ORDERS MISTRIAL IN CASE AGAINST ONSLOW YOUTHS

Judge Devin Orders Mistrial After State Announced That All Its Evidence Was in

Jacksonville, Oct. 15.—(AP)—When the state attorney this morning advised Judge W. A. Devin, presiding, that all the state's evidence had been presented in the case against six Onslow County youths, charging them with slaying Ella Hollis, their companion, on a picnic, the judge ordered the jury withdrawn and a mistrial ordered.

There was not sufficient evidence presented for the case to go to the jury, Judge Devin said. He ordered the boys held on a technical charge, so that further investigations may be made. In court circles the belief was expressed that the matter is now closed.

Those who were on trial are Leonard and Lena Edens, Roy Hudson and Arthur Jady and Lonnie Howard. They are residents of the Holly Ridge section of Onslow county, about 40 miles north of Wilmington.

GREENS MAN TAKES OWN LIFE

Traveling Representative Progressive Farmer Commits Suicide in Charlotte Hotel

Charlotte, Oct. 15.—(AP)—Seated in a comfortably upholstered chair in front of a plate glass mirror in a local hotel, Charles H. Blacknall, of Greensboro, today shot and killed himself. Ill health and financial worries were the cause, ascribed for the shooting, by relatives here.

Blacknall was about 50 years old. He was employed by the Progressive Farmer of Raleigh, as a traveling representative. He came here about three weeks ago and lived for a time with his brother-in-law, R. W. Ballard, but two days ago moved to the hotel.

The body was discovered by a maid when she inspected the room this morning. Life was extinct when the manager of the hotel and a physician arrived.

Ballard told the police that Blacknall's father, O. W. Blacknall, former owner of the Continental Plant Company of Kittrell, in 1918 shot and killed himself, his wife and a daughter. Since that time, he said, C. H. Blacknall had been on the verge of a nervous breakdown. S. M. Blacknall, proprietor of the Continental Plant Company at Kittrell is a brother of the suicide.

Navy Dirigible Los Angeles On Return Trip Today

Detroit, Oct. 15.—(AP)—The navy dirigible Los Angeles, which arrived here from Lakehurst, N. J., early this morning, will start her return trip about four o'clock this afternoon.

Warning of an approaching storm caused Lieutenant Commander C. E. Rosendahl to change his plan to remain at the Ford Air Post until tomorrow.

SAYS NORTH CAROLINA BELIEVES IN ENFORCEMENT OF PROHIBITION

Raleigh, Oct. 15. (INS)—The Old North State certainly believes in dry law enforcement. No other authority is responsible for this statement than Rev. C. A. Upchurch, superintendent of the State Anti-Saloon League. The dry fighter based his conclusion on the cooperation he said he was receiving from people with whom he was in contact.

TODAY

(Copyright 1926) Florida is All Right. Chicago's Great Street. League Founder, No Thanks. Happy Teachers, Good Schools. By ARTHUR BRIMMAN

S. Davies Warfield rendered a great service to Florida by publishing the truth about that state, and correcting exaggerations. The Seaboard will run all of its trains regularly. Damage to the railroad was slight, and is repaired.

If you are interested in Florida do not be disturbed by that tornado any more than you would have been by the recent tornado in Denmark, had you thought of moving there. The wind bloweth where it listeth, and the earth shakes more or less everywhere. It will take more than one big wind to discourage Florida.

This week Chicago's State street, heart of the city and center of retail business, celebrates with a three-day illumination festival, the spending of \$100,000 on a new lighting system.

State street will now be the most brightly lighted thoroughfare in the world, in addition to being the greatest retail street in the world, Fifth Avenue, New York, not excepted.

Give light, said Dante, and the people will find their own way. Chicago merchants are wise in giving the most light to the street that does the most business.

And it is important for a great city to keep its retail district concentrated, business makes possible concentrated advertising and means economy for merchants.

It means convenience for women in their shopping. They read the store news at home, then find everything that interests them in one neighborhood.

The brilliant lighting system of State street, increasing safety, delaying the early darkness of winter days, is an excellent beginning, typical of the energy of Chicago's business men and citizens generally.

The next step, even more important will be to increase facilities for reaching State street.

Transportation is to a city what circulation of the blood is to the body.

Chicago's 'I Will' and the civic energy of many other cities should be translated into an absolutely adequate transportation system.

A memorial to Woodrow Wilson, at Geneva, proclaims President Wilson 'founder of the League of Nations.'

One of Europe's millions that hate this country hung a sign on the Wilson Memorial saying: 'The American people have done nothing to deserve that the President should be designated as the founder of the League of Nations.'

Amen, and thank heaven for that. This country doesn't want to be the founder of the League of Nations.

It would like to be the founder of such a power on this continent as would inspire respect in those European nations. It would like to be associated in a great League of American nations North and South.

It is not America's fault if the people of Europe continue to cut each other's throat, lie, cheat, declare war.

Ten thousand high-powered, swift flying machines, plenty of submarines, and a ready answer to any impertinence from Europe is what this country needs, not any 'credit' for meddling in nation's business.

Dispatches say Missouri is taking Senator James Reed of that state 'most seriously' as a candidate for president on the Democratic ticket. Senator Reed may well be taken seriously, if he were President of the United States, there would be a fighting man in the White House, and this country would be put in condition to protect itself in war, and inspire respect in time of peace.

The United States had enough of the muck and milk policy, the silly idea of wandering around the earth to see how kind we can be

(Continued on page 8)

WHISKEY CARGO RUM SHIP ELMA DESTROYED TODAY

Crowds Groan As Laborers Smash 4,000 Cases of Genuine Booze in Wilmington

Wilmington, Oct. 15.—(AP)—Under the direction of Marshall R. W. Ward, of the Eastern District of North Carolina, 15 negro laborers today were engaged in destroying 4,000 cases of Scotch and assorted whiskey, which were taken from the rum ship Elma when that ship was brought into port here about four months ago. Destruction of the whiskey was in compliance with an order signed by Federal Judge Meekins. As the first of the 4,000 cases was brought from the customs house in which the liquor had been stored and was smashed, what was described as a groan came from the crowd of a thousand or more gathered to witness the destruction. Within an hour the odor of liquor could be smelled for three blocks from the customs house.

Football Team Local Guard Unit Beats Washington

The football team of Battery E 117th FA-NC-NG, of this city defeated the strong all-Stars of Washington by a score of 2 to 0. Throughout the entire game, both teams put up a good clean, hard fight. Neither team was able to make gains consistently on account of the stiff defense shown by each line. Washington led in first downs but a lucky break gave Greenville a safety in the first quarter. For Washington, the stellar work was done by Leach at left tackle, and Hodges and Johnson in the backfield, while coach Porter at center, Ross at tackle and West and Crisp in the backfield performed brilliantly for Greenville. The Greenville team played the entire game without a single substitution.

Line-up of the two teams: Wshn Position G'ville Jack Meekins left end Tucker Wilkerson left tackle Ross M. Meekins left guard Cox Malecix center Porter Wilcox right guard Carson Leach right tackle Evans Johnson right end Denton Frazier quarterback Crisp Bragg left halfback Forbes Hoyt right halfback West Prof. Johnson fullback Hardee This is the first time any athletics of any kind has been promoted in Greenville other than high school, and with the aid of the general public and parents of the boys it will give the boys something to do other than loiter around street corners and get into bad company. Your support is solicited for the aid of these boys.

