NO TWELVE MILE LIMIT DECLARES FEDERAL COURT

Decision of Court Subjects American Rum Runners to Seizure Anywhere On High Seas

New York, July 8.—(AP)—There is no "twelve mile limit" preventing a seizure beyond that point for American ships, according to a decision of the United Circuit Court of Appeals made public today. The decision was reversed after a finding in the United States District Court of the District of Connecticut which had sustained exceptions to a libel filed against the American Rum Runner Underwriter.

The Underwriter was seized beyond the twelve mile limit, a fact upon which one of the exceptions was based.

"An American ship on the high seas retains her allegiance to the United States," the decision of the Circuit Court of Appeals stated.

"It is quite well recognized that every nation has the right to bind its own subjects to its own laws in every place."

Episcopal Field Day Held Tuesday

Captain Richard Williams, Mrs. Williams and Richard, Jr., Mrs. F. C. Harding, Miss Mary Harding, Mrs. Sarah Harding, Mrs. Badham and daughter, Caroline, Colonel R. R. Cotten, the Rev. and Mrs. James E. W. Cook, and Miss Margaret Cook were among the Greenville visitors at the Field Day of the Woman's Auxiliary of the Episcopal church, held at Green Wreath Park last Tuesday.

Mrs. James Grist Station, of Williamston, made a fine talk on the "Work of the Women in the Church." The Rev. Bertram P. Brown, of Tarboro, who spoke on "Personal Evangelism," made a profound impression on his audience.

The Rev. Guy H. Madara, of New Bern, most interestingly described his work among the Indians of Alaska, while he was Archdeacon there.

The Rev. Geo. F. Cameron, of Ayden, read a thought-provoking paper on "Some Problems and Perplexities of a Rural 'Grey-man,'" in which he emphasized the evils of tenancy, lack of medical attention, and denominational prejudices.

The Revs. G. W. Heyes, of Farmville, and James E. W. Cook, of Greenville, and Colonel R. R. Cotten, also spoke.

The meeting was presided over by Mrs. B. T. Cox, of Winterville and was quite a success. Delegations attended from all over the county.

Charlotte Theatre Robbed of \$2,000

Charlotte, July 8.—(AP)—Police are working on two mysterious telephone calls which came to the Broadway Theatre after midnight from a woman asking if the show was over. The theatre was robbed of \$2,000 a few hours later. Officers say the robbery was an inside job, the safe having been opened by combination and then the lock knocked off as a blind. Four persons are said to have known the combination to the safe.

UKRAINE LEADERS MOVE TO PART FROM SOVIETS

Moscow, July 8.—(INS)—Development of a bitter controversy between Moscow and Kharkov capital of the Ukraine, reveals evidence that no complete success has met the Soviet's attempts to solve the question of national minorities by giving autonomy to each national group. It is now admitting that strong elements in the Ukraine are working for separation from the Soviet Union. The root of the trouble seems to be the overdeveloped patriotism of the Ukrainians, resulting from their sudden freedom from the bonds imposed by the Russian autocracy.

Two Big Days Gone,
Pacific's Neighbors,
Sees His Own Statue,
Catholics Will Fight.

By ARTHUR BRISDANE

Two days that divide the year, January 1st and July 4th, are past for 1926. Half a chance is left for this year, and this year is a big part of an entire working life.

Young people that let the rest of 1926 slip by while they "got by," will know whom to blame when disappointment comes.

Success belongs to him who can make himself work hard between July fourth and October 1st. It is working, while others are not working, that counts. The turtle kept going, while the hare slept. That is the fable for ambitious young people.

J. L. Garvin, able British editor, predicts that fifty years hence our population will be 200,000,000, and Britain and America will be indispensable to each other.

One part of the British Empire—Australia and New Zealand—is important to America now, and will become more important as time passes and our population increases.

Sir James A. M. Elder, commissioner for Australia in the United States returning home a few days since, suggested to this writer that soon America would be looking to Australia as an outlet for surplus population. He thought Americans, seeking new land and opportunity, would find what they require in Australia rather than in Latin South America.

With electric power supplied to every farm, and intensively cultivated, this country should support a billion of population. Texas, alone would easily support our present population.

But barring birth control, and the fact that population tends automatically to diminish with education, there will come a surplus and the suggestion of our hospitable Australian friend is welcome.

Sir William referred to Australia and this nation as "the two great democracies of the Pacific."

It is a satisfaction to Americans to know that the Australians and New Zealanders are our neighbors and friends, on the shore of the great ocean, and to know what kind of men they are. You would have to kill the last of them before their country could be made anything but white.

If this country could ever be of service to those friends, far around the earth, it would vote 99 per cent to render service.

On July Fourth, Marshall Foch witnessed the unveiling of his own statue. That happened often in ancient Rome, and statues that emperors built of themselves received divine honors. But it is rare in our day.

Foch deserves the honor, regard less of the question "Who started the war?" He, at least finished it, and once Lloyd George had forced the allies to accept Foch as leader, the job was done quickly.

And that ending of the war ended also, for the time being, Kaiserism, the imaginary divine right of one man to use millions of others as cannon fodder.

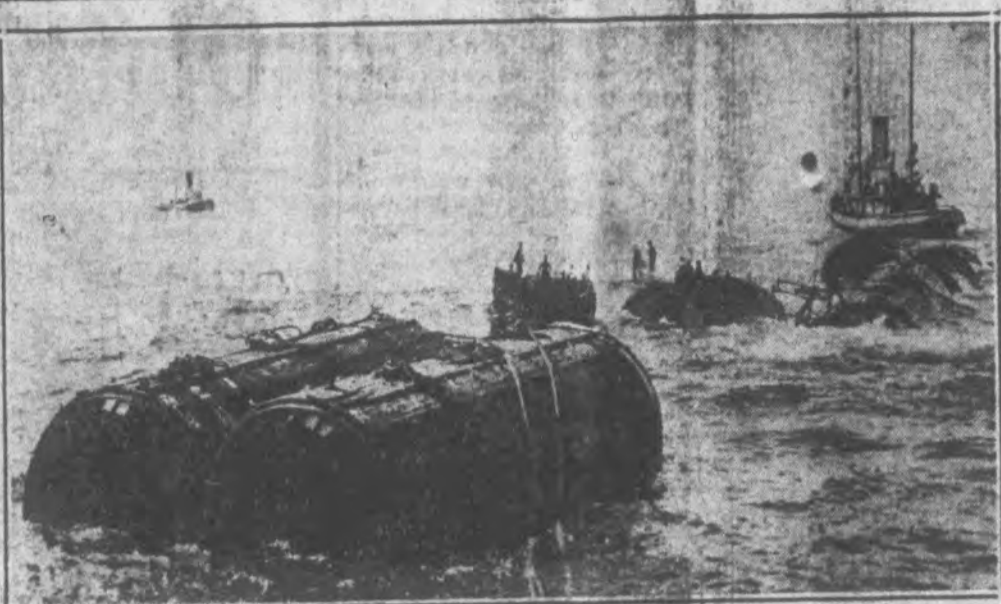

You may say "Mussolini, Pilsudski and Hitler are waiting to do the same thing, in a slightly different way." But wait until they actually do it. Then another Foch will appear. Intelligence rules the world and does not like the "divine right" nonsense.

