TOBACCO PRICES CONTINUE HIGH LOCAL MARKET

Average of \$27.54 Made Yesterday When 821,964 Pounds Sold for \$226,382.68

With a million pounds of tobacco on the Greenville market today the week's sales will total approximately four million pounds...

On yesterday the market sold 821,964 pounds for \$226,382.68, making an average price of \$27.54 per hundred pounds.

While a crop shortage of 50,000,000 pounds has been estimated this year, the local market each week has shown gains over the corresponding periods last season...

Negro Loses \$480 on Fake \$1,000 Bill Here Yesterday

A real film-fam was pulled off in the tobacco section yesterday, and as a result one negro is out close to five hundred dollars in hard cash...

According to reports, one negro approached the other with what appeared to be a thousand dollar bill and gave forth the information that he had just found same and that he would divide with the other if he would get it changed for him...

SALT LAKE IS RISING 25 YEAR RECORDS SHOW

Salt Lake City, Oct. 7. (AP)—Great Salt Lake is rising, rather than receding, records of the last 25 years show. Salt Lake is a remnant of Lake Bonneville...

There are times when the shore lines of Salt Lake, the waters of which are 22 per cent solid, recedes, and again the waters will rise for a few inches. However, climatic conditions must change materially if the lake is to dry up or spread over the widespread areas it once covered.

TODAY

(Copyright 1926) Driving Out Labor. Here's Real News—2 to 2. Britain Doomed? Why? Ford's Plan for Boys. By ARTHUR BRISBANE

Mr. Green, able, conservative and respected head of the American Federation of Labor, was invited to speak before the Young Men's Christian Association in Detroit, then told the churchmen did not want them.

There may be a good reason for those sudden changes. But Christ, who drove the money changers from the temple, might be surprised to see him modern representatives driving laboring men from the pulpits.

It looks, according to the union man, as though money changers were 'on top' once more.

Mr. Borah is as dry as the spot in Sahara farthest from any Oasis. But he will help to re-elect Senator Wadsworth of New York, who believes that prohibition has no place in the constitution as the fathers planned it.

Senator Borah thinks it more important to keep the Senate Republican and himself regular, than to rebuke a witness.

However, that is not the news that interests this great country. The New York baseball team won Wednesday, and Babe Ruth, idol of youth and old age, made three home runs in one game, breaking all records for all time.

The pennant race stood two to two, St. Louis is delicious with pride, joy and excitement, and heavy New York is as much agitated as Newton was when working out mathematical proof of his gravitation formula, he was compelled, by emotion, to let some one finish the calculations for him.

The Bishop of London, who has been inspecting Chicago, and Lady Astor, who has just sailed away from us, criticize Dean Inge, because he says the British Empire has seen its best days. But the bishop and the lady may be wrong, although we far hope they are right.

There are no more islands, for the real fighting ocean is the air, and soon it will be the traveling ocean.

One thousand airplanes, sailing from Geneva or Moscow, could wipe out London in a morning, and all the British superdreadnaughts in such a fight would be as useless as so many painted ships on a painted ocean.

However, the British have intelligence and courage, more important than dreadnaughts. Britain's university students are taught flying and aerial artillery. Britain is building gigantic airships.

If she can sing truthfully, as she may soon do, that Britannia rules the waves, there is no reason why Britons ever should be slaves.

You can't say as much for this sleepy country. The airplane was invented here, but our government has not yet heard about it.

Henry Ford says modern industry and employers fall in their duty to growing boys, not supplying enough jobs. It is easier for a girl to get a respectable job than it is for a boy to get one.

CLAYTON SUFFERS HEAVY FIRE LOSS DURING MORNING

Timely Arrival Raleigh Fire Department Prevents Destruction of Business Section

Clayton, N. C., Oct. 8.—(AP)—Loss of approximately \$85,000 was caused here early today when fire originating in the L. H. Johnson Hardware Company building swept through two other stores before it was checked by the timely arrival of the Raleigh Fire Department.

All of the stores wrecked by the fire were located in a building owned by Sidney Horne. The building is almost a total wreck and the contents of all the stores were destroyed. Those suffering in the fire were the L. H. Johnson Hardware Company, the Clayton Department Store, and Owen Guiley Company, General Merchandise.

REGULAR SESSION OF ALDERMEN HELD HERE LAST NIGHT

Petition for One Filling Station Passed First Reading; Petition for Another Rejected

At the regular meeting of the Board of Aldermen held in the city hall last night a petition from H. A. White and Sons, for a permit to erect a gasoline filling station on the Lanier-Lott property at the corner of Pitt street and Dickerson avenue, passed its first reading. The petition of the Standard Oil Company to erect a filling station on the R. J. Cobb property at the corner of Fifth and Pitt streets was rejected by the board, the vote of the seven aldermen present being 4 against and three for granting of the permit.

Sheriff S. A. Whitehurst was granted permission to mark off and reserve space for two automobiles on Evans street near the court house for the use by cars on official duty.

The committee recently appointed by the board to look into the matter of purchasing a new motorcycle for the police department reported that a new machine was needed and the board ordered same purchased. The matter of heating equipment for the city offices and the matter of group insurance for police officers was discussed briefly and committees were appointed to investigate and report to the board at once.

In the matter of the petition for permit for the filling station on Fifth street the petitioners were represented by F. G. James, while F. C. Harding represented the opposition. Rev. W. S. Harding, pastor of the local Presbyterian Church, also made a short talk in opposition to granting of the permit for the station. The Presbyterian congregation is now preparing to erect a new church on the corner opposite the site of the proposed station and it was on the ground that the traffic from the station would prove a danger to the church-goers, that Rev. Mr. Harden protested against the erection of the station.