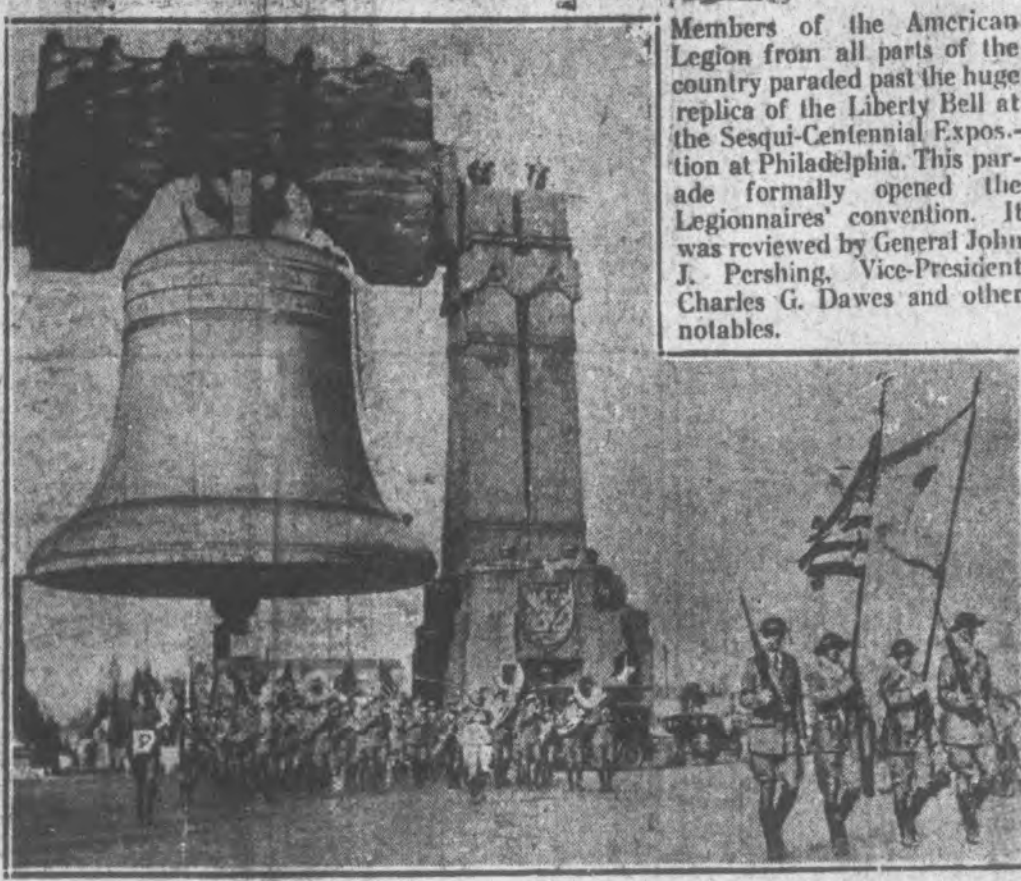

Gallery Operator Accidentally Shot

The operator of one of the shooting galleries at the Pitt County Fair received painful injuries last night when he was accidentally shot by one of the patrons of his gallery. According to reports of the affair, a young man had been shooting at the moving targets of the gallery and believing the rifle to be empty was returning it to the rack when it accidentally fired. The bullet, which was of small caliber, struck the operator of the gallery in the upper lip, cutting his lip and knocking out several teeth. He was rushed to the hospital here for treatment.

NO BIBLE COURSE IN HENDERSON SCHOOLS

Henderson, N. C., Oct. 15.—(AP)—There will be no teaching of the Bible in the city schools of Henderson this year. That question was definitely settled by the school board at its last meeting in turning down the request of Rev. Lewis Collins that Henderson schools follow the practice of a few other North Carolina towns and adopt a Bible course.

Legionnaires Parade 'Neath Liberty Bell at Sesqui

Members of the American Legion from all parts of the country paraded past the huge replica of the Liberty Bell at the Sesqui-Centennial Exposition at Philadelphia. This parade formally opened the Legionnaires' convention. It was reviewed by General John J. Pershing, Vice-President Charles G. Dawes and other notables.

M'LEAN DECLARES AIRPLANES AID PRISON PRINTING PLANT CONTINUE

Declares Prison Plant Not in Competition to Trade and Will Do State Work

Raleigh, Oct. 15.—(AP)—Governor McLean today answered critics of the recently established printing plant at the state's prison by declaring that the prison plant would engage in nothing except state work and that such prison industries had been endorsed by the American Federation of Labor. He was emphatic in declaring that the industry would be continued along with any others that offered employment and education to prisoners so long as he was governor. 'I don't intend to have any free boarding house at the penitentiary while I am Governor,' he said. 'At present North Carolina prison labor comes nearer not competing with free labor than any other state I know of.' The governor's comments were brought forth by a letter sent from the office of the North Carolina Press Association at Charlotte asking editors to register protest against the establishment of printing as a prison industry in competition with free labor. 'The greatest competition of the prison with free labor is in the production of agricultural products,' the governor declared, and added that so far there had been no kick registered by the farmers.

AIRPLANES AID IN SEARCH FOR MAIL BANDITS

Bandits Killed One, Wounded Three and Escaped With Loot Estimated up to \$300,000

Elizabeth, N. J., Oct. 15.—(AP)—State authorities today considered existing airplanes in the search for machine gun bandits, whose latest outrage was the murder of one man and the wounding of three others during a \$100,000 mail truck robbery here yesterday. Troopers maintaining picket patrols at cross roads in the North Jersey Mountain district had orders to shoot to kill. They carried rifles and gas bombs. All automobiles were stopped and occupants questioned. Eight men took part in the robbery yesterday, police announced. Two automobiles were used by bandits. They ran down a motorcycle patrolman accompanying the mail truck as it reached a busy corner near the business section and then opened fire. John Enz, driver of the truck, was killed and the patrolman and a bystander were wounded. Five bags of mail were taken from the truck and placed in the bandit cars. Estimates of the value of the loot including a payroll, ran from \$100,000 to \$300,000.

MEDICAL SOCIETY MET FARMVILLE THURSDAY NIGHT

Dr. Morrill and Hooker Hosts At Regular Meeting of Medical Society

A Halloween turkey supper, address of welcome by the mayor, short talks by new members, an address by Dr. Whittington, of Snow Hill, and several case reports made the regular monthly meeting of the Pitt County Medical Society in Farmville, Thursday evening, one of the most interesting meetings in its history. The meeting, at which Drs. D. S. Morrill and J. S. Hooker were gracious hosts, was held in the basement of the Methodist Church in Farmville. The pretty Halloween decorations and the young ladies serving, attractively dressed in Halloween costumes, made the elegant turkey supper very enjoyable.

Three Sisters Meet After 48 Years

Atlanta, Ga., Oct. 15. (INS)—Three sisters, who had not seen each other for 48 years, met here at a happy reunion. They were Mrs. Ada Cornel of Medford, Ore., Mrs. Ella McGee, of Clarkston, Wash., visiting Mrs. W. R. Harris, of Atlanta, Ga. All were born and reared in Georgia. They lived in this state until they were married and moved to different sections of the country. The two sisters, who have not been in Georgia for 48 years visited their old homestead.

Work This 'Gold Mine' When The Tide Is Out

Bandon, Ore., Oct. 14. (AP)—This town, besides the Pacific Ocean, its business district built on piling over the tide flats, has become the scene of a novel gold quest. Indications of gold quartz were found recently while drilling for piling. Search was immediately started for gold in commercial quantities next to the First National Bank. The work has to be done when the tide is out as the "mine" is discovered with water at high tide.

TO GIVE UP AIR MAIL OPERATION

Government to Seek Bids for Operation Trans-Continental Lines by Private Interests

Washington, Oct. 15.—(AP)—The government intends to relinquish operation of the trans-continental air mail service and within 30 days invitations will be issued by the Postmaster General calling for this operation by private interest.

YOSEMITE PARK TO OPEN FOR SPORT THIS WINTER

Yosemite Valley, Oct. 14.—(INS)—For the first time in history for the first time in history Yosemite will be open all winter for motorists. Thousands of visitors are expected to drive into the park to view the autumnal colorings, and later to participate in winter sports.

LOCAL TOBACCO MARKET MADE HIGHEST AVERAGE OF SEASON YESTERDAY

AMERICAN LEGION ELECTS NATIONAL OFFICERS TODAY

Col. J. Monroe Johnson, of South Carolina, Leading in the Race for National Commander

Philadelphia, Oct. 15.—(AP)—The American Legion convention today adopted the report of its naval affairs committee declaring there should be no reduction in the enlisted personnel of the navy and then went into the election of officers. Colonel John Monroe Johnson, of Marion, S. C., Howard P. Savage, of Chicago, Thomas A. Lee, of Topeka, Kansas, and Jay Williams of Aberdeen, South Dakota, were nominated for national commander.

On the first ballot the motion stood Johnson 488, Savage 485, Lee 23, Williams 18. Necessary to elect 519. Five additional ballots were taken without results. On the sixth ballot Johnson gained four votes and Savage lost 18, while Lee gained 14 and Williams remained unchanged.

PITT COUNTY FAIR TO END TOMORROW

Full Program Will Be Maintained Throughout Tomorrow and Record Crowds Expected

The Pitt County Fair in progress here since Tuesday will come to a close tomorrow night. The fair this year is the best that has ever been staged here and large crowds have been in attendance.

In reply to inquiries, Secretary W. H. Dail announced this morning that the program of the fair tomorrow would include every feature of the week with the exception of the afternoon horse races. There will be the usual band concerts, free acts, afternoon and evening two balloon ascensions and fireworks display.

The exhibit halls will also remain open throughout tomorrow to permit those who have not yet attended the fair, to see the greatest display of products ever put on at a fair in Eastern North Carolina.

It is the desire of the fair management, Mr. Dail declared, to have every person in the county see these exhibits and we have reduced the admission fee to the grounds tomorrow to 25 cents as an inducement to get them to come. This small charge covers everything, free attractions and all, and we hope to make it the biggest day of the fair.

Legion Honors Foch, Pershing

Philadelphia, Oct. 15.—(AP)—The American Legion in national convention today conferred the title of 'Honorary Commander of the American Legion' upon Marshal Foch and General Pershing for their distinguished services in the World War.

Wisconsin Woman Elected Head of Legion Auxiliary

Philadelphia, Oct. 15.—(AP)—Mrs. Adaline Wright McAuley, of Menominee, Wisconsin, was elected President of the American Legion Auxiliary at its final convention here today.

For Third Time During Week Market Averaged More Than \$30, Yesterday's Average Being \$30.73

For the third time this week the Greenville Tobacco Market averaged over thirty cents a pound when yesterday's sale of 722,304 pounds brought \$222,000.90, an average price of \$30.73 per hundred pounds. On last Monday the market averaged \$30.71 and on Wednesday \$30.36. Yesterday's day's average was the highest of the season.

