PROTEST AGAINST DATE FOR OPENING TOBACCO MARKET

East Carolina Warehousemen in Meeting at Wilson Protest Against U. S. T. A.

Wilson, June 30.—(AP)—The direct cause of the Eastern North Carolina Tobacco Warehousemen's Association holding a call meeting here today with representatives of mercantile, banking, farming and other business interests also in attendance adopted resolutions strongly protesting against the date fixed for the opening of the auction warehouses of the Eastern part of the state on September 7th by the Tobacco Association of the United States at its recent convention at Atlantic City, N. J.

The resolution directed to the sales committee of the National organization asked that the opening date for the Eastern Carolina Market be changed from September 7th to September 1, declaring that the late opening as now scheduled would have a harmful effect upon business generally and the economic welfare of the farmers, J. C. Eagles, of Wilson, President of the Association, presiding; and B. B. Sugg, of Greenville, as acting secretary.

STAYTON CALLED WITNESS STAND BY SENATE BODY

Funds Committee Asks National Chairman What He Knows About Pa. Primary

Washington, June 30.—(AP)—Turning from its inquiry into the affairs of dry organization the Senate campaign funds committee today called before it Captain W. H. Stayton, national chairman of the association against the prohibition amendment.

To complete the contrast between the day's session and those which have preceded it, chairman Reed turned the witness over to dry members of the committee for questioning regarding the activities of the wet organization in politics, its history and its finances.

"It has been slanderously stated that I am a wet," Reed said. "There are several dries on the committee and I shall turn Captain Stayton over to one of you for examination. Then there won't be any charge that I am covering anything up."

The dry Senators had come into the committee room fortified by voluminous information presented by Wayne B. Wheeler of the Anti-Saloon League, which was charged expenditures by wet interests in the recent Pennsylvania primary.

When Senator Reed withdrew from the questioning of Stayton, examination of the witness was taken over by Senator King, Democrat, of Utah. Stayton said the purpose of the organization he founded in 1918 was to encourage obedience to the dry laws as long as they were on the statute books but to do everything that could be done "decently" to bring about the repeal of the 18th amendment and the Volstead Act.

SEABOARD ASKS TO DISCONTINUE TRAIN SERVICE

Raleigh, June 30.—(AP)—The Seaboard Airline Railway today made application to the State Corporation Commission to discontinue passenger trains number 31 and 32 between Wilmington and Hamlet.

STATE PRESS ASSOCIATION TO MEET SOON

Francis Donnell Winston to Deliver Principal Address, Spoke Fifty Years Ago

Hickory, June 30.—(AP)—Fifty years ago this summer, the North Carolina Press Association held its annual meeting.

It is to meet here again this summer, the dates having been fixed as July 21 to 23.

At the meeting a half century ago, an 18-year old student delivered the principal address.

At the press banquet on July 22 this same man will address the organization—the same one to which he spoke 50 years ago, but with a membership almost entirely new since then.

The man's name is Francis Donnell Winston.

Although he has not announced the subject of his address it is expected that some attention, at least, will be devoted to the half century that has passed under his observation since he spoke to the members of the "third estate" that summer day in Hickory five decades ago.

Since that time he has become a practicing attorney, has held seats in both branches of the North Carolina legislature, has sat upon the Superior court bench, has been elected Lieutenant Governor of North Carolina, and other offices and honors, with their varied experiences, have come to him.

PRINCESS MARY ONLY REAL RACE FAN IN ROYAL FAMILY

London, June 30.—(AP)—Princess Mary is really the only member of the royal family who is an out-and-out racing fan.

The King primarily is a sailor. He raises thoroughbreds and fond of horses, but racing is no passion with him, as it was with his father, King Edward VII. The King never bets on races.

Queen Mary has little taste for racing. She goes to the green races, however, as part of her official job. The Prince of Wales cares little for flat racing, but is much interested in hurdling and hunting. The same is true of the Duke of York.

TODAY

(Copyright 1925) The Old Gig Not Enough. A Brave Young American. Long Le' Atlantis. Mr. Williams' Turbine. By ARTHUR BRISBANE

Thomas Jefferson's old gig has reached Washington, on its way to the Philadelphia exposition. I travel on an automobile. Some day Jefferson's old ideas may reach Washington and create more of a sensation than the old two-wheeled cart, especially Jefferson's idea that the only way to fight whiskey and drunkenness was to encourage light wine and beer.

It seems incredible, in these virtuous bootlegging days, but Jefferson actually recommended a British brewer to the legislature of Virginia, asking that all courtesies be shown, and all facilities extended to him.

