JUDGE HORTON LAID TO REST AT FARMVILLE

Wilderness of Flowers Attest the High Esteem in Which He Was Held

Funeral services for the late Judge J. Lloyd Horton, who died at his home in Raleigh last Sunday afternoon, were held in Farmville this morning at 11 o'clock. They were attended by thousands of sorrowing friends from all sections of the state.

A wilderness of flowers forming the floral tribute expressed in a mute way the high esteem in which the late jurist was held by men and women in all walks of life.

Services were conducted at the Methodist Church by Rev. W. A. Stanbury, pastor of Edenton Street Methodist Church, Raleigh, assisted by Rev. H. G. Lane, pastor of the Church of Good Shepherd, Raleigh, a friend and neighbor of Judge Horton, Rev. J. L. Rumley, former pastor of the deceased, and Rev. B. B. Slaughter, pastor of the Farmville Methodist Church. Interment followed in the Farmville cemetery.

Active pall bearers, all of Farmville, were: Dr. W. M. Willis, R. A. Fields, A. C. Monk, J. Y. Monk, J. I. Morgan, Carl Tuguesse, Eugene Hobgood, J. T. Thorne, Dr. D. S. Morrill and J. H. Paylor.

The following Raleigh citizens were requested to act as honorary pall bearers: T. C. Powell, J. S. Flowers, Tom Johnson, John Wyatt, Charlie Harris, William Bailey Jones, J. M. Broughton, P. E. Earle, Frank Fisher, Jr., McIver Allen, George Ross Pott, Dan Allen, W. B. Drake, N. C. Hines, M. H. Allen, L. S. Mansfield, H. O. Clark, James H. You, John W. Hissdale, Judge James S. Brooks, Rev. W. A. Stanbury, Herbert Rosenthal, C. B. Barber, A. M. Mappin, C. F. Grantham, Dr. W. C. Riddick, J. S. Upchurch, K. P. Hill, Ed Hugh Lee, N. E. Edgerton, Jr., Harry L. Jones, Murray Allen, C. A. Douglas, Ernest Haywood, Wiley Barnes, Percy J. Olive, Paul Barrett, R. W. Winston, Jr., Governor F. A. Doughton, W. A. Graham, George A. Isley, J. W. Bailey, Judge J. C. Briggs, Cecil Holloman.

TODAY

(Copyright 1926) Iron From Electricity. Two Divorces, No More? For Swivel Chair Experts. Counting, \$25 a Day. By ARTHUR BRISBANE

In this industrial age, an announcement by the Engineering Foundation that iron may be produced from ore by electricity is ten thousand times more important than any news about art, literature or politics.

Melting ore and making iron with fire may seem to be part of the primitive past, if engineers are not mistaken.

Iron produced electrically would be less subject to rust, and that alone would prevent an annual loss of 20,000,000 tons of steel that goes to waste through corrosion.

The Pacific Coast is interested in this news. No more coal mines or coal hauling necessary in steel plants. That great mountain of iron near Mexico City, a cheap, rich grade iron ore, brought thru the canal from Cuba, and combined with the abundant, cheap electric power of the coast, would compete advantageously with Pittsburgh and Gary.

Steel men know that their industry is still primitive. They are not as self-satisfied as Brit-lishers at the convention of steel men, who voted to erase from their records a certain proposition, that they might not be made a proposition to make steel by the Bessemer process.

Electricity may do for steel production more than was done by that Bessemer process.

Judge Brothers, of Chicago, says no man should be allowed more than two divorces. The first you might excuse, the second proves a man unfit to select a life mate.

The divorce seeker will object that in our OTHER national game a man is not out until he has had three strikes. Also, the good Proverb says, "If at first you don't succeed, try, try again." Either you believe that marriages are made in Heaven, and no divorce can be legal, or you admit that marriage is like other human enterprises, full of imperfections, with the right of each to keep on trying while he lives.

Henry and Edsel Ford's new flying machine, built in their new factory will be ready in August, and represent a long step in aviation. Their plane, with three engines of 600 horsepower, will be as nearly danger proof as is possible now.

With one of the three engines "dead," the plane can continue its journey. If two engines stop, which would happen rarely, the pilot could still travel twenty to thirty miles, depending on his altitude, in search of a safe landing place.

Each plane will carry eight swivel chairs for passengers, and the new Ford plane should make an ideal carrier for about eight of our swivel chair airplane authorities that have held back aviation in this country.

