NEW YORK - PARIS AIRPLANE FLIGHT IS POSTPONED TODAY

Leak in Gas Tank of Giant Sikorsky Biplane Prevents Proposed Hop Off This Morning

Westbury, N. Y., Sept. 16.—(AP)—The New York to Paris flight of Captain Rene Fonck, the French Ace, and three companions was postponed today perhaps indefinitely, because of a leak in their biplane's gasoline tank. The leak was discovered as they were preparing to hop off.

Yale Starts Work On Her New Galleries

New Haven Conn., Sept. 16.—(INS)—Construction work has started on Yale's elaborate new art galleries that are to form an important feature of the University school of fine arts, and will create a real art center for Connecticut besides.

A feature of the million dollar art building will be the more than half mile of galleries on the second floor. These galleries are to have a total of 27,000 square feet and extend 2,710 linear feet.

The ground floor is to have the office of the dean and his staff, class rooms, a hall of casts, a large lecture room, sculpture galleries, and galleries for Assyro-Babylonian, Greco-Roman, and Egyptian work beside library quarters and a temporary loan exhibition gallery.

The first section of the new art galleries will be ready for use about December 1, 1927.

BANK VAULT WAREHOUSE FOR VALUABLE CROP

Kelso, Wash., Sept. 16.—(AP)—A crop so valuable it was stored in a bank vault was grown this year on the farm of Alexander brothers, near Woodland, in southwestern Washington.

Economy of words is the first rule of good writing.

TODAY

(Copyright 1926) Dempsey and Milton. The Kleagle's Request. Cutting Mary Pickford. Fads and Faddists. By ARTHUR BRISBANE

A SYMPATHETIC editorial writer bewails the fact that Jack Dempsey, whether he beats Tunney or not, will get 14,000 times what Milton got for writing 'Paradise Lost.'

On the other hand, Milton probably would rather write 'Paradise Lost' than beat Tunney for \$1,000,000. Abraham Lincoln would rather have written his Gettysburg speech for nothing than beat Tunney and Dempsey both. Some things to some men are more important even than cash.

The Klan parade included Ku Kluxers from almost every State in the Union, also from Alaska and Panama. Masks were worn, but guards marching beside the Klan's colors were armed.

England's film censors are as foolish as some of our own. They have cut Mary Pickford's picture 'Human Sparrows' because the figure of Christ appears in the dream of a little orphan girl.

The American Society for the control of cancer will 'bag faddists' at its international congress next week.

A convention of steel makers in England once struck through a record paper read by a 'steel faddist,' whose name was Bessemer. His steel-making fad now rules the industry. Beware lest you mistake truth for a fad.

France, instead of angrily resenting Mussolini's warning against harboring Italian anarchists on French soil, treats the matter good naturedly and replies: 'At right, we'll help you gladly to catch your communists and make France unsafe for them.'

Italy moves to restore capital punishment in accordance with Mussolini's threat. The question is 'can you fight violence, with violence successfully?'

The British allow free speech, welcome all sorts of agitators as long as they do not agitate on British soil and the British Royal family lives in safety and comfort.

Russia would tolerate no free speech under the Czars. There are no more Czars.

Democrats of New York are building up their platform for this fall as a preparation for next year's convention and presidential nomination.

To the statement of President Coolidge's friends, 'prosperity is the only issue for 1928,' the Democrats will reply 'you are wrong. Making whiskey the only national beverage, with crime on the side, is an issue.'

Day before yesterday the wise men of Wall Street said: 'The market has gone stale; we are in for a dull period, with prices sagging downward.'

Yesterday prices went up, various stocks going to new high prices, then the wise men invented something else.

Brokers, too, close to the game, look upon it as a gambling enterprise. When red has come up (Continued on page 6)

MORRISON TO BE CANDIDATE FOR SENATE IN 1932

Former Governor Makes Public Announcement of Intentions at Asheville Today

Asheville, Sept. 16.—(AP)—Former Governor Cameron Morrison, of Charlotte, will be a candidate for the nomination for the United States Senate in 1932, he announced here today. At the same time he made public his platform of eight planks for the development of North Carolina.

While there have been many indications that the former Governor would seek the seat to which Senator Overman recently was nominated, this is Mr. Morrison's first definite announcement of his intentions. Form Governor Morrison made his announcement so definite as to indicate he will be a candidate even if the veteran Senator Overman should seek another term, although he made no direct reference to this possibility. Neither did he indicate that he had received any assurance that Senator Overman will retire voluntarily at the conclusion of the term for which the Democrats renominated him in June.

Chief among the planks of the former governor's platform is an announcement that he will fight for a new state highway bond issue of \$40,000,000 in the next General Assembly in January.

- The points urged by Mr. Morrison are as follows: 1. That the state should do a generous part in the establishment of the Smoky Mountain National Park. 2. Additional bond issue of \$40,000,000 to complete the state highway system. 3. Inland navigable waterways of the eastern part of the state should be developed. 4. A state owned and managed system of terminals and ports should be established on the coast and at the head of navigable waters. 5. A modern and up-to-date culture of sea food waterways of the east should be inaugurated. 6. The Agricultural Department of the state should be greatly enlarged. 7. Sectional federations for farmers should be organized throughout the state. 8. Modern and up-to-date facilities for farm products other than cotton, and tobacco should be provided.

