DIES; BURIED WITH PROPER POMP

St. Louis, June 11.—(INS)—Joe IV, 13-year-old heir to a \$10,000 estate, who spent the declining months of his life in quietude and in mourning for the loss of his recluse companion, has gone to his last resting place.

Joe IV was only an ordinary fox terrier and while his canine mind was not aware of the fact, he virtually was the owner of his master's estate.

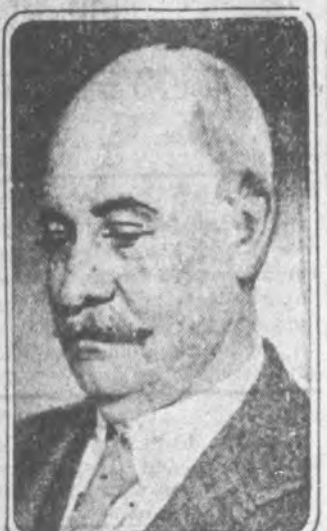

So, in keeping with the wealth he left behind, a ceremony befitting the interment of a wealthy dog, attended the burial of Joe IV in a copper box in a grave alongside the remains of Joe III, as strictly provided for in a will left by his master.

An attorney drew up the agreement.

CARDINAL DAUGHERTY

COUNTESS DI FRASSO

Mrs. Ruth Bryan Owen, daughter of the late William Jennings Bryan, and Senator Duncan Fletcher took early leads in the Florida Democratic primaries for Congressman and Senator respectively. Cardinal Daugherty will play an important part in the coming Eucharistic Congress in Chicago. Countess Dentice di Frasso, formerly Dorothy Taylor, of New York, ordered all Americans off the floor of a fashionable Paris resort when an American negro danced.

PITT DOCTORS HOLD MONTHLY MEETING HERE

Interesting Program Enjoyed in Basement of the Christian Church Last Night

The regular meeting of the Pitt County Medical Association was held last night in the basement of the Christian church. Luncheon was served by the ladies of the church. Dr. W. I. Wooten and C. L. Outland were hosts. Several visitors were present and there were several interesting talks.

Dr. W. W. Dawson, of Grifton made a talk on "Rheumatism" and Dr. J. T. Green, of this city, talked on the subject of "Pediatrics." Dr. Chas. O'H. Laughlinhouse, delegate to the recent meeting of the National Health Association at Atlantic City, made a report on the meeting and stated that through the activities of the public health associations, that in the near future Hippocampus would be under control in this country, if not completely wiped out.

Dr. Maccom Thompson, of the Pitt Community Hospital, made an interesting report on one of the interesting cases that have come under his supervision. Dr. Parrott, of Kinston, made several remarks, and Dr. Churchill Hodges, of Wilmington, W. Va., made an interesting talk on his recent research work in measles. All of the talks proved both interesting and valuable to the physicians present.

The Pitt County Medical Society next month will entertain the Tri-County Society, which includes Beaufort, Martin and Pitt Counties.

An English preacher says the real battle of Armageddon is going to be fought in Palestine September 16, 1934. All right—the camera men will be there.—Milan Tribune.

BRITAIN ENTERS PROTEST AGAINST SOVIET ACTIVITY

Say Its Enactment Would Establish Tariff Protection Immediately

London, June 11.—(AP)—The British government has sent a sharp note to Moscow protesting against the endeavors of the Soviet to send money to Great Britain during the recent general strike.

The note sets forth the belief that this money was intended to foster the movement to bring about a change of government in Great Britain. The note declared that definite proof is now in the hands of the British government that a share of the money offered the Trade Union Congress from Moscow during the general strike came from the Soviet government itself. This action, the note states is regarded as unjustifiable interference in the international affairs of the country and a violation of the Anglo-Russian Trade Agreement.

A second note dealing with the money the Soviet is sending to the British miners federation is being considered by the Cabinet and will probably be forwarded to Moscow soon. The British government in this case also contends that part of the money is contributed by the Soviet Government and not as claimed by the Russian miners.

Ninon and Melba. Gambling Kills Sleep. World Court Kills Many. They Saw Him Die. By ARTHUR BRISBANE

Ninon D'Enclos, it is said, was sufficiently beautiful at seventy to be troubled by admirers. In fact, her own son fell in love with her at that age, but did not know he was her son and committed suicide when he learned the facts. To keep your looks past middle age is important, presumably. But to preserve mental fire and talent into old age is more important.