PITT COUNTY FAIR NEW BID MUSCLE THIS YEAR TO BE SHOALS PROPERTY BEST IN HISTORY IS NOW EXPECTED

Officials Swamped With Greatest Variety of Exhibits Ever Shown in This Section

The Pitt County Fair Grounds today was a beehive of activity as preparations for the fair which opens next Tuesday were rushed to completion. If exhibits are all that is necessary to make a fair, the fair could well open tomorrow for a ready-made exhibit than have ever before been shown here, have been received and it is still several days before the opening date.

Fine race horses that are to take part in the races that will be staged daily during the fair, have begun to arrive and trainers are busy getting their charges into shape for next week's contests.

The carnival of the Via-Ken Amusement Company, that will compose the midway attractions will arrive in this city on Sunday and everything will be in readiness when the gates swing open next Tuesday.

In addition to the best farm and educational exhibits ever shown here, the fast races and the attractive midway, the fair programs will be featured each afternoon and evening by a balloon ascension and a number of free acts and an elaborate fireworks display will be staged each evening.

Tuesday, opening day of the fair, has been designated as School Day, and on that day all school children of Pitt county will be admitted to the fair free of charge.

COMMANDER BYRD TO VISIT NEW ORLEANS New Orleans, Oct. 8.—(INS)—Commander Richard E. Byrd and the airplane in which he flew across the North Pole will come to New Orleans Airport at the opening of the new airport, General L. A. Tombs, president of the airport commission, said.

Slemp Says New Bid to Be Sent to Congress This Winter be More Favorable to Government

Washington, Oct. 8.—(AP)—A new bid for leasing Muscle Shoals properties is expected by C. Bascom Slemp, of Virginia, to be submitted to Congress this winter.

The new offer, Mr. Slemp said today, will be more favorable to the government than any of those now pending, especially from the standpoint of the guarantee of nitrate production for fertilizer. While he declined to state specifically who would submit the proposition he said it would be put forth by a group of New York engineers and financiers under an arrangement providing for public participation, a feature entirely new in proposals so far received for the Alabama property.

Cotton Ginnings October 1 Less Than Last Year

Washington, Oct. 8.—(AP)—Cotton of this year's crop ginned prior to October 1 totaled 5,629,284 running bales counting 162,041 round bales as half bales and excluding linters compared with 7,216,248 bales including 98,659 bales to that date last year, the census bureau today announced.

For North Carolina the report said the ginnings amounted to 249,100 bales.

Price Cotton Drops \$4 Bale Says Validity Merton Claim Not Affect Case New York, Oct. 8.—(AP)—Cotton dropped \$4 a bale today after publication of the government crop report. A flood of selling orders was let loose on the New York Stock Exchange demoralizing the market and smashing prices to the lowest level in more than five years. All active positions sold under 13 cents.

MEMBERS CRAVEN KIDNAPPING MOB ON TRIAL TODAY

Nine Arrested for Participation in Attempted Kidnapping On Night of Oct. 1

New Bern, Oct. 8.—(AP)—Eight men, all alleged members of the rabel mob that attempted to kidnap Ray McIlwain on the night of October 1, are on trial here this afternoon before Judge N. A. Sinclair. A ninth member of the mob has turned state's witness and was on the stand at 1:30 today relating an account of the night's expedition. The tenth member is the only man that has not yet been apprehended. Clayton Cox, arrested the day following the attempted kidnapping, when he claimed a truck abandoned at the McIlwain home, has turned state's evidence and in his statement today he accused Henry Harvey, Albert Luther and Chad Itoz, Claid and Henry Davis, Tom Watson, and Sam Jenkins, participating in the attempted kidnapping. All have been arrested on bench warrants issued by Judge Sinclair with the exception of Jenkins.

Scottish Rite Masons Remain Wilmington

The annual fall reunion of Scottish Rite Masons for the Valley of Wilmington will be held in that city on October 20 to 22.

On Wednesday, Oct. 20, the Johnson Blakely Lodge of Perfection will open its session at 9:30 a. m., closing with the 14th degree at 8 p. m. Thursday morning will be given to the Cape Fear Chapter of Rose Croix, and the afternoon and evening to Liberty Council Knights Kadosh. Friday afternoon the Consistory will meet, and the 32nd degree will be conferred at 10 p. m.

Degree teams from Rocky Mount, Lumberton and Dunn, will assist the Wilmington bodies in exemplifying the work; and a large number of candidates are expected to be present.

The Scottish Rite degrees are open to all Master Masons in good standing and properly vouched for; and, if local Masons wish, application forms or further information, they can procure the same from James E. W. Cook, 32nd degree K. C. C. H., of our city, who is the Registrar of the Reunion.

It is stated without fear of contradiction, that the work done at Wilmington is not surpassed by any body of the Rite in the Southern Jurisdiction, and all who have taken it testify to the wonderful value of the philosophy of life inculcated in the degrees.

Prominent Citizen of Halifax County Dies in Baltimore

L. J. Baker, of Palmyra, died at five o'clock this morning, in Baltimore, following a serious operation in a hospital in that city. He was 78 years old and was well known here. Mr. Baker was one of the leading citizens and largest farmers in Halifax county, as well as in Eastern North Carolina. His wife, who was Miss Martha Spull, one married daughter and four grand children, survive him. The remains will reach home tomorrow and the funeral will take place in Palmyra on Sunday.

Price Cotton Drops \$4 Bale Says Validity Merton Claim Not Affect Case

New York, Oct. 8.—(AP)—The validity of the \$7,000,000 claim, involved in the Daugherty-Miller trial had nothing at all to do with the case, United States Attorney E. R. Buckner said today in his address to the jury.

