ORDERS CHURCHES PLACED IN CHARGE OF CITY OFFICIALS

Mexican Government Takes Action Against Turning Over of Keys

Mexico City, July 28.—(AP)—The Government today issued orders by which it refuses to permit Catholic priests when they cease to function at midnight Saturday, to turn over their churches to committees of Catholic laymen appointed by them for each church.

Instead the Government has ordered the churches placed in charge of the Mayor of each town or city.

The Government determination of unyielding pursuance of its announced policy of putting into effect the new religious regulation is further indicated by a letter Attorney General Ortega has sent to all prosecuting attorneys and agents of the Department of Justice.

The letter requests an immediate, specific and blank statement as to whether the attorneys and agents unreservedly sympathize with the Government religious policy. This is construed as meaning that any person not heartily in accord with the Government will be discharged from the service.

Weather Reported Unfavorable for The Cotton Crop

Washington, July 28.—(AP)—The Department of Agriculture in its summary of conditions in Southern States says that in general the weather during the week ending yesterday was unfavorable for cotton because of too much rain in the western part of the belt and a lack of moisture in some or less limited areas of the interior east.

Sweet potatoes made fair to good in the Gulf States, but hot weather was unfavorable in the western Carolinas.

Tobacco curing is nearing completion in Georgia.

Democrats of Iowa Gather in Convention

Des Moines, Iowa, July 28.—(AP)—A platform sufficiently appealing to send another Democrat to the Senate from a Republican stronghold, was the hope of Iowa Democrats as they gathered in state convention here today.

With nothing in sight to disrupt the seeming harmony of the party, the Democrats were expected to turn their convention into a rally for Claude R. Porter, Senatorial nominee and fashion campaign planks intended to guide him along the route taken two years ago by Van S. Steck, the first Democratic Senator from Iowa since the Civil War.

As there were no nominations to be made and only the routine of selecting a new state central committee, the vanguard of delegates found their discussions virtually limited to the favorite Democratic doctrine, the tariff.

GERMAN COURT BLAMES REPUBLIC FOR INFLATION Mannheim, July 28.—(INS)—That the Republic was responsible for the inflation has been publicly established by a civil court here in a trial against the national socialist leader Ferdinand Orth. Orth had to face trial on the charge of offence against the Republic which he allegedly had given in a speech denouncing the Republic as a "proletarian" republic, which deserves to be hanged at the lamp post, for she has robbed widows and orphans of their money.

TODAY

(Copyright 1926) Lincoln's Son Dead. Mexico's Religious War. In Asia Is Japan. A Refined Gunman. By ARTHUR BRISBANE

This country will hear with regret of the death of Robert P. Lincoln, who died in Vermont at the age of eighty-two. The name of Lincoln is sacred to every American and the son of Abraham Lincoln, who has just died, bore his father's name with dignity.

He was a good American citizen, worthy of the nation that owes its continued existence to his great father.

The war between the Mexican Government and the Catholic Church has reached an acute stage yesterday morning. It was announced that on August 1 religious services will cease in all the Catholic churches in Mexico.

In each church a committee will be chosen from the congregation to take care of the buildings. Churches will be left open to the people to worship, but the priests will not officiate.

It is also suggested that those helping to enforce Mexican laws against the Catholic Church will be excommunicated.

President Calles, of Mexico, replied yesterday to the threat of a religious boycott by accusing the Catholic Church authorities of plotting a revolt under the cloak of religion. Calles says the boycott will fall and threatens to jail eight bishops of the church in Mexico.

The world will watch with interest this battle between the Mexican Government and the Catholic Church, first of its kind in many years.

The cessation of all religious services in Mexico will undoubtedly cause turmoil and distress among all classes. Mexican Indians especially will resent being deprived of services which they believe essential to their spiritual welfare. The Christian religion was forced upon them originally by Spanish conquerors, and much bloodshed in many cases accompanied the process.

But the Indians are now devout Christians, often more earnest in their faith than people of European extraction.

The threat of the Catholic Church to boycott all of those that enforce the anti-Catholic laws in Mexico is also serious, more so than the Protestants ordinarily would understand.