Offerings today will total approximately a million and a half pounds, and the sale is the largest in the history of the Greenville market. In order to take care of the heavy sale today the market opened shortly after eight o'clock this morning and the usual lunch hour was not observed. The buyers, eager to make it possible for the farmers to dispose of their product and return home today, willingly gave up their lunch hour in exchange for a sandwich now and then between bids. This action on the part of the buyers is an example of the hearty co-operation that exists between warehousemen, buying interests and others connected with the tobacco industry here, and such unselfish service is receiving favorable comment from the growers of the section as well as local business men.

Prices, continued strong on today's sales and indications this morning were that today's average would result in a still higher average record. With today's sales the market for the season will have passed the twenty-one million pound mark.

GEORGE MAY AGAIN BECOME HEAD OF LIBERAL PARTY

Earl of Oxford Resigns Post Because of Differences With George Over Strike Situation

London, Oct. 15.—(AP)—Now that the Earl of Oxford, and Asquith has definitely retired from the leadership of the Liberal party, it is expected that David Lloyd George, the party's leader in Parliament, will be chosen for the post.

In his letter of resignation, Lord Oxford asserts indirectly that his giving up of the leadership was due to the political hostility between himself and Mr. Lloyd George growing out of the refusal of the former premier to adopt the policy of Lord Oxford and other high members of the party in characterizing the general strike in June as illegal.

This action of Lloyd George, who contended that the government should have settled the labor dispute in an amicable way, thus prevented the strike caused Lord Oxford to write a letter virtually reading Lloyd George out of the Liberal party. Then came a heated controversy and the Parliamentary Liberal party supported Lloyd George's leadership in the Chamber by a vote of 20 to 12.

In his resignation, Lord Oxford said he was firmly convinced of the correctness of his stand toward the general strike, but added that he could not and would not participate in any internal political controversy.

Fragments of the triglyphs and metopes of the Temple of Apollo dating from the time of St. Paul have been discovered by the American School of Classical Studies in Corinth, Greece.

\$434,519,660 IN MINERALS MINED BY CAL. IN 1925

Slight Decrease in Gold Production, But Year Sees General Increase

San Francisco, Cal., Oct. 15, (INS)—California produced at the rate of minerals in 1925, an increase of \$59,898,871 over the 1924 total, according to the compilation just completed by the statistical division of the State Mining Bureau, under direction of Lloyd L. Root, State Mineralogist.

The compilation lists fifty-five different mineral substances, exclusive of a segregation of the various stones, grouped under the gems. All of the fifty-eight counties of the state contributed to the list.

Gold production for the year showed a slight decrease, the statistics show, but in spite of this California continued to account for approximately 30 percent of the gold output of the United States. Value of the gold yield was \$15,065,330.

A feature of the report was the considerable increase in value of the 1925 petroleum yield 232,492,147 barrels of petroleum valued at \$30,608,829 having been produced during the year, increase of 3,558,676 barrels and \$55,256,955 over 1924.

Material advances were also made by cement, miscellaneous stone, zinc, lead and quicksilver, while decreases were registered by brick and hollow building

Mouthful

Gertrude Olmstead Newell, of Jersey City, N. J., has sixteen teeth, although she is only a year old.

blocks and by salt.

Copper, silver and pottery clay fairly held their own with only slight drops in total value. The silver yield was \$3,054,416 fine ounces, valued at \$2,119,765 and copper production was 46,868,489 pounds valued at \$6,669,527.

Lead production increased from 4,984,337 pounds worth of \$398,751 in 1924 to 1,352,322 pounds worth \$639,661 in 1925; zinc from 3,060,000 pounds and \$877,543 quicksilver from 7,068 bushels and \$543,080 to 7,683 (correct) and \$621,931, and platinum from 273 fine ounces and \$36,452 to 292 fine ounces and \$39,937.

In the structural group cement advanced from 11,655,131 barrels in 1924, worth \$23,225,850, to 13,206,630 barrels in 1925, worth \$25,043,335 and granite from a valuation of \$1,211,046 to \$1,859,452.

Of the industrial group, gas in

usually the case, there were a number of fluctuations, mineral being the only ones to show material increases. Of the salines, calcium chlorides, potash and soda increased in value, with the borates, magnesium salts and common salt decreasing.

SHELBY GOLF COURSE OFFICIALLY OPENED TODAY

Shelby, Oct. 15, (INS)—Eyes of Carolina golfdom were turned on Shelby Friday, when the 9 hole course at the Cleveland Springs estate was officially opened with a big amateur tournament. A handsome loving cup will be presented the Carolina golfers, turning in the best score for the first meet on the new course.

Will Seek Change State Divorce Laws

Charlotte, Oct. 14, (INS)—The North Carolina Legislature, when it convenes in January, will be asked to change its divorce laws.

This became known here today that when it was announced that the Charlotte Ministerial Association had voted its approval of the effort in behalf of the prohibitive movement and proposals for the reform of North Carolina divorce laws.

The Legislature, it was said, will be asked to enact laws prohibiting the granting of divorces except on the grounds of infidelity.

Arrangements for a civic prohibition rally have also been made. The rally will be held on October 31st, it was said.

SHORTAGE OF LABOR IN NORTH CAROLINA

Raleigh, Oct. 15, (INS)—An acute labor shortage existed in North Carolina today, according to Frank Grist, Commissioner of Labor and Printing.

Demand for common labor, Commissioner Grist said, has considerably reduced the supply available for cotton picking.

While Commissioner Grist's department this year, discontinued recruiting workers for the cotton field, it has been active in preventing the withdrawal of farm labor for construction purposes.

U. S. OF EUROPE IS WAY TO AVOID WARS

Denver, Oct. 14, (INS)—A "United States of Europe" is the only way to avert new wars in Europe is the belief of Professor von Schulz Gaevernitz former member of the German Reichstag and an official representative of Germany in the League of Nations.

Professor Gaevernitz is on a tour of this country. He delivered an address before the School of Commerce of Denver University during his stay in this city.

He declared that Germany has fulfilled all its duties to the Dawes plan to date, and he added, as long as an interchange of values between Germany and other nations is maintained Germany will continue to pay.

COMING VISITORS TO AMERICA

VINCENT MASSEY

MRS. VINCENT MASSEY

ANGEL MORALES

FAIK KOITZA

Vincent Massey was expected to be appointed as Canada's representative at Washington, and his wife was expected to occupy an important position in diplomatic society. Angel Morales presented his credentials at the White House as minister from the Dominican Republic, and Faik Koitza was established as new minister from Albania.

Best Dramatic Appeal in Tears and Fortitude

New York, Oct. 15, (AP)—George Cohan has sold the theatre audience: "Make 'em wait, Make 'em cry!" But Victor McLaglen observed that if he were phrasing it, he would put the laughter last. "I like to send 'em away with a grin."

His started a discussion on the Fox Films set of "Mother Machree," as to the form of final dramatic appeal best calculated to put the sum of the play's values across to the audience.

"Everybody likes to cry," said Belle Bennett. "We like to learn that in our busy lives we can feel so much unselfish sympathy for the other fellow. If an audience goes out drying its eyes, you may be sure people are satisfied with the play because it has made them satisfied with themselves."

"That's a new angle," admitted McLaglen, "and it is a fact that pathos is the eloquent interpreter of roles. Humor, tragedy, melodrama all respond to pathos. A bit at the end of a clever play will go far toward summing up all its values."

"There is one value, however, of the greatest in drama, the greatest in life which in its nature is the negation of pathos. Fortitude. If fortitude is the soul of your play; a brave borne distress a sacrifice of self, it must continue to dominate to the very end. It cannot compromise and must not be compromised."

Prince Andrew, of Russia, nephew of the late Czar, had painting as a hobby, and in his English exile now it is useful as a means of supplementing a slender income.

They tell us that Henry Ford has something up his sleeve. Probably a new motor car about that size. —Knoxville Sentinel.

U. S. Hops Industry in Comeback 'Spite Effect Prohibition

San Francisco, Oct. 15, (INS)—In spite of prohibition the hops industry of the United States has staged a remarkable comeback, according to C. E. Clemens Horst, known as the hops king of the Pacific Coast.

Foreign trade was the saving factor, Horst declared, and today the industry has reached the point where exporters are busier than in any previous year of the prohibition regime.

Hops are literally hopping out of American ports to Europe, the Orient and Latin America, Horst said.

Horst outlined the situation follows in part: "Prohibition has dealt us a heavy blow at home. Still the hops industry and commerce hold its own bravely. It has recovered itself considerably, you know, since the dry law first knocked it out of breath."

"As a result of prohibition the production of hops in the United States was cut down to about 125,000 bales per year. Since then it has gradually increased. Now it is about 175,000 bales."

"California is at the top of the list in the hops business. California grows about 75,000 bales of hops yearly. Oregon comes next with 60,000 bales and Washington third with about 30,000. No hops are grown anywhere else except in New York State. And there the production is very roughly 1,000 bales only."

The hops grown in California are the nearest approach to the hops grown in Europe, Horst declared. "The highest priced hops in the world," he continued "is a European hop known as Snaaz hop. The California hop comes nearest possible to the Snaaz, of which you may know, is a native of Czecho-Slovakia."