The Mexican newspaper El Universal, declares that Mexican Catholics will resist—as was to be expected—the new government decree confiscating church property, and forbidding religious ownership of real estate or capital.

High dignitaries of the Mexican Catholic Church have made no public announcement, but the Mexican Young Catholics Association, Manuel De Lapeza, head of the Mexican Knights of Columbus, and Dr. Leopoldo Caballero, a director of hte knights, have both publicly denounced the confiscatory decree as religious persecution and a violation of religious freedom.

(Continued on Page 6)

Submarine Is Hauled for Thirty-three

The submarine S-51 was hauled to the surface and suspended between the six pontoons shown in this picture. The tower can barely be seen between the central floats. Like a steel hearse the ship was towed to the Brooklyn Navy Yard, carrying the bodies of the thirty-three men who went down in it. The sub was rammed by a steamer off New London, Conn., and was raised only after nine months effort.

International News

SEEK SLAYER OF TRYON GIRL

Youth Kills Girl and Wounds Her Escort As Result of Quarrel Late Yesterday

Tyron, N. C., July 8.—(AP)—A youth named "Jimmie" was being sought by officers today for the alleged killing of Miss Jeanne Braswell, 17, of Tryon, and the serious injury of Z. C. Sonner, son of a Saluda merchant.

Sonner, said by physicians to be in a serious condition at a Tryon hospital, today attempted to give authorities some positive clue to the identity of the man, who he said fired a bullet into Miss Braswell's head and turned the gun upon him after a quarrel.

Sonner said he and Miss Braswell were riding late yesterday, when he picked up the young man whom he knew only as "Jimmie."

Reaching a point where they had a good view of Green River Cove, Sonner said he stopped the machine. While viewing the valley, a quarrel arose, he said, and Jimmie suddenly seized Sonner's revolver from behind the seat and shot Miss Braswell and as Sonner sprang from his seat, he was met by two bullets and when he regained consciousness the assailant had disappeared. An inquest is to be held today.

Neighbors, attracted to the scene by the sound of the shots, brought the couple to Tryon. Sonner's revolver was found a short distance from the scene of the shooting early today.

Sonner described Jimmie as of average height with dark complexion and black hair. Miss Braswell was the daughter of Mrs. Flo Braswell, a widow who moved to Tryon from Charlotte a year ago, and granddaughter of C. W. Johnson, prominent textile manufacturer who is president of several cotton mills in Franklin county.

Whitakers Banker Begins Prison Term

Raleigh, July 8.—(AP)—D. R. Gaskill, president and director of the defunct Bank of Whitakers, who was sentenced to 18 months in the state penitentiary by Judge Henry A. Grady, for violating the State Banking Laws, arrived at state prison here yesterday afternoon and today began serving his sentence. He was given the number, of 2056 and will work in the chair factory.

Rev. Nelson Fox to Preach Here Sunday In Christian Church

Rev. Nelson Fox, of Rappahannock, Va., will preach in the local Christian Church on next Sunday at both the morning and evening services. Rev. Fox is pastor of the largest congregation of Virginia and is recognized among the strongest preachers of the Disciples Church in the state.

MILLER ENTERS PLEA NOT GUILTY OF CONSPIRACY

Former Alien Property Custodian Indicted With Others On Charge of Conspiracy to Defraud

New York, July 8.—(AP)—Thomas W. Miller, former Alien Property Custodian, today pleaded not guilty to an indictment which charged him, Harry M. Daugherty, former Attorney General, and the late John T. King, with conspiracy to defraud the Government. Mr. Miller expressed himself strongly in favor of Sonner's investigation of the Alien Property Custodianship.

The indictment to which Miller pleaded not guilty involved release of the custodian of about \$7,000,000 of sequestered assets of the American Metal Company, representing the sale of enemy interest in the concern to alleged Swiss owners.

Film N. C. Girls In Hollywood Studio

Raleigh, July 8.—Mrs. O. F. Clark, and Misses Marie Williams and Louise Jones, of Greenville, passed through Raleigh last night returning from a four weeks trip through the west which they won in a contest given by the Greenville Merchants' Association.

"We had a wonderful trip," Mrs. Clark declared, and she did not seem daunted by the fact that she broke her wrist on the return trip home.

"If it had to happen, I was glad it happened on the way back instead of the way out," she concluded philosophically.

While in Hollywood, Cal., the trio along with more than 100 other winners, were admitted to the studio of Cecil B. DeMille, where they not only watched pictures being taken but seven of the group acted as "extras" in "All for Alimony," which was being filmed at the time. Every courtesy was extended them, the tourists reported, by Mr. DeMille who was born in North Carolina.

French Liner Is Returning to Port

New York, July 8.—(AP)—The French liner DeGrasse, which sailed from New York yesterday with 1,000 passengers is returning to New York on account of engine trouble, said a wireless message received at the office of the company here today. One of the engines has broken down, the message said.

The DeGrasse was about 150 miles out when trouble developed, and the commander decided to bring his vessel back. She is expected to reach here tomorrow night.

GOVERNOR HAS NOT REACHED DECISION IN MANSEL CASE

If Gov. McLean Fails to Exercise Clemency Asheville Negro Will Die in the Chair Tomorrow

Raleigh, July 8.—(AP)—Shortly before noon today Governor McLean indicated to newspaper men that he might not make a decision until late this afternoon in regard to Alvin M. M. M., negro, sentenced to die tomorrow. The executive added that he might not have anything to announce in the case even at that time.

Failure of the Governor to take any action will mean that slump, the French franc today.

Mr. McLean was in conference with the pardon commission today and they were still engaged at noon in poring over the fourth time the record of the case and the alleged newly discovered evidence which has been submitted as a reason for clemency.

Governor McLean will leave Raleigh for Camp Glenn early tomorrow and if he makes a decision to exercise clemency, it is expected to be announced before his departure.

Locate Bodies Submarine S-51

New York, July 8.—(AP)—Divers who entered the battered hull of the United States Submarine S-51, today reported that there were about twelve bodies inside the ship. One body was seen wedged behind machinery in the engine room and others were reported in the torpedo room.

If the diver's estimate is correct it means that the bodies of 13 sailors were washed from the hull by the waves while it lay on the bottom of the ocean bed off Block Island after being sunk by the steamer City of Rome last September, and will probably never be recovered. When the collision occurred there were 36 men on the S-51. Three were saved and eight bodies later recovered. There were hopes that the remaining 25 bodies had remained in the submarine and could be claimed by the bereaved families.