Such thunderbolt of the church may not in these cynical agnostic days the power that brought and excommunicated German emperor over the mountains in winter to stand barefoot in the snow at Canosa, beneath the Pope's window, begging for pardon. But in the minds of devout Catholics, to be excommunicated is to endure spiritual death, and the threat will be powerful.

The American people and government of course have no right to tell Mexico what law shall be made as regards Mexican affairs, but the confiscation of the great properties of the Catholic Church in Mexico without remuneration, is surprising to Americans.

Some of our Italian friends, with whom we deeply sympathize, considering the ill treatment they got from their brother allies, are hostile. Uncle Sam accepted their own debt proposition, at less than forty cents on the dollar.

But the general feeling in Europe now is that Uncle Sam ought not to be paid anything. He should consider it sufficient honor to send his men and his money to rescue and help his European brothers, when they found they had bitten off more than they could chew, and began to get tired of cutting each other's throats.

One Italian newspaper says Europe finds comfort in the thought that outside of Europe there is Asia, and inside of Asia there is Japan.

The suggestion is that Europe too busy and too sore to follow her inclinations and come over here and punish the United States, will wait patiently for Japan to do it.

HURRICANE STILL HAMMERS GATE OF PENINSULAR

Miami Reports Damage Estimated At \$100,000; Total Damage Not Known

Jacksonville, Fla., July 28.—(AP)—The West Indian Hurricane which Monday crossed the Caribbean Sea to ravage the Bahama Islands and the lower east coast of Florida, hammered today at the sea gate of the upper peninsula.

Calm followed by steadily increasing winds presaged the advent of the hurricane as it swept into new territory, leaving behind it distressed shipping, wind and wave damage which may have run into billions of dollars and paralyzed lines of communication.

Behind a wall of gale swept seas, the fate of several ships was hidden. Only an occasional wireless message picked up by the tropical radio corporation at Miami, broke the silence at sea last night and most of these concerned the Italian freighter Ansaldo San Giorgio Secondo, which was reported early today to be still wallowing off Jupiter light. At least six vessels were said to be in the vicinity to render aid which had been prevented last night by high seas.

At several places along the coast the hurricane wind reached an intensity of 100 miles an hour. A wind velocity of 70 miles an hour caused damage estimated at \$1,000,000 in Palm Beach, where 40 yachts and house boats sank in Lake Worth.

Miami reported damage estimated at \$100,000. Towns between Miami and West Palm Beach were in darkness last night owing to broken wires and water damage. In Del Ray the streets were inundated and houses were roofed.

STATE BEGINS TESTIMONY IN CRANFORD CASE

Final Barrage of Argument in Rebuttal Features Case At Albemarle

Albemarle, July 28.—(AP)—The State began its final barrage of testimony in rebuttal today and beginning of argument by counsel was expected late today in the trial of Nevin C. Cranford, charged with the murder of two negro convicts.

Jack Deese was the first witness this morning. He testified to the good character of Jerome Foreman, a witness for the state. H. A. Morton, next to take the stand substantiated Deese's testimony.

Jesse Ballard, who has served three prison sentences, was next to be called. He told the jury that Cranford whipped John Baker, a white convict, on an attempt to flee from his shackles. On another occasion, he said Baker was whipped because of complaining that he "found a fly in his bread." Ballard said he did not witness the flogging but that he heard the blows and cries of the victim.

Beginning tonight evening sessions of the court are planned in an effort to speed up the trial. It was indicated by attorneys that the case would go to the jury tomorrow.

ONE FAMILY GIVES DOCTORS, HOSPITAL, AND NURSES FOR WHOLE CITY

Bratislava, Czechoslovakia, July 27.—(INS)—The most medical family in the world is probably the Hong family of this city. The father of the family, Martin Hong, is a physician and so are three of his five sons and one daughter. Another son is a manufacturing chemist and the other keeps a drug store. Two other daughters are nurses.

SHORE ACRES CO. HOSTS TO LOCAL CITIZENS TODAY

Forty Greenville People Given Free Trip to Wrightsville Beach

Two buses bearing Greenville people, left the Proctor hotel this morning at nine o'clock for Shore Acres, new development project now under way at Wrightsville Beach. The trip is being given free of charge by the development company. The party will reach Wilmington about lunch time today and return in time for dinner tomorrow. This afternoon they will view the Shore Acres development. The remainder of the time will be spent in amusements along the beach.