Cadet William Point, a brilliant young West Point graduate, was burned to death in an airplane with his superior officer, Major William L. Moose. A farmer who saw the plane's destruction describes the heroism of the young West Pointer. He was thrown clear of the plane as it landed, not caught in the gasoline explosion with Major Moose. Seeing the plight of his friend, he ran within the blazing circle to extricate him. Twice he was forced back by the heat and fumes. He went in a third time and did not come out. Both were burned to death.

A fine young American was lost in that "accident." The question is, WAS it an accident, or another simple of official airplane recklessness and incapacity? Such men are too valuable to be risked in death traps.

A German scientist says the long lost island of Atlantis was located in what is now the Sahara Desert, in the Algerian Salt Swamp called Shetret Jerio. He has the proof that convinces you, Atlantis referred to by many ancient writers, may have been an oasis in a desert, but it is probable that the salt marshes of today were once an ancient sea, with "fabled Atlantis" rising above it.

Mountains now stand where the ocean's bottom once was. The chalk cliffs of England were manufactured by Marine animals, then pushed up above the water. The surface of this earth has risen and fallen, like bread in an oven.

Machine building is the only thing that human beings do really well at this time, including machinery to kill each other. Amazing is a new machine soon to work for the Edison Company in New York, described by Arthur Williams in a radio talk. One single turbine will cost nearly two million dollars, and be twice as powerful as any similar unit in existence. Twenty years ago, that machine would have supplied enough light for all New York.

This giant turbine, "weighing more than a million pounds," eat up one thousand pounds of coal every minute, but uses it so economically, on power production, as to save far more fuel than it actually consumes.

The farm bloc fill fight against problems is in man's mechanical genius.

The farm bloc tells the administration that the Republican party will lose control of the Senate because it defeated the farm bill.

The President's friends say he has in mind a GOOD farm plan in place of a BAD plan defeated. He wants to establish a \$100,000,000 government agency to stabilize distribution and prices of farm products and eliminate waste.

The farm bloc will fight against that, and the 1928 situation is more complicated.

The French debt settlement will be delayed because Britain urges France not to settle with America until she has arranged her debt with Britain. Caillaux has shown by his treatment of Berenger, that he does not think much of the proposed American settlement any how.

There is a difference between the French-British and the French-U. S. debt. French fighters, at the beginning of the war, held the Germans back from the channel. (Continued on Page 6)

RAILROADS SHOW BIG INCREASE IN YEAR'S REVENUE

A Gain of Nearly \$5,000,000 for the First Five Months of A. C. L. Reports

Wilmington, June 30.—(AP)—A gain of nearly \$5,000,000 in railway operating revenue for the first five months of 1926 over the corresponding period of 1925 was today reported at the general offices here of the Atlantic Coast Line Railroad Company. This year, January to May, inclusive, figures were \$46,036,545 as compared with \$41,082,812 for the first five months of 1925. The operating revenue for May of this year was \$8,191,037 and for May 1925, \$7,380,000. The comparative figures for net railway operating income were, first months of 1925, \$10,722,201; 1926, \$10,894,794.

GOVERNMENT GETS FACTS ON RUM SHIPS

Wilmington, June 30.—(AP)—Marine records published by the Government for the year 1925 show that the Elma, the rum laden ship which was brought to this port Saturday by the Coast Guard cutter Manning, was in that year owned by Joseph H. Riley, whose address is given as the Southern Hotel, New York City. It was learned today, when the Government is acting in the direction with respect to establishing membership of officials here, but it is ascertained that they have information about its activities which they have not yet revealed for publication.

Complete check late yesterday of the Elma's cargo showed that 4,126 cases of liquor, champagne and gin had been removed and stored in the customs house here.

The hearing of the fourteen members of the crew of the rum ship scheduled for two o'clock tomorrow afternoon before United States Commissioner Goodman.

DEFENSE GETS BUSY IN CASE AGAINST GAINES

Seattle, Wash., June 30.—(AP)—Defense counsel today prepared to attack the chain of evidence which yesterday led to the arrest of William C. Gaines, disabled war veteran, accused of the murder of his 22-year-old daughter, Sylvia. Gaines is held without bond pending a hearing Friday. Gaines' arrest followed nearly two weeks of investigation in the course of which he requested Prosecutor Dolvin to prefer a charge of murder against him that he might have an early opportunity to prove his innocence.

Miss Gaines was found strangled and beaten to death on the shore of a lake two miles from her father's home on the night of June 16. Physicians said she had previously been assaulted.

Prosecutor Dolvin ordered the arrest after Lewis Stern, a friend of Gaines, testified at a coroner's inquest that Gaines had "killed his daughter as if that he would be 'master in his own house'."