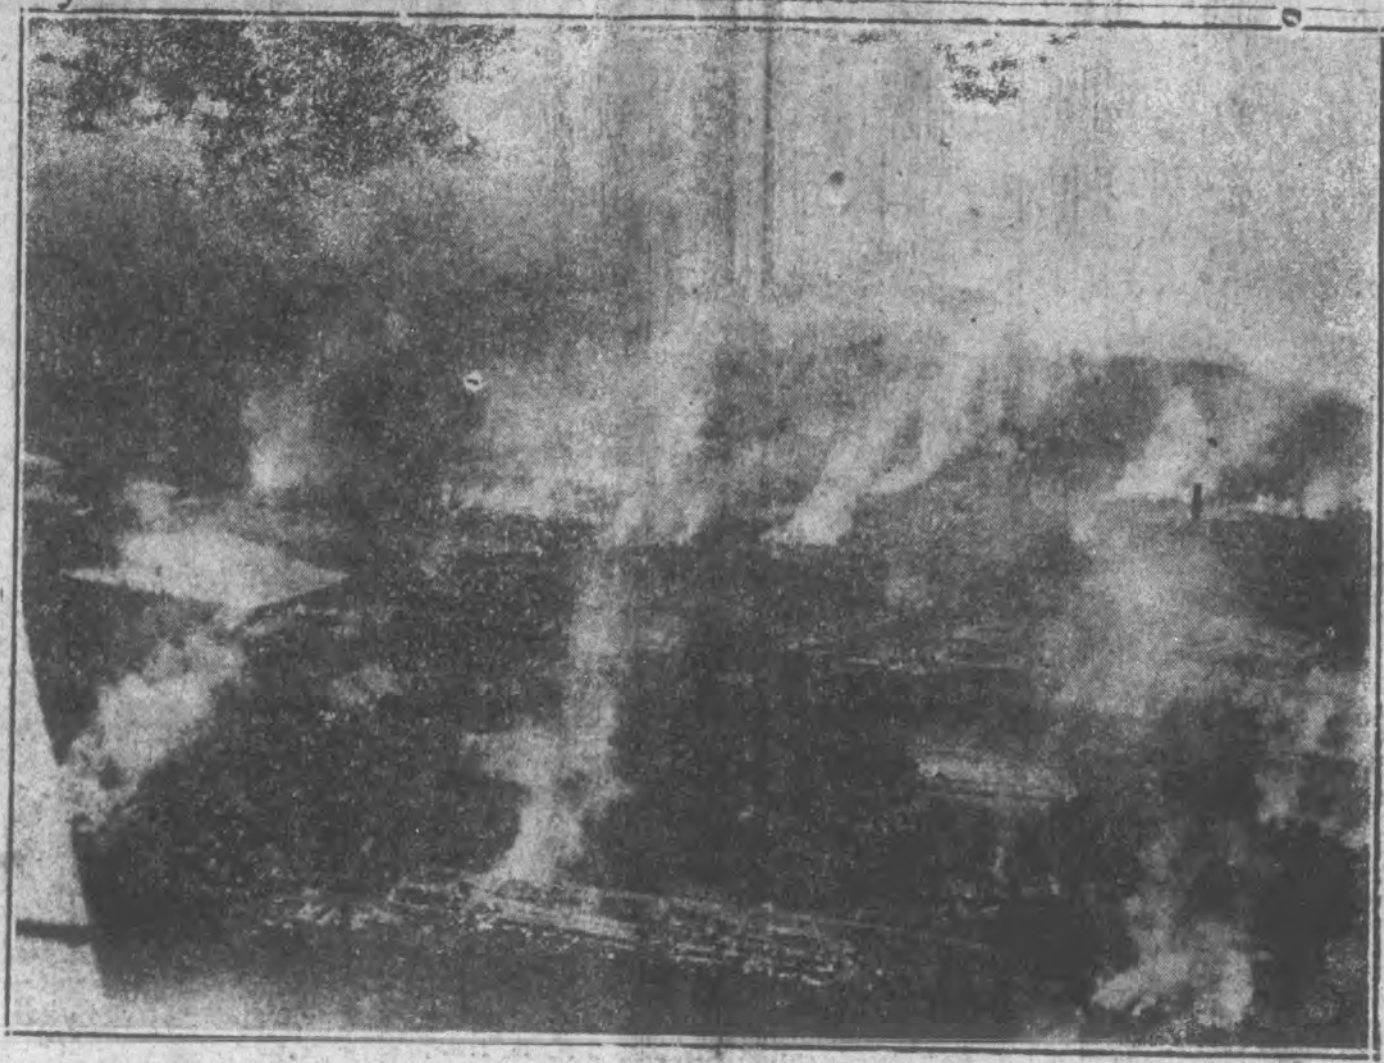

J. L. Garvin, in the London Observer, says Henry Ford killed the Karl Marx theories when he (Ford) established five dollars a day as a minimum wage. Marx built up his theories from deep loots in the British museum. Ford built his plan in a factory, studying men.

Five dollars a day that you really GET, or six dollars, the present Ford minimum, is better than any theory telling how to get the \$5 or \$6 a day BY AND BY. But no real problem is solved by a \$6 wage. That is only one step toward decent living, and \$6 is far from enough.

It sounds like anarchy, bolshevism and blasphemy to say it, but as general American prosperity has increased, since wages were raised from \$1 to \$5, so it would improve in proportion if they were raised, as they will be in time, from \$5 to \$25 a day. Years hence \$125 for a five-day week will not seem strange.

But wages do not settle everything. Men want the incentive of being in business for THEMSELVES, the excitement of man-agement. (Continued on Page 6)

FIRST PICTURES OF ARSENAL BLAST

Here is a remarkable view of the explosion of the U. S. Naval Arsenal at Lake Denmark, N. J., where scores were injured and scores killed. It was taken a short time after the series of blasts started and shells were exploding around the plane from which the photographer took this picture. (Copyright 1926, International News Reel.)

TO BEGIN HEARING OF PEOPLES' BANK

Salisbury, July 13.—(AP)—A hearing in the suit brought by J. L. Foutz, of Washington, receiver of the defunct People's National Bank of this city, to recover \$100,000 or more from the director of the defunct bank, will take place here tomorrow morning before W. C. Ervin, of Morganton, special master, to whom the case has been referred. The receiver is represented by Judge J. K. Shields, of Tennessee, and the defendant directors are represented by an array of local counsel. The receiver already has paid forty per cent dividends to the depositors, and is arranging for the payment of an additional ten per cent. Any further dividend however, will depend upon the outcome of the suit against the directors, it was stated by receiver Foutz here today.

COAST LINE TO TEST OIL RATES

Washington, July 13.—(AP)—The Atlantic Coast Line in two cases docketed with the Supreme Court today, would test out the application of state rates upon shipments of oil to various points within the State of North Carolina from the Standard Oil Company from its plant at Wilmington, N. C.

The railroads lost in the lower court in their contention that the shipments, which reached Wilmington by tank steamers from other states, constitutes interstate commerce and was subject to higher rates subscribed by the Interstate Commerce Commission. The oil company was successful in establishing that the oil when transferred from the tank steamers had ceased its interstate journey upon being placed in tanks at Wilmington, and therefore, was entitled to the lower rates prescribed by the state to lower points in North Carolina.

PHILADELPHIA MAN ELECTED HEAD OF ELKS

(Chicago, July 13.—(AP)—Charles H. Grakelow, of Philadelphia, was unanimously elected Grand Exalted Ruler of the benevolent and protective Order of Elks by the Grand Lodge today. He succeeds Judge W. H. Atwell of Dallas, Texas. Grakelow, director of public works in Philadelphia, was nominated by Mayor Kendrick of Philadelphia and was elected without opposition. He has been a member of the Philadelphia lodge since 1907 and has served as Exalted Ruler six terms and has been president of the Pennsylvania Elks Association.

COOLIDGE HAS NO PLANS FOR FALL CAMPAIGN

Fall Smith, N. Y., July 13.—(AP)—President Coolidge has no plan at present for participation in the Congressional campaign this fall, and in the absence of any announcement by him, any reference to the subject that may appear in print should be regarded as mere supposition.

Chief Executive Fails to Commit Himself as to Congressional Activities

The position of the President in the face of various published reports as to his political plans since he came here, was made clear at the executive offices today. Mr. Coolidge came to the office from White Pine camp to attend to a number of government matters and to receive the newspaper correspondent for the second time since his arrival.

CONVICT GUARD TO GO ON TRIAL

Albemarle, July 13.—(AP)—Trial of N. C. Cranford, charged with the murder of two negro convicts while serving as chain-gang foreman of Stanley County will begin here in Superior Court tomorrow. A change of venue was ordered by Judge T. B. Finley, presiding and jurors will be chosen from Anson County. A venire of 65 men has been summoned to be present tomorrow.

STRAW SHOPPING BAGS

New York, July 13.—(AP)—With summer naming coo'ners as the keynote of fashion even the carfare in Miss Fifth Avenue's purse keeps cool in the open mesh straw shopping bags that are the smart shops' latest.

ILL TREATMENT PRECEDES DEATH

Raleigh, July 13.—(AP)—Charges that cruel treatment preceded the suicide of Alice Coltrain, an inmate at the State Hospital for the Insane, were made today by L. M. Waring, Wake county coroner, in his report to the court. Miss Coltrain hanged herself with one of her stockings Friday night, shortly after she had been placed in a room which the coroner charges was poorly ventilated and infected with vermin.

ASHEVILLE TO BE SCENE OF BLUE LAW TEST

Asheville, July 13.—(AP)—Asheville has been chosen by the National Association opposed to Blue Laws as the North Carolina city in which the test case for Sunday baseball and movies will be made soon, it was revealed today.

FLETCHER SPEAKS BEFORE MEMBERS OF ROTARY CLUB

An address, "The Spirit of Rotary," delivered by Rotarian Maynard Fletcher, of Washington, was the main feature of last night's meeting of the Greenville Rotary club.

M'LEAN PRAISED FOR COMMUTING MANSEL TERM

Raleigh, July 13.—(AP)—The favorable comment which his action in commuting the death sentence of Alvin Mansel to life imprisonment has evoked, is most pleasing to Governor McLean. In addition to editorials commending his action the Governor has received a number of telegrams and letters expressing agreement with his views in commuting Mansel.

WILMINGTON MAN KILLS DAUGHTER

Wilmington, July 13.—(AP)—Authorities today were still attempting to learn a motive for the shooting affray here yesterday which caused the death of Mrs. A. Raymond Reinhart, Jr., of Charlotte, at the hands of her father-in-law, who was later fatally wounded by a police officer.

CLARK SPENDS \$2,420.32 FOR CAMPAIGNING

Raleigh, July 13.—(AP)—D. M. Clark, successful candidate in the recent primaries for the Democratic nomination as solicitor of the fifth judicial district, has reported his total expenses in the campaign. The report, made public by the Secretary of State, shows \$2,420.32 spent with no contributions.