Madame Melba, seventy-six years old, wept as she bade farewell to the stage at Covent Garden in London to a crowd, many of whom had waited in line twenty two hours to see her for the last time. The king and queen and a great audience gathered for her farewell. And on the radio ten million listened to her last songs, her good-bye speech and her sobs of gratitude. That was better than Ninon O'Enclos' farewell, although that lady lived to be eighty-six and was consulted by the great Molieres because of her sound literary judgment.

The King of Korea's body is to be buried and 30,000 people will go to it. Pallbearers stay up all night to start at four in the morning, and this is the interesting item: "They are permitted to gamble that they may keep awake." They are sorry the king is dead, but that wouldn't keep them awake. They might talk to others about ghosts, demons and other things in which they believe. But that would not keep them awake. Gambling (Continued on page 4)

Women's Club Begins Sessions At Goldsboro

Goldboro, June 11.—(AP)—The business and professional women's clubs of North Carolina opened their seventh annual state convention for a two days' session in this city this morning with 60 club members and delegates attending.

The first formal exercises were marked by a President's breakfast at nine o'clock this morning at the Goldsboro Hotel, and this was followed by a formal opening session of the convention in the assembly room of the hotel, Miss Catherine Robinson, of Fayetteville, State President, presiding.

The morning session was marked by the appointment of committees and reports of the activities of the various clubs. This afternoon the delegates are the guests of the Goldsboro Chamber of Commerce at a barbecue dinner in Hagan Park, and tonight they will be the guests of the Goldsboro Kiwanis and Rotary clubs at a "stunt feast" and musical recital, which will conclude the day's program.

King George's Yacht to Race This Summer

Cowes, Eng., June 11.—(INS)—King George's yacht, Britannia, which opened her racing season at Harwich on June 5, has undergone a number of improvements to make her faster in light or breezes, while not reducing her heavy-weather speed.

The Britannia has been fitted with a new Oregon pine mast, 105 feet high, with a topmast of forty feet, although the sailing area remains about the same. She will be entered in a number of important racing events during the summer.

AUTO RACES LEAD IN AMERICAN SPORTS

Des Moines, Iowa, June 11.—(INS)—A survey of "sanctions" issued by A. R. Corey, secretary of the International Motor Contest Association, revealed that an age limit on "speed" has brought track auto racing well to the front of American sports.

LEAGUE CLOSES SESSIONS WITH CRISIS AHEAD

Demand of Brazil and Spain for Permanent Seats Develops Complications

Geneva, June 11.—(AP)—The June session of the council of the League of Nations had adjourned with the crisis surrounding the demand of Brazil and Spain for permanent seats in the council still acute.

Brazil has tendered her resignation as a member of the council in which she holds a non-permanent seat. Spain has declined again to accept a similar seat, her representative in Geneva contending that such acceptance would put Spain in the classification of a secondary power. Brazil's resignation was not accepted by the council which contended that the League alone was empowered to act upon it. The leaders of the League hoped that prior to convening of the next session of the council in September, both Spain and Brazil can be turned from their present viewpoints.

It is believed that the diplomatic efforts which will be put forward to induce the countries to change their decisions would offer promises to support both of them for continuous re-election as temporary members, by which they would become permanent members.

Prior to adjournment the council postponed until September the recommendation of France to speed up the operation of the covenant of the League of Nations with an object of minimizing the danger of the outbreak of hostilities and arranging the quick financial and economic aid to the state attacked.

NO MAN WITHOUT HOPE EXISTS IN NORTH CAROLINA

George Ross Poe Says Life - Time Prisoners Have Hope of Future

Raleigh, June 11.—(AP)—The man without hope—does he exist?

George Ross Poe, superintendent of State Prison, appears to believe not. And he probably has as good an opportunity to find such a man, if he exists, as any man in North Carolina.

"Do you find that the men sentenced to life imprisonment are hard to control and of little value to the State, since they apparently have little hope for?" Mr. Poe was asked.

The questioner's tone implied that an affirmative reply was taken for granted. But Mr. Poe replied:

"It is a singular thing, but our life-terms are among the best prisoners we have."

Of about 50 men in State Prison under life sentences, a number have so conducted themselves as to become honor prisoners, or "trusties" he explained. The life-terms, however, are not allowed to go to the honor camps he added, but are kept at the prison here in Raleigh.