"The average hop grower in the United States produces 60 bales

a year in Europe about five bales a year. There are between 1500 and 2000 hop growers on the Pacific Coast, Horst said, and during the harvest season about 100,000 persons are employed to gather the crops. In California, he added a large proportion of the crop is picked by a machine that does better work than hand labor, the machine picking the hop absolutely free from leaves and other extraneous matter.

HIGH TYPE FERTILIZER TAKEN FROM USED GAS

Atlantic City, Oct. 5, (AP)—A new process for the recovery of an efficient sulphur compound from manufactured gas which is said to give to the agriculturist a superior insecticide and fertilizer was announced today at the con-

vention of the American Gas Association. W. S. Yard, vice president of the Pacific Gas and Electric Company, San Francisco, said three thousand tons of the new compound have been produced in gas plants at Oakland, San Francisco and San Jose. He predicted with other engineers, that the by-product end of the gas business and eventually enable the gas industry to become a large producer of sulphur compound heretofore unobtainable for agricultural uses.

For year, Mr. Yard declared, the agriculturist has used sulphur for an insecticide but has had difficulty in finding a form that would give satisfactory results for eliminating the red spider and controlling mildew.

London astrologers now say that the stars pointed to the defeat of Jack Dempsey by Gene Tunney. It's a wise prophet who waits until after the event to do his stuff. —Nashville Banner.

Dr. Taylor Much Improved

Friends of Dr. Fere Taylor, of Washington, who has been quite ill, will be gratified to learn that his condition is very much improved.

J. B. KITTRELL GAINING REPUTATION AS SONG LEADER

Some new musical talent was disclosed at our meeting this

year. I. N. Daker, Pittsburgh, Pa., is sure there in making the play speak for itself, while J. B. Kittrell, Greenville, N. C., stepped right into the vacant place of song leader without even a rehearsal.

The above was taken from the National Hay Press in its notes on the happenings at the National Hay Association convention held at Niagara Falls late in June, which Mr. Kittrell attended.

GREENVILLE LADIES ATTEND 15TH DIST. MEETING OF N. C. FEDERATION

The following Greenville ladies attended the Fifteenth District meeting of North Carolina Federation of Women's Clubs, held Thursday in Belhaven: Mesdames J. H. B. Moore, T. E. Hooker, W. H. Woolard, H. E. Austin, J. E. Winslow, M. H. White and M. L. Carr and Miss Nellie Tenny. Mrs. H. R. Cotten, also attended and

was one of the speakers of the occasion.

SHOWER FOR REV. AND MRS. L. E. BALLARD

On Monday evening of this week Rev. and Mrs. L. E. Ballard were given a kitchen and linen shower by the women of the Free Will Baptist Church, of which Mr. Ballard has been pastor for the past three years, retiring on October 1, to become pastor of Chestnut Street F. W. B. Church, Kinston.

The shower fell at the close of a special meeting of the Women's Missionary Society at the home of Mrs. Lillie Smith, on Cotanch street. It had been planned as a surprise to Mrs. Ballard, who, on request, came from Kinston to lead the meeting. The gifts were presented to Mrs. Ballard, in behalf of the women of the church, by Mrs. R. E. Harris, vice-president of the Missionary Society and Mrs. Lillie Smith for the L. A. Society. Both Rev. and Mrs. Ballard responded, expressing appreciation for the many favors shown by the women of the church.

OBTAIN ENTRANCE INTO ORPHANAGE

The Rev. James E. W. Cook

has succeeded in obtaining entrance to the Thompson Orphanage and Training Institute of three little Haddock girls whose mother died some months ago. As soon as funds have been raised for their necessary clothing and fares, the children will be conducted to Charlotte. The Thompson Orphanage is conducted under the auspices of the Episcopal church in North Carolina and, like the similar institutions in a ways full; but the superintendent, the Rev. W. H. Wheeler, writes, "It will somewhat overcrowd us but we will endeavor to take them as the case as you represent it, seems to be particularly urgent."

PROMINENT SPEAKER AT TEACHERS COLLEGE OCT. 18

Mr. James Speed, a prominent platform lecturer of Louisville, Kentucky, will deliver an address at East Carolina Teachers College at 8 o'clock Monday evening, October 18, on the subject of "Idealize the Job." The public is cordially invited. There will be no admission charge.

The Rev. and Mrs. James E. W. Cook and Miss Margaret Cook visited friends in Raleigh yesterday.

LITTLE CHRISTIANS ALL SET FOR GAME WITH GUILFORD SATURDAY

Wilson, Oct. 15.—With victories at Elon College and Blackstone Military Academy tucked away in their pockets, the Little Christians of Christian eleven at Atlantic Christian College are preparing for their big game of the season here Saturday afternoon with Guilford College. The game was secured following their 7-0 victory over Elon two weeks ago.

The eyes of all North Carolina grid followers will be focused on the tilt here Saturday with the Quaker eleven and many are speculating as to what the outcome may be. Coach "Pea Head" Walker has a wonder team and one that will finish high among the ranks of the smaller institutions of the state, if not the highest.

In their first start of the season the Christians handed the Elon varsity a smarting defeat only to come back and smother the Blackstone eleven under a 50 to 0 score. The Christians found little or no opposition in the Blackstone contest after the first half and every man on the squad was given an opportunity to participate in the game.

Many trick plays were resorted to and worked successfully and to a good advantage. The team under Walker's coaching had developed into a fast, smooth working machine and would give trouble to any of the "big four" teams in the state. The line has developed into a great bulwark of strength and to date had stopped all enemy attacks before the goal line was reached. The great defense put up by the Christian line last week prevented the Blackstone eleven from recording a single first down.

JOHN ROBINSON'S CIRCUS IN WASHINGTON TOMORROW

Many persons from this city have visited the exhibition of John Robinson's Circus in the neighboring towns this week. The Robinson organization is new in its 103rd annual tour and those who have seen the performances this year declare that this is the banner year so far as the variety of the performance is concerned.

The circus will be in Kinston today and will exhibit in Washington tomorrow afternoon and evening. A number of Greenville persons will attend these performances.

In the wild country between the Congo and Senegal there still remain a few tribes where slavery and cannibalism still reign supreme. A white mission is en route to emancipate the last of the slaves.

AIRPLANES FOR SALE CHEAP—BY THE POUND

Dayton, O., Oct. 15.—(AP)—When Uncle Sam moves the engineering division of the Army Air Corps, now at McCook field, to the new Wright field, he is going to sell at lot of airplanes, cheap. But they will sell by the pound or wood or metal to the junk man.

On the "dump" at the salvage depot, there are upwards of 20 discarded ships, and the number probably will be swelled to 30 when moving day comes.

These airplanes include American, English, French and German ships, grim trophies of aerial battles in France. Their war paint—battleship gray with red, white and blue markings superimposed, and the crazy quilt patterns of camouflage—is faded by Cruickshank, also of New York

pointed on the German planes are dim.

The engines have been removed from most of them and the parts saved.

THIRTY ENTRIES ARE MADE IN LOS ANGELES OPEN GOLF

Los Angeles, Oct. 15.—(INS)—More than 30 entries have already been received for the Los Angeles \$10,000 open golf championship, carrying an additional \$5,000 in complementary competitions, the richest golf tournament in the world.

Although the tournament will not be held till January, some of the best known golfers in the country have forwarded their entries. Outstanding among them in Mike Bradey of New York; MacDonald Smith, John Battini, Tom Kerrigan and Bob Crickshank, also of New York

Harry Cooper of Kansas City and Los Angeles; Eddie Loog of Lake Shore Country Club, Illinois; Tom Laly of San Antonio and Johnny Black of Wichita, Kansas.

Other entrants are Fred Barini, Pittsburgh, Charles Johnston Omaha; Joe Novak, San Francisco; Frank Sprogdell, Saginaw, Mich.; John Golden, Patterson, N. J.

HIGH COST OF LIVING BEMOANED IN GENEVA BY LEAGUE NATIONS STAFF

Geneva, Oct. 15.—(INS)—The cost of living in the city is bemoaned by the large British League of Nations staff domiciled, as well as by the large influx of visitors which arrives whenever the assembly meets.

The question has been examined by a Committee of the League. Its report shows that rents of apart-

ments have increased between 1920 and 1925 by 20 per cent. When flats of only three or four rooms are taken into account the increase has been even greater.

The general cost of living in the city has risen about 9 per cent since 1923. Food prices have shown an even more appreciable rise. The League's inquiry aimed at discovering whether there should not be an all-round increase in salaries in view of enhanced prices.

All Geneva is now repeating the story of an American millionaire who was presented with an enormous hotel bill. He told the hotel keeper that if he received such a bill again he would build a huge hotel himself in Geneva and introduce some useful competition. The hotel keeper merely replied that they had a law which prohibited the building of a new hotel in Geneva for at least ten years.

Fabrics

Woolens shown for street and sports wear sponsor unusual weaves, generally in small patterns and self-toned.

Novelty Weaves Are Prominent In New Fall Stocks

Velvet and moire are important for afternoon and evening wear in a variety of lovely colors. Brocades, also exceedingly smart, are shown in new designs.