MACON WOMAN IS PAROLED

Raleigh, July 13.—(AP)—Governor McLean today paroled for the remaining ten months of her term, Nellie Carpenter, of Macon county, young woman who recently gave birth to a child in the state prison. She had been sentenced to the prison from Macon county in May for immorality.

WASHINGTON MAN WAS PRINCIPAL SPEAKER AT REGULAR WEEKLY SESSION LAST NIGHT

Several musical numbers also were added to the program. The report of the recent council meeting, including appointment of committee for the new year, were read to the club. The matter of a special meeting of the Greenville Rotary club to be held at Bay View sometime during the month of August was discussed and the program committee was instructed to make arrangements for same.

BRITISH DEBT IS COVERED IN FRENCH ACCOUNT

London, July 13.—(AP)—The settlement signed in London yesterday by Finance Minister Caillaux covers not only the French War Debt, but virtually all the outstanding accounts between Great Britain and France.

PHILADELPHIA MAN ELECTED HEAD OF ELKS

(Chicago, July 13.—(AP)—Charles H. Grakelow, of Philadelphia, was unanimously elected Grand Exalted Ruler of the benevolent and protective Order of Elks by the Grand Lodge today. He succeeds Judge W. H. Atwell of Dallas, Texas. Grakelow, director of public works in Philadelphia, was nominated by Mayor Kendrick of Philadelphia and was elected without opposition.

CONVICT GUARD TO GO ON TRIAL

Albemarle, July 13.—(AP)—Trial of N. C. Cranford, charged with the murder of two negro convicts while serving as chain-gang foreman of Stanley County will begin here in Superior Court tomorrow. A change of venue was ordered by Judge T. B. Finley, presiding and jurors will be chosen from Anson County. A venire of 65 men has been summoned to be present tomorrow.

STRAW SHOPPING BAGS

New York, July 13.—(AP)—With summer naming coo'ners as the keynote of fashion even the carfare in Miss Fifth Avenue's purse keeps cool in the open mesh straw shopping bags that are the smart shops' latest.

ILL TREATMENT PRECEDES DEATH

Raleigh, July 13.—(AP)—Charges that cruel treatment preceded the suicide of Alice Coltrain, an inmate at the State Hospital for the Insane, were made today by L. M. Waring, Wake county coroner, in his report to the court. Miss Coltrain hanged herself with one of her stockings Friday night, shortly after she had been placed in a room which the coroner charges was poorly ventilated and infected with vermin.

BEGIN WORK OF FINDING DEAD IN DOVER DISASTER

Several Hundred Sailors and Soldiers at Work at Scene of Explosion

Dover, N. J., July 13.—Cessation of bombardment by shells today allowed the work of recovering the dead to go forward on Jersy's peacetime battlefield. Several hundred soldiers and marines were on duty about the Lake Denmark Naval Depot, in search for additional victims of exploded ammunition, which came after a flash of lightning Saturday laying miles of surrounding territory in ruins.

Shifting winds which took spiraling flames toward the exploded magazines subsided yesterday after Secretary Wilbur visited the devastated ruins. Brigadier General Hugh A. Dunn, in charge of the work, was of the opinion today that danger of further explosion was past.

Bodies recovered have been taken to the naval hospital in Brooklyn and put beside those of other men in the navy, who perished on duty in peace times—the victims of the submarine S-51. Seventeen of the bodies taken from the depot have been identified.

Two boards will be named by Secretary Wilbur to investigate the explosion, which aside from the loss of lives, destroyed fifty buildings and seriously damaged 400 others and made 350 families homeless.

Although Senators Edge and Edwards demand that ammunition depots be placed in such remote places that civilian life can not be endangered, the depots and the depots of shells and county authorities to complete the removal of powder plants are viewed with little sympathy by the inhabitants of Dover and the country round about. The Rotary Club of Dover has announced its confidence in the Government and in its management of such depots.

Picket lines in the devastated area have been strengthened to keep out of the danger zone curiosity seekers and villagers seeking to return to their shattered homes before the authorities regard it as safe. There have also been some reports of looting.

COUNTY MASON'S PLAN BIG TIME NEXT THURSDAY

Acting Grand Master John Anderson Will Join in the Celebration at Bethel

District Deputy Grand Master H. E. Austin of the 5th Masonic District, which includes the ten Masonic lodges in Pitt county, says that everything is in readiness for the annual meeting to be held in Bethel next Thursday morning at 10:30 o'clock.

Everything points to a great occasion. Acting Grand Master John Anderson has canceled an important engagement in order to be present and meet the Masters of Pitt county and represent the Grand Lodge of North Carolina. He is an interesting man to know and hear. He believes that Masonry is a vital living force that should be manifest in the life of every Mason. He lives it and talks it. He has a magnetic personality and speaks with force and conviction.

Dr. W. C. Wickar, educational field secretary of the Grand Lodge is on the program. He always has something worth while to say and, "how to say it." He is direct. One of the most important activities undertaken by the Grand Lodge in recent years—the work of Masonic Education—informing the Craft as to the real meaning and purpose of Masonry.

Rev. J. E. W. Cook of Greenville, brings the special message of the day. Those who know Dr. Cook recognize him as one of the best informed Masonic students of the day. He is in demand as a Masonic speaker all over the state. When he speaks he always says something worth while in a most interesting way. He has the art of telling things in a way that the listener can carry the truth home with him.

The Masons are expected and urged to bring their wives and help make this a great Masonic field day. Bethel is making great preparations to welcome her guests and make them feel at home.

WILMINGTON MAN KILLS DAUGHTER

Officer Pat Newman Also Held on Charge in Double Shooting Affray

Wilmington, July 13.—(AP)—Authorities today were still attempting to learn a motive for the shooting affray here yesterday which caused the death of Mrs. A. Raymond Reinhart, Jr., of Charlotte, at the hands of her father-in-law, who was later fatally wounded by a police officer.

A coroner's jury this morning started an investigation. Officers said that Mrs. Reinhart was killed when she attempted to call a beach policeman at Wrightville, a resort near here. The elder Reinhart, it is said, had threatened to go to her bodily harm and she called the officer. Young Reinhart, injured in an automobile accident, as he hurried to the hospital, attempted to harm his father as he entered the room, but was seized and arrested. He was allowed his freedom this morning after staying in jail throughout the night.

Pat Newman, the officer, who shot Reinhart, was arrested on a technical charge but authorities said this would not be pressed. Reports, officers said had come to them, were to the effect that the Reinhart's had had domestic difficulties for some time. Financial matters were said to have aggravated the situation and resulted in a visit to an attorney's office here yesterday where officers were told that the elder Mrs. Reinhart thus ended to bring action for divorce. Her husband, they said, left the conference angry at the time, but she remained with his mother. It was shortly after they had returned to the beach from Wilmington that the shooting occurred.

IF RIOT ALARM IS SOUNDED, DO NOT BE EXCITED

It Will Merely Be Assembly Call for Unit of North Carolina National Guards

If the firm alarm sounds No. 22 do not get excited. It will not be any riot call. It will be merely the assembly call for members of the local unit of the North Carolina National Guard.

LICENSE BUREAU IS STILL WORKING AT HIGH SPEED

Raleigh, July 13.—(AP)—The auto license bureau, since the opening of the licensing period on June 1, has received approximately \$4,400,000 from this one source, it was estimated today by Revenue Commissioner Doughton. Mr. Doughton estimates also that 75 per cent of the motorists of the state have obtained their new licenses. The bureau is still working at top speed issuing licenses.