With the single exception of those sentenced to death and to life terms, all prisoners given more than minor sentences are now sentenced for an indeterminate period, a minimum and a maximum time being fixed by the trial judge. Their conduct determines how soon they are given their freedom.

When Governor Morrison, by blanket order, placed all prisoners in State Prison under an indeterminate sentence, even he, as strongly as he favored the inter-

PITT DIVISION ROANOKE ASSO. IN FINE SESSION

Women of Memorial Baptist Church Ideal Hostesses for the Occasion

About one hundred members of the Woman's Missionary Union of the Pitt County Division of the Roanoke Association met in an all-day session on Thursday at the Memorial Baptist church, that church making an ideal hostess. The morning meeting was called to order at ten-thirty and an interesting program was rendered.

Perhaps the two outstanding addresses were made by Mrs. Yocely, of Oak City, and Miss Macy Cox, of Magnolia, on the subject of "Tithing."

At one o'clock the meeting adjourned for an hour. A most tempting luncheon was served by the ladies of the Memorial Baptist church, and a pleasant session was spent in conversation and fellowship.

In the afternoon a demonstration of a regular monthly meeting of the W. M. S. was given by the Memorial Baptist Missionary Society. Mrs. H. F. Jones, President, presided over the meeting and Mrs. R. L. Humber, secretary, read the minutes and called the roll. The subject for the month, "The American Indian," was handled in a most able manner by Mrs. W. Z. Morton, leader for the month.

NEGRO MAN PAYS DEATH PENALTY

Fred Jones Electrocuted in Raleigh for Murder of Winston Laundry Employee

Raleigh, June 11.—(AP)—Fred Jones, negro, was electrocuted this morning at the State Prison for the murder of a Winston-Salem laundry employee, whom he shot while committing a robbery.

A hard legal battle with alleged insanity as its base, failed to save the negro's life, although it secured him a second trial.

Jones met his fate calmly, asserting his faith in his soul's salvation. Two shocks of 71.47 seconds' duration, respectively, were required to cause death.

"I am not afraid to die. God will save me," said the doomed man as he sat in the chair.

BOSTON TO ENDOW A \$200,000 MEMORIAL

Boston, June 11.—(INS)—A chair of science and art of speech at Boston University College of Liberal Arts as a memorial to Alexander Graham Bell seems assured.

Already \$35,000 toward the \$200,000 endowment has been pledged.

Most girls can get their pictures in the papers by being chosen as "most beautiful girl in America." The others can announce that they are going to try to swim the English Channel.—Tampa Tribune.

terminate sentence method, excepted the life terms from the order.

But Mr. Poe says, the life-terms without exception, hope for ultimate freedom, and as a result, make model prisoners as a rule.

"Hope springs eternal." It would seem, even in the breasts of life-terms.

Herbert Work Hung in Effigy

Phoenix, Ariz., June 11.—(AP)—Reports here today told of the hanging in effigy of Dr. Herbert Work, Secretary of the Interior, Wednesday night by homesteaders in the Paradise and Deer Valleys, a part of the Verde River Irrigation and Power District. A card attached to the effigy bore the sign "Dr. Work hanged for hanging us up. Paradise-Verde homesteaders, 500 strong." Thirty feet away a signboard carried the words, "God bless our loyal friend, Senator Cameron."

Senator Cameron, Republican, of Arizona, at the request of settlers in this region, introduced in the Senate a bill designed to clear the title of the irrigation district of rights of way for its reservoirs and canals. Permits for signing reclamation of lands in this section were cancelled recently by Dr. Work. The Cameron bill has not been acted upon.

Japan and Brazil to Arrange Immigration

Kobe, Japan, June 11.—(INS)—Organization of the Japan Brazil Association was accomplished here at a meeting attended by a large number of Japanese interested in the development of commercial relations between the two countries and the fostering of immigration to the South American nation. Trade development, it was declared, is the primary object of the association.

Woman Is Found Dead in New York

New York, June 11.—(AP)—Found dead in her Greenwich village apartment by a banker friend, Miss Jean MacKenzie, an heiress, is supposed to have committed suicide because of loneliness after her room-mate married an naval officer. Her mother, Mrs. Charlotte P. MacKenzie, widow of a wealthy stockholder in the Singer Sewing Machine Company, was on her way today from San Francisco. The body was found by Raymond T. Fish, who called to advise her about some investments and with whom she had a dinner engagement.