The following made the trip: Misses Alice Lee Hooker, Marie Baker, Francis Moseley, Mary Moyer Savage, Annie Savage, Mary Etta Sugg, Virginia King, Bert and Jessie Moyer; Richard Williams, Dan Beech, William Perkins, Matthew Harrington; Misses Mary Cousins, Sarah Gully, Synd Height, Will Whedbee, Mrs. O. F. Clark, Willie Skinner, Hannah Dixon, Rose Hadley, Mrs. R. W. Nettles, Mrs. Claude Roebuck, Mrs. Le. Hannah, Mr. and Mrs. Ed. Batchelor, Mr. and Mrs. J. E. McGowan, James Little, Jack Edwards, Albion Dunn, Jr., R. G. Little, Mrs. E. F. Tucker, Howard King, Helen Jones, Mrs. Jasper Hodges, Bertha Sutton, J. A. Taylor, Charles Cobb.

ILLINOIS JUDGE'S RULE PUTS END TO EASY LIFE OF PROFESSIONAL JURORS

Marion, Ill., July 27.—(INS)—The professional jurymen have been given a body-blow here. Judge R. R. Fowler in Williamson county circuit court, ruled recently that the regular panel of 24 jurors summoned at each term must be filled by men whose names are drawn from the venire box instead of men picked at random by the sheriff.

It has been the custom in this county when the number of veniremen who appear for jury service falls short of the 24 required, for the sheriff to serve a special venire summoning the men easiest available. This has given rise to more or less steady employment for a number of men who hang about the court room.

BAPTIST CHURCH ACTIVE AGAINST PUBLIC DANCING

Would Suspend Members Taking Part in Questionable Amusements

At a meeting of the official board of the Greenville Free Will Baptist Church last evening, a resolution was offered by the pastor, Rev. L. E. Ballard which, if adopted by the church, will result in the suspension from membership in the church all members who attend vaudeville shows, public dances or engage in any form of gambling or who visit the beach or public swimming pools or engage in secular work on Sunday. The resolution would also demand of the membership regularity in attendance at conferences and communions of the church and financial support as a guarantee of good standing.

After a lengthy discussion of the resolutions by the members of the board they were unanimously endorsed and ordered submitted to a special session of the church called for next Wednesday evening. That part of the resolution referring to questionable amusements reads as follows:

"Resolved that all members of this church who attend vaudeville shows, public dances, or any kind of places of gambling, or who idly or abstain in any game of chance, or frequent any place of disorder or questionable amusement, or who use intoxicant drinks or sell the same to others, or who profane the Lord's Day by visiting the beach, public swimming pools, or other places of worldly amusement or engage in any form of secular work, except as of necessity as permitted by the teachings of Christ, shall be suspended from membership with this church, until said persons cease to offend or make suitable amends to the church."

In discussing this measure, the pastor says that the things for which he has labored and preached while in Greenville are incorporated in these resolutions. "I have tried to govern my life by these principles of clean living, and I'm willing to stand or fall with my church on this issue. I do not know how long I will be in Greenville or with the Free Will Baptist Church, but as long as I am here I expect to fight for these things. No church can be a spiritual power unless the membership live true to God, and no pastor can accomplish worthwhile work with a worldly or indifferent membership back of him."

The pastor has announced as his subject for Sunday morning, "The Sins That Are Damning America."

FEDERAL AGENTS REPORT ARRESTS IN POISON CASE

Six More Members of Niagara Frontier Ring Held at Buffalo, N. Y.

Buffalo, N. Y., July 28.—(AP)—Federal agents and police today made six more arrests in the Niagara frontier poison case, the death toll which stands at 37. The action followed statements of authorities that James C. Voelker, alleged leader of the distribution gang stood ready to make a full confession naming those higher up in the wood alcohol traffic. He is to answer to a charge of first degree murder.

Those arrested include Carl Voelker, father of the principal prisoner, who is held on a manslaughter charge. Of the other prisoners four are Buffalo moonshine makers and handlers and the fifth a drifter who is accused of conspiracy to violate the national prohibition act.