# MALLEABLE MEN OF 15 STATES, TO ANSWER U. S.

Iron and Steel Firms Charged  
With Violating Sherman Law;  
Government Sees Combine Making  
Excess Profits in Illegal  
Agreement

Cleveland, O., July 12.—(INS)—Fifty-two malleable iron and steel casting manufacturing concerns and forty-five officials of these firms located in fifteen states will be called upon to answer in Federal court here September 13 charges of combining in what is alleged to be the largest violation of the Sherman Anti-trust act, since that law was passed July 2, 1890.

That this conspiracy is the most gigantic in the history of the country and is unparalleled in high finance is the opinion of A. E. Bernstein, United States District attorney here.

Billions of dollars were made by this combine in legitimate profits in selling malleable iron castings, bought and used extensively by manufacturers of automotive vehicles and machinery, railroad equipment, agricultural implements, and various other kinds of vehicles and tools, federal authorities charge.

In fact this combine had a finger in every phase of industry in the nation.

Since 1917 when the trust first came into being, the corporations belonging to it, according to the indictment, manufactured and sold approximately 700,000 tons of malleable iron castings annually. This is said to be approximately 75 per cent of all castings manufactured in the United States.

Organization of the trust was almost fool proof, Bernstein said. The members were organized into what was known as the American Malleable Castings Association, with headquarters in Cleveland. A paid secretary, Robert E. Bell, also named in the indictment, together with a corps of assistants entered the names of every client catered to by the membership in files together with the price asked for merchandise, according to Bernstein.

If John Smith, of Boston, gave an order to a member of the trust, the price charged John Smith by other members was looked up and the price was made to correspond.

## Popular Again

Brooklyn Bridge, long neglected by New York pedestrians because subways were faster, came to its own again during the strike. Crowds tramped over the usually deserted structure.

No reductions were permissible without action of the entire membership; and the rules were iron clad.

From 1917 to 1924 the American Malleable Castings association had the industry of the nation in its grasp.

Four concerns to date have pleaded guilty to the indictment before Federal Judge D. C. Westenhaver. They are: the Iowa Malleable Iron Company, of Fairfield, Iowa; The Standard Wheel Company of Indiana, Terre Haute, Indiana; Stanley G. Flagg and Company, Philadelphia, Penn.; and the Mariou Malleable Iron Works, of Marion, Ind. The first two named were fined \$2,500 and costs; and the others, \$3,000 and costs.

## Florida Governor to Stop "Speed Traps"

Tallahassee, Fla., July 12.—(INS)—Speed traps for unscrupulous motorists and semi-legalized gouging of tourists by the greedy traffic officers and constables will be a thing of the past in Florida if Governor John W. Martin's campaign against these evils is continued with the same success that characterized its inauguration.

Incensed by repeated complaints from motorists, motor clubs and chambers of commerce the state executive has ordered a thorough investigation of every case brought to his attention where a motorist has been unduly penalized for minor or trumped up violations of driving laws.

The entire traffic squad of Alachua county was relieved from duty after as student at the University of Florida had been relieved of almost his entire scanty saving for a trip home on a technicality.

The governor has warned all county officers that immediate removal from office will be sought for those who continue to persecute motorists. One Justice of the Peace was ordered to explain why he demanded jewelry as security from motorist, after one alleged traffic law violator has complained his jewelry had not been returned to him.

## Bootleggers in Famous Cave of Uhrig Gardens

St. Louis, July 12.—(INS)—The famous Uhrig's cave, once known nationwide to the celebrities of the stage and noted for its picturesque, cool subterranean passages where beer was stored, has been found to be the secret plant of a gang of bootleggers.

It was at Uhrig's garden above the cave, long since abandoned, that Julia Marlowe played as a child actress and where John Drew first made his appearance in St. Louis.

Many other actors and actresses of note played at the gar-

den in the "palm days" but those were the days when beer flowed from every pigot and steins were 10 cents each.

The garden was one of the show places of St. Louis and one of the most popular for the beer drinkers in the evenings. For many years, however, the garden has been closed and it and the cave have only been memories for the old timers to recall.

The cave, which was connected with Uhrig brewery was established in 1852. The garden later was developed into a resort and some of the finest dramatic and musical attractions were presented there.

Acting on a tip from the neighborhood, government agents made their way 45 feet below the ground into a section of the famous cave where they found two huge vats each of a 200-gallon capacity in operation. One section of the cave had been walled up to serve as vats for the whiskey mash and 24,000 gallons of mash were found.

Entrance into the long forgotten cave was gained when the officers dug through a pile of cinders and uncovered an iron manhole down which was placed an iron ladder and which entered into the passageway into the cave.

## ROOSEVELT PROMISES CHICAGO BLACK DEER

Chicago, July 12.—(INS)—Colonel Theodore Roosevelt to the rescue!

Chicago's children have never seen the black deer of India. But they are going to, thanks to the Colonel.

He has promised, it was said on authority of John T. McQuibben, president of the Chicago Zoological Society, to enlist the aid of friends in India, to supply the demand for juvenile interest in the famed black species of Indian deer.

The 172 acre zoological forest soon to be opened near Riverside will contain, besides the black deer, walrus, sea lions, polar bear and rare fauna and birds of the distant reaches of the globe.

Edwin H. Clark, architect of the Zoological park, is touring Europe to find the best kinds of artificial landscapes, lakes, mountains, bear dens and other reproductions of the haunts of the wild, which will be incorporated in the forest here.

## CLEVELAND IN DRIVE TO STOP SMOKE EVIL

Cleveland, July 12.—(INS)—Smoke inspectors may soon scan the city's skyline from perches established on Cleveland's skyscrapers.

This is the latest plan of Colonel Elliott H. Whitlock, city smoke commissioner, in his drive to banish the smoke nuisance from the city.

The inspectors in their lofty lookouts will quickly discover smoke violators and take immediate action to enforce the ordinance against smoke.

The idea of planting inspectors on skyscrapers to watch for smoke violators was brought back to Cleveland by H. K. Kugel, deputy smoke commissioner, who has just returned from Chicago where he attended the annual convention of the Smoke Prevention Association.

Kugel said that smoke inspectors in Chicago maintain perches on many tall buildings to watch for smoke violators.

Cleveland's new drive against the smoke evil will also affect lake vessels and tugs.

"Eventually all lake vessels will be required to comply with the same provisions that now govern factories, apartment houses and homes," Kugel said.

## ERIE PA. TAKES STEPS TO SAVE THE WOLVERINE, OLDEST IRON WARSHIP

Erie, Pa., July 12.—(INS)—Civic organizations banded together today to save for this city the Wolverine, oldest ironclad warship in the world, now lying at Steel pier here.

Sen. George Wharton Pepper and Rep. Milton Wm. Shreve introduced bills in their respective houses at the last session of congress which would permit Erie to retain the old vessel, but they were not acted upon.

Since it will be impossible to dispose of the marine relic before the new congress convenes, public spirited citizens are devising a means for maintaining the Wolverine if it is permitted to stay here.

**Proves Mother is Your Closest Friend**

Jersey City Mr. J. Paul writes: "I awakened each morning with an unpleasant taste and was often reminded by my Mother that my breath was disagreeable. I tried perfumed tablets, mouth washes and other camouflages which gave temporary relief. After consulting my dentist and finding my teeth in good condition, a friend suggested my trouble was constipation. After taking a few doses of Carter's Little Liver Pills my stomach and bowels were relieved, foul and impure gases eliminated." Druggists, 25 & 75c red packages.

# LOCALS

Mrs. J. N. Hart has returned from a ten days' trip to Morehead and Beaufort.

J. P. Moss and Ed Moyer left this morning for Morehead City to attend a meeting of the N. C. Fisheries Commission Board, to be held there today.

Mr. and Mrs. R. L. Harris and children and Miss Louise Clark have returned after a week's vacation spent at Buckroo Beach, Newport News and other places of interest.