ARGUMENTS IN STEVENS TRIAL CONTINUE TODAY

Warsaw Men Being Tried for Forgery in Connection With Spurious City Notes

Kernansville, S. C., Oct. 8.—(AP)—Arguments to the jury continued today in the forgery case against H. L. Stevens, Sr., and J. K. Powell, charged with issuing spurious notes of the Town of Warsaw in order to bolster the falling credit of the bank in which both were officers.

The case reached the argument defense rested after Stevens had stage unexpectedly yesterday when the defense rested after Stevens had taken the stand in his own behalf. Attorneys for Powell announced they would present no evidence, taking the stand the state had not made out a case of forgery against their clients. A motion to nonsuit the case was denied, and argument began last night. On the stand Stevens detailed his connection with the town of Warsaw extending over two score years, and admitted signing the spurious notes. He professed, however, he had not profited a penny by the transaction, that he did not know they were spurious notes, and that he had taken the word of 'Happy' Waters, former town clerk, that they had been authorized by the Town Council. Waters died last June.

Indications were today that argument would consume the afternoon session and probably would extend into tomorrow.

THIS YEAR'S CROP COTTON LARGEST EVER BEEN GROWN

Agriculture Department Estimates Crop of 16,627,000 Bales Which Breaks Record of 1914

Washington, Oct. 8.—(AP)—This year's cotton crop will be the largest ever grown, totaling 16,627,000 bales, as compared with 135,930 bales produced in 1924, with previous record crop of 16,000,000 according to the Department of Agriculture figures. The crop gained 817,000 bales since the previous forecast in mid-September, it was indicated in a crop report today.

The September 16th condition of 59 1-2 per cent indicated a crop of 15,810,000 bales. Last year's production was 16,103,679 bales and the October 1st condition 56.6 per cent.

The indicated yield per acre on the basis of the last report is now placed at 168.4 pounds compared with 160 pounds two weeks ago and 167.2 pounds the final yield last year.

The condition on October 1 and the indicated production for certain states follows: Virginia, 65 per cent production, 44,000 bales; North Carolina, 68 per cent, 1,200,000 bales; South Carolina, 56 per cent and 1,120,000 bales; Texas, 59 per cent and 5,350,000 bales.

The government report gave the condition of the crop as 41.3 per cent.

Jardine Declares Resources Adequate Meet Cotton Needs

Washington, Oct. 8.—(AP)—Secretary Jardine expressed confidence today that the present and potential credit resources of the country are entirely adequate to meet the requirements of the present cotton crop, however bountiful it may prove.

THREE NEGROES LYNCHED TODAY SOUTH CAROLINA

Mob Storms Aiken Jail and Takes Out Three Alleged Murderers of Sheriff Howard

Aiken, S. C., Oct. 8.—(AP)—Clarence and Demon Lowman, negro men, and Bertha Lowman, a negro, all three of whom were being tried for murder this week in connection with the death of Sheriff H. H. Howard, of Aiken county, were lynched early today on the outskirts of Aiken.

A mob broke into the Aiken jail at three o'clock this morning and after overpowering jailor Taylor and Sheriff Nollie Robinson, seized the negroes and carried them in automobiles to a point on the Aiken-Columbia road about 1-4 mile beyond the Aiken city limits where in a little pine thicket the three were shot to death.

The three negroes, once had been convicted but were granted a new trial by the Supreme Court and went on trial this week. Yesterday Judge S. T. Lanham, presiding, directed a verdict of 'not guilty' for Demon Lowman on the charge of conspiracy to murder. It is believed that this verdict precipitated the lynching.

Jailor Taylor said all electric light wires to the jail were severed and he was called to the door by the mob. A demand was made for the prisoners, but he refused and had Sheriff Robinson called on the telephone. The sheriff arrived as the mob surrounded the jail and was promptly overpowered, according to the officer's version of the affair. Meanwhile some members of the mob gained access to the jail through a window in a portion of the building being used as a residence for the jailor and secured the three negroes.

Sheriff Robinson said he followed the mob part of the way toward the scene of the lynching, although he was unarmed, but was outdistanced because he was driving a small car, while the lynchers were in high powered cars.

The three victims were shot several times each, their bodies remained in the little pine thicket for several hours after they were killed.

CHINESE BOY CURED OF LEPROSY GIVES DOCTORS FAITH IN CHALMOOGRRA

Los Angeles, Oct. 8.—(INS)—Doctors the world over were interested today in the case of Nung Wung, 12 year old Chinese boy, who was recently pronounced cured of leprosy after a two-year treatment with chaulmoogra oil.

The dead plague has affected Wung's right arm, left knee, and part of his face and head when the boy, son of a Los Angeles Chinatown merchant, was brought to the General Hospital for treatment. Examined recently by Dr. Tolfer, state health officer, Wung was found to be completely cured.

According to local specialists, it is the only leprosy cura recorded in the United States.

Chaulmoogra oil is extracted from a plant found in the East Indies.

STRAIGHT-LINE FAD WILL BE RUINATION OF NATION

Atlanta, Oct. 8.—(INS)—This straight-line fad for girls and women is going to be the ruination of the nation, in the opinion of Willis A. Sutton, superintendent of Atlanta's public schools.

Hundreds of girls in the junior and senior high schools are starving themselves into sickness to get thin, when they should be trying to make themselves strong and healthy, Sutton declared.

