## GERMANY ELECTED TO PERMANENT SEAT IN LEAGUE OF NATIONS

League Council Today Elected Germany to Permanent Seat; Spain's Request Turned Down

Geneva, Sept. 4.—(AP)—The League of Nations Council today adopted the report of the commission on reorganization of the Council providing for the creation of three new non-permanent seats on the Council and designating Germany as a permanent seat holder as soon as she is elected to League membership.

Sweden alone expressed the opinion that there should be no increase in the number of non-permanent seats. After approving the report, the Council forwarded it to the Assembly with the recommendation that it be adopted by that body.

The Council also instructed the League Secretary General to forward to Spain's representative the reorganization commission's resolution expressing regret that the Madrid government's desire for a permanent representation on the Council could not be met at the present time.

Viscount Ishii, of Japan, in reporting the Commission's conclusion was successful in having the Council pass a resolution to the effect that Germany alone should be elected to a permanent seat at the present session. Passage of the commission's report was not obtained without difficulty, but it represented a victory for France and her allied Poland. A somewhat stormy council meeting preceded the public session.

Opponents of the plan to give Poland a semi-permanent post at the same time Germany was elected to a permanent seat made a last stand. Sweden, as during the March session, took the lead in this opposition. In the consequent discussion the opening of public council was delayed.

## Mr. G. C. Dixon Dies in Wilson

Mr. G. C. Dixon, age 29, prominent young man and postmaster at Fieldsboro, died last night shortly after seven o'clock in the Moore/Herring hospital at Wilson. Mr. Dixon has been sick for several weeks suffering from typhoid fever. However, pneumonia developed a few days ago and his condition grew steadily worse until death ended his suffering.

Mr. Dixon was the son of the late Mr. and Mrs. R. S. S. Dixon of Greene county. On March 18, 1924, he was married to Miss Tina Mae Murphy, who survives him.

Funeral services will be conducted at four o'clock today, the Snow Hill Methodist pastor officiating. Besides his widow, Mr. Dixon is survived by a small son G. C. Jr., four brothers, B. H. Dixon, of Richmond, Va.; R. S. Dixon, Jr., and D. L. Dixon, of Fieldsboro; C. S. Dixon, of Snow Hill; one sister, Mrs. H. C. Sugg of Greenville. He will be greatly missed by his many friends in this and adjoining counties.

## GEN. PODHAJSKY IS MADE CZECH ARMY COMMANDER

Prague, Sept. 4.—(INS)—General Podhajsky who has been appointed to succeed General Gajda as chief of staff of the Czechoslovakian army, was formerly a general in the army of the Austrian-Hungarian Empire. He had a distinguished career in the Imperial forces as did many other Bohemians, and was known as an expert organizer and disciplinarian.

## SPAIN MAY GET SEMI-PERMANENT SEAT IN LEAGUE

Leaders Plan to Elect Country to Semi-Permanent Seat Despite Absence From Assembly

Geneva, Sept. 4.—(AP)—The League of Nations leaders plan to elect Spain to a semi-permanent seat in the League Council at the forthcoming assembly despite Spain's probable absence from the Assembly. They hope this will induce the Madrid government to abandon any ideas of resigning from the League.

It is also learned that the Turkish ministers in London and Berne have arrived here to observe political development, especially the effect of the entrance of Germany into the league, which seems now a certainty. The importance of Germany's entrance had been temporarily overshadowed by the Spanish league crisis but the statesmen were beginning to emphasize today that with Germany once an active league member no European power could afford to be absent.

This presence of the Turkish diplomats here is interpreted by some as foreshadowing early application by the Ankara government for League membership.

French circles in Geneva do not seem to have abandoned hope that Spain will at least remain nominally a member of the League of Nations.

Spain may not interest itself in the league, they say, as the result of the rejection of her claims for a permanent seat in the council, but she will return actively to the fold if something can be done for her regarding Tangier.

Madrid, Sept. 4.—(AP)—The Spanish Government will not take any immediate action regarding withdrawal from the League of Nations, but will await the outcome of the league assembly opening next week.

There have been reports that Spain intended to resign from the League owing to rejection of her demand for a permanent seat on the league council.

## Radic Faces Many Assassin Attacks

Belgrade, Sept. 4.—(INS)—Stephan Radic, the peasant leader, probably has had more attempts made against his life and received more threatening letters than any politician in Europe, and that means the world. Recently Radic had to flee the small seaside resort where he was vacationing because the townpeople attempted to mob him for his pro-Italian views. When he reached Belgrade he was attacked by a fanatic but unharmed.