Miss Lill Wilson has returned from Jacksonville, where she has been assisting Rev. John Cowell who has been holding a revival in that city.

J. T. Martin, of Bethel, was here yesterday.

Mr. and Mrs. N. O. Warren have returned from Morehead.

Miss Flora Abram has returned from Richmond, where she went to attend the funeral of a relative.

Miss Helen Powell, of Greenville, S. C., who has been visiting Miss Mamie Ruth Fleming, returned to her home today. She was accompanied by Miss Fleming and Miss Lydia Whichard.

Congressman Lindsay C. Warren and Herbert Bonner, of Washington, were the guests of E. G. Flanagan today.

Mr. and Mrs. Ceba King and daughter, of Baltimore, are here for a visit to relatives.

Miss Lena Beth Turnage has returned from several weeks' visit in Baltimore.

## AUXILIARY PITT COUNTY POST AMERICAN LEGION TO MEET TOMORROW

The Auxiliary of the Pitt County Post of the American Legion will meet tomorrow afternoon at 3:30 o'clock, with Miss Mollie Manning on Third street. All members are urged to attend.

## BETHEL MAN KILLS DIAMOND BACK RATTLESNAKE

J. T. Martin, who lives near Bethel, today reported the killing of a diamond back rattlesnake. The reptile was about three feet long, and had five rattles and a button.

## MR. TURNAGE IN HOSPITAL

Friends of Mr. David L. Turnage, who underwent an operation in the local hospital Tuesday, will be glad to know that his condition is somewhat improved.

## CHRISTIAN CHURCH PICNIC TOMORROW

The annual picnic of the Sunday School of the Christian will be held tomorrow afternoon at Public Landing. The picnicers will leave the church at 1:30 for the picnic grounds and the afternoon will be spent in fun and enjoyment. Mr. B. B. Sugg, chairman of the arrangements committee, has requested that all those who will furnish automobiles to carry the crowd, have the cars at the church before 1:30 which is the hour of departure.

## RESOLUTIONS OF RESPECT

When as it was the will of our Divine Heavenly Father, to call from our midst Brother J. R. Johnson, from his earthly labors to his Heavenly reward.

Therefore, be it resolved, by Mosaic Trib. No. 56, I. O. R. M.

First, that in the death of our brother, our lodge has lost a true member who by his virtues as a man and as a Red Man, won the love and esteem of the brethren, as well as that of the people of the entire community. We feel that a good citizen, a true and loyal Red Man, has gone to his reward, and we mourn his departure. We cherish the hope that he is now enjoying the fruits of his labors in that house not made with hands, eternal in the heavens.

Second, that we extend our deepest sympathy to the bereaved family, and

Third, that a copy of these resolutions be spread on our minutes, a copy sent to the bereaved family, and a copy be sent to the Daily Reflector for publication.

E. C. Hines, Com.

## REBUILDING POSTOFFICE

Dublin, July 10.—(AP)—The General Postoffice building in Dublin, which was the scene of the fiercest fighting in the rebellion of Easter Week 1916 when it was burned is being reconstructed, and the first block of it will be opened for public business before Christmas.

## BISHOP ON SUNDAY GOLF

London, July 7.—(AP)—The Bishop of London is worried over the growth of Sunday golf.

"I cannot but view with really grave anxiety," he told his Diocesan Conference, "the great number of well-meaning Christian men who have given up Christian worship for golf."

## BRITISH BROADCASTING WILL SOON BE REVISED

London, July 12.—(INS)—British radio broadcasting is to undergo changes of revolutionary thoroughness in the near future, according to plans submitted to the Postmaster General, controller of radio broadcasting in England, by the British Broadcasting Company.

The plans involve the division of Great Britain into five areas or regions, each region to be adequately served by a high power station, taking the place of the present main and relay stations.

The new stations will be erected outside cities in order to prevent interference.

## SCHOOLMA'AMS FIND GIRLS AT FAULT FOR IDLENESS

London, July 12.—(INS)—Girls who can't find positions equal to their capabilities have their own selves to blame.

Such was the conclusion reached by the Association of Headmistresses in their report, read at the annual convention of the Association here.

"Many girls object to getting to work at nine o'clock in the morning," the report stated, declaring that this disinclination to get out of bed early in the morning was ruining the careers of many working girls.

## Chesterton and Actress Debate Status of Movies

London, July 13.—(AP)—G.K. Chesterton thinks it is a great pity the film and the radio and other modern inventions have lessened the opportunity of the public to meet politicians face to face and tear them to pieces.

He and Miss Betty Balfour, the film star, are debating the question "Should the Cinema Be Tolerated?"

Miss Balfour declares it is impossible for the public not to tolerate the film, as it has come to stay and will become more and more popular both as an educational and as an amusement factor.

What would the Magistrates do if they didn't have the film to blame for all the wrongdoings of bad boys? she demands.

Miss Balfour maintains the film has made people travel the world over and think about places they would never have dreamed of. The masterpieces of literature have been revealed by the film to persons who would never have known about them otherwise. She pleads for better scenario writing one without the thought of book publication.

## AMERICA IS DANCING NEGRO STEPS TO NEGRO MUSIC SAYS THIS MAN

Chicago, July 12.—(INS)—America is dancing the negro's steps to the negro's music, according to A. G. Gulbransen, piano manufacturer, in an address here.

The negro is the only artistic race in America, which has retained its racial characteristics and imposed its art expressions on the life of the nation, said Mr. Gulbransen.

"Germany has the waltz, old France the minuet, England the Sailor's hornpipe, Ireland the jig, Scotland the Highland Fling, Spain the fandango, Italy the tarantella, Czechoslovakia the polka and even Hawaii the hula-hula.

America has the fox trot and the Charleston, invented by the negro. The Virginian Reel is forgotten, and the antiquarians who are attempting to revive it might well try to resuscitate the Indian scalp dance. In the homes of America now, our people are dancing negro dances, and the music of America is the rhythms of the negro.

Probably they are making the French francs of left now, judging from the rapidity of the fall. Put something behind them and they will grow wings.—Greensboro Record.

## New York's Health Improves Annually

Albany, July 12.—(INS)—New York State residents enjoyed exceptionally good health in 1925, the State Health Department announced today.

Although the state's population increased by three million in 20 years, the deaths for the last year were virtually the same in number as in 1905.

The death rate in the state in 1925 was 12.7 per thousand population, a decrease of 39 per cent since 1900. The rate for New York City was 12.2, and for the rest of the state it was 13.3.

The health department said: "It is interesting to note the relative differences in the causes of death for the past year as compared with 1900. In the latter year, 16 per cent of all deaths were due to the acute respiratory diseases (bronchitis, influenza, and pneumonia) while in 1925 only eleven per cent of deaths were due to these causes.

"Tuberculosis in 1900 caused almost 12 per cent of all deaths, while last year it caused by 7.1 per cent. On the other hand, 25 years ago heart disease was responsible for only 7.1 per cent of deaths, but in 1925 more than 21 per cent of deaths were due to this cause.

## Melts Away Every Freckles in 4 Days

New Discovery — Wonderful Cream—Easy to Use and Greenville Drug Co. Says Money Back If Flyte Fails

Just what you have been wishing for, girls—the ugly spots that you have long been trying to get rid of will quickly dissolve—and you can watch them speedily melt away.

And after every freckle has gone your skin will be cleaner, fairer and more youthful looking than ever before.

Start today to banish these blemishes that mar your beauty. Greenville Drug Co. and live drug stores everywhere are selling lots of it. Just ask for Flyte—it is inexpensive.