DEMOCRATS BEGIN REAL CAMPAIGNING IN STATE TONIGHT

Heavy Artillery of Party Unlimbered for Beginning of the Battle for Votes

Raleigh, Oct. 8.—(AP)—The heavy artillery of the North Carolina Democratic party was unlimbered today for its first concerted onslaught in the battle for ballots that will continue until the polls close on November 2. There has been previous desultory firing in various sections of the state, but tonight marks the opening of the genuine pre-meditated campaign. Three speakers, spellbinders in more than name, go to the fore tonight. They are: Senator Thomas Heflin, of Alabama, who returns to Smithfield in Johnston county, to formally open the Democratic campaign there. He speaks at the court house at 7:30 o'clock. Johnston county is the mark of special Democratic attention this year because in 1924 it siddled over into the Republican column by a narrow majority.

Felix Alley, of Waynesville, is slated to go into Cherokee county for a broadside at Murphy at 8 o'clock. Last election Cherokee went Republican by over a thousand majority. Clyde Holey, of Shelby, has the call to present the party's claims to Cabarrus county voters at Concord. Cabarrus is regarded as a close county, though the Democrats carried it by something like a thousand votes in 1924.

Saturday the campaign will be continued, according to the tentative arrangements, by Zeh Long in Lincoln. Lincoln county was a close one in the last presidential battle, and Felix Alley is scheduled to carry on his verbal fire in Jackson county, another close county in the midst of the G. O. P.'s western stronghold. On Monday Congressman C. L. Abernethy is slated to get into action in Jacksonville, Onslow county, a good Democratic county, but one in which the State Headquarters officials think they can boost total. Mr. Alley is slated to carry on his campaign in Jackson on the same day.

A breathing spell is then noted on the tentative speaking list at campaign headquarters, but on Oct. 10 the fireworks are rescheduled with Pete Murphy in Hartnett, Felix Alley in Jackson, and Governor McLean in Lexington. October 18 has listed: Josephus Daniels in Elizabethtown, Max Gardner in Yancey county, and Governor McLean at Hickory. The next week finds Alley listed for speeches in Swain county and Haywood county and Gardner in Itzehombe. Josephus Daniels is booked again for Winston-Salem on November 1.

The tentative speaking dates arranged for Governor McLean carry him into Piedmont and Western North Carolina for ten speeches during October, but there is nothing definite about any of the dates because of the press of affairs upon the governor incident to outlining his program for presentation to the coming General Assembly. In addition to the speeches scheduled for Lexington and Hickory, the Governor is set down for an entire week as follows: Asheville and Burnsville, Oct. 19; Lenoir, Oct. 20; Lincoln, Oct. 21; Albemarle, Oct. 22; Asheville, Oct. 23; Troy, Oct. 25, and Lillington, Oct. 26.

The speakers will go into territory that has been well covered with literature from the general headquarters here, which has been busy for a week lining up the state for 'Democracy.'

Chairman John Dawson and his helpers are burning midnight electric current to roll up a record Democratic majority in November, despite the opinion that has been expressed that there was a spirit of general apathy toward the coming election.

Paris, Oct. 7.—(AP)—Clemenceau, although elected to the French Academy right after the Armistice in November, 1918, has refused to cross the threshold and never even presented himself for the "official reception."

During his career as a writer, politician and statesman, Clemenceau never missed an opportunity to poke fun at the "dictionary makers" as he once called the "immortals." When elected, he gave as an official reason for not accepting, the fact that

meant two speeches. One which he must make himself, lauding his predecessor. That might pass, said the Tiger. The other would relate at length his own achievements. That he could never bear, he ruled.

All the documents, invitations and other literature issued by the Academy are sent to Clemenceau as if he were a full fledged member. They invariably find the waste basket. He has never drawn his 100 francs monthly indemnity.

DORCAS CLASS OF METHODIST CHURCH HOLDS ENJOYABLE MEET

The Dorcas Junior Philathea Class of the Methodist Church held its regular monthly meeting Monday evening, October 4, at the home of Misses Almeta and Emma Mallison.

The devotional was led by Miss Almeta Mallison, the class president. This was followed by a short business session.

Afterwards the meeting was taken charge of by the hostesses, the Misses Mallison and Miss Maria Johnson, and a social hour followed. The house was attractively decorated in orange and black, carrying out the Halloween scheme. Several lively contests were engaged in and Miss Florence Lawrence was the lucky one to receive the prizes. Next the fortune telling caused much laughter and fun.

We were favored with several appropriate readings by Mrs. Leo Burke and some delightful songs by Miss Emma Mallison.

The hostesses then served a delicious ice course. After singing 'Good Night, Ladies,' all adjourned declaring they had spent a most enjoyable evening.

"Lost Lead of Red Ore Sought Fifty Years"

Hillsboro, N. M., Oct. 8.—(AP)—After 50 years of search for a "lost lead" of red ore said to have assayed \$2,100 gold to the ton, Manuel Taylor, aged but active American-Mexican who says he is a descendant of General Zachary Taylor, still pokes about this section of the southwest with two burros, confident that he will yet "strike 'er rich."

His life and the faith that goes with it stamp him as one of the last of that picturesque type—the old west gold prospector.

Taylor now is eking out a living and saving toward one more grubstake by prospecting and placer mining near Gold Dust, N. M., with a primitive machine he calls "the poor man's concentrator." But he is reputed to have mined on a vast scale at various times in his life and to have made at least six big mineral strikes and spent as many fortunes.

For instance, in 1907 and 1907 when an epidemic of influenza struck part of the country, Taylor is credited with having bought 155 coffins and paid the funeral expenses of as many of the poor of his community.

Early in the seventies an Indian friend told young Taylor he could lead him to "heap much gold." They outfit and penetrated the wild San Matil'o mountain country. Finally they reach a spot from where the Red-skin pointed a streak of red earth, much like brick dust and grunted ramatically:

"There heap much gold."