He's a Poor Prof. Who Can't Find Research Subject

New York, July 8.—(INS)—Strange are the paths men follow in their search for knowledge.

At Columbia University alone at the present time professors are conducting forty different researches into the secrets of the universe.

These range from the study of the insulin cure of the alligator to a investigation of the ancient Egypt. All over the world this summer men of science from the New York university will inquire into the whys and wherefores of this planet.

Professor Simkhovitch will study the patriarchal family and the reason for its breaking up into the individual family. Professor Boaz will search into the social organizations of the Indians.

Studies of fungi will be made by one investigator while other conduct researches into corporation laws, perfumes and their effects, criminal courts and economic theories, the coastal plane shoreline and the vitamins in milk.

Health hazards involved in different cooking utensils, family resemblances in intelligence, the emotional "drives" in animals and researches into many phases of medical science will be the subjects investigated by other men.

He's a poor professor at Columbia who can't find some phase of this world's life to pry into.

HARVEST FIELDS SUNK OF RUCK'S TRAINING QUARTERS

Emporia, Kan., July 7.—(AP)—John Ruck, Kansas State Teachers college, sensational weight heaver, kept himself in condition for the National A. U. Championship meet July 5-6 by working in western Kansas harvest fields this summer.

Mystery

Sylvia Gaines, of Lynnfield, Mass., was mysteriously beaten to death while visiting her father near Seattle, Wash.

Cuba Witnesses First Execution In Twenty Years

Santiago, Cuba, July 8.—(AP)—Salvatore Aguilera was put to death by the garrote today for the murder of his aunt in March 1924.

It was the first execution in Cuba in 20 years.

The garrote, which breaks the spinal column at the base of the neck by the turning of a screw, was operated by a convict. Aguilera died eleven minutes after the garrote was applied. He broke down as the time for the execution approached and it was necessary to administer restoratives before he could be placed in the chair and the brass collar adjusted about his neck.

Traded Horse and Cow for Children; Now in Jail House

Cortland, N. Y., July 8.—(INS)—George Shaw, a Chenango county farmer, is at Mattewan because he did not think it wrong to buy three children for a horse, a cow and three cents.

The "slave" children, Jessie Thornton, 22; Belle Thornton, 15, and Harold Thornton, 9, who has since died, were children of a hill farmer. Their father, who is now in jail for his part in the child-horse-cow trade, thought nothing unusual of the proposal which Shaw made three years ago.

Shaw was living a bachelor's life on a hard, scrubby farm. He had no friends and no companions, and proposed to the Thorningtons that the children be permitted to live with him, to help in the house work and at the same time to be his companions.

To bind the bargain Shaw gave Thornton the horse, the cow and three pennies with a few clothes for Mrs. Thornton thrown in.

County officials heard of rumors of conditions at the Shaw home, of complaints of children being beaten and brutalized. They investigated, and learned the details of the child swapping bargain.

Shaw was indicted by the grand jury in October, 1923, and held in \$1,000 bail, which he provided in cash.

Then Shaw disappeared. No trace of him was found until this spring, when he was found working as a farm hand near Oxford, under the name of George Brown.

Shaw's behavior in prison while he has been awaiting trial convinced officials that his mind was unbalanced. Shaw has been unable to give information about himself or his relatives and has only a vague idea of why he was held in jail.

The Thornton children, are in institutions and have been going to school to make up for lost years.

Franc Reaches New Low Record

Paris, July 8.—(AP)—After a slight recovery from Tuesday's slump, the French franc today sagged heavily to a new low record of 39.01 to the dollar, on news that the Bank of France statement would show an increase in circulation of nearly a billion francs.

WORLD COURT GETS INTO POLITICS IN SOUTHERN STATES

World Court Injected Into Senatorial Con- tests in Progress in South Carolina and Georgia

Atlanta, Ga., July 8.—(AP)—The World Court issue has been injected into the races for the Democratic nomination for United States Senator in Georgia and South Carolina. Opponents of the present Senators, Walter F. George and Edward D. Smith, who are seeking renominations, are stressing their votes for American adherence to the World Court as one of the major issues of the campaign.

South Carolina Democrats on August 31, and Georgia Democrats in September, will select their Senatorial nominees through state-wide primaries. Senator Walter F. George is opposed for renomination by R. B. Russell, chief justice of the Georgia Supreme Court.

"I am unalterably opposed to the League of Nations, the World Court and any and all combinations and alliances which involve us in the tricky, scheming, disputes and wars of European powers," Mr. Russell said in announcing his opposition to Georgia Democrats.

H. A. White Attends Cotton Seed Meet Held in Asheville

Asheville, N. C., July 8.—H. A. White, of Greenville, N. C., secretary and treasurer of the North Carolina Cotton Seed Crushers Association, who has spent some time here attending the joint convention of the Association of the two Carolinas, held at the Kenilworth Inn, has returned to his home in Greenville.

In session at the same time, were both the executive and the rules committees of the Interstate Cotton Seed Crushers Association. Members of the national organization decided to recommend Asheville as the convening place for the Interstate Association next May, with Kenilworth Inn as headquarters.

Between 150 and 200 delegates from North and South Carolina were in attendance. The meeting was featured by many addresses of exceptional merit, among them one by Dr. E. W. Sikes, president of Clemson Agricultural College, Clemson, S. C.

Special social affairs were arranged by the management of Kenilworth Inn to honor the delegates, many of whom were accompanied by their families.

Urge Reforestation Throughout South

Raleigh, July 8.—(AP)—There are large areas of cut-over land in the South which can be made to yield a larger profit from timber than in any other way, says the United States Department of Agriculture, in a bulletin just received here.

Longleaf pine is a profitable tree for growing on these lands, it is pointed out, because it produces two crops—timber and turpentine. It grows both on the driest and deepest sandy hills and on wet lands, and it withstands the injurious effects of fire to an uncommon degree, forestry officials of the department say.

With a view to encouraging reforestation, especially with longleaf pine, the department has issued a bulletin specially devoted to this subject.

Masonic Lodge Installs Officers

Last night Professor H. E. Austin, Professor E. L. Henderson, Captain Richard Williams, Mr. J. N. Hart and Rev. James E. W. Cook visited the Masonic Lodge of Grifton. After enjoying a beautiful barbecue supper, Professor Austin, who is the District Deputy Grand Master, installed the officers for the ensuing year.

\$61,500,000 FOR INDIANA ROADS IN SEVEN YEARS

Thousands Miles of Concrete Laid on Highways of Hoosier State; Gasoline Tax Helps Pay Bill for Improvements Praised by Motorists

Indianapolis, July 8.—(INS)—Indiana will have spent about \$61,500,000 in grading and paving her roads in the last seven years, says D. Williams, director of the State Highway Commission.