- Woolens \$1.25 to \$5.50
- Velvets \$3.00 to \$5.50
- Moires \$1.50 to \$4.50
- Brocades \$4.50 to \$20.00

NOT A "FAKE"
 It is natural that many people have their doubts when there comes a report of oil but to say the least the Kinston Daily News seems a little premature in branding a "fake" the recent report that it is believed that oil in commercial quantities will soon be brought to the surface here.

While there is always an uncertainty as to the finding of oil and the quantity that may be concealed with in the earth at any spot, the report of the recent finding here is not a "fake" and the Kinston News would do well to withhold its judgment until the truth is known.

The report of oil here was not sent out in an effort to dupe anybody. There are neither oil stock nor property said to contain oil being offered for sale, which is evidence of good faith on the part of those who believe that oil has been found here. No outside financial aid has been solicited to carry on the investigations into the matter and persons in this and surrounding territory have been urged to use common sense and not fall for the thousand and one propositions that always fellows close on the heels of the report of the finding of oil.

The owners of the property and persons in close touch with the situation consider the prospects for oil very promising. Investigations are now proceeding in an orderly manner and soon the truth will be known. If the find materializes it will prove of untold value to the entire community while if it proves to be only a dream no one will be the loser save the individuals who now have faith enough in the proposition to go ahead on their own initiative and find out whether or not there is oil.

Under these circumstances it would seem that those who at this stage brand the story of oil here as a "fake" are rendering premature judgment and are anything but charitable in the same.

THE WISE FARMER
 The great variety of the agricultural exhibits at the Pitt County Fair reveal the fact that there is nothing for the home that cannot be raised on Pitt county soil. With this knowledge the wise farmer is one who will produce his own supplies and not depend entirely on his money crops.

The low price of cotton this year is spelling disaster for those who had put their

sole effort in that one crop and the same will be the case in other years to come. The farmer who brings a load of tobacco or a bale of cotton to town and with the money purchases feed for his stock and supplies for his family, that should have been raised on the farm, is getting nowhere and is merely fooling himself into the belief that he is really doing well. The wise farmer is the one who will raise on the farm what is needed for farm and family and then devote the rest of his time to his money crops. When farmers of Pitt county as a whole follow this method of farming the entire community will be much better off and the cry of "help" will not be heard from one end of the nation to the other when the price of cotton drops to a low figure.

Collect More Than 70 Songs Honoring Lincoln

Springfield, Ill., Oct. 15. (AP)—Campaign songs, marches, hymns of praise and funeral marches, more than seventy in number, eulogizing Abraham Lincoln, have been collected by Geo. L. Osborne, librarian of the Illinois State Historical library. "The first songs in honor of Mr. Lincoln," Miss Osborne said "were campaign songs, including 'Freedom's Call,' 'We See the Break of Day' and 'A Camping Song for Abraham Lincoln.'"

"A number of the songs were written in Negro dialect, the most famous of which were 'Ise on de Way,' 'De Day of Liberty's Comin',' 'When will dis Cruel War be Over' and 'Gib us Darkies Rest.' Other songs were written for the Negroes, telling of their troubles and their hope and faith in Lincoln.

MARRIAGE FEVER GRIPS PEOPLE OF AUSTRALIA LICENSE FIGURES SHOW

Brisbane, Australia, Oct. 15. (INS)—Latest returns show that Australia is in the grip of a marriage fever.

This year's marriage figures show a big jump on those of last year, and there are signs that the increase continue. But while the marriage rate is increasing, the statistics show that the number of births is steadily decreasing.

Since the war there has been a continuous fall in the birth rate. Spread of birth control propaganda is believed to be the reason. At the same time, the number of illegitimate births remains very high. The proportion is twice as big as in England. And, unfortunately, most of the girls concerned are very young. In 1925 34 of these child mothers were aged fourteen or under and 67 were under 15 years of age. Another 166 were under 16 and 357 had not reached their seventeenth birthday.

On the other hand, many young girls find husbands and settle down to a happy married life. In 1925 nearly 20 per cent of the brides were under 21. But the marrying fever, under the influence of the Australian sun, does not seem to disappear with the first blush of youth. Last year there were 88 bride and 268 bridegrooms over 6 years of age.

ELIZABETH CITY TO HAVE NEW HOTEL

Elizabeth City, Oct. 15. (AP)—Contract for the Virginia Dair Hotel, one of the largest community projects ever undertaken in this section of the state, has been let and work is expected to be started shortly. The hotel complete is slated to cost about \$575,000, and the actual building close to \$400,000. The building is to be financed by local interests banded together as the Elizabeth City Hotel Corporation. The building itself will be constructed on piling in order to make the foundation stable enough for later additions.

SEEK REWARD FOR MAN ELECTROCUTED OVER A YEAR AGO

Raleigh, Oct. 15. (AP)—That the notorious Stewart murder case was not ended with the electrocution of the Stewarts, father and son, here in May 1925, was brought out in Supreme court this week on an appeal of W. H. Russell and Hyatt Kennedy Brunswick county men, to recover \$500 reward from the city of Wilmington.

The men alleged that they were bringing the murderers in to jail when they were taken from them by New Hanover county deputies. The city claimed that Russell and Kennedy were attempting to shield the Stewart from arrest, and won its case in Superior court.

The two Stewarts were executed for the murder of Prohibition agents George and Lilly during the summer of 1924, a crime to which they confessed before going to their deaths.

SEATTLE IMPORTS FROGS TO PLANT IN MARSHES

Seattle, Oct. 15. (INS)—One thousand giant bullfrogs have been imported from Missouri and are being planted in the marshes and other low lying areas of King county, it was announced by the King county game warden's office. An open season on bullfrogs will be declared in two years, by which time it is expected they will have propagated tremendously, it was said.

Catching bullfrogs is quite sport, according to the game warden's office, and while some folk catch them with spears, it is considered more sporty to catch them by means of a light fly rod.

V. C. CHEMICAL TO AID FARMERS

Fertilizer Manufacturing Concern to Loan to Growers Owing It

Norfolk, Va., Oct. 14.—A method of financing cotton growers throughout the South states over a period of price depression by loans on cotton certificates by the Virginia Carolina Chemical Corporation, with headquarters in Richmond, Va., was announced here today by Geo. H. Sargeant, manager of the Norfolk sales office of the corporation, whose territory covers the eastern section of North Carolina.

The plan, coming to Tucker & Dudley, Greenville, N. C., from George H. Holderness, vice president and treasurer of the corporation, formerly a well known banker and financier of Tarboro, N. C., includes the loan of 10 cents a pound on cotton held by growers who are indebted to the organization at a 5 per cent interest rate, the first notes running until May 1, 1927.

The reorganized Virginia-Carolina Chemical Corporation is said to have large funds on hand to advance to cotton growers indebted to it for fertilizers, one of the biggest items of the growers, and will put this plan in operation at once to relieve the tension caused by the low level cotton reached last week. The policy of the organization, instead of pressing collections for fertilizers used for the season's crop, is announced as one of lending money to its debtors in amounts probably in excess of the indebtedness at a rate of interest lower than the legal rate. See Tucker and Dudley, for arrangements.

FATHER ANN'S SON DIE IN ELECTRIC CHAIR SATURDAY

After Two Years in Shadow of Chair They Still Hope Lives May Be Spared

Columbia, S. C., Oct. 15. (INS)—Alexander and Holland Pittman, father and son, will die in the electric chair at dawn tomorrow for the murder of J. M. Holland, unless an eleventh hour respite on the part of the Governor of South Carolina saves them.

The pair, who have lived in the shadow of the electric chair since 1924 when they were convicted of the murder still hope against hope that their lives will be spared.

The father and son, stalwart mountaineers of Glass mountain were convicted of killing Holland who with Federal Agent Ruben Gosnell was raiding stills on the mountain.

Both father and son are typical mountaineers, cool, reserved, indifferent. They hold no moral scruples against distilling liquor. That profession was bred in them. Their sires for generations before them became gray in the manufacture of the contraband. The call to administer over the mash barrel and worm became natural to them.

Silence has prevailed over the pair for their 18 months in jail until the supreme court affirmed the lower court's decision. When told that all legal channels were blocked in saving them from the chair, the pair only again protested their innocence and talked of their home folks.

The pair was convicted on circumstantial evidence. Both tried to prove alibis but admitted manufacturing liquor. The older Pittman's father was killed when he fell from a horse since they have been under death sentence and both son and grandson were denied the right to attend the funeral.

Shocked by the tragic death of her husband, the fate of her son and grandson bearing on her mind the elderly Pittman's mother died a few days later. Refused the privilege of attending his father's funeral, the prisoner made a request to attend that of his mother. The son of the condemned man, also facing death tomorrow, was as silent as his father.

Then came the final shock. Their home up in the mountains the cabin where mother and father were raised and the place they still called home, was burned to the ground.

Holland Pittman, the son, received visits from his boyhood sweetheart. Despite his sentence to die they were married in March, 1924. Their stories of love were whispered through the bars of the prison.

When his youthful wife heard that the supreme court had denied a new trial she issued a confession that she and not her husband or father-in-law killed the federal officer.