Officers Capture Still and Negro

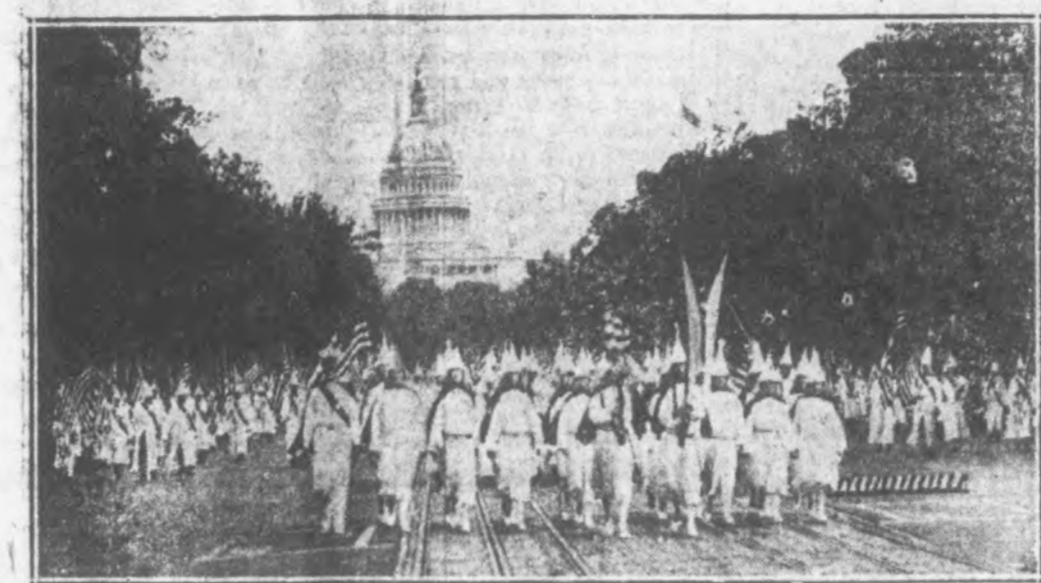

Sheriff's officers yesterday captured a moonshiner still in Pactolus township and arrested Tommy Boyd, negro, owner of the still. Boyd is in jail awaiting a hearing of his case. The still proper was located by officers about forty steps from Boyd's house, while the worm and other parts of the outfit were found in and around the house. A quantity of beer was found in Boyd's kitchen.

WHEATLAND PLOWING CONTESTS 49TH YEAR

Plainfield, Ill., Sept. 16.—(AP)—The real rural derby, the annual Wheatland plowing contest, in its 49th renewal, is set for Sept. 18 this year. A new class is announced, for boys under 17 in which either horses or tractors may be used. The competition is a national affair, open to anyone, and Homer Lapp of Wheatland is at present the title holder. Twelve competitors were entered in the first match, in the fall of 1877, and 200 watched them carve their furrows across the field. Crowds since then have grown to as high as 15,000 and two classes for tractor drawn plows have been added. A clover field will be used this year to make the competition more difficult.

We often wonder whether solemn men take life as seriously as they would lead us to believe they do.

Klansmen March Through Streets of Washington

Klansmen and Klanswomen marched in regalia through Washington at their annual meeting there. The Capitol is in the background. (International Newsweek)

PREDICTS SUCCESS MOVE TO ABOLISH TWO-THIRDS RULE

National Democratic Committeeman Says 48 Members Pledged to Support of Majority Rule

Chicago, Sept. 16.—(INS)—Success of the movement within the Democratic Party to abolish the two-thirds rule for national nomination was predicted today by the National Committee Members of Iowa, who have been leaders in the campaign since its inception early this year.

The Iowa members issued a statement showing that 48 members of the National Committee have pledged themselves for the adoption of a majority rule in all future conventions, and predicted that an overwhelming majority of the convention vote of 1928 would be behind the movement on the basis of this figure. Since the agitation against the two-thirds rule began in the Iowa Committee last January, the statement said it had been endorsed by such national party leaders as John W. Davis, William G. McAdoo, Norman E. Mack, Charles A. Greathouse, of Indiana, and Senator Thomas J. Walsh, of Montana.

Included among the members who have endorsed the majority rule are against the two-thirds rule are the National Committee Members of North Carolina.

Who Will Be Cellini in Picture Planned for Valentino?

Hollywood, Cal., Sept. 16.—(INS)—Hollywood was speculating today on what John W. Considine, Jr., president of the company producing Rudolph Valentino's pictures, will do with the motion picture, story of the life of Benvenuto Cellini written for Valentino's next production. Cellini was a swash-buckling goldsmith and sculptor, a Sixteenth Century Florentine, who prided himself as much upon his delicious amours as he did upon his artistic triumphs. Considine, it was estimated, spent \$100,000 in preparing for the screen the story of Cellini's life.

It was a role that would have suited Valentino to perfection. Cellini was an Italian, and Valentino could have interpreted with Latin ardour and sympathy Benvenuto's paradoxical character. The film colony was also curious as to what Considine will do with Estelle Taylor, in private life Mrs. Jack Dempsey, who was to have played Valentino's leading woman in the picture. Miss Taylor is on the Considine payroll at a salary running into four figures, and with Valentino dead it may be several months before United Artists can find a picture for her.

LOCAL POLICE RECOVER FOUR STOLEN AUTOS

Between five o'clock Tuesday afternoon and the same hour yesterday local police recovered four automobiles that had been stolen here during the past week and arrested one person who confessed having stolen one of the cars.

The car of Biggs T. Cannon, stolen last Friday, was recovered in Washington. The car of D. S. Smith, stolen last Saturday, was also recovered in Washington. A car belonging to a man by the name of Sprick, who lives in Washington county, stolen here several days ago, was located between this city and Farmville. A car, belonging to C. L. Joyner of this city, stolen on the opening day of the tobacco market, was recovered here after it had been abandoned by the driver. George Bardin, negro, about 18 years of age, was later arrested in Washington, and confessed to the stealing of the Joyner car, and the later abandonment of same here. He is being held in jail pending hearing.

Tobacco Caravan Arrived Last Night

Greenville people last night witnessed the arrival of a present-day caravan when a convoy of close to forty trucks loaded with tobacco for sale on the local market arrived in this city. Represented in the group were farmers from Lenoir, Greene, Jones and other counties south and southwest of here, some coming from as far away as eight miles of Wilmington. The caravan is said to have made up beyond Kinston late yesterday and then proceeded to this city. Upon arrival here it was explained by those in the lead that there were other trucks that did not arrive at Kinston in time to join the first division but would be here later, and this statement was verified by midnight when close to sixty trucks from the territory had arrived.