The latest threat he has received comes from distant Argentina. It was contained in a letter which also stated that a young man named Pavlic had been paid 5,000 pesetas to travel to Belgrade to assassinate Radic. Radic declared: "I am not a bit afraid because I believe in God and in the Union of Peasants."

## WILMINGTON MEN BOUND OVER FOR NEWCOMB ASSAULT

Attack Upon Wilmington Lawyer Result of Joke He Gave Stenographer to Copy

Wilmington, Sept. 4.—(AP)—B. B. and L. P. Trask and George Westbrook today were bound over to superior court under bonds of \$500 each on charges of assault on C. B. Newcomb, a prominent attorney of Wilmington.

Action was taken by Judge Harris, in city court after he had heard evidence in the case.

The alleged assault took place several days ago and was brought about, it is alleged, by Mr. Newcomb giving to his stenographer a joke to copy which he had clipped from a national publication. The stenographer is a sister of L. P. Trask and a daughter of B. B. Trask. Mr. Westbrook is his brother-in-law. The younger Trask admitted to his part in the attack. Mr. Newcomb testified that the men had called him out one night and charged he had insulted the stenographer by giving her the joke to copy.

## RALEIGH MAN'S BODY RECOVERED NEUSE RIVER

Searchers Find Body of A. J. Honeycutt Drowned Yesterday. Gardner Still Missing

New Bern, Sept. 4.—(AP)—The body of Professor Adolph J. Honeycutt, of Raleigh, who was drowned in Neuse river yesterday afternoon was recovered shortly before noon today. The body of H. R. Gardner, who was drowned at the same time, had not been recovered at noon, but those engaged in dragging the river said they believed they had located it.

The double drowning occurred yesterday afternoon when Professor Honeycutt, Mr. Gardner and three others were fishing from a small launch. A stiff wind capsized the craft and the other three swam to net stakes, from which they were rescued several hours later. Honeycutt and Gardner remained on the capsized craft and when it went under they went with it. It was said that neither was an experienced swimmer. The coroner said this morning he would make an inquiry into the matter. If the inquiry is completed this afternoon Professor Honeycutt's body will be taken to Raleigh tonight by two brothers who are here.

Charlotte, Sept. 4.—(AP)—The estate of W. F. Dowd, estimated at more than \$1,000,000 was left almost entirely to Mrs. Dowd and their children, according to the will filed for probate in the office of the Mecklenburg Clerk of Superior Court here today.

A bequest of \$3,000 was made to the Pritchard Memorial Baptist Church.

W. F. Dowd, Jr., a son, and the Merchant's and Farmer's National Bank were named as executors.

## AMERICAN SOLDIERS GET GREATEST PAY OF ANY WORLD FIGHTERS

San Francisco, Sept. 4.—(INS)—That the American soldier is best paid soldier in the world has been known for many years. That at the present time he is getting more than fifty times what the French paid is paid and has not been so well known. This is so, however, according to figures secured at the San Francisco Presidio.

The American soldier's yearly pay is \$252. The French soldier gets \$4.38. How do they do it over there is a mystery to Uncle Sam's boys. On Great Britain approaches the United States in the amount of pay allotted to the individual soldier. The British soldier gets \$240.90 per year.

## LEGAL SQUABBLE IN WAYNESVILLE OVER G. FARLEY

Sheriff Refuses to Release Prisoner to the Massachusetts Authorities Until He Receives Reward

Cambridge, Mass., Sept. 4.—(AP)—Another legal squabble in Waynesville, N. C., today confronted the Cambridge police in their attempt to secure the return of George Farley, wanted here for the murder of Eugene Crawford, negro, three weeks ago.

Farley was arrested in Waynesville a week ago, but was released before police inspector Marr, of Cambridge, reached the scene. Governor McLean of North Carolina, then signed extradition papers, but the fugitive had disappeared. He was re-arrested and Inspector Marr then telegraphed police authorities here that the Waynesville sheriff holding the prisoner until he receives the \$500 reward offered for his capture.

Waynesville, N. C., Sept. 4.—(AP)—"When the Cambridge officers, who came here to get George Farley, pay me in cash the \$500 reward they offered for his recapture, I will turn him over to them, and not before," Sheriff John B. Cabe, of Haywood county, declared today when asked why he was holding Farley over the protest of the Massachusetts officers.

The sheriff said that he understood the city of Cambridge has offered the reward, but that Cambridge is too far away for him to credit them with that much money.

Meanwhile Farley is being held in the Waynesville jail.

## DOWD WILL WAS PROBATED TODAY

Late Charlotte Millionaire Leaves Almost Entire Estate to Wife and Children

Charlotte, Sept. 4.—(AP)—The estate of W. F. Dowd, estimated at more than \$1,000,000 was left almost entirely to Mrs. Dowd and their children, according to the will filed for probate in the office of the Mecklenburg Clerk of Superior Court here today.