## In News Round the World

SHERMAN J. LOWELL

HARRY M. DAUGHERTY

LAWRENCE WALLACE

GABRIELLE D'ANNUNZIO

Sherman J. Lowell is a new member of the tariff commission. New York courts refused to dismiss the indictment charging conspiracy to defraud against Harry M. Daugherty, former attorney-general. Lawrence W. Wallace was named head of a committee to study the radio broadcasting tangle. Gabrielle D'Annunzio, Italian poet, prohibited visitors until November.

## RADIO CLAIMS KING AND QUEEN AS FANS

London, July 13.—(AP)—The routine of Royalty has been altered by radio just as it has changed the habits of millions of other people throughout the world.

Whereas King George, formerly, spent many an evening over his postage stamp collection, now with wireless sets in Buckingham Palace and Windsor Castle, His Majesty often listens in to what the radio waves are saying.

Queen Mary, too, is fond of the wireless, both she and the King preferring ear phones to the elaborate loud speakers which were originally arranged for their use.

## COUNT OF TEN ON JAZZ

London, July 13.—(AP)—Jazz has been indicted on ten counts by Dr. Henry Coward, conductor of the Sheffield Musical Union, and one of England's most noted musicians.

Dr. Coward's reasons for its suppression are that it has: Jingly tunes. Jerky rhythms. Blatant muted trumpets. Hooting. Out-of-tune saxophones. Irritating plong-plongs by banjos. Boisterous bangings of kitchen utensils. Ceaseless commotion. Atavistic tendencies. Grotesque howlings.

## CONFEDERATE VETERANS TO HOLD REUNION IN FLORIDA

Ocala, Fla., July 12.—(INS)—Accepting the cordial invitation extended by the Chamber of Commerce and Civic bodies of this city, L. W. Jackson, Commanding General of the Florida Division of the United Confederate Veterans, has issued a general order to all members to meet in Ocala in a grand reunion next November 3, 4 and 5.

This will be the 36th annual state reunion. Civic bodies of Ocala are planning a hearty welcome for the ex-soldiers and their wives and an elaborate program is anticipated.

**THE PREJUDICIAL  
INVESTIGATION**

Consumption of gasoline during the first four months of this year exceeded that of any similar period—more than 20 per cent greater than first quarter consumption last year.

Surplus stocks have been greatly reduced, and an unusually heavy summer demand is expected. A slight increase in price of crude oil and gasoline has resulted from these unsurpassed demands, and the Senate has directed the Federal Trade Commission to investigate the situation, alleging price-fixing methods.

This may result in much testimony being taken during the summer, but the industry appears to have become accustomed to these investigations, as they have been in almost continuous progress since the close of the war. They all cost the taxpayers money, but they furnish campaign material and jobs for public employees.

**VOTING IS  
OUTLAWED**

A Western state just published a book of its election laws and regulations. It takes 295 pages of fine print, which few ever read.

There are so many laws and regulations governing registration and voting, that half the citizens do not know whether they are entitled to go to the polls or not, or whether they can vote after they get there. Result, fewer and fewer people take part in elections.

In many precincts almost no one votes but the election officers, the judges and the clerks; and the cost of elections has run up as high as a dollar per ballot cast and counted. Some of the Eastern states have even more voluminous laws and regulations.

Manhood and womanhood suffrage has become a thing of the past, and legislatures are trying to hold fewer elections, and hold all general and local elections on the same day. Multiplicity of law making and regulations tends to break down popular government.

**USE COMMON HORSE  
SENSE INSTEAD OF  
A SHOVEL**

In the campaign of education to prevent forest fires, a suggestion is made that campers and picnickers carry with them "long-handled shovels" to be used in the smothering of camp fires

with earth, says the Seattle Times.

A better suggestion would be, for each camper or picnicker to carry a little "long-headedness" into the fire hazard zones. A camping party plentifully supplied with common sense and longheadedness, will not need other materials with which to cope with the remains of a sensible fire.

Prevent fires through the moderate, reasonable use of the forests. Protect the right to renew your youth by occasional contact with nature, unhampered by other men, and there will be no need for carrying curative weapons into the forests.

It is the unthinking, boastful fool that misuses the privileges of enjoying nature at her best, and such individuals are a menace wherever they are to be found. They do not have to go camping to demonstrate it.—Walla Walla, Wash., Union.

**Boston's May-Dec.,  
Romance Goes On,  
Rocks, Boy Is Sued**

Boston, July 12.—(INS)—A year ago Maurice Hayden, 24, took with himself a bride twice his age with eleven years to spare, and the union drew nation-wide attention.

Today the matrimonial ship of young Hayden and his 59-year-old wife, Mrs. Joseph Bassett Hayden, apparently finding sailing too rough, is threatened with disaster.

Mrs. Hayden has filed a suit at Bridgewater against her youthful husband, alleging that he married her for her money. And she requests that young Hayden be compelled to relinquish all claim to property of which she made him joint owner.

He should pay back whatever an accounting shows he owes her, the matronly owner of a prominent summer resort on the shore of Lake Nippenick said in asking for the appointment of a receiver.

Mrs. Hayden charged that her father-in-law, younger in years than she, was involved in her marital unhappiness. Her husband, she alleged, gave his father a job renting our boats and paid him \$25 a week for a job that was worth only \$15. And the elder Hayden didn't always make an accounting of money collected for boat rentals, she declared.

Then, since June 22, her husband has kept the receipts of their business, approximately \$500, and has declined to pay his share of the cost of maintaining the venture, Mrs. Hayden averred.

In her action Mrs. Hayden declared that before they were married she deeded young Hayden a half interest in the estate, the transaction involving property valued at \$6,000, above encumbrances. Now, she alleged, Hayden has destroyed this prenuptial agreement.

**WHITEMAN TELLS VIENNA  
MUSICIANS OF JAZZ**

Vienna, July 12.—(AP)—"Jazz is a handsome child trying to make his way in the world," Paul Whiteman told leaders of the Vienna music world here, and the phrase caught the imagination of his visitors as do his own musical productions.

"The handsome child may be spoiled in making his way but he has a fine chance to win out," he said. "Everybody is interested in him wherever he goes, and the whole world is at all times keen after a new form of something, be it dress or dance or travel. Jazz is being given a fair hearing."

**BRITISH AUTOIST DRIVES  
FROM CAIRO TO CAPE TOWN**

London, July 12.—(INS)—Frank Gray, formerly a member of the British House of Parliament, has returned to London after completing an automobile trip thru Africa from Cairo to Capetown.

Gray told of the strange fascination that canned goods held from some of the natives of the interior. He said he presented a leader of a certain tribe with a gaily-labeled can of sardines. After smelling the food, Gray said, the chief immediately turned up his nose and threw the cheese away, but kept the shiny can as a highly treasured prize.

The United States issues more patents than all other countries combined, the total number being 1,500,000. It is not known why.—Miami Tribune.

**OPEN FORUM**

**HOW MANY HAVE CHARTIY?**

I am so deeply impressed with the 13th chapter of 1st Corinthians, I can't help passing it to my friends. Of course, I believe a great many people read this chapter. But I sincerely wish with all my heart, that every man, woman and child that can read, would read the 13th chapter of 1st Corinthians and then I believe they will want to read the Bible more.

I believe that one thing we all should do, read it more. We have time, that is one thing, I wish to impress upon everyone, to read the Word of God. By so doing I believe, we would love each other as God would have us to.

—Joab T. Tyson

**NOTICE TO CONTRACTORS**

The Pitt County Board of Education will meet in call session on Wednesday, June 16th for the purpose of receiving sealed bids for addition to the Fountain School Building at Fountain, N. C. Bids will be received up to 12 o'clock noon. Plans and specifications may be secured by repaying bid other than the lowest eligible contractors upon application to the office of the County Superintendent of Schools at Greenville, North Carolina. All plans are to be returned at the time bid is filed. No bids for heating are to be received at this time. Certified check in the amount of \$500.00, payable to W. H. Woolard, chairman, must be filed with bid. The Board of Education reserves a right to reject any or all bids or to accept bid if in its judgment such action will be for its best interest.