Numbers of these farmers had never before visited the Greenville market and on sales this morning they appeared highly pleased with the prices they received for their first offerings here.

Adopt Special Delivery Mail U. S.-England

Washington, Sept. 16.—(AP)—By agreement between Great Britain and the United States, a special delivery of mail is inaugurated between the two countries beginning today. The special delivery fee is 20c in addition to the regular postage charge.

LIGHTHOUSE IS MEMORIAL FOR WIFE AND DAUGHTER

Oakland, Calif., Sept. 16.—(AP)—A fifty foot stone monument surrounded by a light which can be seen miles at sea has been made a state park two years ago and a monument was erected on the site of the battlefield. When you're mad, keep quiet and do nothing.

NON PERMANENT SEAT MEMBERS LEAGUE ELECTED

Four Close Allies of France Among Ones Elected By Assembly Today

Geneva, Sept. 16.—(AP)—The nine non-permanent members of the League of Nations Council were elected today by the assembly. They are Poland, Belgium, Roumania, Holland, Chile, Columbia, Salvador, China, and Czechoslovakia.

France's political influence in continental Europe coupled with the personal popularity of foreign Minister Bebes, of Czechoslovakia, resulted in the election of four countries who are particularly France's allies. These are Poland, Roumania, Czechoslovakia and Belgium.

The Irish Free State lost its battle to represent the British dominion in the council, receiving only 10 votes. Columbia, the highest winner, received 46 out of a total of 49 votes cast. Czechoslovakia, an eleven hour candidate against Finland, easily won the second ballot for the ninth seat, after eight ballots had been filled on the first ballot.

SAN PASQUAL BATTLE WILL BE RE-ENACTED

San Diego, Sept. 16.—(INS)—The battle of San Pasqual, the famous engagement which resulted in the transfer of California from Mexico to the United States, will be re-enacted by 1,500 Marines under the command of Brig. Gen. Smedley D. Butler, it was learned at the Marine Base here today.

The mock battle will be staged three times on Navy Day, Oct. 27; the birth day of the Marine Corps, Nov. 10; Armistice Day, Nov. 11. The brigade needs training and Butler declared. We will bivouac at San Pasqual valley for three weeks. War conditions will be copied, and every effort made to reproduce the battle along historical lines. We may be forced to substitute automobiles for horses; but the cavalry didn't figure prominently in the original conflict.

San Pasqual valley is 45 miles inland from San Diego. It was made a state park two years ago and a monument was erected on the site of the battlefield.

MERTON CHECKS PRESENTED TODAY DAUGHERTY TRIAL

Checks Believed to Be Part of Metal Magnate's Payment to King Presented by Government

New York, Sept. 16.—(AP)—Three checks amounting to \$29,143.75 which the government alleges was part of the fee Richard Merton, German metal magnate, paid J. T. King, late Republican National Committeeman from Connecticut, for "rushing" claims through the Alien Property Custodian's office were offered as evidence in the trial of H. M. Daugherty and T. M. Miller.

One of the checks is for \$25,000. It is dated August 1, 1921. It bears the signature of Merton and is made out to "cash." The government alleges this check was a "split" of the \$50,000 Merton said he paid King and that Jesse Smith, Daugherty's aid got the money. The date of this check approximates that on which Merton said he gave King a \$50,000 "advance commission."

England to Smash Altitude Record

London, Sept. 16.—(INS)—Plans are being made for a British attempt to beat the world's altitude record, at present 42,600 feet and held by a Frenchman.

The proposed attempt is the outcome of satisfactory tests made with a super-charged engine at Marlesham Heath Experimental Station by Flight Lieutenant W. S. Rutman, known as the 'Blondin of the air' who has conducted many daring aerial experiments. His engine was an ordinary service type Napier-Lion, but the principle could be applied, with certain modifications, to any aeromotor.

The apparatus in use is being kept secret because it is believed to be far in advance of that used in other countries. Theoretical trials in the workshops have shown that a height of over 50,000 feet, or more than nine miles could be reached, if satisfactory arrangements could be made for the pilot.

Long Dresses and Overalls Start Big Rumpus in School

Arcadia, Kan., Sept. 16.—(INS)—No more will dimpled knees peep from beneath the skirts of young teachers and younger feminine pupils, and lip stick and rouge will be strictly taboo as well, in educational circles here, as a result of the rule which was put into effect here this year by the board of education. "Skirts six inches below the knees" it reads.

Boys must wear overalls, unbuttoned, or knee pants suspended from the shoulders, the regulations continue. The result of the announcement of the rules has been that teachers, pupils and parents are up in arms alike. Even possession of cosmetics is prohibited, and infraction of the order is punishable by dismissal for teachers, or by expulsion for pupils. "The rules are an insult against the morals of our children and against the morals and decency of our teachers," is the opinion which has been announced by a number of mothers of girls in the public schools. "These regulations are no joke and they will be enforced to the letter," is the dictum.

MERTON CHECKS PRESENTED TODAY DAUGHERTY TRIAL

Sesqui Centennial Can Not Operate On Sundays Under Court Decision of Today

Harrisburg, Pa., Sept. 16.—(AP)—The Philadelphia Sesqui-Centennial exposition association is denied the "right privilege or authority to open, hold or conduct the exposition on Sundays" under a decision today of the Dauphin County Court.

The court held that Sunday operation of the exposition is "worldly employment" that it is not work of necessity or charity, and that the amusements and recreations within the exposition grounds, are clearly in violation of the Act of 1794. Unless steps are taken immediately for an appeal and a supercedas is granted, the exposition will not open on Sunday.

Philadelphia, Sept. 16.—(AP)—An appeal will be taken from the decision of the Dauphin County court which denied the right of the Sesqui-Centennial Exposition to operate on Sunday. City Solicitor Gafney said today.

Geneva Attracts Many International Conferences

Geneva, Sept. 16.—(AP)—How steadily Geneva is increasing its importance as the center of international activities is shown by the large number of conferences to be held here this autumn, and an already long list has been added to by the announcement that the 25th Universal Congress of Peace will be convoked within Geneva's walls in the early days of September.