A detective also testified that he found bloodstains on Gaines' clothing. Stern testified that Gaines came to his house the night of the slaying and asked for a drink, saying, "If you had been through what I went through just now, you would want a drink, too."

EIGHT PERSONS BE EMPLOYED SURVEY WORK

Raleigh, June 30.—(AP)—Eight persons will probably be employed in the survey of women in industry in North Carolina. E. F. Carter, executive secretary of the Child Welfare Commission, said today five of these will be women. Mr. Carter indicated. The question of personnel will not be definitely settled until the latter part of the week, he added.

FARM MEASURE HOLDS ITS OWN IN HARD FIGHT

Administration Co-operative Bill on Measure Likely To Be Enacted

Washington, June 30.—(AP)—With surplus crop legislation crushed beneath the weight of economic and political controversy, the administration co-operative marketing bill stands today as the only farm relief measure likely to be enacted at the current session of Congress.

Struggling with the problem in a bitter ten hours' session yesterday, the Senate late in the day voted down the Fess Credit measure, which like the co-operative marketing bill, had the avowed support of President Coolidge by a majority of 28 votes—a margin nearly five times as great as that by which the McNary Equalization Fee rider was defeated last week.

Then in rapid succession one substitute proposal after another was rejected until with only a small part of the Senate membership remaining in the chamber, the co-operative marketing bill was passed without a record vote.

This measure would establish a new division in the Agriculture Department to handle co-operative marketing problems, and authorize an appropriation of \$225,000 for its work, already has been passed by the House, but because of Senate amendments, including one eliminating naval stores from its provision it must go to conference between the two chambers for adjustment of the differences.

Little delay in final enactment of the bill however is expected to result from the changes and the House leaders held today's program open to expedite the progress of the measure toward the White House. Nothing else of major importance remains on their slate for action prior to adjournment which they hope to bring about at the end of this week or early next week.

FIND REDUCTION OF TAX CLAIM AT CREDITORS' MEET

Tax Claims of Government Last Obstacle in Settlement of Bankruptcy

Raleigh, June 30.—(AP)—Reduction of more than a quarter of a million dollars in Government tax claims against the Ivanhoe Cotton Mills of Smithfield, N. C., was revealed today in what promises to be the last meeting of the creditors, of the mills before the Federal Referee in Bankruptcy here.

Tax claims of the Government which have been the last obstacle in the path of the organization and reopening of the mills, have been reduced from \$308,000 to \$1,641.

Payment of even this tax is being resisted by the trustee, Kenneth G. Gant, but rather than have further hearings and further delay the reopening of the mills which have been idle for more than a year, it is believed that the reorganized management of the mills will post a bond to cover the tax and let the matter be settled in court.

The Ivanhoe Mills failed more than a year ago for more than half a million dollars. Since that time there have been held a series of referees meetings, some of them at times approaching the sensational.

Cowpeas, soy beans and sudan grass may be planted to furnish late hay and forage for livestock, say State extension workers.

BAR ASSOCIATION TO OPEN SESSION AT WRIGHTSVILLE

Program for Annual Meeting Includes Addresses of Prominent Barristers

Wrightsville Beach, June 30.—(AP)—The twenty-eighth annual meeting of the North Carolina Bar Association will get underway here this evening, when the lawyers will get together for their first session at 8:30 o'clock. The convention will continue through Friday morning.

The program includes addresses by Huston Thompson, chairman of the Federal Trade Commission, President W. M. Hendren, of Winston-Salem; Judge H. A. Grady, of Clinton; Dean M. L. Ferson, of the University of North Carolina law school; and ex-Judge J. D. Murphy, of Asheville. In addition to the addresses and the business session on Friday morning, there will be various recreational and social features. A number of social attractions have been planned especially for ladies attending the meeting, and a golf tournament will feature the recreational program.

N. J. Shepherd, of the Wilmington bar, will bid the attorneys welcome at the opening session this evening. Allen Adams, of Greensboro, will respond, after which President Hendren will deliver the address of the President. Mr. Hendren's announced subject is "A New Task for Law." Judge Grady's address on "Some Judge and Some Lawyers," will complete tonight's program.

Dean Ferson and Judge Murphy will speak tomorrow morning, and tomorrow afternoon a memorial service will be held. Sketches of members who have died during the past year will be read at that time.

Mr. Thompson will be the only speaker on Thursday evening. He has chosen as his subject: "The Meaning of Public Welfare and its Application to Government." The new officers of the Association will be elected on Friday morning, at the only business session on the program. This will also be the final session of the convention.

The North Carolina Bar Association has more than 1,000 members, out of approximately 1,600 practicing attorneys in the State, and a large number of lawyers are expected to be here for the opening of the meeting tonight.