A bequest of \$3,000 was made to the Pritchard Memorial Baptist Church.

W. F. Dowd, Jr., a son, and the Merchant's and Farmer's National Bank were named as executors.

## Officers Capture Still Yesterday

Chief of Police W. B. Paramore and Justice of the Peace J. J. Elks, of Grimesland, yesterday captured a large moonshine still in the lower section of Greenville township. About 4,000 gallons of beer was poured out and three or four gallons of whiskey taken. The plant was of the steam out fit type. According to the report three men at the still, ran as the officers approached and were successful in making good their escape.

## WILMINGTON MAN BURNED TO DEATH

Cafe Keeper Dead and Wife May Die From Burns Received When Cafe Burns Early Today

Wilmington, Sept. 4.—(AP)—While funeral arrangements were being made for her husband, who was burned to death in a fire which destroyed his cafe early this morning, Mrs. W. H. Vrethenburg, 52, was said to be in a dying condition at a local hospital as the result of burns which she suffered in the fire.

The couple resided on an upper floor of the cafe building and the flames which originated in the kitchen on the first floor spread so rapidly that they were overcome before being awakened. An officer discovered the flames and broke into the building and rescued Mrs. Vrethenburg. Her husband was awakened but staggered to the floor and dropped. Physicians said exhaustion and burns brought on his death.

At the hospital today it was said that the widow has slight chance for recovery.

## Orders Receivership for Charlotte Firm

Charlotte, Sept. 4.—(AP)—Receivership for the Southern States Finance Company of Charlotte as one of the final steps in the dissolution of the firm, has been ordered by Judge H. P. Laine, presiding over Superior Court at Monroe. X. B. Adams, of Waxhays, has been named temporary receiver.

About two years ago the company is said to have encountered financial difficulties as the result of non-payments on automobiles on which funds had been advanced. Exercise of the right of mortgage on the cars did not relieve the situation because of the depressed condition of the used automobile market at that time, it was said.

## STUDY PLANS FOR U. S. ADHERENCE

World Court Committee of Fourteen Seeks Possibility of Accepting American Reservations

Geneva, Sept. 4.—(AP)—The first meeting today of the committee of fourteen, which is to carry on the work of the World Court conference, convoked to examine the five reservations to American adherence to the court was devoted to a study of the court's regulations. The object of the study is to determine how far the regulations, as at present framed, make it possible to accept the American reservations.

## Mounted Police Get Cheer By U. S. Radio

Denver, Sept. 4.—(INS)—Radio programs from stations in the United States go a long way toward alleviating the loneliness of members of the famous Mounted Police in the icy Northwest, according to a letter received at KOA, Rocky Mountain broadcasting station here.

Though the Aurora Borealis—Northern Lights—affect radio reception at times, the sunniest months of November, December and January afford splendid reception.

## Prof. Low Invents Aid to Alarm Clock

London, Sept. 4.—(INS)—Lieut. A. M. Low, the distinguished English scientist, has invented a new alarm clock. The invention is one of the simplest known, and can be possessed by anyone having an alarm clock. The clock is placed on a small wooden shelf clipped on the foot of the bed facing the sleeper. A silk thread is wound around the alarm winder and attached to a trigger pivoted on a screw on the shelf.

The clock is set before retiring, and when the alarm winder revolves and the bell rings, the thread causes the trigger to drop. A weight is attached to the trigger by another silk thread which slips off a catch as the trigger falls.

A string attached to the weight passes over the bed rail and is linked to the bed—clothes by elastic sock-suspenders. As the weight falls to the floor, off comes the bed clothes.

"NOT GUILTY"

While the verdict of "Not Guilty" returned by the jury last night in the Mitchell case, does not coincide with our opinion, it was in the jury's hands, and not ours, that the case rested.

OUR SATURDAY NIGHT MEDITATION

MERCY AND JUDGMENT

—IV— S. James 2:13:—"Mercy rejoiceth against Judgment."

After examining the three great laws which govern our lives, the LAW OF HEREDITY, the LAW OF ENVIRONMENT, and the LAW OF SURVIVAL OF THE FITTEST, we have found that they are not inimical to man, but, on the whole, beneficial and beneficent, helpful and good.

This the truth of my text is uncontradicted. It assures us that there is smiling, rejoicing mercy, not standing like an advocate at the right hand of the Judge, but in the very heart of God Himself.