As far back as 1867 the first World Congress of Peace was held at Geneva on the suggestion of Victor Hugo whilst the great French writer was under exile in the liberal life of Europe participated at this 27th Congress, and the people of Geneva acclaimed enthusiastically the Italian patriot Garibaldi as he arrived at the railroad station. So delicious indeed was the welcome that the multitude hitched the horses from his carriage and themselves triumphantly conducted Garibaldi down the Rue du Mont Blanc to his hotel.

It is regarded as significant by many people that this year's congress will concentrate upon economic problems, thus giving the impression that international peace is more in danger from economic conflicts than from direct political dissensions. Customs, tariff questions, and the difficulties arising out of the fluctuations in exchange—both figuratively on the agenda; while a broad way will be discussed the question of the sovereignty of states, believed by many to present a widely different aspect in modern days, when people of various nations are more dependent upon one another, than they were when Garibaldi came to Geneva.

ENGLAND'S ROYAL AUTO CLUB IDEA IS FOR HOTELS GIVE STANDARD MEALS

London, Sept. 16.—(INS)—That every hotel or inn in Britain should provide motorists with a standard meal at a uniform price of two shillings—fifty cents—is the scheme of the Royal Automobile Club. The idea is well on the way to fruition. Names of 5,000 hotels and inns were submitted to the club. 1,000 applied for appointment within a day and 700 of these have been approved. The latter will be able to display the diamond-shaped Royal Automobile Club sign. The contract states that, at any and all of these inns the meals—either hot bacon or ham and eggs, or cold meat and pickles, with bread and butter—may be always obtained, at any time of the day, or night and the charge must not be increased under any circumstances.

BRITISH MINING FACES TROUBLE FOR LONG TIME

Coal Industry Can Never Recover Under Present System, Says Owner

London, Sept. 16.—(INS)—The British coal industry will never be free from its present troubles until the whole system of output

WEAK, RESTLESS

Tennessee Lady Had So Little Strength She "Couldn't Get Around." Took Cardui With Benefit.

Gasaway, Tenn.—"I wasn't able to do any of my work, and it seemed like I had so little strength I just couldn't get around," says Mrs. Frank Murphy, who lives near here.

"My mother knew of the good Cardui could do, so she told me to take it. I sent and got a bottle, and seemed like all the time I grew stronger."

"I had been suffering with pains in my sides all the time, and Cardui helped this wonderfully. I needed a tonic for female trouble, and Cardui just fitted the need. I was awfully restless and could not sleep at night, but after taking two bottles of Cardui I could sleep like a top. I got along all right, and I know it was due to Cardui. I can certainly recommend it to women suffering from women's troubles."

"My present health is just fine."

Thousands of women have written to tell how Cardui relieved them of pain and suffering, and helped them to improve in health and strength.

Cardui is perfectly harmless, being an extract of mild-acting herbs, and contains no dangerous drugs or harmful ingredients.

Sold everywhere. NC-174

is regulated and production decreased, in the opinion of Sir Alfred Mond, M. P., former Cabinet Minister and a director and owner of some of the biggest coal, iron and steel companies in Britain.

Over production is at the root of the whole trouble, according to Sir Alfred, who favors the amalgamation of the dozens of small coal producing concerns into one large corporation, thus cutting out the numerous overhead and other charges which each of these small companies have to meet.

"I believe the solution lies in decreased output," Sir Alfred said in an interview. "At the present moment Britain is suffering from slaughtering of prices and has led to the present economic situation."

"Unless the production is regulated to accord with consumption we will never get out of the difficulty. We will have alternate periods of boom and slump, such as has been known in the British industry over a long period. It is bad for the coal industry and its development and distribution of its products by properly controlling to industry generally."

"What we should aim at is to regulate production, and it is practically the experience of every great industry in the world, and the whole tendency of industry, today is to get together both nationally and internationally in an endeavor to avoid unnecessary waste of capital and expenditure. In fact, the tendency should be to make coal mining an industry and not a gamble."

Remark that many owners have found that even after installing up to date plant and machinery in their works their production had not greatly increased, nor their expenditure diminished. Sir Alfred said:

"What is necessary is that a profit-sharing scheme should be devised to encourage the men to take a greater interest in their work. What is wanted is that a man on a particular job should get more direct result of his action."

"I do not hold the opinion that oil will oust coal from its position of preeminence," Sir Alfred said, "for, apart from the fact that it is too expensive, there is not enough of it. Coal will still be the dominant fuel and power factor."

U. S. HOES, RAKES, PLOWS FIND GROWING FAVOR IN FOREIGN FARMING LANDS

Washington, Sept. 16.—(INS)—Sturdy American hoes, rakes and plows—similar to those used to till American farm lands for a score of years are now wearing blisters on the hands of tens of thousands of farmers in foreign lands, the Department of Commerce announced today.

The preference of foreign agriculturists for American made farm implements, it was stated, has caused a tidal wave of export trade in these lines. The exports of farm implements for first six months of 1926, it was added, smashed all preceding records and surpassed even the total annual exports for a dozen pre-war years.

LONDON FASHION NOTES

London, Sept. 16.—(INS)—The sunburn silhouette is the latest craze at the fashionable English and foreign bathing resorts, and the means of attaining it's silhouette has made sunbathing the most popular recreation at the beaches.

The silhouette is obtained in the following manner. Before you attire yourself in your bathing costume, you cut a design out of it. When the design is cut and the bathing costume donned, you go to a sunny patch of sand. The sun immediately catches and burns the skin that is exposed by the cut in the costume.

Originality and picturesqueness are aimed at by the devotees of this craze. Parrots, Chinese mandarins, monkeys and cats, and dogs are among the most common signs seen.