The young wife declared that she killed the officer because she feared he was going to kill her sweetheart, whom was now her husband. "I wanted to tell all the time but Holland wouldn't

Aimee Semple McPherson Registers Interest and Indifference

let me. He said the courts would give him a new trial. But her story was not taken seriously by authorities and she was never arrested.

Yale's New Polo Field to Complete World's Finest

New Haven, Conn., Oct. 15. (INS)—With the completion of an outdoor polo field the gigantic sports plant of Yale University is now reaching its final stage in which Yale will probably have the finest group of playgrounds of any University on earth. The group is to be known as Walter Camp Field, in memory of the father of American football and perhaps today Yale's best known graduate.

The polo field is to be known as "Phipps Field" in honor of the New York family which gave the money for making the field possible. Phipps Field will first be used next fall when its grandstand capable of seating several thousand people probably will be filled to capacity since Yale possesses nearly all the American polo honors possible.

Walter Camp Fields include the noted Yale Bowl and five other football fields, including one exclusively for freshmen, beside a large space on which class football games are played; five baseball diamonds with Varsity and freshmen fields; a large field for track games; two soccer fields; twenty-eight tennis courts with more in the making; rifle ranges; a cross country run course and one of the finest 18-hole golf courses on earth that can be expanded if needed to supply two more equal courses.

Within the group are the Latham-Feld House, gift of a Boston alumnus of Yale; Yale artillery armory where indoor polo is played; various grandstands now of wood to be replaced by concrete affairs and ticket houses. The golf course, somewhat removed from the other fields, has its own handsome clubhouse, built by cabin fashion.

Walter Camp Fields are about two miles from the nearest University but are connected by a belt line bus system operated for students' benefit with the University athletics offices on the old campus. Another bus line operates to the golf course a mile west of the Bowl.

Hens scratching in a sandpit on the golf links at Fleetwood, England, resulted in the discovery of 400 Roman coins.

Former Royal Guard is Guide in Kansas City

Kansas City, Mo., Oct. 15. (INS)—When Queen Marie of Roumania visits this city on her American tour she will have a member of body guard a staid, rather pugy middle-aged man—one of the many city detectives here, Harry Hirsch, by name.

Twenty years ago at the royal palace at Bucharest, when trumpets blared to herald the approach of the queen, Harry Hirsch, a young lieutenant in the palace guard, snapped to a deferential salute and stood erectly at attention as Her Majesty passed by.

When he was told, therefore, that he again was to be one of Queen Marie's bodyguard, the man was all smiles.

"She is a wonderful woman—beautiful and democratic," he said.

Dr. Hardman, Will Be Installed in June

Atlanta, Ga., Oct. 15. (INS)—For the first time in the history of this state, Georgia is to have a governor from the ranks of the medical profession. He is Dr. L. Griffin Hardman, of Commerce, Ga., millionaire cotton mill owner who takes office next June by virtue of his victory in the democratic run-off over John N. Holder, state highway commission chairman.

Hardman's victory climaxed a bitter fight over a state highway bond issue. Holder opposed a bond issue, but Hardman secured the support of J. O. Wood and George H. Corswell, "also-rans" in the first primary.

Hardman was engaged in the active practice of medicine in 1919, when he retired to devote his time to his numerous financial industrial and agricultural enterprises. He was born in Commerce in 1856, the son of Dr. W. B. J. Hardman and Susan Elizabeth Colquitt Hardman, his mother having been a member of the famous Colquitt family which produced several distinguished figures in public life in the south.

REAL TOM THUMB WEDDING IN RALEIGH

Raleigh, Oct. 13. (AP)—The Capital City has had many play "Tom Thumb Weddings" among its younger set, but the one here early this week was for keeps—featuring "better or far worse, 'till death do us part."

The parties to the unique ceremony were midgets with carnival showing here this week. They ended their romance of the tent and road only as romances properly can be ended.

MAUDE IN PETER GRIMM

Cyril Maude's contemplated return to the London stage in "The Return of Peter Grimm," would bring it first before London audiences. Another play in which David Warfield won great success in New York, "The Music Master," has never been produced in Great Britain, but Maude Moschovitch is now playing it in Australia.

WESTERN TEACHERS TO MEET ASHEVILLE

Asheville, Oct. 14. (INS)—A Teachers' and educators from all parts of Western North Carolina will be assembled here Friday and Saturday for the fourth annual session of the North Carolina Educational Association.

"KID MCCOY" TO HEAR SENTENCE ON OCT. 20

San Francisco, Oct. 14. (INS)—Norman Selby, once famous in boxing circles as "Kid McCoy" and now serving in San Quentin prison for the murder of his sweetheart, Mrs. Anna Mohr in Los Angeles, is due to appear before the state prison board October 20 to have his indeterminate sentence fixed.

Gorman's Market Report

Gorman has FIRST Sale Monday, FIRST SECOND Sale Tuesday, FIRST Sale Wednesday, SECOND Sale Thursday and FIRST Sale Friday. The following (25th and 29th) our sales will be the same, this is caused by the switch in the houses.

Until Friday the sales had not been so large this week. Prices have advanced on the better grades, also on the common grades. Our Thursday's sale of 169,074 pounds sold for \$55,909.50, averaging \$33.07 for entire sale. Note we give actual figures; which our competitors are not doing. We never try to mislead. You will notice in the sales attached that we are selling some tobacco close to 90c. We advise grading and selling as we believe the prices are about as good as they can hope to be. It pays to work your tobacco dry and keep the colors together.

If you are not selling your tobacco in Greenville, and at GORMAN'S, come to see our sales or talk with some one who is selling with us. We do not rebate, have no one hired except those who work in the warehouse. We do not pay truckers or hauling. WE DO OUR DRUMMING WITH OUR SATISFIED CUSTOMERS. Send us your tobacco and you will go home satisfied.

Below we give you a few sales made Wednesday and Thursday:

Smith & Coward—56 at 70; 36 at 69; 84 at 64; 86 at 66; 96 at 56; 130 at 49; 116 at 51; 84 at 36; 56 at 34.....	Average \$63.47

RESEARCH WORK COVERING STATE

Maps Indicate Extension Work State College Touched Every County

Raleigh, Oct. 15. (AP)—Research and demonstration work with soil and crop, now cover the main soil types of North Carolina and gives facts about new farming ideas from nearly the entire State, believes C. B. Williams, Chief of the Department of Agronomy at the North Carolina State College.

"I have just been preparing some maps to see how our work is covering North Carolina," says Mr. Williams. "And I find that some feature of the work can be found in nearly every county and on several farms in each county." One of the maps that first attracts attention in Mr. Williams' office is the one showing progress with the soil survey. This survey is the basis for all fertility studies in the Department of Agronomy and the map shows that 63 counties have been completely surveyed. There are 14 other areas surveyed which do not follow county lines and there are only 24 counties in which the soils have not been studied. Even in these the soil types are similar to those in counties surveyed and it is a rather easy matter now to make recommendations for the handling of such soils.

Scientific research with soil and crops is conducted on the six branch experiment station farms and the main station at the College. But in addition there are 14 outfitting fields utilized in this work also. Cultural, seeding and spacing tests with crops are conducted in four counties, crop improvement in 8 counties, cotton variety demonstrations in 14 counties and tobacco demonstrations in 15 counties.

Extension work with soils and crops is conducted by the extension agronomists in 36 counties with 105 definite, concrete demonstrations. Of this number 56 are crop rotations tests, 22 are soybeans variety tests and 27 dem-

onstrations are soil improvement tests. In planning and conducting these many demonstrations and tests the research workers have the assistance of county agents and superintendents of the branch experiment station farms, yet the agronomy specialists must give the work careful detailed attention, states Mr. Williams. "Our men are constantly in the field, making notes on crop growth studying the behavior of the plants and checking on the yields and results," says Mr. Williams. "However, we are rapidly accumulating a vast amount of facts about the crops and soils of North Carolina that will be of value in our future agriculture. I believe the work at this Experiment Station compares favorably with that of any other station in the South. In fact, some of our critics say that we are ahead of most states in the work we are doing."

Small Conventions Bring More Profits to Jacksonville, Fla

Jacksonville, Fla., Oct. 15. (INS)—Conventions of less than 300 delegates are most profitable to the cities in which they are held, according to a survey made by chamber of commerce officials here.

Smaller conventions are easier to handle and the expenditures are less. The survey shows that the average delegate to a convention is found to spend about \$11.25 per day while in the convention city. Three days is the average life of a convention and approximately \$33.75 is left in the city profits \$10.125 by each convention. The Jacksonville chamber says that the advertising value of a convention cannot be measured in dollars and cents and is the best advertising medium for the amount of money spent by them in securing the sessions for this city. To get one person to come to your city, become impressed with it and return to tell his home folks is worth many times as much as knowing that hundreds have read of your town attractions in magazines or on bill boards, is their contention. "The convention pays dividends

that cannot and should not be measured in monetary returns," said W. L. Whitehead, chairman of the convention division. "It is in most cases an accepted fact that conventions are the cheapest and most effective means of advertising a community because they bring thousands of prospects into intimate contact with the city during the year."

Japan Prepares Drastic New Laws to Protect Women

Washington, Oct. 15. (INS)—Aimed at the protection of Japan's future generations, the government of this nation has promulgated drastic laws protecting juveniles and women in industry.