Dairy farmers of Wake and Durham counties recently sold 25 cows as a result of fact found by keeping records and testing the milk.

REVENUE OFFICE EXPECTING RUSH BY AUTO OWNERS

With Ten More Days to Go 300,000 Vehicle Owners Out of 400,000, Not Applied

Raleigh, June 30.—(AP)—With only ten more days to go 300,000 motor vehicle owners in North Carolina out of a total of approximately 400,000 today had not procured their licenses for the license year which begins tomorrow.

A period of grace of ten days is allowed owners in which to file their licenses.

Evidently the motor vehicle bureau of the department of revenue is in for a tremendous rush during the next ten days and on owners who fail to get their new licenses by July 10 penalties will positively apply, and notice is given to that effect to the end that everyone may now understand the policy of the department in the administration of the motor vehicle law, says a notice issued by Commissioner R. A. Doughton.

GOV. FERGUSON MAY DEAL NEXT IN PONZI CASE

Financial Wizard Is Facing Year's Sentence for Realty Promotion Deal

Houston, Texas, June 30.—(AP)—Governor, Marian Ferguson probably will deal the next card in Charles Ponzi's financial game, it was indicated today.

The "crusible financial wizard" rested in New Orleans Monday following a nation-wide search instigated by Massachusetts and Florida officials today stood by his ultimatum that he will fight extradition and will agree to leave his cell here only on condition that he be deported to Italy, his native country.

Extradition papers were signed yesterday by the Governor of Massachusetts requesting that Ponzi be returned to Boston to face sentence only of from seven to nine years in connection with his postal coupon scheme which collapsed in 1919.

Florida authorities have indicated their willingness to permit his return to Boston. He is facing a year's sentence in connection with a realty promotion project.

OPENING PROGRAM OF CHAUTAUQUA IS LARGELY ATTENDED

Concert and Lecture Are High Lights of Afternoon and Evening Performances

Swathmore Chautauqua opened a one week engagement in this city yesterday afternoon and last night at the tent on Evans street, next to the postoffice. The tent was well filled on both occasions, especially at the evening performance.

The program in the afternoon consisted of a concert by the Mississippi Misses and Edouard Grobe Concert Company and the Junior Chautauqua. The concert company again entertained at night. This was followed by a lecture by Dr. Frank Bohn, on the subject, "An Old Law in a New Time."

Dr. C. O'H. Horne opened the entertainment both afternoon and night by introducing the platform manager, Dr. Turner. He said Dr. Turner was the type of man best fitted for the job of superintendent, in that he represented the highest ideals in the religious and educational world. He said that Dr. Turner was one of the founders of the Chautauqua movement; that he had served as president of Lincoln University, Lincoln, Illinois, and that he had been associated with some of the great leaders in religious thought of the day. His experiences, his knowledge of world affairs, fitted him for the great job before him, Mr. Horne declared.

The concert by the Mississippi Misses and Edouard Grobe was one of the outstanding features of both programs. They were accorded liberal applause, especially in the evening, when there were more people out to hear them. They gave several classical interpretations from master composers.

This was followed by humorous selections, both in vocal and instrumental form.

The lecture by Dr. Bohn, New York Journalist and world traveler, was highly informative. It was presented in a most vigorous style. He attempted to bring out the old Biblical quotation, "I am my brother's keeper," as a law. He applied it most effectively in summing up his subject. He carefully outlined transitions in human life dating back to the beginning of history.

He laid the crime and corruption of the present day at the door of a lack of sympathetic understanding between the individual consulting American civilization. He said the churches, the schools, the farmer and every branch of business must learn the value of human kindness before there can come an abiding peace among the struggling masses.

He told of the huge task of harnessing waterpower at Muscle Shoals. He said that in the course of a few years, the current from this mammoth enterprise would be received hundreds of miles away. As effort is being made to centralize power in every branch of industry, he said, so must human effort be harnessed in one great cause—the cause of humanity and a higher type of civilization.

He declared humanity must apply the old Biblical law if the nation is to enjoy prosperity and happiness. He urged its application to assure future safety of life and property.

RALEIGH MAN IS ELECTROCUTED

Raleigh, June 30.—(AP)—Clyde Mitchell, 21, a fireman, was electrocuted this morning when he came in contact with a high voltage wire while working on a pole in the western section of the city. He was badly burned and died when he arrived at the hospital.

Tom Tarhell says the time lost in attending a farmers meeting has been worth over a thousand dollars to him in new ideas.

Another car of 200 feeder pigs has been purchased by the 7000 farmers of Granville county.