The cocktail dress is the latest creation of the fashionable dress makers. It is really a dress designed for cocktail parties, and has caught on with American women. It is usually made in black and white—black skirt and white

SOVIET DIVERS ABANDON EFFORTS TO SALVAGE GOLD FROM LOST 'BLACK PRINCE'

Solovki, Sept. 16.—(INS)—From \$2,000,000 to \$8,000,000 in hard gold coin awaits the American or other foreign diver who finds the nerve and resources to dig it from its grave in the shallow waters of the Black Sea off Balacava in the Crimea. Soviet divers have just abandoned the effort to recover the money which went down with the British cruiser "Black Prince" during the Crimean War.

They located the ship, having no trouble in discerning its outline in the clear water. But their apparatus was not equal to the task of raising the whole

PENNSYLVANIA CAPITAL INHERITS PICTURE

Harrisburg, Pa., Sept. 16.—(INS)—A work of art in their possession and no place to put it today was a problem confronting Pennsylvania state house officials.

The work is a portrait by Vilinski, painted some years ago in Paris, showing George Gray Garnard, sculptor of the marble groups at the capital entrance here, at work on "The Two Natures," a massive group that has been at the Metropolitan Museum, New York, for thirty years. Accompanying the portrait which shows the sculptor life size are several marble benches for those who desire to gaze at the painting in ease.

Pennsylvania fell heir to the work through provisions of the will of the Rev. Joseph H. Barnard, father of the sculptor, who died last April. The will states that the portrait must be put in a prominent place at the capital. But as the bench weighs more than a thousand pounds and the portrait is eight by ten feet in size, capital officials have a locating problem on their hands.

OLDEST M. E. MINISTER CELEBRATES 102d BIRTHDAY

Malden, Mass., Sept. 16.—(INS)—The world's oldest Methodist minister has just celebrated his 102nd birthday.

In 1824, the Reverend Edward Stewart Best was born. The whole of his life has been dedicated to his ministerial calling. His birthday was quietly observed at his home, where the venerable pastor was visited by Mrs. J. W. Cunnoek and Rosamund Best, his daughters, two granddaughters and several great-grandchildren.

A nephew, Henry Farnham, resides in Chicago.

POLAND PLANS TO BUILD GREAT MERCHANT MARINE

Warsaw, Sept. 16.—(INS)—Poland plans the building of a large mercantile marine. A 65-land with the financial capacity of Poland meeting attended by Pilsudski ordered the ministers of a scheme will shortly be submitted to Parliament.

DEPENDABLE MERCHANDISE

LOCALS

Dr. P. I. Darden, of Mount Olive, was a Greenville visitor today.

Garland Holden, of Farmville, was here today. Mr. and Mrs. H. E. Austin left this morning by auto for a visit to Washington, D. C., Philadelphia and Baltimore.

Mr. and Mrs. J. C. Bryson of Chas. City, Va., who have been the guests of Mrs. Bryson's parents, Mr. and Mrs. E. A. Parker, returned home today. Mrs. Parker accompanied them home for a visit.

Mrs. Charles Whiteford spent this afternoon in Wilson. J. Weston Hodges left this morning for Raleigh to attend State College.

Mrs. O. B. Peatross and sons left this morning for their home in Danville.

Mr. and Mrs. H. C. Sugg and two little daughters are spending today in Henderson.

Marvin D. Sugg left this morning for Chapel Hill to resume his studies at the University.

Mrs. C. D. Nabor of Cincinnati, Ohio, is the guest of her mother and sisters, Mrs. De Champs, Mrs. Dresbach and Mrs. W. W. Martin.

K. A. Pittman, W. R. Smith and Staniel Hodges of Ayden were here today.

M. O. Blount of Bethel was here today.

YOUNG WOMAN'S FEDERATION TO MEET FRIDAY AFTERNOON

The Young Woman's Federation will meet Friday afternoon at 4 o'clock with Mrs. W. H. Bradsher. Mrs. W. H. Woolard will be the leader.

A LETTER FROM MRS. CROW

Claude Tunstall, Sept. 15, 1926, Greenville, N. C.

Dear Sir: Two checks from the Provident received to cover recent disability from May until September first. The payment is satisfactory and wish to state that I am well pleased with the health and accident policy I have with you.

Yours truly,
MRS. R. L. CROW.

MRS. H. F. JONES' CLASS TO MEET FRIDAY

The Intermediate girls' class of Memorial Baptist Sunday School will meet Friday afternoon at 4 o'clock, at the home of Mrs. B. F. Tyson, 914 Evans St. All members are urged to attend as plans for the fall work will be discussed.

AUTUMN MODES IN DRESSES IN ALL THE NEWEST SHADES.

Misses Manning Specialty Shop

JUNIOR KING'S DAUGHTERS TO MEET TOMORROW AFTERNOON

The Junior King's Daughters will meet tomorrow afternoon at four o'clock with Miss Johnny Gray Currin. Every member is urged to be present, as there are matters of importance to be brought up for action.

MRS. HYMAN HAS TONSIL OPERATION

Friends of Mrs. R. Hyman will be glad to learn that she is getting along nicely following a tonsil operation.

MRS. EDWARD BATCHELOR ENTERTAINS

Mrs. Edward Batchelor delightfully entertained at bridge and rook yesterday afternoon, having as honor guests, Mrs. C. W. Hearne, Mrs. J. H. Ross and Miss Rosamond Flanagan.

A yellow color scheme was carried out in flowers and table decoration. There were eight tables for bridge and two for rook. During the game iced drinks and grapes were served.

Mrs. Jam's Ficklen was winner of high score bridge prize, and was given a fruit bowl. High score for rook was made by Mrs. J. B. James, who was given an embroidered handkerchief.

Miss Jessie Moye and Mrs. W. A. Darden were given attractive novelties for low score. Mrs. Rose was remembered with a bottle of bath salts. Mrs. Hearne, with an embroidered tray cover, and Mrs. Flanagan with an embroidered guest towel. The hostess, assisted by Mrs. R. M. Garrett and Mrs. J. B. James, served an attractive ice course.

PHILATHEA CLASS MEETS

The Philathea class of Jarvis Memorial Methodist Sunday school

met for the first time since June, Tuesday evening at the home of Mrs. S. T. White, with about 45 members present.