Details of the social innovation has been communicated to this country by Ambassador Chas. Mac Veagh and made public by the department of commerce.

Guarding the welfare of mothers and the future born, the Minister of Home Affairs has issued regulations under the factory law providing that female operatives may work four weeks or less before child-birth, request suspension from work. They are prohibited from resuming work before six weeks have elapsed after child birth.

Operatives nursing children less than one year of age are to be given two additional recess periods of thirty minutes each day. Mae Veagh's communication showed that the legislation is applicable to factories employing ten or more operatives and to industries considered to be injurious to health. It is provided, however, that ten classes of work which are household industries will be exempt, although the home affairs minister may officially apply the law to those factories which employ mechanical prime movers.

The revised ordinance enumerates sixty industries held to be injurious to health, an increase of forty over the original bill. "The employment of minors less than 14 years of age is prohibited, with the exception of minors more than 12 years old engaged in household industries, together with members of the family of their employers", Mae Veagh said.

Effective July 1, 1923, juveniles less than 16 years of age and female operatives will not be permitted to work more than 11 hours per day and their employment between the hours of 10 p. m. and 5 a. m. is prohibited. They to be given two days holiday in each month and if engaged six or more hours daily in work are to receive 30 minutes recess, of which is increased to one hour when the working day exceeds 10 hours.

The provision for the granting of relief in the event of illness, injury or death of an operative have been considerably improved. The ordinance now requires that operators to prove to the satisfaction of the local authorities that the illness injury or death of an operative did not occur in the performance of his duties, and at the same time the allowance which the operator is required to pay have been increased appreciably.

Employers are required to pay to properly designated members of the operative's family a sum equivalent to his wages for 360 days in case of death. An allowance for funeral expenses equal to 20 days wages is also paid. A schedule of allowances, varying with the degree of the injury from 540 days' wages to 180 days wages, is also to be paid by the operator when an operative is injured.

Wife Lending Rows to Keep King Occupied

San Francisco, Oct. 15. (AP)—Disputes arising over the strange social custom of wife-lending take much of the time of the king of Washington Island.

Washington Island, a coral atoll in the midst of the Pacific Ocean near Fanning Island, is inhabited by a hundred Gilbertese blacks, imported by a British company from the Gilbert Islands to work coconut plantations. There are only two white men on the island. One is Harry G. Glenn, the "King," and manager. The other is his assistant, the "Prime Minister." Glenn passed through here enroute to England

for a vacation after a three year's reign as king. Wife lending is the native way of combatting matrimonial ennui, says Glenn. When a husband and wife tire of each other, the man lends his spouse to a friend for a time, her consent being necessary, however. Often the friend is a young bachelor who has boarded with the family.

JERUSALEM BECOMING A BUSINESS MAN'S TOWN

Jerusalem, Oct. 16.—(AP)—In contrast to the recent disturbed and dismal conditions in Syria is the activity, prosperity and peace obtaining in Palestine. Jerusalem formerly a city exclusively for pilgrims and tourists, is rapidly becoming a center for merchants and business men.

Under the firm, just and impartial rule of the British, the Jews are rebuilding their Promised Land, making it, instead of a shrine where pilgrims admired holy ruins and dwelt in the gloom of the past, an up-to-date and enterprising country.

Jerusalem now consists of two cities, the old and the new. The new, sprung up within the last few years, consists of residential shopping and business quarters, Jewish settlements, schools, churches, and large religious institutions. "It is entirely modern.

The old city, flanked on three sides by deep valleys, is made up of narrow crooked streets, filled with loaded donkeys and camels and lined with romantic and historical buildings.

GREAT BRITAIN SEEN AS BEST U. S. CUSTOMER

Nearly Half Our Exports for Year 1926 Will Go to British Ports

Washington, Oct. 15, (INS)—The tremendous importance of Great Britain, both as a customer and source of supply for the United States, is disclosed in figures of foreign trade available at the department of commerce.

In the year of 1926 nearly one half of all the goods sold by the American industry will go to Great Britain or countries under its immediate protection. United States draws on England and its colonies for over one-third of our imports.

While some uncertainty as to exports and imports for the last few months of the year exist it was expected that the outgoing business would somewhat exceed fiscal year foreign selling of \$4,758,000,000 and that imports would not equal the exports.

For seven months of the year out of a total export trade of \$2,575,000,000 the United States sold goods to British possessions amounting to a value of \$1,102,096,000.

America's foreign buying in that period was \$2,612,105,000, of which \$953,485,000 came from Great Britain.

The United Kingdom and Canada accounted for over \$900,000,000 of American exports, relatively small sales having been made to other states under control of England, such as British India, Malaya, Hongkong, Australia, New Zealand, British South Africa and Egypt.

Imports from Britain, however were more widely distributed. Canada and the United Kingdom furnished this country goods valued at \$492,000,000 for the seven months ending August 1, as were \$265,740,000 and British India \$101,755.

Imports from Great Britain were \$130,000,000 greater in the seven months than the corresponding period last year, while the gain in exports amounted to \$35,308,000.

Experts at the department of commerce explained that the big increase in imports was primarily due to advanced prices of rubber which came in great quantities from British Malaya, in the first six months of the year.

From July to the present time, however, the United States has succeeded in partially breaking the British rubber monopoly and imports have declined in price to a material extent. Just what will occur in the future was said to be problematical as British interests are making a strong effort to reinstate higher rubber prices. Another factor contributing to the increased imports from Great Britain is the fact that outstanding prosperity has marked the American business picture in the last year, resulting in an unusual demand for many exotic products which are produced on British soil.

Officials regard the increase in exports to the British possession, of importance, in the face of competition from England, Germany and other European producers and in spite of a falling off of total exports to all countries of \$127,000,000 in the seven months.

United States increased exports to all British territory excepting the United Kingdom, the largest boost having been in business with Canada to which was sold goods valued at \$419,783,000 in the January-August period against \$366,132,000 last year.

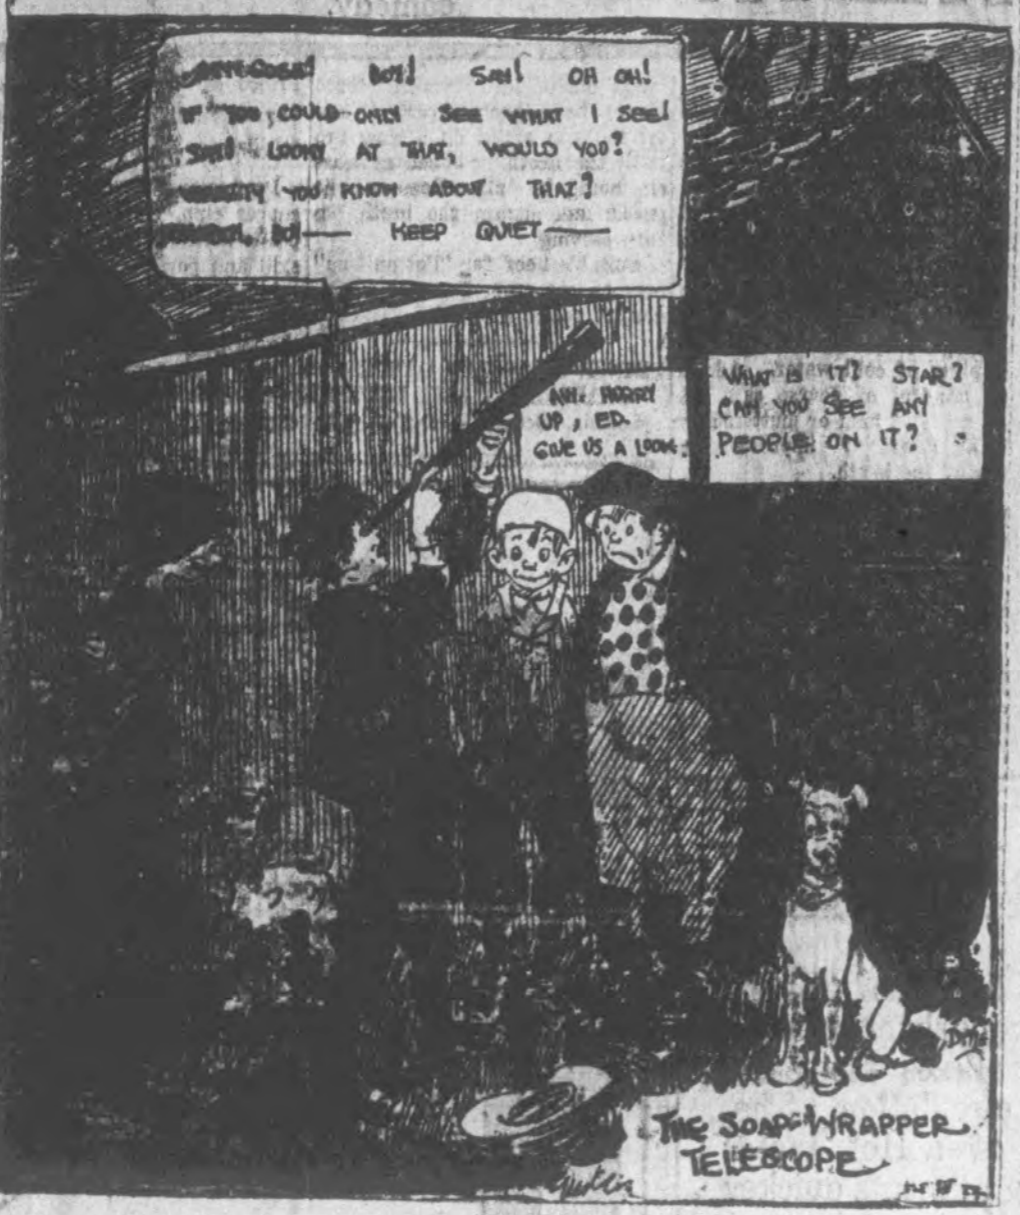

The trade to the British possessions was mainly in manufactured goods, representing the greater efficiency of American industry as compared to that of foreign countries.