No wonder the Psalmist joined both the judicial and the pardoning grace of God in one anthem, and exclaimed, "I will sing of mercy and judgment: unto Thee, O Lord, will I sing." No wonder Micah asked, "Who is a God like unto Thee, that pardoneth iniquity, and passeth by the transgression of the remnant of His heritage? He retaineth not His anger for ever, because He delighteth in mercy. He will turn again, He will have compassion upon us; He will subdue our iniquities; and Thou wilt cast all their sins into the depth of the sea."

And one thing further make him know, That to believe these things are so, This firm faith never to forego—

"DESPITE of all that seems at strife With blessing— all with curses rife— That THIS IS BLESSING— THIS IS LIFE."

and make us sit together in heavenly places in Christ Jesus; that in the ages to come He might shew the exceeding riches of His grace in His kindness toward us through Christ Jesus."

My dear readers, if any of you should be finally lost it will not be because you have not been warned sufficiently about the Judgment, but because Christians have not revealed the glorious beauty of the mercy of our God, and have failed to exhibit in their lives the splendor of His ineffable love.

I do not believe that God wants you to be thinking all the time of the Judgment and of the verdict you will receive at last. I believe rather, that He would have you always thinking of how you are using the gifts you inherited, the talents He has given you; not of how your environment affects you so much as how you are affecting those around you, whether you are helping or hindering them God-ward; not whether you will survive, but whether you are fitting yourself for eternity.

And my message is summed up in this CREDO:— I believe that the Judge of all the earth will do right.

I believe that mercy and love are in the very heart of God.

I believe all laws, all judgments, all men and all nations are enveloped in the love which He has revealed in the gift of His Son, and in the Cross on Calvary.

Therefore, in the words of Archbishop Trench:—"I say to thee, do thou repeat To the first man thou mayest meet In lane, highway, or open street.

"That he, and we, and all men move Under a canopy of love As broad as the blue sky above.

"And—ere thou leave him—say thou this, Yet one word more—THEY only miss The winning of that final bliss,

"Who will not count it TRUE, that love, Blessing, nor cursing, rules above— And that in it we live and move.

"And one thing further make him know, That to believe these things are so, This firm faith never to forego—

"DESPITE of all that seems at strife With blessing— all with curses rife— That THIS IS BLESSING— THIS IS LIFE."

CABLE LETTER

Berlin, Sept. 4.—(AP)—Changing cars in mid-air has been experimented with successfully on the news suspension cable railway which leads to the highest point in Germany—the Summit of the Zug mountain on the Austro-Bavarian frontier.

In order to guard against the possibility that a passenger carrying car may at some time get stuck and keep the travelers hanging in mid-air for many hours, auxiliary cars have been constructed which fit so closely against the ordinary car that the passengers can step from one onto the other. Should the main car run into mishap, the auxiliary will immediately be dispatched to the point of the trouble to relieve the distressed passengers.

lieve the distressed passengers. Father Obermeyer of Oterling, a little Bavarian mountain village, has achieved the distinction of being the first German priest to climb Mount Blanc alone and without a guide. The federation of French Alpine guides have awarded him the guide's medal in recognition of his accomplishment.

A savage attack on the growing favor which boxing enjoys in Germany is launched by the Tuermer, a monthly publication.

"Twelve thousand people gather in order to see how two men in an angry fight draw each other's blood from the nose and the mouth and break each other's ribs," the periodical observes. "While German artists are starving, this vilest of sports is so popular that money is always available for it. Just reflect, if every spectator were to buy a book, what assistance this would mean to literature."

The article closes: "As long as it is possible for a down and out people, weighted down with war debts and distressed by the death of homes, to patronize amusements of this sort, it isn't worth leading into brighter futures."

Paris, Sept. 4.—(AP)—A state of war exists between the business folk at Monaco and the directors of the Monte Carlo Casino. Trouble started about two months ago when many shop keepers, disconsolate over the failure of the present season, closed their shops. Then the casino authorities forced the municipal council of Monte Carlo to pass an ordinance requiring all business houses, banks and restaurants to remain open twelve months next year, closing not more than two Sundays and holidays in any one month.

Transient firms, such as dress-makers, and jewelers, under this law would lose many millions of francs since they plan on moving stocks and employees from one resort to another. The average deluxe shops in Monte Carlo never expected to be open more than six months in the year.

Just at the time when the youth of 30 nations were gathered at Boisley La Riviera, less than 40 miles from Paris, as delegates to the international democratic congress for peace, news comes out of Germany of the progress of the steel helmets, a society composed of war veterans organized according to French authorities, to inculcate a warlike spirit in the youth of Germany. In the hand book of the society reports made of the work done in the last six years.

"It is our will that German youth and the whole German people shall be made capable of bearing arms with the aim of getting back the territory stolen from us," says one sentence in the manual.