There was no business of importance, except the election of new officers for the year.

Mrs. M. L. Wright was elected president; Mrs. K. T. Futrell, vice-president; Miss Eloise Ellington treasurer; Mrs. Chester Harris, secretary and reporter; Mrs. H. E. Austin, teacher, and Mrs. L. L. Herring, assistant teacher. At the close of business, the meeting was turned over to the hostesses, Mrs. Sam White and Mrs. R. G. Fitzgerald and Mrs. Leon Rives.

Mrs. White's beautiful home was tastefully and artistically decorated with fall flowers of rare beauty. At the outset, we were each given a small bag containing a certain number of beans. We were then told to collect a bean from everyone who said "yes" or "no" to us during the evening and to pay one, likewise. Finally, it was discovered that clever Mrs. Gully had the most beans and she was given the prize—a toy radio filled with candy beans. She was told to "tune in" whenever she wanted beans hereafter.

There was also a flower contest and a weight show contest, which created much merriment. Mrs. Marvin Blount and Mrs. Chester Harris were the winners in these contests, and they were each given generous bouquets of beautiful flowers tied with tulle.

Mrs. Herbert Waldrop delighted everyone present with two very beautifully rendered vocal solos. Then a "pass the pencil" game was played. This resulted in many original sayings as to why "I passed the pencil."

Mrs. White then invited us into the dining room, where a delicious ice course was served. She was assisted in serving by Mesdames, J. H. Boyd, Jr., Marvin Blount, R. G. Fitzgerald and Leon Rives. Misses Helen White, Evelyn Wright and Mabel Glenn Best also assisted in the serving.

"Y' ought to beeh dah, fer, I te'l you, evahthing was rich and prime. An' dey r'nt no use in talkin' we jes' had on' scrumptious time!"

The class will meet in October with Miss Martha Lee Cowell.

—Mrs. W. C. Harris, Rep.

DENTON'S QUESTION BIRD

My husband and I both suffer from rheumatism. Is there any relief?
Answer:—*Oh yes!*
We'll relieve you of your pain and very little of your money!

How's your rheumatism getting along this fall? Does it seem to bother you very much? If your physician has diagnosed your case correctly bring the prescription here and we will properly fill it. This is the drug store that appeals to commonsense folks who like to be treated well and properly charged.

GOING AFTER 'EM Officers of this county might not be successful in breaking up moonshining altogether but a continuance of their present activity along this line will at least do much toward accomplishing the desired end.

A COMMUNITY CHEST We are now nearing the height of the fall season which in this community, means the usual epidemic of drives for the Red Cross, Boy Scouts, Y. M. C. A., Salvation Army and various other causes.

It has been our experience in the past that every time a drive for funds is put on, it befalls the same citizens to stage the drive and do the soliciting.

Experience of cities where the Community Chest system is in effect shows us that the necessary funds for each year are contributed more readily by citizens when they know they will be solicited only once during the season.

us to get together and appoint a representative group of our citizens for an executive committee to work out a budget of funds for the coming year and then everybody get together and lend a hand in staging one great drive to raise all the necessary funds and be through with it.

Other cities throughout the state and nation find the Community Chest plan the best way to provide for the causes that must receive support from contributions.

PRESS COMMENT

HE WHO LIVES DANGEROUSLY

(New York World) Premier Mussolini's method of remaining calm when he is attacked is to blow off steam by the threatening of his neighbors.

Why? Because France is now full of Italians who have been driven out of Italy by Mussolini and some of them out of their right minds by his persecution.

A country has the duty of trying to prevent organized conspiracies on its own soil against another Government.

Presumably there is no way of inducing Signor Mussolini to take better care of himself. It is unfortunate. Considering the enemies he has made, considering the fundamental weakness of his dictatorship, there is no guarantee that such criminal attempts will not be repeated nor that they will always fail.

SALE OF LAND UNDER MORTGAGE

By virtue of the power of sale contained in that certain mortgage executed and delivered to S. T. Hooker by W. C. Cannon on Dec. 24th, 1919, recorded in Book M-13, page 134 of the public registry of Pitt county, default having been made in the payment thereof, the undersigned will offer at public sale at the court house door in Greenville, N. C., to the highest bidder for cash, on Friday, the 15th day of October, 1926, at or about the hour of noon, the following described tract of land, to-wit: The one-sixth undivided interest of W. C. Cannon in the same: Lying and being in Pitt county, state of North Carolina, and described as follows: Beginning at a stake on the West side of Swift Creek Swamp, Jesse Cannon's corner, and runs N. 85 1-2 E. 94 poles to a stake; thence N. 15 1-4 W. 4 poles; thence S. 15 1-4 E. 109 poles to a stake; thence S. 15 1-4 E. 26 poles to a stake in the Cow Pen Meadow Branch; thence up the various courses of said branch to a stake centered by 2 pins and black iron; thence N. 89 W. 209 poles to a stake centered by a pine stump; thence N. 69 W. 58 poles to the run of a small branch; thence down the various courses of said branch S. 56 W. 29 poles; thence S. 66 W. 16 poles to the north of said Branch; thence S. 11 W. 90 poles cooping the West frong of Swift Creek Swamp to the West edge of the said swamp; thence with the various courses of the edge of said swamp to the beginning, containing 199 acres, more or less.

ALIMONY FOR POOR Chicago, Sept. 16.—(AP)—To ease the destitution which so often follows divorce among Chicago's poor, Cook county is collecting alimony as a feature of its charitable work.

A division of the county social service bureau, created in mid-July, already is gathering \$350 to \$500 a week in small alimony checks for wives and children dependent for support upon the few dollars of the husband's earnings which the decree has awarded the family. Many of these checks are for but \$5 a week, and none is more than \$15.

The Chicago plan was devised by Judge Joseph Sabth of the divorce court when he found himself besieged to collect alimony in arrears for women to whom he had granted decrees. Miss Virginia Stanford directs the work as head of the social service bureau. Similar alimony collection has been undertaken in Detroit and Cleveland.