BETHEL SCOUTS HOLDING THEIR OWN THESE DAYS

Court of Honor Brings Out Interesting Facts About Organization

That the Bethel Scouts are more than holding their own in competition with the other scouts of Pitt county was proven last night at a busy and enthusiastic meeting of the Bethel Court of Honor held in the Bethel Baptist Church. Two Bethel Scouts, Connell Garrenton and Kelly Abeyonnis, earned the coveted Star Scout badge while several boys were promoted in rank and twenty merit badges were awarded to first-class Scouts.

The Bethel troop recently returned from a week at Camp Leach where they won all of the first year honors of the camp in competition with representatives of several troops. The troop which is making such a fine showing under the leadership of Scoutmaster Ford A. Burns, has just completed its first year and last night's meeting was sort of a fitting anniversary celebration. The troop now has a membership of 28 boys; 13 tenderfoot, 4 second-class, 3 first-class and 8 of merit badge rank.

Promotions and awards were made as follows: Vernon Ward tenderfoot to second-class; Harold Staton second to first-class; Robert Hooker, swimming; Edward Cherry swimming; W. E. Beverly swimming; Wm. Burroughs civics, first-aid, swimming; J. K. Matthews, swimming; R. J. Whitehurst cycling, first aid to animals, swimming; Kelly Abeyonnis cycling, first aid, leather working, personal health, swimming; Connell Garrenton automobile civics, electricity, first aid, personal health, swimming.

Members of the Court of Honor present were E. L. Mayo, chm., C. C. Martin, J. A. Staton, Dr. Cecil Garrenton, H. V. Staton and Scout Executive John H. Wilcox.

"MA" FERGUSON IS ASKED TO RESIGN JOB IMMEDIATELY

Democratic Opponents Say She Should Live Up to Her Promise

Austin, Texas, July 28.—(AP)—Governor Miriam A. Ferguson's defeat in Saturday's primary and her announcement that she will resign from office this fall has resulted in demands from her Democratic opponents that she resign immediately in conformity to her promise during the recent campaign.

Attorney General Dan Moody, who defeated Governor Ferguson by more than 110,000 votes yesterday charged she was not living up to her promise to resign at once if he led her by one vote. Moody declared, however, that he was powerless to force the governor to retire.

"It is for the people to determine how and when their demands expressed at the ballot box shall be complied with."

NASHVILLE AFTER AUTOMOBILE BRAKES Nashville, Tenn., July 28.—(INS)—Drivers of automobiles are being stopped here daily by policemen and members of a special committee of the safety department of the Chamber of Commerce and the brakes of the machines inspected.

Autoists who wish to avoid being delayed on the streets of the city while their brakes are tested can drive by the police station and have their tests made.

FIREMEN'S FUND IS DISTRIBUTED IN THIS STATE

\$33,579.70 Paid Out to Organizations Throughout North Carolina

Raleigh, July 28.—(AP)—Insurance Commissioner Stacey W. Wade has collected and distributed \$33,579.70 among 118 cities and towns in this state, this being the funds provided by law as the Firemen's Relief Fund. This fund represents one-half of one percent of the fire insurance premiums paid in the town or city qualifying for the fund. Mr. Wade points out today, in making the announcement.

In order to qualify for participation, a town or city must have an organized fire department, set apart a fire district, and comply with the fire waste law. Four additional towns have qualified during the past year.

The amount of the fund this year showed an increase of \$2,935.04; and there has been a corresponding increase in the amount received, especially by the larger cities.

Charlotte gets the largest sum \$3,261.18; followed by Winston-Salem, \$2,362.75. Asheville gets \$2,212.34; Greensboro gets \$1,782.16; Wilmington, \$1,693.02; Raleigh, \$1,631.10; Durham \$1,495.97 and High Point \$1,042.90. All others come under the thousand dollar mark, ranging from \$4.28 for Longview to \$44.48 for Wilson.

House Cleaning Begins Today At The White House

Washington, July 28.—(AP)—Steam rollers devour, however, of all political significance dragged their slow but noisy way from the gardens and shade trees in the White House front yard today while veritable army of laborers swarmed with an unaccustomed free hand inside the executive mansion.