Taylor was disappointed to see no trace of gold in it.

CARLARIS, WINNER OF RICH TIA JUANA DERBY, TO SEEK NEW LAURELS

Tia Juana, Old Mexico, Oct. 7.—(INS)—Carlaris the winner of the Tia Juana Derby and the Cofroth Handicap, with purses of \$23,775 and \$70,700, is a winter track runner.

That is the explanation of local horsemen for Carlaris' terrible flop in eastern racing this summer. The summer heat, local experts believe, threw Carlaris off form.

The Tia Juana season opens Thanksgiving Day.

EPISCOPAL SERVICE AT STOKES SUNDAY

On Sunday afternoon, 3 p. m., Rev. James E. W. Cook will read evening prayer and preach in the Methodist Church at Stokes. A cordial invitation is extended to all to attend this service.

MRS. STOKES AND MRS. LAUGHINGHOUSE ENTERTAIN

Complimentary to the Three Fall Brides-elect.

The country club was a scene of beauty Thursday afternoon, when Mrs. R. C. Stokes, Jr., and Mrs. Dall Laughinghouse entertained at a rainbow party in honor of Misses Rosamond Flanagan, Hannah Dixon, and Emily Moye, fall brides-elect. The club house was prettily decorated to carry out the rainbow idea. Autumn flowers were used in profusion and the lights were shaded with the rainbow colors. The tea tables were especially attractive with silver baskets of colored flowers.

As the guests arrived, they were received by Mrs. Stokes, Mrs. C. O'H. Laughinghouse, Mrs. Dall Laughinghouse, Miss Emily Moye, Miss Hannah Dixon, Miss Rosamond Flanagan, Miss Margaret Copeland, of Kinston, and Miss Adrienne Hanby, of Wilmington. Spiced tea and wafers were served by Mesdames E. S. Williams, Hogan Gaskins, Walter Harrington and Miss Grace Wooten.

There were twenty-five tables for bridge. The top score prize, a boudoir lamp in the rainbow colors, was awarded Miss Estelle Greene. The brides-elect were presented bed lamps in the rainbow colors, and Miss Margaret Copeland, of Kinston, and Miss Adrienne Hanby, of Wilmington, house guest of Miss Flanagan, were remembered with nosegays. The table prizes were different colored earrings.

At the conclusion of the games an ice course, prettily carrying out the rainbow idea, was served by the hostesses, assisted by Mrs. R. M. Garrett, Mrs. L. H. Bowling, Miss Sarah Burton Jenkins and Miss Ernestine Forbes.

Among the out-of-town guests present for this delightful occasion were: Misses Margaret Copeland and Grace Wooten, of Kinston; Miss Adrienne Hanby, of

The cotton farmer who has some pigs, a cow, some chickens and a full garden will be lucky this winter.

The busiest farmer is the man who should keep records on his business. The man who does nothing has nothing to record.

LEST THEY SUFFER
 The Board of Aldermen is to be commended for its action in appointing a committee to look into the matter of the city's taking out group insurance on its police officers. It is no more than right that the city should make some provision for the families of its officers in case these officers should be killed or die in the services of the town. Insurance is the best way to provide for these cases and it is to be hoped that the recommendation of the committee will be favorable.

BE HERE NEXT WEEK
 If advance preparations count for anything next week will witness the biggest and best Pitt County Fair ever held and those who fail to attend will indeed be the losers. More space has been reserved for county and agricultural exhibits than at all former Pitt County Fairs combined which means that the people of our county are determined to make it a REAL COUNTY FAIR.

The fair authorities are to be congratulated on their action in prohibiting the ordinary "Skin Games" and gambling devices from operating at the fair this year. "Wholesome amusements and attractive exhibits" is

the motto of the fair authorities this year and they are determined that everyone who attends the fair will get value received for their time and money.

WHY NOT A COMMUNITY CHEST?

The fall season is on us and it will be no different from former fall seasons in that there will be drive after drive for funds for one purpose or another. Many times we have urged the establishment of a community chest here and have appealed to civic organizations to get behind the movement, but so far nothing along this line has been accomplished.

The experience of the Community Chest idea in other cities, larger and smaller than our own, has proven that it is the only businesslike manner in which to take care of these causes dependent on public contributions. The day has come when haphazard and unbusinesslike methods are more costly than well organized plans, and we urge again that some of our civic organizations who want to render a real service to the community to get behind the Community Chest proposition for Greenville.

PRESS COMMENT

AFTER THREE YEARS
 The Coolidge administration has had two major foreign policies. Thus far it has had poor luck with both of them. It chose to put this country into the World Court, has had three years to do it, and is as far away from it as ever. It chose to fund the foreign debts, on practical and realistic terms, has signed a dozen agreements really leaving the whole problem to the future, and now finds on the authority of a member of the American Debt Funding Commission, Mr. Burton, and on the authority of the Chairman of the French Debt Committee in the Chamber of Deputies, M. Darlaet that there is slim hope indeed that the pivotal one of these agreements, with the French Republic, ever will be ratified.

It is more or less frankly admitted in Washington now that the World Court issue has ended in a hash; the latest semi-official information describes Mr. Coolidge as 'gloomy' and the Administration as 'inclining to the opinion that the United States will not enter the court unless the fifty other members change their point of view'—a case once more, to quote the small boy at the parade, of everybody's being out of step but father. Meantime, in the matter of the French debt settlement, it is still the Administration's policy to adopt an attitude of professional optimism; but when Mr. Burton returns with a discouraging report and a Pointe-aux-Les committee in the French Chamber describes the settlement as 'financial slavery' for France, the outlook for ratification really is not bright.