BEAUTY IN SOUTH SEA SURPASSES BROADWAY

New York, Sept. 16.—(INS)—On Broadway beauty sets its own price.

On the island of Bali it may be worth an extra measure of rice. Pulchritude, which would silence forever the blonde so forcefully speaking of her preference, right now, passes along on this island in the South Seas, unadorned and unsmiling.

satin-sheened, amber colored ladies. Unsung—because no Broadway producer has as yet had the good sense to be shipwrecked on its shores. Miss Lola Krauzberg, of Berlin, single handed explorer and expeditionary force into Bali looks on the festive revues on the bright, es, street in the world, and wonders why some enterprising person doesn't pick a chorus down India way. "There is no beauty in the world," she maintains, "to compare with that of the ladies of Bali. While the men may not be worth a trip into the wilds—the women are. They are slim, tall, a delicate golden-brown. Their physique is a delight." But it seems that their gentlemen aren't connoisseurs of feminine charm. Trye, an extra hand—some lady may or may not fetch

a bit more attention—but very, very little, comparatively speaking. "But the women of Bali," explains Mrs. Grestberg, who came to New York to tell of her lone adventure and of the motion picture, she took of the religious and secret dances of these people, "the women are utilitarian as well as decorative. They do all the work while the men promote cockfights. The women till the soil, keep house, bear children. And the men eat what's produced, sleep in the house and play. "The girls there know they must work. If not for their husbands, then for their fathers. "And it's awfully lonesome being an old maid." At all events, the good word is brought. When the queen of them all begins to ritz her producer, he can take a trip to Bali and come

back with something just as good, if not better. **Bulletin Tells Housewife How to Select Family Foods** Raleigh, Sept. 15.—(AP)—How the busy housewife on the farms in North Carolina may select food for her family and prepare the meals according to the best and latest principles of good health practices is explained in a new bulletin, "extension circular 162, just issued in an edition of 25,000 copies by the Agricultural Extension Service of State College. The bulletin was prepared by Mrs. Mary E. Thomas, specialist in Nutrition for the home demonstration department and is divided into eight different chapters. The first chapter deals with

nutrition and health, the next with cereal foods, the third with fruits and so on, with the bulletin covering vegetables, milk, eggs, quick breads and table service. The publication was prepared primarily for the use of home demonstration club members in North Carolina, and will be given a place as a regular text book for the four year course in nutrition being given these club members by the home demonstration agents. In addition to outlining what foods are best and telling how they should be selected, the publication also gives tested recipes for the preparation of the foods. A table of weights and measurements for the boy and girl of school age is a feature of the first chapter. According to Mrs. James S. McKimmon, assistant director of extension, the bulletin is one of a series written to encourage better food selection and preparation, as well as good nutrition. Mrs. McKimmon hopes that improved food and health habits for the farm family will result from the use of the suggestions made in the publication. Copies of the bulletin may be had free of charge as long as the supply lasts by addressing the agricultural editor, State College, Raleigh, N. C.

Our Fall Opening

New Apparel Styles and Qualities Which Attain Our High Standards

Before the leaves have turned a shimmering red, before Summer has said it's last good-bye, Autumn and Winter styles make their gorgeous advent into the feminine world!

Our formal Fall Opening takes place now! We announce that we are showing the new modes in Apparel for the woman, miss, and girl, and we invite your inspection of our new modes.

New Styles In Every Department of the Store

We can outfit you from head to toe—just as you've longed to be dressed, attractively, in good taste, in the latest modes, and economically!

Dresses, Coats, Shoes, Hosiery, Millinery, Lingerie, Gloves, Etc.

Welcome, stranger!

☞ We mean strangers to our store as well as strangers to our city. For every season, in spite of the number of men who already feel at home in this store, we add new names to our list of customers--men who have lived here for years, but have just discovered us.

☞ The man who walks into our clothing department "just to look around" gets a hearty welcome.

☞ We take pride in our fall showing of clothes and we are glad of an opportunity to show them off.

☞ We never urge anybody to buy,--it's not necessary!

Here's how the fall prices line up:
\$25.00 to \$50.00

Macedonians Issue Manifesto in London

London, Sept. 15.—(INS)—A new and defiant manifesto has been issued here by the Macedonian Revolutionary Organization, whose activities have been responsible for much of the recent trouble in the Balkans. The exact location of the society's headquarters in London is unknown, the communications of the revolutionaries bearing no return address. The latest manifesto, signed by General Protogeroff, who succeeded Todor Alexandroff as head of the organization, declared that the revolutionary body will "persist in its struggle until it attains the autonomy of Macedonia, which has been the goal of the organization since its foundation." "As regards the means by which

Says He Felt Drunk Most of the Time
"Brooklyn, N. Y. Mr. Fred G. Marquart writes:—"I felt drunk most of the time. My head was dizzy. I couldn't think clearly. One day I dropped a coin and when I stooped to get it I got so dizzy I almost fell. I later found out that the cause of this condition was constipation. This was overcome by a short course of Carter's Little Liver Pills. My appetite has doubled, and my dizziness has entirely left me." Carter's Little Liver Pills move the bowels and relieve the system of its poisonous matter. Ocugists, 25 & 75c red packages

this struggle will be conducted, Protogeroff declared, "it depends on the attitude of the present conquerors of Macedonia, whether they should be legal or illegal." Bulgarian officials here have declined to discuss the manifesto, as the Macedonian problem in Bulgaria is such a serious one, that it might flame up at any moment in civil war. The Macedonians have sought recently to again lay the Balkan minority problem before the League of Nations, but they have been dissuaded by the French and Italian Governments, who are opposed to having the minority question raised anew at Geneva.

the earth when it was less than thirty-eight million miles distant two years ago, the American Nature Association points out. Although now over seven million miles more distant from the earth than at the opposition of 1924, Mars will be favorably placed for observation. Mars will not again come into opposition to the sun and on the side of its orbit nearest the earth until December, 1928. Fifteen years more will pass by before Mars will again be as near to the earth and as favorably placed for observation. Mars will be in the constellation of Aries and rise in the northeast early in the evening. It will be easily recognized by its fiery red color and its

FEDERAL COURT SELLS BOOTLEGGING AIRPLANE

Detroit, Sept. 16.—(INS)—An airplane, 41 trucks, and three motor boats and one row boat, seized by government agents in liquor cases, have been ordered sold by Judge Charles C. Simons in federal court. The plane was seized on the west side with a load of liquor aboard. One way to make people happy is to leave them alone, and let them go about being happy in their own way.