Many visitors to Paris ask, "where is the Bastille?" when taken to the spot where the prison once stood, disappointed that it no longer exists, but is merely commemorated by a column.

Having learned the power of the tip while traveling in France a lady at Versailles, the palace of the French kings, asked whether if she gave a guard ten dollars, he could not make the famous fountain's play. When the fountains of Versailles play, thousands of Parisians flock to see the sight and what the lady thought she could get for ten dollars, costs the town of Versailles each time a considerable sum of money.

London, Sept. 4.—(AP)—The tune of "Yankee Doodle" is not American at all—its Irish. So says Dr. Gratton Flood, an Irish authority on music history. He asserts that "Yankee Doodle" was originally an Irish air known as "All the Way to Galway."

"God Save the King," the British national anthem, Dr. Flood says, also is an old Irish tune, which originated somewhere about 1905 and has been going strong ever since.

King George is an ardent fan. During the test match between England and Australia, the king was visiting Lord Zeffon at Abbotsford, near Lancaster, and in order not to miss a result of the match, he caused a special telegraph circuit to be fitted out from the oval. News came thru from London at the fall of almost every wicket.

Tallahassee, Fla., Sept. 3.—(INS)—The race track operators of Florida evidently have a "fast one" up their sleeves, and are planning on a lucrative season this winter in spite of the state law prohibiting pari mutuel betting at the tracks or gambling on the races. With appeals which were taken to the state supreme court by one horse track club and one greyhound track club dropped on the motion of counsel for the track owners, and with another club preparing an appeal to the supreme court from a circuit court verdict against track owners, announcements have been made recently that new greyhound track will be opened in Miami this winter and a new horse track will be opened at Jacksonville.

The new Miami dog track, to cost upwards of \$500,000 will be the 18th circuit of that type in the Magic City. The new horse track at Jacksonville, if placed in operation will be the first to function there for a number of years. An additional horse track also is being planned at Mima.

Withdrawal of their appeal to the supreme court, by the West Coast Jockey club and the Tampa Kennel club, both of Tampa, caused considerable surprise recently. Owners of the clubs had been enjoined by low courts from operating their tracks under a certain system of alleged betting. More recent reports from the racing world in this state are to the effect that both the greyhound track and the horse track in Tampa are to be reopened this winter and conducted under a different system than that outlined in the injunctions issued against them.

Owners of the Jacksonville Kennel club operating a greyhound track near Jacksonville requested a verdict of guilty against themselves, when haled into the court on a charge of gambling in connection with operation of their track. The verdict was sought in order to open the way for an appeal to the state supreme court to test the validity of the anti betting statute as it affects operating of race tracks.

Gambling charge cases are pending against more than a score of officers and employees of the Seminole Kennel club, operating a dog track at Orange Park near Glen Cove Springs and Jacksonville. Prosecution of the first of these cases resulted in a mistrial. It had been expected that the supreme court would rule on the Tampa injunctions now in effect but that expectation was blasted by withdrawal of the appeals.

It is possible that the supreme court may act on the Jacksonville case appeal before the opening of the racing season in the state, which will be about December. Officers of the Jacksonville Kennel club said their attorneys would file the appeal in the high court within the next month.

The greyhound tracks in Florida early became brilliant centers of colorful gatherings; night races and bright lights being featured. Dogs and their trainers are gaily bedecked; jazz bands add to the life of the meetings, and the spirit of carnival dominates the fest greyhound races.

The kennel club plants cost from \$250,000 to \$750,000 or more, to construct and equip, and their payrolls are large. Yet it is authoritatively reported that the dog race track at Hialeah, near Miami, was paid for in full within a few days after it opened. The Seminole Kennel club at Orange Park used an armored express truck to carry receipts of each night's meeting into Jacksonville for safe keeping, when that track was functioning last spring.

FRIENDLY TUG OF WAR ENDS IN FIST BATTLE Belfast, Sept. 4.—(INS)—At a friendly tug-of-war contest at Omagh, Beragh beat Enderberry—and Enderberry somehow felt very sore about it.

A free fight followed between the rival camps, and the police had to be called to restore order. Enderberry obtained some recompense for their tug-of-war defeat by winning the fistfist contest.

226th Year Opens At Yale This Fall New Haven, Conn., Sept. 4.—(INS)—Yale University is starting her 226th year this autumn, her two hundred and twelfth year in New Haven after being dragged bodily from the shore town of Saybrook where her possessions were spattered with blue paint by the indignant residents of that town who hated to see Yale go—whereby Yale blue came into existence.