COLLIE REFUSES TO BEHAVE

Washington, June 29.—(INS)—Rob Roy and Prudence Prim, prize members of the White House menagerie, are in perfect accord with Tad, the cartoonist, insofar as the navy is concerned—"the first hundred years are the hardest."

These two prize white collies don't mind week-end trips on the water. In fact, they enjoy them—that is, after the gangplank has been negotiated.

The Coolidge dogs have the distinction of being the only living creatures in the United States, and probably in the world, who hold particular aversion to stepping up the gangplank that leads to the deck of the Presidential yacht Mayflower. Whereas all the rest of the population would trade a right eye for the privilege of exploring the Potomac River with the Executive couple, Rob and Prudence not only balk, but actually rebel against the experience.

Rob and Prudence always accompany the President and Mrs. Coolidge down the river over the week-ends. After the Mayflower has weighed anchor they seem actually to enjoy things. But the twenty-foot passage from limousine to deck is an ordeal that the Coolidges have come to expect with unlimited patience and forbearance.

One of the last times the President sought respite from official Washington in this manner, the recalcitrant Rob Roy nearly pulled him into the Potomac. The boarding of the yacht had been successfully accomplished. The boat's had piped the party over the side and the band was playing "The Star Spangled Banner." Mr. Coolidge stood at attention, saluting with his right hand and holding the leash to Rob Roy with his left. As the final crescendo of the National Anthem was reached, the dog galvanized into action and bolted for shore. From the staid and dignified salute, the President unceremoniously was yanked down the gangplank, regaining his balance only when almost on the verge of toppling into the river.

MEXICO MOVES TO PAY LAND DEBT YAQUIS

Nogales, Ariz., June 30.—(AP)—A problem confronting Mexico for the last twenty years, growing out of the central government's treatment of the Yaqui Indians in the state of Sonora, is in the process of being solved. In effect, the government is seeking to pay a debt owed the Indians through concession of lands.

Many years ago the Yaquis, an ordinarily peaceful and industrious tribe but as capable of unmitigated cruelty, lost their rich lands. Some of their acreage was given to large land concerns by concession. Other land was taken over by the government because the Indians were allowing it to lie idle. The vast domain dwindled until it was only a tiny parcel.

Then the tribe went on the warpath, withdrawing far into the Sierrita mountains, the strongholds of their fathers. They became treacherous, ferocious and merciless in the torture of their victims. Diaz, then president, exiled many killed off others and scattered the bands. This increased their hatred of the Mexican government.

With the passing of Diaz came a calm in many sections of the Indian country, but not until General Obregon became president did

PRESIDENT CALLES

J.W. HARRELD

KING ALFONSO

FRANK B. WILLIS

President Calles, of Mexico, took steps to break up monopolies and lower food prices. Senator J. W. Harrelld, of Oklahoma, attacked the Department of Justice's policy of trying Federal prisoners in States other than home. Arrest of three men in Paris is believed to have averted an attack on the life of King Alfonso, of Spain. Senator Frank B. Willis, of Ohio, threatened a filibuster against the Rivers and Har-

Indians become pacified. They returned to their lands and worked them with the financial assistance of the government.

Since then the Yaqui has been peaceful. He has been sowing and caring for his lands and developing into a first class citizen. Now Mexico is turning its attention to the problem of compensation, but this time not in a spirit of conquest. The govern-

ment, through the secretary of the treasury, is to help the Yaqui acquire the acreage settled upon by both Mexican and foreigner.

The central government's plan calls for an order of payment on lands unlawfully acquired or their return. In either case, the Yaqui will be recompensated. Lands taken by the government would be returned to the tribe with only one provision—that they be worked.

YOUNG LADIES' FEDERATION HOLD INTERESTING MEETING

Last Friday afternoon the Young Ladies' Federation had a very interesting meeting, with Mrs. Jess Wingate, in College View, twenty members being present.

The meeting was opened by the chairman, the president being absent. Each member answered the roll call with a bible verse, after which two needy cases were discussed and voted on, to send each a pound, each member sending something in the way of groceries and clothing.

The social service report showed the members together have visited around 80 sick people and shut-ins during the past week. Around 35 prayer meetings attended, four trays sent, and flowers sent to several.

After the business, Mrs. Leroy Ballard took charge of the devotional, which was very inspirational and enjoyed by all. After the benediction the meeting closed.

The members were asked to be seated and much to our surprise, we found Mrs. Wingate had planned a big treat for us. We were served delicious ice tea, cheese waffles and sandwiches.

IMMENSE HEAP OF FLIVVER DEBRIS ALARMS AUTOISTS

One of the comedy scenes in "Where Was I?" a Universal Jewel starring Reginald Denny, which is coming to White's Theatre, Thursday, tied up traffic on a California road for several hours.