Of this amount, more than \$6,200,000 is expected to be spent in the grading and paving of roads this year, Williams says. Already contracts for paving amounting to more than \$5,720,000 have been awarded. The commission expects to receive bids some time this summer on approximately 20 miles more of paving and 20 miles of grading, the cost of which is expected to be more than \$500,000.

Since the creation of the State Highway Commission in 1919, the records show, 1,030 miles of concrete roads have been laid down in this state. To this will be added another 232 miles this year, according to the present plans of the commission.

The landowners and taxpayers in the state are not necessarily compelled to pay for the construction of the roads here. Under the road law, funds for the maintenance of the Highway Commission, and to pay for the construction of roads, is raised by a 3 cent gasoline tax. This tax has returned approximately \$7,500,000 in the last year. Two-thirds of the amount is turned over to the highway department for use in building roads, and the other third is distributed to cities and counties on a population basis, to be used for the same purpose.

Federal aid in building the concrete highways in this state has averaged more than \$1,500,000 annually.

In the News Spotlight

WARREN McCRAY

PRINCE CAROL

DR. JAMES R. ANGELL

MARIA JERITZA

Parole date of Warren McCray, former Governor of Indiana, now in Atlanta, was set for August 31, 1927. Carol, runaway prince, will return to Rumania, said Vienna reports. Moral laxity is increasing, Dr. James R. Angell, president of Yale, said in an address. Maria Jeritza, opera singer, was commanded to appear before King George, of England, for a recital.

U. S. SHIPS MAKE SMALL SHOWING IN SUEZ CANAL

American Vessels Handle Only Three Per Cent of Record Business; Britain in First Place With Dutch, Germans and the French in Order

Washington, July 8.—(INS)—American shipping made up but three per cent of the record breaking business of the Suez Canal in 1925, according to reports furnished to the department of commerce.

In 1925 cargoes of 26,578,000 tons passed through the canal, exceeding the 1913 record by nearly 1,000,000 tons. While the number of transits totaling 5,317 was less by 36 than in the record year, the average size of vessel had so increased that the net tonnage was greater.

Vessels of British registry retained first place in 1925 with 10,016,000 tons, or 59.9 per cent of the total net tonnage, the department's information said.

Dutch vessels ranked second, credited with 2,600,000 tons; Germany 1,701,000 tons, about fifty-six per cent of the pre-war average; France 1,628,000 tons; Italy 1,416,000 tons; Japan 1,000,000 and United States about 350,000 tons. United States was in seventh place, but showed a slight increase over the preceding year.

"The total increase in Suez canal traffic in 1925 was the result of increases in transits of both northbound and southbound traffic," according to Alexander V. Dye, acting chief of the department's transportation division.

"The traffic moving southward totaled 12,350,000 tons, an increase of 702,000 tons over the 11,648,000 tons recorded for 1924. Northbound traffic aggregated 14,412,000 tons, or 959,000 more than in 1924.

"Among the regions beyond Suez that contributed cargo to the 1925 traffic movement British India retained the lead with 9,070,000 tons, or 33.9 per cent of the total traffic. Eastern Asia, comprising China and Japan, was credited with 5,709,000 tons. Australia and New Zealand with 3,338,000 tons and the Persian Gulf regions with 2,960,000 tons."

"The heaviest increase in the southbound traffic occurred in fertilizers and the most important decrease in metals. Movements of this commodity were unusually heavy in 1924 owing to steel reconstruction in Japan following the earthquake.

In northbound traffic a remarkable increase was noted in shipments of rice and wheat. Wheat shipments totaled 1,583,000 tons and rice 1,575,000 tons.

American vessels passing through the Canal during 1925 numbered 102, of which 90 were northbound and 12 southbound. Of the total 76 were cargo carriers, 41 shipping board and 35 privately owned, 21 mail steamers, 3 tankers and one an auxiliary schooner of Philippine registry.

GEN. SEMENOFF BATTLES COMMUNISM IN CHINA BY TEACHING RELIGION

Peking, July 8.—(INS)—Ataman Semenoff, famous White Russian leader, avowed foe of Communism and Bolshevism, has diverted his anti-Soviet activities into a new channel.

He is now organizing a religious propaganda movement to fight Communism, believing that in religion he has found a vehicle of reaction against the Russian doctrine.

Semenoff claims that atheism and Communism are in many respects analogous, and therefore, religious co-operation is the only way to oppose the latter.

Proves Mother Is Your Closest Friend

Jersey City, Mr. J. Paul writes: "I awakened each morning with an unpleasant taste and was often reminded by my Mother that my breath was disagreeable. I tried perfumed tablets, mouth washes and other camouflages which gave temporary relief. After consulting my dentist and finding my teeth in good condition, a friend suggested my trouble was constipation. After taking a few doses of Carter's Little Liver Pills my stomach and bowels were relieved, foul and impure gases eliminated." Druggists, 25 & 75c red packages.

Mrs. J. M. French and son left this morning for Morristown, Tenn., to visit relatives.

Miss Louise Fleming left this afternoon for Algonquin Park, Canada.

Miss Josephine Riley has returned to her home in Morristown, Tenn., after a visit to Mrs. J. M. French.

Mr. and Mrs. C. S. Carr, of Norfolk, will arrive this evening to visit relatives.

Mrs. C. J. Ellen and children are visiting relatives in Mars Hill.

Mr. and Mrs. Earl Helen and children are spending some time at Morhead.

AT COLUMBIA UNIVERSITY
Miss Myrtle Brodgen and Miss Margaret Fleming are taking a course at Columbia University, New York.

BIRTH ANNOUNCEMENT
Born to Mr. and Mrs. W. N. Poindexter, Jr., Winston-Salem, July 3, a daughter, Nancy Arthur.

MRS. SMITH'S CONDITION SHOWS IMPROVEMENT
Reports from Mrs. Guy V. Smith, of this city, who is ill in Philadelphia, state that her condition is slightly improved. Her many friends here wish for her a continued improvement.

DRUM FISHING GOOD AT WILMINGTON
Wilmington, July 8.—(AP)—What was believed to have been a record in drum fishing was made here recently when three local and one visiting sportsmen brought in nine, the combined weight of which was slightly over 300 pounds.

The largest of the drum weighed 41 pounds, and the smallest 30 pounds.

YOUNG WOMAN'S FEDERATION TO MEET FRIDAY AFTERNOON
The Young Woman's Federation will meet tomorrow afternoon at 4:30 o'clock with Mrs. W. A. Sellers, on 10th street.

BOYS ENJOYING CAMP LIFE
About twenty-five of the Greenville and Pitt county boys are spending the month of July at the Citizens Military Training Camp, Fort Bragg. These boys report they are having a great time. One boy writes: "Like camp life just fine, plenty of exercise, hard work, and 'cats' and wonderful appetites. Swimming and other helpful forms of recreation are provided for the cadets, and religious services on Sundays."