Ancient Yale College is to have a new guide this year in the person of Clarence W. Mendell, professor of Latin Language and Literature, who has been named dean to succeed Frederick S. Jones, who had been dean of the college since 1910. Dean Jones is now on a year's leave of absence with retirement at the end. Professor Mendell will work as acting dean until then and become full-fledged dean a year hence.

Professor Mendell graduated here in 1904 and two years later went for study in Rome, Athens, and Germany, returning to Yale as an instructor in 1907. He received a degree of Ph. D. in 1910, the next year became an assistant professor at Yale.

During the war Professor Mendell was a member of the intelligence department, U. S. A. secret service having previously served as head of the Yale Bureau of the American University Union in Paris. When the war ended Professor Mendell with Professor Charles Seymour, also of Yale, were attached to the Boundary Commission of the Versailles conference. Their particular duty was to define the boundaries of Austria and Hungary.

SPECIAL PROCEEDINGS SUMMONS BY PUBLICATION North Carolina—Pitt County In the Superior Court Before the Clerk W. J. Clark, W. K. Clark, R. F. A. Clark, et al vs Mary E. Little, J. S. Clark, James Clark, et al

The defendant James A. Clark is hereby required to take notice that a special proceedings entitled as above has been begun in this Court for the purpose of selling for division two tracts of land located in Belvoir township, containing about 120 acres together, known as the J. H. Clark land and being his property, the petition being for the appointment of commissioner to sell the said land.

And he is hereby required to take further notice that he shall appear and answer or demur to the petition on or before the 24th day of September, 1926, or the relief asked for will be granted and a commissioner appointed to sell the land to be divided between the parties to said proceedings, and interested in the same the ratio of one-tenth each.

Witness, my hand and seal this 14th day of August, 1926. J. F. Harrington, Clerk Superior Court By E. F. Tucker, D. C. 19-1tw-4wk.

COMMISSIONERS' SALE OF LAND North Carolina—Pitt County In the Superior Court The Bank of Ayden vs. Ed. McLawhorn, Calvin McLawhorn, Nancy McLawhorn, Nina McLawhorn, Dorothy McLawhorn, and Jennie Marie McLawhorn, the last three being minors under the age of 21 years, appearing her; by their Guardian, ad litem, Ed McLawhorn.

Under and by virtue of power vested in us by those decrees of the Superior Court of Pitt County, entered in the above entitled action at the April Term, 1926, and at the August Term, 1926, the undersigned Commissioners will offer for sale to the highest bidder for cash, at public auction, at the Court House door in the Town of Greenville, at 12 o'clock noon on Monday, October 4th, 1926, the following described tract of real estate, lying, being, and situated in Ayden

Langsville, Ohio.—"For years and years I suffered with severe headaches," says Mrs. Jane Campbell of this place. "It wasn't any pleasure for me to go places, for I came home with sick headaches. If I went to church or to any social gathering or to town to shop, when I got back I would have these headaches and have to go to bed for a day or more, till I would just get out of heart and would not try to go."

"About 15 years ago I discovered that Black-Draught was good for these headaches. I began using it. I would take it two or three nights in succession if I felt the least bad, and it sure did wonders for me. It is about 14 years since I had sick headaches, and I can go places and really enjoy life. It surely is splendid."

## Miners, Metal Engineers, Others Study Problems

Denver, Sept. 4.—(INS)—Ways and means of handling new mining problems that are arising in connection with increased activity in the mining industry of the west will feature discussions at the joint convention here of allied mining organizations, Sept. 20 to 24.

The American Mining Congress and the American Institute of Mining and Metallurgical Engineers will be joined by meetings of the American Association of Petroleum Geologists and the American Silver Producers Association.

Several government officials, including Secretary of Commerce Hoover and Secretary of the Interior Work, are scheduled to address the joint session of these organizations.

Renewed activity in all metal mining has been in evidence for many months and only recently the Industrial Employment Service, Section of the United States labor department in Denver issued a call for 2,000 skilled metal machine miners to meet the demand for workers in the different districts of Colorado, as well as Arizona, Nevada and Montana.

Higher prices for lead and zinc, and increased domestic and foreign demand for these ores have resulted in much new development work in Leadville, Cripple Creek and other former world known mining districts. The adoption of a new flotation process for the separation of ores has also increased activity in the various fields.

As a result of new and improved metallurgy and scientific development, western mining men express the belief that the mining industry is on the threshold of a period of great prosperity.

Speakers at the American Silver Producers Association divisional meeting here are expected to outline plans to increase the demand for silver, not only in the arts but as a subsidiary coinage.

"The International Aspect of the Use of Silver as Money," is announced as the topic of one unnamed speaker.