When passing motorists saw automobile parts strewn over the road and heap of wreckage piled up, curiosity got the best of them and they all stopped to inquire about the casualties. A taxicab with parts hanging all over it was parked beside the road, adding realism to the scene.

However, the collection of old tin was merely the debris of a comic sequence. It was piled at the mouth of the tunnel at Newhall, Cal. Within the tunnel, Denny, driving a runaway taxi was supposed to have run into a half dozen cars of a certain make. On exiting from the tunnel the spare parts were of little value and were thrown away to await collection by a wrecking company which had offered to remove them.

BORING HOLES IN VOLCANO IN SEARCH OF INFORMATION

Honolulu, June 30.—(AP)—Scientists who desire to know more about volcanoes and especially about the Kilauea volcano on the island of Hawaii are boring a network of holes around the vast crater.

The holes are being bored with compressed air drills, and are ten feet deep. There will be one every 1,000 feet.

Dr. Thomas A. Jaggar, in charge of the Kilauea volcano observatory, who is directing the work, expects to learn something about subterranean heat in its relation to volcanic activity.

The holes will be encased around the top and capped so that temperature tests may be made at any time. It is thought that a rise

HOMELY VIRTUE OF THRIFT

President Coolidge says local governments need to practice the "homely virtue of thrift."

He might also have added that each American home needs to practice the "homely virtue of thrift."

President Coolidge believes that thrift is the only salvation for American people.

And he is right. We know of no time in American history when there was greater need of economy in affairs of the home as well as in government.

But we believe that thrift in the home is more essential of the two. It is the home in which all of our ideals are centered.

Our people are forgetful of the future. They seem to be living for today. They believe in the old saying, "Live today, and let tomorrow take care of itself."

wrong attitude. We must learn in the hard school of experience that we live today that we may prepare ourselves for greater service tomorrow.

America must begin the practice of thrift at once. Too much is being spent for extravagance. There are too many expensive social sides to life.

THE COMMUNITY CHEST IDEA

The Rotary club is using its influence in behalf of a Community Chest. It is a worthy enterprise.

The Community Chest idea is receiving attention of all principal towns and cities throughout the country.

There is an old saying that "charity should begin at home." But that cannot be applied to a case of this kind.

The public should do everything to help the various organizations make the chest a success.

how much money would be required to meet the demands of the city's poor. But we do know that regardless of the amount required, it should be given liberally.

There is no cause as holy as the cause of human life. When you are asked to give to the community chest you will be giving to one of the most glorious causes imaginable.

We want to congratulate the Rotary club. It is always doing something good.

JAP DIVING KING PLANNING TREASURE HUNT

Tokio, June 30.—(INS)—Yumihachi Kataoka, Japan's "Diving King," is planning another expedition to recover long-lost treasures from the bottom of the sea. He is negotiating now with Lloyds of London to undertake salvage of the gold and silver bullion which was lost when the British liner Egypt was sunk in the Bay of Biscay.

The treasure which Kataoka seeks is valued at approximately \$5,000,000, slightly more than half being in gold bullion and the rest in silver bullion. It has lain at the bottom of the Bay of Biscay since the Egypt was sunk off Brest in a collision with a German ship.

Kataoka achieved his first success as a salvage monarch when he recovered more than \$500,000 worth of gold bullion from the sunken Japanese ship Yasaka Maru in the Mediterranean Sea. This expedition was carried out in June, 1924.

Immediately after his success with the Yasaka Maru treasure Lloyds approached Kataoka with a proposal that he attempt to recover the bullion from the sunken Egypt. Kataoka was disinclined to undertake the venture at that time so Lloyds turned to Sweder and engaged the Neptune Salvage Company to undertake the task. This company has been unsuccessful and Kataoka again has been importuned to make the attempt.

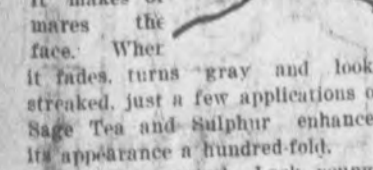

Before starting out, however, Kataoka demands the Lloyds agree to spend approximately \$1,500,000 on the enterprise. If an agreement is reached on this point Kataoka is prepared to set out at once for the Bay of Biscay to begin operations.