LITTLE MISS MCCORMICK ENTERTAINS
Little Miss Ann McCormick entertained about fifty of her little friends yesterday, celebrating her third birthday. On arrival, the guests were greeted by the little hostess and her mother, Mrs. L. B. McCormick. After many

games were enjoyed, ice cream and cake were served. Each guest was given a toy. The little hostess was remembered with many attractive gifts.

HISTORY OF THE PANTHER PATROL
The Panther Patrol was organized in the year 1921, when V. M. Davis, then Scoutmaster, grouped boys and told them to name themselves. The name Panther was suggested. It was passed upon to be the name of the patrol when put to a vote by the boys.

The charter members of the Panther Patrol were Walton Rice, patrol leader, David Evans, assistant patrol leader, William Taft and John Edwin Scoville. The patrol progressed rapidly, not only in rank, but in character.

In 1923, Jake Skinner took the head of the patrol, made Zack Vandyke his patrol assistant. Under the new patrol leader, the patrol started on the road to success. In April, 1925, the patrol won its first victory under the new patrol leader. It won the contest offered by the Scoutmaster to the patrol passing the most tests in a given length of time.

The reward for this was to take supper with the Kiwanis Club. May marked another victory for the Panthers. They won a doughnut feed offered for the greatest number of points made.

The rank of the Panther patrol is higher than any other patrol in the three troops in the city. The Panthers claim the only Eagle Scout in the city and the second in the whole Pamlico Council. There is one scout who has 21 merit badges, another who has 19 and two boys who are on the verge of First Class.

In less than three months the Panther will be the chimerers of no less than four or five Eagle Scouts.

This is a record that we are proud to let anyone see. One which no other patrol in the Pamlico Council can boast of.

ATTENTION, TROOP THREE!
Troop Three, Boy Scout will meet at the Rotary club Friday evening at 7:30.

Carolina opportunities, industrial, and commercial, agricultural and horticultural—potential opportunities unlimited and of depths unplumbed. A program that is comfortable, worth while and deserving of every support.

Gold may not make nations—but gold, when considered as specie, will buy printer's ink and book paper. And an artistic pen, guided by an intelligent knowledge of the facts backed by the gold of Tar-heel business, will bring folks to North Carolina—many folks and much more gold!

So this is the purpose of North Carolinians, Incorporated. The campaigns for money have not ended yet, but even at this early stage, it may be said with Shakespeare: "How far that little candle throws its beams!"

—Carolina Motorist.

80 Per Cent of All Motor Cars Are U. S. Made

Washington, July 8.—(INS)—Automobile manufacturers of the United States accounted for 80 per cent of the world production for motor cars last year, according to figures compiled by the department of commerce.

Substantially all automobiles were manufactured in United States, Canada, France, Italy, the United Kingdom and Germany. Of the 4,763,428 cars produced in these countries, 4,184,269 of these were manufactured in the United States.

United States in the year exported 498,427 automobiles—sixty-one percent of the combined exports from the rest of the world.

In 1924 the production was 3,972,681 cars, 88 per cent of which came from American factories. In that year America's export was 55 per cent of the combined shipments disclosing a gain in automobile foreign trade.

Of the six countries mentioned only the United Kingdom exceeded the United States in its 1925 percentage increase over 1924 in passenger car exports. France made the lowest gain. German exports decreased two per cent, notwithstanding that country's large production gain in automobiles from 18,000 in 1924 to 55,000 in 1925.

Officials here feel that the United States for many years to come should virtually monopolize the foreign market for low priced automobiles. Many markets, especially South America, still cling to the higher priced British, German and Italian automobiles the possession of these "pieces of automobile jewelry" being considered important for the maintenance of social prestige.

On the other hand, the same countries keep on increasing their purchases of lower priced American cars using them for commercial purposes. Officials do not believe that Europe can successfully compete with American mass production methods, their domestic markets being insufficient to take care of the tremendous output possible from American factories.

SELF-SUPPORTERS AT YALE CAPTURE MOST OF HONORS

New Haven, Conn., July 8.—(INS)—Thirty-five percent of the students in Yale University are self-supporting and this 35 per cent during the recent college year, walked away with 45 per cent of all honors, and prizes for high scholarship, special writing, or meritorious examinations.

Self-supporting students in every department of the University took the majority of honors, those in Sheffield Scientific School showing the best record.

McCoy's Puts Weight On Weak Skinny Men

Hollows in cheeks—hollows in the sides of neck—flatness in the chest—why don't you do something to make yourself look like a real man?

McCoy's Cod Liver Oil Compound Tablets puts on weight where weight is needed—not only that but they build up your general health and you grow stronger, more energetic and get plenty of ambition.

One woman gained 15 pounds in six weeks and if any underweight man or woman doesn't gain 5 pounds in 30 days with McCoy's Denton Drug Co., or the druggist from whom they purchased them, will gladly return the purchase price. 90 tablets 60 cents. Ask for McCoy's—they are sugar coated.

Padlocks On Doors Fails to Stop Sale of Beer, He Says

New York, July 7.—(INS)—"This place closed for six months for violation of the National Prohibition Act."

That placard adorns today a large number of saloons, speak-easies and restaurants which formerly sold bootleg liquor and beer—at least the local and Federal authorities use the word "formerly."

But investigation indicates that there are several establishments still operating with considerable financial success behind the padlocks which are supposed to seal their doors. The padlock idea, it was thought, would greatly discourage liquor dealers, but they appear to be hard to discourage.

There are a number of ways in which saloons get around the padlock. One of the most popular is that method used by an old type saloon almost in the geographical center of New York.

The place in question is of the "corner variety, with a door on each street. When the padlock order came through it was for 212 Blank Street, and the Deputy Marshall arrived and locked the door at the address. But the other door, only a few feet away on the other street, is still swinging to the enthusiastic pushes of the many patrons.

And incidentally, the owners of the saloon are reported to have staged a "padlock party" on the fateful day, to which the Deputy Marshall was invited, and from which he departed some hours later in great need of repair. It seemed to have the idea, in performance of his duty, that if he could drink everything in the place it would have to close anyway.

ENGLISH BIRTHRATE DROPS OFFICIAL FIGURES SHOW

London, July 8.—(INS)—The birth rate in England is steadily declining.

According to the official figures of the Registrar-General, fewer babies were born in the first part of 1926 than in any other year except 1918 and 1919, which are regarded as war years, and can-

not be included in a normal average. Some believe this decline tends to produce a finer and better selected race; others regard it as a symptom of race decline.

This decline followed the fall recorded in 1925, when the birth rate was not only the lowest registered in the world.

Gov. Al Smith May Be Drafted for Fifth Time

Albany, N. Y., July 8.—(INS)—The one big question in New York state politics today is: "Will Governor Al Smith run again for Governor?"