## Budapest Is Now Mecca for Tourist Crowds

Budapest, Sept. 4.—(INS)—For the first time since the war, Budapest is becoming the mecca of tourists. The famous hotels, galleries and theatres which have been closed during the Communist occupation and the hard times which followed are opening again to receive the money of the tourists who are crowding into the city.

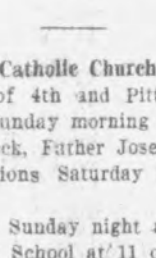

The capitals of the West are becoming familiar to most American summer travelers. Now those further east are coming in for the temporary prosperity that tourists make.

The government is interested in encouraging foreigners to Hungary and has recently rescinded several tax regulations and visa fees which have been barriers to extensive touring of the country.

A record by the government shows that nearly a thousand foreigners registered in Budapest hotels every day for the first half of August.

# Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Moscow, Sept. 4.—(INS)—Novel are the notions of Soviet newspaper writers about America. Nothing is too fantastic for their credulity if it touches upon the 'land of unlimited possibilities.' Recent having announced that Americans were planning to divert the Gulf Stream and freeze out Europe, Soviet journalists have now discovered that a serious plan is afoot in the United States to create a 'world bank' there and with its help accumulate all the gold in the world.

According to an inspired editorial in 'Gudok,' the organ of the Soviet railroad men, 'The Americans have proposed the creation of a world bank which will have the right to issue bank notes. Naturally the whereabouts of the bank must be somewhere in America, as she has more than half of the world's gold reserve.'

'And just as naturally, the majority of the votes in the bank's governing board must belong to Americans. This American plan has not yet been accepted by the League of Nations.

Section of Aid to Scholars, now staid of \$400 from the American announces that it is able to get along without the American money. Improved conditions have made it possible to dispense with foreign aid, the Odessan scientists explained.

Outdoor sports are making great headway with the new generation of Soviet Russians. Lola Shunarko, 19 year old 'Comsomolka,' or member of the Communist Youth International, is being heralded as the greatest living exponent in Russia of the motto that Soviet girls must paddle their own canoes. Lola just completed a 600 mile trip in a canoe by herself.

She left her home city, Kiev, in the Ukraine, launched on the broad and sluggish Dnieper, and paddling at an average rate of 15 miles a day, covered the distance to Sebastopol, in the Crimea, in a month and a half.

Sixteen American engineers and mechanical experts employed by the Georgian Manasseh Company, the Harriman concern now exploiting the mines of Tschatur, have arrived bringing with them their own houses. The housing shortage is not confined to Moscow, and having learned from their associates of the extreme difficulty of finding rooms, the Americans packed up and brought along ten folding cottages.

We have with us in America Miss Berul Mills, selected by experts as 'Miss Australia, most representative university girl in Australia, in intelligence, physical perfection, personality and future possibilities.'

Every newspaper should print this young woman's picture and advise other girls to be like it.

As she sits in her chair, you don't see her knees. She didn't win her title by taking off ninety per cent of her clothes and relying on high heels, thin ankles, spindle legs and a bathing suit. She relied on the beauty of intel-

## Some Plain Facts About Investments

Borrowing and Credits  
New York, Sept. 3.—(INS)—The European war, with its enormous expenditures and its heavy demands on the resources of the future, in the form of long term loans, introduced a new era in national borrowing and wrote a new chapter into the history of national credit.

The people of this country as a result of the war borrowings of the United States Government, have been given a choice form of security, and Uncle Sam has been proclaimed the world's most clever and skillful borrower. While our Uncle Sam owes the tidy sum of twenty billion dollars, on which he is at present paying a maximum 4 1/2 per cent interest, he is now able to borrow at less than 4 per cent. Some of the recent short term loans were gobbled up at 3 1/2 per cent, while the last issue of Treasury 4 1/2 per cents are now selling at 8 points above par on the New York Stock Exchange.

The debt is a legacy from the greatest war in history, the proceeds of the loans used to pay the war expenses of the United States and its allies, and would be only half as large if the European fighters had been able to pay their own way. But that is neither here nor there, the debt, as represented by the outstanding Liberty bonds, will be paid off according to schedule, though the plan of liquidation calls for a certain number of renewals and extensions on a part of the loans as they mature.

Within the next two years, about seven billion dollars' worth of the United States Government's obligations, principally Liberty bonds will mature. Included in this list are two and half billions of the third Liberty Loan, which fall due in exactly two years. Though only two years to run, these bonds command a premium of a little more than one per cent in the listed bond market, showing that investors are willing to sacrifice one per cent from the total income of 8 1/2 per cent, in two years, on money invested in these bonds.