Mr. Fish told police he found the body in the bath room clad in a night gown. Two bottles that had contained poison were nearby and Miss MacKenzie's lips were burned.

Miss MacKenzie had recently inherited a large fortune from an uncle. Another uncle, Cornelius P. Craig, said the several times recently she had spoken of her extreme loneliness since her chum married. Miss MacKenzie was 28 years of age and taught school.

JUDGE GRANTS DIVORCE EVERY TWO MINUTES

Atlanta, June 11.—(AP)—In one morning, Judge G. H. Howard, of Fulton Superior Court, disposed of 75 undefended divorce cases at the rate of one every minute and 54 seconds.

Judge Howard called the court to order at 9 A. M. and at 11:20 A. M. dismissed the jury until the next morning. The speed with which Judge Howard disposed of the calendar is believed to have established a record in the divorce court.

INSOLENCE TO FRANCE
The American people have always entertained a catholicity of sympathy for a countryman in distress, and the case of young Bennett Doty in France, is no exception. It was altogether right for the government to demand an explanation of France for her conduct toward Doty. But we are led to believe that our intentions, however good, assumed the form of pure insolence in this case, and should be treated as such by the French government. However, there is no cause for any serious consideration of the matter. It makes little difference how France felt in the case. She has played the part of a fair-minded country, and eliminated the probability of strained relations by disclaiming any knowledge of the much-talked Doty execution.

Discussing the matter under the heading, "Insolence to France," the Richmond Times-Dispatch has the following to say:
"It is easy to understand and sympathize with those tender-hearted individuals who have interested themselves in the case of young Bennett Doty, who apparently faces execution by order of a French army court-martial. But it is beyond understanding how or why the United States government ventured to introduce in this case. Individuals are withstanding in their rights, of course; the young man is an American who has, it is reported, a good record as a soldier in the World War. But such interference as has been undertaken by the United States government seems to be sheer insolence.

After the World War was over, according to the story Doty wanted what he called the adventure, so he enlisted in the Foreign Legion of France. From that moment, he became as completely subject to French military law as if he had been born and reared in Paris. Yet while the regiment or company or squad or troop to which he is attached was actually operating against the Druse tribesmen, Doty headed a group of enlisted men who not only deserted but fired at the squad dispatched to arrest them, thus becoming mutineers. Doty could have committed no worse offense unless he had actually turned traitor and attempted to deliver his comrades into the hands of the tribesmen. According to all reports, he deserted in the face of the enemy and fired on mem-

bers of his own command. If capital punishment is ever justified, it is justified in this case. And the United States government merits a sharp rebuke, not courtesy, from the Republic of France for having dared to interfere. Imagine what would happen if a private in the United States Army, who chanced to be a Frenchman, mutinied and fired on an arresting squad during operations against a murderous datto or rajah in the Philippines, and the government of France sought to intervene in the court-martial proceedings! Why, the eagle would scream and tear his feathers in his rage. "My country, right or wrong" doesn't apply in this case. Our country is wholly wrong and the phrase-makers can't make it right. If France were not heavily in debt to America, her reply would be very different."

"No Worry About Results When You Take Karnak"

"Why, This Medicine Fixed Me Up So Fine Six Months Ago I Still Feel the Wonderful Benefits From It," Declares McCallister
Mr. McCallister, "I had the indigestion for eight years, and had it bad. Everything I ate would sour on my stomach, and gas would form and press up into my throat and make me belch and just feel miserable all over. I was going down hill all the time and could not find anything that would give me relief or bring back my strength. "Well sir, I finally got hold of Karnak, and this medicine just put me to feeling better than I have felt in years. I tell you, it sure relieves that heavy feeling and gas on your stomach, and makes you feel like eating again—that's what it did for me. It gave me new strength and energy, and made me feel like a different man. Believe me, Karnak certainly does the work."
Karnak is sold in Greenville by B. S. Warren and all leading druggists.

HE SAYS HE DID IT

(Contributed)
"Going to take a swim. Will not return until tomorrow morning. Protect me!"
For further information concerning the above telegram which was received in this city late yesterday afternoon, apply to the local Western Union Manager.