Signed:  
W. H. Woolard, Chairman  
R. G. Fitzgerald, Secretary  
10th-4f.

**Trap Monkeys in  
India With Hooch**

New York, July 12.—(INS)—There ought to be a law about it. Why should monkeys be allowed to drink liquors when the effect on them is even worse than what Mr. Volstead claims it is on humans?

The whole thing began when George M. Distany arrived here from Singapore with 28 monkeys two giant pythons, two beautiful Bengal tigers, a baby elephant a leopard and numerous other animals. When he told how they were captured it is reported that several societies got all clustered up with denunciatory statements. "As soon as we approached," said Mr. Distany, "the monkeys climbed high into the tops of the trees. We tried burning decayed fish under the trees, and a few of the monkeys became drugged and fell down, but we almost suffered the same effect ourselves, so we gave that system up.

"So we tried leaving pans filled with a powerful native liquor at the bottom of the trees. Sure enough the monkeys came down, dipped their paws in the home brew and licked them, and became so stupefied that they were easily captured.

"One poor little chap named Pigtail, acquired the habit, and had to have his nip three times a day. During the trip back he committed suicide by diving into the deck from the masthead."

The tigers were captured, Mr. Distany said, when small dogs decoyed them into cages. The dogs escaped through little doors on the other side when the large beasts entered. The pythons were provided with so much food that they couldn't move. Then they were just picked up and carried away. They weighed half a ton each. One was 28 ft. long, the other 23 ft. The animals will be sold to various zoos.

**CZECHO-SLOVAKIA MAKES  
FOREIGN TRADE TREATIES**

Prague, July 12.—(INS)—Trade conditions in Czecho-Slovakia have shown a great improvement during the last few weeks largely due to the government reducing trade licensing and opening negotiations for trade agreements with foreign powers. The government has decided on a policy of trade agreements with all foreign powers, which will open the world's markets to the products of the nation.

Czecho-Slovakia has made already agreements with many of the leading European powers and negotiations are now under way with Switzerland and Hungary, whereby the goods of the countries concerned may pass with restrictions across the frontiers. A treaty with Germany will come next. The Chamber of Deputies has just approved a treaty with Japan which opens a rich Far Eastern for the first time for the Czechs.

**FLORIDA MAN, DOING LIFE  
FOR MURDER, MANAGES ALL  
OF PRISON'S INDUSTRIES**

Tallahassee, Fla., July 12.—(INS)—J. J. Mendenhall, serving a life term at the Florida State prison farm manages operation and maintenance of the prison power plant, planing mill, pumping station, and all repair and construction work. All the modern buildings at the farm have been constructed under his direction, as has the installation of all modern machinery.

The "star" prisoner was convicted ten years ago of the murder of a woman. He is 58 years old. Superintendent J. S. Blitch credits him with having aided greatly in building up the honor system at the prison farm.

The state pardon board has refused to consider his applications for a pardon.

**BIG FLOODS IN AUSTRIA  
DESTROY WHOLE FOREST**

Steyr, Austria, July 12.—(INS)—A forest of 10,000 trees has been completely washed away by the overflowing of the River Enns, a tributary of the Danube. The heavy rains of the last few weeks swelled the mountain streams flowing into the Enns and this in turn jumped its banks carrying the forest along with it as it sought the wider Danube.

**BOBBED HAIR MOVEMENT  
NOW IN ROUMANIAN COURT**

Bucharest, July 10.—(AP)—All Rumanian society women are bobbing or shingling their hair, and even Queen Marie is being urged to follow their example.

She would like to do so, but the king refuses to allow her to clip her beautiful chestnut brown tresses, on the ground that it would ill become one who has to wear a crown. The Queen, however, has allowed her ladies-in-waiting and her daughters to fall in with the prevalent fashion if they so desire.

Some of the barbers of Bucharest have closed their doors to men on the ground that their profits from shaving and hair-cutting are little or nothing compared to what they are able to

charge the ever growing number of women who desire their hair bobbed, banged, shingled or dyed.

**LAST ROUND-UP OF WILD  
HORSES IN THE WEST TO  
SUPPLY MEAT FOR EUROPE**

Edmonton, Alta., July 10.—(INS)—The last roundup of wild horses in the West is now in progress on the range areas of Southern Alberta between Medicine Hat and Standard. More than 10,000 animals will be driven into one corral before the end of summer, according to an announcement by the provincial department of agriculture which is superintending the roundup.

Cowboys and ranchmen have been employed by the department for the work. Bands of horses have been running for years in the Bow river valley and the area south of Calgary in a practically wild state. Many of the animals are strays that have got loose from ranches and have not been claimed by their owners.

After the roundup the horses will be checked over. Branded animals will be returned to their owners. Others will be sold at public auction, while the scrubs will be disposed of for horse meat for shipment to Europe and Japan where a market for the meat is developing rapidly.

**A GIANT for POWER**

AT the ESSO pump there is power. Giant power that banishes motor knocks, that shoots you through the thickest traffic, that puts your car over the long steep hills on high.

ESSO, the wonderful new motor fuel, makes old motors run like new, gives new life and flexibility to any car. It sets a new standard of motor performance. It is specially refined to meet abnormal motor conditions.

Test ESSO yourself, in your own car. One tank full is enough. Try it out in traffic—on the hills—over rough country roads. Compare results with those you have been getting from other fuels. ESSO will stand on its own merit. You be the judge.

Red in color. Packed with power. Costs 5 cents more worth it.

**"STANDARD" Gasoline**  
is the ideal fuel for normal requirements

ESSO is manufactured to meet the following special conditions:

1. For motors that knock
2. For motors with excessive carbon
3. For high compression motors
4. For motors which from long use no longer develop full power
5. For motors operating under excessive loads
6. For any motor from which the driver demands extra power and performance.

# Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Berlin, July 13.—(INS)—German hotel keepers are pressing the Government to abrogate visas for American tourists visiting Germany. They argue that more Americans would come to Germany, if they had not to go through the wearisome formalities of obtaining a visa at the German consulate in the United States. Also, reference is made to the fact that many other European countries abolished visas and that following this measure the number of American visitors multiplied many times.

It is estimated that 23,000 Americans who booked passages to Germany during this summer will leave a couple of hundred thousand marks at the consulates, but it is claimed that, if the German Government could make up their mind to abrogate visas, more American visitors would come to Germany, leave more money, and subsequently would mean more state revenues through taxes on hotels. Every American tourist visiting Germany is estimated to leave about 1,500 marks in Germany as an average.

More attention should be paid to learning foreign languages by members of the German Reichwehr, demands an Army Order issued recently. Russian and Polish languages shall be given preference over French and English. Examinations will be held after the courses and the best linguists will be promoted into positions of the Army Command. Lectures and lessons are free of charge for all officers and men.

Special significance is attached to the fact that the eastern languages are given preference over the western ones. Communists have claimed that the German army is preparing for cooperation with the Red army, which was categorically denied by army authorities.

"Bobbed" women suffered a severe reverse when some ten thousand Berliners elected an "unbobbed" woman Summer Queen at a beauty contest here in one of the biggest Berlin amusement parks, the Lustpark. Hairdressers are said to be greatly distressed over the fact that an unbobbed woman was preferred and are forecasting a "turn of the tide" in women's hair fashion.

The German Railway Management announces an innovation which is bound to appeal to and be welcomed by groups of American travellers visiting Germany. A twenty-five percent reduction on fares is granted to travellers if they travel in groups of twenty or more persons. The reduction is valid for distances of thirty kilometers as a minimum. The new regulation became effective on June 10 just in time for the bulk of American tourists to benefit from it.