To use a popular term this is 'glass' in the field of investments, and ought to be very gratifying to Treasury officials and those in high authority at Washington. But even with this low yield, the Liberty bonds have brought home to thousands of investors more real money than they have received from the motley array of yellowed securities promising all the way from 6 to 100 per cent annual dividends.

Great credit is due Secretary Mellon for his skill and sagacity in cutting down the annual interest charges paid by the government on new and refunding loans through the long and short term borrowing markets in the last five years. It would be a great mistake, however, to overlook the part played by patriotic American bankers and investors in this great enterprise of Treasury financing. Unless they had been willing to put their funds into government bonds paying 1 to 1 1/2 per cent less than other recognized channels of high grade investment, the Treasury's issues would not have found so many permanent resting places.

## LITTLE LOVE GOD KEEP CAPITAL POLICEWOMEN IN DEMAND; CHIEF'S PROBLEM

Washington, Sept. 4.—(INS)—Either the little love god, Eros, has a special spell over Washington's police women's bureau, or else Mrs. Mina C. Van Winkle, chief of the bureau, has a "picker's eye" that would put to shame Flo Ziegfeld himself.

However that may be, the fact remains that marriages keep the bureau constantly facing a personnel turnover. With uncanny regularity, prominent lawyers, doctors, educators and engineers pop up from nowhere at all with theories that policewomen make good wives.

So far, eleven young women who came to the bureau as misses have left its ranks as Mrs.'s. Starting out to be cops, they got copped themselves.

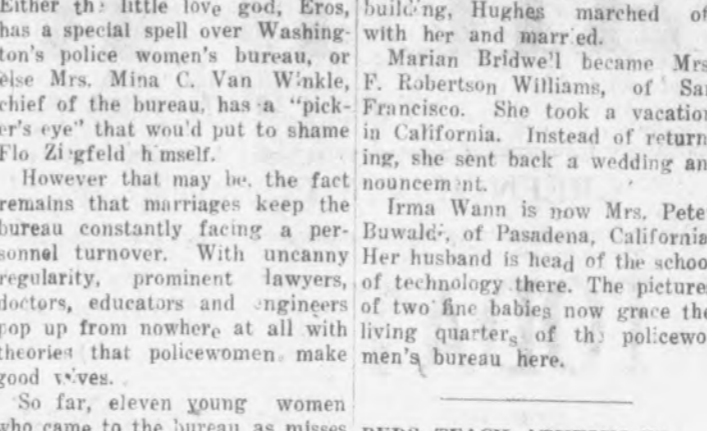

What romance may cost her in the loss of trained personnel in the future, Mrs. Van Winkle hesitates to say. For herself, however, she says she will remain a widow for the rest of her life. And so far as Sergeant Rhoda Milken, slim bobbed haired chief assistant, is concerned, she is never going to be a widow, no matter how long she lives. Her reason is simple—she never intends to marry.

Of the 21 policewomen now on the force, eight are married or have been married. That leaves 13 for Mrs. Van Winkle to worry about. And 13, she says, is an unlucky number.

One of the former members of the bureau, Sarah Tilghman, is now Mrs. George Hughes, of Dallas, Texas. She is practicing law there with her husband under the firm name of Hughes and Hughes. They were married one day while the court was taking luncheon recess. Meeting her

## Corinne GRIFFITH Into Her Kingdom

London, Sept. 4.—(INS)—That communists are openly teaching atheism in Sunday schools held by them throughout Britain is a charge made by the British Empire League.

The League states that the following catechism is being taught to children attending the schools. God is that power which man in his ignorance has called supernatural. The workers can only raise their status by revolution. They must educate and train themselves to overthrow the present Class State by force if need be.

Thou shalt not be a patriot, for a patriot is an international black-leg. Thou shalt teach revolution. Thou shalt wage the class war. It is stated that the teachings of these schools is maintained by eleven colleagues, which train young men as revolutionary speakers and teachers.

## MAYOR OF AMARILLO BUYS BERESFORD MEXICO RANCH INCLUDING 15,000 CATTLE

Amarillo, Texas, Sept. 4.—(INS)—The Lord Beresford ranch and 15,000 cattle in Chihuahua, Mexico, have been purchased by Lee Bivins, mayor of Amarillo.

The ranch is on the United States-Mexican line and is said to be one of the finest in Mexico. It was bought from E. K. Warren and sons, of Three Rivers, Michigan. Consideration was \$500,000. Founded by Lord Beresford many years ago, the ranch includes a lease on 500,000 acres of improved grazing land and one of the most famous cattle brands, the U, in the world. Bivins has taken charge of his purchase.

Never hurt dumb animals. If a man thinks he is good looking don't tell him any different.—Durham Sun.—Nashville Banner.