Over a year ago, in the matter

of the French debt, The World urged that a disinterested tribunal be set up, to which two civilized friendly nations might submit a dispute over money to impartial determination. Over a year ago, in the matter of the World Court, The World urged that the question of reservations be considered not in isolation but in conference with the nations which would be our colleagues in the court.

The World, in company with other observers on the side-lines, urged a flexible policy towards both debts and court. What we have had, instead of a flexible policy, is a highly inflexible policy, a scorn for all negotiation and an attitude of take-it-or-leave-it. This may be the fault of Congress, or it may be the fault of Administration leadership—or both—but the result has been unfortunate for the Administration's plans. —New York World.

Citizens in Eastern Carolina are exceedingly optimistic regarding prospects for the future. The proposed bridge is considered as a valuable asset towards the development of real estate and the enhancement of value throughout the section. It has long been looked for and hoped for in the region. Now that contracts have been actually awarded and work planned at once, the section is thought to be on the eve of a great day.

Two Prisoners Given Reprieve By Governor

Raleigh, Oct. 8.—(AP)—Convicted in Harnett county Superior court last May of secret assault and sentenced to five years in state prison, and the sentence upheld in an opinion handed down by the Supreme court last week. Ludlow and Ronie E. Lee have gained freedom until November 5, 1926, on a reprieve issued here by Governor McLeann.

The reprieve was issued upon representation by the prosecuting witness, that he now thought he had been mistaken in his identity of the two men, and upon request of Solicitor Cawson Williams, who said he wished time to investigate. The men were released upon condition that they enter justified bond of \$10,000 each to insure delivery of themselves to the Harnett county sheriff at the expiration of the time of the reprieve or at any time ordered before that.

BUILD CAUSEWAY MOREHEAD BEACH

Contract for Connecting Link Between Mainland and Ocean Awarded

Morehead Bluffs, Oct. 8.—The Davis Construction Company was Friday awarded the contract for the immediate construction of a causeway to connect Morehead City, Morehead Bluffs and the surrounding territory with the Atlantic Beach across Bogue Sound. Will Davis, president of the company, states that construction will be started at once, so that the bridge may be used next summer.

The Atlantic Beach Bridge Company will own the bridge, the cost of which will amount to \$400,000. It will measure a mile and a half long and sixty feet wide with an eighty foot draw, and will be hard-surfaced. It will stretch half way between Morehead City and Morehead Bluffs over to the banks and the ocean beach.

Officers of the Atlantic Beach Bridge Company are W. A. Mace of Beaufort, president Floyd M. Simmons, of Charlotte, vice-president; and Jule Duncan of Beaufort, secretary and treasurer. The mainland will, by the bridge construction, be brought within a five minutes' ride to the ocean. The causeway will thus overcome a previously unsatisfactory condition by permitting the parking of automobiles on the beach.

Between March and September of this year approximately 50,000 motor cars traveled over the central highway into Morehead Bluffs and Morehead City, according to estimates of observers. It is estimated that of the 200,000 motor cars east of Greensboro that at least 25 per cent

Factory or Storage Sites

W. H. Allen property, subdivided, located on Atlantic Avenue and Bonner's Lane. Just across the street from the properties of the Imperial Tobacco Co., and the Texaco Oil Co., and is within close proximity of the city's business district. It is the most desirable site for factory or storage purposes obtainable. The property has a frontage of 60 feet and a depth of 260 feet, and there is a large two-story building on the lot.

VERY EASY TERMS—One-Fourth cash, balance 1, 2, 3, and 4 years.

A Few Reasons why investment in Greenville Real Estate should prove sound and profitable:

Greenville is the capital of the best county in Eastern North Carolina and is one of the most prosperous cities in the state. With a population of over 9,000, Greenville is steadily forging ahead.

There is no better school system in the state, and it is the home of the East Carolina Teachers College with an enrollment of approximately 800 students.

Greenville has a good cotton market, and as a tobacco market it is second to none in the world.

The varied business interest of the city compares favorably with other progressive cities of the southland.

Geographical location of Greenville makes it one of the most ideal distributing points of the state. Railroad facilities are exceptionally good, and being the hub of one of the best highway systems of the state, places the city easily accessible to a web of smaller and larger towns as well as unexcelled rural territories.

(Continued from page 1) that boys have no judgment, when they ought to say that they have an opportunity to develop judgment.

Ford intends that his employees shall represent a cross section of society, all ages from boys to old men, from girls to old women, in the proportion in which they exist in the community.

The presence of the older men adds a balance that would otherwise be lacking. It is unusual for a man to have much real judgment until he is around fifty.

That is a useful common sense.

Ford's remedy for the crime wave is to put boys and very young men at work to arouse their ambition and give them enough to live decently. A good idea.

The trouble is that bootlegging gives the young men what many of them want, a chance to live decently, with high profits and a gun.

And even Ford has produced no remedy for bootlegging.

By the way, those that watch the career of Henry Ford will be interested to know that he has a new product—you will know all about it soon—that will add hundreds of millions a year to his gross output and tens of millions of profit to his profits.

Louvain Swamped as World's Books Come

Louvain, Oct. 8.—(AP)—Louvain library, to which Uncle Sam's grandfather is developing problems. For most is the question of how to complete the half finished set of Americans to liberate

leg Belgium, with money invested in Belgian bonds which cannot now be disposed of without an enormous loss, on their face value. It may be years, as a result, before the million dollar library is completed.

Next is the problem of how to meet the upkeep of the completed unit, with an interest on \$125,000 also invested in Belgian bonds. Atop these considerations, citizens of the town are beginning to realize that the famous library is running away with them.