Although concerning the total of motor cars and motor cycles, the German capital is lagging far behind New York, London, and Paris, motoring is becoming a favorite sport of Berliners. During the last few years the number of licenses granted to motorists has more than tripled. In 1925 alone about 20,000 licenses were given at the Central Bureau some twenty or thirty applicants

are being examined daily. Engineers of the Training Schools agree that women make excellent drivers. Their technical-theoretical knowledge is perfect and they are, as a rule more diligent than men. Generally women drive more carefully than men.

## TODAY

(Continued from page 1)  
ing more when they do better work. They want freedom from monotony, and they want VARIETY IN OCCUPATION.

Ford knows it, and plans at least variety. He wants farmers to do factory work in winter, taking the work to them; also he plans to cut their agricultural year to a few weeks of actual work, with the help of machinery.

It would make conservative capitalists shudder if it could foresee the size of wages in the future and the luxury of the average man. The man above the average will, of course, get more in proportion.

The Government Arsenal at Lake Denmark, in New Jersey was destroyed with disastrous loss of life, and the fact that lightning caused the explosions is taken as sufficient explanation of the disaster. But is it sufficient? What experts has the Government recently employed to deal with the lightning danger that kills so many, menacing every arsenal, powder plant and oil tank in the country?

Lightning is electricity from the upper atmosphere, on its way to enter the earth. It is not a malicious power used by Divine Providence to punish, as once was thought. It is power running wild.

Franklin suggested a way to control it with his lightning rods, and many barns and houses were decorated by such rods in the old days. Has any systematic effort been made by Government scientists, or others, to direct the descending electricity into a safe channel?

Would it have been possible to prevent that Lake Denmark disaster with a series of copper wires extending into the air above arsenal, and running down to wet ground?

Men know how to conduct thousands of electric horsepower from Niagara to distant cities. Would it be impossible to arrange safe lightning conductors, if the Government took the danger seriously?

The more you cut prices, if you do it wisely, the more you make. That applies to Uncle Sam, in his tax collecting. The President and Mr. Mellon slashed income taxes, cutting half from the maximum percentage collectable, and "grave lack of revenue" was predicted.

At the lower tax rate, the government's receipts for this year have increased by \$251,972,613. Income tax yields \$1,972,798,839, of which New York State paid one quarter.

This nation ought to have a flying machine fleet to protect its mountain of money. The other day a distinguished financier, bragging patriotically about this nation, said, "We have the gold, copper, steel and crops." That sounds well. But Persia could have said all that just before Alexander came along with 30,000 men, brains, and a NEW WAY OF FIGHTING.

### JUDGE HORTON LAID TO REST AT FARMVILLE

(Continued from page 1)  
way, Jeff Coke, Judge E. J. Timberlake, C. C. Page, Charlie Tilley, P. A. Raspberry, and W. S. Burns. Judge Horton died Sunday afternoon at 4:30 o'clock. He was stricken with meningitis July 2. Death resulted from active dilation of the heart. There had been a slight kidney complication in connection with the attack of meningitis.

This morning's session of Pitt County court adjourned until 2:00 o'clock this afternoon out of respect for the deceased. Members of the Pitt County Bar Association and members of the Raleigh bar attended the funeral in a body. Many court officials and notables from all sections of the state were numbered among the thousands in attendance.

**PAY TRIBUTES**  
Yesterday tributes to one of the youngest Superior Court judges in the history of the state poured in from all parts of the state. Governor A. W. McLean issued a statement expressing his feeling of personal loss as well as the loss of the State. Judge W. M. Bond, presiding over the Wake Superior Court, from the bench expressed his admiration for Judge Horton and his deep

## In News Here and Abroad

SIR JOSEPH DUVEEN

SEN PETER G. GERRY

JOE KIRKWOOD

SURGEON GENERAL CUMMING

Sir Joseph Duveen urged an exchange of art works between England and America. Senator Peter G. Gerry, of Rhode Island, was named ring master for the Democratic Senatorial campaign. Joe Kirkwood was snapped as he returned to America from his golf campaign in England. Surgeon-General Cumming completed an inspection of immigration health examination stations in Europe.

regret at his untimely death. The Wake County Superior Court, over which Judge Horton had presided as judge and in which he had appeared constantly during the last months of his life as attorney, adjourned yesterday out of respect to the deceased, not to convene until 3 o'clock today. The City Court of Raleigh will also hold no session this morning as a mark of respect.

The Wake County Bar Association met yesterday morning to make preparations to pay their respect to the young and brilliant attorney.

"I have known Judge Horton since he was elected Solicitor at the early age of 24 years," Governor McLean stated yesterday. "Elected Judge of the Superior Court at the age of 26, he held one of his first courts in my county. I was much impressed with his ability and fine judicial temperament, which were very remarkable for a man of his age. He soon developed into one of the best Superior Court Judges upon the bench. He possessed many fine qualities of both mind and heart that made him conspicuous among the younger men of the state. He was true to every obligation and his loyalty to his friend, was a cardinal virtue. In his untimely death, not only the citizenry as a whole has sustained a very great loss. Personally, I feel a deep sorrow at his passing."

"All of us are very much grieved this morning over the death of Judge Horton," declared Judge Bond yesterday in the Wake Superior Court. "He was an aggressive practitioner, recently moved to your county from Pitt, and the flashing over the wires of the news of his death caused me in all over the state to feel sadness in their hearts. Cut down as he has been in the early stage of his career, his sun is cut down while it is yet day. His death at such an early age teaches all of us the lesson that we must be ready for the summons whenever the Great Maker calls us."

The Wake County Bar Association met yesterday morning and heard the formal announcement of Judge Horton's death from W. C. Douglass, chairman, who gave expression to the sympathy of the association for the bereaved. The association passed a resolution that memorial exercises for Judge Horton be held in September on a date to be fixed later.

Major Matt Allen, Captain R. W. Winston, Jr., Charles U. Harris and James H. Pou, Jr., were named as a committee to escort the body and funeral party from Raleigh to Farmville.

Atka, Alaska, July 13.—(AP)—Even here on Atka Island of the Aleutian group, 2000 miles from continental United States, is the younger generation causing grave concern among its elders. The older Aleut Indians con-

Last year many prominent London tailors persuaded some of their young customers to display their boyish figures in coats cut to fit very snugly. But straight lines wane out.

Coats next fall will be even fuller than those for summer wear, so Mayfair tailors say.

### FARMING WITH GASOLINE

Hutchinson, Kan., July 13.—(AP)—Tom Gray, farmer near here, raised a 1,760-acre crop of wheat this year with gasoline power exclusively.

There is not a horse or mule on the farm. Gasoline tractors pulled plows, drills and discs across the fields. Four big tractors and three combines cut and threshed it. A fleet of motor trucks hauled the grain to market. The total yield was more than 45,000 bushels.

### Bed-Bugs Killed This Magic Way

There is the simple and quick way to kill bed-bugs, fleas and lice. Just pour some of the new chemical discovery—F.D.Q.—wherever you find these pests. The moment it touches them they die. Can do no damage to your springs or furniture, won't rot or stain bedding. F.D.Q. is used and recommended by leading hotels, hospitals and railroads as the most effective and safest way of getting rid of bed-bugs. Instantly it smothered and kills the breeding creatures, coats their eggs and keeps them from hatching and multiplying. The package of this golden chemical will take a quart of mixture—so deadly it will kill a bed-bug in 10 minutes—ready for use. See patent agent, Graham, for such hard-to-get things with ease. Get F.D.Q. at your druggist's today. Four money back, if the bugs are not gone tomorrow.