Now is the time to spend the week-end at Pamlico Beach. Good "Eats," good sleep, and a good time. Rates \$3.00 per day.

STATE TO LEND EXTENSION MAN TO OTHER STATES

Extension Educational Work Bursting All Bounds in North Carolina

Raleigh, June 11.—(AP)—Extension educational work of North Carolina institutions is bursting the bounds of State lines.

Probably for the first time in the history of this State, a North Carolina college will send a man to the State of Georgia to conduct a short course.

State College will furnish an instructor to teach a course in cotton grading to some 20 employees of a large textile mill at Gainesville, Ga.

The textile mill last summer sent one man to Raleigh to take the regular summer cotton grading course conducted by the institution. As a result, it desires to give the same course this summer to a score of its employees, and asked that the course be brought to it, rather than that it have to bear the greater expense of sending the 20 students to Raleigh. The mill will bear the expense of the short course.

Professor J. B. Cotner, of State College, will have charge of the work, which will be modeled after the instruction given here. The course will begin on Monday, July 26, he states, immediately following the close of the short course here on July 23. The instruction at the textile plant will continue for two weeks.

Workers in the department of agronomy are much elated over the recognition given the cotton grading courses offered at State College.

So far, as we know the match manufacturers have never properly expressed the very real appreciation they must feel to the makers of five-cent cigars.—Nashville Banner.

A writer says girls of today do not use cosmetics more freely than their mothers did, but appearances are against them.—Tampa Tribune.

"The Live Furniture Dealers"

TODAY

(Continued from page 1) will keep them awake. And what is true of those far-off Korean pallbearers is true of ninety per cent of human beings.

Speaking of gambling, it was a cheerful day in Wall Street yesterday, with money cheap, prices strong and very enthusiastic buying of "big steel." Somebody bought nearly 190,000 shares of steel, paying twenty-five million dollars for it. The time for short selling isn't in sight.

In considering the victory of Brookhart over Cummins, administration Republicans will not overlook the important fact, Mr. Cummins voted to push the United States into the World Court, where it had no business. Mr. Brookhart voted to keep the United States out of the World Court.

Senator McKinley voted for the World Court, and was beaten in Illinois by a record vote of 150,000, and by Frank L. Smith, who ran exclusively on an anti-World Court platform. In Indiana, Watson and Robinson, against the World Court, won by majorities of 150,000 and 65,000.

In Pennsylvania Senator Pepper, who voted for the World Court, was beaten by 190,000 votes, and in Oregon, Senator Stanchfield, also for the World Court, was beaten.

Perhaps the Republican administration now believes that the people of the United States are really not in favor of a World Court, not in favor of mixing Uncle Sam in the affairs of Europe, or submitting matters important to this nation to European tribunals.

Yesterday Willie Martin, a negro, convicted of murdering Mrs. Lena Blevins, confessed when strapped in the electric chair in Arkansas. While the current did its usual work, quite unpleasant causing dreadful stiffening and contortion of the body, the father and other relatives of the dead woman looked on. They wanted "the satisfaction of seeing the negro put to death." Supply your own cement.

Once a million sounded big, a hundred million inspired awe. Now the New York Central Railroad, consolidating subsidiaries, raises its capital stock from \$400,000,000 to \$500,000,000 and it is just a little "financial adjustment."

There are 2,720,000 on the unemployment lists in Britain, including miners on strike against reduction in wages. Conservative Americans tell you so many Britishers are idle because Britain pays a "dole," enough to keep the body and soul together of those out of work together. British statesmanship is wise enough to realize that you can't let men starve, especially when they have just returned from fighting for their country.

The Mexican Government seizes a Canadian ship loaded with rum bound for California, saying: "Mexico must help the United States to prevent rum running."

At the same time Mexican authorities close three Catholic churches in the city of Frontera, Mexico and Jalapa, Oax. is closed for political reasons, two because they are "in excess of the number of churches permitted in the locality." It is easier to begin regulating religion than to predict where regulation will end.

Senator Wadsworth, coming up for re-election, advocates a repeal of the Eighteenth Amendment and Government sale of liquor, on the Quebec plan, in states that desire it.

Dry Republicans will make an independent senatorial nomination against Mr. Wadsworth.

With a wet Democrat, a wet Republican and a dry independent Republican running, New York's senatorial contest this fall will be enlightening.