Marked confusion and disarray prevailed in sharp contrasts to the well ordered house presidential families are accustomed to whirl in residence here, as the White House undergoes its first extensive repairs in years. Foremen estimate a month would be necessary to complete the largest part of the work before him, including the laying of a new roadway and the installation of a new electric elevator.

NEW RADIO METHOD WILL RUN TRAINS

Chicago, July 28.—(INS)—Radio is to safeguard travelers over a 2,200 mile stretch of steel railroad track.

A method of radio communication was announced here today by officials of the Chicago, Milwaukee, and St. Paul Railway which is believed to assure absolute safety in operation of trains.

When storms, blizzards or catastrophes paralyze other methods of communication,—radio to the rescue. Failure of a railroad's telegraphic system from any cause now means a delay in traffic until the break is repaired, officials pointed out. Under the new system, this will be a thing of the past.

Pivotal stations will be established at Chicago, Milwaukee, Minneapolis, Miles City, Moulton, Butte, Spokane and Seattle. These will direct a short wave radio interlocking organization which will enable train dispatchers and others to get in touch almost instantly with any train of a special type.

The equipment to be installed on all trains is of a special type, designed to answer the needs of such service. For six months, daily two of the sets have been under test between a point in northern Wisconsin and a island off the coast of Florida.

Homes will soon be heated by radio, it is claimed. Would be sayif they at air generated in Congress could be used.—Dauville Bee.

PUT AWAY YOUR LITTLE HAMMER AND BOOST. BOOST. BOOST.

Are you a knocker or booster? If you happen to be a knocker, put up your little hammer. Greenville has no time to listen to the mournful song of the bird with a chip on his shoulder.

We are stepping out this year. The knocker simply will not have any show on our program. Nothing but the optimist can keep pace. And even he will have the time of his cheerful life keeping step.

It is a race for greater progress, a realization of more of our unlimited possibilities and the man or woman who joins will find plenty to do. Our Greenville, Yours If You Come is not a conditional invitation. It is meant, however, for those willing to join the progress-ives and help make the section the great section it should be.

The task is not an easy one in the slightest sense of the word. It is a task which even the most optimistic and sanguine will find rather strenuous and monotonous at times. But the goal ahead offers thousands of opportunities—opportunities that fairly glitter with human possibilities and resources.

Greenville is backed up by one of the most fertile tobacco growing districts in the world. This seems like a broad statement. It is, too, but we have statistics to back us up. It is proven by actual fact that Pitt county is the largest bright leaf producing county in the world. Some might like to contradict the statement. But they cannot. It is based upon facts existing in agricultural records in the department of commerce.

And right here is where we are going to step out. We are in the heart of the bright leaf growing center. Why not make Greenville, the capital of Pitt, the greatest, bright leaf market? We occupy second place at present. But we cannot sit down and rest upon this honor.

Our tobaccoists are ambitious. They want to surpass all previous sales records this season. They want to reach 60 or 75 million pounds. They have the capacity for handling this amount. And the thing to do is to get it to handle. Greenville and Pitt county people can help by boosting the market; by putting in a good word at every chance. The day of the

knocker is over. We are all set for the greatest year in history.

DANGER OF INSUFFICIENT LIGHTS INCREASING

We already have laws enough to confuse even the most learned barrister. But it looks as if we need another one.

We have been suggesting it from time to time for the last several months. But so far our admonitions and implorations have gone unheeded.

The legislature should pass a law prohibiting the operation of vehicles without lights at night. It matters not what kind of vehicle it happens to be. It should not be allowed to travel on our public highways without light enough to avoid loss of life and property.

Quite a number of accidents throughout the state result from the lack of lights. Numbers of farmers drive their carts over the public highways, not realizing the danger confronting them. They take the risk, however, hoping that the fast traveling autoist will have lights enough himself to see the road and avoid a collision.

But we cannot always trust to luck. Luck is blind. It favors us awhile, but eventually it goes sailing off to some other territory, and leaves us in the lurch. It is upon such occasions that the man that takes a long chance finds himself in desperation.

Human life and property are too precious to trust to chance. They are assets. The unlighted vehicle is a liability. It is becoming more of a liability today than ever before, simply because of the careless disregard of some people for the rights of others.