Where they once had a university specializing in theology, with a fine old theological library attached, they now possess one of the most important international libraries in the world with a university attached which still specializes in theology. What effect the library is going to have on the university is the question they are asking.

An unceasing flow of books comes to Louvain library from nations, societies and individuals in all parts of the world. From two to three thousand books arrive each month to swell the 600,000 already given. A staff of 12 works constantly at indexing and still thousands of volumes are uncatalogued. Professors' attics, private libraries, and even commercial warehouses are lined with the overflow of the library. Every cranny of Louvain is bulging with books, and still a generous world keeps sending.

In the complete library there will be space for 2,000,000 volumes and Louvain's librarians nevertheless are grateful for each volume they receive, no matter what the difficulties, its receipt entails for the present.

EXPLORER IN ARCTIC AND WIFE IN NEW YORK, CHAT VIA RADIO

Times-World Photo
David Binney Putnam, 13-year-old son of the director, is a member of the expedition.

George Palmer Putnam, New York Publisher, who heads American Museum Greenland Expedition now returning to New York.

But Manley managed to get Putnam into the radio room. There the explorer, now fully awake, realized that almost a miracle was about to happen. His wife, nearly 4,000 miles away in New York City, was trying to talk with him by radio!

It was just midnight in New York. Mrs. Putnam was seated in the radio room of the New York Times, where many of the messages throughout the summer from the expedition had been received. With her were Lieutenant Commander Fitzhugh Green, U. S. N., American adviser for the expedition. Mrs. Putnam had been advised that there was the latest possible chance that direct communication to and from the short-wave radio equipment of the Morrissey might be accomplished.

"Mrs. Putnam is here," Ralph Campbell, one of the Times' operators flashed to Manley.

THE schooner "Morrissey," of the American Museum Greenland Expedition, was lying off Ellesmere Land, far up in the Arctic Circle, a few nights ago. The hour was 2 a. m., Arctic time, and all members of the crew save Edward Manley, radio operator, were slumbering in their bunks.

Suddenly George Palmer Putnam, director of this expedition, which has been gathering specimens of fish and animal life for the American Museum of Natural History since last June, was aroused by someone shaking vigorously his shoulder.

"Hello Greenland!"

"Mr. Putnam! Wake up! Your wife wants to talk to you!" It was Manley shouting in the explorer's ear.

For a moment, confused by the sudden awakening, Putnam feared his radio operator must have lost his mind.

"My wife wants to talk with me? What—Say, Manley—what's the matter, old fellow?"

Then the following message came back to the New York Times from Manley. Just as it was relayed away up in the Arctic, by Putnam: "Hello, my dear. David (Mr. and Mrs. Putnam's 13-year-old son, who is a member of the expedition) and I wish you could share with us this unsully night as we parade up and down Jones Bay in fog. Manley just now on deck clearing ice off insulators. Fog freezing icy coating over all. Temperature 27. Grand run across Baffin Bay. Bdb, Art and Carl send love. Just then we crashed

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Moscow, Oct. 8.—(INS)—The alimony game, popular among unscrupulous women, is sometimes played with reverse English in Soviet Russia. The well-known legal provision of the Soviet statutes that a divorced man may obtain alimony from his wife if she has employment, and he has not, is the mere paper law. Soviet husbands are beginning to appreciate its sound worth, and to wring from their former wives as much as the judge will allow.

The married couple Pavloff, both workers, decided after four years of storm and stress to part their ways. Mrs. Pavloff took two of the children and Mr. Pavloff took two. Mr. Pavloff, however, earned but 40 roubles a month, while Mrs. Pavloff earned 75 Mr. Pavloff asked Mrs. Pavloff to help him out with a little contribution, she refused.

Taken to court, Mrs. Pavloff told the judge she would not pay her

husband a cent. You are sentenced to pay 20 roubles a month alimony for support of the children, said the judge. I won't pay, defied Mrs. Pavloff. Six months in jail, conditionally, said the judge. Rather than to go to jail, she paid.

Chairman Tomsky, of the All Union Council of Trade Unions, is strong for the practical employment of artistic treasures. If he has his way all the ancient buildings of historical importance now carefully preserved by the Main Science Board, will be turned over to the impetuous students of the Moscow higher schools for use as lodgings. A recent survey revealed that Moscow students are living in such crowded quarters that the average space occupied by each is a square six feet long by six feet wide. Tomsky has proposed that all the famous dwellings of Counts, Princes and Grand Dukes, many of them hundreds of years old, be now converted into student dormitories.

A labor conflict brought before the courts in Moscow has revealed that 2,000 miners, engaged in digging peat near this city have timed their coming to work, knocking off for lunch, and quitting in the evening by merely looking at

the sun. For more than a year there has not been a watch or a clock among either the workmen or their supervisors. The difference in their estimates finally led to a quarrel which required arbitration to settle. The judge advised the disputants to buy watch.

According to an official announcement a group of 538 Czech-Slovakian immigrants has arrived in the Republic of Kirgizstan where they will occupy land given them by the Soviet government. They brought with them agricultural implements, and equipment for a textile factory and electrical station.

If all the reports reaching Moscow are true, Russia both European and Asiatic is peppered with gold deposits from the Baltic Sea to the Pacific Ocean and from Mongolia to the Polar shores of Siberia. Hardly a day passes without some new report of gold discovered in one or another part of the Union. The Academy of Sciences has just received a report from the chief of its Vilusk expedition to northern Yakutsk, declaring that the explorers have found a valuable deposit of gold within the Arctic Circle.

10,000 Divorces Each Year Alarm Legislator Who Plans New Bill: Will Tabulate Statistics to Show Cause of Rifts in Families

Sacramento, Cal., Oct. 8.—(INS)—State investigation of the divorce evil will be demanded at the forthcoming session of the Sacramento legislature, according

to the announcement just made by Senator J. M. Imman.