FAMOUS FRENCH RECIPE

For a food French soup try cucumbers. Cut them into rondelles and let them render in their liquid. Drain and put into a casserole with a little butter. Add a hand full of chopped sorrel and a pinch of cerfeuil. Moisten with water, add butter, salt and pepper. Boil for fifteen minutes and bind with the yolks of two eggs.

Autumn Due Here 7:27 p. m., Sept. 23

Washington, Sept. 15.—(INS)—Fall is due in the Northern Hemisphere on September 23 at 7:27 p. m. Eastern Standard Time. In the Southern Hemisphere Spring begins, says a bulletin from the American Nature Association. A return visit by Mars marks the advent of Fall, it being closest to the Earth on October 27. Mars will be at a distance of 42,025,000 miles in October. It will then be about 30 per cent brighter than Sirius, the brightest of all the stars, and almost exactly equal in brightness to the planet Jupiter which will be above the horizon also during the evening hours so the two planets may be compared in brightness. Mars made nearly, if not quite, its closest possible approach to

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Los Angeles, Sept. 16.—(INS)—George K. Arthur, the young English actor who has become familiar to American audiences through his portrayal of effeminate young men on the screen, will attempt to win the 25,000 prize offered by William Wrigley, Jr. to the first person swimming the 23-mile channel between the mainland and Catalina Island.

Arthur went into training immediately under Coach Swenson of the Hollywood Athletic Club and will be ready for the swim by January 15, when the contest will start.

Arthur, a Metro-Goldwyn-Mayer player, some years ago swam from Quikeningham to Richmond, on the Thames river. He was junior champion of the southern counties of England before coming to America and holds several British records.

The numerous and devastating forest fires in western United States and Canada during the past few weeks have made wonderful movie 'shots.'

Jack Conway, directing 'The Understanding Heart,' based on the story by Peter P. Kyne, has just completed the filming of a fire that devastated a great acreage in the mountain sections of Northern California. The fire wasn't called for in the scenario, but the director couldn't resist the opportunity to incorporate the blaze into his story.

Reginald Barker, Cosmopolitan director, handling 'The Flaming Forest,' got wonderful fire scenes in Montana, Canada and Michigan. Antonio Moreno and Renee Adoree play the principal parts in this picture.

Immediately upon the return of the Pacific Coast battle fleet from its summer cruise up the coast, more than 2,000 bluejackets and marines turned out for fall football practice. The coming season's west coast navy football league will be composed of some twenty-five sailor teams.

The battleship league at San

Pedro will be represented by twelve battleship elevens, consisting of the California, Colorado, West Virginia, Maryland, Tennessee, New Mexico, Idaho, Mississippi, Nevada, Oklahoma, Arizona and Pennsylvania.

The San Diego naval district's football conference will be composed of teams from the fleet air force, the submarine base, the destroyer division and the Marine barracks.

The sailor elevens will be coached by naval officers who played on the Annapolis varsity last year.

The movie beauty contest is as popular a jest in Hollywood as the mother-in-law gag with the comic artist. The Universal company however, has ever been the friend of beauty contest winners and the wisdom of this course has been proved by experience.

Mary Philbin and Gertrude Olmstead, now movie stars, got their start by winning a beauty contest in Chicago and being rewarded with a six months' contract with Universal. Both are now working on the Universal lot.

Dorothy Gulliver, won a beauty contest in Salt Lake City a year ago, and is now leading lady in a college series written by Laemmle. Dorothy Kitchen, another contest winner, is playing in Universal comedies.

TODAY

(Continued from page 1)

A dozen times, black must surely come next. When prices go up for a certain length of time, they must surely go down.

They forget that while our dollar is nominally at par, it is worth about one half of what it was worth before the war. Other things that do not change are worth, in dollars, double what they were before the war.

Hence the high prices are destined to be higher for everything that is fundamentally sound.

Details of the fight between English sailors and Chinese indicates that the British continue to impress on 'inferior nations' the folly of defying the British Empire.

Five thousand Chinese were killed to pay for three Britishers. A British fighting ship that used old fashioned grappling irons in boarding a Chinese vessel, had all of one side painted red with Chinese blood when the incident was over.

A former worker for the Anti-Saloon League has deserted its ranks for the opposition. His erstwhile compatriots doubtless think he is all wet.—Nashville

MAY USE MOUNTAIN ROCK IN CONSTRUCTING BRYAN MEMORIAL UNIVERSITY

Dayton, Tenn., Sept. 16.—Natural mountain rock abounding on the hills surrounding Dayton may be used in the construction of Bryan Memorial University, according to F. E. Robinson, president of the association now founding the university. A very ornamental effect can be secured, Mr. Robinson says, by using uncut mountain rock set in reinforced concrete.

Should this style of edifice be adopted by the Bryan Memorial Association, the group of buildings, the first of which is soon to be constructed, will be artistic and unique.

The auditorium on the Assembly grounds at Montreat, N. C., of the Southern Presbyterian church, and the Assembly Inn, now nearing completion there, are constructed entirely of the material under consideration for Bryan University, and the first contribution toward the building of them, according to Dr. R. C. Anderson, president of the Montreat association, came from William Jennings Bryan in the form of a check.

A committee consisting of the officers of the Bryan Memorial University Association, A. P. Haggard, Mayor of Dayton, and John A. Abel, J. B. Swafford and R. P. Jones, will drive to Montreat this week to inspect the Assembly Inn and the auditorium there.