The legislature will have many things to consider at its next sitting. But we do not believe there will be anything more important than the question of preserving human life as involved in the problem of unlighted wagons, carts and other vehicular forms of travel. We would like to see our representatives give the question the attention of which it is so deserving. It is not a matter in which we are personally interested. We are interested in it because it affects public life. And anything vitally pertaining to the welfare of human lives should concern everyone.

SCRIBES ELECT FULL TIME SECRETARY

The North Carolina Press Association has elected a full time secretary.

This information will be received with interest by newspaper men in all parts of the state. The election comes in a good time. The newspaper men knew what they were doing.

The question of electing a secretary has been under discussion some time. But not until right recently did the various editors and publishers awaken to the imperative need.

North Carolina at this time is in the midst of one of the greatest periods of development. Every branch of business and industry is going forward by leaps and bounds. Departments of education, churches and all kind of societies and fraternal organizations are broadening out in every conceivable way.

To keep pace with these activities it is necessary for the newspapers to see that their organization is represented as are hundreds of others throughout the state. The press is supposed to keep the world informed, to help mould public sentiment and create a spirit of union among the people. If it is to accomplish this mission, then it is necessary that some capable person should be in charge of the press organization to keep house clean.

The job of the secretary will be just like that of any other secretarial position. He will be required to look after things which the publishers and editors deem wise and necessary for their profession. He will find out what is going on in various sections of the country, and keep the organization members aware of the pressing needs of the moment.

The press convention has accomplished much good for the newspapers of the Old North State in years past. And we believe that in electing the whole time secretary that they have done something really worth while.

It matters not what they may do in the future, they may rest content in the knowledge that they have done the best they can for the present era.

The new secretary should have wonderful developments to report at the meeting next summer. He should be able to show the world that his position is as important as leading publishers thought it should be.

**SAGE TEA TURNS GRAY HAIR DARK**

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred-fold. Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for only 75 cents, all ready for use.

It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, making one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

## EDWIN SWAIN TO GIVE CONCERT AT COLLEGE THURSDAY EVENING

What others say of Edwin Swain, baritone, who will appear at East Carolina Teachers College, Thursday evening, at 8:30: Mr. Swain's work shows that he understands the value of diction. In several songs where declamatory style added effectiveness, this ability was shown throughout his vocal range.—Providence Journal.

Edwin Swain, baritone, won his audience with a big sympathetic, well-phrased wealth of tone. He sings with intelligence and good diction, and in lighter bits injects both humor and fancy in his melody.—Albany Evening News.

The club made no mistake in securing the services of Edwin Swain, for he is indeed a remarkably fine baritone and the possessor of a voice of mellow quality, smooth and flexible, good diction, and his mezzo-voice work was truly beautiful and artistic.—Albany Evening Journal.

Edwin Swain, baritone, sang eleven selections, revealing a

voice of remarkable range and power.—Norfolk Landmark—Virginian-Pilot.

Mr. Swain has a magnificent large, resonant voice. Mr. Swain's diction is admirable.—Portland Morning Oregonian.

Edwin Swain's voice had ample scope to demonstrate its wide range and superior quality, especially in the aria given as his first number, on the program.—Galveston Daily News.

Mr. Edwin Swain has a high baritone voice of fine timbre and unusual warmth. Delightful was his "Care Selve" of Handel, given with many mezza voice effects.—Charleston American.

# CAN YOU ANSWER THIS?

HOW MUCH INTEREST DOES ONE PAY ON A BUILDING & LOAN LOAN?

So many are unable to answer this correctly. We want to get it straight in your mind. For the purpose of an illustration let's take a \$10 00 loan. Let's assume that the stock is taken and the loan made at the same time. We have two departments, a share or savings department and a loan department. In the loan department the borrower pays 6 per cent interest, payable weekly or monthly, but he pays nothing on the principal. In the share or saving department the borrower subscribes to shares to cover the loan and on these he makes weekly or monthly deposits, and when these are matured, the money will be paid over to the loan department to satisfy the loan. The borrower will receive interest on the money he pays into the share department as per example:

SHARE DEPARTMENT	
Take our 25c stock. We are maturing this in 336 weeks which is 6 years, 5 months and 2 weeks. On 10 shares the weekly payment will be \$2.50.	\$840.00

(Continued from page 1)  
It is a pleasure to hear that President Coolidge has invited Edsel Ford to visit his camp and talk over flying machine possibilities. Edsel Ford has studied flying, and is about to test a modern, safe, powerful plane, with three engines. He and his father have the machinery and the money. President Coolidge has an open mind and is anxious to develop aircraft.