Commerce department figures show that the aggregate trade both import and export of 55 principal countries in 1925 amounted to \$58,500,000,000, representing approximately nine-tenths of the world foreign business.

That was an increase of 13 per cent over 1925 and 54 per cent over 1913. Whether the usual annual increase will be seen again this year is somewhat doubtful according to experts who predicted that the trade would not be far from that in 1925.

British trade was greater than that of any other nation. The exports from United States in 1925, amounting to \$4,910,000,000 were larger than the exports of any other country, and outside of Great Britain exceeded the combined exports of any two other countries.

SCHOOL DAYS By DWIGHT

Commissioners for additional funds. The clinics will be held in the offices of the Burlington Red Cross and will serve the counties of Romance, Chatham, Orange, Randolph and Oxford.

DRY PROBLEM BIG FOR NEW ZEALAND

Los Angeles, Oct. 14.—(INS)—Prohibition is one of the most important problems confronting the people of New Zealand today, and it may soon become a paramount political issue. Rt. Hon. J. G. Coats, premier of New Zealand, revealed upon his arrival in the United States.

At the present the liquor question in New Zealand is a "moral issue" with the voters given the right to express their wishes in the matter by referendum every three years.

"Thus far no dry political party has been formed," the premier of the Far Eastern island explained, "but that may be development and then prohibition will be the big political issue."

"Our people are happy and our workmen enjoy good conditions, but there is an element of discord which we hope to eliminate. Adherents of socialism demand state control of finances, public utilities and other works."

ILLINOIS CAMPAIGN BOOMING MERRILY

Springfield, Ill., Oct. 14.—(INS)—Guns are booming merrily in Illinois as office seekers bombard the state's voters with their plea for votes at the November election.

The Republican candidates are invading Illinois towns and cities en masse, making the tour by motor bus. The state candidates are headed by Col. Frank L. Smith.

RECRUIT NEW CREW FOR CUTTER MODOC

Wilmington, Oct. 14.—(AP)—The Coast Guard Cutter 'Modoc' is replenishing her crew, and Lieutenant Ricketts is on the lookout for good men who have a hankering to follow the sea on one of Uncle Sam's fastest cruisers.

Ten men were needed to complete her personnel and two of these were signed on early this week. The enlistment officer said that special care was being exercised in picking the recruits.

DENVER TAXABLE WEALTH IS PUT AT \$1,550,445,321

Denver, Colo., Oct. 14.—(INS)—Taxable property in the state of Colorado is valued at \$1,550,445,321, according to announcement by the State Board of Equalization. This is an increase of \$9,712,834 over last year.

The Board of Equalization figures show that the city of Denver's assessed property value in 1926 was \$430,186,290, an increase of \$13,581,600 over 1925.

MORE ORTHOPEDIC CLINICS BE ESTABLISHED

Burlington, Oct. 14.—(INS)—Plans for the establishment of an orthopedic clinic here under the supervision of the State Division of Vocational Education were laid at a meeting of the Rotary and Kiwanis Clubs and the Alumnus County Medical Society here this week. The civic organizations promised financial support for the project and Dr. Walter Cole, of Greensboro, offered to donate his services for the work. The first clinic is expected to be held in about two weeks.

The plan under which vocational division clinics are now being operated successfully in a dozen cities in the state was presented by H. L. Stanton, state supervisor of industrial rehabilitation, and Claud H. Andrews, district supervisor. Members of the civic clubs expressed themselves as heartily in favor of aiding in the work and promised that efforts would be brought to bear on the County

Daily News Letter

Comps of Staff Correspondents at World Centers of Population.

Paris, Oct. 15. (INS)—Paris butchers are cross because the new penitence regime allowing no more than two meat plates for one, permits an insufficient proportion of kidney, heart and tripe dishes. Thousands of kilograms of hearts, kidneys and heads are thrown away daily, according to the butcher, who say they must kill the same number of animals

as before and there is a great waste.

And then the bakers have chip on their shoulders as well. They are urging a more general use of the little bread roll, called "petit pain" by the French, and affirm it is all in the interest of economy although everyone knows that the roll is more expensive than ordinary bread. They say, however, that this piece of bread is just about as much as anyone does or should eat for a meal. When large loaves cut into small slices are served, one piece is very often not enough and two are too much. The result spells waste.

One of the doors of the new Arab mosque recently built in Paris is extremely beautifully studded with large-headed nails. It is by no means the least im-

portant ornament of the fine Mussulman edifice. Unfortunately, one by one, slowly but surely, the superb pattern is being destroyed for the nails are gradually disappearing in spite of the fact that they are solidly rivetted.

Certain ones accuse tourist souvenir-hunters. Others believe it to be the Mohammedians themselves who carry away the nails in honor to their Mosque or perhaps to the Great Black Stone of their Mecca.

James Joyce, the Irish man of "Ulysses" fame, has been at Ostend in Belgium all summer with a German translator who is putting the celebrated book into shape for the Germans to read. He has completed the translation, read the proofs and returned everything to the printers, who will have it ready for autumn. One wonders if the book which was refused in America will have any trouble getting over the German border.

Seventy-two years at the end of a rope—this was the career of Gustave Malfroot des Alost in Belgium during a long lifetime. Gustave, who was the Dean of Bell-ringers, has just died at the age of 95 years. If this were an age of fairy stories the faithful bells would undoubtedly ring out alone to sent Gustave to his last resting place.

At the much-talked of luncheon served to Briand and Stresemann in the little inn of Thory, near Geneva, the pastry cook presented a delicious cake covered with icing on which were written the words: "Viva la Paix." (Live Peace.)

TODAY

(Continued from page 1) to others. Presidents and senators are paid to render service to this country.

New York University for young women, Barnard College, intends to set aside one million dollars to increase teacher's salaries, a wise decision.

Well paid, satisfied teachers, their services appreciated, are more important than new buildings or any sort of fine collegiate monuments.

Young students eager to learn, and teachers competent to teach. In any sort of building will do the work of education.

Learned Professor Bunting, of Michigan, says a strong jaw does not necessarily mean a strong or fierce character. A weak chin may be due to rickets in the blood or to imperfect chewing of food. Bad diet changes the face.

Much truth in all that. But Mussolini's jaw doesn't come from chewing food. He inherited it. When a man says, 'I will,' he sticks out his jaw, and when he says, 'I can't' or 'I am afraid' his jaw goes back. Fighting men, as they grow older, develop stronger chins, bigger noses, weak men the reverse.

"POT AU FEU" FAVORITE DISH WITH THE FRENCH

Paris, Oct. 15.—(AP)—Here is the recipe for "Pot au Feu" which is the favorite dish in France, the land more celebrated than any other for its cookery: Tie a string tightly about two pounds of beef and p'ate it in a saucepan containing ten and one half pints of cold water. Add a good handful of coarse salt. A small piece of ham or mutton may also be added to improve the flavor of the broth.

large onion, into which three cloves have been thrust. Then let the pan stand on a slow fire until the broth is boiled at least six hours in all. Remove the grease and strain the broth before serving. Suitable beef for "Pot au Feu" may be cut from the rum, shoulder, or round of beef.

Prince of Wales now dances the Charleston like a professional, according to his intimates.

Professional dances at a London supper club, which the Prince recently attended were amazed at the skill and perfect rhythm which he exhibited when dancing, while diners were equally amazed when the Prince asked and paid for his bill, a thing unheard of a few years back, when loyalty only carried money for gratuities.

Headlines that tell the story "I am innocent," cries the city treasurer.—Lakeland Ledger.

"Pitt County's Leading Furniture and Stove Dealers"

75 New Patrons At The Star Thursday 514 New Patrons at The Star Since Opening

Our sale Thursday, with house full was the highest on record for 1926, and we had 75 new patrons on sale, many averaging 60 to 63c. Our sales are increasing daily and WE ARE SATISFYING OUR PATRONS WITH PURE AMERICAN DOLLARS. We are selling real fine grades up to 90c.

We positively know we are higher than other markets. We are daily selling tobacco from Wilson, Lenoir, Beaufort and Martin, and practically every county in Eastern Carolina, and some Virginia counties. They are convinced we are higher than any market they have seen. With present prices, it is so easy to lose \$100 in the sale of one load of tobacco. For instance, we sold tobacco yesterday which had been split with other markets which brought 11c, 15c, and 20c per pounds more money at the STAR.

(GOVERNMENT REPORT)