Some of the Democratic leaders are certain the Governor will accept the renomination if he is drafted at the State Convention to be held at Syracuse the latter part of September.

Other leaders frankly admit they are not so sure the Governor can be drafted to make the fight for a fifth time.

Not so many months ago, at a meeting of the Democratic state committee in this city, the Governor bluntly told the leaders

that he intended to retire from state politics at the end of his present term.

"It must be," he said at that time.

Since then, when the Governor has been questioned about renomination he was waved the matter aside by saying:

"It's too early in the summer to talk of such things."

When the Governor went to Utica recently to speak at the testimonial dinner for Edwin Corning of Albany, chairman of the Democratic State Committee, some of the leaders thought he might say something that would give them reason to believe he would accept renomination. But they were doomed to disappointment because the Governor carefully refrained from saying anything about renomination. He did say, however, that he believed the Democratic party would be victorious in the state at the polls on election day.

BLOODED RACERS GO TO COLORADO BREEDING FARM

Horses of Noble Lineage From Bradley Stables in New Enterprise; State to Be Made Center for 'Sport of Kings' in Future West

Colorado Springs, July 7.—(INS)—The first step in a systematic effort to make Colorado Springs the center of fine breeding and equestrian sports in the entire west will be made this summer by the importation of blooded horses of famous racing lineage from the nationally-famous stables of Colonel E. H. Bradley, which has produced the two horses who ran one-two in this year's Kentucky derby, and other famous Kentucky stallions.

Turkey Creek, home of some of the finest blooded cattle in the country and owned by Penrose, will be converted into one of the finest horse farms anywhere, according to plans already under way by Penrose. Mares of noble lineage and famous stallions will be brought to the farm, and among them will be numbered the winners of former derbies.

"Behave Yourself," the noted sire will be imported here early this month. This stallion won the Kentucky derby of 1922 and was presented to Mr. Bradley by his brother Colonel Bradley. Fifteen or twenty mares of the finest Kentucky stock and all from the Pen-

SCHOOL DAYS By DWIG

ley farms will be included in the shipment with "Behave Yourself" and destined for their new home on Turkey Creek.

that large savings in the cost of goods are to be had when ordered in large quantities. A \$1,000,000 order for Shoes, for example, will buy each pair at a far lower price than if a comparatively few pairs are ordered.

This means much to you! In our peerless buying power rests a saving power for you which is not duplicated. You can verify the superior quality and savings to be had at this Store; at any J. C. Penney Company Store wherever it may be located, by making comparisons whenever most convenient to you.

"Experience is the best teacher"

"That certainly applies to making gasoline. Prominent oil men tell me years and years of striving are necessary before a company can produce a gasoline that gives motorists what they want these days; snappy starting, good pull for the high stretches, lively motor always—all qualities which only experience can teach.

"Take 'Standard' Gasoline. There's fifty-six years of experience behind that brand. And it's the best straight gasoline you can buy. Always dependable—obtainable everywhere."

says Dealer Dan

"STANDARD" GASOLINE

ALWAYS DEPENDABLE

Carlaris in Chicago for U. S. Derby

Chicago, July 8.—(INS)—Eastern and mid-west racing fans will get their first view of Carlaris, big, brown "wonder horse" of the west, July 10.

Harry Persson, Brings Scant Praise From the British

New York, July 8.—(INS)—In view of the fact that the gentleman has seen fit to honor us with a visit and, therefore, soon will expose himself to public view at so much a look, it may be of interest to note that the British do not seem to think much of Harry Persson, the Swedish heavy weight. This is something less than a recommendation for Harry, since any boxer, who does not please the British can't be exactly bad. He must be no good at all.

INDIANAPOLIS IS CROSS-ROADS OF THE U. S.

Indianapolis, July 8.—(INS)—Just fittingly the Indianapolis Chamber of Commerce has officially designated this city as the "Crossroads of the United States" but to be more specific the actual "crossroads" is located at the corner of Meridian and Washing-

IRENE CASTLE SAYS WOMEN CARRYING BOBBED HAIR STYLES TOO FAR

Bed-Bugs Killed This Quick Way

Just pour a little P.D.Q. wherever there are bed-bugs, roaches or fleas. See how quickly they die. This marvelous chemical discovery can do no damage to your carpets, or furniture, will not rot or stain clothing. P.D.Q. is used and recommended by leading hotels, hospitals and railroads as the quickest and safest way of getting rid of pesky insects. Instantly it softens and kills the living creatures, cracks their eggs, and drives them from hiding and nest-holes. A 5c package of this gem will make a quart of mixture—so easily it will fill a million bed-bugs. P.D.Q. can also be used in double strength. It is ready for use. Free patent book outlines how to reach hard-to-get places with ease. Get P.D.Q. at your druggist's today. Your money back if the bugs are not gone tomorrow.

ECKERD'S MED. STORE

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Paris, July 8.—(INS)—Paris is to have a new Art Museum for the exhibition of both modern and classic painting, sculpture and other objects of art. It will house the important collection of the Parisian philanthropist and art collector, Monsieur Ernest Cognacq who is giving this collection to the State. It will be entirely modern. Nothing old will have the ghost of a chance in this new museum. The objects to be shown will be grouped after new principles which will make seeing them a pure delight for the tourists. A new system of lighting will show off every detail to the very best advantage.

A Garage for Women Only is being constructed in one of the most aristocratic quarters of Paris. The growing number of women who drive their own cars has brought about the necessity of such a building. The ladies say they prefer to park their cars where there are no men. The mechanics, cleaners, etc., will all be of the fair sex, but very likely wearing men's clothing. Of course the comforts will include manicures, and a very modern hair-dressing parlor where Madame may "make over" her declared the Paris Prefect of Popromade.

To put away money for a rainy day is a very good thing. But to forget all about it afterward, is disastrous. Madame Bissau of the rue Saint Martin was going her spring cleaning recently and decided to throw away some old clothing cluttered up in the closet. A few days later she happened to remember that her saving amounted to about two hundred dollars were carefully hidden away in one of the old coats. Of course she told the police her sad tale and they immediately located the ragpickers of the quarters who declared they had seen nothing of the money.

There is still one remaining amusements in Paris, the sole representative of ancient trades now extinct, such as the position and water-carrier.

This amusements who inhabits a small street adjacent to the Faubourg St. Denis, does not use a goose-quill and wears no funny little skull cap and percale sleeve-protectors. He is about forty years old and dresses with all the elegance of the Boulevardier and uses a typewriter. More than that, he is well-acquainted with all the laws and advises his clients upon the form of their tax declarations, etc. His well-kept office is furnished in the most modern fashion and is filled with charming midwinties, typists and office-boys in uniform. The amanuensis drives down town every morning in one of the finest motor cars.

"Be as generous as you like," declares the Paris Prefect of Police, announcing his decision in the matter of rewards for the returning of lost articles.