Although the Egypt lies in about the same depth of water as did the Yasaka Maru, the salvage work

SAGE TEA KEEPS YOUR HAIR DARK

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

"Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound." This is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

SCHOOL DAYS By DWIG

will be more difficult. Kataoka says, because of tricky currents in the Bay of Biscay. He is confident, however, that he can retrieve the lost bullion successfully. Kataoka's success in recovering lost treasure has enriched several investors who stand to reap greater rewards from their confidence in his ability. Several years ago Kataoka formed a small salvage company, investing his own small capital and persuading several others to put their money with his. It was agreed that no dividends should be paid until Kataoka decided and it was not until after the Yasaka Maru expedition that Kataoka was in a position to pay out profits. Then he declared a dividend of 998 per cent and the stockholders expect a much richer reward than this if the Egypt expedition is successful.

CLARK FOR SOLICITOR

I take this means of expressing my very great appreciation of the splendid vote given me for Solicitor of the Fifth Judicial District in the recent primary. My lead over Mr. Jesse H. Davis, the present Solicitor, and my nearest opponent was 1756 votes in Pitt County and 1272 votes in the entire district. Anything you may do in my behalf in the second primary on July 3rd will be greatly appreciated.

Respectfully, D.M. CLARK

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Moscow, June 30.—(INS)—To be a private employer of labor in the Soviet Union involves some risks to which the State institutions employing labor apparently are no subject. Between the private employer who does not meet his payroll, and the State institution which is similarly negligent exists a difference which is illustrated strikingly in the following two newspaper items published by chance within twenty-four hours of each other in the Moscow press.

In "Hobochaya Moskva," appeared the news that "The owner of the concessionaire factory 'Elams' (a German concern manufacturing carbon paper), Herr Schulmann has not learned sufficiently well the Soviet labor laws. He has held up wages due his employees and also has not paid the compensation he owed the workers for their vacation last year. Meanwhile Mr. Schulmann has bought himself an expensive automobile. The trade union of Chemists is suing Mr. Schulmann for 804 roubles, and as a guarantee they have asked the attorney general to put an arrest upon Mr. Schulmann's property, including his auto."

In "Hobochaya Gazeta" of the following day appeared the notice that "the managing board of the Northern Viatka Mining District, (a government concern), has been systematically negligent for five months in paying the wages of its workers. The workers in June had not yet received their full pay for the month of March. A special investigating committee found that the money had been used for the concern for commercial purposes. No suit was brought against the managers, and no proposal made that their automobiles be confiscated."

Latest statistics of all the All-Union Communist Party, as of April 1, 1925, shows that Gregory Zinoviev's admitted enlargement of the party was not taken place. There are now only 1,913,433 registered members, and 448,628 candidates, making a total of 1,118,001. Thus the regular members still comprise but about one-half of one per cent of the population of the Soviet Union.

The Soviet Union is celebrating the completion of its first dirigible built by Soviet mechanics in Leningrad. Following the Soviet habit of naming its airplanes, factories and institutions by somewhat fantastic titles always bearing the word "Red," the dirigible has been christened in honor of its builders "The Red Chemical and Rubber Workman."

A modest beginning of what the Soviets hope will develop into a fleet of home-made balloons, the dirigible is a small non-rigid blimp with a gas capacity of 2,500 cubic meters and capable of carrying four men. It is designed to stay in the air six hours. The motor is 900 horse power.

TODAY

(Continued from page 1) and probably saved Britain a visit by the Kaiser. British billions were lent to France, to save Britain.

Uncle Sam, on the other hand represented in Europe by President Wilson, was a sort of international easy mark, lending to anybody. No one will suggest that this country was ever in danger of German invasion. We were just "easy."

In Alabama, C. W. Jackson breaks the world's record by swimming 40 miles in salt water in 15 hours. A wonderful achievement. But think of the mysterious eels. They start from anywhere and land in the United States, wriggling up from their fresh water ponds. Curiously the eels, travel down creeks and guided, they find their way across rivers to the ocean, then to the Sargasso sea, and there they breed.

The young eels return to this country from which their ancestors came. Some going to European countries, some to America. That is real swimming, and a real mystery. Who, or what, tells a baby eel to get from the West Indies to Sweden? What power tells the eel, in a stagnant New Jersey pond, how to reach its Sargasso Sea? "Interest" is too easy an explanation and does not explain.

HILL HORNE HAS FORMAL OPENING

Popular Druggist Re-Opens Store Destroyed by Fire a Few Months Ago

"One of the finest drug stores in Eastern North Carolina." This opinion was voiced by over three thousand people who attended the formal re-opening conducted by Hill Horne, druggist, whose store was destroyed by fire several months ago. The building, literally swarmed with visitors from 8 to 11:30. They were served ice cream. The ladies were remembered with favors in the form of a small box of candy.

The interior of the building presents a most attractive appearance. Baskets of artificial flowers are suspended from the ceiling in the main part of the building. They are also used to give a balance to the artistic furnishings used in the display of drugs and toilet articles. In the rear of the structure there is a mezzanine. This has also been furnished so that it will afford a delightful retreat for those desiring more privacy than can be found on the main floor.