Imman estimates that there are 10,000 divorces in California annually.

L. E. Ross, California's statistical psychologist, would be placed in charge of the inquiry, if his bill secures legislative approval, Imman said.

The state senator said he will introduce a measure providing for continuous compilation by the state bureau of vital statistics of all data relative to divorce in California. The bill will provide that records of every divorce granted be kept in the state archives for reference.

At the present time statistics are compiled on all births, deaths and marriages in the state, Imman asserted, but no state record of

divorces is maintained. The proposed law, he declared, would serve the following purposes:

1. It would provide accurate information for courts and attorneys in bigamy cases.
2. It would permit men and women about to marry to check up on the marital records of their intended mates. At the present time this information can be gained only by writing to each of the fifty-eight county clerks in the state.
3. It would make available to sociologists and other statistical information of the trend of divorce, revealing the cause of divorce, the number of children affected by legal separations and marital conditions leading to divorce.

N. Y.-PARIS FLIGHT PLANNED FOR 1927

New York, Oct. 3.—(INS)—The first step in an effort to interest the American public in supporting a new attempt at a New York-Paris flight early next summer was taken at a meeting of the American Society for Promotion of Aviation when a committee was organized to organize a National committee for the purpose of securing funds for the building of a new airplane for the flight.

Addressing the meeting, Thomas I. Hull, president of the Society said: "The unfortunate ending of the New York-Paris flight in which two brave men gave their lives and the almost advanced effort in airplane construction because a total loss, offers a challenge to the American people to participate in the greatest sporting event of our age. Men have constructed a machine capable of making the flight. Hundreds of American flying men are eager to make the attempt."

Unfortunately the financial considerations are such as to discourage individuals from supporting an effort which may result in a total loss. It will cost \$100,000 to \$125,000 to equip an airplane such as the Sikorsky bi-plane which was destroyed. The possibilities of an airplane on the Trans-Atlantic being forced to land in the ocean and become a total loss, although the crew may be saved, is very great.

If the proper support was forthcoming a new plane and crew could be had ready in the spring of 1927. I understand that there will be two foreign attempts made next summer, he concluded. The fact that American manufacturers have recently developed radial air cooled motors, equal to those procurable abroad, and that American radio equipment would be ready by next spring, evidenced the possibility of making the flight an entirely American affair.

BURLESON QUITS POLITICS T O DEVOTE WHOLE TIME TO HIS OIL INTERESTS

San Angelo, Tex., Oct. 3.—(INS)—Now that he is owner of oil wells along the Pecos, formerly wildcat, that are producing 2,500 barrels a day, at \$1.25 a barrel, Albert Sydney Burleson, former Postmaster General and Texas Congressman for sixteen years, is attempting to retire. Although he has made no official statement regarding his wishes to quit public life, Burleson has said that his oil wells, situated on a 17,000 acre ranch, are requiring so much of his attention that he will probably find such action advisable.

REPORT NEW TREATMENT ON LUNG TUBERCULOSIS

Washington, Oct. 7.—(AP)—The newer adaptation of lung collapse therapy, the most significant and at present most helpful advance in the treatment of tuberculosis, asserted Dr. Edouard Rist, co-director of Lagneec Hospital and Dispensary in Paris, in an address, today before the National Tuberculosis Association convention.

"Artificial pneumothorax, by means of which a diseased lung may be collapsed to superinduce artificially a restful condition of the organ," said Dr. Rist, "is the most helpful advance made in the treatment of lung tuberculosis. 'Even in those cases where both lungs were affected, the collapse of both lungs by surgical methods, with only twenty per cent of the normal vital capacity left in them, has proven beneficial. Thoracoplasty, a more modern surgical adaptation of the older method of puncturing the chest wall to collapse the lung, has resulted in the improvement of an additional number of cases where adhesions formerly prevented the obtaining of relief.'"

RAILROAD CONSOLIDATION BILL AWAITS ITS FATE

Washington, Oct. 3.—(AP)—With the death of Senator Cummins of Iowa, interest has arisen here as to what will become of the railroad consolidation bill he so ardently sponsored at the last session of Congress. The measure was stoutly opposed by the American Railway Executive Association, and it failed to gain the approval of a number of members of the Interstate Commerce committee as well as some of the members of the Interstate Commerce Commission. Senator Cummins had a dream of the carriers of the country brought together into about a dozen big systems so that the weaker roads could be maintained where needed through economies in management and joint use of terminals and equipment.

METHODIST PASTORS NOW SERVE CHURCH LONGER

Chicago, Oct. 3.—(AP)—Moving days in the Methodist Episcopal ministry from the annual shake-up of pastors are growing fewer and the length of service

FRENCH WOMEN NOW DRINK MORE LIQUOR

Paris, Oct. 7.—(AP)—French women are taking more and more to alcohol while the men are cutting down their consumption of wines and liquors, Professor Marcel Labbe, distinguished French physician, reported to the Academy of Medicine.

BATTLE BETWEEN DOG AND POLECAT BREAKS UP DANCE

Rutherfordton, N. C., Oct. 7.—(INS)—A fight between a dog

and a polecat at a dance near Chimney Rock caused much excitement and broke up the dance for a while.

The polecat crawled into the open air dance hall through a hole in the floor, evidently charmed by the jazz music. The dog, bounding in one corner of the building, spied the cat.

They fought viciously. The dancers scattered helter-skelter, the odor being too much for them. Finally the dog killed the polecat.

Talcum powder and face powder were sprinkled on the dance floor and the dance resumed after half an hour.