Monsieur Morain says he has no right to fix the reward that should be paid to the honest man and refuses to give any authority for asking a percentage of value from the owner. The question was raised by a member of the Municipal Council who thinks that a supplementary reward ought to be given to honest finders in addition to the four percent paid by the city.

TODAY

(Continued from page 1)
lation of the constitution.

Dr. Gaballero declares the law forbidding parochial schools, controlled by Catholic priests, a violation of the rights of parents that want religious instruction for their children. Signor De Lapeza, in a public interview contrasts the liberty of action accorded to Catholics in the United States, with the persecution of Catholics and the Catholic religion in Mexico, which is overwhelmingly Catholic.

The world will watch with interest an issue and conflict that would seem to belong to another age.

We try to make Americans sober, total abstainers by law, Sweden will create swimmers by law. Here after no man or woman unable to swim will be appointed school teacher, or appointed to other official positions in Sweden, and scholars may not pass examinations without passing the swimming examination first. There are now about 340 deaths by drowning each

year in Sweden. The Swedish law will help that. It is easier to make men go into the water than to make them drink it—exclusively.

The world will soon know what, if anything, can be done to save the French franc from the fate of the mark and the rouble.

Owen D. Young, our financial expert of the Dawes plan, says anybody understanding finance could save the franc, if he had \$500,000,000 in gold and full authority.

The Bank of France has \$700,000,000 in gold, and a perfect financial plan has been drawn up. But it includes cutting income tax, for the big man, that frightened capital may return to France, and increasing by four billion francs the consumption tax, which falls in little people.

It also means that the French must bid good-bye to the hope that the franc, representing the wealth of most of them, will ever come back to its full value. To such a program the French people will not take kindly, and they are not as docile as Americans and Germans are.

SENIOR B. Y. P. U. OFFICERS REQUESTED TO MEET TONIGHT AT THE IMMANUEL CHURCH

Officers of the Senior B. Y. P. U. of the Immanuel Baptist Church are requested to meet at the church tonight at 8 o'clock, as important matters will be discussed.

JUDGE HORTON RESTING BETTER LAST NIGHT

Raleigh, July 8.—Judge Lloyd Horton, who did not rest so well yesterday, was reported last night as being some better. His condition had been improving for the last several days.

PRESS PRAISES SKOVGAARD

The following comments from various newspapers shows in part the popularity which the artist Skovgaard enjoys. He will appear at the Teachers College on Friday evening, July 9.

"Skovgaard's musical characteristics are genuineness and sincerity, coupled with adequate strength, broad tone and a technique that is always made to subserve his ends and not to be itself unduly in evidence."

—New York Herald

"Skovgaard has reached a point where he is above criticism. His training is that of the consummate musician—the finished, polished, purposeful. The innate genius of the player is that which attracts. It is the genius of a lover of music intellectually."

—N. Y. Evening Post

"Artistically the most brilliant event of the season was the Skovgaard violin recital last night. From the time this artist begins to 'talk' to you with his violin until he stops, you are compelled whether you will or not, to listen. His art is mature, and his playing last evening was virile, magnetic and deeply emotional. His program embraced charming selections from Mendelssohn, Chopin, Sarasate, Schubert, Wieniawski, and other besides his own compositions."

—Copenhagen, Den., Vort Land

"The concert by Skovgaard, the Danish violinist, was a rare musical event. Skovgaard is a perfect master of his instrument and his audience is involuntarily drawn into a state of perfect harmony with him. He overcame the greatest technical difficulties with ease and the taste and thorough comprehension which characterized his playing proves that he possesses a complete knowledge of his art."—Berlin, Germany, Lokal Anzeiger.

CABLE, ILL. ONCE CALLED COMING CITY, IS NOW TAKEN OFF THE MAP

Cable, Ill., July 8.—(INS)—This village, pictured by early residents as a great city for the future, is now officially off the map. Voters at a recent special election unanimously approved a proposition to abandon the village charter and to cease functioning as a corporation, feeling that the tax for maintaining a village organization was too burdensome.

When the town began to boom in 1887 with the opening of a coal mine its residents peered into the future and saw Cable as one of the great metropolises. Within two years a charter was obtained and the settlement named in honor of P. and R. C. Cable, both of whom were prominent in the affairs of the Chicago, Rock Island and Pacific Railroad.

By 1890, census takers listed the village's population at 1,267. The veins of coal, however, began to thin out and Cable began to shrink. When the mine shut down Cable became a flag station.

The town now is practically deserted and it is believed that in a very short time the last houses and the last store building will be

Mr. Davidson

"John Davidson," traveling in the West in a private car, was identified as John D. Rockefeller, Jr., on a vacation.

empted and corn will wait over what once was seen as a future Pittsburgh, Chicago or New York.

New Exposition Will Soon Be Ready at Saint Louis

St. Louis, July 8.—(INS)—"Exposition City," where the Greater St. Louis Exposition, commemorating the 150 years of American independence, and industrial progress, will be held, is rapidly rising.

Hammers are banging and the saws are buzzing on the 45-acre tract in Forest Park and the new "city" is beginning to shape itself. The exposition which will be held for 16 days beginning September 4, is expected to draw more than a million visitors.

It will be the city's first attempt at a big comprehensive pageant since the World's Fair in 1904. If carried out to success, a plan of the player is that which attracts. It is the genius of a lover of music intellectually."

—N. Y. Evening Post

Eight months of preparation have turned out a plan which the managers say is letter perfect. These preparations began with obtaining the site for the exposition. Realizing that the construction of Exposition City is a gigantic task, Mayor Miller has not only officially and personally endorsed the exposition, but has called upon his aides to co-operate with the chamber of commerce in the construction plans.

WEALTHY BARONET'S SON PREFERS TOY TRAIN JOB TO SCHOOL AT OXFORD

New York, July 8.—(INS)—Sir John Holder, 20, son of Sir John Holder, wealthy British baronet, would rather run a toy train than go to Oxford, and that's just what he is going to do.

Young Holder has arrived in this country to be engineer on one of the miniature Canadian Pacific trains which will run thru the tunnels and over the bridges of "Treasure Island," at the Philadelphia Sesqui-centennial.

"The first miniature railroad in England was built by my grandfather," he explained. "It was a mile and a half long, and ran over his thirty-acre estate. There were three engines, and a number of small coaches."

"My father took up the hobby on his own estate and his road was three miles long. I've run the engines there since I was a small boy, and when I was offered the job of running the train at the Sesqui, I naturally accepted, although my family advised me to prepare to enter Oxford next year."

Buffalo Bill's Body May Find New Grave

Denver, Colo., July 8.—(INS)—On a rocky promontory surrounded by giant pine trees, and overlooking the plains which he loved, William F. Cody, known to all the world as "Buffalo Bill" rests in accordance with his expressed wish that after death his body might lie in eternal sleep on this spot. "Buffalo Bill" was buried many years ago under auspicious ceremonies and a muse-

um filled with relics of his prowess as a buffalo hunter and Indian fighter erected.