The soda fountain is one of the finest in the state. It is presided over by that veteran of soda jerkers, Wyatt Morton. He had an extra force on duty last night including young women, who did their part in making the opening in keeping with the fine service always rendered by a Hill Horne store.

DEAD ENGINEER IS BLAMED FOR WRECK AT GARY

Washington, June 30.—(AP)—Failure of engineer Gordon, of the Cincinnati Limited, to control his train as required by automatic club signals, was given by the Interstate Commerce Commission as cause of the wreck on June 16, of two Pennsylvania railroad passenger trains near Gary, Pa.

The failure on the part of the engine man, however, the Commission Safety Bureau reported, was believed to have been due to his sudden death or physical incapacitation. The collision, which also involved the Washington Express, resulted in the death of twelve passengers and four employees, and the injury of 82 passengers and four employees.

THINKS MAMMOTH CAVE HAS FURTHER GLORIES

Bowling Green, Ky., June 30.—(AP)—Many wonders may be brought to light from the faintly lighted grottoes, caves and caverns of Mammoth Cave, once the federal government establishes it as a national park and provides means for extensive explorations. Kentuckians hope to make it the second national park in the nation east of the Mississippi. When a minimum of 20,000 acres are given the government, the region legally may be designated for national park purposes. Federal legislation has approved the project.

IT IS A HARD JOB, BUT IT CAN'T BE STOPPED

Raleigh, June 30.—(AP)—The State Board of Elections has some unusual requests for information, and some unusual situations are being put up to it for rulings. The latest request for information—or rather an appeal for help—came from Moore county. "Please tell us the best plan to keep Republicans from voting in a Democratic primary," reads a letter from a Moore county election official.

Judge Walter H. Neal, of Lauringburg, chairman of the State election body, recently strongly intimated that the State Board's method would be the removal of county authorities who permitted Republicans to vote in Democratic primaries.

NEW GYMNASIUM HAS PAINTING OF WALTER CAMP

New Haven, Conn., June 30.—(INS)—Walter Camp's benign features will smile down upon future Yale generations in a vast new gymnasium that Yale architects are now planning. For Walter Camp's classmates have caused a striking oil painting to be made of the man who "invented" football as it is played in this country and have presented it to Yale University as the first memorial to Walter Camp's memory. Yale has accepted the painting and promised to place it conspicuously in the new gymnasium when that may be completed.

"The career of Walter Camp is soon to be immortalized in stately form," declared Col. Norris G. Osborn, author, editor and public speaker, class mate of Walter Camp, in presenting the picture. By that token he indicated the fact that more than 450 schools and colleges throughout the land are raising funds for the creation of a monument to Walter Camp in the form of a vast gateway to the Yale athletic fields on which the names of each contributing institution will be carved.

BRITISH THEATRE GOERS SUGGEST NAMING WOMEN ON CENSORSHIP BOARD

London, June 30.—(INS)—"In suggestion that a prominent woman actress or playwright should sit with the Lord Chamberlain and advise him in his task of censoring plays is receiving considerable support here. 'I think the idea is an excellent one, and, personally I should love the job,' said Clemence Dane, the distinguished woman playwright. 'I do not want just a woman censor by herself,' she added.

Club boys and girls will gather at State College for their annual short course on July 5 to 10.

"That would be terrible, but the committee should consist of an equal number of men and women. Even one woman assisting the Lord Chamberlain would do a lot of good, and there would be less chance of really good plays being banned."

Of 314 plays submitted for presentation and approval to the Lord Chamberlain this year in England, twenty have been refused licenses.

NOTICE TO CONTRACTORS

The Pitt County Board of Education will meet in call session on Wednesday, June 16th for the purpose of receiving sealed bids for addition to the Fountain School Building at Fountain, N. C. Had Sore Nine Years

Since 1917, Mr. Charles Miller of Chicago, has had a sore, which has given him untold discomfort and pain. Other remedies had failed to bring relief and he had all but given up hope of ever recovering from his persistent sore. One day he ran across a small bottle of the well established old liniment, Hanford's Balsam of Myrrh. After trying it he could scarcely believe his good news—his old sore was actually getting well. Here is a portion of his overjoyed letter. "Hanford's Balsam of Myrrh has helped this sore which I have had for at least nine years—I am very anxious to have another bottle"—Hanford's Balsam of Myrrh is also a liniment and an antiseptic wash for open wounds. It is particularly recommended for hard sores of strains, bruises, burns, old sores, etc. Sold at drug stores.