Perhaps this nation will really have a flying fleet after all, and be in shape to take care of hostile visitors to Uncle Snylock, whether they come across the Atlantic or the Pacific.

The police picked a dead "gunman" near New York's police headquarters, yesterday, a "refined" gun man, fashionably dressed, according to the police he was just a little too refined, and that caused his death.

This professional killer was sent from Buffalo to kill a man market for death in a bootleg feud. The man to be killed was too quick for the hired killer, shot him dead.

The police say, "The dead gunman was wearing silk gloves, very slippery and couldn't get a good grip on his revolver. That cost his life." Gunmen, take warning. Don't be too refined.

President Coolidge's representative, Colonel Carl Thompson, visited five thousand lepers in the Philippine Islands and he found four thousand of them organized in a parade to greet him. With waving banners they carried signs that read, "We do not want economic development, give us independence."

You might call that appropriate. Five thousand lepers in the Philippine Islands are cared for by the United States Government, protect

ed from themselves and others. They live in the colony with their own stores, theatres, banks, and even beauty contests.

They want to escape from Uncle Sam's jurisdiction, and are about as well fitted to take care of themselves as some of the other Filipinos, NOT lepers.

### BEBE TRAVELS AT HIGH SPEED IN NEW COMEDY

The things that happen to men who go down to the sea in ships are as nothing compared to the thrilling experiences that befall a country girl who goes down to the bay in speed boats. This can easily be verified by a visit to White's Theatre, where Bebe Daniels in the title role of "The Palm Beach Girl" churns up the Florida waters at sixty miles an hour.

Here is a comedy that was built for speed and laughs. With Bebe cast as the chief speed-maniac and mirth-provoker, there is plenty of

both. As the little country girl suddenly thrust into the society maze of Palm Beach, Bebe has a splendid opportunity to make ample use of her inimitable comedy gifts. Needless to say, her performance is perfection itself, for she plays her part with a little buoyancy that is delightful and a seemingly reckless disregard for life and limb that is startling.

At White's Theatre Thursday.

### "UNCLE TOM'S CABIN" AS PRINTED IN ENGLAND IN 1852, BRINGS HIGH PRICE

London, July 27.—(NS)—A copy of "Uncle Tom's Cabin" Harriet Beecher Stowe's famous book of the American slave days published in London in 1852 by Cassells in the thirteen original numbers with the yellow wrap-

ping and completely uncut, was sold here for the comparatively high price of \$82 recently.

The book was described in the sale catalog as the "first English edition." The high price realized for the book was probably due to the illustrations by the famous Cruikshank which it contained.

## Veteran cars shed their carbon

New lubricating oil proves it with Buicks, Packards and others

A TEST on a Buick for carbon deposit with the new "Standard" Motor Oil showed amazing results. When the car was examined before the test there were heavy accumulations of carbon on cylinder heads and pistons. The new "Standard" Motor Oil was then put in the crankcase and the car run 2,969 miles. Again it was examined. Most of the carbon had disappeared—the slight amount remaining was easily wiped off with a cloth.

The new oil is a perfect all 'round lubricant, giving a complete piston seal; smoother operation at all speeds; cooler motor; increases in oil mileage of 12% to 40% and in gas mileage of 10% to 20%.

Verify these astounding results with a crankcase full of "Standard" Motor Oil in your own car. You can actually feel the difference.

## "STANDARD" MOTOR OIL

### 7 Advantages of "Standard" Motor Oil

1. Constant lubrication.
2. Minimum friction.
3. Less "breaking-down" under load or at high speeds.
4. More miles per quart of oil.
5. Better hill climbing—smoother operation.
6. Negligible carbon.
7. Actual saving in gasoline.