But despite of his wish the proposal to move his body continues to bob up now and then.

The latest move to transfer Cody's remains is being agitated by Dr. W. F. Carver, of Omaha, who was associated with Colonel Cody in his early days. Dr. Carver advances the argument that Nebraska is the logical burial place for the noted Indian fighter inasmuch as it was on these plains of Nebraska that the old scout first pioneered into the west, and it was there that he gained much of his fame.

At a reunion of Colonel Cody's relatives to be held at Cleveland, the claim is to be pushed which may result in the raising of funds to carry out the proposed transfer of Buffalo Bill's body.

Only last October, relatives of Buffalo Bill began agitating the removal of his body from Lookout Mountain and opposition to that project was vehemently opposed at a reunion held in Chicago.

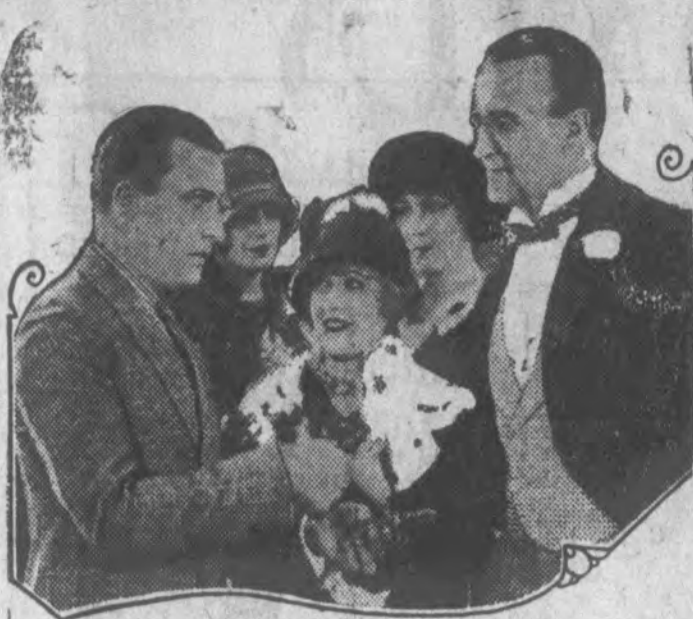

CINCINNATI COPS TO CARRY TINY CAMERAS

Cincinnati, July 6.—(INS)—Besides his usual equipment of hat, billie, and bracelet, every policeman of Cincinnati will soon be carrying a tiny camera, fitted with high speed lens and capable of taking a picture in the tiniest fraction of a second. City Manager C. O. Sherrill has announced the latest addition to the accoutrements of the minions of the law.

DE PAOLO LEAVES U. S. AFTER ONE MORE RACE

Philadelphia, July 8.—(INS)—Pete De Paolo, famous Italian American will drive only one more race in the United States; it was learned here. That will be at Atlantic City, July 17.

De Paolo, it was said after this race will depart for Europe to compete in the famous Italian Grand Prix, and he will probably remain abroad as he said he intends to educate his son in Europe. Mrs. De Paolo, although a graduate of the University of California, wants to live in her native England and therefore the famous driver it is said will remain away after his last race this month.

CONNECTICUT SCHOOLS WILL USE RADIO

Hartford, Conn., July 8.—(INS)—The use of radio for instruction in public schools is to be put into effect in Connecticut next fall, according to announcement made here by A. B. Meredith, state commissioner of education. Radio will be installed throughout the state, with the "little red school house" getting much attention, and about 250,000 will form the audience.

For experimental purpose a course intended to develop appreciation of music will form the first feature of Connecticut's instruction by radio plan. Twenty programs to be rendered in alternate weeks of the school year are planned, each program requiring forty minutes. Later the instruction by radio will extend to other subjects.

If successful in Connecticut, other New England states intend to follow suit, the state board of education has been told. Broadcasting will be done from Station WTIC, in Hartford.

WOMEN INMATES RAISE 65 ACRES OF CROPS ON MISSOURI PRISON FARMS

Jefferson City, Mo., July 8.—(INS)—Three prison farms covering an acreage of 1,172, produce enough garden truck, vege-

penal institution of its kind in the country.

Colonel William B. McGregor, farm supervisor, at the end of his first year, produced a profit of \$6,000 above the subsistence of prisoners, and running expenses. He is required to pay the prison \$1 per day for each prisoner used.

One of the novelties of the

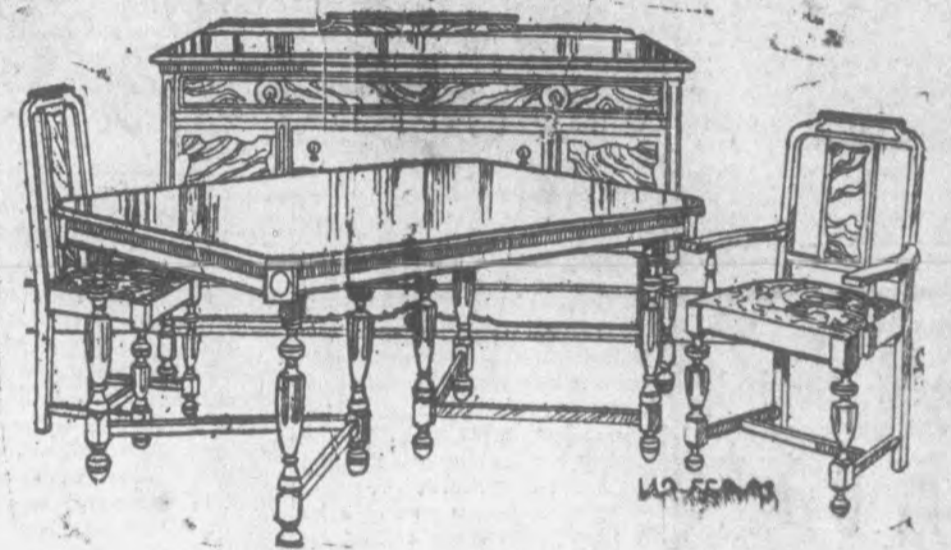

prison farms is farm No. 1 maintained by women prisoners. It consists of 65 acres. Chickens are raised in large number, and sauerkraut, cabbages, pickled cucumbers and canned foods are produced. The woman's farm is a comparatively recent development and is showing satisfactory results. The women are pleased with the work and no attempt at escape has yet been reported.

TO THE VOTERS OF PITT COUNTY!!

I take this method of thanking the voters of Pitt County for their loyal support in the primaries of June 5 and July 3.

I trust that my services to the people of Pitt County will justify the confidence that you have placed in me, by selecting me to fill the responsible position of Sheriff of this county.

'Again, I thank you all.

Yours for service
